

River Street Reconstruction Working Group Meeting #11

The River Street Reconstruction Project will upgrade the subsurface infrastructure while developing a new street design for River Street, the bus terminal area at River and Magazine Streets near Central Square, and Carl Barron Plaza. Visit <http://www.cambridgema.gov/riverstreet> for updates.

Following the virtual open house in October 2020, the City has planned additional working group meetings as the project team progresses in developing conceptual designs for Carl Barron Plaza then final design and construction documents. All project working group meetings are open to the public.

At this meeting, the project team will summarize public feedback from the virtual public meeting in late 2020. We will also share how the River Street design has changed in response to the public feedback. The project team will focus on providing updates about the design of Tubman Square and Carl Barron Plaza. The meeting will begin promptly at 5:30 PM and end by 7:00 PM.

River Street Reconstruction Working Group Meeting #11

Thursday, May 6, 2021

5:30 PM – 7:30 PM

To register for this meeting with remote participation on Zoom webinar:
