Intro note

This pamphlet contains data from 34, out of 92, parks and playgrounds in Cambridge. To make this pamphlet unique, it is based off of a survey completed mostly by kids in April, 2022. It provides youth and caregivers an understanding of the play environment at each location before you arrive.

This pamphlet is a supplement to the Cambridge Community Development Department Parks and Playgrounds guide: www.cambridgema.gov/cdd/parks which is a comprehensive review of all the parks and playgrounds in the city, but does not describe the specific features at playgrounds. This pamphlet takes into account the details about playgrounds that are important to children and their families, such as if a playground has a swing, slide, climbing structure, or water feature.

I hope this pamphlet helps you to enjoy the outdoors and explore new neighborhoods in Cambridge.

This project was completed as part of my Scout BSA Eagle rank service project.

Cambridge, Massachusetts contains over 90 parks and playgrounds with various features. This pamphlet contains data from 34 of those playgrounds.

The data was collected through a survey completed mostly by kids. It is intended to help youth and caregivers have an understanding of the playground, from a kid's perspective, before they arrive.
