15.30 INTENSITY OF DEVELOPMENT REQUIREMENTS

15.31 *Applicability.* The amount and density of development within the Cambridgeport Revitalization Development District shall be governed by the provisions of this Section 15.30.

15.32 *District Development Limitations.* There shall be a limitation on the amount of all development within the District and a minimum requirement of residential (excluding hotel and motel uses) development within the District, both as specified below.

15.32.1 The aggregate of all development in the District shall not exceed (i) one million eight hundred twenty thousand (1,820,000) square feet of gross floor area (GFA) in nonresidential buildings (which term for the purpose of this Article shall exclude parking facilities and portions of the buildings containing parking facilities and shall include buildings and portions of buildings containing hotel and motel uses) and (ii) seven hundred twenty-five thousand (725,000) square feet of GFA in residential buildings.

Aggregate GFA development in the District is at any time the sum of the GFA (as defined in Article 2.000 of this Ordinance) of all such nonresidential buildings (i) which are then located in the District and (ii) which are being constructed or may be constructed in the District pursuant to then effective building permits.

15.32.2 As an incentive for the maximum allowable density as provided in Subsection 15.32.1 there is a minimum requirement of residential (excluding hotel and motel uses) development within the District of four hundred (400) dwelling units as set forth in Section 15.32.5. One hundred (100) dwelling units shall be made available for a period not less than thirty (30) years for families having an income of eighty percent (80%) or less of the median family income for the Metropolitan Boston Statistical Area adjusted for family size (hereinafter identified as low income units) and an additional fifty (50) units shall be made available for a period not less than thirty (30) years for occupants meeting the income limits established from time to time by the Massachusetts Housing Finance Agency for first time homebuyers, adjusted for family size (hereinafter identified as moderate income units). A minimum of two hundred and fifty (250) of the required dwelling units shall be located West of Sidney Street.

Notwithstanding the exclusion set forth in Section 11.202.2, the provisions of Section 11.200 of this Ordinance shall apply to any development in the District that is approved after January 1, 2012, except for those provisions that relate to authorizations for an increase in permissible density or intensity of use in Sections 11.203.2(b) and (c), which shall not be available beyond the overall limitations for GFA established for the District by this Section 15.000.

15.32.3 Retail and consumer service establishments as permitted in Section 15.21.3 (excluding uses accessory to and within hotels and other accessory uses such as newsstands and cafeterias serving primarily occupants of the development within the District) and entertainment uses as permitted in Section 15.21.5(1) shall be limited to a maximum of one hundred and fifty thousand (150,000) gross square feet. Any such uses that are required by Section 15.24 shall be exempt from this limitation.

15.32.4 Any construction or change of use within the District which would cause aggregate or cumulative GFA or dwelling unit limitations of Subsections 15.32.1, 15.32.2, and 15.32.3 to exceeded shall not be allowed.

(1) Compliance with this Section 15.32.4 shall be determined by the Superintendent of Buildings at all times including at the time of issuance of a certificate of occupancy under Section 9.20 of this Ordinance.

- (2) The Superintendent of Buildings shall maintain a record of the aggregate GFA of nonresidential buildings within the District, a record of the cumulative number of dwelling units in the District, the GFA of such dwelling units and a list of the units designated to satisfy the requirements of Section 15.32.2. These records shall be updated as appropriate, from time to time, including upon issuance, revocation or expiration of a building permit or certificate of occupancy and may be relied on by any interested party to determine compliance with the provisions and requirements of this Article.
- (3) Prior to the issuance of any building permits the Superintendent of Buildings shall on the basis of information submitted with the building permit application determine whether the minimum required residential development and the minimum required publicly beneficial open space are capable of being developed within the District.

In no case, however, shall the Superintendent of Buildings issue a building permit increasing the aggregate gross floor area of all buildings in the District beyond 1,000,000 square feet unless there exists at least one hundred ten (110) dwelling units of which at least twenty-seven (27) are low income dwelling units, and at least sixty thousand (60,000) square feet of area have been reserved or designated as publicly beneficial open space in partial satisfaction of the requirements of Section 15.40; nor shall the Superintendent of Buildings issue a building permit increasing the aggregate gross floor area of nonresidential buildings in the District beyond 1,850,000 square feet unless there exist at least four hundred (400) dwelling units of which at least one hundred (100) are low income units and at least fifty (50) are moderate income units.

- (4) The application for a building permit or a certificate of occupancy shall be accompanied with the following information submitted to the Superintendent of Buildings, as appropriate to the application, in order to determine compliance with this Section 15.32.
- (a) measurement of total gross floor area of the new nonresidential buildings or building additions to nonresidential buildings;
 - (b) measurement of gross floor areas of renovations or use changes within existing buildings;

- (c) the total number of dwelling units in the new building, building addition or renovated building, the gross floor area of such units, and the number of such units being dedicated to families having an income maximum specified in Section 15.32.2;
- (d) the aggregate or cumulative gross floor area of all nonresidential buildings located within the District;
- (e) the aggregate or cumulative number of dwelling units located within the District, the aggregate or cumulative gross floor area of units and the aggregate or cumulative number of such units dedicated to families having an income maximum specified in Section 15.32.2;
- (f) the development site(s) set aside for compliance with minimum residential development required pursuant to Section 15.32.2;
- (g) the aggregate or cumulative gross floor area devoted to retail and consumer service establishments as permitted in Section 15.21.3 (but excluding accessory uses such as newsstands and cafeterias serving primarily occupants of the development within the District) and entertainment uses as permitted in Section 15.21.5(1);
- (h) the aggregate total publicly beneficial open space provided in conformance with the requirements of Section 15.40.

15.32.5 Notwithstanding the provisions of Subsection 15.32.1, development in the District shall not exceed one million and seven hundred and fifty thousand (1,750,000) square feet of GFA in nonresidential buildings and four hundred (400) dwelling units, without first submitting a development plan of the District to the Planning Board and obtaining the approval of the Planning Board of the further proposed development within the District or any portion thereof. The development plan shall show the approximate location of all existing and proposed buildings, the aggregate GFA thereof, and the uses thereof; and all streets, parking facilities, the number of parking spaces thereof, curb cuts, offstreet loading areas and publicly beneficial open spaces within the District. There shall be submitted with the development plan sufficient additional information to enable the Planning Board to determine whether the existing improvements and uses thereof comply within the requirements of this Article at the time that

such development plan is submitted. The development plan shall be accompanied by a traffic report containing such information as may be necessary to determine whether or not the provisions of subparagraph (v) of this Subsection 15.23.5 have been satisfied. In considering the development plan the Planning Board shall conform to all requirements of procedure applicable to requests for special permits (including requirements for public hearing and notice) pursuant to this Ordinance. The Planning Board shall approve any development plan under the provisions of this Subsection 15.32.5 if the following requirements are met:

- (iv) The improvements existing at the time of the submittal of any development plan shall have been constructed substantially in accordance with design guidelines (including without limitation any restrictions on building heights) agreed to between the City and owner as may be amended pursuant to the Development Consultation Procedure; and
- (v) Implementation of traffic mitigation measures which have as a standard the maximum generation of one thousand seven hundred (1,700) two way (inbound and outbound) vehicular trips at PM peak hour from all development within the District measured in accordance with the traffic mitigation agreement between Cambridge Community Development Department and owner as may be amended pursuant to the Development Consultation Procedure; to the extent that the total PM peak hour two way vehicle trip generation for all development with the District measured at the time of the submission of development plan pursuant to this Subsection 15.32.5 exceeds one thousand five hundred (1,500) trips but is less than the maximum one thousand seven hundred (1,700) trips,

additional gross floor area shall be permitted up to the maximum limit of one hundred and fifty thousand (150,000) square feet pursuant to such traffic mitigation agreement.

15.33 *Building Height Limitation.* The maximum building height within one hundred (100) feet of the easterly sideline of Brookline Street south of Franklin Street shall be forty (40) feet. 15.34 *Maximum Floor Area Ratio Requirements*

For the area west of Sidney Street the following aggregate FAR limitations shall be in effect:

- (1) For the subarea bounded by Sidney, Franklin, Brookline, and Pacific Streets, the maximum aggregate FAR shall be 3.0 except that for the portion of the subarea within one hundred and seventy-five (175) feet of the easterly sideline of Brookline Street the maximum aggregate FAR shall be 1.5.
