Dear Mr. Director,

I, the undersigned Cambridge voter, request that the Commission initiate a landmark designation study process for the Dr. Wilfred Delaney House located at 2161 Massachusetts Avenue. The Delaney House is significant for several reasons:

- Built in 1939, the House was designed by noted Cambridge Architect William Lawrence Galvin, who attended Rindge Technical School, the Huntington School, and the Cambridge High & Latin School before graduating Harvard College (1925) and Harvard School of Architecture (1931).
- The Delaney House is among the most elegant examples of Galvin's contributions to the Streamline Moderne style, showcasing the vitality of this Art Deco architectural movement here in Cambridge.
- As the New England headquarters of American Friends Service Committee from 1976-2021, the Delaney house was a center of anti-war and social justice activism and publishing in Cambridge for almost half a century.

Thank you in advance for your time and consideration.
