WORKS**

# The Port Infrastructure Improvements Project

# #6

of 6

## How to Get Involved and Stay Informed

### Project Working Group (meetings are open to the public)

- Project Working Group includes community members and local community organizations
- Provides consistent input and community perspective in the planning and design process
- Help facilitate flow of information to and from the community regarding the project

### What to Expect

- Proactive communication about construction work timing and impacts
- Several opportunities to engage and provide input, especially on surface design options
- Community conversations and special events
- Surveys
- Working with the community to mitigate impacts of work
- Support for businesses
