

# Design Approach - Linnaean St to Waterhouse St

## Draft Curbside Use and Crosswalk Locations

- With the median removed and a 3-lane cross-section proposed in this segment, curbside activity can be maintained on both sides.
- Some on-street metered parking will be converted to space for new crosswalks, turn lanes, loading and accessible parking.
- New crosswalks proposed at Sacramento Street, Mellen Street and mid-block between Everett and Waterhouse Streets
- Between Everett Street and Waterhouse Street, two options for bus stop locations are being considered. See bus stop option board for more details.
