MARKING YOUR BALLOT

Voting is easy! The City Council and School Committee ballots list candidates with numbered ovals next to their names. Just rank the candidates in order of preference by filling in the numbered ovals.

Valid Markings

Mark your choices by completely filling in the numbered ovals.

Fill in the number one (1) oval next to your first choice. Fill in the number two (2) oval next to your second choice, and so on.

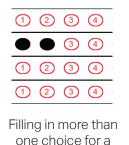

You don't need to rank all the candidates: you may fill in as many or as few choices as you please.

Only one vote per candidate. Only one vote per column.

Just be aware that each ballot might have the candidates in a different order! The candidates' names are rotated in alphabetical order on the ballot so that each candidate appears in the desirable top-of-the ballot position on an equal number of ballots.

If you make a mistake, you can return your ballot to the election worker and receive another one. You are limited to three attempts at completing your ballot.

Proportional Representation

Since 1941 the City of Cambridge has elected its City Council and School Committee by Proportional Representation (PR).

Elections for nine members of the City Council and six members of the School Committee are held in November in odd-numbered years.

PR elections ensure the fair representation of all voters. Any group of voters that number more than one-tenth of the votes cast can be sure of electing at least one member of a nine-member Council, but a majority group of voters can be sure of electing a majority of the Council. The majority elect a majority of seats, but minority groupings also win their fair share of representation.

PR elections also ensure that no ballot is wasted. Your ballot will only count for one candidate. If the candidate you rank first loses, or already has enough votes to win, your ballot will be transferred to the next choice you marked.

Ranking only one candidate does not give that candidate an advantage, so rank as many candidates as you like.

HOW THE BALLOTS ARE COUNTED

First Count:

The ballots are sorted by the number one (#1) vote on each ballot. Candidates are ranked according to the number of first choice votes received.

Calculate Quota:

Quota is determined by the following formula:

$$Quota = \frac{Number\ of\ valid\ Ballots}{Number\ to\ elect+1} + 1$$

For example, if 24,990 valid ballots are cast for City Council, the quota will be 2,500 (24,990 divided by 10, plus 1).

Distribute the Surplus:

Any candidates who reach the necessary quota with number one (#1) votes are declared elected. Any extra ballots they receive beyond the quota are redistributed to the candidates marked next in preference on the ballot. For example, if quota is 2,500 and a candidate receives 3,000 first choice ballots, 500 ballots will be transferred.

Eliminating Candidates:

The count continues with the elimination of candidates who have fewer than fifty number one (#1) votes. Their ballots are redistributed to the other candidates according to the next preference marked. After each distribution, each candidate's new vote total is established. Then the candidate with the lowest number of votes is declared defeated and that candidate's ballots are redistributed to the voter's next indicated preference.

Electing Candidates:

As candidates reach the quota through the addition of redistributed ballots to their totals, they are declared elected and no further ballots are transferred to them. This process continues until all candidates have been eliminated except the nine winners for city council or six winners for school committee.

Interested in Working on Election Day?

The Election Commission accepts applications throughout the year from registered voters who are interested in working at the polls on Election Day.

Download an application at: www.cambridgema.gov/ElectionWorkers

Applications are also available at the Election Commission office.

Election Results:

On Election Night, all of the ballots that went through the scanners on Election Day, including absentee ballots, will be tabulated. Preliminary results will be posted on the City of Cambridge homepage at www. cambridgema.gov on Election Night, once every precinct has reported to the Central Tabulation Center at the Senior Center.

Beginning the day after the election, the Commissioners will review all write-in ballots and auxiliary ballots by hand and add these to the results. Auxiliary ballots are ballots that cannot be read by the scanners. These results are unofficial results because they still do not include all ballots.

The Election Commission will meet 10 days after the election to count any overseas absentee ballots or provisional ballot that are determined to be valid. Once these final ballots have been added to the results, the count will be complete and the Election Commission will release the official results.
