Subject: Tobin Montessori questions

1 - Has the pandemic and the economic crash that seems to be following - all the failures of local businesses and loss of jobs - made city officials want to pause and consider whether this major building effort should be rethought? Shouldn't some of this money be used to help Cambridge recover from the economic blow?

2 - How does the Covid crisis impact the projected growth in our schools? It seems likely that many people would consider the outer, less expensive suburbs since telecommuting is a probable work option for the future.

Thank you,
Jodie Siegel
