

Clement Morgan Park

Soil Testing: January 24-26, 2024

Park is **OPEN**

Please stay away from restricted areas

Clement Morgan Park is being redesigned as part of the Port Infrastructure Improvements Project. As part of the design planning, engineers working for the City will be drilling test pits and installing monitoring wells in several locations around the park. This work will help the team better understand underground soil conditions.

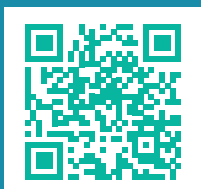

Areas where this testing takes place will be restricted.

Work will take place weather permitting.

- The park is **OPEN** during this work, **but some areas will be restricted.**
- Restricted areas are marked with cones and caution tape.
- The basketball court remains **OPEN** throughout testing/monitoring.
- The machinery used to perform this work may be loud.
- Work hours are **7 a.m.–4 p.m.**
- All holes will be refilled and the area cleared at the end of the drilling and installations.

Cambridge DPW staff will be on-site during this work and are available to respond to questions and concerns. In case of a construction emergency, call the Cambridge Public Works Department 24-hour hotline at 617-349-4800.
