I live at 364 Concord and have 2 comments:

It seems as if in trying to respond to traffic complaints you've come up with a worse solution (the road through what's now a park).

The Tobin field is a tremendous community resource. It's a pity to lose it.

Also, as I've heard from many friends and neighbors many of whom are teachers, we don't need to win any architectural awards, just a school that works to educate our kids and has room on the site for all the neighbors.
