**RE: File 11248 – Automated Traffic Data Collection Services**

---

**This addendum is comprised of:**

**Submitted Questions and Answers**

**SUBMITTED QUESTIONS AND ANSWERS:**

**Q1:** Currently, automation does not reliably support a wide variety of micro-mobility classifications. Is manual review for those classifications expected? If not, can the automation requirement be removed from the video-based device or can the micro-mobility classification requirement be removed from the classification breakdown?

**A1:** Micro-mobility modes including but not limited to scooters, e-bikes, one-wheels, etc. shall be included in the bicycle classification.
