Amend Sections 3.32.1 and 3.32.2 to read as follows:

3.32.1 Where more than one-half the area of said lot is in a less restricted district, (either in terms of the district's overall regulations or a single regulation), ~~the Board of Zoning Appeal may grant a special permit allowing~~ any of the less restrictive dimensional regulation(s) ~~to may be~~ extended up to twenty-five (25) feet into the more restricted district as-of-right for buildings or portions of buildings containing residential uses listed in Section 4.31 a-j or upon issuance of a special permit by the Board of Zoning Appeal for buildings or portions of buildings containing other uses. Uses not allowed in the more restricted districts shall not extend into the more restricted districts.

Amendments to Article 4.000.

Amend Section 4.21, Paragraph c. to read as follows:

- c. Provisions of garage or parking space for occupants, employees, customers, or visitors shall be considered as an accessory use, ~~provided that where accessory to residential uses in Residence A and B districts such garage or parking space shall be limited to the accommodation of three passenger vehicles, or two passenger vehicles for each dwelling unit, whichever is greater.~~

Amend Section 4.21, Paragraph j. to read as follows:

Amend Section 4.21, Paragraph k. to read as follows:

- k. An accessory building in Residence ~~A, B, C, C-1,~~ and Office-1 districts shall not exceed fifteen (15) feet in height above the ground level.

Amend Section 4.22 to read as follows:

4.22 ~~Accessory Apartments~~ Accessory Apartments shall be permitted in all zoning districts where Residences are permitted. The purpose of this Subsection 4.22 is to allow for the creation of accessory apartments in all districts. Many large existing single and two-family dwellings or other accessory buildings on their lots are underutilized. Alteration of these buildings to provide one additional dwelling unit on the lot would be prohibited in most cases due to the existing floor area ratio and/or lot area per dwelling unit requirements of Subsection 5.31, among other zoning limitations. Given contemporary lifestyles,

~~housing needs, and energy and maintenance costs, it is beneficial to the City to allow greater flexibility in the use of such buildings to add new dwelling units without substantially altering the environmental quality of their surrounding neighborhoods. This Subsection 4.22 gives the Board of Zoning Appeal the authority to relax such requirements in certain instances as enumerated below.~~

~~4.22.1~~In all districts the Board of Zoning Appeal may grant a special permit for the alteration of an existing single family detached dwelling, two family dwelling, or accessory building on the same lot as a single family or two family dwelling to provide one accessory apartment if the following conditions are met:

- ~~1. The building containing the accessory apartment has been in existence since on or before February 1, 2019.~~
- ~~2. In the case of an accessory apartment within a single family or two family dwelling, prior to alteration the dwelling contains at least one thousand eight hundred (1800) square feet of gross floor area.~~
- ~~3. In the case of an accessory apartment within a single family or two family dwelling, such accessory apartment shall not occupy more than 900 square feet or thirty five (35) percent of the gross floor area of the principal dwelling, whichever is less. An accessory apartment created within an accessory building shall not occupy more than 900 square feet.~~
- ~~4. No more than one accessory apartment shall be allowed on any lot.~~

~~4.22.2~~In all districts any existing two family dwelling may be converted to a single family detached dwelling with one accessory apartment by right, without need for a Special Permit, if the conditions set forth in Section 4.22.1 above are met.

~~4.22.3~~In granting a special permit for an accessory apartment, the Board may relax or waive applicable zoning requirements to enable the creation of the accessory apartment as set forth below:

- ~~1. Accessory apartments shall not be counted in applying the lot area per dwelling unit limitations of the zoning district.~~
- ~~2. The Board may relax applicable floor area ratio (FAR) or gross floor area (GFA) limitations, to the extent necessary, to enable the creation of an accessory apartment within the envelope of an existing structure; however, any additional GFA created outside the envelope of the existing structure shall comply with applicable FAR or GFA limitations for the lot.~~
- ~~3. The Board may alter applicable yard setback or height limitations, to the extent necessary, to enable site improvements that may be required to ensure the safe habitation of the accessory apartment, including but not limited to emergency egress routes; however, any movement or alteration to the principal exterior walls or roof of a building shall comply with applicable yard setback and height limitations for the lot.~~
- ~~4. No off-street parking shall be required for an accessory apartment.~~

~~4.22.4~~In granting a special permit for an accessory apartment, the Board shall determine that the General Special Permit Criteria set forth in Section 10.43 of this Zoning Ordinance are met and that any alterations that are visible from the exterior of the building shall be compatible with the appearance and character of the neighborhood and are minimally necessary to enable the creation of the accessory apartment. The Board may impose such conditions as it may deem appropriate to ensure ongoing compliance with such criteria and to avoid undue detriment to the neighborhood or to nearby persons or property.

~~4.26.2~~ The construction of a multifamily dwelling or of elderly oriented congregate housing in a Residence C, Residence C-1, Residence C-1A, Office 1, Business A-1 or Business A-3 district which contains less than twelve (12) dwelling units or twenty-four (24) dwelling living spaces shall require a special permit if both of the following conditions pertain to the development:

- ~~(1)~~ another permit for a multifamily dwelling or elderly oriented congregate housing has been granted within the twelve month period immediately preceding the date of permit application for the lot on which the development would be located or on an abutting lot;

- ~~2.~~ The lot area per dwelling unit proposed is less than one thousand, two hundred (1,200) square feet in an Industry C district, six hundred (600) square feet in an Industry A, or three hundred (300) square feet in an Industry A-2, Industry B or Industry B-1 district; or
- ~~3.~~ Twelve (12) or more dwelling units are proposed where any portion of the development is located within one hundred (100) feet of a Residence A-1, A-2, B, C, or C-1 district.

~~4.26.4~~ A special permit from the Planning Board shall be required for development of elderly oriented housing if a building permit, special permit or variance application filed for construction of elderly oriented housing on a lot on which a permit to demolish a dwelling has been granted within the previous three (3) years and on which said dwelling was demolished or will be demolished prior to construction of said elderly oriented housing.

In Residence ~~B, C,~~ C-1, C-1A, 2, 2A, 2B, 3, 3A, and 3B Districts, certain Retail and Consumer Service Establishments identified in the Table of Use Regulations may be allowed by special permit from the Board of Zoning Appeal, subject to the criteria set forth in Sections 10.43 and 10.43.1 of this Zoning Ordinance, if all of the following conditions are met:
-

Amend Section 4.53 to read as follows:

4.53 Approach. This Section 4.50 establishes special use regulations for institutional activities in the Residence ~~A-1, A-2, B, C and~~ C-1 zoning districts. These regulations encompass the full range of institutional uses. Each use is regulated based on its expected physical impacts on nearby residences, on the existing or recent use of the lot or structure proposed for such use, and on the location of the lot either within or outside of an area in which there has already been extensive institutional development.

Amend Section 4.54 to read as follows:

4.54*Institutional Overlay District.* The designation Institutional Overlay District is hereby established on the Zoning Map as provided for in Subsection 3.12. An Institutional Overlay District delimits an area where there has been extensive contiguous development of institutional use types subject to regulation under this Section 4.50. Institutional Overlay Districts are defined in order to identify areas where prior development patterns create a precedent for more flexible institutional use regulation than in areas where non institutional uses predominate. The conditions regarding development of new or expanded institutional uses under Subsections 4.55 and 4.56 are determined in part by whether a lot is located inside or outside an Institutional Overlay District. The boundaries of these districts are drawn based on several physical factors; consequently, for purposes of definitional clarity, they encompass areas both inside and outside zoning districts subject to use regulation under this Section 4.50. Regardless of the location of an Institutional Overlay District boundary, the special institutional use regulations of this Section 4.50 shall only apply within the Residence ~~A-1, A-2, B, C and~~ C-1 districts. The following Institutional Overlay Districts are hereby established on the Zoning Map.

Amend Section 4.55 to read as follows:

4.55*Existing Lot Status.* The institutional use of land or structures for each category of institutional activity in a Residence ~~A-1, A-2, B, C and~~ C-1 district shall be governed by the Table of Institutional Use Regulations in Subsection 4.56. The institutional use regulation in the table shall be the same in the aforementioned ~~five (5)~~ zoning districts, but shall differ according to: (1) the applicable use category, (2) the location of the lot in relation to the Institutional Overlay Districts, and (3) the status of the lot in relation to its existing or recent use. If two or more of the lot status types listed below would pertain to the proposed development of an institutional use, then the more restrictive designation among the types of lot status for the use would apply. The column heading in Subsection 4.56 refers to the types of lot status listed in Subsection 4.55.1 and applies to institutional development whether by conversion of an existing structure or lot or by new construction or new use of a lot.

In these instances, the following height limitations shall apply to those building elements:

Create a new Section 5.23.3 to read as follows:

(a) Buildings or portions of buildings used as Residences, listed in Section 4.31 a-j of this Zoning Ordinance, are generally limited by the maximum number of Stories Above Grade and by the maximum building height above grade in feet, which is intended to enable the allowed number of Stories Above Grade while limiting excessive story height. Amend Section 5.27 (to be renumbered 5.25.7) to read as follows:

~~5.25.57~~ Calculation for lot in two or more zoning districts. The maximum residential density (lot area per dwelling unit) and gross floor area allowed on lots located in two or more zoning districts shall be calculated using the formulas specified in this Subsection 5.27.

~~5.27.1~~ The total number of dwelling units allowed shall be the sum of the total dwelling units allowed in each district, determined by adding the lot area in each district divided by the minimum lot area per dwelling unit for each district.

$$\text{Max \# dwelling units} = \frac{\text{Lot area in district 1}}{\text{district 1 min. lot area/du}} + \frac{\text{Lot area in district 2}}{\text{district 2 min. lot area/du}}$$

~~Where the computation of the total number of dwelling units allowed in each district results in two fractional numbers and where the sum of the resulting remainders from both districts equals or exceeds one, an additional unit shall be permitted.~~

~~5.27.2~~ To the extent that FAR or GFA limitations are applicable to a particular use, the maximum gross floor area permitted for that use on a lot located in two or more zoning districts shall be the sum of the total allowed gross floor area permitted for that use in each district portion of the lot, typically determined by adding multiplying the lot area in each district multiplied by the maximum allowed floor area ratio (FAR) for that use in that for each district and adding the results for each portion of the lot.

Maximum Gross Floor Area = (Lot area in district 1 x district 1 FAR applicable to that use) + (Lot area in district 2 x district 2 FAR applicable to that use)

Delete Section 5.28.1 as follows:

~~5.28.1~~ ~~[Deleted]~~ ~~Dwellings in Non-Residential Districts. A dwelling shall be subject to the dimensional standards generally applicable in the district set forth in the Tables of Dimensional Requirements in Section 5.30, except as provided for below.~~

- ~~a. A dwelling in a Business A district shall be subject to the same dimensional requirements and other restrictions as a dwelling in a Residence C-2B district, except that the height limitation on lots abutting Hampshire Street shall be sixty-five (65) feet.~~
- ~~b. A dwelling in a Business A-1 district shall be subject to the same dimensional requirements and other restrictions as a dwelling in a Residence C-1 district.~~
- ~~c. A dwelling in a Business B district shall be subject to the same dimensional requirements and other restrictions as a dwelling in a Residence C-3 district.~~

Amend Section 5.28.2 as follows (with the intent of facilitating as-of-right conversions to residential use if they conform to existing conditions or underlying zoning standards):

5.28.2 *Conversion of Non Residential Structures to Residential Use.*

Where it is proposed to convert an existing principal use structure, designed and built for non residential use, to residential use (excluding Transient Accommodations listed in Section 4.31.1 and Trailer Park or Mobile Home Park listed in Section 4.31 (j)), the dimensional standards generally applicable in the district as set forth in the Tables of Dimensional Requirements in Section 5.30 and other applicable regulations in this Ordinance, including permitted uses, Section 4.30 - Table of Use Regulations, shall apply except where modifications are permitted, either as-of-right or ~~However, where some or all of those requirements cannot be met, including any use, dimensional or procedural requirement that may apply in the base district, the~~

~~following provisions shall apply to such conversion~~ after issuance of a special permit by the Planning Board, as set forth below. The provisions in this Section 5.28.2 shall apply in all zoning districts with the exception of districts with an Open Space designation.

Intent of this Section:

- (a) To allow the economic reuse of buildings that may be substantially out of compliance with the dimensional requirements of the zoning district within which they are located, especially as they are converted to residential use.
- (b) To encourage the preservation of buildings of historic or cultural significance by providing opportunities for reuse of the structures.
- (c) To establish a framework of development standards and criteria within which existing non-residential buildings that are out of scale and character with surrounding residential uses can be converted to housing of an appropriate style and density while limiting potential negative impacts on neighbors.

5.28.20 *Allowed Uses.*

The Planning Board may by special permit authorize uses not otherwise allowed in the base zoning district, subject to the following conditions and limitations:

- (a) The permitted uses shall be limited to the following:
 - (1) All residential uses listed in Section 4.31 (a-h), but specifically excluding Transient Accommodations listed in Section 4.31.1 and Trailer Park or Mobile Home Park listed in Section 4.31 (j).
 - (2) The following institutional uses: Religious uses (4.33.a); Public or non-profit educational uses (4.33.b.1); Private preschool, day care, kindergarten (4.33.b.2); Local government or other government facility (4.33.f, 4.33.g); Private museum, library, non-commercial gallery (4.33.h.2).
 - (3) The following office uses: Office of an accountant, attorney, or other non-medical professional (4.34.b); Real estate, insurance or other agency office (4.34.c); General office use (4.34.d).
 - (4) Any uses allowed as accessory uses to the permitted principal uses.
- (b) All permitted non-residential uses shall be limited to the ground floor or basement of the building. The Planning Board may permit non-residential uses to occupy other floors of the building only after determining that the location and design of such spaces, including access and egress, will not impact the privacy or security of residential occupants. However, the total floor area occupied by non-residential uses shall not exceed the floor area of the ground floor and basement.
- (c) The Planning Board shall determine that any proposed non-residential uses are generally compatible with residential uses in the area, including the dwelling units located within the same building, and will not cause harm or nuisance to surrounding uses.
- (d) The Planning Board shall determine that by permitting non-residential uses, there will be a compensating reduction in the number of dwelling units that would otherwise be permitted, and that the proposed non-residential uses will balance the potential adverse impacts of additional residential units, such as demand for nighttime parking.

5.28.21 ~~Gross-Floor Area~~ GFA and FAR.

~~Permitted residential uses shall not be limited by GFA or FAR. Permitted non-residential uses shall be subject to the FAR or GFA limitations applicable to non-residential uses in the zoning district. The Gross-Floor Area permitted shall be that which is the result of the application of the FAR permitted in the district in which the structure is located, or the existing Gross Floor Area of the structure itself, whichever is greater. However, the Planning Board may permit additional Gross Floor Area to be added to the non-residential structure without limit provided all construction creating additional Gross Floor Area occurs within the physical limits of the existing structure. Where it is proposed to add Gross Floor Area above what would normally be allowed in the zoning district, the Planning Board shall determine that such additional floor area is necessary to accommodate a reasonable arrangement and layout of residential units within the existing structure.~~

~~If Gross Floor Area is added to an existing structure such that the resulting Gross Floor Area is greater than twice what would be allowed under normal zoning district regulations (including the Inclusionary Housing provisions of Section 11.200 if applicable), then half the amount of Gross Floor Area added to the existing structure such that it exceeds twice the normal district limit shall be deducted from the total Gross Floor Area of the structure for the purpose of calculating the maximum permissible number of dwelling units under Subsection 5.28.22 below.~~

~~For projects of at least 30,000 square feet or twenty (20) dwelling units for which the total Gross Floor Area is greater than twice what would be allowed under normal zoning district regulations (including the Inclusionary Housing provisions of Section 11.200 if applicable), no more than seventy percent (70%) of the project's total Gross Floor Area shall be occupied by living space within private dwelling units, and the remaining Gross Floor Area shall be occupied by common areas such as hallways, stairways, lobbies, fitness/recreational spaces, common storage areas, above-grade parking facilities, laundry or other resident services, or approved non-residential uses.~~

5.28.22 Dwelling Units.

~~The re shall be no limit on the number of dwelling units permitted shall be the number of dwelling units allowed under normal zoning district regulations (including the Inclusionary Housing provisions of Section 11.200 if applicable).~~

~~However, the Planning Board may permit a greater number of dwelling units, with the maximum permissible number of units determined by dividing the Gross Floor Area of the structure as permitted in Section 5.28.21 above, after subtracting any Gross Floor Area occupied exclusively by non-residential uses as permitted under Section 5.28.20, by 1,100 square feet for the first ten (10) units and by 1,900 square feet for any additional units.~~

~~If a portion of the dwelling units meet the definition of Elderly-Oriented Housing (notwithstanding the number of such units within the building), the Planning Board may permit the number of units to exceed the allowed maximum only for the specific purpose of accommodating such units, which may be smaller than conventional housing units.~~

5.28.23 Yard Requirements.

The required yards shall be those of the structure existing at the time of the conversion to residential use. However, any construction occurring outside the limits of the existing structure shall be subject to the yard requirements of the district in which the structure is located.

5.28.24 Maximum Stories Above Grade and Building Height.

(a) The maximum Stories Above Grade and maximum building height, respectively, shall be ~~that height~~ those permitted for residential uses in the district in which the structure is located, or ~~the building height~~ the pre-existing conditions of the non-residential building, whichever ~~is~~ are greater. ~~However, a~~

(b) Any construction that occurs outside the existing limits of the structure, other than construction exempt from the height limit as set forth in Section 5.23, shall be subject to the applicable maximum Stories Above Grade and building height limit of the district in which the structure is located.

(c) In granting a special permit, the Planning Board may approve the construction of additional Stories Above Grade beyond those permitted in Paragraph (a) if they are contained entirely within the existing structure and the Planning Board finds that the additional Stories provide space suitable for dwellings, in addition to meeting other applicable special permit criteria.

5.28.25 ~~Private~~ *Open Space Requirements.*

The ~~Private~~ open space requirement shall be that required in the district in which the structure is located, except as modified herein.

The dimensional and locational limitations for Private open space set forth in Section 5.22 shall not apply; any combination of at-grade private open space and decks and balconies at other levels shall be permitted as shall walks intended for non vehicular use. However, in every case where those requirements of Section 5.22 waived by this Paragraph (a) are not met, all portions of the surface of the lot shall be Green Area as defined in Article 2.000 that are (1) not covered by the building or (2) devoted to the minimum area necessary to provide at grade, conforming parking spaces and the minimum necessary circulation and driveways for no more than one parking space per dwelling unit. The amount of Private open space required may be reduced upon issuance of a special permit by the Planning Board should the Board find that full compliance cannot reasonably be expected given the existing development of the lot and the provision of parking necessary to serve the dwelling units.

However, where open space requirements are not met, the Applicant shall explore the use of portions of the interior of the building to provide recreational opportunities not possible on the exterior.

5.28.26 *Conforming Additions.*

Conforming additions to such non-residential structures shall be permitted without reference to the limitations set forth in Section 8.22 for such additions to non-conforming structures.

5.28.27 *Required Parking.*

Off-street parking shall be provided as required in the Schedule of Parking and Loading Requirements, Section 6.36. ~~In instances where 6.36 does not apply due to the proposed use not being allowed in the base zoning district, required off-street parking for approved residential uses shall be provided at a rate of one space per dwelling unit, and required off-street parking for non-residential uses shall be determined by the Planning Board after reviewing the requirements for that use within other zoning districts.~~

5.28.28 *Criteria for Approval of a Special Permit.*

In ~~acting upon this~~ granting any special permit, the Planning Board shall consider the standards and criteria set forth in Sections 10.43, ~~10.47 and 10.47.1~~ and the Urban Design Objectives set forth in Section 19.30 of this Ordinance in addition to the following review standards.

5.28.28.1 *Criteria Applicable to All Projects.*

~~(a) Provision of Parking. Where it is proposed to add dwelling units above the limits established in the base zoning regulations, the Board shall evaluate the impact of increased numbers of dwelling units above that normally permitted in the district on the demand for on-street parking by residents and visitors to the proposed building, particularly in neighborhoods where off street parking is limited.~~

~~In reaching a determination, the Board may require that the Applicant provide elements of a Parking Analysis as set forth in Section 6.35.3 of the Zoning Ordinance. Where a project is subject to additional criteria as specified in Section 5.28.28.2 below, a Parking Analysis shall be required to be included with the Special Permit Application.~~

(ba) Privacy Considerations. Where significant variations from the normally required dimensional standards for the district are proposed, the Board shall evaluate the impact on residential neighbors of the new housing use and any other proposed use as it may affect privacy. The location and size of windows, screening elements, decks, entries, security and other lighting, and other aspects of the design, including the distribution of functions within the building, shall be reviewed in order to assure the maintenance of reasonable levels of privacy for abutters. In reviewing a proposed development plan, the Board shall consider, among other factors, the potential negative impacts of the new activity on abutters as a result of the location, orientation, and use of the structure(s) and its yards as proposed.

(eb) Reduction in ~~Private~~ Open Space. Where it is proposed to reduce the amount of on-site ~~Private~~ Open Space below that required in the applicable district, the Board shall evaluate the proposal in light of the following:

- (1) The extent to which screening and buffering from neighbors will be accomplished
- (2) The quality and viability of the proposed open spaces as they are designed
- (3) The tradeoff in benefits and negative impacts of the loss of green space in order to provide the required amount of parking, including consideration of the feasibility of alternate parking arrangements that might produce additional green area, such as placing some or all parking within the structure
- (4) The availability of common recreational spaces within the building to compensate for the loss of usable outdoor open space

(ec) Community Outreach. The Planning Board shall consider what reasonable efforts have been made to address concerns raised by abutters and neighbors to the project site. An applicant seeking a special permit under this Section 5.28.2 shall solicit input from affected neighbors before submitting a special permit application. The application shall include a report on all outreach conducted and meetings held, shall describe the issues raised by community members, and shall describe how the proposal responds to those issues.

5.28.28.2 Additional Criteria Applicable to Larger Projects.

Where the proposed project includes more than 10,000 Gross Square Feet or more than ten (10) dwelling units, and the proposed ~~Gross Floor Area or number of dwelling units is~~ Stories Above Grade are increased above the maximum allowed under base zoning regulations, the Board shall evaluate the proposal in light of the following:

(a) The implications of the size or number of additional dwelling units on the anticipated demand for parking. In order to assist the Planning Board in evaluating parking impacts, an applicant for a special permit shall be required to submit a Parking Analysis, as set forth in Section 6.35.3 of the Zoning Ordinance, as part of the special permit application.

- (b) The appropriateness of the proposed layout of floor space within the building for a multifamily residential use, with attention to the typical range of unit sizes and types that would be expected for housing in the neighborhood. Considerations may include the suitability of proposed unit configurations for a variety of households, the extent to which unusual unit sizes or shapes may impact parking or overall quality of life for residents or neighbors, and the availability of customary amenities for residents such as storage, utilities, common rooms and recreational facilities.
- (c) The potential mitigating effects of the proposed occupancy of dwelling units. For instance, units designed for elderly residents or live/work spaces for professionals or artists may provide desirable housing options for Cambridge residents with fewer adverse impacts on parking or neighborhood character.

Delete Sections 5.30.1, 5.30.11, and 5.30.12.

~~5.30.1 Rules for Applying Certain Provisions of the Tables of Dimensional Requirements~~

~~5.30.11 FAR and Height. Where two numbers appear in Column (1) – Maximum Ratio of Floor Area to Lot Area and Column (6) Maximum Height in Feet, the first number shall apply to all permitted uses in the district except Residential Uses, Section 4.31 a-h, and Dormitory (but excluding resident fraternity or sorority) Uses, Section 4.33 b(7), both of which shall be governed by the second number.~~

~~5.30.12 Calculation of Permitted Gross Floor Area on a Lot~~

~~Where two numbers regulate the permitted FAR on a lot, the Gross Floor Area of any uses proposed on the lot shall be determined by the following formula:~~

$$\text{Gross Floor Area Permitted} = \{(A \times \text{FAR}_1) \times \text{Lot Area}\} + \{(B \times \text{FAR}_2) \times \text{Lot Area}\}$$

~~Where A equals the percentage of Gross Floor Area in the building to be used for nonresidential use(s), and~~

~~Where B equals the percentage of Gross Floor Area in the building to be used for residential and dormitory use(s), and~~

~~Where A + B = 100% (or 1.0) or less, and~~

~~FAR₁ equals permitted FAR for nonresidential uses, and~~

~~FAR₂ equals permitted FAR for residential and dormitory uses.~~

- (1) At least fifty percent (50%) of the required Open Space in a Residence C-1 district shall meet all of the requirements of **Private Open Space in Section 5.22.1.** At least fifty percent (50%) of the required Open Space shall meet the definition of Permeable Open Space and shall not be subject to the dimensional limitations of Section 5.22.1 as applied to Private Open Space.
- (2) The height of buildings or portions of buildings used as Residences may exceed the base height limit, up to a maximum of 6 stories above grade and 70 feet above grade, if all of the following criteria are met:
 - (a) The building complies with the Inclusionary Housing Requirements in Section 11.203 of this Zoning Ordinance, regardless of whether it exceeds the size threshold requiring compliance; and
 - (b) The area of the lot on which the building is located is not less than 5,000 square feet.
- (3) A dwelling need not be set back from the street line, or building line where such may have been established on the lot, more than the average of the setbacks of the buildings, other than accessory buildings, on the lots adjacent thereto on either side.
- (4) The required side or rear yard setback may be reduced in either of the ways described below:
 - (a) No side or rear yard setback shall be required for a building or portion thereof that directly abuts a building or portion thereof on an adjacent lot, as in the case of semi-detached dwellings or other adjoining buildings that share a party wall. However, portions of the building that do not directly abut portions of the building on an adjacent lot shall conform to the required side or rear yard setback.
 - (b) The required setback for one side yard of a lot may be reduced if the setbacks for two opposite side yards of the lot sum to at least 10 feet, and if no portion of a building is closer than 10 feet to the exterior wall of an existing building on an abutting lot.
- (a5) Measured from the centerline of the street, but in no case may a non-residential building be nearer the street than ten (10) feet.
- (b6) Measured from the centerline of the street, but in no case may a non-residential building be nearer the street line than five (5) feet

- (e7) In no case may a non-residential building be nearer the rear lot line than twenty (20) feet in Residence C-2, C-2B, C-2A, C-3, C-3A, C-3B districts. In Residence ~~C~~ and C-1 districts, no non-residential building may be nearer the rear lot line than twenty (20) feet plus one additional foot of rear yard for each four feet that the depth of the lot exceeds 100 feet, up to a maximum of thirty (30) feet. ~~In Residence A-1, A-2, and B districts, no building may be nearer the rear lot line than twenty five (25) feet plus one additional foot of rear yard for each four feet that the depth of the lot exceeds one hundred (100) feet, up to a maximum of thirty five (35) feet.~~ For purposes of this Footnote ~~C~~, the lot depth shall be that distance measured along a line perpendicular to the front lot line and extending to that point on the rear lot line most distant from the front lot line.
- (e8) ~~The maximum ratio of floor area to lot area f~~For buildings containing principal uses specified in Section 4.34:
- (a) The FAR shall not exceed 1.25.
- (eb) ~~For buildings subject to the floor area ratio limitation specified in footnote (d) above, t~~The minimum front yards may be reduced to no less than five (5) feet measured from the street line.
- (fc) ~~For buildings subject to the floor area ratio limitation specified in footnote (d) above, t~~The minimum side yards may be reduced to no less than five (5) feet measured from the street line.
- (e9) In no case may a non-residential building on any lot which abuts or is separated only by a public or private way from a Residence ~~A-1 and A-2, B, C, C-1, C-2, or C-2B~~ district be nearer the street line or side line of the lot than the minimum front and side yard requirements for a non-residential building in the residential district which said lot abuts or from which it is separated by a way. However, such increased setback requirements shall only apply to any part of a building which is located within one hundred and twenty five (125) feet of a Residence ~~A-1, A-2, B, C, C-1, C-2, or C-2B~~ district.
- (h10) The minimum ratio of private open space to lot area required for a lot which abuts/or is separated only by a public or private way from a Residence ~~A-1, A-2, B, C, C-1, C-2 or C-2B~~ district shall be equal to the amount of private open space required in the residential district which said lot abuts or from which it is separated by a way.
- (i) ~~The dimensional requirements of the Residence C-1 district as detailed in this Section 5.31 shall apply in the Residence C district for structures in existence as of December 1, 1986 under the following limitations and conditions:~~
- (1) ~~Any increase in floor area or numbers of units, provided all construction occurs within the limits of the existing structure; or~~
- (2) ~~For any construction without limit as to cost (notwithstanding any contrary provisions of Section 8.23) of a nonconforming structure destroyed or damaged by fire or other catastrophe provided the structure as restored shall not be greater in lot coverage or volume, or shall not extend further into required yards, than the original structure; all other provisions of Section 8.23, however, shall continue to apply.~~
- (j) ~~Applicable to the first five thousand (5,000) square feet of lot area. For those portions of any lot exceeding five thousand (5,000) square feet, the applicable Maximum Ratio of Floor Area to Lot Area shall be 0.35 for all permitted residential uses and the Minimum Lot Area for Each Dwelling Unit shall be four thousand (4,000) square feet. However, for any lot in existence as of June 30, 1995 that is subsequently subdivided into two or more lots, the total amount of gross area and number of units on the subdivided lots, in total, shall at no time exceed that permitted by this footnote (j) on the lot before the subdivision occurred. Unless otherwise permitted by special permit from the Board of Zoning Appeal, the gross floor area and dwelling units permitted on each subdivided lot shall be in the same ratio as that lot's area is to the area of the unsubdivided lot.~~

~~Nothing in this footnote (j) shall prohibit the subdivision of a Townhouse Development conforming at the time of its construction, as permitted in Section 11.10.~~

~~(k11)~~ Yard Requirements for non-residential buildings in the Residence C-2B District

- ~~1(a)~~ Setbacks—In the Residence C-2B District, non-residential buildings shall comply with these yard requirements by being set back above and below ground.
- ~~2(b)~~ Green Area—general. Two of the yards on a lot shall consist exclusively of green area as defined in section 2.000. Contrary to the provisions of said definition, hard surfaced walks and terraces shall not exceed twenty-five (25) percent of the area of each yard. At a minimum, green area setback shall consist of permanently maintained densely planted trees and shrubs that may be expected to form within three (3) years after the time of planting a continuous unbroken, year round visual screen. Every effort shall be made to retain the best existing trees in said setbacks to meet the requirements this section in whole or in part. Plans for landscaping and maintenance shall be approved by the Committee on Public Planting as appointed by the City Manager. No Certificate of Occupancy may be granted until landscaping under the terms of this section is completed.
- ~~3(c)~~ Lots with more than four yards. If the shape of a lot creates a situation where there are more than four yards, this green area requirement shall apply to half of the yards, rounded up in the instance of an odd number of yards.
- ~~4(d)~~ Lots in two or more zoning districts. Where a zoning district boundary line or lines split a lot, a lot partially in the Residence C-2B district shall comply with provisions elsewhere in this zoning ordinance with regard to lots in two or more zoning districts, except that the setback and green area requirements of this footnote shall apply to all parts of the lot regardless of zoning district.
- ~~5(e)~~ Lots abutting more restrictively zoned districts. When any lot abuts a more restrictively zoned district or districts, all yards abutting the more restrictively zoned district(s) shall be designated as yards required to comply with the green area requirements of this footnote. This provision shall apply to that quantity of abutting yards numbering up to and including the maximum number of green area yards required by this footnote. The total number of green area yards required on a lot shall not be changed by the provisions of this subsection (5).
- ~~6(f)~~ Pedestrian and vehicular access.
 - ~~(a)~~ When a yard used to satisfy the Green Area Open Space requirement of this footnote is a front yard, the Green Area Open Space may be interrupted by not more than one path for pedestrian access to the building. Said pedestrian path shall be constructed perpendicular to the lot line and shall not be more than eight (8) feet wide. The green area yard may also be interrupted by not more than one driveway constructed perpendicular to the lot line and which is not more than twelve (12) feet wide.
 - ~~(b)~~ The sum of the width of the said pedestrian path and driveway may not exceed the setback provided by the smallest of the yards provided on the lot.
 - ~~(c)~~ The areas allowed to be used for access under this subsection (6) shall be counted as part of the twenty-five (25) percent of the total required green area which is allowed to be use for hard surfaced walks and terraces for the front yard in which the access areas are constructed.

~~(7g)~~ Townhouse Development When a lot is used for townhouse development, the provisions of this footnote shall apply to the lot before subdivision into townhouse lots. Subdivision into townhouse lots shall be done in such a manner as to not affect the application of this footnote to the entire unsubdivided lot. In particular, the pedestrian path and driveways allowed.

~~(112)~~ These requirements may be reduced to a minimum required setback of ten (10) feet with the grant of a special permit from the Planning Board provided that the yard is suitably landscaped to effectively buffer the building walls from abutting lots.

~~(#13)~~ For purposes of calculating FAR and for no other purpose, notwithstanding the definition of Lot in Article 2.000, a Lot in the Residence C-3B district may contain non-contiguous parcels provided that all parcels are held in identical ownership, are all located within the Residence C-3B district ~~or~~ any abutting Business B district, and further provided that development on any contiguous portion of the lot does not exceed an FAR of 4.0.

~~(#14)~~ In a Residence C-1 District, no non-residential building plane (excluding projections as permitted by Section 5.24.2) may be nearer than seven feet, six inches (7'6") to a side lot line.

3. ~~Setback exceptions:~~

~~(a)~~ In a Residence A-1 or A-2 district a dwelling need not set back more than the average of the setbacks of the buildings, other than accessory buildings, on the lots adjacent thereto on either side, but in no case may any part of a building or accessory building extend nearer to any street line, or building line if such has been established, than fifteen (15) feet. A vacant lot or lot occupied by a building set back more than twenty-five (25) feet in a Residence A-1 district and more than twenty (20) feet in a Residence A-2 district shall be considered as though occupied by a building set back twenty-five (25) feet and twenty (20) feet respectively.

~~(b)~~ In a Residence B district a dwelling need not set back more than the average of the setbacks of the buildings, other than accessory buildings, on the lots adjacent thereto on either side, but in no case may any part of a building or accessory building extend nearer to any street line, or building line if such has been established, than ten (10) feet. A vacant lot or a lot occupied by a building set back more than fifteen (15) feet shall be considered as though occupied by a building set back fifteen (15) feet.

~~(e15)~~ In a Residence ~~C~~, C-1, C-2, C-2A, C-2B, C-3, or C-3A district or Business A-2 district if a non-residential building is hereafter erected on a lot adjacent to a building having a blank wall directly on the side lot line, the new building may be so designed and erected that it will be flush with that portion of the blank wall of the former building which extends along the lot line; otherwise, however, not less than the required side yard shall be provided; in any case the required side yard shall be provided for the remainder of the full lot depth. In case a side wall contains windows or in case any part of a side blank wall of an existing building shall be set back from the side lot line, then a building hereafter erected on the lot adjacent to such an existing building shall be set back from the side lot line in accordance with the provisions thereof.

~~(a)~~ Measured from the centerline of the street, but in no case may a building be nearer the street line than ten (10) feet.

~~(b)~~ Measured from the centerline of the street, but in no case may a building be nearer to the street line than five (5) feet.

~~(e16)~~ In no case may a non-residential building be nearer the rear lot line than twenty (20) feet.

~~(d)~~ Deleted.

~~(a)~~ In no case may a building be nearer the rear lot line than twenty (20) feet.

~~(b)~~ — As set forth in Section 5.28.1.

- ~~(e)~~17) The cornice line of the principal front wall plane of a non-residential building facing Massachusetts Avenue shall not exceed fifty-five (55) feet in height at the front lot line. Portions of non-residential buildings in excess of this height shall be set back behind a thirty-five (35) degree bulk control plane beginning at an elevation fifty-five (55) feet above the Massachusetts Avenue front lot line. The cornice line of the principal front wall plane of a non-residential building facing Green street shall not exceed thirty (30) feet in height at the front lot line. Portions of non-residential buildings in excess of thirty (30) feet shall be set back behind a forty-five (45) degree bulk control plane beginning at an elevation thirty (30) feet above the Green Street front lot line. No non-residential building or portion of a building within forty-five (45) feet of the Green Street front lot line shall exceed forty (40) feet in height.
- ~~(e)~~18) Open space requirements for a lot shall be determined by the mix of uses on the lot. Where one hundred (100) percent of the principal uses on a lot are residential uses listed in Subsections 4.31 a, b, d, e, and g, an area equivalent to fifteen (15) percent of the lot area shall be reserved as private open space. Where one hundred (100) percent of the principal uses on the lot are other uses, an area equivalent to fifteen (15) percent of the lot area shall be reserved as publicly beneficial open space. Where development on a lot contains both the aforesaid residential uses and other uses, an area equivalent to fifteen (15) percent of the lot area shall be devoted to both types of open space in relative proportion to the gross floor areas occupied by residential uses and other uses. The amount of each type of open space shall be determined by the formulae below. The results of said formulae notwithstanding, a minimum of fifteen (15) percent of the area of that portion of a lot within forty-five (45) feet of a front lot line facing Green Street shall be devoted to landscaped green space as specified in Subsection 4.27.3. Where more than fifty (50) percent of the area of that portion of a lot is devoted to landscaped green space, as specified in Subsections 4.27.2 and 4.27.3, none of such green space shall be counted in determining compliance with this Subsection 5.332d. Where fifty (50) percent or less of the area of that portion of a lot is devoted to landscaped green space, such area may be counted in determining compliance with this Subsection 5.33 2d.
- ~~(1a)~~ Minimum required total area reserved for both types of open space = lot area multiplied by .15.
- ~~(2b)~~ Share of development devoted to residential uses = gross residential floor area divided by gross floor area of entire development.
- ~~(3c)~~ Minimum required private open space associated with residential use = total open space required multiplied by residential share.
- ~~(4d)~~ Share of development devoted to other uses = other gross floor area divided by gross floor area of entire development.
- ~~(5e)~~ Minimum required publicly beneficial open space = total open space requirement multiplied by other use share.
- ~~(e)~~19) Where any lot abuts a residential district, non-residential buildings above and below ground shall be set back a minimum of twenty (20) feet from the zoning district boundary line, notwithstanding anything to the contrary provided in Article 6.000 of this Ordinance. Said setback shall consist exclusively of landscaped green area as defined in Article 2.000. Where the zoning district boundary line splits a lot the minimum twenty (20) foot setback shall be measured from the lot line(s) located in the residential district. At a minimum green area setback shall consist of permanently maintained, densely planted trees and shrubs that may be expected to form within three (3) years after time of planting a continuous, unbroken, year round visual screen. Every effort shall be made to retain the best existing trees in said setbacks to meet the requirements of this section in whole or in part. Plans for landscaping and maintenance shall be approved by the Committee on Public Planting as appointed by the City Manager. No Certificate of Occupancy may be granted until landscaping under the terms of this section is completed.
- ~~(f)~~20) Subject to the provisions of Footnote 1 in Section 4.40 - Footnotes to the Table of Use Regulations.

(g~~21~~) Thirty-five (35) feet [or maximum non-residential height permitted in the abutting residential district, but in no case higher than fifty-five (55) feet] within fifty (50) feet of a residential district line. Where the zoning district boundary splits a lot the fifty (50) feet shall be measured from the lot lines located in the residential district. The height, however, may exceed thirty-five (35) feet provided the non-residential building is set back a minimum distance equal to two-thirds (2/3) the height.

~~(h) — Measured from the centerline of the street but in no case may a building be nearer the street than ten (10) feet.~~

(i~~22~~) However, for the side yard of any lot abutting another lot (where that lot does not abut Massachusetts Avenue and where all or a majority of it is located in a residence district) no non-residential building shall be set nearer than twenty feet to (1) either the residence/Business A-2 zoning district line where the lot line is located in the BA-2 District or (2) the side lot line itself where that lot line is located in the residence district. Nevertheless, the provisions of ~~the following paragraph~~footnote (i~~53~~) shall continue to apply.

~~If a building is hereafter erected on a lot adjacent to a building having a blank wall directly on the side lot line, the new building may be so designed and erected that it will be flush with that portion of the blank wall of the former building which extends along the lot line; otherwise no less than the required side yard setback shall be provided. In the case that any portion of a side wall of the existing building contains windows or is set back from the property line, then a building hereafter erected on the lot adjacent to such an existing building shall be set back from the side lot line as required.~~

(j~~23~~) Or two-thirds (2/3) of the height of the rear wall whichever is greater; however in the Business C ~~and Business C-1~~ districts no rear yard shall be required where the rear lot line abuts a lot all of which lies in a business or industrial district.

(k~~24~~) Provided however that any portion of a non-residential building having a height greater than thirty-five (35) feet shall be set back of a bulk control plane rising at an angle of forty-five (45) degree from the plane of the principal front wall and rear wall planes beginning at a height of thirty-five (35) feet.

Where the parcel has frontage on two or more streets, this setback plane provision shall apply only to the front wall plane facing the principal abutting arterial street and to the opposite wall plane facing either a side or front property line.

In addition to the above provisions, that portion of a non-residential building located within fifty (50) feet of a residential zoning district line shall be limited to thirty-five (35) feet where the maximum non-residential height permitted in the residential district is thirty-five (35) feet or less.

~~(l) — The maximum height of a building may be increased to sixty (60) feet provided the average height of the building is fifty (50) feet (excluding any portion of the building devoted to parking which is not covered with building included in gross floor area). The heights of the several parts of the building shall be such that the volume of building exceeding fifty (50) feet in height shall be equal to or less than the volume of space lying between the fifty (50) foot height and portions of building less than fifty (50) feet in height, as illustrated below:~~

~~Volume 1 (area of a building at a single height — 1 above fifty feet x the difference between height — 1 and fifty feet) + Volume 2 (area of building at a single height — 2 above fifty feet x the difference between the height — 2 and fifty feet) MUST EQUAL OR BE LESS THAN THE SUM OF Volume 1' (area of building at a single height — 1' below fifty feet x the difference between height 1' and fifty feet) + Volume 2' (area of building at single height — 2' below fifty feet x the difference between height — 2' and fifty feet).~~

(m~~25~~) Or the setback of the principal front wall plane of any adjacent building facing the same street, whichever is less.

~~(n) Of the total FAR permitted on the lot the maximum ratio of floor area to lot area for permitted principal uses other than residential uses specified in Section 4.31 shall not exceed 2.75. The maximum ratio of floor area to lot area for permitted residential uses specified in Section 4.31 shall be 2.5 as of right; it may be increased to 3.0 and lot area per dwelling unit decreased to three hundred (300) after the issuance of a special permit by the Planning Board provided the following conditions are met:~~

- ~~1. At least seventy five (75) percent of the gross floor area on the lot is devoted to residential uses specified in Section 4.31.~~
- ~~2. All parking on site is covered and enclosed.~~
- ~~3. Fifteen (15) percent or more of the lot is green area or other open space acceptable to the Planning Board.~~
- ~~4. The building shall be subject to mandatory design review.~~

~~(o) H+L/6 for all buildings having fifty (50) percent or more of their gross floor area devoted to residential uses specified in Section 4.31 where the side lot line abuts or is within fifty (50) feet of a lot residentially used, the majority of which lies in a residential district.~~

~~(p26)~~ For development in which all parking is provided entirely below grade, the following dimensional modifications shall be allowed:

- ~~(i)~~ FAR may be increased to 2.0
- ~~(ii)~~ Front, Side and Rear yard requirements for non-residential buildings shall be modified to a minimum of ten (10) feet. Sites with two front yards that have a radiused front yard where two streets intersect may be considered as if the adjoining property lines are projected to intersect. Projecting bays and roof decks which are located on portions of a non-residential building below thirty-five (35) feet in height shall be eligible for the setback exception allow in Section 5.24.2 even if the structure itself if greater than 35 feet in height.
- ~~(iii) Building height for a residential or mixed-use structure may be increased to a maximum of forth four (44) feet. However, for any portion of a structure that abuts a lot in a residential district, the height of the building shall not exceed thirty five (35) feet within fifteen (15) feet of the lot line.~~

~~(q27)~~ The following dimensional modifications shall apply in the Business A-5 district:

- ~~(i)~~ For any portion of a building within fifty feet (50') of a residential district, the height of that portion of the building shall not exceed thirty-five feet (35').
- ~~(ii)~~ The Planning Board may grant a special permit to exclude Retail or Consumer Service Establishments, as listed in Section 4.35 of the Zoning Ordinance, from the calculation of Gross Floor Area (GFA) and Floor Area Ratio (FAR) on the lot if they are located on the Ground Story. The conditions of the special permit shall clearly describe what areas are excluded and what range of uses shall be permitted, along with other conditions to ensure that the objectives of the area are met.
- ~~(iii)~~ Notwithstanding any other section of this Zoning Ordinance, roof decks on any Story of a building shall be exempt from gross floor area calculations provided the roof deck is not within 20' of a residential district.

~~(b)29~~ A side yard setback of $H+L/7$ and a rear yard setback of $H+L/5$ shall be required only ~~for residential uses in new structures and~~ for nonresidential uses abutting residences, residential or open space districts or public parks and recreation areas. These requirements may be reduced to a minimum required setback of ten (10) feet on special permit, provided that the yard is suitably landscaped to effectively buffer building walls from abutting lots.

~~(d)30~~ One hundred and thirty (130) feet by special permit for buildings related to storage and processing of materials permitted in Section 4.37m.

~~(e)31~~ Except that within the area bounded by Binney Street on the north, a line one hundred and fifty (150) feet easterly of Cardinal Medeiros Avenue on the west, Broadway on the south, and the railroad right of way on the east, the FAR may be increased to 3.2 for non-residential uses for an addition to a building in existence as of June 1, 2001 provided that for each four hundred and fifty (450) square feet of GFA added above an FAR of 2.75 one existing parking space is permanently eliminated.

~~(f)32~~ ~~Notwithstanding Section 5.30.11, in~~ the Industry B District, a hotel use (Section 4.31.1.b) shall ~~be governed by the second number (4.0) for purposes of determining the~~ have a Maximum ~~Ratio of Floor Area to Lot Area~~ FAR of 4.0.

5.40 TRANSITIONAL REQUIREMENTS

~~5.41 Front yard: (33)~~ In an Office, Business or Industrial district no non-residential building shall be erected nearer to the street line than is permitted in the adjacent Residence district within a distance of fifty (50) feet from the Residence district boundary line, except where such building is separated by a street from the Residence district.

~~5.42 Side yard: (34)~~ In Office, Business or Industrial districts no non-residential building shall be erected within ten (10) feet of the side lot line of any abutting lot, all or the major portion of which is in a Residence district.

~~5.43 Height: (35)~~ In a Business C district, within fifty (50) feet of a residential zone, no non-residential building shall be erected that is greater than thirty-five (35) feet in height.

~~(36)~~ The maximum building height and FAR for Dormitory (but excluding resident fraternity or sorority) Uses, Section 4.33 b(7), shall be modified for certain districts as set forth in the table below. Where a lot contains a combination of dormitory and other non-residential uses, then the total

FAR on the lot shall not exceed the maximum set forth in the table below, and the FAR for all non-residential uses other than Dormitory (determined by dividing the GFA occupied by all non-residential uses other than Dormitory by the total lot area) shall not exceed the maximum non-residential FAR otherwise applicable in the district.

~~5.52~~ ~~[Deleted]~~ ~~Townhouse Development.~~ The dimensional requirements of this article may be reduced for townhouse developments as governed by the regulations of Article 11.000.

~~5.53~~ ~~[Deleted]~~ ~~In Residence A-1 and Residence A-2 districts, only one structure containing a principal use shall be allowed on a lot.~~

~~In Residence B districts only one structure containing a principal residential use shall be allowed on a lot except as set forth below:~~

- ~~1. More than one structure containing a principal residential use shall be allowed on a lot provided all portions of all structures are located no farther than seventy five (75) feet from any street line to which the lot abuts. However, those elements of a structure that are permitted to extend into required yards as set forth in Section 5.24.2, may extend in a similar manner beyond the seventy five foot limit.~~
- ~~2. By special permit from the Planning Board provided the Board finds~~
 - ~~(a) that development in the form of two or more structures on the lot will not significantly increase or may reduce the impact of the new construction should it occur in a single structure; or~~
 - ~~(b) That two or more structures may provide identifiable benefits beyond that provided should all construction be in a single structure. In making its findings the Board shall consider the impact of the new construction on the following:~~
 - ~~(1) the extent to which the preservation of a large contiguous open space in the rear of the lot or series of adjacent lots is achieved through the provision of a rear yard setback significantly greater than that required and through the dedication of that rear yard as Green Area, as defined in this Ordinance,~~
 - ~~(2) incentives for the location of buildings and parking facilities in the front half of a lot in a pattern compatible with the development pattern prevailing in the neighborhood,~~
 - ~~(3) the extent to which two or more structures provides an enhanced living environment for residents on the lot,~~
 - ~~(4) incentives to retain existing structures on a lot, particularly any structure determined to be a Preferably Preserved Significant structure by the Cambridge Historical Commission,~~
 - ~~(5) the opportunities presented to reduce the visual impact of parking from the public street and from adjacent lots,~~
 - ~~(6) The increased opportunities to reduce the height and bulk as new construction is deeper into a lot or closer to structures on abutting lots.~~

~~In Residence A-1, A-2 and B districts there shall be no limit on the number of those structures on a lot that contain principal nonresidential uses exclusively, provided all other requirements of this Zoning Ordinance are met.~~

Amendments to Article 10.000.

Delete Section 10.47 and subsequent subsections as follows:

~~10.47~~ ~~[Deleted]~~ ~~Procedure for Townhouses and Multifamily Dwellings.~~ An application for a special permit for a townhouse development or for a multifamily dwelling required by Section 4.31 shall also meet the requirements of this Subsection 10.47. Where this Subsection and Subsection 10.42 are in conflict, this Subsection shall control.

~~10.47.1~~ Applications for special permits shall be accompanied by three copies of a development plan containing the following graphic and written information:

- ~~(1)~~— An accurately scaled map showing the existing conditions on the parcel on which development is proposed and on lots abutting or directly across any street from said parcel. Said map shall indicate property lines, existing structures and all trees in excess of 3" caliper.
- ~~(2)~~— Information concerning current land use of said parcels (including the number of existing dwelling units).
- ~~(3)~~— Photographs showing conditions on the development parcel at the time of application and showing structures on abutting lots.
- ~~(4)~~— A site plan of the development parcel, drawn to scale, showing proposed lot subdivision, if any, the location of proposed buildings, retained and proposed vegetation, location of parking spaces, driveways, proposed curb cuts and walkways, proposed treatment of the perimeter of the parcel including techniques and materials used (screens, fences, walls) and the location of required private open space.
- ~~(5)~~— Front, side and rear elevations for each structure on the lot indicating building height and heights of buildings on abutting lots.
- ~~(6)~~— Quantitative data on the proposed development including floor area ratio, floor area per unit, number of bedrooms and the amount of private open space allocated to each unit and reserved for common use of the residents.
- ~~(7)~~— A list of any zoning violations which would customarily require variances from the requirements of this Ordinance.
- ~~(8)~~— A Tree Study, certified complete by the City Arborist, as required by the Tree Protection Ordinance of the City of Cambridge, Chapter 8.66.

~~10.47.2~~ No application shall be accepted by the Planning Board until all of the information required in Subsection 10.47.1 is completed and included in the development plan. Any changes in the development plan by the applicant following submittal of the application, other than those which might be negotiated at the public hearing, shall require resubmittal of an application for a special permit.

~~10.47.3~~ Upon receipt of the application and development plans, the Planning Board shall transmit forthwith one copy of the plan to the Traffic Department. Within forty five (45) days of receipt of the plan, the Traffic Department shall review said plan and submit a report and recommendation on the development proposal to the Planning Board. The Planning Board shall not render any decision on an application for a special permit for a townhouse development or for a multifamily dwelling subject to those requirements until said report has been received and considered or until the forty five (45) day period has expired without the receipt of such report, which ever is earlier.

~~10.47.4~~ Criteria for approval of Townhouses and Multifamily Dwellings. In reviewing applications for townhouse developments and multifamily dwelling, the special permit granting authority shall consider and address the following site plan criteria as applicable:

- ~~(1)~~— Key features of the natural landscape should be preserved to the maximum extent feasible. Tree removal should be minimized and other natural features of the site, such as slopes, should be maintained.
- ~~(2)~~— New buildings should be related sensitively to the existing built environment. The location, orientation and massing of structures in the development should avoid overwhelming the existing buildings in the vicinity of the development. Visual and functional disruptions should be avoided.

- ~~(3) The location, arrangement, and landscaping of open space should provide some visual benefits to abutters and passersby as well as functional benefits to occupants of the development.~~
- ~~(4) Parking areas, internal roadways and access/egress points should be safe and convenient.~~
- ~~(5) Parking area landscaping should minimize the intrusion of onsite parking so that it does not substantially detract from the use and enjoyment of either the proposed development or neighboring properties.~~
- ~~(6) Service facilities such as trash collection apparatus and utility boxes should be located so that they are convenient for resident, yet unobtrusive.~~

10.47.41 Additional Criteria for Townhouses and Multifamily Dwellings in Industry A and A-2 districts, Industry B, B-1 and B-2 districts, and the Industry C district. In addition to the criteria set forth in Section 10.47.4 above, the following shall be considered by the Planning Board in these industrial districts:

- ~~(1) On balance the location is appropriate for the proposed residential uses, because:
 - ~~(a) Residential use at the proposed location will not preempt space particularly suitable for nonresidential uses; and~~
 - ~~(b) Existing or anticipated uses on nearby premises will not make residential use inappropriate because of external impacts such as noise, glare, odors or safety concerns; and~~
 - ~~(c) The proximity of the proposal to other residential development or reasonably anticipated residential development in the future, helps to establish an amount of housing sufficient to ensure a viable, supportive and healthy residential environment; or~~
 - ~~(d) The proposal will act as a transition to neighboring residential districts and uses; or~~
 - ~~(e) The proposal is of sufficient scale to create its own supportive residential environment.~~~~
- ~~(2) The proposed design includes amenities appropriate to provide a supportive service environment for the anticipated residential uses.~~
- ~~(3) Other potential benefits can be identified, including:
 - ~~(a) The proposed residential use may make feasible the preservation of an historic structure;~~
 - ~~(b) The proposed residential use and nearby commercial uses are linked through work/live arrangements or in other ways.~~~~

Amendments to Article 11.000.

Delete Section 11.10 and subsequent subsections as follows:

11.10 DELETED TOWNHOUSE DEVELOPMENT

~~**11.11** *Statement of Purpose.* This Section 11.10 has been adopted to encourage the development of one and two family townhouses. The townhouse development use created herein is intended to promote development designs that are compatible with traditional neighborhood development patterns~~

~~and sensitive to existing streetscapes, to encourage a townhouse pattern of development where higher densities are permitted and to discourage the demolition of existing residential structures as well as the excessive infill of townhouses on lots already containing residential structures.~~

~~Provisions for the townhouse development use are intended to overcome obstacles to the development of one and two family townhouses, by providing special incentives where appropriate. This section provides guidelines for both as of right and townhouse developments which require special permit review. The distinction allows for expeditious review and approvals for smaller scale infill townhouse developments, while ensuring detailed examination of the site and building plans for larger developments and consideration of their neighborhood impacts.~~

~~**11.12** *Applicability of Regulations.* The development standards specified in this Section 11.10 are applicable only to townhouse developments and do not change the development standards for other uses in the Residence, Office and Business, and Industry A-1 districts. Townhouse developments which meet the requirements specified in Sections 11.14, 11.15, and 11.16 shall be allowed in Residence B, C, C-1, C-1A, C-2, C-2A, C-2B, C-3, C-3A, C-3B, Office and Business and Industry A-1 districts as follows:~~

~~**11.12.1** Construction of a townhouse development containing six (6) or more dwelling units in a Residence B district and Residence C district shall require a special permit.~~

~~**11.12.2** Construction of a townhouse development containing twelve (12) or more dwelling units in a Residence C-1, Residence C-1A, Office 1, Office 2, Business A-1, Industry A-1 or Business A-3 district shall require a special permit.~~

~~**11.12.3** Construction of a townhouse development in a Residence B, C, C-1, Residence C-1A, Office 1, Business A-1 or Business A-3 district which contains fewer units than specified in Section 11.12.1 or 11.12.2 shall require a special permit if both of the following conditions pertain to the development:~~

- ~~(1) Another permit for townhouse development has been granted within the twelve (12) month period immediately preceding the date of permit application for the lot on which the development would be located or on an abutting lot;~~
- ~~(2) The townhouse development for which the permit is being sought would increase the total number of dwelling units on said lot(s) to the threshold specified in Section 11.12.1 or 11.12.2.~~

~~**11.12.4** Construction of all townhouse development in Industry A and A-2 districts, Industry B, B-1 and B-2 district, and the Industry C district shall require a special permit granted by the Planning Board where any one of the following conditions exist:~~

- ~~1) The development exceeds fifty thousand (50,000) square feet of gross floor area;~~
- ~~2) The lot area per dwelling unit proposed is less than one thousand two hundred (1,200) square feet in an Industry C district six hundred (600) square feet in an Industry A district, or three hundred (300) square feet in an Industry A-2, Industry B, or Industry B-1 district; or~~
- ~~3) Twelve units or more dwelling units are proposed where any portion of the development is located within one hundred (100) feet of a Residence A-1, A-2, B, C, or C-1 district.~~

~~**11.12.5** Where a townhouse development is constructed on two or more abutting lots, the requirements applicable to the development shall be determined as if the parcel were a single lot.~~

~~**11.12.6** Where a townhouse development is constructed on a lot or lots with other buildings existing prior to such development, the dimensional requirements of this Section 11.10 shall apply to those structures or portions of structures on the lot(s) which constitute the townhouse development.~~

~~11.12.7~~ Where a townhouse development is proposed on a lot on which a preferably preserved significant building, as determined by the Cambridge Historical Commission under the provisions of the Demolition Ordinance #965, has been demolished within the five (5) years immediately preceding the application for a building permit or a special permit or where such building is proposed to be demolished to permit the townhouse development under the provisions of this Section 11.10, the provisions of Subsections 11.14, 11.15, and 11.15.1–11.15.4 shall not apply; the townhouse development shall in such circumstances be subject to the dimensional requirements normally applicable in the district.

~~11.13~~ *Special Permit Granting Authority.* The Planning Board shall be the special permit granting authority for any townhouse development included in Section 11.12.1, 11.12.2, or 11.12.3. The Board of Zoning Appeal shall be the special permit granting authority for special permits required by Sections 11.15.5, 11.16.2, and 11.16.4 for any townhouse development which does not require a special permit from the Planning Board.

~~11.14~~ *Subdivided Lots.* A developer, or any subsequent owner, who desires to subdivide a townhouse development must record a subdivision plan with the Registry of Deeds of Middlesex County. A copy of the recorded subdivision plan must also be filed with the Building Commissioner. Subdivided lots may be less than five thousand (5,000) square feet and must include an individual dwelling, together with front and rear yards or rights to yards in common areas.

~~11.15~~ *Dimensional Standards for Townhouse Development.* The following development controls apply to the parcel of land upon which a townhouse development is constructed and are not applicable to the initial subdivision of the townhouse parcel into individual lots. The townhouse development parcel as a whole must conform to these controls. But once satisfied for the total parcel, the controls are waived for the subsequent subdivision into individual lots. The required minimum lot size for a townhouse development shall conform to the existing regulations for the district in which the townhouse development is constructed.

However, modifications to the townhouse development after a subdivision plan has been recorded in the Registry of Deeds shall be subject to the dimensional standards as set forth in this Section 11.15 applied to the individual lot lines of the subdivided lots; modifications that do not so conform may be permitted as set forth below:

- a. — For any townhouse development, after issuance of a building permit, projecting eaves, chimneys, bay windows, and balconies that do not project more than three and one half (3 1/2) feet.
- b. — For any townhouse development for which a special permit has been granted by the Planning Board, modifications specifically enumerated in the special permit. For those modifications not so enumerated, or where the special permit fails to specifically enumerate allowed modifications, after issuance of a new special permit (a Major Amendment to the original special permit) by the Planning Board to allow the proposed modification(s).
- c. — For any townhouse development originally constructed as of right, after issuance of a special permit by the Board of Zoning Appeal.

Where a special permit is required in paragraphs b. and c. above, all owners of lots that together constitute the original townhouse development parcel shall receive notice of the special permit public hearing, in the manner provided for in Chapter 40A for parties of interest; such owners shall be considered parties in interest, however, only as they are so defined in Section 11, Chapter 40A.

~~11.15.1~~ *Minimum Lot Width.* In a townhouse development there shall be no minimum lot width, except that in Residence B, Residence C, and Residence C-1 districts the minimum lot width applicable in the district shall apply.

~~11.15.2~~ *Maximum Floor Area Ratio.* In a townhouse development, the maximum permitted floor area ratio in districts where townhouse developments are permitted shall be as normally applicable in the district.

~~11.15.3~~ **Maximum Height.** In a townhouse development the maximum permitted height shall be four habitable stories and the maximum height of the cornice line shall be thirty (30) feet. Any part of a townhouse structure which projects above the cornice line shall be set below an imaginary inclined plane beginning at the thirty (30) foot cornice line on any facade of the structure facing a street or facing any lot line abutting a residentially zoned lot, and thereafter rising at a forty five degree (45°) angle. However, portions of the building may rise above the imaginary inclined plane provided the area of those portions above the inclined plane projected onto the vertical plane does not exceed ten (10) percent of the area of the vertical plane lying between the thirty (30) foot cornice line and the maximum height of the structure, calculated for and limited to each separate plane.

However, the maximum height of any portion of a townhouse development shall be forty (40) feet, except that in a Residence B district the maximum height shall be thirty five (35) feet.

~~11.15.31~~ In any zoning district that limits building height to thirty five (35) feet or less, the maximum permitted height in a Townhouse Development shall be thirty five (35) feet.

~~11.15.32~~ In all other districts the maximum permitted height in a townhouse development shall be four habitable stores and the maximum height of the cornice line shall be thirty (30) feet. Any part of a townhouse structure which projects above the cornice line shall be set below an imaginary inclined plane beginning at the thirty (30) cornice line on any façade of the structure facing a street or facing any lot line abutting a residentially zoned lot, and thereafter rising at a forty five (45) degree angle. However, portions of the building may rise above the imaginary inclined plane provided the are of those portions above the inclined plane projected into the vertical plane does not exceed ten (10) percent of the area of the vertical plane lying between the thirty (30) foot cornice line and the maximum height of the structure, calculated for and limited to each separate plane.

However, the maximum height of any portion of a townhouse development shall be forty (40) feet, except that in a Residence B district the maximum height shall be thirty five (35) feet.

~~11.15.4~~ **Yard Requirements.** The yard requirements in the district shall be applicable for each townhouse development.

~~11.15.5~~ **Minimum Private Open Space.** In a townhouse development the minimum ratio of private open space as defined in Article 2.000 to lot area shall be twenty five (25) percent or that amount required in the district, whichever is greater.

(1) The minimum dimension of any area counted toward required private open space shall be fifteen (15) feet. A ten (10) foot minimum open space dimension may be allowed on special permit by the Special Permit Granting Authority upon its determination that the peculiarities of the parcel warrant such a reduction, that the smaller dimension will result in a superior site design, and that the total amount of private open space will not be reduced.

(2) Where it is proposed to subdivide a townhouse development in accordance with the requirements of Section 11.14 then the minimum ratio of private open space to subdivided lot area shall be that required for the Townhouse Development as a whole.

Where the townhouse development is not to be subdivided into individual lots and therefore the private open space in a townhouse development is not to be provided on subdivided lots but is to be provided on a common basis to be held in joint ownership by a group of townhouse owners such as a cooperative or an association, then the minimum ratio of private space to the total lot area in the townhouse development shall be that required in this Section 11.15.5.

~~11.16~~ **Parking Standards for Townhouse Development.**

~~A Townhouse Development shall be subject to the requirements of Article 6.000 except as they may be modified below.~~

~~11.16.1 One off street parking space per dwelling unit in a townhouse development shall be provided unless a special permit is granted in accordance with Section 11.16.2(4) below.~~

~~11.16.2 Required parking spaces may be located as follows:~~

- ~~(1) Within the townhouse structure or a separate structure on the parcel.~~
- ~~(2) On a lot in accordance with the requirements of Sections 6.20 and 6.40.~~
- ~~(3) On lots not more than two hundred (200) feet away from the building to be served subject to the conditions set forth in Sections 6.20 and 6.40.~~
- ~~(4) On street in the vicinity of the townhouses if the special permit granting authority determines that the lack of off street parking for the townhouse development will not unreasonably reduce the quantity of on street parking in the area. Applicants for an exception from off street parking shall submit a report on parking usage and availability in the vicinity of the development with their permit application.~~

~~11.16.3 Landscaping of On Grade Open Parking.~~

- ~~(1) On grade open parking areas should be arranged and landscaped to properly screen cars from adjacent properties as well as from streets and sidewalks and to diminish the negative environmental impacts of multiple automobiles parked on site in residential neighborhoods.~~
- ~~(2) Twenty five (25) percent of the area devoted to on grade open parking shall be landscaped. The area devoted to on grade open parking shall be that portion of the lot containing parking spaces, driveways, and landscaped area located between or adjacent to parking spaces and drives. No portion of the lot required as a setback between a parking space and a building or a lot line shall be counted in computing the twenty five (25) percent landscaping requirement.~~
- ~~(3) Where more than one "area devoted to on grade open parking" exists within a townhouse development twenty five (25) percent of each such area shall be landscaped.~~
- ~~(4) For every two (2) on grade open parking spaces or fraction thereof there shall be a minimum of one three (3) inch caliper tree located within the area devoted to on grade open parking.
 - ~~(a) The special permit granting authority may grant a special permit for a reduction of this planting requirement upon its determination that such a reduction will not prevent suitable screening of on grade parking and will result in a superior site plan. Any reduction shall require a special permit.~~
 - ~~(b) The trees required for the landscaping of on site parking areas—whether such trees are coniferous or deciduous, flowering or nonflowering—should be tolerant to urban environmental conditions; able to screen parking areas by virtue of their size, form, density of foliage and spread; and easy to maintain. A suggested list of trees which meet these criteria is:~~~~

~~Deciduous. Botanical name (common name)~~

~~Acer platanoides (Norway Maple); Acer rubrum (Red Maple); Acer saccharum (Sugar Maple); Carpinus betulus (European Hornbeam);
Fraxinus americana (White Ash); Ginkgo biloba (Ginkgo); Gleditsia triacanthos inermis (Thornless Honey Locusts); Liquidambar styraciflua~~

~~(Sweet Gum); Liriodendron tulipifera (Tulip Tree); Platanus occidentalis (Sycamore); Quercus coccinea (Scarlet Oak); Quercus palustris (Pin Oak); Quercus rubra (Red Oak); Tilia cordata greenspire (Littleleaf Linden); Tilia europea (Common Linden);~~

~~(5) On grade open parking areas located in front of the townhouse structure(s) shall maintain the visual definition of the front lot line and separation of public from private space in keeping with the appearance and character of the existing streetscape. Such definition shall be achieved by using a change of ground materials at the front lot line and by installing at least one of the following: fences, plantings, walls, or stone monuments which mark the transition from street or sidewalk to residential lot.~~

~~11.17 Additional Requirements.~~

~~(1) Fences may not exceed four (4) feet in height in any front yard unless otherwise permitted by the special permit granting authority.~~

~~(2) Any townhouse unit directly abutting a street or streets shall have a principal entrance on a facade facing a street unless otherwise permitted by the special permit granting authority.~~

Amend Section 11.203.5 to read as follows:

11.203.5 Relaxation of Dimensional Requirements for Inclusionary Housing Projects.

The following relaxations of the dimensional requirements in any zoning district, including base or overlay zoning districts, shall be permitted as-of-right for an Inclusionary Housing Project:

- (a) If a limitation on GFA or FAR is applicable within the district, ~~the~~ Gross Floor Area permitted by the applicable zoning may be increased by thirty percent (30%), as long as such additional Gross Floor Area is used for residential uses not including hotel or motel use.
- (b) If a limitation on the number of dwelling units is applicable within the district, ~~the~~ number of dwelling units permitted by the applicable zoning through rules for minimum lot area per dwelling unit or other applicable rules may be increased by thirty percent (30%).
- (c) The additional Gross Floor Area or dwelling units permitted herein shall be counted toward the determination of any applicable threshold triggering the requirement of a special permit, including but not limited to Section 19.20 Project Review Special Permit, Section 4.26 Multifamily Special Permit, and Section 11.10 Townhouse Development Special Permit.
- (d) In a Residence C-1 district, the maximum height of buildings or portions of buildings used as Residences may be increased to a maximum of 6 stories above grade and 70 feet above grade per the provisions of Section 5.40, Paragraph (2) of this Zoning Ordinance.
