

Temporary Food and Drink Policy for the Public

We have temporarily modified our guidelines for food and drink inside our seven locations to align with the City of Cambridge's emergency mask order.

- You may drink water and other non-alcoholic beverages inside the library. Your drink must be in a securely covered container.
- You must not eat food inside the library.
- You must not have food or drink near library equipment.
- You may briefly remove your mask or face covering when you are actively drinking. Your mask must remain on between sips.
- You must place any trash in the appropriate receptacles.

We will revisit these guidelines when the emergency mask order is lifted.
