HRE 2072 MASS AVE LLC
C/O HOPE REAL ESTATE ENTERPRISES LLC
907 MASSACHUSETTS AVENUE, SUITE 300
CAMBRIDGE, MA 02139
ATTN: SEAN D. HOPE
617.492.0220

LOCATION OF SITE: 2072 MASSACHUSETTS AVENUE, CAMBRIDGE, MA 02140

DESCRIPTION OF PROJECT: CC HRE 2072 MASS AVE TENANT LLC – C/O CAPSTONE COMMUNITIES LLC
COMPREHENSIVE PERMIT: TO CONSTRUCT A NEW MULTI-FAMILY 100% AFFORDABLE HOUSING COMMUNITY WITH 49 RESIDENTIAL RENTAL UNITS, GROUND FLOOR COMMERCIAL AND BUILDING AMENITY SPACE. THE PROPOSAL INCLUDES AN EIGHT STORY BUILDING WITH THREE (3) ACCESSIBLE PARKING SPACES AND TWO (2) DROP OFF SPACES.

SPECIFY LOCAL REGULATIONS OR REQUIREMENTS FROM WHICH RELIEF IS REQUESTED: SEE SECTION 5 REQUESTED WAIVERS FROM LOCAL REQUIREMENTS AND REGULATIONS

THE PETITIONER IS: A LIMITED DIVIDEND ORGANIZATION

IS THE PROPOSED PROJECT NEW CONSTRUCTION: THE PROPOSED PROJECT IS NEW CONSTRUCTION

SITE CONTROL: CC HRE 2072 MASS AVE TENANT LLC EXECUTED A 99-YEAR GROUND LEASE WITH CC HRE 2072 MASS AVE LLC (AN AFFILIATE OF CC HRE 2072 MASS AVE TENANT LLC) FOR THE LAND AND BUILDING AT 2072 MASSACHUSETTS AVENUE. CC HRE 2072 MASS AVE LLC CURRENTLY OWNS 2072 MASSACHUSETTS AVENUE.

SITE ELIGIBILITY: THE PETITIONER IS SIMULTANEOUSLY APPLYING TO DHCD FOR SITE ELIGIBILITY APPROVAL UNDER THE FOLLOWING SUBSIDIES: AFFORDABLE HOUSING TRUST FUND, DHCD HOUSING STABILIZATION FUND (HSF), HUD HOME PROGRAM (RENTAL PRODUCTION), STATE LOW INCOME HOUSING TAX CREDIT PROGRAM AND THE FEDERAL LOW INCOME HOUSING TAX CREDIT PROGRAM (LIHTC).

TOTAL NUMBER DWELLING UNITS PROPOSED: 49
TOTAL NUMBER OF AFFORDABLE RENTAL UNITS: 49
TOTAL NUMBER OF AFFORDABLE HOME OWNERSHIP UNITS: 0

RESIDENT ELIGIBILITY STANDARDS: 41 UNITS AT OR BELOW 60% AMI, 8 UNITS AT OR BELOW 30% AMI, PURSUANT TO THE LOW INCOME HOUSING TAX CREDIT PROGRAM

PLEASE SEE SECTIONS 3 – 16 FOR A COMPLETE DESCRIPTION OF THE PROPOSED PROJECT, AND EACH OF THE FOLLOWING ITEMS:

- a) Site Development Plans - Site development plans showing locations and outlines of proposed building, existing street elevations, traffic patterns and character of open areas, if any, in the neighborhood;
- b) Report on Existing Site Conditions - a summary of conditions in the surrounding areas, showing the location and nature of the existing building, existing street elevations, traffic patterns and character of open areas, if any, in the neighborhood;
- c) Drawings – scaled, architectural drawings, including typical floor plans, typical elevations and sections, and identifying construction type and exterior finish. All projects of five or more units must have Site development plans signed by a registered architect;
- d) Building Tabulations - a tabulation of the proposed building by type, size (number of bedrooms, floor area) and ground coverage, and a summary showing the percentage of the tract to be occupied by the building by parking and other paved vehicular areas and by open areas; (2 copies)
- e) Subdivision Plan - where a subdivision of land is involved, a preliminary subdivision plan; (2 copies)
- f) Utilities Plan - a preliminary utilities plan showing the proposed location and types of sewage, drainage, and water facilities, including hydrants.
- g) Dimensional Form- provided with application; (2 copies)
- h) Photographs – photographs of Site and existing building;
- i) Assessor's Plat – available at City of Cambridge, Engineering Department, 147 Hampshire Street, Cambridge, MA;
- j) Ownership Certificates – 2 Notarized copies, provided application.

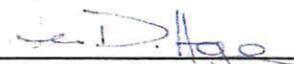

I certify that the information contained herein is true and accurate to the best of my knowledge and belief.

Board of Zoning Appeal
City of Cambridge
831 Massachusetts Avenue
Cambridge, MA 02139

Re: Comprehensive Permit Application for 2072 Mass Ave Apartments
2072 Massachusetts Avenue, Cambridge, MA

Dear Board of Zoning Appeal Members:

CC HRE 2072 Mass Ave Tenant LLC (“Applicant”), an affiliate of Capstone Communities LLC (www.capstonecommunities.com) (“Capstone”) and Hope Real Estate Enterprises LLC (“Hope”), propose to construct an affordable housing community located at 2072 Massachusetts Avenue in Cambridge’s Porter Square and North Cambridge (the “Site”). The resulting residential community will consist of 49 affordable rental apartment homes with a variety of unit sizes – 14 one-bedroom, 21 two-bedroom, and 14 three-bedroom apartments – that will be affordable to individuals and families earning a range of incomes – from 30% to 60% of the area median income (the “Project”). Capstone is a Newton-based developer of mixed income, affordable, and historic apartment communities, and Hope is a Cambridge-based real estate development company with significant zoning consultation and permitting expertise. Capstone and Hope are currently developing Frost Terrace, a 40-apartment 100% affordable housing community located a few blocks south at 1785-1791 Massachusetts Avenue which is anticipated to open in spring 2021. Previously, Hope and Capstone developed Port Landing, a 20-apartment, 100% affordable housing community in The Port/Kendall Square neighborhood in 2016.

Development Proposal

Existing Site Conditions

Located with frontage on Massachusetts Avenue to the northeast and Walden Street to the northwest, the Site is comprised of one lot with approximately 8,515 square feet. Currently, the Site is occupied by an 1,860 sf, one-story building leased to Darul Kabab restaurant. The building is widely known to have housed Kentucky Fried Chicken for many years.

The immediate context along Massachusetts Avenue includes a mix of commercial, residential, and institutional buildings directly fronting the Avenue. The current one-story building and surface parking lot on the Site were constructed in 1971, having replaced a ca. 1890 four-story Odd Fellows Building which occupied most of the parcel. Though the Massachusetts Avenue corridor maintained a small-scale residential character throughout much of the 19th century, by the early 20th century the blocks north of Porter Square were dominated by multi-story commercial, civic, and religious buildings directly fronting the

Avenue. Massachusetts Avenue remains a densely developed artery lined with multi-story commercial, residential, and institutional buildings.

I.O.O.F. Building formerly located at 2072 Massachusetts Avenue, depicted during the 1968 fire which led to its demolition (*Cambridge Chronicle*).

Proposal Summary

The Project will include forty-nine (49) 100% affordable rental housing apartments. The affordability will be in perpetuity. Approximately 71% (35 apartments) will be two and three bedrooms for families. Specifically, the proposal includes 14 one-bedroom apartments, 21 two-bedroom apartments, and 14 three-bedroom apartments. Units average in size from 625 sf (one-bedroom apartments) to 824 sf (two-bedroom apartments) to 1,087 sf (three-bedroom apartments). The high proportion of two- and three-bedroom apartments will provide safe and accommodating housing to families.

Additionally, the Project will include three handicapped accessible parking spaces and two short-term drop-off/pick-up spaces in a covered garage area at the rear of the Site, along with 51 long term bike parking spaces located on the lower level of the building (48 regular and 3 tandem). Electric vehicle charging stations will be provided for the three accessible spaces and power outlets will be provided in the bike room for electric bicycles and repairs. The Project will also include retail space on Massachusetts Avenue and a resident amenity space within the first floor. The retail space is slated for a community use. The Project's operating budget also includes a part-time resident services coordinator who will plan events for families and others in the building and will assist with creating community building and educational activities.

Current Condition

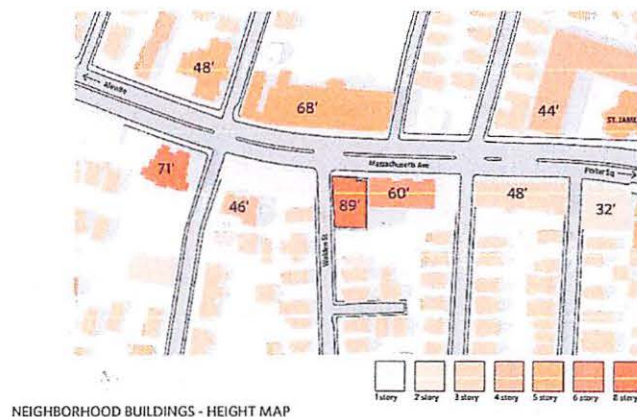

Proposed Condition

The new eight-story building will be constructed to Passive House US (PHIUS) standards and will target PHIUS Certification, and will include a green roof, rooftop solar along with a stormwater management system. The resilient, environmentally friendly materials used to construct the contemporary building façade will ensure long-term sustainability for the Project while adding dimension and rhythm to the Avenue. See **Section 9 Green Building Report** for more information.

Neighborhood

Situated to the northwest (less than 0.3 miles from the center) of Porter Square, the Project will complement an already vibrant mixed-use area of institutional, residential, office, restaurant and retail uses. Located in the North Cambridge neighborhood and adjacent to Neighborhood Nine, the Project’s density and scale aligns with other buildings on Massachusetts Avenue. Directly to the Site’s southeast and fronting on Massachusetts Avenue is the six-story affordable age restricted Russell House Apartments that is owned and operated by the Cambridge Housing Authority. Russell House Apartments is approximately 60’ and contains 52 apartments. The five-story, 68’ historic Henderson Carriage Building is located across Massachusetts Avenue from the Site. 2130 Massachusetts Avenue, an eight-story, 71’ building is located one block to the northwest of the Site. Directly across Walden Street from the Site is a single-story retail building and the three and a half story 5 Walden Street condominiums. Spanning the entire rear of the Site is a municipal parking lot that provides an almost 50’ wide buffer from the mostly three-story multifamily residential neighborhood to the west. The owners of the Henderson Carriage Building and Russell House Apartments support the Project.

The below Neighborhood Buildings – Height Map details the surrounding building heights.

Area Amenities

This Site is well-served by public transit. The Porter Square MBTA Redline and Commuter Rail stations are less than 0.3 miles from the Site and the Davis Square MBTA Redline is located 0.5 miles from the Site. In addition, the #77 and #83 MBTA bus routes are at the Site, the nearest BLUEbikes station is located directly across the street, and the nearest Zipcar space is less than 200 feet away. These various rapid transit options provide access to jobs, services, and amenities throughout Cambridge, Boston, and the suburbs. Additionally, the Site is located within walking distance to the Porter Square Shopping Center, which provides several key family-friendly amenities including a grocery store, pharmacy, hardware store and various other community-serving businesses. In the context of Cambridge's extreme shortage of affordable family housing, the Project will provide forty-nine (49) households with access to a desirable, transit oriented, and thriving neighborhood. According to Walkscore.com, the Site's Walk Score is 97, which is considered a Walker's Paradise.

The Site is also within walking distance to a number of public elementary schools and daycare centers including the Rindge Avenue Upper School (0.2 miles or 6-minute walk), Wild Rose Montessori School (0.3 miles or 7-minute walk) and Benjamin Banneker Public Charter School (0.4 miles or an 8-minute walk). Below is a partial list of amenities within 0.5 miles of the Site. The play yard at St. James Church will be open to the Project's residents as well as the general public from 8am to dusk every day of the week with few exceptions. St. James Church, at 1991 Massachusetts Avenue, is one block from the Project.

Building Program and Site Design

The Project's design balances a complex set of contextual priorities for the Site which have arisen from analysis, community meetings, and various meetings with the City of Cambridge Urban Planning, Community Development and Traffic and Parking teams. The design goals are:

Create a high-quality affordable housing apartment community for families in Cambridge

The design reflects its context, a strong corner on Cambridge's main street. The building massing is slender, allowing for light and air for all apartment homes. The site is linked to amenities and services in this walkable neighborhood and the unit interiors are simple, but elegant.

Create significant transparency: Activate the streetscape

A primary design goal is to maintain transparency at street level to facilitate visual connections and to activate the streetscape. The first floor along Mass Ave will be wrapped with transparent storefront glazing and will include both the retail and residential entryway. The residential entryway will be pushed back to create a more pedestrian-scaled experience for residents. The storefront turns the corner onto Walden St and continues along with transparency into the retail and resident amenity spaces. An entrance to limited parking and services area is hidden on the rear part of the site.

Shaping: Building Form

The building consists of two interconnected 8-story volumes. Along Massachusetts Avenue and West along Walden Street, a seven-story suspended aluminum clad cube sits above one story of recessed with storefront glazing. The suspended cube of the floors is clad in light colored anodized aluminum / zinc vertical panels with a staggered pattern, creating a light and airy volume that floats above the street, minimizing the Project's perceived mass, and also has a strong corner presence that is visible from the street intersection. A grid of openings accentuates the suspended cube, incorporating large windows which provide natural daylight into the interior units, as well as vertical infill composite panels that resemble wood, bringing warmth and texture. Each window and infill panel pair are framed with a metal projection that provides a rhythm to the façade.

Human Scale: Material Palette

The residential anchor consists of a materials palette that relates to the surrounding residential buildings. The brick plinth / base is located on the ground floor, most prominently at the residential entry which is recessed along Mass Ave, adjacent to the retail space and bus shelter. The crafted long brick at street levels enlivens the pedestrian experience and allows for interactions as the wall angles back and forth. This culminates in a gradient of increasingly frequent openings that also serve as visibility into the parking area, as well as creating ventilation. Above the parking entry, the brick is oriented vertically as a contemporary response to the traditional lintel approach, while highlighting the playfulness of the material.

Brick pattern material precedents

Above the brick plinth, painted clapboard comprises the main field of the body. Proportionately sized and spaced windows bordered by a trim are located along all orientations of the residential anchor. On the south elevations, each window has an infill panel below, clad in a lighter colored shingle panel to provide an accent from the main field, as well as to give the perception of the same proportions compared to windows on the north and west facades. In addition, solar shades are proposed on the South façade that not only livens the rhythm of the façade, but also serves a functional purpose of providing shade to reduce the building’s overall energy consumption. The top of the residential anchor is defined by a cornice band of half-round shingles.

Suspended cube and residential anchor material precedents

Streetscape and Greenery

Except as indicated below, while there is no open space or landscaping on the Site, several street trees are located on the opposite side of Walden Street. Due to the existing electrical duct banks below the sidewalks adjacent to the Site on Massachusetts Avenue and Walden Street, it is not possible to plant street trees in these locations. Planters and fences supporting the growth of vertical green are located on the Project’s

southwest facade, and at the openings to the parking and service areas. An intensive green roof is also visible along Walden Street above the parking entrance, with a variety of non-invasive plant species.

There is a 12" DBH *Tilia cordata*, Littleleaf linden located on the Site's south property line. This tree is mostly located on the 2050 Massachusetts Avenue property. Daniel E. Cathcart, an ISA Board Certified Master Arborist, developed a Tree Protection Plan (included herein) that will be followed by the development team prior to, during, and after construction. See **Section 10** for the **Tree Protection Plan**.

Accessibility

The Project is designed to comply with the requirements of 521 CMR, Massachusetts Architectural Access Board (MAAB), the Fair Housing Act, the Americans with Disabilities Act (ADA), as well as the Uniform Federal Accessibility Standards (UFAS). 3 apartments (1 of each bedroom type) in the Project will be Group 2 units for individuals with mobility difficulties (521 CMR 9.4), with the rest being Group 1 units (521 CMR 9.3). In addition, 1 apartment will be a Group 1 unit that also provides sleeping accommodations for persons who are deaf or hard of hearing (521 CMR 9.7).

Sustainability

The Project will incorporate sustainable and resilient design strategies that reflect a commitment to environmental stewardship that aligns with affordable housing with a strong focus on lowering utility costs, carbon and greenhouse gases reduction and creating healthy environments. The Project is targeting Passive House certification to the standards set by the Passive House Institute US (PHIUS) for their PHIUS+ Core rating system, as well as certifying through the EPA Indoor air PLUS program. The PHIUS+ CORE rating system includes stringent and verified building performance metrics as well as professional testing of the building envelope and air sealing at two stages during building construction. EPA Indoor air PLUS certification includes verification of indoor air quality (IAQ) quality control measures including but not limited to: moisture control, HVAC venting and sealing, and use of low VOC materials in construction. In addition, the design team is also planning to conduct a systems commissioning process in addition to the envelope. The above will result in a highly efficient building that lowers utility costs, protects occupant health through excellent indoor air quality, as well as contributes to the overall reduction in carbon and greenhouse gases emissions. Specifications for a simple, durable materials palette will emphasize the choice of healthier building materials and reinforce the Passive House approach, these measures also act as quality-of-life improvements for the residents, and will be integrated with the management of the property.

In terms of addressing resiliency concerns such as extreme weather events and future climate change, the project team evaluated the flood risk based on current maps and future projections for the site and surrounding area. In addition, various protection, adaptation, and backup strategies have been incorporated. Additional details can be found in **Section 9 Green Building Report**.

Affordable Housing

Due to its unit mix and income set asides, the Project's 49 apartment homes will attract a variety of households. 41 units will be set aside for households that earn at or below 60% of AMI, currently a household income ranging from \$53,760 – \$82,920, depending on household size. Eight (8) units will be Section 8 PBV units set aside for households that earn at or below 30% of AMI, currently there is no minimum household income, and a maximum income of \$30,720 – \$41,460, depending on household size. Including all utilities and for the 60% AMI apartments, monthly one-bedroom rents are estimated to be \$1,440, monthly two-bedroom rents are estimated to be \$1,728, and monthly three-bedroom rents are

estimated to be \$1,995. When accounting for utilities, these rents are approximately 40% of the neighborhood's market rate rents, which are deeply unaffordable to households in this income range.

The proposed income mix provides housing that is affordable to families and individuals earning a range of incomes. The immediate market area shows strong demand for this unit mix as effective vacancy rates are 0%. The demand for affordable units is even more significant than that for market rate apartments. At Port Landing, which was opened in 2016, 1,386 applicants applied for its 20 apartments prior to the lottery. Data obtained from The Finch, an affordable apartment community owned by Homeowner's Rehab which completed its lease-up in 2020, showed that 2,261 individuals or families applied for 98 apartment homes. There are currently 20,703 unique applicants on the Cambridge Housing Authority waitlists.

To the extent permitted by Department of Housing and Community Development, 70% of the apartments will give preference to current Cambridge residents, municipal and school department employees, and employees of local businesses.

Transportation and Parking

The site plan proposes three (3) covered, on-site accessible parking spaces that will be dedicated to residents and guests with disability plates or placards. In addition, there will be two (2) short-term COVERED drop-off and pick-up spaces to aid in reducing congestion along Walden Street.

As previously indicated, the Site is a short walk from numerous forms of transit options including the Porter Square Station less than 0.3 miles from the Project that includes the MBTA subway Red Line, Fitchburg/South Acton Commuter Rail Line, four Bus Lines (Bus Route #77, 96, 83 and 87) and several car sharing locations. The Parking and Traffic Assessment by Vanasse & Associates, Inc. (VAI) included in **Section 6** suggests approximately half of the building's households, or ~25 households, will have cars. Those residents with or without cars will benefit from Transportation Demand Management (TDM) that will include covering the cost of MBTA passes for property management staff, subsidizing MBTA passes for residents, BLUEbikes memberships, or ride sharing memberships, as further detailed in the VAI report. In addition, the installation of public transportation and ride share timing screens at a centralized location will provide residents with information for easy access to transit. Ownership and building management will provide information at move-in to all residents on all public transportation options within a short distance of the Site.

Below is a map from Walkscore.com highlighting the Site's adjacent transit options:

70 Excellent Transit
3072 Massachusetts Avenue has excellent transit which means transit is convenient for most trips. Car sharing is available from Zipcar, RelayRides, Enterprise CarShare and Hertz On Demand.

Walker's Paradise 97
Daily errands do not require a car.

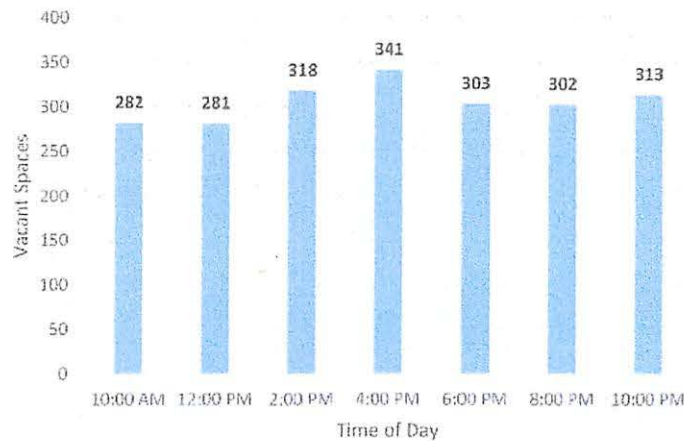

Excellent Transit 70
Transit is convenient for most trips.

Biker's Paradise 99
Daily errands can be accomplished on a bike.

VAI determined the Project’s projected parking demand and quantified the availability of on-street parking within a quarter (0.25) mile from the Site entirely within the City of Cambridge boundaries during peak parking demand hours. In summary, at the time of its study on Tuesday, October 20, 2020, VAI determined that the peak hour demand was at 12:00pm at which time a total of 281 on-street parking spaces were available within a quarter (0.25) mile of the Site. VAI concludes its report by stating: “In summary, a detailed parking survey was completed in the area of the Project and based upon this data it can be concluded that there is more than sufficient availability of on-street parking to accommodate the Project. The Project proponent is committed to implementing a Travel Demand Management plan which promotes alternatives modes of transportation and will minimize the Project’s impact on available on-street parking and traffic in the area.”

VAI Parking Study, October 20, 2020, Figure 4

It is expected that many of the Project’s residents will utilize alternative modes of transportation other than automobiles. Based upon the U.S. Census and 2018 American Community Survey data for Census Tract 3547, the tract in which the Project is located, the mode split characteristics of the Project are estimated as follows: 32 percent automobile trips; 43 percent transit; 10 percent walk; six (6) percent bicycle, and nine (9) percent other trips. Pursuant to VAI’s report, the Project is expected to generate approximately 98 vehicle trips on an average weekday (49 entering/49 exiting), with approximately six (6) vehicle trips (2 entering/4 exiting) expected during the weekday morning peak-hour. During the weekday evening peak hour, the Project is expected to generate approximately 9 new vehicle trips (5 entering/4 exiting).

The Project’s proximity to several alternative transit options and community serving amenities (schools, pharmacy, grocery store) within walking distance will produce a thriving walkable residential community. The Project’s design is consistent with smart growth principles and the Cambridge City Council’s goal to reduce reliance on vehicle usage while promoting alternative forms of transportation.

Walden Street Widening

Through discussions with Cambridge Community Development, Traffic and Parking, Department of Public Works, and community outreach, the development team identified that the portion of Walden Street adjacent to the Site is unusually narrow for a three lane street. Currently Walden Street is ~26’-8”, with a ~10’-0” travel lane outbound from Massachusetts Avenue and two ~8’-4” travel lanes inbound. This constriction slows traffic moving through the intersection, makes turns difficult, and does not align with best practices and guidelines.

The proposed design includes the widening of Walden Street from ~26'-8" to 30'-0". This is achieved by locating the exterior walls of the ground floor ~4'-0" inside the property line and then granting an easement to the City for a sidewalk in that area, resulting in three (3) 10'-0" travel lanes and making a more spacious street condition. The proposed design also improves the sidewalk by widening it from its current ~6'-5" width to be ~7'-2" wide, both measurements are inclusive of the curb. The proposed upper floors of the new building overhang the sidewalk by ~3'-6" with an overhead clearance of ~13'-0".

Regarding the constructability of widening Walden Street, the development team approximately located electrical duct banks in the Walden Street sidewalk. Based on visual inspections of the manholes and a utility Ground Penetrating Radar (GPR) report by GPRS, it seems unlikely that the location of these duct banks will conflict with the proposed construction associated with the widening of Walden Street. Conversations with Eversource on the exact elevation of the duct banks are ongoing. The GPR report is included in **Section 8**.

Evidence of Need for Affordable Housing:

The City of Cambridge historically was the home of immigrants and low and middle-income earners that were vital to Cambridge's glassworks and furniture factories from the 1920's through the 1970's. However, since rent control ended in 1994, Cambridge has experienced an exponential increase in land value, resulting in a disproportionate impact on the availability of affordable housing options for low and middle-income individuals and families. HUD defines "cost burdened" households as those who pay more than 30% of their income for housing.¹ According to the U.S. Census Bureau, 43% of renters in Cambridge are paying 30% or more of their household income on rent and are therefore considered cost burdened.²

Lower and middle income families in Cambridge find it exceptionally difficult to secure family friendly housing throughout the City. In the last six (6) months, accordingly to MLS, the median sale price for a single family home in Cambridge was \$1,733,500 and the average condominium sale price was \$812,500. Based on an informal October 2020 survey of larger apartment communities in the immediate market area, two-bedroom apartment rents are \$3,600 and three-bedroom apartment rents are \$4,500.³ In order to afford these rents and not be cost burdened, a household would need to earn at least \$152,000 – \$190,000 annually. Over 60% of Cambridge households make less than \$150,000, making these units unaffordable to a majority of current Cambridge residents.⁴

The City's housing stock is also older and many units contain lead based paint hazards, which further constrain families from locating safe, quality housing for their children. In fact, 71.4% of Cambridge's housing inventory was constructed prior to 1980.⁵ Upon completion, all of 2072 Massachusetts Avenue's apartments will be new.

Once completed, the Project will provide urgently needed affordable housing in an area where a significant number of families and individuals are unable to afford quality housing. Additionally, the high number of three-bedroom apartments (29%) will specifically be occupied by families.

Financing

If 2072 Massachusetts Avenue's Site Comprehensive Permit application is approved, the development team anticipates applying for an array of local, state and federal subsidies as well as private investments. The development team will apply to the Massachusetts Department of Housing and Community Development (DHCD) for an allocation of state and federal low-income housing tax credits as well as additional subsidies.

In 2018 the Cambridge Affordable Housing Trust provided a \$3.8 million loan to finance the Site acquisition and certain predevelopment expenses. If the Project receives its permitting, the development team anticipates applying for additional City funding and for eight (8) Cambridge Housing Authority Section 8 Project Based Vouchers.

Site Control, Permitting and Community Process

Site Control

Capstone and Hope have created separate entities that own/will own the Site/Project and that will develop the Project. CC HRE 2072 Mass Ave LLC, an affiliate of Capstone and Hope, purchased the 2072 Mass Ave land and building using loan proceeds from the Cambridge Affordable Housing Trust in April 2018.

On November 9, 2020, CC HRE 2072 Mass Ave LLC entered into a 99-year ground lease with CC HRE 2072 Mass Ave Tenant LLC for the 2072 Massachusetts Avenue land. See the attached organizational chart that outlines the entity structure once the Project receives all its financing. This ground lease structure is typical of affordable housing developments in Cambridge due to the complicated financing structure required by local and state financing agencies.

Permitting

CC HRE 2072 Mass Ave Tenant LLC is a Limited Dividend Organization under M.G.L. c.40B, §§ 20 through 23. Pursuant to 760 CMR 56, CC HRE 2072 Mass Ave Tenant LLC is applying to the Department of Housing and Community Development, as the Subsidizing Agency, for Project Eligibility under the following subsidy programs: Affordable Housing Trust Fund, DHCD Housing Stabilization Fund (HSF), HUD HOME Program (Rental Production), State Low Income Housing Tax Credit Program, and the Federal Low Income Housing Tax Credit Program (LIHTC). An affordable housing restriction will be recorded against the land and buildings with a term in perpetuity and the Project will comply with the Affirmative Fair Housing Marketing and Resident Selection Plan as required by 760 CMR 56.

According to the Zoning Map, the majority of the Site has a base zoning of Business A-2 and a small portion (13'+/-) at the rear of the parcel is in the Residence B base zoning district. Both districts allow for residential uses as of right although the Business A-2 district also allows for a range of commercial/retail and multi-family residential uses whereas the Residence B district is a one- and two-family district only. The Site also is in the Massachusetts Avenue Overlay District and North Massachusetts Overlay Sub- district (the "Massachusetts Avenue Overlay").

The development team is proposing to obtain all of 2072 Massachusetts Avenue's local approvals through an MGL Chapter 40B Comprehensive Permit from the Cambridge Board of Zoning Appeal (BZA). Since the City of Cambridge has met its obligations under MGL Chapter 40B, the development team is requesting that the BZA accept this Comprehensive Permit application. Pursuant to 760 CMR 56.05(7), please refer to

Section 5 for a detailed list of requested Waivers from Local Requirements and Regulations. **Section 4** is the Dimensional Form.

Community Process

The development team has worked extensively with the City of Cambridge, including the Community Development Department (Zoning, Housing, Sustainability, Urban Design, Pedestrian and Bicycle), Fire Department, Traffic and Parking, Department of Public Works, and Historical Commission.

In addition, the development team has engaged the community through individual abutter Zoom meetings and a large Zoom community meeting on September 29, 2020 that was attended by 82 people. The Project was also presented to the Porter Square Neighbors Association (PSNA) on October 15, 2020 and is schedule to reappear at the PSNA on November 19, 2020. Understanding that many residents of the adjacent Russell House Apartments do not have access to computers and/or the internet, and in conjunction with the building's management, the development team displayed large renderings of the Project and comment cards in the building's lobby so that Russell House residents would have an opportunity to provide input.

Community outreach and various City department input resulted in the following changes to the proposal: (1) setting back further the first floor facing Walden Street, (2) relocating the main pedestrian entrance from Walden Street to Massachusetts Avenue, (3) widening Walden Street and the sidewalk adjacent to the Project, (4) programming the retail space to accommodate varied and community uses, and (4) developing partnerships with community stakeholders to access additional amenities for the Project's residents. An additional community meeting via Zoom is scheduled for November 16, 2020 to share design updates and elaborate on changes that were made to incorporate community feedback. The development team has maintained a website, www.2072massaveapts.com, that provides updated and detailed information on the proposal. The website includes copies of plans, FAQs (forthcoming), news and events, information on the development team, and contact information for the community to provide feedback and ask questions.

Development Team

The following development team has been formed to include industry experts ensuring a seamless and successful completion:

- **Developers:**
 - *Capstone Communities LLC* (www.capstonecommunities.com), is a Newton, Massachusetts based real estate development firm experienced in structuring complex financing involving multiple federal and state subsidies. Jason Korb is the principal of Capstone Communities LLC where he has developed market rate, mixed income, and 100% affordable housing. Since founding Capstone in October 2010, Jason has successfully completed a total of \$60,000,000 of development transactions in Cambridge, Somerville, Arlington, Newton and Brockton Massachusetts. These include converting Brockton's first brick shoe factory into 25 mixed-income apartments, co-developing 20 100% affordable family apartments on a vacant lot in Cambridge's Port neighborhood. Additionally, Capstone and Hope are currently developing Frost Terrace, a 40 apartment, 100% affordable community in Porter Square which is estimated to be complete in Spring of 2021.

Prior to forming Capstone, Jason was the Vice President of Acquisitions at Beacon Communities LLC, a developer, owner, and manager of over 9,000 apartment homes in the Northeast. At Beacon, Jason was responsible for sourcing new acquisitions and overseeing

mixed income, affordable and market rate development and financing opportunities. In his seven years at Beacon, Jason was responsible for developing over 600 apartment homes totaling over \$100M. Prior to joining Beacon in 2004, Jason was a Housing Project Manager at the Fenway Community Development Corporation in Boston. Jason is a former Director of Caritas Communities and a former Vice-Chair of Preservation Massachusetts. Jason received an MS from the Massachusetts Institute of Technology's Center for Real Estate and a BA from the University of Michigan, Ann Arbor. Jason's MIT thesis, The Low Income Housing Tax Credit: HERA, ARRA, and Beyond has been cited by Harvard University's Joint Center for Housing Studies and the US Senate Budget Committee.

- *Hope Real Estate Enterprises LLC*, is led by Cambridge based attorney and Real Estate Developer Sean D. Hope who specializes in Zoning and municipal permitting/consulting. Sean was co-developer with Jason Korb of Port Landing - a 100% affordable housing development located in The Port/Kendall Square that opened at the end of 2016 providing 20 units of family friendly housing to the Port neighborhood where Sean's family first moved to from the island of Barbados. Additionally, Hope has partnered with Capstone again to develop Frost Terrace, a 40 apartment, 100% affordable community in Porter Square which is estimated to be complete in Spring of 2021. Sean has also represented developers and property owner on numerous construction projects in Cambridge including new construction, historic preservation and adaptive reuse projects. Prior to entering into private practice in 2008 Sean was an associate member of the Cambridge Board of Zoning Appeal voting on several keys applications including Print Shop Condominiums, an affordable home ownership project developed by CASCAP in 2007. Sean also serves as in-house counsel for Pentecostal Tabernacle in Cambridge and is former member of the Cambridge Historic Society.
- **Preconstruction Cost Estimator:** *Callahan Construction Managers* (www.callahan-inc.com): Established in 1954, Callahan Construction Managers is a full-service construction company experienced with a variety of building types and construction methods in Massachusetts and the Northeast. Callahan specializes in a wide range of preconstruction and construction management services, and including projects in multi-family residential, senior housing, hospitality, retail, corporate office, life sciences, educational, and other markets. Most recently, Callahan began the historic renovation, addition, and new construction project at Squirrelwood Apartments, an affordable housing community owned by Just-A-Start Corporation in Cambridge, MA. The Squirrelwood Apartments contain 88 units and the new construction building will be built to Passive House Standards.
- **Architect:** *Bruner/Cott Architects (Bruner/Cott)* (www.brunercott.com): Bruner/Cott is a mid-sized, full service architecture and planning firm, located in Boston, Massachusetts. Founded 45 years ago, Bruner/Cott is dedicated to enhancing the quality of life, economic vigor, and sense of community through thoughtful, sustainable design. As pioneers in transformative reuse, Bruner/Cott strives to recognize the character and value of an existing structure and understand that sustainable design extends beyond the boundaries of a single building. Whether new construction, transformative reuse, historic preservation, or a large-scale planning project, Bruner/Cott makes buildings that communicate with their surroundings, transforming place by creating architecture of enduring value.

Bruner/Cott is committed to its mission of achieving design excellence through collaboration, creativity, and critical thinking, crafting thoughtful design solutions that fulfill their clients'

aspirations, and enhancing the human experience while respecting the natural environment. The firm's work has been consistently recognized for design, winning awards for renovation, adaptive reuse, and new construction. In the Cambridge/Boston area, Bruner/Cott is working on Frost Terrace (currently under construction), and completed the Lunder Arts Center at Lesley University in Porter Square and The Viridian at 1282 Boylston Street.

- **Legal (General and Zoning):** *Nixon Peabody LLP* (www.nixonpeabody.com): Nixon Peabody is a full-service law firm with more than 600 lawyers nationwide and internationally. Our clients range from developers (for-profit and nonprofit), financing institutions and governmental entities to *Fortune* 100 companies. Nationally recognized in real estate, the firm handles highly complex development and financing transactions involving every class of assets, and has been at the forefront of financing, developing and preserving affordable housing for more than 45 years. In fact, with approximately 25 attorneys and paralegals possessing significant experience working with federal, state and local governmental agencies, NP has one of the largest affordable housing legal teams in the country.

The NP team also handles land use, zoning and permitting for a range of development projects, and is regularly brought into transactions to review site plans and perform zoning analyses. Through this work, the team has developed a comprehensive understanding of the local zoning and permitting processes and the multiple administrative steps that developers face during the course of development, which can include navigating the zoning approval process, obtaining Comprehensive Permit approvals, or establishing zoning overlay district areas and zoning map amendments.

Conclusion

The Project will bring high-quality housing to the Porter Square/North Cambridge neighborhood that will be affordable to a diverse array of low- and moderate-income households. With immediate proximity to rapid transit and essential community services, the Project can provide critically needed housing in an attractive, sustainable development. Designed to provide contemporary amenities with a focus on transit-oriented development and sustainability, the Project will be high-quality family housing in the heart of one of Cambridge's most vibrant neighborhoods.

We look forward to presenting this exciting Project to the Board at your earliest convenience.

Sincerely,

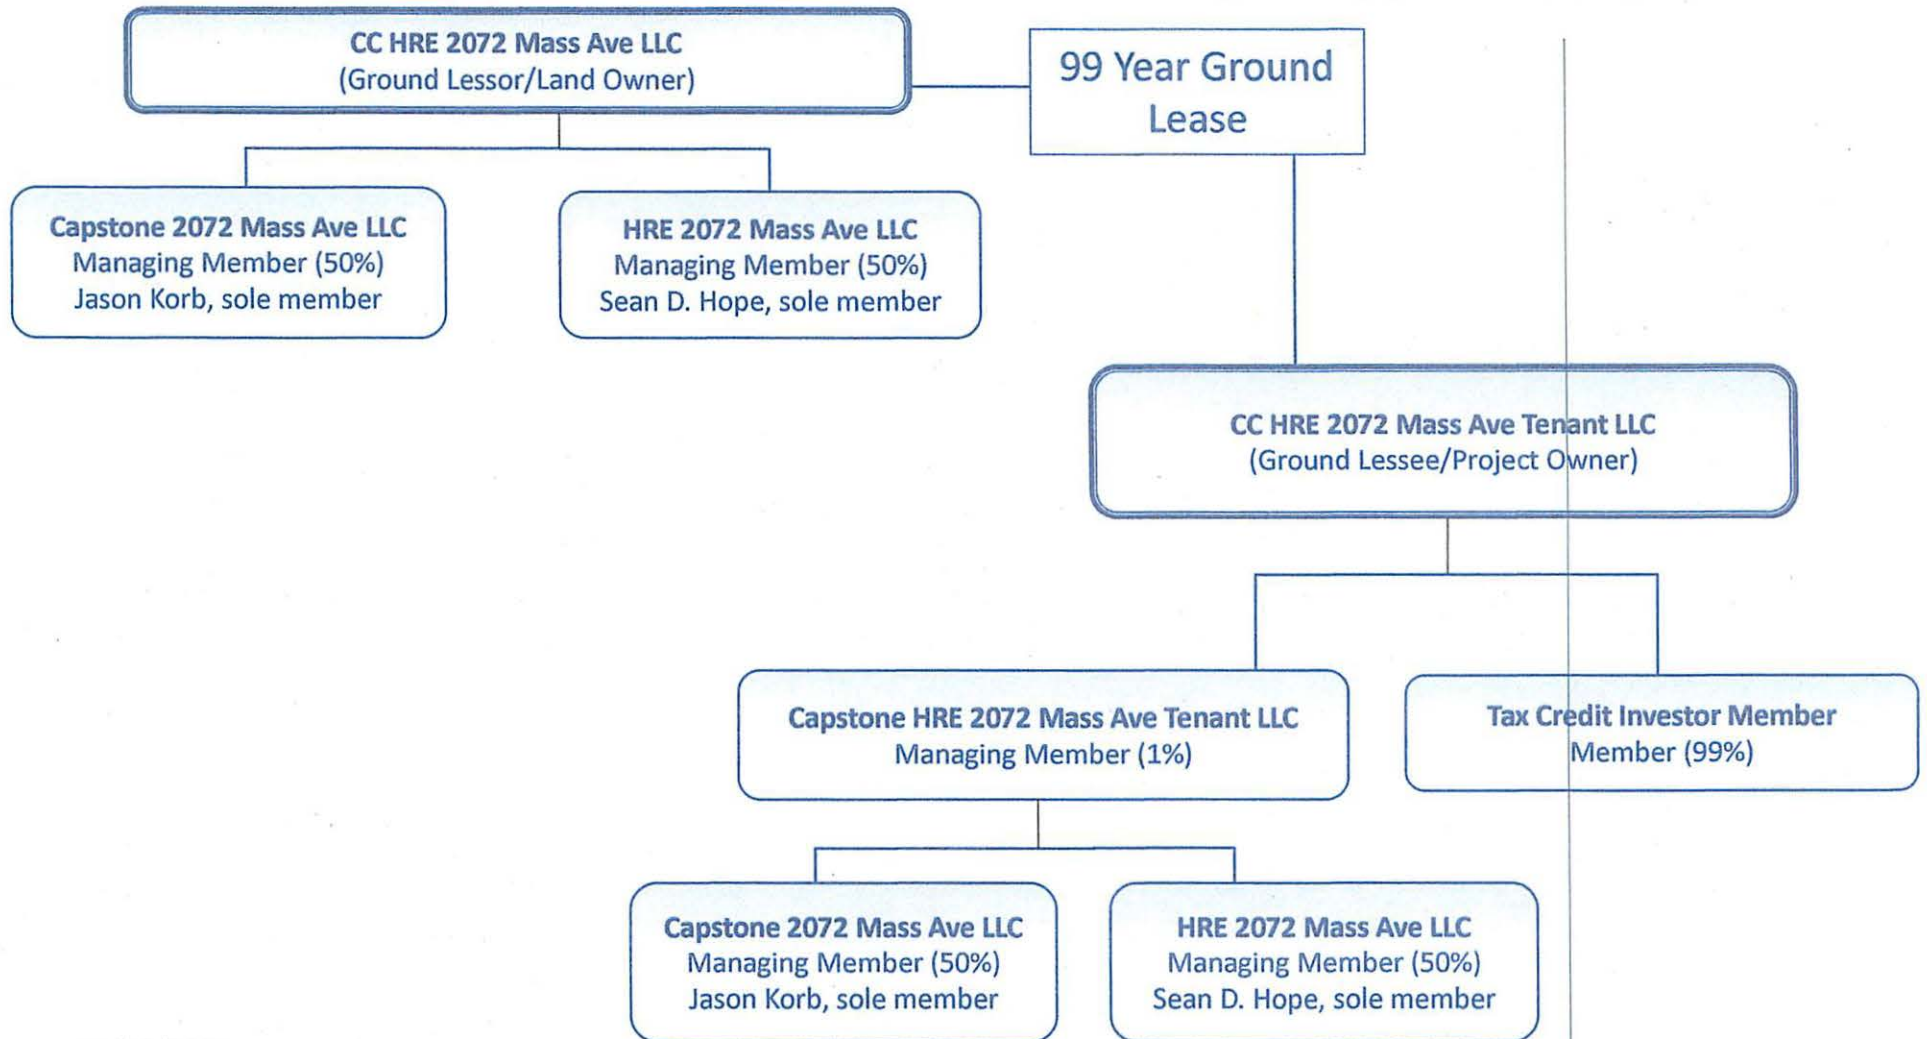

Jason Korb

Cambridge Board of Zoning Appeals

Re: 2072 Massachusetts Ave, BZA-017326-2020

November 30, 2020

We support the application for a comprehensive permit to build new multi-family affordable housing located at 2072 Massachusetts Avenue Cambridge MA

My wife and I have lived in Cambridge, about half mile from the corner of Walden and Mass Ave. for 47 years, and we have walked and driven by that corner thousands of times.

The need for affordable housing, especially for families, in Cambridge is clear. Building affordable housing on Mass Ave, near bus and subway, makes sense. We applaud the developer for his innovative efforts to take some of his land on Walden and use it to widen Walden. While this in and of itself will not solve the long-standing traffic issues at the corner of Walden and Mass Ave, it will help. And moving the primary entrance from Walden to Mass Ave. was a big improvement.

We like the reduction to six stories in the back of the building to address some of the neighbors concerns. We also like the passive house attributes, and the green amenities on the roof.

Advocating increased density is not something We do lightly, but in this case, given the location on Mass Ave, the need for affordable housing, the proximity to public transportation, the efforts the developer has made to accommodate many of the neighborhood concerns. We support this application.

Kay Hurley and Stephen Bardige

Subject: CASE NO. BZA-017326-2020 - 2072 Mass. Ave. Proposed Development

Dear Honorable Cambridge Board of Zoning Appeals Members:

I would like to share some thoughts with you about the proposed development at 2072 Mass Ave, and request that some changes and conditions be added to the proposal prior to allowing it to pass.

The building that Capstone proposes, under the leadership of Jason Korb and Sean Hope, is beautiful and forward-looking in many impressive ways, but its size and the potential impact of some features propose significant concerns, particularly on the small lot on a dangerous intersection whose current traffic problems already pose dangers to those in surrounding streets,

Some background to these concerns, the need and pressure for affordable housing, and to those who are distressed by anyone who does not give unqualified support to the project as is: Whereas the 40B has a history of being considered an anti-snob measure to ensure the development of affordable housing in settings where it is opposed, I want to make it abundantly clear that that situation is not applicable here. To give a sense of context, the nearby neighbors of the proposed development are a friendly and welcoming community that is diverse culturally, racial and economically, and concerned with social justice and providing high-quality and safe affordable housing.

Regarding the 2072 proposed project, the significant traffic problems start at the Mass Ave /Walden Street (MA/WS) corner, on the edge of the proposed building, and continue into other parts of the neighborhood. When traffic is at its normal density, the back-up traffic from the MA/WS congestion continues around the corner to Mead St. and Cogswell Ave. This causes serious dangers to the Cogswell neighbors when, during rush hour, the Walden overflow traffic backs up from Mass Ave to halfway down Cogswell Ave. and makes it impossible for emergency vehicles like fire-engines and ambulances to get through in a crisis situation .

Those who live here know these dangers exist because they/we live with them and are trying to work with the city to resolve them. It is also clear that any further development near the MA/WS corner will worsen them and, the bigger the development, the more profound the impact will be on an already dangerous situation. There is no guarantee that widening the lanes on Walden, as Capstone has generously proposed to do, will help with this, because much of the backing-up and congestion comes from slow, congested traffic on Mass Ave. which is likely to remain a problem, even with the widened lanes.

Please let's put on the breaks, regroup and go back and address the important issues that have been left out of the planning so far.

By taking into consideration recommendations from the range of experts in the community, in conjunction with a more in depth study by the traffic experts and any other appropriate safety-related departments/ consultants, we can get a broader sense of the changes that need to be made.

By doing that, we can come up with a version of the development that is a win/win undertaking for the City of Cambridge, the development team, the neighborhood and the future 2072 residents, and a proud addition to Capstone's already outstanding set of accomplishments.

Thank you for your consideration.

Aleida Inglis
Cogswell Ave.

Subject: Re: 2072 Mass Ave 100% Affordable Housing Proposal

To: Cambridge Zoning Board

I am a long time resident of North Cambridge and wish to register my strong support for the above referenced affordable housing development at the corner of Walden and Mass Ave. If this is not an appropriate location for a dense efficient housing development there is nowhere that is appropriate. We need the affordable housing in our community. These developers have shown they can make it happen. The architects in particular are strong and have done excellent work right in the immediate vicinity on Mass Ave. I prefer more of a mixed income approach both for reasons of social integration and as a way of leveraging public subsidy dollars but that is not what is on the table. I heartily support this effort and hope that we can overcome the perennial NIMBY concerns that come with every single development project. Lets avoid the hypocrisy of what is too often said at hearings like this, namely: "we support affordable housing just not this project in this location." I hope you just say yes!!

PETITION TO IMPROVE SAFETY AND REDUCE DENSITY OF 2072 MASS. AVE. PROPOSED DEVELOPMENT

To the City of Cambridge Board of Zoning Appeals:

We, the undersigned, Cambridge residents many of whom live in close proximity to the intersection of Mass. Ave. and Walden St., have grave concerns regarding the proposed 100% affordable housing development at **2072 Mass. Ave.**

The building (9 stories facing Mass. Ave. and 6 stories facing the Walden neighborhood) has 49 units for up to 200 residents, a storefront, 3 restricted onsite parking spaces and 2 drop off spaces. The Floor Area Ratio (FAR) of the proposed development is 6.7, too dense for this neighborhood. By comparison, it is 315% higher than the average FAR of 2.1 for the other 4 affordable housing developments within a ½ mile radius of Porter Square.

The proposed development sits on a small 8,514 square foot lot, located on a dangerous, congested corner that poses safety issues for pedestrians, bicyclists, and drivers. There is a history of accidents at the intersection and even a tragic death of a young girl on a bicycle. The current proposal would likely exacerbate these long-standing problems as the building takes up the entire lot, without any setback or ground greenspace.

The developer's application to the City asks to waive 18 separate zoning and other regulations, many of which if waived would make the intersection even more dangerous. The developer's request is well beyond the recently passed Affordable Housing Overlay's maximums that were discussed over a two-year period.

As neighbors who will be directly impacted by this proposed development, we are asking the City of Cambridge to:

- Conduct a Traffic Impact Study to analyze the impact of the proposed development on the Mass. Ave./Walden St. intersection as well as the surrounding streets (using pre-pandemic conditions);
- Instruct the developers to resize the building in accordance with the Mass. Ave. Overlay and with the Affordable Housing Overlay guidelines on building size;
- Enforce the safety- and space-related zoning regulations.

Subject: Support for 2072 Mass Ave. affordable housing proposal
Attachments: CResA 2072 Mass. Ave. support letter.docx

12-10-20

Dear BZA,

I am writing for the Cambridge Residents Alliance in overall support of the affordable housing proposed at 2072 Mass. Ave., ZBA 017326-2020. (See attached PDF.) The Cambridge Residents Alliance is a city-wide volunteer organization with well over 1000 supporters.

It's impressive that the building will be 100% affordable with lower income thresholds. Things we especially like about the proposal:

- Provides homes for residents at 30-60% of AMI
- 71% are 2 and 3 family units
- Passive House
- Developer listened to neighbors and made changes to the design that:
 - shortened the height of the building in the rear to 6 floors on Walden St.
 - increased safety by widening Walden St. to help with traffic and closing a Mass. Ave. curb cut
 - added a landscaped terrace on the sixth floor roof for residents
- Good community process and engagement, and helpful website

While the project is bigger than allowed by the Affordable Housing Overlay, the size is allowable under Ch. 40B, and the project was begun before the Affordable Housing Overlay was passed.

With this level of access to public transit, we can accept the lack of provision of on-site parking, and feel adding about 25 cars to the neighborhood is tolerable, given the addition of affordable housing.

We have some **concerns and requests** regarding the project.

- **Provide 2 elevators**, instead of only one. Would a market rate building have only one elevator? Elevator repairs can take up to three weeks. What would happen to people on the upper floors in that event? And given the height of the building, when the elevator is working, people will have to wait a long time for a single elevator. That will make residents unhappy. Perhaps one elevator could be a larger size and one could be smaller.

- **Protect the residents of the CHA Russell Apts.** next door from the noise and other impacts of construction. Consider paying for temporarily moving residents on that side of the building to other apartments during construction if they want to relocate.

- We ask that the developer **pay for the city to plant trees in the city owned lot**, since no trees fit on its property.

We request that you ask the developer to accept these suggestions.

Thank you for considering these requests.

Sincerely,

**Lee Farris, President
Cambridge Residents Alliance
269 Norfolk St. 02139**

Subject: VOTE NO ON 2072 MASS AVE AS IT STANDS

Dear BZA Members,

I'm concerned about tonight's 2072 Mass Ave housing project and am interested in the shifting zoning sands,-- how the Mass Ave overlay and the Affordable Housing Overlay will affect the many variances and permits it needs.

I WOULD ALSO LIKE TO STATE THAT JUST BECAUSE PEOPLE HAVE QUESTIONS ABOUT THIS PROJECT- doesn't mean THEY ARE AGAINST 100% AFFORDABLE HOUSING. That binary argument included extensive name-calling and didn't allow for thoughtful dialogue or tweaks of disparate elements.

I am familiar with the developers work and think their Frost Terrace is very successful only after public push-back against its warehouse proportions and POTENTIAL demo of 2 historic houses. They lost a few units in favor of a better balance and context.

Mass Ave is basically a good location for development. But according to the AHO, it is only supposed to be 8 stories instead of the newly proposed 9 stories (102 ft). Tonight's public agenda still has it listed at 8 stories which is misleading.

Given the lack of real setback, its density and location on a dangerous corner which is to include pick-up and drop-off-- this project needs more study. The number of variances and permits alone says it needs help.

The comparison blocks away is disingenuous. Number of elevators may be an issue. THOUGH much needed, this building doesn't feel safe as it stands. AND WITH THE FLEXIBILITY OF variances, why bother having regulations with a project like this.

thank you,

Marilee Meyer

Subject: FW: 2072 Mass Ave proposed development parking concerns BZA-017326-2020

RE: [BZA-017326-2020](#) 2072 MASS AVENUE

Hello,

Please find the email below regarding my parking and density concerns with the proposed 2072 Mass. Ave. development. I addressed this letter originally the Joseph Barr on 12/9/2020.

Thank you for considering this input.

Sincerely,

Daniel A. Smith
45 Regent Street

Subject: 2072 Mass Ave proposed development parking concerns

Dear Mr. Barr;

At the December 1st Cambridge Planning Board meeting regarding 2072 Massachusetts Avenue you included in your comments (I paraphrase);

It's hard to say what the impact of the pandemic is on parking. A large percent of the available parking is vacant.

I found it disconcerting that your professional opinion is; "hard to say". You seem to be saying you don't know, and yet went on to endorse the proposed development, a new 49 unit building with virtually no new parking provided. This in a context where parking is already a known concern. Endorsing this project in the absence of complete information gives short shrift to the concerns of neighbors with parking concerns.

The developers traffic study claimed to find ample available parking, but no parking or traffic study done during this time of Covid-19 can arcuately reflect the conditions that are typical for this area. It just can't – these are not normal times. I've lived on Regent Street for over 30 years. I can tell you categorically that the parking demand now is less than under normal non-Covid-19 conditions. At the height of the pandemic our street was a veritable ghost town – it's only now beginning to revert to more normal and more crowded conditions. The parking problem in our neighborhood is greatest during the evening when residents return from work and on weekends when local businesses (e.g.; yoga studio, gyms,

restaurants), are open. Many of these businesses are barely operating now. The streets are comparatively empty - despite what Traffic and Parking may guess the situation is.

While I support the aspirations of the 2072 project, I have great concerns about the density and parking impact. Density is not a problem in its own right – it is a problem when the infrastructure cannot support it. An additional 25 or so cars, by the developer's own estimate, will compete for already scarce parking spaces (along with St. James Place and Frost Terrace new to Porter Square and the 26-unit apartment building at 70-80 Porter Road currently undergoing renovation).

For a development project to be successful it must address all issues, not only some issues. The parking demand will inevitably have a negative impact on the surrounding neighborhood and residents unless addressed in the design of the building. The 2072 Mass. Ave. proposal ignores the concern of scarce parking in this neighborhood. If this project is permitted to go ahead as proposed, what happens a couple years from now when the project is complete and residents return home from work in the evenings and find no place to park? Does the city have a Plan B to optimize or develop and integrate the city owned lot adjacent to the proposed building site?

In my opinion, the current project design raises problems of density and parking in particular. It should not be approved without a credible parking study followed by a reasonable response to the anticipated increased demand on parking as it impacts the local neighborhood.

Sincerely,

Daniel A. Smith

Attachments: PB Hearing 2072 Mass Ave.png

To the Cambridge Board of Zoning Appeals:

My husband and I live in North Cambridge . We have owned our home for 25 years. We write to you today with grave concerns about the proposed development at the corner of Mass. Ave. and Walden Street – 2072 Mass. Ave. – CASE NO. BZA- [017326-2020](#). We live less than 100 yards from this intersection.

To date, the Traffic, Parking & Transportation Department has not yet recommended a Traffic Impact Study. **Joe Barr and Patrick Baxter are well aware** of the traffic and safety issues associated with this corner and the surrounding streets. In fact, members of our neighborhood have been communicating with them since 2016 about these issues and in February of 2020 they hosted a community meeting to begin to address our concerns and pledged they would come back with solutions.

So you could imagine how disconcerted we were to hear Joe at the Planning Board meeting last week give his full support of the proposed project without referencing the known traffic and safety issues in the Mass Ave / Walden neighborhood (which we had brought up during the public comment section of the meeting and which should have refreshed his memory). In his pledge to support the proposed project, he failed to recommend that a **Traffic Impact Study or Project Review** be conducted.

Then there was a statement by **Chairperson Catherine Preston Connolly** during the later part of the meeting, where she said that she believed that traffic could actually be improved by the project. **How could she possibly know this?** No study backs this up. One might conclude this was an irresponsible statement for a City Planning Board member.

Let me set out a few facts:

- The project calls for a **102 foot, 9 story (6 stories step down to Walden)** building on the corner of Mass. Ave. and Walden St. If built it will be one the highest buildings in the Mass Ave / North Cambridge area. It will likely house 150 to 200 residents. This building is completely out of context with the surrounding buildings and neighborhood and is far higher than the Affordable Housing Overlay allowable maximum height. (I've attached a slide from Capstone, from the Planning Board meeting that shows the scale of the building).
- This project is nearly **3 times the threshold for Project Review** (~58,000 sq. ft., the threshold for Project Review is 20,000 sq. ft.)
- This project has **3 times the density** (as measured by FAR) of the other affordable housing projects within a 1/2 mile radius of Porter Square
- This project **directly abuts a vulnerable population** of seniors and people with disabilities as well as the North Cambridge Senior Center

- This project is being **placed on the very corner** where Joe Barr and colleagues are well aware there were serious safety and traffic concerns due to congestion and gridlock. These conditions will likely return after the pandemic.

How is it possible that this project sailed through the Planning Board discussion without a single Planning Board member even discussing the possibility of Project Review? This is truly shocking given the size and scope of the project, the location next to a vulnerable population, and the history of traffic and safety complaints for that specific intersection.

Many members of this neighborhood have concerns and are voicing them.

You should have concerns too.

There are some changes based on the project proposal that could change the intersection and its traffic flow and safety, including elimination of the curb cut on Mass Ave and a widening of Walden Street. Other conflating factors include drop offs / pick ups / deliveries for the 150 to 200 future residents of the proposed building. This increased activity will happen both at the residential entrance on Mass Ave as well as behind the building off of Walden creating new traffic patterns. The developers point to their parking study that was done, but none of these forementioned factors were considered and their study primarily focused on parking, not traffic and safety issues.

With all of these factors in play, how did the Planning Board not recommend Project Review?

Given the upcoming December 10th Cambridge Board of Zoning Appeals meeting, we urge you NOT to grant a waiver to Article 19, which is being requested by the developers.

Without proper and thoughtful and scientific Project Review, the City is rushing through a process, developing on a scope and scale not seen before at this intersection. Without the relevant information and ensuing recommendations from Project Review, we have only conjecture if the project will improve or exacerbate current and post-pandemic conditions.

Thank you for your consideration of our request for Project Review. We will attend and would like to provide public comment at Thursday's meeting.

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To the Board of Zoning Appeal:

I oppose the current proposed development at 2072 Mass Ave.

I am concerned about the size, lack of setbacks, and location at a dangerous, congested intersection. I am also concerned about the well-being of the vulnerable seniors and people with disabilities who reside at Russell Apartments and are direct abutters.

I greatly appreciate that you, the members of the BZA, voiced concerns about the height of the 9-story building and asked the developers to reduce the building height. I also appreciate that you asked for clarification of their financials.

I would like to see a 6-story building that does not extend beyond the Russell building (either in height or depth), and then drops to a 3-story building in the rear.

I plan to attend the January 7 hearing to voice my concerns.

Thank you.

Howard Baden

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the ZBA and All Others Concerned:

I attended the ZBA Zoom hearing on December 10, 2020. I would have liked to put in my two cents worth but that, and much more, had already been deposited!

I was gratified when those ZBA members present ultimately decided to postpone any decision. While Marjorie Decker and others had tried to suggest that those who were questioning the building proposal were somehow opposed to affordable housing, that certainly was not the case. Rather, as repeatedly stated, the proposed nine-story building would be jarringly out of scale with what exists in the neighborhood and would only be used to set a precedent for more of the same.

Marjorie Decker is obviously correct in saying that "every (affordable housing) unit matters." But that does not begin to explain why affordable housing need not be in harmony with the neighborhood. After all, even public housing in Cambridge manages to achieve that much.

Yes, however reluctantly, Sean Hope will have to go back to the developer and maybe his investors, as well, to determine if a sufficient profit can still be made if the building were limited to six stories. If not, perhaps another developer could be found and, failing that, the City Council should no longer delegate the problem to developers and the ZBA but devote the time and public resources necessary to make it happen.

Very truly yours,
Charles M. Wyzanski

Subject: support for BZA-017326-2020 (2072 Mass Ave)

Greetings,

I am writing to express my strong and heartfelt support for the proposed affordable housing development at 2072 Mass Ave. I believe our community is facing a housing affordability crisis, and allowing these much-needed homes to be built would help families in our community who need it most. Moving forward would be a wonderful idea. Since this site is on the busy Mass Ave. corridor, replaces an unsightly parking lot, and is very close to transit (and a grocery store), it appears to be an ideal location to allow more much-needed density.

I am a homeowner who lives around the corner from this site and walk by it daily, and I do not think any hypothetical concerns about access to on-street parking justify slowing down or downscaling the project. The developers have already reduced the scale of their original plan to add an attractive rear roof-deck that will create a 'step down' to nearby homes, and it would be a sad and shortsighted loss to see the project downscaled even further.

I hope you see fit to grant approval, and bring more desperately-needed homes to my neighborhood.

Sincerely,
Ira

Subject: Petition from 290 Cambridge residents

Commissioner Singanayagam,

Please read the attached petition, signed by 290 Cambridge residents (and counting).

As a homeowner and taxpayer who lives a block away from the proposed 2072 Mass Ave building, I ask you to:

- Visit the corner of Mass Ave and Walden St and visualize 49 units and 200 people crammed into an oversized building on this tiny site, at a dangerous intersection.
- Speak to the senior residents of the abutting affordable housing at 2050 Mass Ave and hear their concerns.
- At the Jan. 7 BZA meeting, **advocate for further study of the safety and size of the proposed project.**

I know you advocate affordable housing, as do I. We should also care about **current** affordable housing residents such as those at 2050 Mass Ave.

Sincerely,
Seymour Kellerman, for North Walden Neighbors
21 Cogswell Ave

PETITION TO IMPROVE SAFETY AND REDUCE DENSITY OF 2072 MASS. AVE. PROPOSED DEVELOPMENT

To the City of Cambridge Board of Zoning Appeals:

We, the undersigned, Cambridge residents many of whom live in close proximity to the intersection of Mass. Ave. and Walden St., have grave concerns regarding the proposed 100% affordable housing development at **2072 Mass. Ave.**

The building (9 stories facing Mass. Ave. and 6 stories facing the Walden neighborhood) has 49 units for up to 200 residents, a storefront, 3 restricted onsite parking spaces and 2 drop off spaces. The Floor Area Ratio (FAR) of the proposed development is 6.7, too dense for this neighborhood. By comparison, it is 315% higher than the average FAR of 2.1 for the other 4 affordable housing developments within a ½ mile radius of Porter Square.

The proposed development sits on a small 8,514 square foot lot, located on a dangerous, congested corner that poses safety issues for pedestrians, bicyclists, and drivers. There is a history of accidents at the intersection and even a tragic death of a young girl on a bicycle. The current proposal would likely exacerbate these long-standing problems as the building takes up the entire lot, without any setback or ground greenspace.

The developer's application to the City asks to waive 18 separate zoning and other regulations, many of which if waived would make the intersection even more dangerous. The developer's request is well beyond the recently passed Affordable Housing Overlay's maximums that were discussed over a two-year period.

As neighbors who will be directly impacted by this proposed development, we are asking the City of Cambridge to:

- Conduct a Traffic Impact Study to analyze the impact of the proposed development on the Mass. Ave./Walden St. intersection as well as the surrounding streets (using pre-pandemic conditions);
- Instruct the developers to resize the building in accordance with the Mass. Ave. Overlay and with the Affordable Housing Overlay guidelines on building size;
- Enforce the safety- and space-related zoning regulations.

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To the Board of Zoning Appeal:

I oppose the current proposed development at 2072 Mass Ave.

I am concerned about the size, lack of setbacks, and location at a dangerous, congested intersection. I am also concerned about the well-being of the vulnerable seniors and people with disabilities who reside at Russell Apartments and are direct abutters.

I greatly appreciate that you, the members of the BZA, voiced concerns about the height of the 9-story building and asked the developers to reduce the building height. I also appreciate that you asked for clarification of their financials.

I would like to see a 6-story building that does not extend beyond the Russell building (either in height or depth), and then drops to a 3-story building in the rear.

I plan to attend the January 7 hearing to voice my concerns.

Thank you.

Audra Murphy

To: City Council
Cc: Clerk; City Manager; Pacheco, Maria
Subject: Proposed new building at Porter Square

Dear City Council members:

Yesterday the Cambridge Chronicle published an op-ed by Councillors Siddiqui, Mallon, McGovern and Simmons, "Proposed affordable housing project in Porter Square should be applauded." These councillors object to the BZA's decision not to waive restrictions on height and parking for the proposed 90-foot building.

It seems clear that reasonable people can and do disagree about waiving these restrictions. I happen to agree with the BZA decision. That does not make me a demon.

The op-ed uses misleading arguments to make its case, noting that "since its inception, zoning has been used as a tool of exclusion, and of privilege." I'm sure that is true.

It is also true that zoning is used for many other reasons, including health, safety, welfare, beautification, and such practical matters as planning transportation, parks, and other features of urban living. The way the op-ed is written suggests (a) zoning is bad (because it promotes exclusion) and (b) anyone who thinks the same way as the BZA has no regard for low-income families (because making the building conform to code would be "unconscionable").

I wish I were surprised at these deceptive and damaging lines of argument, but I am not, because I've seen this before from some of the same councillors. Rather than build bridges among constituents during a time of unprecedented political polarization, these councillors demonize those who hold a different point of view. That is a shame. Cambridge deserves better. Unfortunately, we probably won't have it better until our political leaders start respecting reasonable people with other points of view.

Subject: 2070 Mass Ave building proposal

Hello,

I oppose the proposed new affordable housing building at 2070 Mass Ave.

I am all for affordable housing, but feel this is a very bad location for such a building.

I live on Mead St. and experience the regular traffic backups at that corner coming down from the Walden St bridge and foresee even bigger traffic problems should such a building be put there.

I'm also fearful for the elderly directly adjacent to the lot.

Please consider moving the project to a safer location.

Thank you,

Tom Brewitt

Subject: Your OP-ED: Proposed affordable housing project in Porter Square should be applauded
Attachments: Alternate 2072 Mass Ave Plan.pdf

Dear Mayor Siddiqui, Vice-Mayor Mallona and Councilors McGovern and Simmons,

Thank you for your impassioned Op-Ed dated 12/17/2020 in Cambridge Chronicle on behalf of those in need of affordable housing. I can't agree with more on the critical need for affordable housing but at what cost? At any cost? Please permit me to plead with you for a balanced development at the very dangerous intersection of 2072 Mass Ave and Walden Street on behalf of other vulnerable residents in that neighborhood with few specific statements from your Op-Ed. Please consider more holistic approach in the attached below and let's all work together to make that corner a vibrant anchor of the residential and retail community. Thank you for your consideration.

"The Planning Board approved the project unanimously, where it then went to the BZA for zoning relief. For the project to be viable, the builders applied for zoning relief for additional height up to 90 feet and a waiver of onsite parking." - [The initial design that was submitted in the original application \(with 8 Stories/ ~ 89'·8" plan, pg 2 of BZA agenda file at https://www.cambridgema.gov/-/media/Files/inspectionalservicesdepartment/bzadocuments/2072massavebza0173262020.pdf \(agenda file\)\)](https://www.cambridgema.gov/-/media/Files/inspectionalservicesdepartment/bzadocuments/2072massavebza0173262020.pdf) was modified with supplemental material that changed the height to " **9 Stories ~102'·6** Stories ~69'·6" (j)" (pg. 53 of agenda file)

"Collectively, we've worked with so many families to find emergency housing who have been living with relatives or friends or constantly being on the edge of being evicted or kicked out. Many others have lived in crowded homeless and family shelters, and congregate housing. These are precisely the residents at most risk for COVID-19, since they do not have access to safe, affordable housing where they can isolate" -. **Only "8 UNITS AT OR BELOW 30% AMI"**. (pg. 2 agenda file); these are the ones who truly need emergency housing. To serve these populations, why not make all 49 units at or below 30% AMI?

""removing 14 units is a sacrifice..." who is making said sacrifice? It certainly cannot be members of the BZA," - [How about the elderly and disabled residents at Russell Apartment next door whose quality of life would be severely impacted? They matter too. How many units are you willing to sacrifice for the sake of these vulnerable residents who must endure the hardship during the construction \(most of these residents do not have air conditioning and must keep their windows closed during the hot summer months to keep the noise and dust out\) and after the new residents move in \(traffic, noise, loss of privacy\)? Where are the mitigation plans?](#)

These are REAL people, people we've gotten to know, love, and care for as friends and valued members of our community. These residents are not abstract, and their future should not be callously discussed and dismissed. - [But the elderly and disabled residents at Russell Apartment next door are "REAL people" too. I beg you to talk to them in COVID-19 safe way \(most of them do not have the technology for virtual meeting\) and get to "know, love, and care for as friends and valued members of our community."](#)

We need to define the "character of our neighborhoods" as the residents who live in the buildings, and not the buildings themselves. - Yes, but also the residents who live in the nearby residential buildings including the residents of Russell Apartment. They must all be considered as a community.

Respectfully,
Young Kim
17 Norris Street

Proposed Alternate Option
2072 Mass Ave

Young Kim
17 Norris Street

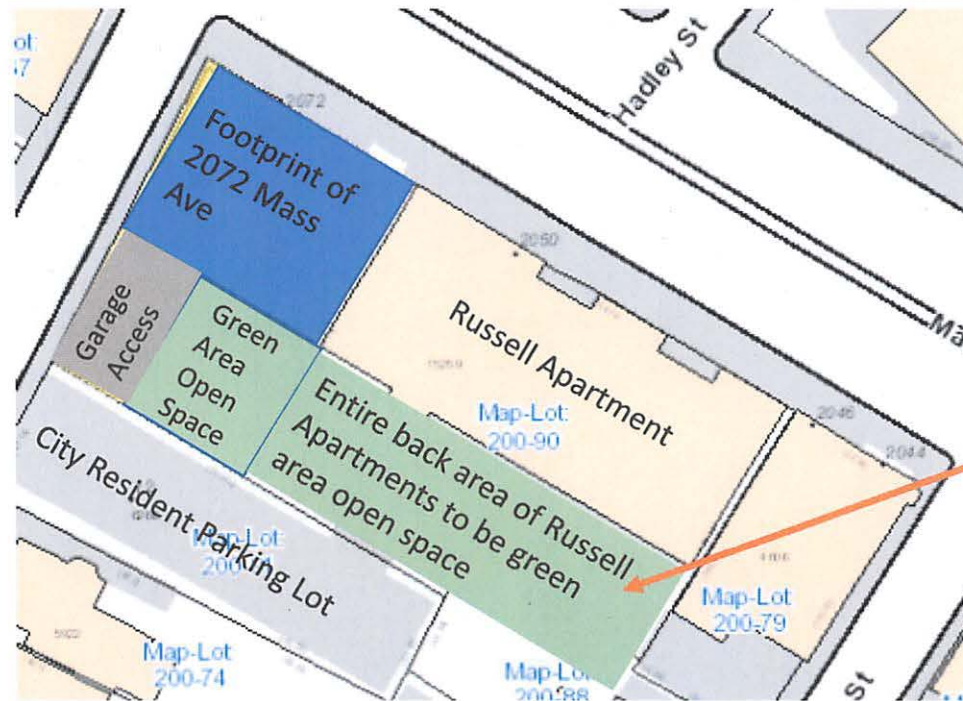

Alternate Option – Holistic Approach

- Stakeholders
 - CC HRE 2072 Mass Ave Tenant (J. Korb, S. Hope)
 - Cambridge Housing Authority (M. Johnston)
 - Housing Division of Community Development Department (C. Carter)
 - Traffic, Parking & Transportation Department (J. Barr)
 - Cambridge Affordable Housing Trust (L. DePasquale, C. Cotter)
- It is not just 2072 Mass Ave development
- Consider it as a Mass Ave/Walden Street Neighborhood Revitalization Project
 - 2050 Mass Ave Russell Apartments
 - 2072 Mass Ave Proposed 100% Affordable Housing
 - 12 Walden St City Resident Parking Lot (owned by CDD)
- Each stakeholder to give up something for the good of remaking this corner a vibrant & safe community
- All to consider ways to compensate for any financial loss

2072 Mass Ave / Russell Apt Considerations

- Hold brainstorming session with all stakeholders as a pre-design Community Outreach
- CC HRE to build on 2072 Mass Ave as an extension of Russell Apartments
 - Same depth and height as Russell Apt
- Relocate Senior Center to Mass Ave/Walden corner
 - Replaces proposed 2072 Mass Ave retail space
 - Reduces foot traffic in front of Russell Apartment
 - Same financial arrangements as with CHA
 - CHA can use the vacated space for ground level accessible housing units
- Common open area green space
 - Rear of 2072 Mass Ave, apprx 40% of the lot, 3400 sq. ft.; split between garage access & green space
 - Existing Russell Apartments open area & parking lot
- Common parking lot for both developments that is safer for all residents and the neighborhood
 - Underground; multi-level automated parking system (ex: <https://cityliftparking.com/> courtesy of Jason)
 - Double door (on opposite sides) elevator(s) access instead of ramp
 - Access to the elevator(s) to be worked out
 - Entry/Egress turnaround in the basement garage

Alternate Site Plan

Parking and open space can remain unchanged if residents feel more comfortable with old configuration

Mitigation Plans

- Find alternate property for CC HRE to develop to make up for the lost financial opportunities of 2072 Mass Ave.
 - Existing CHA development that can be redeveloped similar to Port Landing
 - Essentially a land swap to benefit everyone
 - City owned property
 - New Acquisition
- Congestion Mitigation
 - Do Not Block box on eastbound Walden Street at entrance to 2072 Mass Ave
 - Redesign Resident Parking Lot entrance to be able to share Do Not Block box
 - Right or Left turn out of 2072 Mass Ave and parking lot depending on time of day
 - Designate couple of parking space in the Resident Parking Lot for delivery
 - Passenger car pick-up/drop-off to use underground garage

Subject: BZA-017326-2020

Hello Board of Zoning Appeals,

My name is Gabi Cipriano and I live at 79 Allston St in Cambridge. I am asking you to support the development of affordable housing units at 2072 Massachusetts Ave, case number BZA-017326-2020.

I support this development in Cambridge because it will make Cambridge a more equitable city to live in and is one small step in the right direction to relieving our current housing shortage. The development can benefit others in a mix of ways; it can ease the burden of rent on current residents who are currently paying the market rate or allow new people to move to Cambridge who could not otherwise have afforded it. I think it would be a shame to deny people these benefits over the concern of parking - a reason which is likely overstated given that the apartment is within blocks of transit so it is unlikely that every new resident comes with their own car.

Regardless of how many cars are added to the nearby streets from this development, our first priority should be to allow more people to live, work, and thrive in our community since it can offer many benefits to an individual and, reciprocally, new residents would benefit our community in many ways including, but of course not limited to, increased foot traffic, participation in civic institutions, and spending at our local small businesses.

Thank you,

Gabi

Subject: Proposed 2072 Mass. Ave. Project

To the Board of Zoning Appeal:

I oppose the current proposed development at 2072 Mass Ave.

I am concerned about the size, lack of setbacks, and location at a dangerous, congested intersection. I am also concerned about the well-being of the vulnerable seniors and people with disabilities who reside at Russell Apartments and are direct abutters.

I greatly appreciate that you, the members of the BZA, voiced concerns about the height of the 9-story building and asked the developers to reduce the building height. I also appreciate that you asked for clarification of their financials.

I would like to see a 6-story building that does not extend beyond the Russell building (either in height or depth), and then drops to a 3-story building in the rear.

Thank you.

Subject: To the Zoning Board, on 2072 Mass. Ave.

To the Board of Zoning Appeal

Thank you for your continuing consideration on this matter.

I was dismayed to read the recently published Op Ed by Mayor Sumbul Siddiqui and others regarding a proposed affordable housing development in North Cambridge.

I live a block and a half from the proposed site, and have been actively involved in neighborhood discussions on this topic both in person (aka over zoom) and in social media. The discussions regarding the proposed building at 2072 Massachusetts Avenue have been strikingly heated, escalating in this Op-Ed piece and strident voices on various social media and in neighborhood discussion groups. The lines are drawn and the noisy rhetoric of some City officials appears to have lost any connection to the actual people who would be involved, indeed, whose lives will be seriously influenced. Ideology and selected (and often irrelevant) examples of “victims” are used in place of practical, humane and respectful reasoning.

Some of us have wrongly been characterized as “the enemy.”

I want there to be respect: it is a value we espouse, all of us. Instead, there’s hypocrisy (“affordable housing” begins to stand for much more than a nuanced view of its complexities: it looks like a sacred object on a civic altar, instead of something that is indeed very much needed but must also serve the needs both of its residents and its neighborhoods.) In the case of 2072 Massachusetts Avenue, you have at the very least three constituencies to respect: the tenants of the building of course; the vulnerable elderly and disabled residents only a few feet away who already feel left out of the discussion; and the wider neighborhood which wants to welcome the new neighbors but has also experienced no genuine communication and conversation about the proposed out-of-scale building, on a relatively small site, at a dangerous, congested intersection. It should be noted that the density of this development (as measured by FAR) is three times the average of the other affordable housing units that are located within ½ mile of Porter Square. In addition, the building as proposed will tower at 102 feet over the abutting Russell Apartments (at 57.6 feet), and loom over Henderson Carriage Building (at 68 feet) – not to mention casting its shadow over the neighboring 12-13 foot building across Walden.

We too are talking to many people: city officials, journalists, experts on zoning law and above all, the growing number of neighbors wanting to be heard, and signing on to be counted. These people are not “elitists” or NIMBYs. We find the easy slurs doled out by the defenders of the project insulting and they end discussion rather than engaging in possibly productive talk, talk which could lead to a useful and liveable solution – and a more liveable and safer streetscape.

I’ve lived in Cambridge since 1953. I love Cambridge for a whole slew of reasons and I have walked, biked and roller-skated (well, not recently) almost every block of our City from elementary school on. And I will fight to make it better: I don’t oppose affordable housing – I want to improve it.

What do I want in this case? A building that is set back, offering a better “built environment” – a building that is at the most six stories on Mass. Ave and three to the rear, a building that doesn’t heavily shadow Russell Apartments and impose itself on the privacy and comfort of the neighboring community of seniors. Above all, I want it to be part of the neighborhood, created in cooperation and consultation. Tell me what I can do to help.

We can do this, Cambridge!

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To the Board of Zoning Appeal:

As a resident of Cambridge, I strongly oppose the current proposed development at 2072 Mass Avenue for affordable housing.

I am very concerned about the size of the project, the lack of appropriate setbacks, and its location at a dangerous, congested intersection. I am also concerned about the well-being and safety of the seniors and people with disabilities who reside at Russell Apartments and are direct abutters to the proposed building.

I greatly appreciate that you, the members of the BZA, voiced concerns about the height of the 9-story building and asked the developers to reduce the building height. I also appreciate that you asked for clarification of their financials.

I would like to see a 6-story building facing Massachusetts Avenue that does not extend beyond the Russell building (either in height or depth), and then drops to a 3-story building in the rear, where it intersects with a neighborhood of mostly two- and three-story buildings.

I plan to attend the January 7 hearing to voice my concerns. Cambridge should be building affordable housing, but it must not lose its character in the attempt to be sensitive to the needs of its citizens.

Thank you.

Dear Board of Zoning Appeals and Cambridge City Officials,

as neighbors of the proposed affordable housing apartment building at 2072 Massachusetts Avenue, we write in strong support of this project, which we believe will enhance our neighborhood and our city.

There is an extreme shortage of affordable housing both in Cambridge and in our neighborhood. A nearby affordable housing development, the Finch, recently received more than 2,200 applicants for 98 apartments, and the Cambridge Housing Authority currently has more than 20,000 applicants for housing on its waitlist. This new development would give 49 families who might otherwise be forced out of Cambridge a chance to live at a convenient location in first-rate apartments.

The apartment complex would be a huge improvement over the current building at that site, a fast-food restaurant on a tar parking lot. Massachusetts Avenue, a busy thoroughfare lined by many large commercial buildings, is an appropriate place for this development, and the design is properly scaled for the neighborhood. We oppose efforts to reduce the building size and so lock out more families from living there.

The developers, Capstone, have an excellent track record, and have been responsive to neighborhood concerns. They have included in their design thoughtful touches such as a green roof, solar panels, and extensive bike parking. Cambridge has reached a point where adding more parking spots--and more cars--is counterproductive. This project is designed in with the future of transportation in Cambridge in mind rather than its past.

We love our neighborhood and understand why our fellow neighbors may be fearful about any change they imagine might reduce its beauty, convenience and friendliness. We believe, however, that their fears are exaggerated, and that the changes this project creates will on balance improve our neighborhood, most of all because it will bring to us new neighbors. The cost of living in Cambridge has escalated to a point where many are locked out, threatening the vibrancy of our city. This development represents an attempt to preserve one of Cambridge's greatest strengths, the diversity of its residents. We urge you to move this project forward.

Sincerely,

Concerned Neighbors

From: Linda Stein <linda@lindastein.com>
Sent: Tuesday, January 5, 2021 7:14 AM
To: Pacheco, Maria <mpacheco@cambridgema.gov>
Subject: 2072 Mass Ave CASE NO. BZA-017326-2020 OPPOSED

To Members of the Board of Zoning Appeal,

I oppose the proposed development of 2072 Mass Ave.

I live at 1 Walden Mews, Cambridge and oppose the project for the following reasons:

1. **Size**—the 9 story, 102-foot tall height of the proposed building towers over neighboring building of 57 feet, as well as the 2-3 story homes on Walden. I call on you to enforce zoning for affordable housing which is 6 stories maximum; this could set a troubling precedent for other 9-story developments to be built in North Cambridge. This is quite out of character with the neighborhood.

2. **Safety of the intersection**

The intersection is already excessively narrow, dangerous, and congested. The proposed slight widening of Walden will not offset the 200 new residents, their traffic, and their drop offs, pick ups, deliveries; It creates a whole new set of dangerous traffic conditions.

3. Lack of setbacks further exacerbates safety issues for pedestrians, cyclists, and drivers. Where do you imagine that the new residents will park their vehicles, given that you have made no provisions for parking?

4. Negative impact on seniors' health and well-being who live in the abutting affordable housing building; their lives will be dramatically impacted throughout 2 years of construction and they will permanently lose light and privacy.

5. Increased density of the neighborhood will undermine the good relations among neighbors and cause unnecessary problems of noise, trash, and crowding of local parks and facilities, which are already at or over capacity.

6. Negative effects of an all-rental project provides no incentive for residents to assimilate to the neighborhood and moreover threatens to create problems of excessive transience.

7. This neighborhood already has a variety of affordable housing units and is not needed.

8. This neighborhood already suffers from a lack of stores and facilities; 200 new transient residents will inevitably degrade the owner-occupier character of the neighborhood. It is not difficult to foresee that the proposed project would create significant problems.

I have lived in this neighborhood since 1992 and vote here. I implore you to give up or relocate the project.

Subject: Comments to BZA on continued 2072 Mass. Ave. – CASE NO. BZA-017326-2020

Dear Ms. Pacheco,

Attached is my request to the Board of Zoning Appeal for dismissal of the comprehensive permit (CP) application for 40B 2072 Mass. Ave. affordable housing project for not having fulfilled prerequisites for filing such an application as mandated by [MA Chapter 40B Handbook for Zoning Boards of Appeal](#) (Handbook). Also attached are all the backup documents called out in my request.

Since the first BZA hearing of this case on 12/10/2020, I sent several emails to Commissioner Ranjit and other city officials with you cc'ed. I have summarized all those emails in the attached comments to BZA and captured them as pdf files along with other supporting documents. Please enter the attachments in the agenda case file.

I apologize for rather lengthy communication and thank you for your efforts in entering all the attachments in the agenda file. If you have any questions or concerns, by all means do not hesitate to contact me.

Respectfully yours,
Young Kim
17 Norris Street

Dear Chairman Alexander and Members of Board of Zoning Appeal,

I am writing to request dismissal of the comprehensive permit (CP) application for 40B 2072 Mass, Ave. affordable housing project for not having fulfilled prerequisites for filing such an application as mandated by [MA Chapter 40B Handbook for Zoning Boards of Appeal](#) (Handbook).

First, I want to acknowledge and thank CC HRE, the applicant, for posting wealth of information on their project website.

Second, I will summarize my claim below with details or backup material in attachments. One key prerequisite is posting of the Project Eligibility (PE) application complete with preliminary development pro forma, "a financial analysis of project development costs, anticipated revenues, and the developer's net financial return", on City's website. Had it been posted online or included as part of CP application, it would have given you financial justification for the 45 unit, 9-story height design.

1. Supplemental material for the changed plan was not submitted to the Planning Board before their hearing
 - Letter to Commissioner Singanayagam (pg. 164) and Letter to BZA (pg. 187) in [BZA-017326-2020 case file](#) for 12/10/2020 BZA hearing
2. Pre-design conceptual options were never discussed with the community by the developer or a funding source
 - Attachment [Stowe Red Acre Road Design Funds](#) by Stow Municipal Affordable Housing Trust reporting activities timeline for their Red Acre Road Parcel (an affordable housing development) lists community engagement and communication as the next step to visualize development options with neighborhood input before requesting for Proposal/Qualifications
3. CP application was submitted before permission was given by the MA Department of Housing & Community Development in their Site Approval Letter dated 12/10/2020
 - Site Approval Letter, submitted to BZA at 12/10/20 hearing, "create a presumption of fundability under 760 CMR 56.04, and permits CC HRE 2072 Mass Ave Tenant LLC (the "Applicant") to apply to the Cambridge Zoning Board of Appeals (sic) for a comprehensive permit."
4. Inspectional Services Department does not have a compliance procedure to ensure that all the prerequisite steps prescribed in the Handbook have been met before accepting CP application.
 - email requesting confirmation of phone conversation with Commissioner Singanayagam (Attachment [ISD CP Application acceptance procedure](#)) has not been answered
5. City did not follow through with procedures for Project Eligibility (PE) application in obtaining the Site Approval Letter
 - Email to Mayor Siddiqui requesting information on actions required of Chief Elected Official/Chief Executive Officer (mayor or board of selectmen) has not been answered
 - Requested Public Record Request – entered as P201125-123120 on 12/31/2020 (Attachment [Public Record Request 2072 Mass Ave PEL Process](#); includes email to the Mayor); awaiting response
6. PE Application posted on the project website did not include Section 6, Applicant's Operating Agreement. The Table of Contents of the CP application also did not include similar Operating Agreement where the development pro forma might have been disclosed

- Handbook requires a preliminary development pro forma
 - Link in the project website
<https://static1.squarespace.com/static/5f68dd2037c3802f77814310/t/5fc5667d18e72e5fdb8d9fc1/1606772377394/2072+Mass+Ave+Site+Eligibility+Application+10142020+%28Redacted%29.pdf>, indicates the document is an abridged version without explicitly identifying material omitted
7. No community involvement in any design changes arising from BZA's request
- emailed a request (Attachments Community Outreach Request; 2072 Mass Ave Project Timeline Rev) to Commissioner Singanayagam for community meeting to view and comment on CC HRE's response well before the continued hearing so that CC HRE will have time to factor our concerns in their submission to the Board. This email has not been answered
 - Community Meeting scheduled for 1/5/2021 7PM is too late to submit meaningful comment to BZA in time

Article 54: Red Acre Road Design Funds

Stow Municipal Affordable Housing Trust
Annual Town Meeting 2020

Red Acre Road Parcel Activities Timeline

- ✓ Land purchase [\$225,000] (2018)
- ✓ Barn, Stable, and Riding Arena demolition and disposal [\$50,000] 2019
- ✓ Pre-Engineering studies [\$11,000] (2019)
 - ✓ Soil & Percolation Tests
 - ✓ Site analysis: topographic, wetlands
- Community Engagement and Communication (Fall 2020)
 - Neighborhood Input needed and encouraged
 - Provide guidance for subsequent steps
 - Visualization of development options
- Request for Proposal/Qualifications (2021)
 - Define project to realize what community desires
 - Develop constraints and requirements for permitting/zoning

Why are these funds needed now?

- First SMAHT project at this scale will require more planning than in past
 - “An ounce of prevention is worth a pound of cure”
- Design concepts will drive discussion during Community Input phase
- Important that development options are realistic and based on specific site
 - Topography, setbacks, site constraints
- Full consideration of project options now will avoid delays and costs
- SMAHT’s Housing Consultant to remain focused on overall housing goals
 - Design role has been necessary for rapid response to Chapter 61 withdrawal but not ideal
 - Maintain role as SMAHT technical resource, not as creative asset

\$25,000 will cover site examination, conceptual alternatives, zoning options

1/1/2021

Dear Commissioner Rajit,

I apologize for ending the year with this urgent request but I respectfully request your confirmation of our discussion on Dec 23 highlighted below by close of business today in order for me to accurately state your assertion that there is no compliance check to see if 40B prerequisites have been met when accepting 40B Comprehensive Permit application to the Board of Zoning Appeal. In my comment to BZA on 1/4/2021, I intend to ask BZA to dismiss the case because according to MA Chapter 40B Handbook for Zoning Boards of Appeal, "Unless it satisfies the regulatory prerequisites, a developer does not have standing to apply for a comprehensive permit and the ZBA should not grant one."

I am attaching an email letter I sent to Mayor Siddiqui, Chief Elected Official according to MA Chapter 40B Handbook for Zoning Boards of Appeal, requesting information regarding 40 B Project Eligibility Letter (PEL) Process for 2072 Mass Ave Comprehensive Permit case to further corroborate my claim that not only did the applicant not meet the 40B prerequisite but also City did not follow the state mandated guidelines.

I wish you, your loved ones and all the members of ISD a Happy, Healthy and Prosperous New Year filled joys, new adventures and new accomplishments.

Respectfully your,
Young Kim
17 Norris Street

Subject: Shocking broken Comprehensive Permit Process

To: Singanayagam, Ranjit <ranjits@cambridgema.gov>

Cc: Siddiqui, Sumbul <ssidiqui@cambridgema.gov>, Pacheco, Maria <mpacheco@cambridgema.gov>

Dear Commissioner Ranjit,

I would like to first apologize for the way I got emotionally charged while discussing the irregularities in the 2072 Mass Ave Comprehensive Permit application process. I would also like to ask for your confirmation that my statement below accurately captured our discussion yesterday so that I may take appropriate next steps.

As you are well aware, according to [MA Chapter 40B Planning and Information](#), "Chapter 40B is a state statute, which enables local Zoning Boards of Appeals to approve affordable housing developments under flexible rules if at least 20-25% of the units have long-term affordability restrictions." "In 2008 the Department of Housing and Community Development (DHCD) revised Ch. 40B regulations and created state guidelines for Chapter 40B projects", [MA Chapter 40B Handbook for Zoning Boards of Appeal](#).

I was shocked to learn from you that to submit a Comprehensive Permit (CP) application for a Chapter 40B affordable housing development (AHD), the applicant simply goes to the City Clerk's office to get the application packet timestamped to get the clock started for the application to be scheduled for the Board of Zoning

<https://mail.google.com/mail/u/1?ik=26c2602198&view=pt&search=all&permmsgid=msg-a%3Ar-6306585115122300888&simpl=msg-a%3Ar-6306585115122300888>

Appeal (BZA) hearing. There is no compliance procedure at the Inspectional Services Department under which BZA operates to ensure that all the prerequisite steps prescribed in the 40B handbook have been met. This explains why the 2072 Mass Ave CP application was scheduled to be heard by BZA before obtaining the required Site Approval letter from the MA Department of Housing & Community Development which clearly states "creates a presumption of fundability under 760 CMR 56.04, and permits CC HRE 2072 Mass Ave Tenant LLC (the "Applicant") to apply to the Cambridge Zoning Board of Appeals (sic) for a comprehensive permit."

When the applicant submitted the Project Eligibility (PE) Application to obtain the Site Approval letter, "the Subsidizing Agency notifies the Chief Elected Official" (Mayor in the case of Cambridge) who in turn must start a "30-day comment period" and "post the notice and PE application on the community's website and seek comments from municipal boards and departments." Such posting allows "interested residents can have access to the information so they can comment if they wish." The first time the planned development was presented to the interested residents was at the community presentation by the applicant on 9/29/2020, just about 2 weeks before the applicants filed PE Application on 10/14/2020. And the Site Approval letter was submitted at the time of the hearing in clear violation of mandated state guidelines.

This case should be dismissed and the applicant should be directed to refile following the State guidelines.

Thank you for your attention to this matter,

Respectfully yours,

Young Kim

Urgent Public Record Request re 2072 Mass Ave 40B Project Eligibility Letter (PEL) Process

Young Kim <ycknorris@gmail.com>

Wed, Dec 30, 2020 at 5:35 PM

To: Seah <slevy@cambridgema.gov>

Cc: "Siddiqui, Sumbul" <ssiddiqui@cambridgema.gov>, "DePasquale, Louie" <ldepasquale@cambridgema.gov>, "Glowa, Nancy" <nglowa@cambridgema.gov>, "Singanayagam, Ranjit" <ranjits@cambridgema.gov>, "Pacheco, Maria" <mpacheco@cambridgema.gov>

Dear Ms. Levy,

Please provide me with any record of communication from MA Housing Partnership (MHP) or similar state affordable housing agencies regarding PEL application for 2072 Mass Ave affordable housing project. Also, provide me with any record of PEL application being published on the City website other than as part of BZA Comprehensive Permit application. Please see the forwarded email below for the context of this request.

This material is urgently needed to submit my comment to BZA by 5 PM 1/4/2021 for their continued hearing on the 2072 Mass Ave CP case. So this request is extremely time sensitive and I would greatly appreciate it if you could expedite this request.

If you have any questions, by all means please do not hesitate to contact me by email or phone, 617-714-3386.

Thank you for your cooperation,

Young Kim

Subject: 40 B Project Eligibility Letter (PEL) Process for 2072 Mass Ave Comprehensive Permit case

To: Siddiqui, Sumbul <ssiddiqui@cambridgema.gov>

Cc: DePasquale, Louie <ldepasquale@cambridgema.gov>, City Clerk <cityclerk@cambridgema.gov>, Glowa, Nancy <nglowa@cambridgema.gov>

Dear Mayor Siddiqui,

According to the attached document, MA Housing Partnership (MHP), "MHP is required under 40B regulations to provide a 30-day notice ("30-Day Notice") to the "Chief Executive Officer" of the Town/City where the project is located, at least 30 days prior to issuance of a PEL." For Cambridge, I believe the Chief Executive Officer is you as Mayor of Cambridge. MHP will review the submitted PEL application for completeness and if so, MHP will visit the site and make a determination as to whether they are prepared to send a 30-Day Notice to the Town/City. MHP is required to provide notice of the site visit to the Town/City's Chief Executive Officer in order to allow any officials or staff of the municipality to accompany them on the site visit.

Please provide me with the following information:

- 1) date CC HRE provided a copy of their full PEL application, including the completed PEL Information Form, and any attachments to it. The PEL should have had Preliminary development pro forma which is not available on the PEL Application on the 2072 Mass Ave project's website
- 2) date you have received the 30-Day Notice
- 3) if during that 30-day period the PEL application was made public on City's website for the public to submit comments
- 4) if during that 30-day period you conveyed any comments, either the City's or on behalf of the public, to MHP to be considered during their due diligence review
- 5) date you have received site visit notice
- 6) if any city official or staff accompanied MHP on the site visit

Gmail - Urgent Public Record Request re 2072 Mass Ave 40B Project Eligibility Letter (PEL) Process

I am trying to determine if CC HRE satisfied all the regulatory prerequisites. If CC HRE didn't, then they do "not have standing to apply for a comprehensive permit and the ZBA should not grant one" per Chapter 40B Handbook for Zoning Boards of Appeal.

Thank you in advance for your timely response before the continued hearing on this case by BZA on 1/7/2021.

Respectfully yours,

Young Kim

Continued 2072 Mass Ave Comprehensive Permit Case

Young Kim <ycknorris@gmail.com>

Tue, Dec 15, 2020 at 10:27 AM

To: "Singanayagam, Ranjit" <ranjits@cambridgema.gov>, "Daglian, Sisia" <sdaglian@cambridgema.gov>
Cc: "Siddiqui, Sumbul" <ssiddiqui@cambridgema.gov>, "DePasquale, Louie" <ldepasquale@cambridgema.gov>, "Carlone, Dennis" <dcarlone@cambridgema.gov>, "Nolan, Patricia" <pnolan@cambridgema.gov>, City Clerk <cityclerk@cambridgema.gov>, "Farooq, Iram" <ifarooq@cambridgema.gov>, "Joseph, Swaathi" <sjoseph@cambridgema.gov>, "Pacheco, Maria" <mpacheco@cambridgema.gov>

Dear Commissioner Ranjit and Assistant Commissioner Daglian,

I want to thank members of the Board of Zoning Appeal (BZA) for hearing the community's foremost concern of density and all the associated consequences of such a dense project as 2072 Mass Ave affordable housing project at a dangerous intersection of Mass Ave and Walden Street. I also want to thank BZA for ordering CC HRE to "better justify their additional height. Or to reduce it." (per Cambridge Day (<https://www.cambridgeday.com/2020/12/10/zoning-board-postpones-affordable-project-vote-to-january-hesitating-over-its-nine-story-height/>))

However, BZA left out the crucial instruction for CC HRE to hold a community outreach meeting and incorporate their concerns in any new design they might be proposing at the continued hearing.

With CC HRE's deadline to submit their response by Mon 1/4/2021 4 PM and the public to submit their comments by the same deadline, the community will have no opportunity to comment on their response. Through you, I beg you to give the community the opportunity to view and comment on CC HRE's response well before the continued hearing so that CC HRE will have time to factor our concerns in their submission to the Board.

Thank you for your understanding and consideration. If you have any questions, by all means let me know,

Respectfully yours,
Young Kim

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020, Jan 7, 2020 BZA meeting

To the Members of the Board of Zoning Appeal:

358 Cambridge residents (and counting) have signed the attached petition to express their strong opposition to the 2072 Mass Ave project as currently proposed.

Signers include many residents of the affordable-housing Russell Apartments for seniors/disabled, a few feet away from the proposed site.

A large majority of the signers live within 1/2 mile of the proposed project.

We ask the City of Cambridge to conduct a study of safety, space, and setback of the proposed building before BZA grants permission to build anything.

Respectfully,
Seymour Kellerman for North Walden Neighbors
21 Cogswell Ave, Cambridge 02140

Petition with Signatures

Cambridge Board of Zoning Appeal

CASE NO. BZA-017326-2020, January 7, 2021

Submitted by North Walden Neighbors, January 4, 2021

- **To date, 358 Cambridge residents have signed the enclosed petition to express their strong opposition to the 2072 Mass Ave project as currently proposed.**
- Signers include many residents of the affordable-housing Russell Apartments for seniors/disabled, located a few feet from the proposed site.
- A large majority of the signers live within 1/2 mile of the proposed project.

We ask the BZA to require the study of the safety, space, and setback of the proposed building before granting permission to build anything.

PETITION TO IMPROVE SAFETY AND REDUCE DENSITY OF 2072 MASS. AVE. PROPOSED DEVELOPMENT

To the City of Cambridge Board of Zoning Appeal:

We, the undersigned, Cambridge residents many of whom live in close proximity to the intersection of Mass. Ave. and Walden St., have grave concerns regarding the proposed 100% affordable housing development at **2072 Mass. Ave.**

The building (9 stories facing Mass. Ave. and 6 stories facing the Walden neighborhood) has 49 units for up to 200 residents, a storefront, 3 restricted onsite parking spaces and 2 drop off spaces. The Floor Area Ratio (FAR) of the proposed development is 6.7, too dense for this neighborhood. By comparison, it is 315% higher than the average FAR of 2.1 for the other 4 affordable housing developments within a ½ mile radius of Porter Square.

The proposed development sits on a small 8,514 square foot lot, located on a dangerous, congested corner that poses safety issues for pedestrians, bicyclists, and drivers. There is a history of accidents at the intersection and even a tragic death of a young girl on a bicycle. The current proposal would likely exacerbate these long-standing problems as the building takes up the entire lot, without any setback or ground greenspace.

The developer's application to the City asks to waive 18 separate zoning and other regulations, many of which if waived would make the intersection even more dangerous. The developer's request is well beyond the recently passed Affordable Housing Overlay's maximums that were discussed over a two-year period.

As neighbors who will be directly impacted by this proposed development, we are asking the City of Cambridge to:

- Conduct a Traffic Impact Study to analyze the impact of the proposed development on the Mass. Ave./Walden St. intersection as well as the surrounding streets (using pre-pandemic conditions);
- Instruct the developers to resize the building in accordance with the Mass. Ave. Overlay and with the Affordable Housing Overlay guidelines on building size;
- Enforce the safety- and space-related zoning regulations.

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To the Board of Zoning Appeal,

We live 300 feet from the 2072 Mass Ave. site and have been there 25 years.

We strongly oppose the proposed development at 2072 Mass Ave.

There are many red flags:

- **Red flag** - 18 waivers for zoning relief
- **Red flag** - 9-stories, 102 feet
- **Red flag** - only one elevator for 150-200 residents
- **Red flag** - virtually no parking; only 3 restricted on-site parking spaces
- **Red flag** - more than 3x the density of other Porter Sq. affordable housing
- **Red flag** - no ground level green space; no setbacks
- **Red flag** - negative impact to light and privacy to the seniors in affordable housing who live right next door

Please use the **height maximums from the recently-enacted AHO** (6 stories, 70 feet) to guide what should be allowed to be built at the site.

Please listen to the voices from the immediate neighborhood. There is a groundswell of opposition, many of those live very close to the site (**350+ petition signers** object to the size and have safety concerns regarding the intersection).

Please don't let these developers **set a dangerous precedent** that will define the future of North Cambridge.

What we advocate for is reasonable. A 6-story building that steps down to meet the neighborhood. What we ask for is for zoning laws to be upheld.

If the developers cannot make a 6-story building financially viable, then it's clear this is not the right site and these are not the right developers. They are trying to do too much on a small 8,500 square foot lot.

Please use the AHO as THE guideline to protect the residents of North Cambridge.

Respectfully yours,
Susan Frankle & John Uzzolino

Cc: Dominique Pham <dr_pham@comcast.net>
Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal:

We oppose the proposed development at 2072 Massachusetts Avenue. Please note: two individuals reside at 16 Russell Street, Cambridge, MA 02140, which is approximately one block away from the development site. The proposed development is over-scale and will tower above adjacent and surrounding buildings blocking light and casting shadows over the neighborhood. Lacking any green space, or even a sidewalk set back, this proposed development offers residents warehoused living quarters, rather than affordable homes that integrate into the Porter Square community. Further, this development site is located at the very busy and dangerous intersection of Walden Street and Massachusetts Avenue.

Accordingly, we request that a Traffic Impact Study be undertaken for the intersection of Walden Street and Massachusetts Avenue as this intersection is already non-conforming to the required width of Walden Street for three traffic lanes ([1] on-coming traffic from Massachusetts Avenue turning onto Walden Street, [2] Walden Street traffic turning left onto Massachusetts Avenue, and [3] Walden Street Traffic turning right onto Massachusetts Avenue) and a non-conforming turning angle (less than 90 degrees for Walden Street traffic turning right onto Massachusetts Avenue) resulting in vehicles such as larger pickup trucks, delivery vans, and non-semi-tractor trailer trucks routinely clipping the curb when making a right turn and overrunning the sidewalk.

Further, the proposed development at 2072 Massachusetts Avenue would appear to violate several parking and other provisions of: ARTICLE 6.000 - OFF STREET PARKING AND LOADING REQUIREMENTS AND NIGHTTIME CURFEW ON LARGE COMMERCIAL THROUGH TRUCKS. Where are the residents of the proposed development supposed to park? On street parking on Walden Street is limited to only one side near the development site and already is utilized maximally. Limited metered parking on Massachusetts Avenue could be repurposed for Residential Parking, but this would create undue hardships on local small businesses along Massachusetts Avenue that rely on metered parking as an amenity.

We oppose the current development plans and requested zoning variances for 2072 Massachusetts Avenue in their entirety and request a Traffic Impact Study for the intersection of Massachusetts Avenue and Walden Street to determine minimal safety requirements for any future development of the aforementioned address.

Respectfully,

Dennis R. Harp

Subject: Re: Point of Order - 2072 Mass Ave Comprehensive Permit Application

Thank you for your response and your willingness to forward my request to the Board Chair. However, it is hard to comprehend how the case can continue when the applicant, and the City, had clearly not fulfilled prerequisites for filing the comprehensive permit application. This would never have been tolerated in my line of work before my retirement working on government contracts.

As I urged Commissioner Ranjit, there has to be a compliance check before accepting CP applications.

Thank you again for your prompt response,

Respectfully,
Young Kim

Young,

I will submit your email to the Board Chair during his review of the case file prior to the hearing this week.

However it is the applicant's due process right to be heard, and the Board can then decide if their submission is sufficient.

Regards,

Sisia Daglian

Subject: Point of Order - 2072 Mass Ave Comprehensive Permit Application

Dear Assistant Commissioner Sisia,

According to [MA Chapter 40B Handbook for Zoning Boards of Appeal](#), the applicant, CC HRE, does not have "standing to apply for a comprehensive permit and the ZBA should not grant one" for not "satisf(ing) the regulatory prerequisites" spelled out in the Handbook. I will be documenting specific instances of such violations by the applicant as well as by the City in my comments to the Board of Zoning Appeal later today.

Therefore, through you, I would like to raise a point of order to the Board of Zoning Appeal to dismiss the 2072 Mass Ave Comprehensive Permit application without further hearing the case on 1/7/2021. I would greatly appreciate your guidance on how to raise this point of order at the start of the hearing. This will be more crucial if CC HRE does not submit the preliminary development pro forma, "a financial analysis of project development costs, anticipated revenues, and the developer's net financial return", that they submitted as part of the Project Eligibility Application to the Massachusetts Department of Housing and Community Development dated 10/14/2020 as justification for the 9-story height as requested by BZA. If CC HRE submits a modified plan, they should also submit a modified pro forma with changes from the original clearly identified.

Thank you for your cooperation and I look forward to your guidance.

Respectfully yours,

Young Kim

Subject: 2072 Mass Ave proposal

Mr Roberts:

I am a neighborhood resident near the above project, and I would like to express my support - with qualifications- of this proposal.

I am sure you are aware of the traffic issues at the intersection of Walden and Mass Ave. and concerns from the neighborhood about making these worse. One design feature of the project, which I hope will remain, are the glass walls of the commercial area on the ground level. If these are not impeded, they will allow important visibility of cars that turn into Walden from Mass Ave heading north, for drivers coming to that intersection from Walden Ave.

Concern has been expressed by other neighbors about traffic entering and exiting the Walden St entrance for 2072 Mass Ave. I think dangerous vehicle turns in and out could be avoided by prohibiting left turns into the project entrance on Walden, and prohibiting left turns out of that parking area onto Walden. Delivery vans and ride share cars would then have to enter the project entrance making a right turn from Walden St heading toward Mass Ave, and vehicles leaving the project could only make a right turn onto Walden to Mass Ave. If the developer's traffic study is to be believed, and it seems reasonable to me, that only 25 or so vehicles will be generated by residents, the parking impact will be not a huge one.

I also support this project because its scale could be much worse, generating even more traffic and parking problems, and having a building height out of scale with its neighboring buildings.

Please forward this email to members of the Zoning Board.

Thank you,

Sarah James

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020 - updated comment

To Members of the Board of Zoning Appeal:

I am an indirect abutter of the development - our property at 17 Creighton abuts the city lot behind the development. I oppose the proposed development at 2072 Mass Ave. as currently planned. I have signed the petition of and generally support the positions of my neighbors in the North Walden Neighbors group. I have two things to add to their statements.

One - Please continue to balance the needs of all the stakeholders in this issue. This has been portrayed as a case of neighbors against affordable housing. This is false. I have heard no opposition to reasonably scaled affordable house on this site, and I for one will welcome my new neighbors regardless of the outcome of this controversy. The true conflict is between the zoning law (and by proxy the interests of all Cambridge residents, INCLUDING the future residents of the new building(s)) and the for-profit developers and their wealthy backers. The late stage capitalist mode for this development is not a secret (see for example Mr. Korbs MIT Thesis <https://dspace.mit.edu/handle/1721.1/54857>); public subsidies and tax credits are directed to the developers and high-passive-income investors. This may explain why the developers are so insistent on a very large building, which makes little sense from the cost-per-unit perspective that would maximize the amount of housing created with limited public funds.

Two - Please look at the "studies" presented by the developers with a skeptical eye. One of my roles in my teaching job is reviewing senior projects; this has given me plenty of practice in spotting incomplete work. The parking study starts with some unreasonable assumptions (random weekdays during Covid are representative, new residents will not need cars, people will park randomly within a quarter of a mile of home); ignores existing conditions (83 new units of housing coming on line in the next year within a few blocks of the proposed development, many without parking!); and then does sloppy work (the original study included streets in Somerville; the "update" still includes a non-existent street only a block from the development) and does not explore its own data (one study says peek time is 8PM, the other Noon ??). The shadow study has an even more fundamental problem - the analyst seems to have assumed North was towards the top of the map they were using; this is off by at least 30 degrees!! The result is the shadows conveniently fall on Mass. Ave; in fact the morning sun would be blocked much further up Walden than shown in the study. I only caught that error because the study showed massive evening shadows on my property, which would require the sun set pretty close to due north. A quick

check with the compass app on my phone (and watching a few sunsets, correcting for the season...) showed to my relief this would not happen on the planet as currently configured, but my unfortunate Walden neighbors will not be so lucky.

A quick addendum to my comments above - the shadow study has been fixed in the latest version of the developers' materials, possibly at my recommendation (I pointed out the problem to Jason during a community meeting); however they have simply omitted any early-morning views, preserving the incorrect impression that the building will not shade many of its Walden St. neighbors!

Thank you for your consideration

Subject: Fw: Response to BZA-97200

From: Alison Morgan <amoorecamb@gmail.com>
Sent: Monday, January 4, 2021 6:11 AM
To: Pacheco, Maria <mpacheco@cambridgema.gov>
Subject: Response to BZA-97200

To the Board of Zoning Appeal,

I am writing to you regarding the proposed addition to the current residence at 74 Larch Road, BZA-97200. My name is Alison Morgan. I am an abutter and live at 67 Larch Road directly across the street. I have lived in my home for 27 years. I was not able to attend the last meeting but I was represented by my son Colin Morgan. As my son stated, I was not informed of the initial proposed addition/extension by the home owners prior to the last meeting. Since that time I have checked on the current meeting date posted on their fence and I am aware that an appeal is scheduled for 1/7/2021. I also received an email on 1/3/2021 regarding changes made to the original plan. However this does not give me enough time to review the plan and seek the professional advice regarding how this would affect my property. I am not an architect or a lawyer. I am a physician working at a hospital in Boston where I am on the front lines daily dealing with the Coronavirus pandemic. As a result my first priority is patient care. I therefore have little free time to spend on issues such as this proposed extension which is not urgent and seems superfluous. I am forced however to pay attention to this issue since it impacts my life in many ways. The following points therefore are of concern to me:

The owners have justified this addition/extension to their house by stating that a larger house is necessary in order to accommodate their family of 4. This is of concern since the size of the house is quite generous and ample.

This rationale therefore rings hollow to me. I feel that I can make this statement since I have been in the house on several occasions, the prior owners are good friends. It was a family of 5. They did an extensive addition to the basement with an au pair suite and a home theater.

The size of the house and the variance sought to extend the house beyond the current property lines is also not acceptable. The claustrophobic feeling and the impact on light and sound that a house of this size and design would impart is inevitable. The word monolithic has been used by some to describe the size and design. I therefore will need to have an architect review the plans and advise me regarding all these issues.

The disruption to the neighbourhood, the noise and dust pollution, the parking problems, possible rodent infestation and the protracted length of time which such a large extension to the home will require is not acceptable and is particularly inappropriate at this time when we are in the throes of a pandemic. This will surely impact in many ways on my job performance and on my other neighbours as well.

The effect on the traffic flow on Fresh Pond Parkway and Larch Road should be considered. There are many accidents that have occurred on the portion of road that is directly in front of the house.

The late notice of the proposed changes to the original plan is also of concern since this was already brought to the homeowners attention and seems to have been disregarded again. Four days before the meeting on 1/7/2021 is not acceptable.

The architectural style of the proposed addition is also not compatible with the other houses in the neighbourhood. No attempt seems to have been made to be part of the surroundings or incorporate some of the elements or the ambiance of the neighbourhood. I will be most affected since I will have to face this structure head on, on a daily basis.

I hope that the homeowners at 74 Larch Road take into account the environment and their neighbors concerns. No man is an island.

I thank the Board of Zoning Appeal for giving me the opportunity and platform to voice my concerns and ask the Board to consider them when making their decision.

I apologize in advance for any grammatical errors or any errors I have made in the interpretation of the current zoning laws.

Thank You,

Sincerely, Alison Morgan

January 3, 2020

Re: CASE No. BZA-017326-2020 - 2072 Mass. Ave. ("Comprehensive Permit")

Dear Chairman Constantine, Vice-Chairman Sullivan,
and Members of the Board:

I suspect you are facing a tough decision this Thursday night, struggling to balance the obvious need for affordable housing in Metropolitan Boston with good design, reasonable scale, and the stated needs and interests of numerous neighbors here in Cambridge, including, importantly, *the residents of existing affordable elderly housing at the Russell Apartments* (whose very modest rear patio, absent suitable adjustments to the proponents' plan, will be put in shadow by this project on otherwise lovely summer afternoons. [Thanks, "supporters" of affordable housing...])

In my nearly fifty years of living in Cambridge, I can't remember a single developer ever having had the *chutzpah* to offer as a purported "compromise" increasing the already egregious height of a building from 8 stories to an even more egregious 9! (Wow; that's a "stretch," as they say...)

Since when is responsible, intelligent, and artful "urban form" something we just toss out the window, because a for-profit developer can slap the evidently "magical" words "affordable housing" on their gargantuan, out-of-scale project?

I attended the first online "community meeting" ready to support *a significant building at this corner*. I was shocked when, after considerable introductory "hoopla" evidently contrived to enthrall the public, they finally

unveiled their “masterpiece,” AT A FULL EIGHT STORIES. Again, I was, quite literally, shocked. And greatly disappointed. I had been looking forward to supporting a project at this corner and now felt offended and angry at the excesses of this applicant.

Six or seven stories, at most, would suffice here. An even more modest height in the back would seem appropriate, as well, despite pressures to cram as much FAR on the lot as possible. If context is relevant, just one other building, a block away, appears to be eight stories, but it has significant set-backs in the front and at the sides, with grass and open space.

While parking is being limited, based in part, IMO, on spurious claims regarding the alleged ease of “access” to public transportation, in particular, one wonders how they’ve come up with “51 bike storage spaces” in the basement, when their own paid survey indicates bicycle use at “6 percent.” How does that compute? (A “vanity” for bicycling enthusiasts??) *Is anyone aware of the fact that the MBTA plan to reduce service on the 83 and 77 Bus Routes by 20 percent this year as part of their recently announced “service” cuts??*

I live not far from this location in what was once Public Housing. I have some understanding of what this is all about. I go by here every day on the “public transit” others love to preach about. I don’t want to have to see an oversized building here. We can do better. The dismal political failure of our dysfunctional government here in Cambridge to address affordability in housing, despite rather significant achievements, should not be the occasion to “stick it” to one particular diverse group of residents at this particular corner.

Thank you for insisting on a *reasonable project* that furthers a goal of adding affordable units in Cambridge, albeit for the entire region, while respecting the community of which we’re all trying to be a part.

Sincerely, James Williamson

Subject: Re: ACTION NEEDED: 2072 Mass. Ave. Apts (BZA Case. No. 17326)

Ms. Glowa:

Thank you for your reply referring me to the Cambridge Board of Zoning Appeal. Unfortunately, the board and its staff have not responded to our entreaties.

While the BZA in a sense operates independently under the enabling statute, City Manager DePasquale as the board's appointing authority and you as the City's attorney presumably have a fiduciary duty to intercede in order to prevent the unnecessary expenditure of public resources on another improper hearing, as well as an obligation to protect the body from a lawsuit that your office or outside counsel hired and paid for by the City will have to defend against, most likely to no avail.

Under the Commonwealth's Chapter 40B published procedures, department heads such as you, Mr. DePasquale, and ISD Commissioner Singanayagam are expected to review and provide advice to the local zoning board on comprehensive permit applications, which in this case is one that seeks to circumvent local needs on a breathtaking scale.

If you and the City administration inexplicably have no comments or reservations about the highly irregular process that is occurring and for some reason support this unlawful application, it seems incumbent on you to notify the BZA and explain why before the January 4 comment submission deadline announced by Mr. Alexander.

But instead, rather than prolonging a demonstrably corrupt process, please reconsider your hands-off approach and act quickly to STOP the BZA's ongoing missteps so that the limited taxpayer funds available for affordable housing can be used to develop it safely and efficiently instead of being diverted to pay for long-delayed street-widening projects, legal fees, court costs, and other avoidable expenses.

Sincerely,

Michael Brandon

Mr. DePasquale, Ms. Peterson, Ms. Glowa, Mr. Singanayagam, and Mr. Alexander:

We are increasingly alarmed by your failure to acknowledge receipt of our earlier communications (copied below) or to act on them accordingly.

Do you disagree with our assertion that the proponents of this still evolving project lacked legal standing to apply for a comprehensive permit and appear before the Board of Zoning Appeal in the absence of a timely filed Project Eligibility Letter (PEL) issued by the Massachusetts Department of Housing and Community Development?

The City, the BZA, and the developers have failed to abide by the promulgated 40B regulations and procedural guidelines as well as the Board's own published Rules, thereby depriving parties in interest, relevant city administrative departments, the Cambridge City Council, and the general public of fair notice and a reasonable opportunity to review and comment on the initial PEL application, its revised version, the tardy and facially defective Site Approval letter, and the prematurely filed, incomplete, error-filled comprehensive permit application and its slapdash supplement.

As you know, the BZA has voted to continue the nugatory December 10 public hearing on January 7. To save all concerned time, energy, and needless expense that could be better used to plan and build safe, appropriately scaled affordable housing at this constrained location, please CANCEL the upcoming proceeding without delay or explain why you are declining to do so.

Sincerely,

Michael Brandon

Chairman Alexander and Members of the BZA:

Without delay, please CANCEL the announced public hearing on this comprehensive permit application, which was scheduled for December 10 in violation of MGL Chapter 40B and its related regulations.

The City of Cambridge has failed to comply with the procedures and processes detailed in the Massachusetts Housing Partnership's [Chapter 40B Handbook](#) and has been proceeding in flagrant violation of the statute.

The permit application was hurriedly submitted in chunks while the project was undergoing major design changes and it is deficient on its face. Among other shortcomings, no Project Eligibility Letter from a state funding agency was included pursuant to 760 CMR 56.05(2)(g). The applicants thus have no legal standing to appear before the Board of Zoning Appeal seeking a comprehensive permit at this time.

If the hearing is not canceled in advance, the Board seemingly will have no choice but to summarily reject the application after opening the proceeding on Thursday. No one will benefit from that outcome or if this matter winds up in the courts, as seems inevitable if the City and its developer continue to cut corners and pursue an unreasonable timeline that stymies the due process and equal protection under the law that Cambridge citizens are constitutionally guaranteed.

Please STOP the unjustified rush to judgment and protect the public interest by canceling Thursday's proceeding as soon as you can.

Sincerely,

Michael Brandon

Sent: Sunday, January 3, 2021 4:39 PM
To: Pacheco, Maria <mpacheco@cambridgema.gov>
Subject: Support for affordable development at 2072 Mass Ave

Dear Members of the Board of Zoning Appeals,

I am writing to express my strong support for the affordable housing plan at 2072 Mass Ave--as a North Cambridge neighbor, a parent, and as a 26-year resident of the city.

At a time when housing prices are out of reach for most families, and many of our neighbors are unemployed and living with the ever present threat of eviction, it is essential that Cambridge work to maximize affordable housing particularly for families and particularly where there is good access to transit. Raising my two kids--both graduates of Cambridge public schools--I know what a challenge housing is to families in our city. That's why I was happy to see the number of 2-3 bedroom units in the 49-unit plan. I hope the BZA will approve the project with no further reduction in units or unit sizes.

This site is ideally located for this kind of dense development--situated on Mass Ave at a MBTA bus stop and a short walk to the Porter Square T stop. The scale is in keeping with the surrounding development, and conscientiously downscaled in the rear of the building to be sensitive to the homeowner on Walden.

I understand, and am somewhat mystified by, the "dangerous intersection" concerns. I live north of this intersection and almost daily bike, walk or drive through this intersection at various times of the day on my way to Porter Square to shop or Harvard Square for work. I have never experienced this as a dangerous intersection. I don't have any concerns about the development causing issues, particularly because it will not have a lot of vehicle traffic associated with it.

Finally, Cambridge is a vibrant and dynamic community in large part to the socio-economic and ethnic diversity of our residents. It is why I chose to raise my children here. I have been continuously impressed by the sensitivity that affordable housing developers have brought to their projects as compared to market-rate developers in North Cambridge. After reviewing the plans for 2072 Mass Ave, I can see similar care and appreciate it. These developments have created stable housing for valued friends and neighbors--some longtime Cambridge residents and new arrivals.

I hope the ZBA will approve this plan so we can continue to add badly needed affordable housing with good access to transit.

Thank you,

Suzanne Shaw

To: Pacheco, Maria <mpacheco@cambridgema.gov>
Subject: 2072 Mass Ave CASE NO. BZA-017326-2020 OPPOSED

To Members of the Board of Zoning Appeal,

I oppose the proposed development of 2072 Mass Ave.

I live at 1 Walden Mews, Cambridge and oppose the project for the following reasons:

1. **Size**—the 9 story, 102-foot tall height of the proposed building towers over neighboring building of 57 feet, as well as the 2-3 story homes on Walden. I call on you to enforce zoning for affordable housing which is 6 stories maximum; this could set a troubling precedent for other 9-story developments to be built in North Cambridge. This is quite out of character with the neighborhood.

2. **Safety of the intersection**

The intersection is already excessively narrow, dangerous, and congested. The proposed slight widening of Walden will not offset the 200 new residents, their traffic, and their drop offs, pick ups, deliveries; It creates a whole new set of dangerous traffic conditions.

3. **Lack of setbacks** further exacerbates safety issues for pedestrians, cyclists, and drivers. Where do you imagine that the new residents will park their vehicles, given that you have made no provisions for parking?

4. **Negative impact on seniors' health and well-being** who live in the abutting affordable housing building; their lives will be dramatically impacted throughout 2 years of construction and they will permanently lose light and privacy.

5. **Increased density of the neighborhood** will undermine the good relations among neighbors and cause unnecessary problems of noise, trash, and crowding of local parks and facilities, which are already at or over capacity.

6. **Negative effects of an all-rental project** provides no incentive for residents to assimilate to the neighborhood and moreover threatens to create problems of excessive transience.

7. **This neighborhood already has a variety of affordable housing units and is not needed.**

8. **This neighborhood already suffers from a lack of stores and facilities; 200 new transient residents will inevitably degrade the owner-occupier character of the neighborhood.** It is not difficult to foresee that the proposed project would create significant problems.

I have lived in this neighborhood since 1992 and vote here. I implore you to give up or relocate the project.

Helen Hardacre

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal Case,

I am writing to state my opposition to the proposed plan for 2072 Mass. Ave., a design that fails to provide affordable housing in a manner that integrates a safe, satisfying environment for new members of that neighborhood. Proponents of the hi-rise design will try to denigrate those who protest, saying that they're simply worried about parking and road congestion, but obviously this project fails on many other fronts (as well as in its inevitable impact on the neighboring streets and traffic). Affordable housing should not look like an afterthought that economizes on space, light, and community; residents shouldn't have to be stigmatized by signing on to a warehouse that maximizes points for developers but marginalizes the need for attractive, human-scale dwellings compatible with the surrounding neighborhood. This plan will be egregiously expensive, while breaking precedent after precedent in procedures required by neighborhood development. Why? What is the sudden rush? Have developers finally finished cashing in on luxury condominiums and now see a good time to design plans for affordable housing that will maximize their takings? Long-term residents of Cambridge like myself can only shake our heads. There is something very odd about this whole rush to build that hideous, out-of-context hi-rise.

It's clear that the City must focus on creating a long-term plan for affordable housing development. It's long overdue. Please stop this development from happening and insist that the City of Cambridge come up with a careful, well-designed plan for affordable housing for the future.

Sincerely yours,
Deborah Valenze

Feedback from Residents of the Leonard J. Russell Apartments Regarding the Proposed Development at 2072 Mass Ave

January 3, 2020

Introduction

- This summary was prepared by Margaret Rueter, a resident of the Russell Apartments, who is the designated liaison representing apartment residents' input on this project.
- Collecting resident feedback was challenging both due to the restrictions imposed by the COVID-19 pandemic; limited English-language proficiency among some residents; and some residents' fear of jeopardizing their housing access by criticizing a project that the CHA has endorsed.
- Despite these challenges, feedback has been collected from over 60% the Russell population via email, phone calls, distribution of printed materials, and limited in-person meetings during the time period of October – December 2020.

Facts about the Russell Community

- The Leonard J. Russell Apartments is an affordable-housing complex administered by the Cambridge Housing Authority (CHA). It is comprised of 51 one-bedroom apartments, located in a 6-story building at 2050 Mass Ave in Cambridge. The building offers laundry, community space and a shared kitchen, a parking lot with 11 spaces, and a shared outdoor terrace. It also houses the North Cambridge Senior Center on its ground floor.
- Russell Apartments are designated for senior and disabled residents in the lowest income bracket. Rent is approximately 30% of their income. Many residents rely heavily on public programs and services including SNAP, Medicaid and Medicare, and The Ride.
- Residents represent a diverse population, including a substantial portion of people of color and many for whom English is a second language. A number of residents are disabled, have limited mobility, or have visual or hearing impairments which affect situational awareness when navigating sidewalks and street crossings.
- Residents had to move out of the building for 2 years during a recent renovation, and reoccupied their apartments starting in March 2019. The prospect of another major disruption due to building construction next door is daunting for many of them.

Concerns about the Proposed Development at 2072 Mass Ave

Nearly half the residents of Russell Apartments (20 out of 51 units) have signed a petition expressing concerns about the 2072 Mass Ave development. Based on resident feedback, the key concerns are summarized below in three main categories including 1) Pedestrian and vehicle safety concerns; 2) Long-term Quality of Life impacts; and 3) Construction Impacts.

1) Pedestrian and vehicle safety on Mass Ave

a) Front-of building vehicle, pedestrian and handicapped access

The block of Mass Ave extending from Russell Apartments past 2072 Mass Ave to Walden Street is already complex and risky for Russell Apartment residents navigating the building entrance, bus stop and sidewalk on foot, with mobility devices or by car. The addition of pedestrian, bike and vehicle traffic for up to 200 residents of 2072 Mass Ave will make this area significantly more crowded and dangerous for Russell Apartments residents. Specifically,

- **Vehicles** turning into the Russell parking lot will have to cross a bus lane crowded with pickup/dropoff vehicles for the 2072 building, as well as increased bicycle traffic;
- The bus stop, which is heavily used by Russell residents including those with disabilities and mobility devices, will be subject to greater crowding and pedestrian / bicycle traffic on the sidewalk;
- The 2 **handicapped-parking spaces** in front of Russell, which are heavily used by both Russell residents and visitors to the Senior Center, are more likely to be occupied by 2072 residents or illegally used by pickup/dropoff vehicles for the 2072 building.
- Russell residents exiting the building as **pedestrians** will be at greater risk of collision and jostling from increased human activity and traffic around their entrance, the bus stop and the corner of Walden.
- While the developers argue that these safety issues are not significant, the bottom line is that we **need a detailed study** to assess and recommend solutions for these concerns.

b) Walden/Mass Ave intersection impacts

The majority of Russell residents navigate the neighborhood on foot to access essential goods and services. The Walden Street / Mass Ave intersection is already highly congested and unsafe particularly at rush hour, and is risky for anyone traveling by foot, bicycle or vehicle through the intersection. The addition of a large-scale residential building at 2072 Mass Ave will increase the pedestrian, bicycle and vehicle traffic at this highly problematic intersection and will thus increase the safety risks to Russell Residents, as well as other vulnerable abutters including the Day Care facility in the ground floor of the Henderson Building.

2) Long-term Quality of Life impacts

The proposed 9-and-6 story building will tower over the 6-story Russell structure and its back terrace and parking areas. The depth of the proposed building extends 46 feet beyond the back of the Russell building (17 feet at 9 stories, 50% higher than the Russell building; and 29 feet at 6 stories, equal to the Russell building). The distance between the two buildings will be only 4 feet. Expected long-term, continuous impacts on Russell residents will include:

- All Russell residents with west-facing windows will be affected by **shadows, reduction of natural light and obstruction of views**, which can negatively affect mental health and quality of life.
- All Russell residents with west-facing windows will face a **loss of privacy** given the close proximity of the 2072 building's residential windows and roof-garden recreational activity.
- All Russell residents with west-facing windows and walls on the north side of the building will be subjected to **noise** from the 2072 building's residential apartments and roof garden.
- All Russell residents will face the **loss of use and quality of their outdoor terrace**, including gardening and other outdoor activities.

3) Construction Impacts

Construction of the 2072 Mass Ave building is expected to commence in 2022 and take 18-24 months. It will be a difficult and highly unpleasant process for all abutters, but the residents of Russell Apartments will be most highly impacted of any abutter, due to both their proximity to the building and their physiological vulnerabilities which render them more affected by noise and other disturbances. Expected impacts will include:

- Continuous loud **noises** affecting residents' sleep, ability to concentrate, and quality of life
- **Fumes and dust** affecting air quality which may pose a risk for medically fragile residents, particularly if they must keep their windows open due to a lack of AC;
- **Vibrations** from excavation and drilling to create the very deep foundation required for a 9-story high-rise building, also expected to have both physical and psychological effects

Proposed Solutions

1) Inclusive, Size-Appropriate Design

- One of the fundamental flaws of the 2072 building is that it is being undertaken as a separate, disconnected and competing installation compared to the Russell building. Instead the 2072 building design should take a holistic approach, creating a design that works for both the 2072 site and the Russell building and its vulnerable community.
- We believe that a significant **reduction in building size to 6 floors on Mass Ave, with a step-down to 3 floors**, would be more appropriate and complementary to the Russell building and its residents.
- We believe the 6-floor portion building should have the **same depth as the Russell building**, not extending 17 feet beyond it (and 44 feet higher) as currently proposed with the 9-floor design.

2) Construction Mitigation

- Once the building design is finalized, we request a written commitment from the Developers to develop a detailed, mutually agreed **construction mitigation plan**; including establishment of contact points at the construction company and CHA to address concerns that may arise during construction.
- The construction mitigation plan should include agreed provisions to limit noise, dust and fume impacts on Russell residents.
- Russell residents should be provided with in-unit air conditioning prior to the start of construction, so that they can keep their windows closed while construction is underway during warmer months
- Other measures to be determined

We look forward to discussing these concerns with Capstone Communities, the CHA, and sharing them with public authorities reviewing plans for the 2072 Mass Ave Development.

Maria,

Welcome back from your vacation! You will need another by the end of this week

I am a senior and do not quite know how to use all my programs properly

This letter is part one. Letter to BZA board for 1/7/2021 meeting on 2072 Mass Ave.

Part two I will send next. It is my list of gathered info to support my letter.

Thank you so very much for your efforts

Sincerely,
Margaret Rueter

BZA Case Number #017326-2020

2050 Mass Avenue #210
Leonard J Russell Apartments
Cambridge, MA 02140

January 3, 2021

To Members of the Cambridge Board of Appeal:

Russell Apartments, the CHA owned senior and disabled (51 unit low income affordable) building is located just feet away and next door to the proposed 2072 Mass Avenue project. We are the abutters who will be most affected by both the building design and the complexities of the residential Mass Ave entrance (we were not consulted before this change).

I have worked closely with as many of at least 30 of our residents and serve as their advocate. Many of our residents speak english as a second language or are uncomfortable to write or to speak publicly themselves. Communication has been incredibly difficult because we are a high risk community and no longer gather. We run into one another in the laundry, hallway, elevator, or building entrance. There has not been one person who has not expressed concern.

We are against the current design, and any design that simply reduces the nine stories by a floor or two.

DESIGN

Have you seen any true rendering from the Russell side of the building? Of course not. There is a towering bulky mass to be built just on the other side of us. A building the size of our own footprint is reasonable. The nine story building is 17.1 feet BEYOND our footprint. It is 44 feet higher. The building at this point runs at 90 degree angle so completely dwarfs our own one outdoor area, shades the area and windows are a mere few feet from windows. It is because of the nature of our population this matters.

The drop down building runs along Walden street and along our outdoor landscaped area another 29 feet at six stories with a roof top out doors space at the top level .

Even Mike Johnson ,of the CHA, refers to the City's "elderly and disabled housing population as one of the most vulnerable.of the city" The loss of quality of life is severe. Noise, privacy and sunlight are all compromised. Our one outdoor area will have just six hours a day of sunlight.

The building should be six stories to the Russell footprint and no more than three stories along Russell and Walden Street. Please take into contact our neighborhood and the life issues for Russell vulnerable seniors and elders.

SAFETY

Russell residents traverse the small distance every day between our entrance at 2050 Mass Ave and the Walden Street intersection. We can count the distance in just a few footsteps - 22 steps to bus shelter

and another 30 to the intersection. Many of us use walkers, canes and mobility devices. We do not move quickly. In these few feet there are two handicapped parking spaces, bus shelter, bus lane, bike lane and congested intersection (those of us that live here refer to it as dangerous) **The addition of a residential entrance brings further complexity that need be studied by both the city and the developer before a final design.** Drop offs, pick ups, and the bulk of the 2072 pedestrian traffic will further complicate our navigation. Driving to our entrance from the intersection is already dangerous. We think one of us will be killed if you allow drop offs and pick ups because pulling over so close to the intersection is going to be very dangerous for us to drive around as we make our way to our own entrance just a few feet beyond. While perhaps moving the bus shelter could help, **PLEASE PAUSE THIS PROJECT AND HAVE THE CITY STUDY THE IMPLICATIONS WITHIN CONTEXT OF RUSSELL RESIDENT PEDESTRIANS AND DRIVERS.**

You, the BZA members, are our last hope to stop this project from rushing forward before care and due diligence. Cambridge does need get this building right. Certainly affordable housing is urgent. Housing should not be a privilege.

But let's not forget to build in the context of our neighborhoods and with regard to the policies our own citizens have voted for. We have only this board to see that this occurs.

It is brave in this climate to take a stand to slow this project down just now, or even ask for changes. It is those of us who know this area the best that are able to point out the details that to others may not be so evident.

Please hear the voice of the concerned North Cambridge Seniors and Disabled. Don't let the city forget us - WE ARE HERE.

Thank you for your time.

Sincerely,

Margaret (for the Russell Community)

To Members of the Board of Zoning Appeal
I oppose the proposed development at 2072 Mass Ave.

All,

Though I believe in affordable housing, the proposed project goes way overboard. There seems to be little care or concern for how this enormous building will fit into the neighborhood. The concept of acknowledging a neighborhood is not even there. Already, this intersection is not a safe intersection for walkers, bikers, or automobiles. Parking will not be possible in the few spaces allowed. What makes the designers think that those in affordable housing do not own or use their cars.

I hope that there are not other projects of this nature that will demolish the character and other buildings along Mass Ave. Haven't we seen enough empty storefronts and empty new buildings. I resent the way that large developers are allowed to run roughshod without care. Needless to say, the concept of interesting architecture - other than boxes- is not considered. I hope that the buildings that reflect an older time in the city of Cambridge will not be destroyed.

Thank you.

To members of the Board of Zoning Appeal:

I oppose the proposed development at 2072 Mass Ave.

I live nearby on Regent Street. The proposed building is out of character for my neighborhood on so many levels: size, height, lack of set back, lack of green space, insufficient drop off/pick up parking area, etc. etc.

I am shocked that the Board of Zoning Appeal would even consider this proposal since it breaks 18 zoning laws. Imagine how we residents feel when we are so careful to keep any modifications we desire within the existing laws of our city.

Please do not ruin my neighborhood: send this project back and wait until you receive a development proposal for this site that respects the neighborhood and complies with Cambridge's zoning laws.

Sincerely,

Janet B. Barker

To Members of the Board of Zoning Appeal:

Re: 2072 Mass Ave CASE NO. BZA-017326-2020

I oppose this project as proposed. It is too tall, too dense, and will bring harm and injury to me and others in the neighborhood.

I am an abutter of a direct abutter: I live at 8-b Cogswell Avenue and have lived here since 1988, some 32 years. My property aligns with 5 Walden St, just across the street from 2072.

For a number of years now I have had to contact the city regarding issues of traffic, congestion, and parking with the primary concern of safety: we here in the Walden, Mass Ave, Mead, Cogswell part of the North Cambridge neighborhood have been sounding the safety alarm because the traffic patterns have changed dramatically with the advent of WAYSAPP and other similar technology. There are times when an ambulance or firetruck can not get into our neighborhood. There are times when I cannot get out of my drive to take my kids to school in the morning or to after-school sports in the late afternoon and times when I cannot get back into my drive in the evenings when returning home from work: the congestion makes egress and ingress truly problematic, and dangerous. The city has failed to address these concerns in any measurable manner.

Our neighborhood streets have become cut-throughs of epic proportions during rush hour. Adding a 9 story building at the corner of Mass Ave and Walden St will exacerbate an already dangerous situation that the city has yet to address: how can The Board of Zoning Appeal even consider this project, given all the dangers that pre-date this proposal (to add a building where a dangerous and worsening situation already exists)?

I trust the board members have studied the history of this corner (Mass Ave and Walden) and have apprised each other of its history of accidents for bikes, cars, and pedestrians. The three lanes on Walden Street are not wide enough and the proposed 'widening' Capstone and Hope plan is negligible and will not ameliorate or assuage the conditions there. Adding a building with zero parking will make Walden Street beyond nightmarish, especially when delivery trucks double park on Walden St to make deliveries. And what about

trash? How many recycling bins will be sitting on Walden Street and how long will it take the city trucks to collect the recycling and trash? What about school busses? And the MBTA bus 77 that stops in front of 2072?

But back to traffic and parking:

We gained a meeting, finally-- and after much frustration-- with Patrick Baxter of the traffic and engineering department. After what appeared to be a fruitful if long evening--and very well attended by the many, many, many concerned neighbors, Baxter and company never followed through on our concerns even though they promised to do so; subsequently, we were dismayed and appalled, but now it makes sense to me and my concerned neighbors: for Patrick Baxter and the Cambridge Traffic Department to have officially responded to the issues at Walden, Mass Ave, Mead and Cogswell would then make it impossible for Jason Korb and Sean Hope to qualify for the 40B Comprehensive Permit they seek. It would call into question their bogus traffic-parking study. This is truly upsetting and smacks of 'pressure from the city' to stall on traffic concerns in the Walden-Cogswell Ave section until the permit for this project is signed off on. Is this corruption truly our reality here in Cambridge? It makes it feel like Washington DC and how much worse the corruptions has been there over the past four years.

This entire enterprise of affordable housing and city politics and developers seeking permission feels both unusual and curious-- and I and others will seek recourse if the board approves this project, plain and simple. As a neighborhood, our concerns are many: we will seek standing as abutters who can furnish incidents of how this project will deliver harm and injury, making for 'aggrieved abutters' who will appeal. And we have not even begun to address the historical buildings on Walden Street and Mass Ave that this construction will harm with drilling, digging and hammering; likewise, the height and density concerns and how the mammoth scale of this building will negatively offset the 19th century buildings on the national register. The precedents here should alarm the board; this development's seeking so many waivers and so much relief should make this a no-brainer for each member of the board: this building is too tall, it asks too much of the neighborhood without any setbacks, and will bring harm and injury without any parking or places where deliveries can be made without stopping traffic on Walden St or Mass Ave, not to mention the elderly who live next door in the Russell Apartments.

I recommend cancelation of the continued BZA meeting scheduled for January 7th-- on many grounds, many of which you are already well aware because Michael Brandon and others have made it clear to you these myriad ways this project has failed to meet both requirements and responsibilities when seeking a 40B Comprehensive Permit, which is also odd given the fact that there is no need for a 40B given that Cambridge has already met its 10% threshold of affordable housing and is affordable housing friendly, which makes this application for a comprehensive permit specious and disingenuous.

If the meeting for whatever reason cannot be cancelled, then you must insist on a heavy compromise: no more than five stories on Mass Ave and no more than three stories on Walden Street...and provide parking for residents, on-sight. Yes we need affordable housing, but we also need a livable city and livable neighborhood. This project will not rectify, it will worsen. It's time to rethink and revisit the plans and the reasons.

I'm attaching pictures that show the view from the third story bedroom of my house, looking out toward the Henderson Carriage Building and 5 Walden Street and The Russell Apartments: this proposed building would cast shadows across all that you see in these pictures and would disrupt the neighborhood as it is now... forever more. Once it's done, it cannot be undone. Haste makes waste and it's best to practice prudence in all important matters. Why is this process so rushed?

Truly concerned,

Michael Kennedy

Dear Members of the Board of Zoning Appeal,

I oppose the proposed development at 2072 Mass Ave. As a close neighbor within a few blocks, living on Cogswell Ave for over 18 years, I have several concerns with the current proposal. I recently read the OP-ED written by city councilor Dennis Carlone in Cambridge
Day <https://www.cambridgeday.com/2020/12/30/cambridge-can-do-better-on-affordable-housing/comment-page-1/?unapproved=8834&moderation-hash=2a836b3a97f867e722fbe71db33e97c9#comment-8834>. I'm in total agreement with all the points he made and feel he has a true understanding of all the issues on all sides. I plead with the BZA to listen to our concerns including Dennis Carlone's and do not approve this project. Instead, require the project to adhere to all the requirements that were approved by the affordable housing overlay and have the developers resubmit a new proposal allowing the needed time for community feedback and input.

My concerns are safety for Mass Ave / Walden intersection, size sets a precedent for other large buildings to be built, lack of green space, lack of set back.

Thank you,

Dana Schaefer

Hello,

To the members of the board of zoning appeal,

I live very close to the proposed development of affordable housing. I am very concerned for the wonderful seniors living in the Russell apartments and I fear that their happiness would be greatly diminished if such an out of proportion building were to be built. With the proposed building towering over 40 feet above russell apartments, I would ask that the building be brought down to 6 stories, with 3 stories in the back. I am also very concerned about parking, with 200 residents and no parking spots I find this to be an appalling lack of judgment. The city must perform a traffic and parking study of the neighborhood to really understand the consequences of not providing any parking whatsoever. Additionally, as someone who has gotten the school bus from the stop right next to the proposed building, I can vouch for the fact that it is a dangerous intersection and adding this kind of congestion with the building would make me very hesitant to even walk near the intersection.

Thank you,

Gefen Shapiro

To the Members of the Board of Zoning Appeal

I oppose the proposed development at 2072 Mass. Ave..... not because it is for affordable housing. I live close to this site and am absolutely in favor of creating more affordable housing in Cambridge. And, my observation is that much is being done already. I do oppose the project because of the sheer size for the existing dense, busy, congested neighborhood. The intersection of Mass Ave and Walden St can't take a huge influx of pedestrians, cars and activity. The size of the building will open a gateway for other overly large buildings. The neighborhood and its citizens deserve a full and complete study for what should be put on this lot.

If you have not already done so, please read City Councillor Dennis Carl one's Op Ed in Cambridge Day. It explains the issues involved

Thank you and Happy New Year.

Ellen Glisker

Cambridge Resident

To Members of the Board of Zoning Appeal,

I oppose the proposed development at 2072 Mass Ave.

As a long-term Cambridge resident, I understand the vital need for affordable housing. The proposed development at 2072 Mass Ave. is not the answer. Out of scale with the neighborhood and violating numerous zoning regulations, it is opposed by many abutting residents and neighborhood groups, and will stand as an unfortunate precedent for development in Cambridge, promoting hostility to the affordable overlay, which it violates.

I ask you to respect the neighborhood's more than reasonable concerns and deny the developer's request for numerous variances.

Thanking you,

Merav Gold

To Members of the Board of Zoning Appeal

I oppose the proposed development at 2072 Mass Ave.

I live on Walden Street less than 1/4 mile from this proposed building. I support the need for affordable housing. And I do not object to affordable housing at this location. But I am concerned with the size of the proposed building, and have concerns about traffic at that intersection. I commuted for many years through that intersection, and it was a dangerous and problematic location for commuters, pedestrians, and bicyclists. The proposed design appears to offer limited green space. Additionally, I am concerned for the senior residents at the North Cambridge Senior Center. Their building will be dwarfed by this building, and it appears that many residents will lose light into their rooms. This is not fair for those residents. Overall, I feel that the proposed design is too large for this community.

Thank you for your consideration,

Rebecca Rohr

To the Members of the Board of Zoning Appeal

I oppose the proposed development at 2072 Massachusetts Avenue. I live about a block from that site, off Walden Street and have lived here thirty-five years, in Cambridge since 1953. I love our neighborhood and want more people to enjoy it, in affordable housing.

My own concerns are size and safety above all. Safety for the intersection where I see elders from the Russell Apartments (my age, many of them) trying to cross while cars whizz around the corner to make the light, and where I see yellow-pinned toddlers with their minds trying to cross from the bilingual day care center across the street, making their way to a playground. There have been accidents (one bicycle death) and near-misses there, way too many.

The size of the structure proposed is mammoth for this area. The developers note four other "high-rise" structures "nearby" but they are not near, nor are they, like this proposed building, on a major intersection, and most are set back from the property line and sidewalk providing more visibility.

There is much to say: my main concerns are that the comfort and safety of the vulnerable elderly and disabled population of Russell Apartments is primary and the promises offered to them by the developers are quite unbelievable (painting lessons? Pen-pals among the tenants?). My second concern is the overall height and density of the building. But above all, I am dismayed that the builders and the City itself have not listened to the neighborhood and has rushed to approve a structure that will hurt us all, neighbors and indeed the residents of the building itself. Affordable housing, like all housing, needs to be thoughtful and respect context. The proceedings to date, and the proposed building itself, have been appallingly conducted and designed.

The Board of Zoning Appeal is capable of the consideration this project and the neighborhood deserve. Thank you.

To the Members of Board of Zoning Appeal:

The proposed development at 2072 Mass Ave is so out of scale and inappropriate on so many levels - height, density, parking issues, traffic issues, etc. – it's *unfathomable* how it has gotten this far.

Everyone wants affordable housing.

We just want it done RIGHT.

Reject this crazy proposal and send the City and developer back to drawing board to work DIRECTLY with neighboring communities to right-size this.

PLEASE MAKE SURE THE BZA GETS THIS LETTER.

Thanks,

- If you live near the site, please add that information in the first paragraph.
- Body of email: Insert your specific concerns; leverage the Op E

Dear Members of the BZA,

I write to oppose the proposed development at 2072 Mass Ave.

My family and I have been living at 35 Walden Street #2D, the Lincoln

House Condo for over 25 years and I have been a precinct 10 election poll worker for some years. It is my understanding that the development is overwhelmingly disrupting our community, especially the senior and persons of needs, next door. Needless to say the parking issues which it will be causing. Unless this development will guarantee at least 20% affordable units to alleviate the tight affordable housing units in Cambridge.

My wife, Linda Yip and my son Timothy Yip joins me to oppose this development.

Thank you for considering our request

Jonathan Yip and on behalf of
Linda Yip and Timothy Yip

To: mpacheco@cambridgema.gov

To the Board of Zoning Appeal:

I am concerned about the current proposed development at 2072 Mass Ave. for many reasons. **The most important reason is that it is a racist development that disenfranchises those who do not have easy access to capital. Why did the city not find a minority-owned development company? The developer is a white cisgender male who lives in the wealthy suburban community of Newton. His life experiences do not match those of the buildings' proposed residents and directly disenfranchises local minority-owned developers which is a disgrace to our community and our taxpayers.**

As a taxpayer, I expect a response to my comments!

As a graduate of the Cambridge Public Schools, I wanted to make sure it was understood that there is a school bus stop right there at Walden and Mass Ave exactly where the project is slated to be built. I waited at that stop for 8 years when I took the bus to King Open. I wonder if CPS school transportation has been consulted about this development in terms of the safety of children. I have walked my kids and waited at that stop with my kids for years... it is a dangerous intersection only to be made more dangerous with this project. Has there been any communication with CPS transportation?

I am concerned about the size, lack of setbacks, and location at a dangerous, congested intersection. I am also concerned about the well-being of the vulnerable seniors and people with disabilities who reside at Russell Apartments and are direct abutters.

I greatly appreciate that you, the members of the BZA, voiced concerns about the height of the 9-story building and asked the developers to reduce the building height. I also appreciate that you asked for clarification of their financials.

I would like to see a 6-story building that does not extend beyond the Russell building (either in height or depth), and then drops to a 3-story building in the rear.

Also, sadly it is obvious that the needs of proposed building residents have not been considered. There is limited parking and only one elevator for 200 people. That is crazy. If this building were really about helping those who need it, the plan wouldn't forget about their needs for elevators and cars.

I plan to attend the January 7 hearing to voice my concerns.

Lastly, has a voucher program ever been considered to help ameliorate the need for public housing? Due to the pandemic, and decreased tenants brought to the city by our academic institutions, there is an unprecedented number of vacant rentals, and landlords (many who live in Cambridge as well), without income.

In summary, my questions:

- 1) Has CPS transportation department been consulted?
- 2) Has a voucher program been considered - perhaps this second question is out of the purview of the Zoning Board of Appeal.

Thank you.

Sincerely,
Zev Shapiro

I would like to register my support for this project. I believe this is very well located as a transit dependent affordable housing project.

I would however like the Cambridge BZA to exercise whatever authority it has to make this a more livable project for the residents.

For example, I am concerned to hear it will have only one elevator.

As it is a for-profit developer I am concerned that the need to profit from the project rather than creating quality livable housing for the residents will take precedence.

Also, if there are design amendments that improve things for abutters, particularly for the adjacent senior housing, I would approve of those as long as they do not lead to making the project unbuildable.

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal,

I am a born and bred Cantabrigian, and it disturbs me that others with roots in this city that echo my own are increasingly priced out of living here.

However, **I oppose the proposed development at 2072 Mass Ave.** I live at 234A Walden St., and regularly use that intersection, both on foot and via vehicle. As many others have pointed out, multiple factors mitigate against the current proposal. Some of these have been intelligently explained by City Councillor Dennis Carlone in [his 12/30/20 CambridgeDay op-ed piece](#).

To my mind, one of the most telling factors is the need for 18 variances in order for the proposed project to move forward. The City recently enacted an aggressive Affordable Housing Overlay which arguably advances the goal of adding more affordable housing at scales intended to stretch, but not destroy, neighborhood character and streetscapes. **To exceed AHO standards before we even have had a chance to see how they will change the fabrics of our neighborhoods makes no sense.** This project should be held to those standards

Apart from the larger concerns about the proposed building's inappropriate scale, and predictably adverse effects on traffic, parking, and safety, **there is also the precedent that it will set.** No doubt, sooner or later, the nearby single-story retail spaces at 2044/46 Mass Ave, 2088-2100 Mass Ave, and 2150-2180 Mass Ave will be developed. Those developers will have a powerful argument in favor of equally scaled edifices with equally "justified" variances.

Do we want to turn Mass Ave into a high-rise canyon, or do we want to maintain the Paris-like streetscapes that are a key part of Cambridge's visual character and make our city notably walkable?

The choice is in your hands. I urge you to deny the 18 variances to simultaneously protect the character of our city while supporting the seamless, human-scale integration of additional affordable housing throughout our neighborhoods.

Thank you,
James Mahoney

To the Members of the Board of Zoning Appeal

I live very close to the corner of Mass Ave and Walden and I welcome affordable housing at that site. However, I am strongly opposed to the design currently proposed.

The 9-story tower is completely inappropriate to the neighborhood of low storefronts and homes in this part of North Cambridge. A new project at that site should fit into the surroundings at a maximum height of 5-6 stories, with setbacks, green space and reasonable density.

I echo the concerns and hopes voiced by Dennis Carlone in his recent Op-Ed about how Cambridge will manage affordable housing.

Dear Members of the Board,

I oppose the proposed design of a high-rise at the end of Cogswell Ave, where we live (we're at 39 Cogswell).

We are particularly sensitive to the impact of many new residents, some of whom will have cars for which there is no adequate parking at the building site. We lack a driveway, and on street-cleaning days already we find Cogswell and Mead parking asaturated. We have to go out to Walden St. to find parking, if we don't get a parking space early.

thank you,

tom

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal,

I oppose the proposed development at 2072 Mass Ave. and ask that you consider revising the developer's plan per the requests of

Ms. S. Frankle's North Walden Neighbors group and the North Cambridge Stabilization Committee of R. Clarey and M. Brandon.

I have lived up Mass Ave between Jack's Gas at Churchill Ave and the recently upgraded Clarendon Park for 21 years and in North Cambridge for 25; and Cambridge, in general, for 40 years.

I am a member of the North Cambridge Stabilization Committee, led by Richard Clarey and clerked by Michael Brandon and regularly attend the monthly meetings around the corner at the Daniel F. Burns Apartments.

From reading the documentation of our allied neighborhood group, the North Walden Neighbors led by Ms.S. Frankle, I would have to agree that the proposed development is way out of line as to what my impression is of what is appropriate for our greater North Cambridge neighborhood and what the spirit and wording of the relevant ordinances suggest.

It is, in my opinion and in agreement with NWN, that the 2072 Mass. Ave. proposal is-- too unsafe with the traffic congestion at this dangerous intersection with its history of numerous car accidents.

It is, in my opinion and in agreement with NWN, that the 2072 Mass. Ave. proposal is-- too tall (9 stories) and big and in its number of units for the plot of land it would be built on.

It is, in my opinion and in agreement with NWN, that the 2072 Mass. Ave. proposal is-- not in compliance with the zoning code's rules on setbacks, etc.

(Among other stakeholders, the NCSC worked hard to establish these guidelines in the master plan of zoning rules and goals for development for North Cambridge's section of Mass Ave in the 1990s.)

Furthermore, given NSCS's clerk Michael Brandon communication of this morning 12/31, I am dismayed at what he reports as the unresponsiveness from you at the BZA, and the city in general, to his concerns expressed in letters of 12/10 and 12/30 concerning the prematurely holding a Public Hearing on the proposal, originally on 12/10, now scheduled for 1/7/21 when prior requirements have not been met by the 2072 Mass Ave developer.

Namely, M. Brandon's contention that the seemingly inevitable granting of a comprehensive permit to the developer, is being rushed into without following the established procedures, i.e. it lacks, in his understanding, a needed Project Eligibility Letter (PEL) issued by the Massachusetts Department of Housing and Community Development; as well as other procedural irregularities.

Best wishes,
Mark Adams

Dear members of Board of Zoning Appeal,

As resident and home owner of nearby Cogswell Avenue, I strongly oppose the current development plan of the 2072 Mass Ave. The current intersection of Mass Ave and Walden street is already very busy and dangerous, I cannot imagine how the traffic will be after adding so many residence units to such a busy intersection. In addition, there will be so many units without designated parking, this will be a nightmare for the nearby street where street parking is already very tight, especially in the winter.

Overall, please reduce the number of units and give each unit a parking space which is very much necessary. In addition, please consider widening the intersection of Mass Ave/Walden street.

Thanks very much for your consideration!

Best regards,

Fang

Subject: BZA Public Hearing Format? - January 7 Special Meeting - 2072 Mass Ave.

December 31, 2020

To: Maria Pacheco, Board of Zoning Appeals
Cc: Ranjit, ISD (BZA)

Hi Maria, As I believe you must know, the BZA Rules (posted) require that everyone provide their *home address* when giving public testimony. This was overlooked at the last public hearing on the 2072 Mass Ave. application.

Could we be assured that this requirement will be honored at the hearing on January 7? Would you please share this email and request with Gus, Brendan, and remaining Board members?

In addition to its being a *published rule for BZA Hearings*, I firmly believe we are all entitled to know where people actually live when giving public testimony about matters in Cambridge.

Thanks.

Section 6. Rules of Procedure at Public Hearings

[...] **Every person appearing before the Board or submitting a statement in writing must identify himself for the record by full name and current residential address.**

<https://www.cambridgema.gov/-/media/Files/inspectionalservicesdepartment/BZA/bzarulesofpracticeandprocedure.pdf>

Also, as you may know, the last meeting was a catastrophe in several respects. I'm not in favor of letting politicians (a/k/a, "elected officials") "jump the queue" when others are waiting to give testimony. But if this must be allowed, could we limit the time permitted? Marjorie Decker was allowed to opine at great length at the start of the hearing, unfairly to everyone else waiting to testify.

Later on, after this, and then the customary "three minutes" for others, still others who

had been waiting to make comments were summarily reduced in an impromptu manner by Jim Monteverde (no doubt trying to do his best under difficult circumstances) to a "one minute" allowance. This was obviously unfair - and I believe unnecessary - discriminating against those who just happened to be later in the queue. This can and should be avoided on, in my opinion, on January 7 by limiting "speeches" by politicians, and holding everyone to a reasonable time allowance, announced - for all equally - at the start of the meeting.

Hopefully the fact that this is a "special meeting" (if it is not cancelled or postponed) will allow everyone interested in providing testimony a reasonable opportunity to be heard.

Thanks. I would appreciate your sharing this with the Chair and Vice Chair, especially, and letting me know what response they may have.

Happy New Year - hopefully - to all of us!

Sincerely, James Williamson

Dear Mayor Siddiqui,

According to the attached document, MA Housing Partnership (MHP), " MHP is required under 40B regulations to provide a 30-day notice ("30-Day Notice") to the "Chief Executive Officer" of the Town/City where the project is located, at least 30 days prior to issuance of a PEL." For Cambridge, I believe the Chief Executive Officer is you as Mayor of Cambridge. MHP will review the submitted PEL application for completeness and if so, MHP will visit the site and make a determination as to whether they are prepared to send a 30-Day Notice to the Town/City. MHP is required to provide notice of the site visit to the Town/City's Chief Executive Officer in order to allow any officials or staff of the municipality to accompany them on the site visit.

Please provide me with the following information:

- 1) date CC HRE provided a copy of their full PEL application, including the completed PEL Information Form, and any attachments to it. The PEL should have had Preliminary development pro forma which is not available on the PEL Application on the 2072 Mass Ave project's website
- 2) date you have received the 30-Day Notice
- 3) if during that 30-day period the PEL application was made public on City's website for the public to submit comments
- 4) if during that 30-day period you conveyed any comments, either the City's or on behalf of the public, to MHP to be considered during their due diligence review
- 5) date you have received site visit notice
- 6) if any city official or staff accompanied MHP on the site visit

I am trying to determine if CC HRE satisfied all the regulatory prerequisites. If CC HRE didn't, then they do "not have standing to apply for a comprehensive permit and the ZBA should not grant one" per [Chapter 40B Handbook for Zoning Boards of Appeal](#).

Thank you in advance for your timely response before the continued hearing on this case by BZA on 1/7/2021.

Respectfully yours,

Young Kim
17 Norris Street

Re: Requirements for 40 B Project Eligibility Letter: (Subject Project)

Dear

Thank you for requesting that MHP issue a Project Eligibility Letter (PEL) on your behalf for the subject 40B project (the "Project"). In issuing a PEL, MHP will perform the function of the "Subsidizing Agency" for the Project.

This letter tells you what you need to know in order to understand the PEL application process and MHP's policies in observance of state regulatory requirements, as outlined in the updates to 40B Regulations that became effective on February 22, 2008 (760 CMR 56), as well as Guidelines published in furtherance of these Regulations by the Massachusetts Department of Housing and Community Development (DHCD).

After initial inquiries regarding your Project are complete, we will invite your formal application for a PEL, along with the payment of certain fees outlined on **Attachment 1**.

If and when you do submit an application to MHP, State regulations require you to submit a copy of your application to the Chief Executive Officer (mayor or chair of board of selectmen) of the city or town in which the Project is to be located, and to provide notice to DHCD of your PEL application.

Also enclosed is MHP's Limited Dividend Policy, dated September, 2013, which applies to all PEL applicants which are "Limited Dividend Organizations" (LDOs), as opposed to a non-profit or a public agency. I understand you are applying as an LDO for this project.

Below is a brief description of the process for obtaining a PEL, followed by other key topics to keep in mind as you proceed.

PEL Process:

Below is described the PEL application and issuance process.

There are two phases in the application process for a PEL: Phase I is related to MHP's issuance of the 30-Day Notice to the Town/City, and Phase II is related to MHP's issuance of the PEL.

Phase I: Thirty Day Notice to the Town

MHP is required under 40B regulations to provide a 30-day notice ("30-Day Notice") to the "Chief Executive Officer" of the Town/City where the project is located, at least 30 days prior to issuance of a PEL. (The Chief Executive Officer is defined as the mayor, for cities, or the board of selectmen, for towns.) In order for us to decide on the issuance of the 30-Day Notice, we need you to do the following:

- submit to us a complete MHP PEL application, as instructed above, including a complete PEL Information Form, which we will send you when we invite your formal application;
- provide a copy of your full PEL application, including the completed PEL Information Form, and any attachments to it, to the Chief Executive Officer of the Town/City;
- provide written notice of your application, to the Undersecretary of the Department of Housing and Community Development (DHCD), 100 Cambridge Street, Suite 300, Boston, MA 02114, and
- provide MHP with a copy of the written notice to DHCD .

When you have completed these items, MHP will review the submitted materials and determine if your PEL application is complete. If it is, MHP will visit the site, and make a determination as to whether we are prepared to send a 30-Day Notice to the Town/City. You should understand that, regarding the site visit, we are required to provide notice of the site visit to the Town/City's Chief Executive Officer in order to allow any officials or staff of the municipality to accompany us on the site visit, at their choice.

We require that the fees owed to MHP in connection with your PEL application (see **Attachment 1**) all be paid prior to issuance of the 30-Day Notice.

Should we elect to issue the 30- Day Notice, this will trigger a 30-day period during which the Town/City may make comments to us which we will take into consideration during our due diligence review. We cannot proceed with approval and issuance of the PEL itself until this 30-day comment period is complete.

Phase 2: Project Eligibility Letter

After the 30-day comment period has lapsed, we will make a determination as to whether or not we will issue the PEL. During this phase, we will review the Project for the following criteria:

1. that the proposed Project appears generally eligible under an MHP housing finance program;
2. that the proposed Project is generally appropriate for residential development, taking into consideration information provided by the municipality or other parties regarding municipal actions previously taken to meet affordable housing needs;
3. that the conceptual project design is generally appropriate for the site on which it is located, taking into consideration factors that may include proposed use, conceptual

site plan and building massing, topography, environmental resources, and integration into existing development patterns;

4. that the proposed Project appears financially feasible within the housing market in which it will be situated (based on comparable rental information);
5. that the pro forma shows costs, including land valuation, consistent with DHCD guidelines, and the Project appears financially feasible and consistent with the DHCD guidelines for Cost Examination and Limitations on Profits and Distributions (if applicable) on the basis of estimated development costs;
6. that the Sponsor applying for the PEL is a public agency, a non profit organization, or a Limited Dividend Organization, and it meets the general eligibility standards of the MHP housing finance program; and
7. that the Applicant controls the site, based on evidence that the Applicant or a related entity owns the site, or holds an option or contract to acquire such interest in the site as is deemed by the Subsidizing Agency to be sufficient to control the site.

In issuing the PEL, which will require the Applicant's payment of the second half of the Processing Fee, we will provide copies of our PEL to DHCD, the Chief Elected Official of the municipality, and the local Zoning Board of Appeals.

While the PEL is not a commitment to lend and should not be interpreted as such, if you do obtain financing from MHP the Processing Fee related to the PEL will be credited toward MHP's commitment fee.

Other Important Topics

Below are highlighted key elements of MHP policies related to 40B projects to keep in mind related to your application with MHP for a PEL:

Appraisal

Please understand that state regulations under 40B require a Subsidizing Agency to establish the "as-is" value of the real estate parcel where the Project is to be located – that is, the value of the parcel prior to its being permitting under 40B and developed. Prior to issuance of a PEL, therefore, we will need to conduct an appraisal, at your expense, of the pre-permitting value of the property you are seeking to develop. We cannot accept an appraisal of this value if you have already engaged one because regulations require we as subsidizing agency to be the party which engages the appraisal. Since appraisals can take as much as six weeks to complete, I encourage you to authorize MHP to engage an appraisal as soon as possible.

Please note that if the project is 20 units or less in size, MHP may waive this requirement if the Applicant provides a written request by the Chief Elected Official of the town or city in which the

project is located. In substitution for the as-is appraisal MHP would require documentation supporting the acquisition cost; such documentation may be in the form of either a local tax assessment, a limited appraisal, or an opinion of value from a licensed real estate broker.

Substantial Changes to the Project

After the issuance of the PEL, if an Applicant seeks to change aspects of the project that vary from the project's characteristics in place when the PEL was issued, MHP will require the Applicant to notify MHP in writing of such changes, with a copy to the Chief Elected Official of the municipality, and the Zoning Board of Appeals. MHP shall determine within 15 days whether or not the changes are substantial with reference to the project eligibility requirements.

Final Approval by the Subsidizing Agency

State regulations require that the Subsidizing Agency issue a Final Approval Letter prior to the Town/City's issuance of a building permit. The purpose of this Final Approval Letter is to confirm that the Project's characteristics have not substantially changed since the issuance of the PEL. Under state regulations, we must issue you a formally approved commitment for permanent financing in order to issue the Final Approval Letter, and this commitment must be accepted by your for financing. Therefore, please notify us of your intention to obtain a Final Approval Letter at least 90 days prior to your intended date for building permit issuance, so that we have time both to underwrite and obtain approval for the permanent loan, and to prepare the Final Approval Letter.

Affirmative Fair Housing Marketing Plan (Including Resident Selection)

As part of its review of the PEL, MHP will require evidence that the Sponsor or the Development Team demonstrate capacity to meet fair housing requirements – that is, that they have the capacity to prepare and implement an adequate Affirmative Fair Housing Marketing Plan (AFHMP), to engage in marketing and outreach activities, and to conduct resident selection procedures that ensure the Property is marketed in keeping with fair housing requirements. In addition, we will require submission to us, and approval of, the AFHMP, before the sponsor begins the process of marketing the project.

Limited Dividend Policy

Please be aware that, if you are a Limited Dividend Organization (LDO), MHP has a Limited Dividend Policy which applies. The Policy includes, among other items, three important features:

1. *a limit on the annual cash* a developer can take out of a project's annual net cash flow to 10% of recognized borrower equity;
2. *a limit on developer fee* to a figure reflecting a reasonable return under a formula shown in the Limited Dividend Policy; in order to calculate this formula you will need to complete a cost certification at your expense (see next paragraph) and submit it to MHP within 90 days of substantial completion and prior to MHP's permanent loan closing;
3. *a restriction on land value* used in the calculations of items #1 and #2 above, such that the land value used must be the "as-is value" of the land – that is, the value of the land prior to the issuance of a comprehensive permit under Chapter 40B. This value will be determined by an appraisal engaged by MHP, as mentioned earlier in this letter.

Cost Certification

Within 90 days of completion and occupancy, and prior to permanent loan closing with MHP, Sponsors will be required to provide MHP with an audited cost certification for the Project, which MHP will review for compliance of the completed project with DHCD guidelines, regarding development fee, related party payments (if any), and calculation of sponsor equity.

The cost certification must be performed by a qualified certified public accounting firm which has been prequalified with DHCD for performing cost certifications. Please see **Attachment 2** for the requirements for CPA prequalification.

MHP will review the cost certification and, if approved, notify the Town/City of its approval and provide the Town/City with a copy of the cost certification. The Town/City will have 10 business days to identify any potential inaccuracies to MHP, before the cost certification can be deemed accepted. An accepted cost certification will be a condition of permanent loan closing.

Limited Dividend Organizations must provide financial surety to ensure completion of the cost examination. The surety shall be provided no later than the closing of the construction loan, through a letter of credit, bond, or cash, in a form satisfactory to MHP. The amount of the surety shall be as follows:

For projects

up to and including 25 units:	\$ 25,000
up to and including 50 units:	\$ 50,000
up to and including 100 units:	\$ 75,000
more than 100 units:	\$ 100,000

Inclusion of 3-BR Units

In January 2014 the State established a new requirement that for any 40B development, or other housing development using state resources, at least 10% of the units must have three BRs, unless they are SRO's or age-restricted. I will discuss this further with you prior to your submission of your PEL application.

I look forward to talking with you more about your PEL application. Thank you for contacting us about your affordable housing development plans, and do not hesitate to call me at (617) 330-9944 XXXX if you have any questions.

Sincerely,

cc: Attachment 1: Schedule of PEL Fees
Attachment 2: Procedures for Prequalification of Certified Public Accounts
Attachment 3: MHP's Limited Dividend Policy

Attachment 1

MHP's Fees for a Project Eligibility Letter (PEL)

MHP charges fees in connection with the issuance of a PEL, as follows:

- a Processing Fee totaling \$1,500 for non-profits or \$2,000 for for-profits;
- a 40B Fund Fee (not earned by MHP, but deposited into a fund helping to defray the costs of the 40B Housing Appeals Committee at DHCD), consisting of:
 - \$1,000 for non-profits, or \$2,500 for for-profits, *plus*:
 - an amount equal to \$30 per unit (counting all the units in the project)

Of these amounts, one-half of the Processing Fee (\$750 for non-profits or \$1,000 for for-profits), and the entire 40B Fund Fee must be paid upon application and prior to the issuance of the 30-Day Notice. The balance of the Processing Fee is due prior to our issuance of the PEL.

The 40B Fund Fee will be refunded if MHP declines to issue a PEL. MHP's Processing Fee is nonrefundable, but will be credited against the loan commitment fee which MHP charges should MHP be the permanent lender on the project.

Attachment 2

Procedures for Prequalification of Certified Public Accountants

DHCD requires the prequalification of certified public accountants (CPAs) hired by a Developer to carry out cost certifications in connection with Comprehensive Permit projects. In order to be prequalified by DHCD, CPAs must:

- Be licensed by, and in good standing with, the Commonwealth of Massachusetts Board of Public Accountancy;
- Meet the independence standards of the AICPA (American Institute of Certified Public Accountants);
- Have been subjected to a quality control (peer) review, within the most recent time period as required by the AICPA and received an unqualified report; and
- Have current insurance policies that cover errors and omissions.

CPAs interested in being prequalified by DHCD should submit the following information to DHCD, to the attention of Candace Tempesta, Contract Specialist, Massachusetts Department of Housing and Community Development, 100 Cambridge Street, Suite 300, Boston MA 02114

candy.tempesta@ocd.state.ma.us; 617-573-1507):

- A Letter of Interest providing the name, firm name (if applicable), address, telephone and fax numbers, and license number for the CPA;
- An original Certificate of Good Standing issued by the Massachusetts Division of Licensure within thirty (30) days of the submission to DHCD; and
- A copy of the relevant quality control (peer review) report.

Prequalification by DHCD will be good for a period of two (2) years from the date that DHCD notifies a CPA that it has met the standards set forth below, provided that the CPA maintains compliance with such standards.

Note: To access the up-to-date listing of the DHCD pre-qualified CPAs go to the following web site address: www.mass.gov/ehed/docs/dhcd/legal/cpaprequalifiedlist.doc.

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal:

I oppose the proposed development at 2072 Mass Ave. I live in the Huron Village area and drove thru that intersection frequently before Covid. Less frequently during Covid. I went to the Senior Center which is basically next door, and also shop at Porter Sq. and drive to Davis Sq. and beyond via that intersection. This particular intersection is very congested as is. It cannot accommodate 200 new residents, their traffic, drop offs, pick ups, deliveries, etc. Not even with the proposed slight widening of Walden.

The zoning for affordable housing has a 6 story maximum. Please enforce that. Better yet, build elsewhere. This intersection is a poor choice.

Yours sincerely,

Anne Warner

Hi North Walden Neighbors,

We are now more than 320 like-minded neighbors who are opposed to the proposed 2072 Mass Ave development. Many of us live in near the site.

Some of you have been asking **what more you can you do** to help oppose the proposed development.

First, write to the BZA! Your voice will make a difference.
Emails should be sent before next Monday, 1/4 at 5PM.

- Send emails to mpacheco@cambridgema.gov
- Subject Line: 2072 Mass Ave CASE NO. BZA-017326-2020
- Salutation & First line:
 - To Members of the Board of Zoning Appeal
 - I oppose the proposed development at 2072 Mass Ave.
- If you live near the site, please add that information in the first paragraph.
- Body: Possible concerns to include or please state your own:
 - **Size** (the 9-story, 102 feet height of the proposed building towers over neighboring building of 57 feet, as well as the 2-3 story homes on Walden; Ask the BZA to please enforce zoning for affordable housing which is 6 stories maximum; Also mention that

this could set a concerning precedent for other 9-story developments to be built in North Cambridge).

- **Safety** of the intersection (dangerous and congested intersection, the proposed slight widening of Walden will not offset the 200 new residents, their traffic, and their drop offs, pick ups, deliveries; It creates a whole new set of dangerous traffic conditions).
- **Lack of setbacks** further exacerbates safety issues for pedestrians, cyclists, and drivers.
- **Negative impact on seniors' health and well-being** who live in the abutting affordable housing building; their lives will be dramatically impacted throughout 2 years of construction and they will permanently lose light and privacy.
- Some neighbors are advocating for 6-stories in the front (no deeper than the abutting Russell Apartment building), dropping to 3-stories in the back. If you agree, advocate for that!

Second, mark your calendar!

Thursday, 1/7 6PM for the BZA Hearing. We need you there.

- Plan to attend and make a quick statement in opposition
- More information to come later this week on how to register

Thank you for all you are doing!

Happy Holidays,

North Walden Neighbors

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal:

I oppose the proposed construction at 2017 Mass. Ave.

First of all, there are way too many zoning wavers.

It is way too high and big. Please enforce the zoning for affordable housing, which is 6 stories maximum.

It is unsafe. Dangerous intersection! 200 new residents??? The lack of setbacks makes it worse.

Such a structure would very negatively affect the seniors who live in the abutting affordable housing.

I have been a Cambridge resident since 1972.

Subject: 2072 Mass Ave. case no. BZA-017326-2020

Good morning.....hope you had a nice holiday in this strange world we are in right now....

Anyway, thought I would get back to you to voice my concerns about this building.

1. The size of the building is too big...there is no green space around it and it dwarfs the abutting buildings. There is not parking for the 25 cars at least that will be there...this is setting a bad precedent for other buildings that developers can make money from....Affordable housing is supposed to be just 6 stories high and despite the fact that they are applying for a comprehensive permit, please keep ini mind that the neighbors will be looking at this building for at least 100 years.....and psychologically architecture has an impact on people and neighborhoods. The lack of setbacks is awful, as well as the color.
2. I know that at the last meeting there were several people among the 25 or so that spoke, but we had over 200 letters from neighbors and others that were against and that was not mentioned.....
3. There will be at least 200 new residents in this building. There will be drop offs and pick ups and safety to pedestrians and cyclists, etc will be compromised.
4. Why aren't people concerned about the seniors next door....4 ft. away? It will be 2 years of construction at the least and they will permanently lose their light and privacy....what about them? They also are not rich

Cambridge has almost 15 percent affordable housing...Ch. 40B of the Mass. General Laws says that unless you have less than 10 percent of affordable housing you do not have to erect more....Please keep in mind that Cambridge is one of the 10 densest cities in the country for our population....Somerville being another. How many people should we accommodate in the city? Not everyone who wants to live in Cambridge can live here. I think the BZA should recognize these issues and please turn down the application for this building as is.

With many thanks,

Pamela Winters

Subject: BZA meeting

Good afternoon,

I am emailing on behalf of the residents of [14 Walden Street](#). We wanted to express our concerns regarding the construction of the housing development adjacent to our home on [14 Walden Street](#).

First, we have concerns regarding the safety of this project. The foundation of our home is at great risk, given that we live in a Mansard Victorian historical home built in the early 19th century. Preserving the integrity and structure of homes that hold architectural and historical significance is imperative and beneficial to the city of Cambridge.

Given the time period that our home was built, the city must consider the fragility of our historical home and how the structure will be impacted by construction. Drilling so close for the deep foundation required for a 9-story building will cause vibrations that can be felt by the residents and shake our interior. We are a working class family and would be unable to afford any bills and other sustained damages as a result of the construction. We implore the city to reconsider the impact of this construction on the working class families of the Walden street community, as well as the integrity of surrounding historical homes.

Best,
Residents of [14 Walden Street](#)

To members of BZA

I drive around that corner ever day and know how dangerous it is even with reduced COVID bike and car traffic. The proposed building is too high, has no setback and no parking to keep resident cars off the street. The building would negatively impact the senior population already established next door. But the building of anything that will make traffic more difficult at that already dangerous corner should not be supported. I have lived in North Cambridge for 20 years and am very experienced with the dangers of that corner. Please do not support the development in its currently planned form.

To: Zoning Appeals Board,

I am a home owner at 8 Sycamore St, Cambridge 02140, directly behind the proposed development. I fully support affordable housing at 2072. It's proximity to public transportation, good schools, adequate shopping, and recreation within walking distance make it an ideal location for us all. I also share the builders' concerns about the huge number of people in need of affordable housing, and am more than happy to accept personal inconvenience in order to accommodate more traffic and parking problems.

I am very concerned about the danger to young families who will be added to the significant existing danger at the corner of Mass Ave and Walden. I'm not sure people who don't walk that corner daily fully understand the pre-COVID mess there. Northbound traffic backs up to at least Concord from about 4:00 PM. Drivers become irritable and impatient so that by the time they get to Mass Ave they jump the light, cut the corner (might be helped by widening the street, thank you!), and zoom off onto Mass Ave. It's a similar situation for cars turning right off Mass Ave onto Walden. I've grabbed my grandkids back from danger at the corners many times. I understand that the trade offs between efforts to address the need for housing and compromising on the density of building project are hard ones to navigate. I trust the opinion of experts in the fields of housing and urban planning. My fervent hope is that if the Board approves anywhere near the proposed density of this development it will be with a commitment from the city and the builders to work with neighbors on traffic calming, pediatrician safety, and danger mitigation.

I also want to say, we are all in this together and we need intersectional solutions to these complex problems. I hope we can work together with generosity, peace and good will in the New Year.

Thank you!

Hi there,

I'm a resident on Walden Street, across the street from Darul Kabab. While I'm excited about the prospects of expanding access to affordable housing in Northern Cambridge, there are aspects of the current development plan that concern me. Specifically:

- **the size** relative to the other buildings in our neighborhood
- the potential **impact on traffic**, given how congested Walden Street gets during non-pandemic periods
- the disruption and **noise pollution from construction** during a period where many are working or attending classes from home

I believe with the right adjustments the development could be a great addition to our neighborhood and am hopeful the City and Developers can strike the right balance.

Best,
Marybeth

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal:

I oppose the proposed development at 2072 Mass Ave. I live on Cogswell Avenue and frequently use Walden St. which borders the proposed site. I am not opposed to development at the site - but I am very concerned about the height of the proposed development. PLEASE enforce zoning for affordable housing which is 6 stories maximum. If permitted to go around this standard, this development could set a precedent for other OVERLY TALL buildings here in North Cambridge - drastically changing our neighborhood.

I am also concerned about the traffic at that corner and the effect the proposed development would have on pedestrians (like me who often walks up Walden to Mass Ave), drivers and cyclists.

Please: no more than 6 stories!!!

Thank you for your consideration.

Zonda Mercer
47 Cogswell Avenue
Unit 21
Cambridge, MA 02140

Subject: Urgent request for using part of Buckingham Field for affordable housing

Dear Mayor Siddiqui,

I trust you had a relaxing, peaceful four day holiday weekend with your loved ones. And I hope you read [my Letter to the Editor of Cambridge Chronicle](#). I tried my best to be as objective as I possibly could from an engineer's point of view but being limited to 400 words, it was very difficult and I do hope I didn't offend you in any way. If I did, certainly that was not my intention and I beg you to please accept my sincerest apologies.

Right after that letter was published, I found out that [City Council okayed the purchase of 4-acre Buckingham Field](#) expecting some affordable housing will be sited there. This news opened up new possibilities and couldn't have come at a better time coinciding with my call for holistic development of 2072 Mass Ave as I first presented to you and other stakeholders in my Dec 16 email (which was included as [COM 867 #2020](#) in last week's City Council agenda file).

This good news was quickly upset by a rendering Mr. Korb (Capstone Communities) sent me (see the attached) of a view from Creighton Street looking across the open space of Russell Apartments to the proposed 2072 Mass. Ave. development that CC HRE 2072 Mass Ave Tenant LLC (developer) intends to present at the continued Jan 7th BZA hearing in response to BZA's request to [better justify their additional height. Or to reduce it.](#)

Through you, I urgently request that the BZA hearing on 2072 Comprehensive Permit case be suspended until the use of Buckingham Field for affordable housing can be debated by the City to prevent overly dense projects such as 2072 Mass Ave from looming over its nearby neighbors and cause immense adverse impact on its surrounding community.

I would like to offer two possible options for City to consider to take advantage of the newly acquired Buckingham Field. My preferred option is to carve out a subdivision of Buckingham Field for affordable housing to swap with the developer's 2072 Mass. Ave. property. City can then turn 2072 Mass Ave into a much needed community open green space - a garden, a children's playground, a senior's park, and/or a community garden. This would help replace the neighborhood's beloved Knight's Garden that was recently sacrificed for the St. James Place. Part of the property along Walden Street still can be used for traffic improvement measures as the developer graciously offered. In turn, the developer can design and build in the newly created subdivision, with community involvement at every stage, a low-rise affordable housing complex (a cluster of triple decker town houses perhaps) that will fit into the character of West Cambridge and will give residents the pride of home ownership rather than merely rental apartments as CHA did with their renovation of Jefferson Park.

The second option is to allow the developer to build a reduced density building at 2072 Mass Ave (say at roughly 1/2 the density with 24 units at FAR of about 3.5 in a similar footprint as Russell Apt) and compensate CC HRE's financial loss by giving them a seat at the table in developing the Buckingham Field for affordable housing.

In either case, the developer must be made to follow the building and site development standards of Zoning Ordinance Article 19, Project Review, provisions to achieve the city's urban design objectives with full participation of the West Cambridge community as prescribed in [MA Chapter 40B Handbook for Zoning Boards of Appeal](#)

Thank you for your patience in reading this long email in your busy schedule and would appreciate any and all assistance you can offer in achieving this a holistic redevelopment of 2072 Mass Ave.

Respectfully yours,
Young Kim
17 Norris Street

To the Board of Zoning Appeals,

We write in support of the proposed variance at 2 Pearl Street Place (BZA-101523). We live at 3 Hastings Square, which means we are diagonally behind the house and can see it clearly from our backyard. We believe that both the dormer and the window adjustments are lovely and appropriate additions.

We have been lucky enough to meet Mahta and Chris many times since they bought the house at 2 Pearl Street Place, both through our backyard and around the neighborhood. We are thankful for our new friendship with them, as well as for the neighborliness and consideration they have shown in planning their renovations. We look forward to raising our family across the fence from theirs, and encourage you to allow them to make the renovations necessary to be comfortable in the house long-term.

Sincerely,
Rebecca & Nikolas Bowie
3 Hastings Square

Subject: BZA meeting

Good afternoon,

I am emailing on behalf of the residents of [14 Walden Street](#). We wanted to express our concerns regarding the construction of the housing development adjacent to our home on [14 Walden Street](#).

First, we have concerns regarding the safety of this project. The foundation of our home is at great risk, given that we live in a Mansard Victorian historical home built in the early 19th century. Preserving the integrity and structure of homes that hold architectural and historical significance is imperative and beneficial to the city of Cambridge.

Given the time period that our home was built, the city must consider the fragility of our historical home and how the structure will be impacted by construction. Drilling so close for the deep foundation required for a 9-story building will cause vibrations that can be felt by the residents and shake our interior. We are a working class family and would be unable to afford any bills and other sustained damages as a result of the construction. We implore the city to reconsider the impact of this construction on the working class families of the Walden street community, as well as the integrity of surrounding historical homes.

Best,
Residents of [14 Walden Street](#)

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To the Board of Zoning Appeal:

I am quite concerned about the current proposed development at 2072 Mass Ave. for numerous reasons.

As a student who has used the bus stop located within feet of the proposed building, I know that more foot traffic and crowding would intimidate and potentially scare those awaiting the school bus. If the massive size and capacity of the building that's scheduled to be constructed is included with the final plan, it could cause chaos at the bus stop where so many children stand every day.

I am concerned about the size, lack of setbacks, and location at a dangerous, congested intersection. I am also concerned about the well-being of the vulnerable seniors and people with disabilities who reside at Russell Apartments and are direct abutters.

I greatly appreciate that you, the members of the BZA, voiced concerns about the height of the 9-story building and asked the developers to reduce the building height. I also appreciate that you asked for clarification of their financials.

I would like to see a 6-story building that does not extend beyond the Russell building (either in height or depth), and then drops to a 3-story building in the rear.

I plan to attend the January 7 hearing to voice my concerns.

Lastly, has a voucher program ever been considered to help ameliorate the need for public housing? Due to the pandemic, and decreased tenants brought to the city by our academic institutions, there is an unprecedented number of vacant rentals, and landlords (many who live in Cambridge as well), without income.

In summary, my questions:

- 1) Has the CPS transportation department been consulted?
- 2) Has a voucher program been considered - perhaps this second question is out of the purview of the Zoning Board of Appeal.

Thank you.

Sincerely,
Yona Shapiro

To the Board of Zoning Appeal:

I am quite concerned about the current proposed development at 2072 Mass Ave. for many reasons.

As a parent of school children, I wanted to make sure it was understood that there is a school bus stop right there at Walden and Mass Ave exactly where the project is slated to be built. I wonder if CPS school transportation has been consulted about this development in terms of the safety of children. I have walked my kids and waited at that stop with my kids for years... it is a dangerous intersection only to be made more dangerous with this project. Has there been any communication with CPS transportation?

I am concerned about the size, lack of setbacks, and location at a dangerous, congested intersection. I am also concerned about the well-being of the vulnerable seniors and people with disabilities who reside at Russell Apartments and are direct abutters.

Please resist the hysterics and histrionics voiced by some members of the City Council when they incessantly voice concerns about affordable housing. The simple facts of the matter are that no matter how much affordable housing the city builds it will NEVER be enough to satisfy actual affordable housing needs and certainly not the needs of these ABC backed and financed Council members for whom even too much affordable housing would also NEVER be enough.

I plan to attend the January 7 hearing to voice my concerns.

Thank you.

I would like to add one point. The opinion piece from city leaders stated "The Planning Board approved the project unanimously, where it then went to the BZA for zoning relief." This is true, however there was a lone voice on the planning board repeatedly expressing serious concerns about the additional cars. I believe his name was Stephen. Ultimately, there was no support for his suggestions, and he (in my opinion) grudgingly agreed to give his approval. It is unfortunate that voices of concern are being silenced.

Thank you,
Elizabeth Kon

On Thu, Dec 24, 2020 at 9:27 AM B K <bkon02@gmail.com> wrote:

To the Board of Zoning Appeal:

I'm writing to voice my concerns about the proposed project at 2072 Mass Ave. I am fully supportive of affordable housing at the site, but concerned about particular details and the rhetoric being used in the community.

My concerns are parking and traffic safety in the area. I understand that a child was already killed at this intersection, and am concerned about making the situation worse.

Some community and Cambridge government members seem to be viewing this as an us/them situation. I feel compassion for those who suffer from the lack of affordable housing. I wish I could make it right. It is a complex and multi-faceted situation with no simple answers. Trying to address it intelligently while considering all implications realistically does not mean that one is against affordable housing, though the forces of polarization in our society seem to work to present it as such. Zoning regulations are there for a reason. They should be a starting point from which the city can deviate when appropriate. They should be changed when they are unnecessarily restrictive.

I have a long, long list of things about the world that pain me, and that I wish I could change. I struggle to accept my inability to fix it all. Making unintelligent choices may feel good at the moment, but in the end they will benefit no one, and may have unintended negative consequences.

Let's get more affordable housing in Cambridge, let's do the best we can, and let's do it intelligently.

Sincerely,
Elizabeth Kon

- To Members of the Board of Zoning Appeal

I oppose the proposed development at 2072 Mass Ave. I live at 84 Orchard street which is one block away from the proposed building.

The intersection of walden and MAss ave is one i drive through at least 2x a day either to leave my house or to get home. I am either turning from walden street onto mass ave to get home or turning from blake street onto mass ave, through the light and turning right onto russell to get home And i often am getting onto into the left lane of mass ave from blake and turning left onto walden to go run errands,etc. that's dangerous and very busy intersection especially in non covid times.

The proposed slight widening of Walden will not offset the 200 new residents, their traffic, and their drop offs, pick ups, deliveries. In fact, it creates a whole new set of dangerous traffic conditions on top of the ones that already exist-- there have already been numerous accidents-- one of which i was involved in and also the death of at least one person.

PLus there are the problems of lack of parking spaces for the new residents and the size of the building. Really, 9 stories(102 feet) when the zoning for affordable housing is only 6? And the neighboring building next to it is only 57 feet and the other abutters are only 2-3 stories high?

I agree with the neighbors who are advocating for 6-stories in the front (no deeper than the abutting Russell Apartment building), dropping to 3-stories in the back.

When will the zoning board acknowledge its own regulations and follow them? What's the purpose of having them? Is it only to try to calm down us residents by putting on a face of appeasement but actually turning around and doing otherwise.

Sincerely,
Jan Corash and Michael Berdan

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To the Board of Zoning Appeal,

We live 1 block from the 2072 Mass Ave. site and have been there for 27 years.

We strongly oppose the proposed development at 2072 Mass Ave.

There are many red flags:

- **Red flag** - 18 waivers for zoning relief
- **Red flag** - 9-stories, 102 feet
- **Red flag** - only one elevator for 150-200 residents
- **Red flag** - virtually no parking; only 3 restricted on-site parking spaces
- **Red flag** - more than 3x the density of other Porter Sq. affordable housing
- **Red flag** - no ground level green space; no setbacks
- **Red flag** - negative impact to light and privacy to the seniors in affordable housing who live right next door

Please use the **height maximums from the recently-enacted AHO** (6 stories, 70 feet) to guide what should be allowed to be built at the site.

Please listen to the voices from the immediate neighborhood. There is a groundswell of opposition, many of those live very close to the site (**350+ petition signers** object to the size and have safety concerns regarding the intersection). We want there to be affordable housing, but feel the developers dismiss all the neighbors' concerns and have not provided for the safety considerations, density issues, parking concerns, and neighborhood vitality that need to be addressed.

Please don't let these developers set a **dangerous precedent** that will define the future of North Cambridge.

What we advocate for is reasonable. A 6-story building that steps down to meet the neighborhood. What we ask for is for zoning laws to be upheld.

If the developers cannot make a 6-story building financially viable, then it's clear this is not the right site and these are not the right developers. They are trying to do too much on a small 8,500 square foot lot.

Please use the AHO as THE guideline to protect the residents of North Cambridge.

Sincerely,

Lou Soltys and Christopher Morse

Subject: CASE NO. BZA-017326-2020 (2072 Mass Ave Capstone proposal)

Dear Members of the Cambridge Board of Zoning Appeal:

While I support housing affordability and security, I **strongly oppose** the 2072 Mass Ave affordable housing project for two reasons.

1. Poor Location for New Family Housing--Notoriously Dangerous Intersection: As a close neighbor, I know the dangerous congestion at that corner of Walden St during normal non-covid times and think that up to 200 new residents, including children on bicycles, will not be housed there safely, even with the widening of Walden St a bit. Please note the traffic jams were not caused by the moribund Darul Kabab; there has been no "fast-food" place at that site since 2010, in spite of what the Cambridge traffic department erroneously said and what the developers keep maintaining (would that distort contrast data of restaurant traffic vs. future resident traffic?). **Closeness to public transportation does not come close to offsetting the precariousness of housing families at this site.**

2. Poor Location for New Housing--Negatively Impacts Residents at Existing Affordable Housing Next Door: As a senior who uses the North Cambridge Senior Center and knows residents at the abutting affordable-housing Russell Apartments for seniors, I can assure you that many of the seniors think a residential building on the tiny lot at 2072 will impact their safety and comfort negatively.

Please do not approve this proposed project. Affordable housing funds are limited and should be spent on building such housing in safe locations, especially for children and seniors, the most vulnerable populations. If anything, please consider creating a Tiny Park for Seniors there.

Thank you for your consideration.
A. M. Kubilius, 21 Cogswell Ave

Subject: Letter of Support for BZA Case #17326, 2072 Massachusetts Avenue

We have lived at 26 Mead St for many years. As you may know, it is just off Walden & around the corner from this 2072 Massachusetts Avenue proposed project. We have attended the public meetings, scrutinized the plans, listened to much commentary. We are in support of this project. We recognize the great need for affordable housing, and think such structures should be located throughout the city. The building plan seems very well thought out. Many neighbors are voicing skepticism about the parking study, but since we live here, and walk, bike and drive around a lot, we have found the assessment to be accurate. The other major objection that is being raised in the neighborhood is that it will make the Walden/Mass Ave intersection too dangerous. It is our experience that that intersection has always been a giant pain for all concerned and often dangerous. This building project should not be held responsible for that long-standing traffic-engineer's headache.

We would be happy to elaborate on these views if that would be useful, but are trying to keep it brief here.

Sincerely yours,
Claire Silvers and Mark Feeney

Subject: 2072 Mass Ave Development comment

Hello,

I am writing to submit comment to the Board of Zoning Appeals on the proposed development at 2072 Massachusetts Avenue. **I am a homeowner living less than 2 blocks from the proposed development, at 47 Cogswell Avenue, and am in strong support of moving forward with the building.**

Our city is in need of affordable housing, it is something we can all agree on. This development is in an ideal location to accomplish this goal, along with another of equal importance - sustainability and tackling climate change. The building has been designed with this in mind, through its Passive House standard, and by prioritizing housing human beings over vehicles.

I know many in the neighborhood are expressing concerns over parking, traffic, and safety. The parking study clearly shows that we as residents will not be affected by an influx of cars. As someone who parks my family's single car on the street in this neighborhood - I can say I am not worried about losing my parking space on the street (which by the way is not a right afforded to me simply because I own a house here). Also - even if parking becomes more difficult, it is something I am willing to sacrifice if it makes my city more livable for more people. Those that are concerned about parking have options - pay for a spot, utilize car shares (uber, lyft, or zipcar), or take public transportation. Those without affordable housing have many fewer options for their indisputably bigger problem.

Next, traffic is already bad in this neighborhood. A new housing development is not going to change this either way. I am very happy to see that Walden Street will be widened - as a biker, walker, and infrequent driver, this will greatly improve safety for me personally. Finally, the strange claims of "safety" that are being thrown around by opponents of this development do not make sense to me personally. I am not sure whose safety opponents believe is at risk. Is it not more unsafe to be in insecure housing, or not housed at all? Families and children live in high rise housing in Central Square - a neighborhood I worked in for nearly 10 years - and I think the proposed location at 2072 Mass Ave is actually safer given traffic and pedestrian patterns in our neighborhood. Additionally, having spent time with children who live both in the Central Square developments and in the Rindge Tower housing through Cambridge's Tutoring Plus and Big Sister programs, I can say that having families housed together - where children can live side by side with their classmates and friends - and where tutoring services and other social programs can come directly to them in shared spaces - is an ideal situation.

I am asking the board to consider the point of view of someone who will eventually live in this development and enjoy all our neighborhood has to offer with equal - or more - weight than those in the neighborhood who are opposed to out of inordinate fear of change in the neighborhood.

Respectfully,
Amy Sloper

To Members of the Board of Zoning Appeal

I have lived on or owned property on Cameron Avenue all my life. Furthermore, I have been part of the North Cambridge Stabilization Committee since before the old Lincoln school was converted to housing. I recognize the need for affordable housing in not only the city, but across the state as well. However, as dire as the need for affordable housing is in Cambridge, I do not see why the developer for 2072 Mass. Ave., has to rush to put up a humongous property with no set backs (at a dangerous intersection at that) and **no citizens' review for a property that needs 18 variances in order to be constructed**. Besides, construction of a building of the size being proposed is going to take some time to construct so the affordable housing problem is not going to be solved overnight anyway, especially with just one building.

Affordable housing has been an issue at least since 1980, when I purchased my house that was under rent control at the time. Rent control didn't really do what it was supposed to do and we as a city eliminated it. Many ideas seem good until they are implemented and people begin to see that there are consequences that were never thought of nor intended. Allowing this project to go through as proposed **without community involvement will set a precedent for other developers that the city will not be able to easily reverse if at all**. A project of this magnitude needs to be thoughtfully considered by the community as we in the neighborhood are the ones that have to live with whatever happens for time to come.

My experience as an engineering project manager has shown that even when two sides are opposed to one another that respectful dialog can bring about a far better solution than either side had envisioned. I hope you grant us the opportunity to have such a dialog with the developer.

Kevin Yearwood

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020 - Jan 7 Hearing

To the members of the Board of Zoning Appeal:

Please see these bullet points below that include new information regarding a **census of building structures and their heights** along the 2.3 mile stretch of Mass Ave from Harvard Square (Cambridge St intersection) to Arlington (Rte 16 / Mass Ave intersection).

- Out of 195 structures fronting Mass Ave, **98% of the buildings are 6 stories or less.**
- Only 4 structures (2%) are 7 stories or more.
- The most prevalent building height along Mass Ave west of Harvard Square is 3-stories (38%) followed by 1-story (27%) and 4-stories (14%).

These data illustrate that the proposed 2072 Mass Ave building design not only **does not fit the neighborhood in the context of Walden Street and its 2- to 3-story homes**, but is also a **massive outlier for Mass Ave in North Cambridge.**

Please note: The 4 structures greater than 6 stories were built 40-50 years ago, and none are on a busy intersection.

Please note: There is more building footage frontage along Walden Street than there is along Mass Ave.

Also please see the attached elevation rendering that shows the massively out of scale context of the proposed 2072 Mass Ave building.

Thank you for your attention to these data,
Susan Frankle

Good afternoon,

I live 2 blocks from the proposed development and park on the street, too. I have no safety or practical objections to this project and am very much in favor of it. I've read the op-eds and petition opposing the building's proposed height and parking but find those arguments unconvincing.

I welcome my future neighbors to the community.

Subject: support for BZA-017326-2020 (2072 Mass Ave)

Greetings,

I am writing to express my continued strong and heartfelt support for the proposed affordable housing development at 2072 Mass Ave. I was disappointed to hear that the BZA is considering downscaling of the project. With a site located so close to transit, and in the context of a major housing shortage and affordability crisis in our community, reducing this project seems like it would be a mistake and lost opportunity.

I am a homeowner who lives around the corner from this site and walk by it daily, and I do not think any hypothetical concerns about access to on-street parking or overall building height on Mass Ave. justify slowing down or downscaling the project. The developers have already reduced the scale of their original plan to add an attractive rear roof-deck that will create a 'step down' to nearby homes, and it would be a sad and shortsighted loss to see the project downscaled even further.

I hope you see fit to grant approval, and bring more desperately-needed homes to my neighborhood.

Sincerely,
Ira

To: Pacheco, Maria <mpacheco@cambridgema.gov>
Subject: Mass Ave Danger for Seniors. BZA Case # 017326-2020

I am writing as a spokesperson for many of the residents of the Leonard J Russell senior and disabled apartments at 2050 Mass Ave

I am begging you, before there is a death, that you come look at where it is planned for cars be pulling up for drop offs and pick ups, etc at the proposed 2072 Mass Ave residential entrance.

We have not had one city official respond to our genuine concern.

The area of concern is just after the Walden/Mass Ave intersection and just before our rather blind turn between the Russell Apartments and the North Cambridge Senior Center

No one seems to have considered how our population may be affected due to the relocation of the proposed residential entrance to 2072 Mass Avenue

Many of us already have difficulty driving this stretch of Mass Ave to our own entrance. It comes up very quickly after the intersection. You would very quickly understand if you could take the time to come look BEFORE any design is approved.

When we come through the intersection we have to pull to the right and slow down immediately. This is because our entrance is not far from the corner, is somewhat hidden and complex to negotiate. (Handicapped spaces, bus lane, bus shelter, bikes zooming by, pull ups at our own entrance, including The Ride

Cars coming through this intersection are speeding up as we slow down to look at everything around us to make a safe turn to park at our home

The addition of cars allowed to pull up to the front of Mass Ave is going to make our already hazardous few feet of driving more so. We are North Cambridge senior drivers not young people. Our reactions can be slow

We are afraid one of us will be killed unless someone beside the developer stand up and consider the serious flaw to this plan.

We were not consulted when the entrance was changed. The residents of Russell apartments and the seniors who come to the North Cambridge Senior Center are the population effected by the current plan using Mass Ave as a pull up.

I frame this as a safety issue and the City of Cambridge need consider our very vulnerable population before a "best plan" be approved.

Please, in our urgent desire to add housing pause so that Cambridge authorities don't neglect our safety

I am getting very tired of the lack of response and sense of urgency by this city we all love so much. It is that we care for all people that makes us special

Please don't sacrifice us because you didn't bother to look

Sincerely,

Margaret Rueter
2050 Mass Ave

Dear Maria,

Attached please find two important submissions to the BZA for the special hearing this Thursday, January 7 on the 2072 Mass Ave development:

- 1) Briefing Document for BZA members prepared by North Walden Neighbors - also delivered in hard copy today to your office.
- 2) Letter to BZA from me as an individual citizen.

We would appreciate your help in ensuring that these documents reach both the BZA members and the general public.

many thanks,
Lisa Dreier

Bruner/Cobb
HRE

2072 MASS AVE
PAGE 42 DECEMBER 1, 2020

The above rendering of the proposed 2072 Mass Ave development was prepared by Capstone Communities. We believe it does not accurately represent the true height of the building:

- The proposed 9-story 2072 Mass Ave building is 9-stories, 102 feet in height
- Russell Apartment building (abutting brick building) is 57.6 feet in height
- 1-story block on Mass Ave directly west of 2072 Mass Ave is 12-13 feet in height
- AHO height maximum is 6-stories (70 feet)

Even as shown, the rendering highlights the **massive out of context scale** of the building to the neighborhood.

North Walden Neighbors | Voices from the Community

I am strongly opposed to the design currently proposed. The 9-story tower is **completely inappropriate to the neighborhood**. A new project at that site should fit into the surroundings at a maximum height of 5-6 stories, with setbacks, green space and reasonable density.

Resident, 300 feet from 2072 Mass Ave
BZA Submission, 12/31/2020

I own and live in one of the units across the street and am **very upset about this proposal - especially the building's height and size** and its potential impact on the already difficult situation we have with traffic.

Resident close to 2072 Mass Ave

The people **most negatively affected by this project will be the senior and disabled affordable-housing residents next door** in Russell Apartments. Many of us are afraid to speak out for fear of jeopardizing our housing. However, we strongly oppose the current design which will negatively affect our safety, privacy and quality of life.

Margaret Rueter, Russell Apartments (abutter to 2072 Mass Ave)

One of the most telling factors is the request for 18 zoning variances. The recently-enacted AHO aims to expand affordable housing at scales intended to stretch, but not destroy, neighborhood character and streetscapes. This project should be held to those standards. **There is also the precedent that it will set for future projects in the area.**

James Mahoney, 234A Walden St
BZA Submission, 12/31/2020

I am shocked that the Board of Zoning Appeal would even consider this proposal since it **breaks 18 zoning laws**. Send this project back and wait until you receive a development proposal for this site that respects the neighborhood and complies with Cambridge's zoning laws.

Janet B. Barker, Regent Street
BZA Submission, 1/2/2021

The proposed development at 2072 Mass Ave is **so out of scale and inappropriate on so many levels - height, density, parking issues, traffic issues, etc.** – it's *unfathomable* how it has gotten this far. Everyone wants affordable housing. We just want it done RIGHT.

William Bloomstein, Cambridge Resident
BZA Submission, 1/2/2021

Though I believe in affordable housing, **the proposed project goes way overboard**. There seems to be little care or concern for how this enormous building will fit into the neighborhood. The concept of acknowledging a neighborhood is not even there. I resent the way that large developers are allowed to run roughshod without care.

Nicola Williams, Harvard Squarer Neighbors Association

Executive Summary

The information in this packet highlights the following:

- **Strong community opposition** to the project as currently designed, based on over 350 Cambridge-based petition signatures (including multiple abutters); over 75 local-neighborhood and abutter signatures on a detailed description of local objectives and preferences for this site; numerous op-eds and letters to local media; and a high volume of public comment opposing the project in both Planning Board and BZA meetings.
- **Extreme departure from local zoning laws**, including base zoning laws and the recently-passed AHO, setting an **alarming precedent** for future rule-breaking developments of this scale along Mass Ave; **recommendation for a building design that is 6-stories facing Mass Ave, stepping down to 3-stories in the rear.**
- Strong concerns about **disproportionate impacts on vulnerable abutters** residing at Russell Apartments senior and disabled affordable-housing complex, who largely oppose the project.
- Continued **concern about traffic and safety impacts** which to date have been ignored and dismissed by City Officials. Community concerns about congestion and safety at the Mass Ave / Walden St intersection have been raised for over a decade, most recently at a February 2020 public meeting, but were dismissed and overlooked in relation to this project.
- **Procedural violations and non-compliance** of the developers' permit application process to date, including inadequate public notice and consultation; incomplete and late submission of required documentation to both the Planning Board and BZA; and lack of any compliance review or enforcement process by the City Department of Inspectional Services to identify non-compliant permit applications presented in **flagrant violation of procedural rules.**

Cambridge can do better on affordable housing

By **Dennis Carlone**

Wednesday, December 30, 2020

The Covid-19 pandemic has exacerbated the economic inequality and housing insecurity that were already plaguing the city of Cambridge. But instead of mobilizing a comprehensive response to the long-term needs for affordable housing, city authorities are being pressured to cut corners and support poorly designed quick fixes.

A proposed new affordable-housing development at [2072 Massachusetts Ave.](#), near Porter Square, has become a lightning-rod for local debate that spotlights the larger issues.

Affordable-housing advocates, including [some of my colleagues](#) on the City Council, say the urgent needs for affordable housing justify the building's nine-story (102-foot) height, and the proximity to public transport outweighs its placement on a busy, congested intersection. They urge immediate approval of 18 zoning variances to advance the project.

Neighborhood residents [oppose](#) the current design, arguing that its excessive size (more than twice the height and four times the density of base zoning laws for the location) will exacerbate traffic and safety problems and hurt abutters, including the senior and disabled affordable-housing residents next door. They are calling for a reduction in building height and a full project review, including a traffic impact study.

Based on decades of award-winning urban design work in Cambridge, I believe the project design has serious flaws. Affordable housing should blend seamlessly into its neighborhood, but this nine-story metal tower will appear alien and out of context in a historic neighborhood characterized by low-slung brick and wood buildings, 98 percent of which are six stories or less. Built on a small corner lot with no setbacks, it has more than three times the density of other nearby affordable housing projects. With no setbacks or at-grade green space, and only one elevator for up to 200 residents, it has significant design shortcomings. The proposed height qualifies the building as a high-rise, triggering regulations that will increase costs by approximately 30 percent per square foot, a questionable use of taxpayer funds.

Just as troubling, it appears the developers are trying to sidestep city zoning regulations and procedural requirements in the rush to secure a comprehensive permit with minimal review. After years of debate, Cambridge recently adopted an Affordable Housing Overlay, which limits projects such as this to six stories (70 feet) with the goal that they respect their neighborhood context. The developers are instead seeking a comprehensive permit through the State of Massachusetts Affordable Housing Law (40B), requesting 18 zoning variances, including height limits and project review. City and state funds will pay for the \$3.6 million site acquisition, the still-undeclared building costs, site improvements such as street widening and the developer's fee – at a total cost to taxpayers that may reach \$30 million.

Debate over the project has intensified in the lead-up to a Jan. 7 hearing of the Board of Zoning Appeals. The conflict is driven, in part, by a lack of planning and shortage of affordable-housing sites, which creates an incentive to overbuild when scarce centrally located lots become available. The practice of “upzoning” – rewriting zoning laws to build unusually large buildings, as is proposed in this case through a comprehensive permit – sets a worrying precedent for future developments and weakens our regulatory frameworks.

It didn't have to be this way. A citywide master plan for increasing the stock of affordable housing, using existing city-owned properties and new sites it acquires, would create a pipeline of well-sited, well-designed affordable housing units. The “Envision Cambridge” process [set a target](#) of developing 3,175 affordable units by 2030, which would require building more than 300 units per year. But the city lacks an implementation strategy to meet this goal. Our current affordable-housing budget covers the building of only 52 units per year – and even that is underutilized (in 2019, zero units were completed). A systematic effort is needed to identify and acquire building sites, then finance their development. This could be accomplished through strong leadership by the council, with the establishment of a special trust managed by a public entity such as the Cambridge Redevelopment Authority.

Escaping from the current cycle of unplanned development, out-of-context building and regulatory corner-cutting requires strong political leadership and a determined, systematic approach.

It also requires a new mindset. We do not have to choose between good urban/neighborhood design and affordability – we can and must demand both. Families living in affordable housing deserve to live in buildings that are designed for safety, sustainability and quality of life while contributing to the economic and social fabric of their neighborhoods.

The BZA is now the last line of defense in determining whether and how to modify the design of the 2072 Mass Ave development. It is also at the forefront of defining Massachusetts Avenue's future – one of towering high rises, or human-scale development designed for affordability and inclusion.

Dennis Carlone has served on the City Council since 2014 and has worked as an architect and urban designer in Cambridge for more than 45 years.

Key Facts | 2072 Mass Ave Proposed Development

SCALE AND DENSITY CONSIDERATIONS

- If built, the proposed building at **102 foot, 9 story (6 stories step down to Walden) building** will be one of the highest buildings in North Cambridge. **This building is out of context with the surrounding buildings** – 44 feet taller than the abutting Russell Apartments Building; 34 feet higher than the Henderson Building across the street; 90 feet higher than the 1-story shops on Mass Ave; towering over the Walden Street homes of 2-3 stories.
- **The proposed building is significantly higher than Cambridge's recently enacted Affordable Housing Overlay, which has allowable maximum height of 6 stories (70 feet)** and encourages Affordable Housing structures which relate to the neighborhood context. The proposed building is more than twice the height and four times the density of base zoning laws for the location.
- A census of building heights along the 2.3 mile stretch of Mass Ave from Harvard Square (Cambridge St intersection) to Arlington (Alewife Pkwy intersection) illustrates that the building design does not fit the neighborhood context:
 - **Out of 195 structures fronting Mass Ave, only four (2%) are 7 stories or more. 98% of the buildings are 6 stories or less.**
 - Those four tall buildings include one 7-story, two 8-story, and one 9-story building, all constructed 40-50 years ago. None of them are located on a busy intersection. With respect to lot size, the 8-story building at 2130 Mass Ave is on a 40,000-square-foot lot which includes green space, parking and setbacks; as compared to the 8,515 square foot lot of the proposed building at 2072 Mass Ave. with no ground green space, minimal parking, and no setbacks.
 - **The most prevalent building height along Mass Ave west of Harvard Square is 3-stories (38%) followed by 1-story (27%) and 4-stories (14%).**
 - The proposed building frontage will have more footage running along Walden Street vs. Mass Ave. Two- to three-story residential homes mostly comprise Walden Street.

SAFETY, TRAFFIC & PARKING CONSIDERATIONS

- This project is **nearly 3 times the threshold for Project Review** (~58,000 sq. ft. vs. the threshold for Project Review of 20,000 sq. ft.). The developers are asking for Project Review to be waived (waiver of Article 19), and The Cambridge Planning Board did not recommend a Project Review (which also would include a Traffic Impact study), even though this proposal far exceeds the threshold.
- This project sits directly next to a dangerous and congested intersection: Mass Ave and Walden Street. **Complaints about congestion and safety have been raised by residents for over a decade** and logged into the City of Cambridge's traffic department consistently from 2016 through 2020. The traffic department hosted a community meeting in February 2020 to discuss the serious safety and traffic concerns due to congestion and gridlock. There has been no scientific study of the impact that the proposed building will have on future traffic conditions including pick-ups, drop-offs, deliveries, foot and bicycle traffic from the 150 to 200 potential new residents. There has been no site visit by the Cambridge traffic department prior to the recommendation letter from Joe Barr.
- **The proposed building will house between 150 to 200 residents. There will be only one elevator to service all the residents of the building.**
- The proposed building will have **virtually no parking**, only 2 drop off / pick up parking spaces, and 3 restricted spaces for 150 to 200 new residents.
- This project has **more than 3 times the density** as measured by Floor Area Ratio (FAR) of the other 4 affordable housing projects within a 1/2 mile radius of Porter Square (6.7 FAR vs. 2.1 FAR).

- This project directly abuts an affordable housing residence, Russell Apartments, which houses a vulnerable population of seniors and people with disabilities. The abutting building also houses the North Cambridge Senior Center. The proposed 2072 Mass Ave building, if built, will sit just **4 feet away from the Russell building**. Not only will 9-story construction likely be much more disruptive than a 6-story building in terms of noise, dust, structural damage, etc., but the proposed structure will result in permanent and significant loss of light and privacy for this vulnerable community.

COST CONSIDERATIONS

- The cost of this project will be **100% taxpayer-funded** through city and state funds and is estimated to be approximately **\$30 million** (total cost of site, construction, road widening and developer's fee). This level of public funding should be carefully invested in a way that benefits the community for the long term.
- At 9 stories, the building qualifies as a "high-rise" which triggers additional regulatory requirements and **raises the cost of floors over 6 stories by 30%**.

PROCEDURAL VIOLATIONS

- Public communication and consultation in advance of the Planning Board meeting was inadequate. Plans were shared publicly only 10 weeks before the Planning Board meeting, then abruptly changed from an 8-stories-across building to a 9-story / 6-story design. This change was inadequately communicated to the general public and city officials, resulting in evident confusion by Planning Board members during their review discussion.
- Public communication and consultation in advance of both BZA hearings has been inadequate. As of January 3, the public signage at 2072 Mass Ave still describes an 8-story building and provides incorrect information on BZA hearing registration. The developers declined to provide public information about their revised designs until after the Jan 4 deadline for public comment on the Jan 7 BZA hearing.
- The developer's Comprehensive Permit application under rule 40(B) was incomplete when submitted to the BZA, and the Project Eligibility Letter was submitted shortly before the BZA meeting, in violation of 40(B) and city rules.
- The Cambridge Department of Inspectional Services confirmed that it does not have any compliance review or enforcement process to identify or respond to the procedural violations in the developers' permit application.

CONTRIBUTION TO AFFORDABLE HOUSING NEEDS

- The 2072 Mass Ave building, as currently proposed, would allocate **only 8 of its 49 apartments to the neediest families** (those earning 30% of the Area Median Income or AMI). The remaining 41 apartments will be available to families earning 60% of AMI, which is the highest income level qualified as affordable housing.

Community Objectives Letter | 2072 Mass Ave Proposed Development

To the Cambridge Board of Zoning Appeal:

We, the undersigned, all Cambridge residents who live in very close proximity to the intersection of Mass. Ave. and Walden Street, are writing to you in regard to the Proposed Development of 2072 Mass. Ave. CASE NO. BZA-017326-2020.

We strongly oppose the current design.

The signatories to this letter represent a broad coalition with residents on Walden Street and connecting streets of Mead, Cogswell, King, Sycamore and Cypress; Creighton Street; Orchard Street; and the Russell Apartments. We are long-term neighborhood residents, homeowners, and affordable housing residents.

We welcome affordable housing in our community.

We are supportive of the 2072 Mass Ave site being developed for affordable housing and applaud the mission of developers who build affordable housing in Cambridge. There is an urgent need in Cambridge for affordable housing and we are committed to further this mission.

But the project is fundamentally flawed.

SIZE: We have significant concerns about the height, density, and footprint of the proposed building, particularly in light of the small lot size (8,514 square feet), the lack of setback, the community context, and the dangerous, congested intersection that is the corner on which this site is located. The building, at 9 stories and 102 feet, is dramatically out of scale given the lot size and context of the neighboring structures (44 feet higher than the abutting Russell Apartments; and towering over the 2-3 story homes on Walden Street).

TRAFFIC & PARKING: We have experienced, especially pre-pandemic, safety issues that exist for pedestrians, bicyclists, and vehicles at this corner and in the surrounding streets. The City is well aware of these issues, having hosted a community meeting in February 2020 to listen to neighborhood concerns during which the City voiced a commitment to solve these issues. The City traffic department staff has admitted to not visiting the site and has not availed itself to meet at the site to discuss safety concerns prior to the January 7th hearing. Other conflating factors include drop offs / pick ups / deliveries for the 150 to 200 future residents. This activity will happen both at the residential entrance on Mass Ave as well as behind the building off of Walden creating new traffic patterns. There is a plan to widen Walden leading into the corner, however, there is no scientific evidence that traffic and safety will be improved. There has been no objective, comprehensive study of the actual traffic measures to accommodate this project.

The parking census commissioned by Capstone did not take into account the disproportionate impact on immediately adjacent streets. Per zoning requirements, the developers should provide 1.0 spaces per unit. We are asking for 0.5 spaces per unit to mitigate this impact and believe this can be done through a combination of onsite and nearby offsite options; making it unnecessary to completely waive the zoning requirement.

VULNERABLE ABUTTERS: Finally, and importantly, the proposed building directly abuts Russell Apartments, an affordable housing community of vulnerable residents including seniors and people with disabilities; and also houses the North Cambridge Senior Center. Having this vulnerable population next door creates additional challenges that must be considered to protect the health and well-being of these residents. The City has not incorporated appropriate measures to safeguard one of the area's most precious, valued, and respected City institutions.

We believe these important issues have not been adequately addressed to date, and the community consultation around this project has been incomplete and rushed. As a result, community members have strong concerns and opposition to certain aspects of the project plans which the BZA will continue to discuss at the January 7th public hearing. **We request that the BZA delay approval** to allow sufficient analysis, consultation and co-design of the project to benefit both new residents and the existing neighborhood.

Every great urban project requires careful planning and coordination.

The Objectives section outlines our specific requests. These objectives, once acted upon, will help mitigate the issues related to the proposed development. We look forward to working with the City of Cambridge to ensure that the development is a true win-win for the new residents who will live there, as well as the larger community.

Community Objectives | 2072 Mass Ave Proposed Development

1. SIZE OF BUILDING

Reduce building size

- Reduce Mass Ave-facing height to 6 stories in accordance with the Affordable Housing Overlay provisions for building height and with input from the Project Review conducted under Article 19
- Limit 6-story section of proposed building to not go beyond the depth of Russell building (not to extend past where Russell building ends in the back)
- Reduce the Walden side of the building to 3 stories to reduce impacts on Russell Apartments and other Walden Street neighbors
- Scale back to 6 stories to reduce the damage to surrounding historic and other buildings

Reduce building footprint to allow setbacks and provide green space

- Add setbacks per zoning ordinance: 10' along Walden St and along City parking lot
- Provide detailed professional landscape plan before construction
- Add green space

Change composition of units to serve neediest families

- Increase the percentage of units for the lowest income families from 16% to 25%

2. SAFETY / TRAFFIC / PARKING

Require full compliance with Article 19 of Zoning Ordinance, specifically:

- Project Review Special Permit (19.20): Traffic Impact Review and Urban Design Review

- Citywide Urban Design Objectives (19.30)
 - responsive to the existing or anticipated pattern of development
 - pedestrian and bicycle-friendly, with a positive relationship to its surroundings
 - mitigate adverse environmental impacts of a development upon its neighbors
 - enhance the urban aspects of Cambridge as it has developed historically.
 - Enhancement and expansion of open space amenities in the city
- Development Consultation Procedures (19.40) to provide
 - “the opportunity for City staff and the general public (1) to review and comment on development proposals prior to the formulation of final plans and before the issuance of a building permit and (2) to determine compliance with the zoning requirements” and conduct Large Project Review

Conduct onsite meeting at 2072 Mass Ave with City officials and community to address safety concerns related to Mass Ave residential entrance, and traffic concerns related to drop off, pick ups and deliveries.

Provide at least 0.5 offsite and/or onsite parking spaces per unit

- Mitigate the significant impact on streets in the immediate area
- Provide specifics as to location to be determined by the above requested Traffic Impact Review

3. CONSTRUCTION MITIGATION

Develop a construction mitigation plan with abutters to include:

- On-site rep with cell phone who can respond immediately to resident concerns
- Community liaison and regular communication
- Community review of construction staging and construction schedule
- Provide parking for project workers
- Noise abatement
- Provide air conditioners and air filters for Russell Apartment residents and payment for extra electricity, to shield residents from construction dust and fumes
- No work on weekends
- Compensation plan for any and all damage to surrounding structures
- Compensation for residents who will be moved
- Sound-proofing windows and other sound-proofing mitigation measures as needed for abutting properties
- Third-party safety supervisor
- Conformity to demolition and construction regulations
- No smoking on site
- Plan for rats and rodent control
- Clean site at end of work day

4. COMMUNITY AMENITIES

Provide additional safety measures and neighborhood enhancements to include:

- Traffic calming on Walden St., Mead St., and Cogswell Ave.
- Street improvements for Walden, Cogswell, Sycamore, Cypress, and King: repaving, sidewalk maintenance, trees

- Green median and trees on Mass Ave from Regent to Rindge
- Crosswalk and traffic box at the end of Cogswell and Mass Ave
- Added services for elderly in Russell Apartments and Senior Center
- Improvements to permit parking lot on Walden Street, such as repaving with arable top, gardening plots at borders, stacked wall of solar panels, bike rack, and electric power charging stations

Feedback from Residents of the Leonard J. Russell Apartments Regarding the Proposed Development at 2072 Mass Ave

January 3, 2021

Introduction

- This summary was prepared by a resident of the Russell Apartments, who is the designated liaison representing apartment residents' input on this project.
- Collecting resident feedback was challenging both due to the restrictions imposed by the COVID-19 pandemic; limited English-language proficiency among some residents; and some residents' fear of jeopardizing their housing access by criticizing a project that the CHA has endorsed.
- Despite these challenges, feedback has been collected from over 60% the Russell population via email, phone calls, distribution of printed materials, and limited in-person meetings during the time period of October – December 2020.

Facts about the Russell Community

- The Leonard J. Russell Apartments is an affordable-housing complex administered by the Cambridge Housing Authority (CHA). It is comprised of 51 one-bedroom apartments, located in a 6-story building at 2050 Mass Ave in Cambridge. The building offers laundry, community space and a shared kitchen, a parking lot with 11 spaces, and a shared outdoor terrace. It also houses the North Cambridge Senior Center on its ground floor.
- Russell Apartments are designated for senior and disabled residents in the lowest income bracket. Rent is approximately 30% of their income. Many residents rely heavily on public programs and services including SNAP, Medicaid and Medicare, and The Ride.
- Residents represent a diverse population, including a substantial portion of people of color and many for whom English is a second language. A number of residents are disabled, have limited mobility, or have visual or hearing impairments which affect situational awareness when navigating sidewalks and street crossings.
- Residents had to move out of the building for 2 years during a recent renovation, and reoccupied their apartments starting in March 2019. The prospect of another major disruption due to building construction next door is daunting for many of them.

Concerns about the Proposed Development at 2072 Mass Ave

Nearly half the residents of Russell Apartments (20 out of 51 units) have signed a petition expressing concerns about the 2072 Mass Ave development. Based on resident feedback, the key concerns are summarized below in three main categories including 1) Pedestrian and vehicle safety concerns; 2) Long-term Quality of Life impacts; and 3) Construction Impacts.

1) Pedestrian and vehicle safety on Mass Ave

a) Front-of building vehicle, pedestrian and handicapped access

The block of Mass Ave extending from Russell Apartments past 2072 Mass Ave to Walden Street is already complex and risky for Russell Apartment residents navigating

the building entrance, bus stop and sidewalk on foot, with mobility devices or by car. The addition of pedestrian, bike and vehicle traffic for up to 200 residents of 2072 Mass Ave will make this area significantly more crowded and dangerous for Russell Apartments residents. Specifically,

- **Vehicles** turning into the Russell parking lot will have to cross a bus lane crowded with pickup/dropoff vehicles for the 2072 building, as well as increased bicycle traffic;
- The bus stop, which is heavily used by Russell residents including those with disabilities and mobility devices, will be subject to greater crowding and pedestrian / bicycle traffic on the sidewalk;
- The 2 **handicapped-parking spaces** in front of Russell, which are heavily used by both Russell residents and visitors to the Senior Center, are more likely to be occupied by 2072 residents or illegally used by pickup/dropoff vehicles for the 2072 building.
- Russell residents exiting the building as **pedestrians** will be at greater risk of collision and jostling from increased human activity and traffic around their entrance, the bus stop and the corner of Walden.
- While the developers argue that these safety issues are not significant, the bottom line is that we **need a detailed study** to assess and recommend solutions for these concerns.

b) Walden/Mass Ave intersection impacts

The majority of Russell residents navigate the neighborhood on foot to access essential goods and services. The Walden Street / Mass Ave intersection is already highly congested and unsafe particularly at rush hour, and is risky for anyone traveling by foot, bicycle or vehicle through the intersection. The addition of a large-scale residential building at 2072 Mass Ave will increase the pedestrian, bicycle and vehicle traffic at this highly problematic intersection and will thus increase the safety risks to Russell Residents, as well as other vulnerable abutters including the Day Care facility in the ground floor of the Henderson Building.

2) Long-term Quality of Life impacts

The proposed 9-and-6 story building will tower over the 6-story Russell structure and its back terrace and parking areas. The depth of the proposed building extends 46 feet beyond the back of the Russell building (17 feet at 9 stories, 50% higher than the Russell building; and 29 feet at 6 stories, equal to the Russell building). The distance between the two buildings will be only 4 feet. Expected long-term, continuous impacts on Russell residents will include:

- All Russell residents with west-facing windows will be affected by **shadows, reduction of natural light and obstruction of views**, which can negatively affect mental health and quality of life.
- All Russell residents with west-facing windows will face a **loss of privacy** given the close proximity of the 2072 building's residential windows and roof-garden recreational activity.
- All Russell residents with west-facing windows and walls on the north side of the building will be subjected to **noise** from the 2072 building's residential apartments and roof garden.
- All Russell residents will face the **loss of use and quality of their outdoor terrace**, including gardening and other outdoor activities.

3) Construction Impacts

Construction of the 2072 Mass Ave building is expected to commence in 2022 and take 18-24 months. It will be a difficult and highly unpleasant process for all abutters, but the residents of Russell Apartments will be most highly impacted of any abutter, due to both their proximity to the building and their physiological vulnerabilities which render them more affected by noise and other disturbances. Expected impacts will include:

- Continuous loud **noises** affecting residents' sleep, ability to concentrate, and quality of life
- **Fumes and dust** affecting air quality which may pose a risk for medically fragile residents, particularly if they must keep their windows open due to a lack of AC;
- **Vibrations** from excavation and drilling to create the very deep foundation required for a 9-story high-rise building, also expected to have both physical and psychological effects

Proposed Solutions

1) Inclusive, Size-Appropriate Design

- One of the fundamental flaws of the 2072 building is that it is being undertaken as a separate, disconnected and competing installation compared to the Russell building. Instead the 2072 building design should take a holistic approach, creating a design that works for both the 2072 site and the Russell building and its vulnerable community.
- We believe that a significant **reduction in building size to 6 floors on Mass Ave, with a step-down to 3 floors**, would be more appropriate and complementary to the Russell building and its residents.
- We believe the 6-floor portion building should have the **same depth as the Russell building**, not extending 17 feet beyond it (and 44 feet higher) as currently proposed with the 9-floor design.

2) Construction Mitigation

- Once the building design is finalized, we request a written commitment from the Developers to develop a detailed, mutually agreed **construction mitigation plan**; including establishment of contact points at the construction company and CHA to address concerns that may arise during construction.
- The construction mitigation plan should include agreed provisions to limit noise, dust and fume impacts on Russell residents.
- Russell residents should be provided with in-unit air conditioning prior to the start of construction, so that they can keep their windows closed while construction is underway during warmer months
- Other measures to be determined

We look forward to discussing these concerns with Capstone Communities, the CHA, and sharing them with public authorities reviewing plans for the 2072 Mass Ave Development.

**Written Comment to the Board of Zoning Appeal Regarding
2072 Mass Ave -- CASE NO. BZA-017326-2020**

Dear Members of the Board of Zoning Appeal (BZA)

As a Cambridge native and homeowner who lives one block from the proposed development at 2072 Mass Ave, I am writing to OPPOSE the project as currently designed.

Our neighborhood group, North Walden Neighbors, has submitted materials to the Board including:

1. A BZA Briefing Document (delivered in hard copy and attached electronically to this message) including Objectives and Recommendations for project redesign signed by over 75 close neighbors and abutters; and detailing concerns of 20+ abutters in the Russell Apartments senior and disabled affordable-housing complex, who are an integral part of our group.
2. A petition signed by over 350 Cambridge residents opposing the project (submitted separately)

Through these documents we have clearly stated our concerns about:

- **Excessive size and density:** 9 stories is extremely out of context for the neighborhood and is not what was envisioned or agreed for either base zoning laws or the AHO. The developers are taking advantage of 40(B) to override locally-defined zoning laws. It sets a very worrying precedent that could lead to Mass Ave becoming an a "concrete canyon" of high rises in future. We recommend 6 stories on Mass Ave with a step-down to 3 stories in back to reduce impact on the vulnerable abutters in Russell Apartments and respect the neighborhood context.
- **Unaddressed Traffic and Safety Concerns:** The parking study conducted by the developers did not address pedestrian, bicycle and vehicle TRAFFIC around the Walden/Mass Ave intersection which has been a subject of community concern for over a decade, with public meetings held on the subject as recently as early 2020. We were deeply disappointed that the City DTPT dismissed and overlooked these concerns in signing off on the 2072 Mass Ave project.
- **Procedural violations and shortcuts:** We are concerned that the project has been rushed through public consultation and review processes, often with erroneous or incomplete documentation submitted to public authorities, with no apparent accountability to the rules and procedures laid out for 40(B), Planning Board and BZA hearings.

NEW INFORMATION: BUILDING-HEIGHT CENSUS OF MASS AVE STRUCTURES

Our group conducted a census of building heights along the 2.3-mile stretch of Mass Ave from Harvard Square to Arlington. Key findings include:

- Out of 195 structures on this 2.3-mile stretch of Mass Ave, there are only four buildings (2% of total) which are 7 stories or more, all built 40-50 years ago. NONE of these four are located on a busy intersection. The nearest tall building to #2072, an 8-story brick structure at #2130 Mass Ave that was built in 1981, is placed on a 40,000-foot lot with significant setbacks, greenspace and a large parking lot. These four buildings do not constitute meaningful precedent or context to justify the 9-story height of the proposed building on an 8.515 square foot lot at 2072 Mass Ave.
- 94% of all buildings in this stretch of Mass Ave are 5 stories or less.
- The most prevalent building heights are 3 stories (38%) and one story (27%) followed by four stories (14%).
- The least prevalent building heights are 9 stories (0.5%), 7 stories (0.5%), and 8 stories (1%).
- Only 4% are 6 stories, which remains a rare and significant height in North Cambridge.

We hope this illustrates that the Board's concern about building height and precedent is well-founded. The full data summary is pasted below for your reference.

Thank you for your consideration,
Lisa Dreier, Cogswell Avenue

Mass Ave Building-Height Census

Conducted by North Walden Neighbors on Dec 23, 2020

Notes: Census covers the 2.3-mile stretch of Mass Ave between Cambridge Street (Harvard Square) and Alewife Brook Parkway. "Structures" are defined as buildings evidently built at one time based on one continuous design, regardless of whether they are multi-unit (e.g, a single-family home, a large apartment building, or a long 1-story commercial building housing multiple independent retail shops - any of these would be counted as "one structure")

Building Height (# stories)	# structures	% of total	Address / notes
1	53	27%	
2	18	9%	
3	74	38%	74% of all structures are 3 stories or less
4	28	14%	
5	10	5%	94% of all structures are 5 stories or less
6	8	4%	98% of all structures are 6 stories or less
7	1	0.5%	#1600 Mass Ave, built in 1982
8	2	1%	#1580 (built 1978); #2130 (built 1981)
9	1	0.5%	#2353 Mass Ave (built 1973)
			2% of all structures are 7 stories or more, all constructed 40-50 yrs ago; none on a busy intersection
Total	195	100%

Subject: 2072 Mass Ave

Dear Mr Pacheco and ZBA Board Members:

As a 50-year resident of Cambridge and 25 years in North Cambridge, I urge the Zoning Board of Appeals to approve the project proposed for 2072 Mass. Ave. The presence of an existing 8-story building less than a block away makes the arguments against this building's proposed height baseless. I live half a block from Mass. Ave., and close to an existing 9-story condo building that has NO redeeming public value such as affordable housing clearly does. Cambridge has a huge shortage of affordable housing and subtracting 14 units to make the proposed building shorter than its neighbors makes no sense at all.

Please approve the project as presented!

Subject: Re: Point of Order - 2072 Mass Ave Comprehensive Permit Application

Dear Solicitor Glowa,

To follow up on Assistant Commissioner Sisia's response, I would like to request your legal opinion on the right of the property tax payer to raise a point of order during a City's public hearing such as the Planning Board and Board of Zoning Appeal hearings on 2072 Mass Ave comprehensive permit application.

As I wrote to the city officials after the Planning Board hearing, I could not raise a point of order to challenge the legality of the applicant presenting material that had not been properly submitted. And once again, it appears I can't raise a point of order challenging the standing of the applicant to appear before BZA at the hearing. In the comments I submitted to BZA today, which you should have received a copy of, I have documented all the prerequisites for filing CP application as mandated by [MA Chapter 40B Handbook for Zoning Boards of Appeal](#) that the applicant failed to comply as well as City's apparent failure to comply to the Project Eligibility application procedures. Does "the applicant's due process right to be heard" still apply and override public's right when the applicant does not have a "standing to apply for a comprehensive permit and the ZBA should not grant one" for not "satisf(ing) the regulatory prerequisites" spelled out in the Handbook"?

Thank you for your guidance on this matter. Would greatly appreciate hearing your opinion before the continued hearing on Thursday, 1/7/2021.

Respectfully yours,
Young Kim

Subject: Point of Order - 2072 Mass Ave Comprehensive Permit Application

Dear Assistant Commissioner Sisia,

According to [MA Chapter 40B Handbook for Zoning Boards of Appeal](#), the applicant, CC HRE, does not have "standing to apply for a comprehensive permit and the ZBA should not grant one" for not "satisf(ing) the regulatory prerequisites" spelled out in the Handbook. I will be documenting specific instances of such violations by the applicant as well as by the City in my comments to the Board of Zoning Appeal later today.

Therefore, through you, I would like to raise a point of order to the Board of Zoning Appeal to dismiss the 2072 Mass Ave Comprehensive Permit application without further hearing the case on 1/7/2021. I would greatly appreciate your guidance on how to raise this point of order at the start of the hearing. This will be more crucial if CC HRE does not submit the preliminary development **pro forma**, "a financial analysis of project development costs, anticipated revenues, and the **developer's net financial return**", that they submitted as part of the Project Eligibility Application to the Massachusetts Department of Housing and Community Development dated 10/14/2020 as justification for the 9-story height as requested by BZA. If CC HRE submits a modified plan, they should also submit a modified pro forma with changes from the original clearly identified.

Thank you for your cooperation and I look forward to your guidance.

Respectfully yours,

Young Kim

Subject: 2072 Mass Ave - Public Comment,

To the Board of Zoning Approval,

I am writing to you, as a Porter Square resident, to urge you to approve the affordable housing construction at 2072 Mass Ave without reducing the number of units. Leaving aside the incredibly important issues of the housing crisis and climate change, and the fact that it has been enthusiastically endorsed by several City departments, and received a unanimous recommendation by Planning Board, I think a 9 story building on Mass Ave would be an excellent addition to the Neighborhood! Certainly a far better use of this prime location than a former taco bell drive-thru.

Sincerely,
Camilla Elvis

Sent: Monday, January 4, 2021 2:21 PM
To: Pacheco, Maria <mpacheco@cambridgema.gov>
Subject: BZA Testimony for 2072 Mass Ave.

Dear Members of the BZA,

My name is Elaine DeRosa, I live at 4 Pleasant Place.

I am writing in support of the development of 49 urgently needed and fully affordable homes at 2072 Mass Ave. This development responds to the critical need for affordable housing in Cambridge that has been documented in every local, regional and national study. The Cambridge City Council continues to prioritize the crisis of the lack of affordable housing in Cambridge. The Cambridge Planning Board has also approved this development unanimously. This project meets all city priorities and can provide housing for some of the thousands of households on the Cambridge Housing Authority waiting list for housing.

The city's recent 2020 Resident Survey also ranked affordable housing number one out of 15 issues for Cambridge. Development and density were ranked 14th out of 15. The survey also asked what would be the 2-3 issues you would recommend the city to address, affordable housing was cited again as number one.

Having this building on Mass Ave, a major corridor, with access to public transportation, is an ideal location for the development as most housing development studies recommend. The development would provide for larger family units for which under-housed families are desperate.

The issue of precedent has been raised if this building is approved. Right now the precedent before the Cambridge community is that households are trading food for rent and still many people will lose their homes before this pandemic is over. This is the precedent about which the Board should be concerned, you see a building, and those who fear displacement/eviction once the moratoriums expire, see potential homes to shelter them from the impacts of the pandemic. Trading 14 homes for height is not a moral option given the need before us. People are already sacrificing.

I urge you to approve this project. Thank you.

Re: 2072 Massachusetts Avenue Comprehensive Permit—CASE NO. BZA-017326-2020

Dear Members of the Zoning Board,

I write to you on behalf of the 5 Walden Street Condominium Association to voice concern about the height of the proposed development at 2072 Massachusetts Avenue where it meets the low-lying surroundings of Walden Street. We are direct abutters to the development site, located immediately across Walden. We strongly urge the Zoning Board to require, as a condition of approval, that the height of this rear step-down be reduced from six to five stories, while maintaining the nine stories on Mass Ave.

The modest reduction of height from six to five stories will create the best urban environment for direct abutters, the surrounding neighborhood, and all those who travel Walden on a daily basis. Only marginally more expensive on a per unit basis, this compromise will maintain the ambitious criteria of the base scheme: high unit density (a reduction of only two units), construction of a high-quality sustainable building, and much-needed improvements to Walden Street. The project team will not pursue a 9/5-story scheme unless the Zoning Board requires it as a condition of approval.

Our productive dialogue with the project team and neighbors over the past several months suggests that a 9/5-story scheme is the best and most feasible compromise. Although we disagree with our neighbors who call for a much smaller building, they agree that any reduction in height should prioritize lowering the rear step-down. The alternate 8/6 scheme offered by the project team in direct response to the Zoning Board comments does not satisfy direct abutters or our neighbors. Furthermore, the height adjacent to Russell apartments is partially *raised* to 7-stories with the additional unit at the rear.

Our earlier (12/7/20) written comments remain valid: where the project abruptly meets the surrounding low-lying residential buildings and narrow public way of Walden Street it will negatively impact the transition to and from Mass Ave, both at ground level and from a distance. We again refer you to the attached cross sections (figs. 1 & 2) that describe the relationship between existing and proposed heights and their relationship to the street.

As those who will be substantially impacted by this project, we want a high-quality sustainable building that improves its surroundings and provides urgently needed units of affordable housing. The project team has demonstrated they are creative and capable of fulfilling this goal. By requiring them to lower the rear portion of the building to 5 stories, you will help them reach a praiseworthy compromise and produce the best project for the greatest number of people.

Sincerely,

Subject: Affordable Housing in Porter Square

As a Porter Square resident I strongly support replacing the ugly, under-utilized lot at 2072 Mass Ave with the proposed Green, affordable housing, building. The scale of the proposed building is in keeping with other Mass Ave buildings nearby, and will be a positive improvement to the neighborhood.

Yours,
Martin Elvis

Subject: 2072 Massachusetts Avenue

Dear ZBA Members:

Thank you for delaying a decision on the referenced project at your last hearing. It was good to hear some reasoned thinking about the height and density of the building which is far greater than even the new zoning for the specific use of the building allows.

This note is to object to the proposed 2072 Mass Ave project as it stands right now and to point out representations to the Board by the Developers that are not true.

My objections to the project are

- the request for so many variances without public process, the developers have said they have had many meetings with the City about this but those, with the exception of two, have been behind closed doors.
- the unprecedented height without any regard to the neighboring buildings or the tiny footprint which exacerbates the height as there is not sufficient area for setbacks.
- the density which far exceeds the FAR for the base zoning in the area
- The project's rushed filing with the City so that it could be filed under 40B regulations just prior to the City's adoption of the Affordable Housing Overlay zoning.
- Their parking study, not a traffic study, which was conducted last summer with no apparent attempt to find out if the parking had been impacted by changes in habits and habitation due to the Covid-19 pandemic. As a resident in this area for 35 years, I can assure you have been many more empty parking spaces since the spring of 2020.

The developers have frequently referenced their unprecedented public process as well. This has not been evident.

I live on Sycamore Street, the first street off Walden closest to the project. Prior to the ZBA meeting, I had been informed of two meetings with the community. The first was at the end of September and I am sure was called so that they could say in their application that they had met with the public.

There has not been very much engagement with the neighbors. The responses to the questions raised were easily glossed over given the zoom format with questions submitted in writing. There was no chance to follow up when a question was misunderstood or an answer deliberately dismissive of the question. The public engagement for such a project has been inadequate.

Dennis Carlone's op ed laid out more clearly than I most of the concerns that I have for this building and site, I hope you have read it.

I hope you will insist the developers at least adhere to the process laid out in the Cambridge Zoning Code so that the concerning aspects of the design can be studied resulting in a final design that is compatible with the zoning, the neighborhood and provides safety and livability for the residents and their neighbors.

Sincerely,
Jean Hermann

Subject: 2072 Mass Ave - Comment

Dear Ms. Pacheco & Board of Zoning Appeals --

I am writing to express support for the affordable housing project at 2072 Mass Ave. I grew up within a quarter/half-mile of the project at 117 Rindge Ave and 49 Sacramento St, and I own a house at 23A Kelly Road. I have always felt that Mass Ave falls short of its potential as a more vital community corridor, and I believe that the portion of Mass Ave surrounding Porter Sq is suitable for taller development as proposed, particularly because a similar sized building is located closeby. Additionally, I'm sure many will make the case at the significant need for affordable housing to be built, and not just in concentrated locations, but ideally in places surrounded by economic vitality and opportunity. I support the development as proposed.

Thank you.

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020 - Jan 7 Hearing

To the members of the Board of Zoning Appeal:

Please see these bullet points below that include new information regarding a **census of building structures and their heights** along the 2.3 mile stretch of Mass Ave from Harvard Square (Cambridge St intersection) to Arlington (Rte 16 / Mass Ave intersection).

- Out of 195 structures fronting Mass Ave, **98% of the buildings are 6 stories or less.**
- Only 4 structures (2%) are 7 stories or more.
- The most prevalent building height along Mass Ave west of Harvard Square is 3-stories (38%) followed by 1-story (27%) and 4-stories (14%).

These data illustrate that the proposed 2072 Mass Ave building design not only **does not fit the neighborhood in the context of Walden Street and its 2- to 3-story homes**, but is also a **massive outlier for Mass Ave in North Cambridge**.

Please note: The 4 structures greater than 6 stories were built 40-50 years ago, and none are on a busy intersection.

Please note: There is more building footage frontage along Walden Street than there is along Mass Ave.

Also please see the attached elevation rendering that shows the massively out of scale context of the proposed 2072 Mass Ave building.

Thank you for your attention to these data,

Susan Frankle

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To the Board of Zoning Appeal,

We live 1 block from the 2072 Mass Ave. site and have been there for 27 years.

We strongly oppose the proposed development at 2072 Mass Ave.

There are many red flags:

- **Red flag** - 18 waivers for zoning relief
- **Red flag** - 9-stories, 102 feet
- **Red flag** - only one elevator for 150-200 residents
- **Red flag** - virtually no parking; only 3 restricted on-site parking spaces
- **Red flag** - more than 3x the density of other Porter Sq. affordable housing
- **Red flag** - no ground level green space; no setbacks
- **Red flag** - negative impact to light and privacy to the seniors in affordable housing who live right next door

Please use the **height maximums from the recently-enacted AHO** (6 stories, 70 feet) to guide what should be allowed to be built at the site.

Please listen to the voices from the immediate neighborhood. There is a groundswell of opposition, many of those live very close to the site (**350+ petition signers** object to the size and have safety concerns regarding the intersection). We want there to be affordable housing, but feel the developers dismiss all the neighbors' concerns and have not provided for the safety considerations, density issues, parking concerns, and neighborhood vitality that need to be addressed.

Please don't let these developers set a **dangerous precedent** that will define the future of North Cambridge.

What we advocate for is reasonable. A 6-story building that steps down to meet the neighborhood. What we ask for is for zoning laws to be upheld.

If the developers cannot make a 6-story building financially viable, then it's clear this is not the right site and these are not the right developers. They are trying to do too much on a small 8,500 square foot lot.

Please use the AHO as THE guideline to protect the residents of North Cambridge.

**Sincerely,
Lou Soltys and Christopher Morse
26 Creighton St, Cambridge**

Subject: 2072 Mass Ave Case no. BZA 017326-2020

- **RE: 2072 Mass Ave CASE NO. BZA-017326-2020**
 - I oppose the proposed development at 2072 Mass Ave. as is for the following reasons:
 - 1. **Setting reckless precedents for violating required limits of two different city ordinances**

17 waivers of these requirements (many major regulations, such as Large Project Review) are part of this proposal. That is untenable and unacceptable and a betrayal of civic process.

The scale and scope are horrific in this context and all along North Mass Ave. The developers argue that there are nearby comparable buildings. The study exposed by the North Walden group shows otherwise. In addition, please do not ignore that the only building somewhat comparable in height was so outrageous that it triggered the existing Overlay District Zoning.

The set requirements for height, set backs, FAR and other regulations were stretched to accommodate affordable housing needs, but the developers chose to skip this AHO procedure

and limitations. Even so, they ignore several of the most basic requirements.

2. **Setting precedents for violations and skirting of various requirements of the Chapter 40B application.**

These have been described in the North Walden Neighbors' Presentation to the BZA, January 4, so I point to one particular discrepancy and misrepresentation that is key to the spirit of any housing equity project, and part of the Chapter 40B petition requirements, as well as any AHO proposed project.

Community involvement

The developers claim repeatedly to have engaged in a robust community process and have been responsive to neighborhood feedback and concerns. That robust process consisted in many months with city departments, behind closed doors. Neither CDD nor developers reached out to the community during the planning phase. The developers responded to one abutter who they contacted in August, ignoring more than 350 abutters and neighbors who hadn't been contacted until september 29 or later.

Since then, neighbors have repeatedly reached out to the developers to join neighborhood meetings and have attended zoom meetings with the developer. The plan was in final stages and the developers *were not responsive* to our significant suggestions on height, set backs and major safety issues from our groups of neighbors, except for one neighbor who got height reduction on his side in exchange for height increase on the other sides. The developers were asked to meet once again with a neighborhood group before the January BZA meeting to

present their new changes, but declined. Public money is fronting this project. The public most affected should be part of the design team.

3. Safety

According to the Vision Zero website, the city promises to:
“Ensure equity in Vision Zero: The City will ensure all Vision Zero efforts promote equity and inclusiveness and protect people of all ages and abilities, paying particular attention to vulnerable and underserved populations.

Use Data to Direct Efforts and Measure our Progress: The City will develop metrics to guide decision-making, measure progress on Vision Zero activities and share successes and challenges in a transparent way.”

Not only have neighbors been advocating for increased safety measures for years, as outlined in the North Walden Neighbors' presentation, but existing crash reports for the past 5 years have shown Walden Street, a feeder into Mass Avenue near a very busy square, to be particularly problematic: 92 crashes reported in 5 years, not counting crashes on Mass Ave!

“Intersections are where people walking, biking, and driving interact most. Making these locations as safe as possible is a key element of our Vision Zero commitment,” said Joseph Barr, Cambridge’s Director of Traffic, Parking, and Transportation, quoted in the national organization of traffic engineers. And yet, this organization's own standards and priorities were ignored in this case. “NACTO’s new intersection design guidance gives cities like Cambridge direction on how to approach some of the most complex pieces of our street networks and make the best use of the space on our streets.”

Therefore, a widening of the street is NOT a viable measure as I understand the NACTO recommendations.

Please deny this application!

I want to end by thanking the board members for remaining bequitable and rigorous in their decisions despite significant political pressure to accept this application.

Costanza Eggers

A neighbor three blocks away, longtime activist for social equity and supporter of fair housing.

To: mpacheco@cambridgema.gov

To the Board of Zoning Appeal:

I am concerned about the current proposed development at 2072 Mass Ave. for many reasons. **The most important reason is that it is a racist development that disenfranchises those who do not have easy access to capital. Why did the city not find a minority-owned development company? The developer is a white cisgender male who lives in the wealthy suburban community of Newton. His life experiences do not match those of the buildings' proposed residents and directly disenfranchises local minority-owned developers which is a disgrace to our community and our taxpayers.**

As a taxpayer, I expect a response to my comments!

As a graduate of the Cambridge Public Schools, I wanted to make sure it was understood that there is a school bus stop right there at Walden and Mass Ave exactly where the project is slated to be built. I waited at that stop for 8 years when I took the bus to King Open. I wonder if CPS school transportation has been consulted about this development in terms of the safety of children. I have walked my kids and waited at that stop with my kids for years... it is a dangerous intersection only to be made more dangerous with this project. Has there been any communication with CPS transportation?

I am concerned about the size, lack of setbacks, and location at a dangerous, congested intersection. I am also concerned about the well-being of the vulnerable seniors and people with disabilities who reside at Russell Apartments and are direct abutters.

I greatly appreciate that you, the members of the BZA, voiced concerns about the height of the 9-story building and asked the developers to reduce the building height. I also appreciate that you asked for clarification of their financials.

I would like to see a 6-story building that does not extend beyond the Russell building (either in height or depth), and then drops to a 3-story building in the rear.

Also, sadly it is obvious that the needs of proposed building residents have not been considered. There is limited parking and only one elevator for 200 people. That is crazy. If this building were really about helping those who need it, the plan wouldn't forget about their needs for elevators and cars.

I plan to attend the January 7 hearing to voice my concerns.

Lastly, has a voucher program ever been considered to help ameliorate the need for public housing? Due to the pandemic, and decreased tenants brought to the city by our academic institutions, there is an unprecedented number of vacant rentals, and landlords (many who live in Cambridge as well), without income.

In summary, my questions:

- 1) Has CPS transportation department been consulted?
- 2) Has a voucher program been considered - perhaps this second question is out of the purview of the Zoning Board of Appeal.

Thank you.

Sincerely,
Zev Shapiro

Subject: Point of Order - 2072 Mass Ave Comprehensive Permit Application

Dear Assistant Commissioner Sisia,

According to [MA Chapter 40B Handbook for Zoning Boards of Appeal](#), the applicant, CC HRE, does not have "standing to apply for a comprehensive permit and the ZBA should not grant one" for not "satisf(ing) the regulatory prerequisites" spelled out in the Handbook. I will be documenting specific instances of such violations by the applicant as well as by the City in my comments to the Board of Zoning Appeal later today.

Therefore, through you, I would like to raise a point of order to the Board of Zoning Appeal to dismiss the 2072 Mass Ave Comprehensive Permit application without further hearing the case on 1/7/2021. I would greatly appreciate your guidance on how to raise this point of order at the start of the hearing. This will be more crucial if CC HRE does not submit the preliminary development pro forma, "a financial analysis of project development costs, anticipated revenues, and the developer's net financial return", that they submitted as part of the Project Eligibility Application to the Massachusetts Department of Housing and Community Development dated 10/14/2020 as justification for the 9-story height as requested by BZA. If CC HRE submits a modified plan, they should also submit a modified pro forma with changes from the original clearly identified.

Thank you for your cooperation and I look forward to your guidance.
Respectfully yours,
Young Kim

Subject: BZA Public Hearing Format? - January 7 Special Meeting - 2072 Mass Ave.

December 31, 2020

To: Maria Pacheco, Board of Zoning Appeals
Cc: Ranjit, ISD (BZA)

Hi Maria, As I believe you must know, the BZA Rules (posted) require that everyone provide their *home address* when giving public testimony. This was overlooked at the last public hearing on the 2072 Mass Ave. application.

Could we be assured that this requirement will be honored at the hearing on January 7? Would you please share this email and request with Gus, Brendan, and remaining Board members?

In addition to its being a *published rule for BZA Hearings*, I firmly believe we are all entitled to know where people actually live when giving public testimony about matters in Cambridge.

Thanks.

Section 6. Rules of Procedure at Public Hearings

[...] **Every person appearing before the Board or submitting a statement in writing must identify himself for the record by full name and current residential address.**

<https://www.cambridgema.gov/-/media/Files/inspectionalservicesdepartment/BZA/bzarulesofpracticeandprocedure.pdf>

Also, as you may know, the last meeting was a catastrophe in several respects.

I'm not in favor of letting politicians (a/k/a, "elected officials") "jump the queue" when others are waiting to give testimony. But if this must be allowed, could we limit the time permitted? Marjorie Decker was allowed to opine at great length at the start of the hearing, unfairly to everyone else waiting to testify.

Later on, after this, and then the customary "three minutes" for others, still others who

had been waiting to make comments were summarily reduced in an impromptu manner by Jim Monteverde (no doubt trying to do his best under difficult circumstances) to a "one minute" allowance. This was obviously unfair - and I believe unnecessary - discriminating against those who just happened to be later in the queue. This can and should be avoided on, in my opinion, on January 7 by limiting "speeches" by politicians, and holding everyone to a reasonable time allowance, announced - for all equally - at the start of the meeting.

Hopefully the fact that this is a "special meeting" (if it is not cancelled or postponed) will allow everyone interested in providing testimony a reasonable opportunity to be heard.

Thanks. I would appreciate your sharing this with the Chair and Vice Chair, especially, and letting me know what response they may have.

Happy New Year - hopefully - to all of us!

Sincerely, James Williamson

Ahead of the Jan. 7 meeting, I wanted to send this image of the project to the BZA members. **It's a rendering of the building that the developers and their architect rarely show.**

I am an abutter. I am for affordable housing but think this building is pretty clearly out of scale and too big for the site. I believe it sets a precedent that permits many more buildings at this height.

I would like to register my support for this project. I believe this is very well located as a transit dependent affordable housing project.

I would however like the Cambridge BZA to exercise whatever authority it has to make this a more livable project for the residents.

For example, I am concerned to hear it will have only one elevator.

As it is a for-profit developer I am concerned that the need to profit from the project rather than creating quality livable housing for the residents will take precedence.

Also, if there are design amendments that improve things for abutters, particularly for the adjacent senior housing, I would approve of those as long as they do not lead to making the project unbuildable.

Subject: Written Comment: CASE No. BZA-017326-2020 - 2072 Mass. Ave. ("Comprehensive Permit")

January 3, 2020

Re: CASE No. BZA-017326-2020 - 2072 Mass. Ave. ("Comprehensive Permit")

Dear Chairman Constantine, Vice-Chairman Sullivan,
and Members of the Board:

I suspect you are facing a tough decision this Thursday night, struggling to balance the obvious need for affordable housing in Metropolitan Boston with good design, reasonable scale, and the stated needs and interests of numerous neighbors here in Cambridge, including, importantly, *the residents of existing affordable elderly housing at the Russell Apartments* (whose very modest rear patio, absent suitable adjustments to the proponents' plan, will be put in shadow by this project on otherwise lovely summer afternoons. [Thanks, "supporters" of affordable housing...])

In my nearly fifty years of living in Cambridge, I can't remember a single developer ever having had the *chutzpah* to offer as a purported "compromise" increasing the already egregious height of a building from 8 stories to an even more egregious 9! (Wow; that's a "stretch," as they say...)

Since when is responsible, intelligent, and artful "urban form" something we just toss out the window, because a for-profit developer can slap the evidently "magical" words "affordable housing" on their gargantuan, out-of-scale project?

I attended the first online "community meeting" ready to support *a significant building at this corner*. I was shocked when, after considerable introductory "hoopla" evidently contrived to enthrall the public, they finally unveiled their "masterpiece," AT A FULL EIGHT STORIES. Again, I was, quite literally, shocked. And greatly disappointed. I had been looking forward to supporting a project at this corner and now felt offended and angry at the excesses of this applicant.

Six or seven stories, at most, would suffice here. An even more modest height in the back would seem appropriate, as well, despite pressures to cram as much FAR on the lot as possible. If context is relevant, just one other building, a block away, appears to be eight stories, but it has significant

set-backs in the front and at the sides, with grass and open space.

While parking is being limited, based in part, IMO, on spurious claims regarding the alleged ease of "access" to public transportation, in particular, one wonders how they've come up with "51 bike storage spaces" in the basement, when their own paid survey indicates bicycle use at "6 percent." How does that compute? (A "vanity" for bicycling enthusiasts??) *Is anyone aware of the fact that the MBTA plan to reduce service on the 83 and 77 Bus Routes by 20 percent this year as part of their recently announced "service" cuts??*

I live not far from this location in what was once Public Housing. I have some understanding of what this is all about. I go by here every day on the "public transit" others love to preach about. I don't want to have to see an oversized building here. We can do better. The dismal political failure of our dysfunctional government here in Cambridge to address affordability in housing, despite rather significant achievements, should not be the occasion to "stick it" to one particular diverse group of residents at this particular corner.

Thank you for insisting on a *reasonable project* that furthers a goal of adding affordable units in Cambridge, albeit for the entire region, while respecting the community of which we're all trying to be a part.

Sincerely, James Williamson

[Hi, Maria, Would you be sure to timely share this email with Gus and Brendan?
Thanks. JMW]

January 4, 2020

Hi Ranjit, and/or Maria,

As I believe you know, the BZA announced at the conclusion of the last meeting on this matter that January 7 would be a "Special Meeting" devoted *exclusively* to the 2072 Mass Ave. "Comprehensive Permit" application.

It seems this plan has been changed.

I learned this evening, when I was trying to find a suitable link for the 2072 Case File (itself a bit of a conundrum), that there have now been new items added to the Agenda for January 7.

Could you (or Ranjit) please explain why that is? (I know there is a widely shared concern *that there be sufficient time for public comment from all interested parties at this important hearing*; I worry that this will no longer be the case with the addition of more items.)

Could you please explain how you anticipate the new items on the revised Agenda for January 7 to be managed? *Will they be heard in the order in which they are listed?? And what is the estimated time required for each of these cases, to the extent you can anticipate that?*

As you know, it would be very helpful to have a sense of when

*the Board will likely be turning their attention to the case at hand,
as we are now no longer assured that the hearing on the 2072 Mass
Ave. case will commence at 6 p.m., as previously promised.*

Thanks.

Sincerely, James Williamson

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

Hello

To Members of the Board of Zoning Appeal

I oppose the proposed development of 2071 Mass Ave.

I live three blocks from the proposed site on King Street and travel past it every day by either foot or car. I believe the proposed 9 story front o the building is way way out of proportion to our smaller neighborhood buildings. I am completely in favor of affordable housing and think it is extremely important, but I believe it can be done and incorporated in to neighborhoods in a much more seamless way that compliments it's surroundings. I believe the developers can reasonably settle for less stories. Many have said the 6 stories but I can accept more, but not nine stories. It will set a precedent for future buildings and start a type of destructions of our neighborhood. The argument that we need all the housing we can muster is a fair one but will not be solved with this one building, and then the acrimony that it would bring. Also, I am extremely concerned about the parking in the neighborhood with more cars coming from the tenants of the building, and so would also think this adds to the argument against nine stories. Lastly, the corner of Mass Ave and Walden has always been a complicated area to drive through, and then on top of this it is crammed during rush hour. Having a car entrance added to the density that converges at that corner seems unadvisable for an uncontested safe traffic flow. I'm sure you know that we have had a death at that corner already.

Thank you for giving this email your time and I would urge that you work with the developers to reduce the size of their proposal so that we cn have a win win situation with this need affordable housing.

Dewey Dellay

There is still confusion between 8 and 9 stories.

8 was original proposal which required variances as well. Now it seems criteria is being cherrypicked between comprehensive permitting, AHO and 40 B. Take your pick.

Housing is needed, but tweaking is needed including more elevators.

On Monday, January 4, 2021 Peter Glick <peterglick@comcast.net> wrote:

But when the neighbors are disenfranchised by a political system that appears to be tilted in the developers' favor, and then the developers choose extreme outside of the envelope approaches, such as those that go beyond even the AHO and require 18 variances to the rules, it is completely understandable that some neighbors would believe that their only chance at fairness is a day in court.

Personally, I live too far away to sue, but close enough to enjoy walking by regularly. I hope the developers are persuaded to build a nice building with several stories of affordable housing and ground floor retail.

Peter Glick

On Jan 4, 2021, at 5:30 PM, Ruth Ryals <rryals@comcast.net> wrote:

I am sorry, but someone has to say it.

This is a lousy way to build affordable housing (or to stop it), by threatening to sue, add costs, delay a project. And note, all of you who will follow the singing mermaid, it will cost you -- a lot, and the mermaid will never put in a dime.

This is how we got the AHO, for those of you who are suggesting it means we should never build an affordable housing development on Mass Ave near a major transit hub greater than 6 stories tall (which is absurd when 8 story buildings stand nearby), because of the threat of a suit from this mermaid's followers.

This is not the way of reasonable civic discourse to determine, as far we can, what best suits the City's and the neighborhood's needs.

This is -- I will get my way, or I will throw a fit, a monkey wrench in the works , so you won't be able to proceed for maybe 10 years, never mind that the premise of the suit will eventually be found lacking of merit.

Could we please ignore the signing mermaid and go back to talking about the pros and cons of the project?

Subject: [Porter square] Re: ACTION NEEDED: 2072 Mass. Ave. Apts (BZA Case. No. 17326)

Ms. Glowa:

Thank you for your reply referring me to the Cambridge Board of Zoning Appeal. Unfortunately, the board and its staff have not responded to our entreaties.

While the BZA in a sense operates independently under the enabling statute, City Manager DePasquale as the board's appointing authority and you as the City's attorney presumably have a fiduciary duty to intercede in order to prevent the unnecessary expenditure of public resources on another improper hearing, as well as an obligation to protect the body from a lawsuit that your office or outside counsel hired and paid for by the City will have to defend against, most likely to no avail.

Under the Commonwealth's Chapter 40B published procedures, department heads such as you, Mr. DePasquale, and ISD Commissioner Singanayagam are expected to review and

provide advice to the local zoning board on comprehensive permit applications, which in this case is one that seeks to circumvent local needs on a breathtaking scale.

If you and the City administration inexplicably have no comments or reservations about the highly irregular process that is occurring and for some reason support this unlawful application, it seems incumbent on you to notify the BZA and explain why before the January 4 comment submission deadline announced by Mr. Alexander.

But instead, rather than prolonging a demonstrably corrupt process, please reconsider your hands-off approach and act quickly to STOP the BZA's ongoing missteps so that the limited taxpayer funds available for affordable housing can be used to develop it safely and efficiently instead of being diverted to pay for long-delayed street-widening projects, legal fees, court costs, and other avoidable expenses.

Sincerely,

Michael Brandon

Subject: ACTION NEEDED: 2072 Mass. Ave. Apts (BZA Case. No. 17326)

Mr. DePasquale, Ms. Peterson, Ms. Glowa, Mr. Singanayagam, and Mr. Alexander:

We are increasingly alarmed by your failure to acknowledge receipt of our earlier communications (copied below) or to act on them accordingly.

Do you disagree with our assertion that the proponents of this still evolving project lacked legal standing to apply for a comprehensive permit and appear before the Board of Zoning Appeal in the absence of a timely filed Project Eligibility Letter (PEL) issued by the Massachusetts Department of Housing and Community Development?

The City, the BZA, and the developers have failed to abide by the promulgated 40B regulations and procedural guidelines as well as the Board's own published Rules, thereby depriving parties in interest, relevant city administrative departments, the Cambridge City Council, and the general public of fair notice and a reasonable opportunity to review and comment on the initial PEL application, its revised version, the tardy and facially defective Site Approval letter, and the prematurely filed, incomplete, error-filled comprehensive permit application and its slapdash supplement.

As you know, the BZA has voted to continue the nugatory December 10 public hearing on January 7. To save all concerned time, energy, and needless expense that could be better used to plan and build safe, appropriately scaled affordable housing at this constrained location, please CANCEL the upcoming proceeding without delay or explain why you are declining to do so.

Sincerely,

Michael Brandon

Chairman Alexander and Members of the BZA:

Without delay, please CANCEL the announced public hearing on this comprehensive permit application, which was scheduled for December 10 in violation of MGL Chapter 40B and its related regulations.

The City of Cambridge has failed to comply with the procedures and processes detailed in the Massachusetts Housing Partnership's [Chapter 40B Handbook](#) and has been proceeding in flagrant violation of the statute.

The permit application was hurriedly submitted in chunks while the project was undergoing major design changes and it is deficient on its face. Among other shortcomings, no Project Eligibility Letter from a state funding agency was included pursuant to 760 CMR 56.05(2)(g). The applicants thus have no legal standing to appear before the Board of Zoning Appeal seeking a comprehensive permit at this time.

If the hearing is not canceled in advance, the Board seemingly will have no choice but to summarily reject the application after opening the proceeding on Thursday. No one will benefit from that outcome or if this matter winds up in the courts, as seems inevitable if the City and its developer continue to cut corners and pursue an unreasonable timeline that stymies the due process and equal protection under the law that Cambridge citizens are constitutionally guaranteed.

Please STOP the unjustified rush to judgment and protect the public interest by canceling Thursday's proceeding as soon as you can.

Sincerely,

Michael Brandon

Subject: Petition from Neighbors in Support of Affordable Housing at 2072 Mass. Ave.

Dear Members of the Board of Zoning Appeals,

please see the attached petition signed by roughly 150 neighbors of this proposed development.

Sincerely,

Tom Burke
11 Buena Vista Park

--

Tom Burke
Ralph Emerson and Alice Freeman Palmer Professor and Chair
Political Science Department
Wellesley College

Dear Board of Zoning Appeals and Cambridge City Officials,

as neighbors of the proposed affordable housing apartment building at 2072 Massachusetts Avenue, we write in strong support of this project, which we believe will enhance our neighborhood and our city.

There is an extreme shortage of affordable housing both in Cambridge and in our neighborhood. A nearby affordable housing development, the Finch, recently received more than 2,200 applicants for 98 apartments, and the Cambridge Housing Authority currently has more than 20,000 applicants for housing on its waitlist. This new development would give 49 families who might otherwise be forced out of Cambridge a chance to live at a convenient location in first-rate apartments.

The apartment complex would be a huge improvement over the current building at that site, a fast-food restaurant on a tar parking lot. Massachusetts Avenue, a busy thoroughfare lined by many large commercial buildings, is an appropriate place for this development, and the design is properly scaled for the neighborhood. We oppose efforts to reduce the building size and so lock out more families from living there.

The developers, Capstone, have an excellent track record, and have been responsive to neighborhood concerns. They have included in their design thoughtful touches such as a green roof, solar panels, and extensive bike parking. Cambridge has reached a point where adding more parking spots--and more cars--is counterproductive. This project is designed in with the future of transportation in Cambridge in mind rather than its past.

We love our neighborhood and understand why our fellow neighbors may be fearful about any change they imagine might reduce its beauty, convenience and friendliness. We believe, however, that their fears are exaggerated, and that the changes this project creates will on balance improve our neighborhood, most of all because it will bring to us new neighbors. The cost of living in Cambridge has escalated to a point where many are locked out, threatening the vibrancy of our city. This development represents an attempt to preserve one of Cambridge's greatest strengths, the diversity of its residents. We urge you to move this project forward.

Sincerely,

Concerned Neighbors

Bravo.

On Monday, January 4, 2021, Ruth Ryals <rryals@comcast.net> wrote:

I am sorry, but someone has to say it.

This is a lousy way to build affordable housing (or to stop it), by threatening to sue, add costs, delay a project. And note, all of you who will follow the singing mermaid, it will cost you -- a lot, and the mermaid will never put in a dime.

This is how we got the AHO, for those of you who are suggesting it means we should never build an affordable housing development on Mass Ave near a major transit hub greater than 6 stories tall (which is absurd when 8 story buildings stand nearby), because of the threat of a suit from this mermaid's followers.

This is not the way of reasonable civic discourse to determine, as far we can, what best suits the City's and the neighborhood's needs.

This is -- I will get my way, or I will throw a fit, a monkey wrench in the works, so you won't be able to proceed for maybe 10 years, never mind that the premise of the suit will eventually be found lacking of merit.

Could we please ignore the signing mermaid and go back to talking about the pros and cons of the project?

Ms. Glowa:

Thank you for your reply referring me to the Cambridge Board of Zoning Appeal. Unfortunately, the board and its staff have not responded to our entreaties.

While the BZA in a sense operates independently under the enabling statute, City Manager DePasquale as the board's appointing authority and you as the City's attorney presumably have a fiduciary duty to intercede in order to prevent the unnecessary expenditure of public resources on another improper hearing, as well as an obligation to protect the body from a lawsuit that your office or outside counsel hired and paid for by the City will have to defend against, most likely to no avail.

Under the Commonwealth's Chapter 40B published procedures, department heads such as you, Mr. DePasquale, and ISD Commissioner Singanayagam are expected to review and provide advice to the local zoning board on comprehensive permit applications, which in this case is one that seeks to circumvent local needs on a breathtaking scale.

If you and the City administration inexplicably have no comments or reservations about the highly irregular process that is occurring and for some reason support this unlawful application, it seems incumbent on you to notify the BZA and explain why before the January 4 comment submission deadline announced by Mr. Alexander.

But instead, rather than prolonging a demonstrably corrupt process, please reconsider your hands-off approach and act quickly to STOP the BZA's ongoing missteps so that the limited taxpayer funds available for affordable housing can be used to develop it safely and efficiently instead of being diverted to pay for long-delayed street-widening projects, legal fees, court costs, and other avoidable expenses.

Sincerely,

Michael Brandon

Mr. DePasquale, Ms. Peterson, Ms. Glowa, Mr. Singanayagam, and Mr. Alexander:

We are increasingly alarmed by your failure to acknowledge receipt of our earlier communications (copied below) or to act on them accordingly.

Do you disagree with our assertion that the proponents of this still evolving project lacked legal standing to apply for a comprehensive permit and appear before the Board of Zoning Appeal in the absence of a timely filed Project Eligibility Letter (PEL) issued by the Massachusetts Department of Housing and Community Development?

The City, the BZA, and the developers have failed to abide by the promulgated 40B regulations and procedural guidelines as well as the Board's own published Rules, thereby depriving parties in interest, relevant city administrative departments, the Cambridge City Council, and the general public of fair notice and a reasonable opportunity to review and comment on the initial PEL application, its revised version, the tardy and facially defective Site Approval letter, and the prematurely filed, incomplete, error-filled comprehensive permit application and its slapdash supplement.

As you know, the BZA has voted to continue the nugatory December 10 public hearing on January 7. To save all concerned time, energy, and needless expense that could be better used to plan and build safe, appropriately scaled affordable housing at this constrained location, please CANCEL the upcoming proceeding without delay or explain why you are declining to do so.

Sincerely,

Michael Brandon

Chairman Alexander and Members of the BZA:

Without delay, please **CANCEL** the announced public hearing on this comprehensive permit application, which was scheduled for December 10 in violation of MGL Chapter 40B and its related regulations.

The City of Cambridge has failed to comply with the procedures and processes detailed in the Massachusetts Housing Partnership's [Chapter 40B Handbook](#) and has been proceeding in flagrant violation of the statute.

The permit application was hurriedly submitted in chunks while the project was undergoing major design changes and it is deficient on its face. Among other shortcomings, no Project Eligibility Letter from a state funding agency was included pursuant to 760 CMR 56.05(2)(g). The applicants thus have no legal standing to appear before the Board of Zoning Appeal seeking a comprehensive permit at this time.

If the hearing is not canceled in advance, the Board seemingly will have no choice but to summarily reject the application after opening the proceeding on Thursday. No one will benefit from that outcome or if this matter winds up in the courts, as seems inevitable if the City and its developer continue to cut corners and pursue an unreasonable timeline that stymies the due process and equal protection under the law that Cambridge citizens are constitutionally guaranteed.

Please **STOP** the unjustified rush to judgment and protect the public interest by canceling Thursday's proceeding as soon as you can.

Sincerely,

Michael Brandon

To: Maria Pacheco, Secretary-Board of Zoning Appeal

Re: **Case Number BZA 017326-202 2072 Mass Avenue**

We support this fine and beneficial project.

The proposed building is designed to the highest level of environmental standards and is closely located near mass transit. It is just the sort of project that the world so desperately needs as it confronts the overarching issue of climate change.

It also effectively serves to contribute to address the local issue of a dearth of affordable housing.

It also serves to beautify this stretch of Massachusetts Ave. What had been a handsome brick workhorse building was lost to fire years ago and replaced by the ugly parking lot and fast food structure that currently sits on the lot. The architecture of this proposed building is not of the cookie cutter prefab language seen so much in new projects locally. Rather, it is a handsome, thoughtful and contributing work of architectural merit, at appropriate scale for this prominent North Cambridge corner.

As architects and Cambridge residents, who live close by, while we certainly empathize with the emotions of the abutters whose light and air are impacted by this project, we would expect that the common and greater good, however intrusive on the abutters, should prevail here.

This is a fine project, clearly serving the public good.

Thank you,

George H. Perkins, AIA, LEED AP BD+C

Subject: Comment for BZA Special Meeting

Hi,

I wanted to write to comment on the proposed 2072 Mass Ave project. I do think there are legitimate potential concerns for the project, especially as relates to parking and traffic – I am much less concerned about the height, and think that a double-standard is being applied in this case compared to other buildings nearby in Porter. I don't know all of the details about the project, so don't pretend to know the intricacies of how the project has attempted to mitigate these concerns

However, I do think the benefits of the project – 49 new affordable units! – outweigh those issues. I encourage the board to support it as a result, albeit potentially with some steps to mitigate the aforementioned concerns, if deemed necessary.

From: Linda Stein <linda@lindastein.com>
Sent: Tuesday, January 5, 2021 7:14 AM
To: Pacheco, Maria <mpacheco@cambridgema.gov>
Subject: 2072 Mass Ave CASE NO. BZA-017326-2020 OPPOSED

To Members of the Board of Zoning Appeal,

I oppose the proposed development of 2072 Mass Ave.

I live at 1 Walden Mews, Cambridge and oppose the project for the following reasons:

1. **Size**—the 9 story, 102-foot tall height of the proposed building towers over neighboring building of 57 feet, as well as the 2-3 story homes on Walden. I call on you to enforce zoning for affordable housing which is 6 stories maximum; this could set a troubling precedent for other 9-story developments to be built in North Cambridge. This is quite out of character with the neighborhood.

2. **Safety of the intersection**

The intersection is already excessively narrow, dangerous, and congested. The proposed slight widening of Walden will not offset the 200 new residents, their traffic, and their drop offs, pick ups, deliveries; It creates a whole new set of dangerous traffic conditions.

3. Lack of setbacks further exacerbates safety issues for pedestrians, cyclists, and drivers. Where do you imagine that the new residents will park their vehicles, given that you have made no provisions for parking?

4. Negative impact on seniors' health and well-being who live in the abutting affordable housing building; their lives will be dramatically impacted throughout 2 years of construction and they will permanently lose light and privacy.

5. Increased density of the neighborhood will undermine the good relations among neighbors and cause unnecessary problems of noise, trash, and crowding of local parks and facilities, which are already at or over capacity.

6. Negative effects of an all-rental project provides no incentive for residents to assimilate to the neighborhood and moreover threatens to create problems of excessive transience.

7. This neighborhood already has a variety of affordable housing units and is not needed.

8. This neighborhood already suffers from a lack of stores and facilities; 200 new transient residents will inevitably degrade the owner-occupier character of the neighborhood. It is not difficult to foresee that the proposed project would create significant problems.

I have lived in this neighborhood since 1992 and vote here. I implore you to give up or relocate the project.

Subject: 2072 Mass. Ave. Case No. BZA-017326-2020

Dear BZA Members,

I live in Mid-Cambridge on Amory Street, but my partner lives on Cypress Street near the project.

Before I opened Toscanini's ice cream I studied urban geography (City Planning in the Midwest) and City Planning at Harvard's GSD. I support low-income housing and planning but think this project fails to meet many of the standards I studied.

It is too big on too small a plot and lacks qualities valued in public housing by people concerned with the residents of those buildings. It is much too big and sits at an awkward and surprisingly busy intersection that requires more consideration not less consideration of nearby users, including elderly residents, toddlers attending a bilingual day care and patients at the Cambridge Health Alliance facility.

Gus Rancatore
Toscanini's Ice Cream.

Subject: Cambridge Resident Comment for the BZA meeting

Greetings Maria & BZA members,

My name is Anna and I'm a resident of Cogswell Avenue, which is a block away from the proposed Affordable Housing project at 2072 Mass Ave. I am one of the residents whom this project would affect, and I'd like to voice my support for it as planned.

Affordable housing in Cambridge is the type of crisis we claim to want an active hand in solving, and doing so aligns with our values as residents. I can't agree with reducing the number of affordable units to preserve the so called "character" of the neighborhood. In Cambridge, our character should be defined by how we take care of one another, and the NIMBY-ism of this situation is deeply hypocritical for a neighborhood that touts Black Lives Matter signs in our windows. This is a call in to my neighbors who believe that eliminating a level of this building protects anything but our insulation from our neighbors in need of housing. This is an opportunity to show up for social justice in a real meaningful way, not just a performative way. Housing justice is social justice, and I implore you to think about what we are really losing by reducing the scope and impact of this project.

Thank you for your time.

-Anna Rausa
Cambridge Resident

To Members of the Board of Zoning Appeal

I oppose the proposed development at 2072 Mass Ave. I live .2 of a mile from this site - a near 5 minute walk and am concerned about the size and scope of this project.

The sheer size, lack of set backs and safety concerns at this very congested intersection are my primary issues with this.

I hope you take my concerns and those of my neighbors under consideration.
Thank you
Hillary Abbey

To Members of the Board of Zoning Appeal:

I oppose the development at 2072 Mass ave. This is my second letter as a longtime Cambridge resident who wants to preserve the unique character of Cambridge. The project is too big for the space, and it is too high. There is a lack of sufficient set back and green space, so important for our children's health.

There are serious safety concerns about heavy traffic and for setting a precedent for further outsize development in our city.

Stop the project.

Helle Mathiasen Alpert

Subject: Support for 2072 Mass Ave

Hello,

I am a Cambridge resident writing to express my support for the proposed 50B permit for 2072 Mass Ave. The project would provide much needed affordable housing and is a nod to where future development needs to go. A few of the reasons why I support this project are:

- Provides units for families
- Smartly centers height on Mass Ave, which has many taller buildings than proposed, then steps down towards the neighborhood
- the developers have been responsive to community feedback
- Will achieve Passive House, which is the highest level of energy efficiency
- has been widely been endorsed by the city

I urge the BZA to approve this project. It provides much needed affordable housing and does so in a way that does not sacrifice good design.

Thanks so much,

Aly Stein

Subject: support for 2072 Mass Ave project!

Dear Board of Zoning Appeals,

I am writing to plead that you consider the needs of Cambridge at large, rather than the loud advocacy of a small group of individuals who are opposing or trying to down-scale this urgently needed, environmentally friendly, and well-planned addition to Cambridge's housing supply. I live close to this proposed development (a few blocks away on Richdale Avenue) and walk by the site almost every day. I am strongly in support of it.

I have heard people worrying about the proposed height of the building setting a new precedent, but this is simply not the case: there is already an 8-story building just one block away on Mass Ave! Additionally, what better place to add a little height and desperately needed units than right on an urban corridor near so many amenities?

From my perspective, the planners of this development have done an admirable job adjusting plans to address the concerns stated--for example, after consulting abutters, the plan to amend the plan to be 9 stories on the Mass Ave end, dropping down to 6 stories towards the more residential Walden Ave side, is a creative compromise to meet diverse needs.

While some detractors cite concerns about traffic and safety, I believe these are simply talking points that sound good and are not well considered, evidence-based issues of real concern. It is telling that this plan has been unanimously recommended by the Planning Board, and approved by Traffic & Parking after a professional parking count and traffic projection.

Cambridge is suffering from a terrible housing shortage. Please don't allow the loud voices of a small number of residents to derail a project that is desperately needed and well planned.

Thank you,
Annie Michaelis

Subject: Public comment for BZA meeting 1/7- Porter Square affordable housing

Hello,

I know that this comment is late for the 5p deadline yesterday -- I totally understand if it can't be included, but wanted to share on the off chance that it will.

I want to speak up in favor of the proposed affordable housing at 2072 Mass Ave. Everyone on the BZA should know about the critical shortage of affordable housing in Cambridge, especially that which addresses the actual needs of residents -- close to public transportation, accessible to full-sized grocery stores and other retail, and sized for families. To suggest that 14 units are disposable for the sake of a precedent is careless at best and harmful at worst. It ignores the fact that the pandemic has disproportionately hurt low-income and housing-insecure residents. I can't say it better than the Mayor, Vice Mayor, and Councillors said in their op-ed: "These residents are not abstract, and their future should not be callously discussed and dismissed."

My best,
Sarah Andrews

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal

As a resident of 1 Russell, I would like to voice my opposition to the development at 2072 Mass Ave.. as it is currently proposed. I consider the building to be out of scale with the neighborhood both with its proposed height and density. Furthermore, adding 49 new households where no parking will be made available is completely inconsiderate to those of us who have lived in the neighborhood for years.

I don't think that anyone is questioning the need for affordable housing. Nonetheless, I also don't think that the need justifies the impact that this project will have on the people who live just a few blocks from 2072 Mass Ave. Compromise is a key ingredient for neighbors to live together peacefully and happily. In almost every response that is presented on the 2072 website, however, I primarily see justifications being made for the height, the density, the lack of green space, and the lack of parking.

- On the topic of parking, Jason Korb expressed that residents should be willing to park a quarter of a mile from their home. Does he park his car a quarter mile away from his home? I doubt it. We will end up with 25-40 cars crammed into an already congested neighborhood. The proposed building is using the basement level for bikes but not for cars. Many city folks keep their bikes in their apartments. Why can't the basement area be used to keep some of the added vehicles off of our streets?
- Why is there no street level green space being proposed? From Porter Sq. down towards Arlington, there are very few trees and the ones that we have are tiny; at best. This proposal does not take any opportunity to address this problem.
- Before COVID, the intersection of Mass Ave and Walden was always overwhelmed with traffic during rush hour. During COVID, the traffic has been quieter but life and the traffic that is associated with that life is going to return. While there may be a restaurant on the site today, it has nearly no customers. With this proposal, we will be going from a site that has almost no patronage to one where 49 households will be trying to safely use a drop-off /pick-up point?

We should be looking at a proposal that blends in with the current scale and flavor of the area that immediately surrounds 2072 Mass Ave. Please stop discounting the objections that have been expressed. This is an opportunity for a solution that solves a problem but the solution should not be creating new problems in the process.

To Members of the Board of Zoning Appeal:

I oppose the proposed development at 2072 Mass Ave. The reasons are numerous. Members of the City Council are proposing a rushed, "band aid" approach, with an absence of basic urban planning - a major disappointment for a city like Cambridge. This proposal egregiously exceeds many existing zoning limitations - even with the recently passed AHO. It would set a concerning precedent. While the location makes sense - i.e. on the Mass Ave corridor & near public transportation, the proportions are entirely out of sync with the rest of the neighborhood, and of particular note the building is far too tall. Moreover, the lack of setbacks is concerning, as is the lack of greenspace and entirely inadequate parking.

Of additional concern is that City Councilors would endorse this project without a traffic study, and apparently with little concern for cost; as I understand it the 9-story height makes the project 30% more expensive than it otherwise would be. City Councilors who support this project in its current form are simply acting irresponsibly, and I hope residents vote accordingly in November. That said, I hope the BZA will function as a voice of reason in this deeply flawed approach to affordable housing, and draw a line in the sand with regard to reckless and imprudent upzoning.

Sincerely,
Zack Goldberg

Subject: Re: I support 2072 Mass Ave

Hello,

I would like to reiterate to BZA my support for 2072 Mass Ave, and want to see the original 9 story option approved. As a mother of young children I think it is very important that the roof deck be maintained as a community space. I can't tell you how important having easily accessible outdoor space is to children and families.

Furthermore, my own family is struggling to find affordable market rate housing for our family of four. We are well compensated professionals who are struggling to find three a 3 bedroom unit that is less than 1 million dollars. It is imperative that we build much more family-sized housing in Cambridge and not eliminate family housing as the 8 story proposal does.

I greatly value Cambridge as a City where me and my children enjoy having racially and economically diverse neighbors. Please approve the 9 story option to maximize the affordable housing in our city and truly live our values of equity and diversity.

Best,
Meghan Shaw

Subject: Comments to BZA on continued 2072 Mass. Ave. – CASE NO. BZA-017326-2020

Dear Chairman Alexander and Members of Board of Zoning Appeal,

Yesterday, Mr. Korb posted on the project's website supplemental material CC HRE submitted to you "(p)ursuant to your **feedback** at the December 10, 2020 Comprehensive Permit hearing for 2072 Massachusetts Avenue ("December Hearing)". What you demanded of them at December Hearing was not advisory feedback but rather required condition for the continuance of the hearing.

The "alternative development proposal that reduces the proposed building's height along Massachusetts Avenue from nine (9) stories to eight (8) stories (the "8/6 Plan")" made a token reduction in density in terms of number of units and the gross floor to lot area ratio of less than 5%. Furthermore, the 8/6 Plan made no concessions to the needs of the surrounding community. In fact, it exacerbated the concerns of the elderly and disable residents of Russell Apartments next door.

I just do not understand their rationale behind the 8/6 Plan. Had CC HRE simply lowered the 9/6 plan by one floor but kept the 9th floor layout for the 8th floor, assuming there must have been some architectural constraints for different layout for the top floor due to access to the rooftop mechanicals, the resulting 8/6 Plan would have had 12 1-bdrm, 19 2-bdrm and 13 3-bdrm units for total of 44 units of which 73% would be family sized 2-,3-bdrm units

. Please see the attached spreadsheet for full analysis. Why did they have to make such drastic changes to have 47 units with one less 3-bdrm unit but more 1-bdrm units? Why are they trying so hard to keep as close to the original 49 units?

CC HRE asserted "we continue to advocate that the previous 9 story/6 story proposal presented at the December Hearing (the "9/6 Plan") is a better overall plan as it includes a higher percentage of family apartments and the resident roof deck." Yet, they did not provide any financial justification for the 9/6 story height as you required of them.

A preliminary development **pro forma**, “a financial analysis of project development costs, anticipated revenues, and the **developer’s net financial return**”, should answer the financial justification for massively out of context plans; the initial 8 story plan; 9/6 plan and now 8/6 plan. You should require CC HRE to provide 3 versions of the pro forma

1. The original version submitted as part of the Project Eligibility (PE) Application dated 10/14/2020 corresponding to 8-Story Plan
2. The revised version corresponding to the 9/6 Plan which should have been filed with the Project Eligibility Application Supplemental Materials dated 11/24/2020.
3. The revised version corresponding to the 8/6 Plan submitted yesterday for presentation at the continued 01/07/2021 hearing.

The initial PE application as well as any supplemental material should have been posted on the City’s website per [MA Chapter 40B Handbook for Zoning Boards of Appeal](#) (Handbook) but to my best knowledge they have not. The version that was posted on the project’s website is an abridged version without stating what was left out. I submitted a public records request for these documents (P201125-123120 on 12/31/2020) but have not received the results yet.

I beg you to dismiss this case unless CC HRE agrees to provide these 3 versions of pro forma, with changes clearly identified, to determine if any of the proposed heights is financially justified.

Thank you for your consideration,
Respectfully your,
Young Kim

Subject: Support for Affordable Housing at 2072 Mass Ave

Dear Cambridge Board of Zoning Appeals,

I am writing in support of the proposed affordable housing at the corner of Walden and Mass Ave. Both Mass Ave and Walden Streets are heavily trafficked, and having a large apartment building on the corner is in keeping with the streetscape of Mass Ave. We have such a need for affordable housing in Cambridge, and this is a great step forward.

Unfortunately, a group leafletted my home asking that I oppose this development. No people actually signed the letter or identified themselves as a part of this NIMBY group. They mentioned concerns with parking (a short walk to the T and right on a bus route) and how it would affect senior residents. I find these reasons contrived. Cambridge is densely populated and not all residents need or require cars. If they have them, there may be increased competition for parking spaces, but that is the tradeoff which we as a community can make in order to expand affordable housing.

Why would this apartment building affect senior residents more than anyone else? I am a senior.

A root cause of lack of affordable housing in Massachusetts is that it is so hard and costly to get through permitting.

Please approve the project. Mass Ave is the ideal place to build higher and build affordable.

Thank you,
Eileen Rudden

January 6, 2021

Re: CASE No. BZA-017326-2020 - 2072 Mass. Ave. "Comprehensive Permit"

Dear Chairman Alexander, Vice Chair Sullivan,
and Members of the Board:

It's difficult to stay up-to-date with any public comment when the applicant may submit last minute changes to the project up until 5 p.m. on the Monday before a hearing, and when it's not clear how or how well any material submitted by the public after that gets distributed and/or read by members of the Board in the short time between learning of any changes and the public hearing on Thursday.

The applicant seems to have decided NOT to reduce the height or scale of this project in any meaningful degree, evidently choosing to try and hang on to as many units as possible (a reduction of only 2, though of different sizes) while insisting on the original height of eight stories, at a minimum, which was already widely seen to be unacceptably large by most neighbors and several members of the Board.

The "offer" to add additional FAR at the rear on a sixth floor would actually worsen the negative impact on the affordable housing residents of the Russell Apartments. The supposed "alternative" of placing *nine stories* on Mass Ave. is no alternative at all. The "concession" is to return, at best, to the original height of eight stories on Mass Ave.? This seems rather disrespectful to the public, the neighbors, and the Board.

There doesn't seem to have been much willingness to compromise or adjust

the scale of this building at all. It remains simply unacceptably large and out-of-scale for this location and for most of the neighbors. Seven stories would be a reasonable height limit on Mass Ave., in my opinion, with a more significant step down to the rear desirable.

But none of this has been offered.

The applicant will now presumably attempt to make an argument about the alleged “financial viability” of the project as is. Without reasonable numbers or a *Pro Forma* there is no reason to accept claims of this kind without evidence, especially when substantial public money is involved. We deserve to know where our money is going and how and how well it is being spent, and whether any claims made about “the numbers” have any validity or not.

I urge the Board to reject the applicant’s Permit and let them test any claims they might care to make about financial viability in the venue established for that purpose under the Comprehensive Permit provisions of 40B.

Thank you for joining a significant majority of those who live in this neighborhood, and in Cambridge - including a majority of the 51 elderly residents of the affordable housing next door, in rejecting this unfortunately excessive project. It’s time to hold the line to a reasonable scale, or soon we simply won’t have any at all.

Sincerely, James Williamson
1000 Jackson Place (Jefferson Park)
Cambridge, MA 02140

p.s. I’m including some comments posted in response to a commendable letter from a resident of the Russell Apartments posted yesterday to CambridgeDay.com: This is really a wonderful letter from Margaret Rueter. I commend her for speaking up on behalf of the elderly residents of affordable housing next door to 2072 Mass Ave. How people get away with preaching about “affordable housing” while never demonstrating the slightest concern for the people who actually live in it is a great mystery to me. (“Virtue signaling” is the new word for this, I gather.) I fear the real problem here is not so much “affordable housing communities” being pitted against each other, as it is a for-profit developer trying to play one largely united group of neighbors, who are asking for a more reasonably-scaled project overall, against a smaller group, who may be tempted to acquiesce to an extremely modest “concession” in height at the rear of the building, which would hurt residents of the Russell Apartments in particular. No one should fall for such a ruse. In unity has always been our strength, especially in situations like this one. Demand something reasonable that respects the needs of everyone. Cambridge is supposed to be a “center” for the “innovation economy.” So, why do we seem unable to “innovate” when it comes to the design and production of affordable housing in a manner which is more compatible with the needs of existing neighbors?? At roughly \$700,000 a unit – financed largely with public funds – we certainly deserve something which will pass muster with the majority of those in Cambridge who live closest to this project, while simultaneously meeting a regional need for more affordable housing in general. Let’s see if we can “walk and chew gum” at the same time.

January 3, 2020

Re: CASE No. BZA-017326-2020 - 2072 Mass. Ave. ("Comprehensive Permit")

Dear Chairman Constantine, Vice-Chairman Sullivan,
and Members of the Board:

I suspect you are facing a tough decision this Thursday night, struggling to balance the obvious need for affordable housing in Metropolitan Boston with good design, reasonable scale, and the stated needs and interests of numerous neighbors here in Cambridge, including, importantly, *the residents of existing affordable elderly housing at the Russell Apartments* (whose very modest rear patio, absent suitable adjustments to the proponents' plan, will be put in shadow by this project on otherwise lovely summer afternoons. [Thanks, "supporters" of affordable housing...])

In my nearly fifty years of living in Cambridge, I can't remember a single developer ever having had the *chutzpah* to offer as a purported "compromise" increasing the already egregious height of a building from 8 stories to an even more egregious 9! (Wow; that's a "stretch," as they say...)

Since when is responsible, intelligent, and artful "urban form" something we just toss out the window, because a for-profit developer can slap the evidently "magical" words "affordable housing" on their gargantuan, out-of-scale project?

I attended the first online "community meeting" ready to support *a significant building at this corner*. I was shocked when, after considerable introductory "hoopla" evidently contrived to enthrall the public, they finally unveiled their "masterpiece," AT A FULL EIGHT STORIES. Again, I was, quite literally, shocked. And greatly disappointed. I had been looking forward to supporting a project at this corner and now felt offended and angry at the excesses of this applicant.

Six or seven stories, at most, would suffice here. An even more modest height in the back would seem appropriate, as well, despite pressures to cram as much FAR on the lot as possible. If context is relevant, just one other building, a block away, appears to be eight stories, but it has significant set-backs in the front and at the sides, with grass and open space.

While parking is being limited, based in part, IMO, on spurious claims regarding the alleged ease of "access" to public transportation, in particular, one wonders how they've come up with "51 bike storage spaces" in the basement, when their own paid survey indicates bicycle use at "6 percent." How does that compute? (A "vanity" for bicycling enthusiasts??) *Is anyone aware of the fact that the MBTA plan to reduce service on the 83 and 77 Bus Routes by 20 percent this year as part of their recently announced "service cuts"??*

I live not far from this location in what was once Public Housing. I have some understanding of what this is all about. I go by here every day on the “public transit” others love to preach about. I don’t want to have to see an oversized building here. We can do better. The dismal political failure of our dysfunctional government here in Cambridge to address affordability in housing, despite rather significant achievements, should not be the occasion to “stick it” to one particular diverse group of residents at this particular corner.

Thank you for insisting on a *reasonable project* that furthers a goal of adding affordable units in Cambridge, albeit for the entire region, while respecting the community of which we’re all trying to be a part.

Sincerely, James Williamson

Re: 2072 Mass Ave/100% Affordable Housing Development

Case # BZA-017326-2020

Dear Members of the Board of Zoning Appeal,

I have always admired your service, and your thoughtfulness, at the many meetings I have attended over many years.

But not the last meeting on this topic. I was very disappointed (and I was not alone in this) because what we witnessed was a very reactionary meeting, with many of you apparently thinking that the AHO should rule (even though this project is proposed under 40B) and thereby coming to the point of saying no affordable housing building on Mass Ave should be more than 6 stories high (despite 8 story buildings nearby, and this being near a transit hub).

You paid absolutely no attention to the recommendation of the Planning Board, which praised the building and voted to move it forward.

You opened with every one of the complaints from the near neighbors who don't want this building here, on Mass Ave, near them. That, despite your acknowledgement that many more other neighbors have written letters and signed petitions in support.

Neither the Lesley College of Art & Design nor the Frost Terrace affordable housing would have been built if the Zoning Board (and our other city guardians) had been so timid. The near neighbors fought both of those projects and now they are widely admired by all of us. They are each adding grace and vibrancy to this part of Mass Ave, as will this building. They collectively say that we do not live in a city just defined by triple-deckers and beautiful Victorian houses, but instead a city where major buildings can be built on our major avenues where they can live comfortably with structures from the last century behind them.

I must also say I find it regrettable that the Walden neighbors objecting to this project have cultivated fear in the elderly living in Russell Apartments and Senior Housing, low-income residents who should find allies in the new families to live at 2072 Mass Ave, if this building is built. Kids to make them smile, a neighbor to help with their shopping, perhaps?

Oddly, you did not notice the hypocrisy of people in affordable housing complaining about another affordable housing project being built next to them.

Can we please start again?

While 9 stories may seem “unprecedented”, I ask you to consider that the building on that site, back before the Drupal Kabab and the KFC was a massive (for those times) 4 story commercial building filling the whole block, sidewalk to sidewalk? Walk from Porter Square today and ask yourself if the one-story buildings in each direction are not “unprecedented” for a modern city scape.

We need many more affordable housing units for families, in this part of our city. Please do not nonchalantly cut out 14 units. Let Capstone build the building (9 floors on Mass Ave and 6 floors in the back) that they proposed to you, with 49 housing units, 71% family apartments.

The Walden/Mass Ave intersection is challenging now, but this project will not make it appreciably worse. In fact, with wider lanes on Walden at the corner, more emphasis on no or shared vehicles, use of bicycles or walking to go shopping, it may actually improve the situation. Moreover, when built, there will be caring neighbors living there making sure the dedicated bus and bike lanes get built and that the turn lanes and the lights work to improve the situation.

This site has never been pretty, nor has it been set back with tall (or any) trees. Capstone, and its architects, offer us a beautiful building, possibly a mural, greenery on the roof garden and a green roof, **an active street front and a planter along Walden**. It will surely be an improvement. In fact, this building will invigorate this part of Mass Ave and, along with the development at St. James, we may actually have a very pleasant place to walk, shop, sit on a bench and look at the mural I hope to see painted on the new building.

Thank you for your thoughtful re-consideration of this proposal,

Ruth Ryals

To: Pacheco, Maria <mpacheco@cambridgema.gov>
Subject: 2072 MASS AVE - CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal:

I support Affordable Housing but **I oppose the proposed 2072 Mass Ave. in the current 9 story massing at 102' height and density that is 2 to 2.5 times greater than nearby affordable housing.** I am a Cambridge resident for 40 years and a resident on Regent Street for 30 years. I value Cambridge as a place with diversity and I understand the need for affordable housing to support the continued diversity, however, providing affordable housing should not disregard the basic zoning requirements that make this city livable and allow everybody to be good neighbors.

The proposed 2072 Mass Ave. does not respect, and does not fit into the Neighborhood context. For this proposed building to fit into the neighborhood context, it should be 6-7 stories on Mass. Ave. (65'-80') and 4 stories on Rear Walden St. (45'-50'), not 9 Stories on Mass. Ave. (102' high) and 6 stories on Rear Walden St. (69.5').

The Cambridge Affordable Housing Overlay allows for increased heights for that part of Mass. Ave. (Zone BA-2) to be 6 stories, max. height of 65', and only parts of Porter Square (Zone BC) allows for buildings to be 7 stories, max. height of 80'. Only 2% of Cambridge properties, mostly institutional parcel or PUDs allow heights above 80'.

The proposed density (FAR) is 2 to 2.5 times greater than nearby housing. Comparative studies show that the FAR for Frost Terrace is 2.26, Russell Apartments to be 2.87, and 1713 Mass. Ave to be .52 and the Proposed 2072 Mass. Ave. to be 6.74. The project currently shows **49 units** . **If the proposed building was 6 stories (front and rear), it would have approximately 35 units.** **If the proposed building was 6 stories at the front and 4 stories at the rear, it would could have approximately 30 units.**

The current proposed development will negatively impact the already acute vehicular and pedestrian traffic issues at that corner of Walden and Mass. Ave. impacting the lives of pedestrians, drivers, bikers and neighborhood residents at the Russell Senior Housing. We want to have a real Traffic Impact Study for the proposed 2072 Mass. Ave. development. Parking is also a big concern, especially for the adjacent streets - Creighton, Regent and Porter Road since they dead-end into the Railroad tracks and provide the parking for the Porter Square businesses (Yoga, Culinary School & restaurants) and will be supporting on-street resident parking from the renovated 78 Porter Road (40 units) affordable housing project.

The September 2020 Parking Study does not reflect the true parking conditions in this Porter-North Cambridge neighborhood since it was done during the Covid Pandemic when retail and businesses were operating at less

than 100% capacity. 40% of Harvard, MIT and Tufts students were back in school and Lesley College was 100% remote, and restaurants were operating take-out, outdoor dining and also at 40% capacity or closed. There has been more vacant rental apartments available in the North Cambridge area during the pandemic.

I do not support the current Proposed 2072 Mass. Ave. project and can only support a revised 2072 Mass. Ave. Proposal for Affordable Housing if the building is designed to fit into the Porter Square neighborhood context, and supports the well-being of all the neighbors.

Thank you for your time,

Elaine Soo Hoo
45 Regent Street
Cambridge, MA

REFERENCES from <https://www.ahoreality.org/articles/building-height-and-the-overlay> :The Affordable Housing Overlay allows for increased heights:

1. 2072 Mass. Ave is in Zone "BA-2" district (marked in purple on the map), the allowed height is 6 stories, with a height of up to 65'.
2. In the other parts of Porter Square zoned as "BC" (marked in orange on the map), buildings are allowed to be built to 7 stories, with a height maximum of 80'.
3. The vast majority of Cambridge residential districts would allow buildings that are only 45' (or in cases of first floor retail uses, 50') tall, and would be limited to a maximum of 4 stories.
4. Approximately 2% of Cambridge properties allowed heights above 80' today, largely in large, institutionally owned parcels or in Planned Unit Developments (PUDs) which would not be redeveloped with affordable housing.

Hi Maria,

I am writing to the BZA to share my support for the affordable housing development in Porter Square. As a resident of Cambridge I strongly support this plan to increase affordable and accessible housing.

I know that the BZA requested that the project adjust the design, thus shrinking the building, which results in the loss of affordable apartments, specifically affordable apartments for families with kids.

Please let me know if I should direct this note elsewhere. Thank you for your time and consideration.

Best,
Ellie Carver

Hi Maria,

I'm writing to show my **strong** support for the affordable housing development in Porter Square.

As a Cambridge resident, I place more value on ensuring 14 more families have regular roofs above their head at nights than I do the 90 foot of sky space.

If we cannot address important issues like housing shortages with plans that are well designed, approved by Planning Boards and Traffic and Parking, meeting our mayor's goals, and have already shown accommodation to make adjustments based on neighbor's concerns.. then what are we waiting for? How will we ever accomplish our goals?

Thank you,
Leor Shtull-Leber

Dear Ms. Pacheco,

I apologize that this message is after the 5pm deadline for yesterday but was told that you might still receive messages through tomorrow. I am writing to voice my resounding support for the full 49-unit affordable housing development on 2072 Mass Ave in Porter Square. Affordable housing in Cambridge is so desperately needed, as has been brought to even clearer light by the COVID-19 pandemic, and every unit contributes to address the housing shortage.

Thank you for taking the time,

Katie Westervelt

Subject: Brief but important addition to letter of Support for BZA Case #17326, 2072 Massachusetts Avenue

We sent the message of support shown below for the 2072 Massachusetts Avenue project but would like to make what feels like a crucial addition. We strongly feel that the original 9 story building is a far better plan than the 8 story version the developers were asked to test out.

We have lived at 26 Mead St for many years. As you may know, it is just off Walden & around the corner from this 2072 Massachusetts Avenue proposed project. We have attended the public meetings, scrutinized the plans, listened to much commentary. We are in support of this project. We recognize the great need for affordable housing, and think such structures should be located throughout the city. The building plan seems very well thought out. Many neighbors are voicing skepticism about the parking study, but since we live here, and walk, bike and drive around a lot, we have found the assessment to be accurate. The other major objection that is being raised in the neighborhood is that it will make the Walden/Mass Ave intersection too dangerous. It is our experience that that intersection has always been a giant pain for all concerned and often dangerous. This building project should not be held responsible for that long-standing traffic-engineer's headache.

We would be happy to elaborate on these views if that would be useful, but are trying to keep it brief here.

Sincerely yours,
Claire Silvers and Mark Feeney

Subject: Support for full developer proposal at 2072 Mass Ave

Dear Cambridge Zoning Board (BZA),

As a neighbor, I wish to register my strong support for the 2072 Mass Ave affordable housing development in the full number of 49 units proposed by the developers. I was born and raised in North Cambridge and now reside on Raymond Street less than a 1/2 mile from the proposed development. Cambridge has been a leading city for affordable housing in the state and yet still has an enormous problem with the high cost of housing. We cannot let NIMBYs weaken the highest and best use of land that will improve housing accessibility and affordability for the city's residents.

The location of the proposed development is ideal for dense housing. The complaint by opponents about lack of parking fails to acknowledge that this location actually allows residents to live without need of a car. As a nearby resident, I am also not concerned about a few extra cars on the street for resident parking.

The intersection is not ideal, but I fail to see how the development will worsen it. What needs to be done is improve signage, bike lanes and signals, not reduce housing units. I received a flyer from opponents to this development with a petition that uses a scare tactic of a tragic cycling to show the danger of the intersection. As an avid cyclist, I resent the politicization of that accident for a different concern. The city can and should do more to improve cycling safety including at that intersection but that is not related to the density of the development proposal.

Overall, Cambridge needs more affordable housing and needs to take every step to improve housing accessibility for its residents. We must avoid the hypocrisy of what is too often said by opponents: "we support affordable housing just not this project in this location." With this project, Cambridge can reject NIMBYs and fully support the affordable housing the city needs.

Best,

Charles Posner

Hello Maria,

My name is Claire, and I'm a resident of Cambridge and undergraduate Harvard student. If you could send my comments along to the BZA before Thursday's meeting, I would be very grateful!

Hello members of the Board of Zoning Appeals,

I am writing to express my support for the affordable housing project proposed for 2072 Mass Ave, Porter Square. Last year, as I volunteered at a shelter for people experiencing homelessness in Harvard Square, and watched people be turned away for lack of space every night, it was clear to me that Cambridge was already in an affordable housing crisis. Of course, the pandemic has only made things worse. Every possible unit of affordable housing is desperately needed right now, and the modifications that the BZA has proposed to the project would mean sacrificing 14 homes for families. This is unacceptable. As many of Cambridge's city councilors have already pointed out in a recent op-ed, zoning has a long history of being used to enforce class and racial barriers, and to uphold wealth and privilege at the cost of exclusion of many. I ask you to reject this history, and reconsider how zoning could be used to make Cambridge a community that people can actually afford to live in.

Thank you!

From: Jamie Willer <jamie.willer26@gmail.com>
Sent: Tuesday, January 5, 2021 3:18 PM
To: Pacheco, Maria <mpacheco@cambridgema.gov>
Subject: Resident Comment on Upcoming BZA Special Meeting this Thursday

Good evening Maria,

My name is Jamie Willer and I am a community member residing at 142 Webster Avenue Unit B, Cambridge, MA, 02141 and I also work in Cambridge near Porter Square.

I am writing to submit public opinion for the BZA special meeting this Thursday to express my strong support for the proposed fully affordable housing project at 2072 Massachusetts Avenue in Porter Square. The recent 2020 Cambridge Resident Survey conducted demonstrated how urgent Cambridge residents feel the need for affordable housing is in our city. Access to affordable housing was the only characteristic that 50% or more of residents said was poor in Cambridge and only 1% of Cambridge residents said access to affordable housing was excellent.

The affordable housing project at 2072 Mass Ave. meets the city's major goals and would be a way of working toward the city's commitments to equity and justice. I am demanding that members of the BZA consider the important role they have in fulfilling the city's commitments to be accountable to the community, and more specifically, those most directly affected by the current affordable housing crisis. The small increase in the size of the building is not as important as the livelihoods of human beings in our community. Affordable housing must be a human right in Cambridge. I demand that the BZA consider the gravity of what is at stake when making a decision based on a small change in building height instead of meeting resident's basic needs-which has continuously been identified by residents as a need for affordable housing.

We can and must do better in Cambridge to be responsive to the community's consistent demands for affordable housing, which cannot wait because people's livelihoods are at stake.

Thank you.

Sincerely,
Jamie Willer

Subject: Support 2072 Mass Ave (CASE NO. BZA-017326-2020)

To the Board of Zoning Appeal,

I am writing in support of the proposed multi-family affordable housing construction at 2072 Mass Ave (CASE NO. BZA-017326-2020) that the Board of Zoning Appeal is considering.

I have lived in North Cambridge for 18.5 years, and I see a need for more affordable housing. Please allow the full 9 nine stories to be built so that more families of modest means can enjoy the benefits of living in Cambridge.

This year, my son's friend had to move out of Cambridge because his family could not find an affordable place to live after living here for more than a generation.

These extra floors won't affect abutters or the neighborhood much, but the extra condos/apartments will make a big change for the families who can get these homes.

Subject: Affordable housing

In this time of the tidal wave of homeless in one of the richest countries in the world, it is a travesty that housing has become a privilege not a right.

There is no excuse for the lack of funding to create affordable housing for all. This needs to include housing for the homeless that have no financial means to get off the street. When one does not have a roof over their head they do not have the opportunity or means to create a better life. Often times this leads to substance abuse due to their feeling of hopelessness.

People have become apathetic when they walk by the homeless, because the rise in the situation has also created a feeling of powerlessness in them when the situation is so rampant.

What does the powers to be lack of care role model the next generation?

Texas has created housing for the homeless, while incorporating self sufficiency. <https://www.businessinsider.com/austin-homeless-tiny-homes-village-community-first-photos-2019-10>

This is a great role model every state should and can follow.

I could go on and on.

Yes the Cambridge idea is a good start. But it should include outreach to organizations that work with the homeless population as a network to make the opportunity be available to them, if in fact the project comes to fruition.

I am a person who was homeless in my teens. I lived in a van, which was lucky not to be on the streets, also it was the early 70's, an easier time to find ways to survive.

Due to twists of fate, and the skills of survival and smarts I was raised with, I was able to work and get out of being homeless. Eventually going to college, and worked in the arts providing artistic initiatives for low income and youth at risk.

Unfortunately, due to another twist of fate, a car accident, in which I was the passenger, eventually made it more difficult to work, and now I am on disability, and fortunate enough to be on section 8. But I have had to move several times, as those living spaces were sold to become condos.

To some extent I have experienced the gambit of experience that can cause homelessness.

I hope the information I have included in this email of support is helpful.

Sincerely,
Bridget Galway

To the Cambridge Zoning Board,

My name is Daniel Lander, and I reside at 74R Fayerweather Street in Cambridge.

I am writing in regard to the January 7th hearing about the proposed building at 2072 Mass ave. I am writing in strong support of the original proposal to construct a 9 story all affordable building that will create critical affordable housing units for our community.

We have a critical housing crisis in Cambridge, and in particular we have a desperate shortage of affordable housing. This project will provide 49 new homes to families — this is an opportunity we can not miss. I strongly urge you to approve the 9 story proposal — every extra unit is crucial to meeting the need our city has, and these residents deserve beautiful amenities like a roof garden as much as any other person in the city.

We live in a dense urban city — the size of this building along the major commercial corridor in Cambridge is not out of scale at all. It would serve as a proud symbol of our ongoing commitment to affordable housing.

Thank you for considering this strong proposal. I urge you to approve it swiftly so families can move in as soon as possible.

Thank you all,

Daniel

Dear friends,

Dennis Cardone articulates the current problem and the solutions for solving the affordable housing crisis in Cambridge. <https://www.cambridgeday.com/2020/12/30/cambridge-can-do-better-on-affordable-housing/>

The proposed project at 2072 Mass Ave. needs to be scaled down. All the points that Dennis Cardone raises, about the 17 variances, and the building being a high-rise need to be addressed.

I agree completely with his analysis. I would add that some form of rent control will also solve this crisis. The number of high-priced units that exist throughout the city are part of the problem.

Cambridge Board of Zoning Appeals

Re: 2072 Massachusetts Ave, BZA-017326-2020

January 5, 2021

We support the application for a comprehensive permit to build new multi-family affordable housing located at 2072 Massachusetts Avenue Cambridge MA. We support the nine-story option. In the alternative, in the event the BZA, opts for the eight-story option, we would support that as well.

We urge the BZA to seize the opportunity to approve 47 units of desperately needed affordable housing.

My wife and I have lived in Cambridge, about half mile from the corner of Walden and Mass Ave. for 47 years, and we have walked and driven by that corner thousands of times.

The need for affordable housing, especially for families, in Cambridge is clear. Building affordable housing on Mass Ave, near bus and subway, makes sense. We applaud the developer for his innovative efforts to take some of his land on Walden and use it to widen Walden. While this in and of itself will not solve the long-standing traffic issues at the corner of Walden and Mass Ave, it will help. On balance, widening Walden at the corner, will help far more than the modest increase in activity resulting from the 47 housing units will hurt. And moving the primary entrance from Walden to Mass Ave. was a big improvement.

We like the reduction to six stories in the back of the building to address some of the neighbors' concerns. We also like the passive house attributes, and the green amenities on the roof.

Advocating increased density is not something we do lightly. In this case, given the location on Mass Ave, the need for affordable housing, the proximity to public transportation, the efforts the developer has made to accommodate many of the neighborhood concerns, we support this application.

Cambridge is sacrificing one affordable housing community for another

I am a resident of Russell Apartments, the low-income affordable housing for seniors and disabled people at 2050 Mass Ave in North Cambridge. I've lived in Cambridge for many decades and believe in the importance of civic engagement. That is why when plans were unveiled for a major new affordable housing development next door at 2072 Mass Ave, I volunteered to help collect input from the residents of our building.

The residents of our building know the value of affordable housing -- it is a lifesaver for our community members who could not otherwise afford to live in Cambridge. We want more people to have this opportunity -- all the better if they are next door! But while we are the most highly impacted of any abutter to the proposed project, we have been the least consulted or prioritized.

We struggled to get specific visual renderings of the Russell side view of the project from the developers. Communication with our residents about the building plans was limited and ineffective (many residents don't have computers, speak English as a second language, or are afraid to speak out for fear of jeopardizing their housing). We have been ignored: we were not consulted on major design changes that would significantly impact our residents. Despite these challenges, we engaged over 60% of our community in providing feedback about the project.

We quickly realized that the proposed new building was not designed with its neighbors -- or neighborhood -- in mind. The enormous scale of the proposed building will tower over our home, bringing new traffic and safety risks to the front of the building and removing light, privacy, and quiet from the back of the building. The Walden Street / Mass Ave intersection, already highly congested and risky for our seniors, will become even more dangerous. The construction process is guaranteed to be hellish for us, as the proposed building is only 4 feet from our apartment walls. We have shared our concerns with the developers and city officials, but they did not respond with any significant changes to the building design that address our concerns.

Worst of all, the latest revision in the project design, to be presented at the Board of Zoning Appeal on Thursday, offers no improvements that respond to the needs of our community. It makes almost no reduction in building size and density, while actually expanding the part of the building that looms over our back windows and terrace. These plans were released too late for us to be able to submit comments on them in advance of this week's Board of Zoning Appeal meeting.

The process leading up to this point has been disillusioning. We have watched developers and regulators (such as the Planning Board and city officials) make decisions without considering us or prioritizing our needs. We have seen community dialogue degenerate into insults, caricatures, and ideological rants without considering the realities of our vulnerable population. We hear lots of people making speeches about the need to expand affordable housing at any cost -- including the cost of the well-being and safety of the existing affordable-housing community here at Russell Apartments.

I'm disappointed that the city of Cambridge could embrace an approach to development that crams every possible unit into a small space without regard to neighbors or the context of the community. Our hope is that the building could be six stories on Mass Ave and three on Walden. The polarized, moralistic arguments about this project are not helping. We should instead be using visionary urban design, together with community consultation, to bring affordable housing that gives consideration to neighborhoods.

No plan is perfect. But in this case Cambridge is sacrificing one affordable housing community for another.

Subject: Front of Russell Apartments

To Whom it May Concern:

As a senior at Russell, I reach out to document our resident's concerns due to the proposed drop offs, pick ups and deliveries planned for 2072 Mass Avenue

The design was changed without consult to our community

The short distance from a complex and busy intersection to our turn into NCSC and Russell lot is already difficult due to congestion. This is widely acknowledged by those of us who live here or visit

These pictures show a typical day here.

Two cars parked in our HP spaces
2 Cambridge emergency vehicles
Fed Ex delivery at same time pulled up further to front of sr Center
Bike and car diving around Mass Ave emergency pull over just behind two cars at our entrance
Bus shelter behind all activity

We turn into lot just past the cars. Added pull ups along Mass Avenue just beyond the bus shelter and as soon as one rounds the intersection is poor planning. There is no room due to proximity of intersection and for the nature of activity in front of Russell Apartments

We were not consulted. Our population is elderly and disabled. This is a SEVERE SAFETY ISSUE to us.

If this city does not look at this and make changes before final plan for 2072 Mass Ave one of us will be killed.

Why won't city officials respond before someone dies?

Thank you
Sincerely,

Margaret B Rueter

Subject: In Support of Case Number BZA 017326-2020, 2072 Mass Avenue

Dear Ms. Pacheco,

I'm writing, as a resident of North Cambridge, in support of Case Number BZA 017326-2020, 2072 Mass Avenue.

We are in a severe and well-publicized housing crunch. Many more units are needed if we are to preserve places for families to live in Cambridge. Housing should be 100% affordable whenever possible and should also be located on already disturbed sites, as opposed to greenfields outside urban areas. Locating them on busy thoroughfares such as Massachusetts Avenue will also take pressure off the need to build on smaller residential streets.

Additionally, I compliment the project for working to reduce climate change with Passive House energy efficiency standards, and by minimizing parking by providing only accessible spots.

Thank you for your consideration.

Sincerely,

Justin Crane

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal

I oppose the proposed development at 2072 Mass Ave. I am the owner of an affordable unit directly across the street from the proposed development and have lived there for the last 12 years.

My specific concerns with this project is the size and scale which do not fit within the context of neighborhood and consider the safety of the residents. I fully understand the need of affordable housing and have benefited from affordable housing, but the City needs to do better not by allowing multiple (18!) zoning variances but by demanding quality affordable housing and creating a unified implementation plan. Not one new unit of affordable housing was built in 2019 and the turnover of existing units is incredibly low due to the way the City calculates the resale price.

All families deserve to live in buildings designed with quality of life in mind. I am concerned this is not the intent of this development and I have experienced the repercussions and negative health consequences of living in a building that does not have these goals in mind.

Thank you,
Kirsten Greco

Subject: Support for affordable housing project at Walden and Mass Ave.

Dear Cambridge Board of Zoning Appeals,

I am writing in support of the proposed affordable housing at the corner of Walden St. and Mass Ave. Mass Ave. and Walden Street are heavily traveled thoroughfares. The presence of another apartment building is in keeping with the rest of the neighborhood. We need affordable housing in Cambridge and it makes sense to locate it in a central location near public transportation, grocery stores and other neighborhood services.

I live in the neighborhood and think the possibility of a slight increase in traffic and parking challenges are minor trade offs for creating more affordable housing for Cambridge residents.

I hope the Board of Zoning Appeals will approve this development.

Sincerely,
Sally Peterson

Subject: Capstone Communities Housing Development at 2072 Mass Avenue

I'm writing to urge you to approve the proposed affordable housing project at 2072 Mass Avenue. Capstone Communities has developed an excellent plan for 49 units, a small number in comparison to what is so desperately needed in our state. It is imperative that we support this kind of project! The issue of height seems less a problem than the issue of access for the thousands who require affordable housing. Please consider this when making your final decision.

Sincerely,
Antoinette Winters

Re: Comprehensive Permit Application for 2072 Mass Ave Apartments – Continuance Request
2072 Massachusetts Avenue, Cambridge, MA 02140
(BZA Case No. 017326-2020)

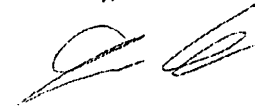

Dear Board of Zoning Appeal Members:

We are writing to request a continuance for the above referenced BZA Case. On January 5, 2021 we held a Zoom community meeting to present the 8:6 story alternative proposal that we submitted to the BZA on January 4, 2021. At the community meeting, at least one participant challenged the depiction of the abutting Russell Apartments as being out of scale in our architect's renderings. After the meeting, our architect, Jason Forney from Bruner/Cott Associates, reexamined his renderings and discovered that the Russell Apartments' height was in fact incorrect in several of the drawings. Please see the attached memo from Mr. Forney that provides more information regarding this error.

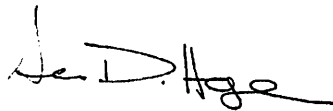

We have worked to ensure that the 2072 Mass Ave permitting process has been robust and transparent with the community. We believe that this error requires us to distribute the corrected plans and renderings to the community and City staff and for us to schedule another community meeting to solicit additional feedback prior to us presenting any further plans to the BZA.

It is of utmost importance to us that the plans we present to the community, City staff, and the BZA are accurate to the best of our ability. Therefore, we believe this continuance is paramount to ensuring the permitting process's integrity is not diminished. We look forward to presenting our corrected plans to the BZA in the near future.

Sincerely,

Jason Korb

Project: Comprehensive Permit Application for 2072
Mass Ave Apartments
2072 Massachusetts Avenue,
Cambridge, MA

Re: Comprehensive Permit Hearing for 2072 Massachusetts Avenue

Dear Board of Zoning Appeal Members:

After discussion at a community meeting on January 5, it has come to our attention that several of the rendered views in our comprehensive permit package contain inaccurate depictions of an adjacent building.

The building in question is 2050 Massachusetts Avenue, the Russell Apartments, a six-story building immediately adjacent to 2072 Massachusetts Avenue. In the drawings and renderings we submitted to the BZA, and have been using in the public process, we erroneously depicted the building as approximately 70 feet tall, based on an assumption of standard residential floor to floor dimensions along with a taller ground floor and a parapet wall.

Several neighbors pointed out that they thought the 2050 building was shorter than it appeared in the rendered views. They explained that they thought it was somewhere between 58 and 62 feet tall, and we agreed to check.

Immediately after the meeting, we collected available survey information, looked at the available as-built structural drawings and counted brick courses on the building. Through these investigations, we have determined that the building is lower than depicted in our drawings. This is primarily due to floor-to-floor dimensions (8'-8") that are much lower than a standard building. Through visual measurements (counting bricks), we conclude that the building is approximately 59 feet to the roof edge at the corner closest to our site. This number is confirmed by an average grade to roof plane calculation based on an available ALTA survey of the property.

We are taking immediate action to correct this unintentional inaccuracy of the following drawings:

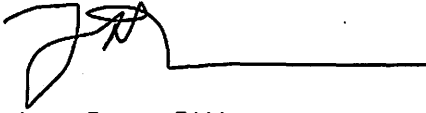

- Perspective Renderings on the cover sheet, A304, A305, A 306, A 310
- Massachusetts Avenue Elevation - North A300, A 301
- West Elevation A304
- Building Section A402

January 7, 2021

Bruner/Cott & Associates, Inc.

-2

Rather than proceed with the scheduled hearing on January 7, we feel that it is prudent to revise these drawings to accurately depict the 2050 building, review the images with the community, and resubmit them to the BZA for the Chapter 40B permit application. I apologize for this inconvenience.

A handwritten signature in black ink, appearing to read 'JF', is written above a solid horizontal line that extends to the right.

Jason Forney, FAIA

3 Sitting Members: Constantine Alexander, Brendan Sullivan,
4 Andrea A. Hickey, Jim Monteverde, Laura
5 Wernick, Alison Hammer and Jason Marshall

6 Okay, with that by way of background, I'm going to
7 call the first case, which is Case Number 017326 -- 2072
8 Massachusetts Avenue. Anyone here wishing to be heard on
9 this matter?

10 SISIA DAGLIAN: Sorry, I just need a minute.

11 CONSTANTINE ALEXANDER: Sisia, any problems?

12 SISIA DAGLIAN: No, there's just a lot of people
13 and I have to go screen through and bring people to a
14 panelist, and -- I should be able to start now.

15 SEAN HOPE: Just want to test my microphone. Can
16 everyone hear me okay?

17 CONSTANTINE ALEXANDER: I'm sorry, Jim? (sic)

18 SEAN HOPE: I just wanted to make sure that you
19 can hear me okay? I can try speaking up if you can't.

20 SISIA DAGLIAN: Yes, we can hear you, Sean.

21 CONSTANTINE ALEXANDER: Yep.

22 SEAN HOPE: Good evening, Mr. Chair and members of

1 the Board. For the record, I am Sean Hope. I am the
2 principal of Hope Real estate, and along with my business
3 partner and co-developer, Jason Korb of Capstone
4 Communities. Together, we are CC HRE, 27 Mass Ave, TENANT
5 LLC, the applicant.

6 We are here tonight to present a comprehensive
7 permit to redevelop the parcel known as 2702 Mass Ave,
8 pursuant to Mass. General Laws Chapter 40B.

9 CONSTANTINE ALEXANDER: Sean? Excuse me, Sean?

10 SEAN HOPE: Yes.

11 CONSTANTINE ALEXANDER: If I can interrupt you
12 just for a second. We have a lot of -- I suspect -- I'm
13 sure we have a lot of people on the call, most of whom are
14 not familiar with how comprehensive permit cases go.

15 I'd like to spend a few minutes, at the risk of
16 boring my fellow Board members and you and your client to
17 just simply lay out for the general audience how
18 comprehensive permit cases work. And then after that, I
19 want to address a few comments to you as the applicant.

20 So with that, basically the Board of Zoning
21 Appeals performs three functions. This is week to week. We
22 pass on requests for a variance from our ordinance, we pass

1 on requests for special permits under our ordinance, and we
2 also hear appeals from decisions by the Building Inspector.
3 That last category, we rarely have those cases, but from
4 time to time we do.

5 Variances involve state law. The requests for a
6 variance are established by state law. Special permits
7 involve matters that are generally allowed by our ordinance,
8 but still require approval, a special permit, from the
9 Zoning Board because of the city has decided that as to
10 certain things they want to -- I assume they want to have
11 our Board pass upon them applying a standard that's set
12 forth in our ordinance.

13 Any appeals -- and as I mentioned before, the
14 third category are appeals from a decision of the Building
15 Inspector -- all of these cases require a super majority
16 vote by the Board to obtain relief. Super majority means
17 there are five members sitting on a case; you must get
18 affirmative -- the applicant must get four of those five to
19 vote in favor of the relief being sought.

20 We also now -- we also have a fourth category,
21 which is what we're going to discuss tonight, and that's a
22 comprehensive permit case. By state law, Chapter 40B of the

1 General Laws, we can grant a comprehensive permit. 50 years
2 or so ago, the state legislature decided that more
3 affordable housing was needed.

4 And one reason for the shortage of affordable
5 housing was local requirements, either because of
6 restrictive zoning provisions, or because of requirements
7 for approval from various local Boards, all that added time
8 and expense to a project.

9 So under Chapter 40B, only a comprehensive permit
10 from the Zoning board is required. The Zoning Board need
11 only obtain input and advice from other town boards -- not
12 approvals. The ZBA in short has the right to override local
13 requirements and regulations, including the zoning statute
14 itself.

15 In other words, Chapter 40B expresses a strong
16 public policy in favor of waiving local restrictions and
17 requirements, where appropriate, in order to facilitate
18 affordable housing.

19 The Zoning Board -- us -- can, however, impose
20 conditions on an applicant to mitigate adverse impacts on
21 citizens of the community, with a focus on height, safety,
22 environmental design, open space, and planning aspects of

1 the project.

2 We cannot impose conditions, however, that will
3 make the project -- the proposed development -- uneconomic.
4 And again, consistent with the notion that the city -- the
5 state legislature looking to favor the affordable housing to
6 get the comprehensive permit requires a simple majority
7 vote; three out of five, not the four out of five for
8 everything else.

9 So in short, the Zoning Board of Appeals may deny
10 granting the comprehensive permit, only if there are
11 intractable issues, for which the Zoning Board is unable to
12 create conditions that mitigate the impact of the
13 development. That, in a few words, is how comprehensive
14 permit cases arose, and how they work.

15 Now I want to turn to the actual case before us.
16 And let me say at the outset, I said I wanted to address a
17 few comments to you, Sean.

18 If one am very disappointed in how this case has
19 been developed. It's been slipshod, and it's been rushed,
20 and it makes it difficult for the citizens and certainly
21 this Board to follow what's going on.

22 I don't know why you have, for example, filed your

1 application before you have an eligibility letter. And
2 fortunately for you and your client, or you -- and you are
3 the client, or one of the clients -- we got that eligibility
4 letter today. If we hadn't received it, there would be no
5 hearing tonight.

6 So I'm not happy about it, but that's how it is.
7 And with that, by way of background, you can proceed with
8 the presentation of your case.

9 SEAN HOPE: Thank you, Mr. Chair. And I do
10 appreciate the background. I do think it's helpful. And
11 later in the application, if you could discuss why and which
12 (sic) the site eligibility letter came in. But I -- we have
13 made great efforts to try to make the application as clear
14 and concise as possible. And to the extent we didn't do
15 that, we do apologize to the Board.

16 So to start off with, I'd like to make some
17 introductions, if you could go to the next slide. So we
18 have our project team that is here to make the presentation
19 and answer any questions the Board might have about the
20 proposal.

21 So speaking tonight would be the Project
22 Architect. We have Jason Forney, a Principal of Bruner Cott

1 Architects. We have our Land Use Counsel, Ruth Sillman of
2 Nixon Peabody.

3 We have our energy consultants, Tom Chase or Frank
4 Stone, and I believe Frank Stone is here on behalf of New
5 Ecology. We have our Traffic and Parking consultant. We
6 have Scott Thornton of Vanasse & Associates Inc. We have
7 our landscape consultant, Jennifer Brooke of Lemon Brooke.

8 Next slide, please?

9 As the Chair had mentioned back in 2017, this
10 Board approved a comprehensive permit for Frost Terrace.
11 That's a 40-unit, 100 percent affordable development, very
12 similarly with three accessible parking spaces. I bring
13 this up, as the Chair had mentioned, so this is about 10-12
14 blocks away from 2072 Mass Ave.

15 One of the reasons why we're showing this example
16 is the same development team. Bruner Cott Architects, they
17 were the architects on that project. They also did the
18 Lunder Arts Center, which is directly adjacent to that,
19 which was a big project in the community.

20 And part of the reason why we continue to work
21 with them, I mean they are one of the premier architects, I
22 believe in Cambridge and Boston. But also, they understand

1 the goals of the City of Cambridge on the corridor. They
2 understand some of the guidelines and the history of how
3 some of those Design Guidelines have developed, and we
4 believe that they were the appropriate architect to lead
5 what we believe is a bold and forward- thinking proposal.

6 The second part is also the quality. When you go
7 by the site, and I'm sure many Board members have, you don't
8 know it's an affordable development. It was an element of
9 historic preservation. There was a new building. There was
10 buildings in the back.

11 And so, one of the goals of Jason and I is that we
12 build a building that looks like any other building in
13 Cambridge. And that is not some -- an affordable building
14 that is of a lesser quality.

15 And the last piece which you'll hear more about is
16 we are 60 percent done with the construction of Frost
17 Terrace. And we are starting to receive applications for
18 potential tenants.

19 And I won't go into detail now, but the
20 interest and the number of applications has really been
21 substantial. And that only speaks to the level of the need
22 for affordable housing. We'll get into that.

1 So -- just a couple of procedural elements.
2 First, as the Board said, we did -- we received a Site
3 Eligibility Letter in the file, and that is a prerequisite
4 to coming before the Board.

5 Just to summarize, the letter states that the
6 project is eligible for funding in the form of tax credits.
7 An on-site inspection was completed. Also the fact that the
8 housing and the housing design were appropriate for the
9 location. And lastly that CC HRE Mass Ave Tenant LLC, the
10 applicant, is a limited dividend company.

11 One other piece of housekeeping: So for the
12 relief requested, I would like to refer the Board to the
13 waiver list that was included in the application, as well as
14 the application advertisement. I request those be included
15 and incorporated into the record, as the requested relief.

16 SISIA DAGLIAN: Sean? Sorry, I have to interrupt
17 you. I'm not able to screenshare for some reason. I have
18 an error. Do you have the document? I can give you
19 controls.

20 SEAN HOPE: So --

21 JASON KORB: Why don't you give me control? This
22 is Jason.

1 SEAN HOPE: And I think more important than the
2 documents that I have, the presentation has the full plans,
3 and I think that is --

4 SISIA DAGLIAN: Jason, do you have it? The
5 presentation in front of you?

6 JASON KORB: I do, yes.

7 SISIA DAGLIAN: Okay. I'm going to -- you should
8 be able to share it now. Can you test that?

9 JASON KORB: All right.

10 SEAN HOPE: So -- and it should be slide 3.

11 JASON KORB: Can everybody see that?

12 SISIA DAGLIAN: Yep.

13 JASON KORB: Is it okay like that, or would you
14 like me to go to full screen?

15 SISIA DAGLIAN: I think full screen would look
16 better, yeah.

17 SEAN HOPE: Okay. So -- an when you're ready --

18 SISIA DAGLIAN: Okay.

19 SEAN HOPE: -- if you could go to the next slide?

20 JASON KORB: Where do you go to Full Screen? Do
21 you guys -- oh, here we go. Okay. This is Frost Terrace;
22 this is currently it.

1 SEAN HOPE: Right. So this is when I was
2 referencing the 2017 40B comprehensive permit Frost Terrace.
3 The left is the rendering, and the right is what we are
4 right now going by. And as I mentioned, we're 60 percent
5 through construction, and this is this same development
6 team.

7 So going to the development summary, so just by
8 way of background, the site is at the corner of Mass Ave and
9 Malden, and it's located in the BA2 district. As the Board
10 is familiar, the BAT District is a mixed-use district that
11 allows for multifamily housing. And it has an emphasis on
12 ground-floor retail.

13 A very small sliver of the rear portion of the
14 lot, less than 1 percent, is in the Res B. So as we start
15 looking at the number of waivers, we had to include all the
16 waivers for Res B, because Res B doesn't even allow for
17 multifamily housing.

18 The lot is about 8500 square feet, and it's
19 improved by a one-story brick building and paved parking,
20 formerly the KFC site, as people may know.

21 And then to the development, as I mentioned, this
22 is 100 percent affordable housing. There will be 49

1 affordable apartments, and these will be affordable in
2 perpetuity.

3 There is an emphasis on two and three-bedrooms, so
4 the majority 71 percent will be what's considered family
5 units, two and three bedrooms. The project is seeing
6 Passive House certification. There are also green roof and
7 rooftop solar.

8 As part of the Mass Ave Overlay District, there is
9 emphasis on ground floor retail, and so we're proposing 1000
10 square feet of neighborhood retail and 500 square feet of
11 resident amenity space. There is three accessible parking
12 spaces and two drop-off spaces.

13 We are fully compliant with the bike parking
14 regulations. We have 51 total long-term bike parking
15 spaces. We have an upper-level terrace amenity, and that
16 has been the result of augmenting the proposal to go --
17 going from nine stories on Mass Ave dropping down to six
18 stories in the rear, as you transition into the Walden
19 Street neighborhood Corridor.

20 CONSTANTINE ALEXANDER: Excuse me --

21 SEAN HOPE: And now --

22 STEVEN A. COHEN: Sean? Excuse me. You should

1 just point out, or maybe I will point out -- that these nine
2 stories along Massachusetts Avenue is the result of a filing
3 that was made by you only two days ago. The original plans,
4 and the ones that went before the Planning Board and other
5 Boards, and what I think most citizens of the city saw, had
6 eight stories.

7 SEAN HOPE: So that is not correct. At the
8 Planning Board, they had -- and we presented, and their memo
9 was reflective of it, we presented to them the nine-story
10 building.

11 The change from eight stories, a flat eight
12 stories to nine stories in the front and six stories in the
13 back was the result of direct abutter conversations. So we
14 made that change.

15 The CDD memo at the time that's dated -- that went
16 to the Planning Board, did reference that we may consider
17 going from nine stories and six in the back, and what we did
18 present to the Planning Board in the letter of
19 recommendation to the Zoning Board was the nine stories and
20 the six stories. So --

21 CONSTANTINE ALEXANDER: I understand that. I just
22 want to be sure that those in the audience who may not be

1 aware until right now about the change in the height of the
2 building as it fronts on Massachusetts Avenue. I just
3 wanted to call it to their attention. That's all.

4 SEAN HOPE: I appreciate that.

5 JASON KORB: We also -- do you mind if I
6 interrupt? We also gave a community meeting on 11/24/2020,
7 where we presented this revised design. Everything is on
8 our website at 2072massaveepts.com -- the whole timeline is
9 on there, along with the backup, so you can actually follow
10 the entire timeline of when these plans were released.

11 CONSTANTINE ALEXANDER: Okay.

12 SEAN HOPE: I think what we wanted to clarify is
13 that this was not a last-minute change that wasn't reviewed
14 by the neighborhood. I think you'll see it -- from what
15 we've experienced, a lot of the opposition that we received
16 talks about nine stories, which is evidence of the fact that
17 we've had a full discussion on it, and we have -- we have
18 discussed it fully.

19 Before we get into the actual presentation of the
20 drawings and plans, I would just like to pass over to our
21 Land Use Counsel, Ruth Sillman, so she can just go over a
22 couple of points.

1 RUTH SILLMAN: Thank you, Sean. Can you hear me?
2 Good evening Mr. Chairman. My name is Ruth Sillman, and I'm
3 a partner at Nixon Peabody in Boston. You have to forgive
4 me, I have some health issues relating to my tongue, and so,
5 my speech is not as precise as it used to be, but I thank
6 you for bearing with me.

7 I just wanted to take a minute to review the
8 Chapter 40B initial requirements. The Chair did a very good
9 job outlining and setting the stage for a 40B application.
10 As the Board knows, pursuant to the 40B regulations, to be
11 eligible to submit an application for a comprehensive
12 permit, the applicant of the project must satisfy three
13 requirements:

14 The applicant must be either a public agency, a
15 non-profit organization, or a limited [33:16 indiscernible]
16 organization. And here, applicants are organization, which
17 means that they have agreed to limit profits and
18 distributions from the project.

19 Number 2, the project shall be fundable by a
20 subsidizing agency under a low or moderate-income housing of
21 the program, and again the HCE issued the eligibility letter
22 today.

1 And third, the applicant shall control the project
2 site environment. As noted in the application, the
3 applicants will allow lease of the property from the owner,
4 who is an affiliated entity.

5 In accordance with the requirements of Chapter
6 40B, the applicants request that the BZA find that although
7 the City of Cambridge has received a 10 percent
8 affordability housing Safe Harbor, that the BZA finds that
9 the project may proceed, and that it is consistent with
10 local needs, because number 1 it meets the statutory
11 criteria that I just outlined.

12 Number 2, the project provides much-needed
13 affordable housing, and that to the project is consistent
14 with local concerns, and satisfies health, safety and other
15 local issues, as you will hear from the presentation that
16 will follow.

17 I would now like to turn it over to Jason Korb.

18 JASON KORB: Thank you, Ruth, and thank you, Mr.
19 Chairman. My name is Jason Korb. I'm the Principal of
20 Capstone Communities, Partner with Sean Hope.

21 I just wanted to discuss a little bit more of the
22 details of what level of affordability we're proposing here.

1 This is very similar to the other 100 percent affordable
2 developments that have been proposed in the city, including
3 Frost Terrace.

4 All of the affordable -- all of the apartments
5 will be affordable in perpetuity. And we would request that
6 that's something that you write in your zoning decision, so
7 it actually closed with the land. It's very important to us
8 and to our funders that this affordability be forever.

9 Eight of the 49 apartments would be set aside at
10 or below 30 percent of the area median income. That really
11 has no household minimum income. It had project-based
12 vouchers, which were rent subsidies associated with those.
13 And all of those apartments contain two and three bedrooms
14 for families that are really struggling right now.

15 41 apartments would be at or below 60 percent of
16 the area median income. And you can see these are maximum
17 incomes, not minimum incomes. Maximum incomes ranged
18 between \$53,000 and \$82,000. So it's a really wide swath of
19 folks that can't afford to live in the city, whether they're
20 exceptionally poor or in, you know, working poor, or even
21 middle-income I would say.

22 These are the rents -- just to give you a sense.

1 These include all utilities, except for cable and Internet.
2 They range between about \$1344 for a studio, \$1440 for a
3 one-bed, \$1728 for a two-bed, and [36:48 audio unclear] for
4 a three-bed. And again, those do not include utilities.

5 And I would just like to -- just look at the
6 bottom, and you look at some of the comparable market rents.
7 And these are post-COVID market rents. The pre-COVID market
8 rents were much higher.

9 At the Y that's just down the street, \$3600 for a
10 two-bed. You compare that to -- that does not include any
11 utilities. So that's like, you know, more than double what
12 we would be charging.

13 \$4500 for a three-bed. You know, you factor in
14 utilities, you can do the math. And in order to not be rent
15 burdened -- it says that people are rent burning when they
16 spend more than 30 percent of their adjusted gross income on
17 rent -- households would have to make \$152,000 to \$190,000
18 to afford these rents, which is a lot.

19 And then there will also be preference for
20 Cambridge residents. So 70 percent of the apartments would
21 have a preference for people who either lived or worked in
22 Cambridge, and the city has a very detailed list of how that

1 works.

2 The engagement process: I can tell you this is
3 probably the most robust engagement process I've been a part
4 of since I've been in development. We started working with
5 the City of Cambridge back in April, the Planning Staff. We
6 went through multiple iterations.

7 What we didn't want to do is go out to the
8 community with something that the professional staff at the
9 city couldn't support. And so, we spent many, many months
10 with Traffic and Parking, with Urban Design, Sustainability,
11 refining our plans, refining them again and over and over
12 again.

13 When we did take our plans out in September, we
14 had two large community meetings, two meetings with the
15 Porter Square Neighbors Association, one meeting with the
16 North Cambridge Stabilization Committee, we're very, very
17 sensitive to the Russell Apartments next door.

18 As you know, that's an elderly building owned by
19 the Cambridge Housing Authority. My Mom is personally --
20 she's 83 years old and disabled. I'm exceptionally
21 sensitive to this.

22 And we -- in terms of getting feedback from the

1 community, one resident suggested that we sit at Boards in
2 the lobby and comment cards, which we've done. We have
3 received comments. In general, people are supportive of
4 affordable housing. They have concerns about construction
5 next door, and those are things that, you know, and some of
6 the traffic that's been brought up. And those are things
7 that we'd love to continue working with them on.

8 We've had nine meetings with direct abutters, four
9 meetings with various individuals. If you haven't seen the
10 website, I'd suggest taking a look at it. We have an
11 extremely robust comments section. I believe we responded
12 to the -- almost every single comment. We've had some back
13 and forth, and I think it's been a very respectful dialogue.

14 We have a very robust FAQ section. We've
15 continued to update it. Sean and I and our team have made
16 ourselves available over Zoom day, night, weekends, and I
17 think our opponents can attest to that.

18 Whether they agree or disagree with the project, I
19 think that everybody would agree that we've availed
20 ourselves to anybody and everybody who wanted to chat with
21 us and give us feedback.

22 I've literally given most of my life to this

1 project. We've had meetings with various city departments,
2 as you can see here, all of whom I believe have written
3 favorably of it, and we had a very positive meeting with the
4 Planning Board.

5 So I can say personally as someone who's lived
6 this for the last number of months, it's taken the life out
7 of me, and it's been an exceptionally robust process. And
8 we've had very great attendance.

9 And I think a lot of it has to do with the fact
10 that Zoom has allowed more people to participate in this
11 process than I've ever seen. Normally meetings are held at
12 7:00 at night and families can participate. I have two
13 little kids.

14 You know, we've had Zoom kids where we've had
15 younger people on the Zooms. Whether they agree with us or
16 disagree with us, they participated. And I'd give this
17 process a lot of credit for that.

18 We wanted to highlight a number of changes that
19 came out of the community process. There was an issue
20 brought up -- we originally had the residential entrance on
21 Walden Street. People were concerned that people would park
22 in front of the residential entrance -- Ubers and Lyfts,

1 people picking up people in the building, creating a huge
2 backup on Walden Street. So we relocated the entrance from
3 Walden Street to Mass Ave. I think that was very well-
4 received.

5 We're proposing to widen Walden Street. And I'm
6 not going to get into too much detail, because I know we're
7 short on time. I want to be respectful of your time. This
8 will be discussed later.

9 But this is a huge improvement from what we
10 understand from the Traffic Engineers. We've set back the
11 building on the ground floor, increased the width of the
12 sidewalk along Walden Street. We've tapered the wall at the
13 garage entrance to provide more visibility, and that also
14 allows us to add some planters.

15 One of the issues on Walden Street and Mass Ave on
16 the sidewalks is there's Eversource duct banks that run
17 underneath the sidewalk, which is preventing us from putting
18 in street trees. So any opportunity that we can do to plant
19 ground-level, you know, greenery is a real benefit, I think.

20 We increased the height along Mass Ave from eight
21 stories to nine stories. And that was the suggestion of an
22 abutter, actually, who said, really the height belongs on

1 Mass Ave. Mass Ave is four lanes. There are other tall
2 buildings on Mass Ave. And then step it down to the
3 community.

4 So we responded to that. That change was due to
5 abutter feedback, not something that we just came up with on
6 our own. And the city and the City Planning Staff has also
7 been supportive of that too.

8 We added an upper-level resident amenity space.
9 Our prior original plans didn't have any outdoor space for
10 residents. We heard from the community, "Where are kids
11 going to play? Where are residents going to experience the
12 outdoors?" And so we've hired Jennifer Brook from Lemon
13 Brooke Architects.

14 They're doing -- just purchased a rooftop garden
15 in the city right now. They did the Acton Discovery Museum,
16 which is where my kids love playing, to help design that
17 rooftop amenity space, which is over 1800 square feet.

18 There is a tree on site, that we're planning on
19 saving; retaining a Master Arborist. We updated our traffic
20 study, and we implemented an additional transportation
21 demand measure. So --

22 CONSTANTINE ALEXANDER: Excuse me, can I ask you

1 where the tree is going to be? I didn't think there was any
2 space on the lot --

3 JASON KORB: Sure. Yeah, so there's an existing
4 tree that straddles out site in the CHA's building, the
5 Russell Apartments, and it's literally straddles the lot.
6 And we've hired a Master Arborist to figure out a way to
7 save that one tree. So we have a Tree Preservation Plan
8 from him that we're going to follow, that's part of the
9 materials that we submitted. And we plan to adhere to that
10 plan, commit to that plan, so that tree will be saved.

11 I can see if -- you know, I think we have some
12 photos coming up. And I think that maybe our architect as
13 he starts walking us through - Jason, if you could point
14 where that tree is as we walk around the site -- Mr.
15 Chairman, would that be helpful?

16 CONSTANTINE ALEXANDER: I just wanted -- this is
17 the first time I saw reference to a Tree Protection Plan and
18 a Master Arborist. I'm reading the files, so I'm a little
19 puzzled by the reference.

20 JASON KORB: Yeah. The original submission
21 includes the Tree Protection Plan. Everybody hear me okay?
22 Sometimes I lose volume.

1 COLLECTIVE: Yes.

2 JASON KORB: I think now I'll pass it off to Jason
3 Forney, from Burner (sic) Cott.

4 JASON FORNEY: Thank you, Jason. Good evening Mr.
5 Chair and members of the Board. My name is Jason Forney, F-
6 o-r-n-e-y, from Bruner Cott Architects. I would like to
7 start by setting the context for the project. This is very
8 much a transit-oriented development site about a quarter
9 mile from Porter Square and less than half a mile from
10 Davis, both Red Line and on Mass Avenue, which is the main
11 thoroughfare of Cambridge, served by several buses.

12 As -- yeah, thank you, Jason. A while ago, the
13 site was occupied by the Odd Fellows Lodge, which
14 unfortunately was lost in a fire around 1968, at which time
15 it was replaced by -- or later replaced by a one-story fast-
16 food restaurant with an asphalt parking lot.

17 So this is a view of that as well as the 2050
18 Massachusetts Avenue building owned by the CHA next door,
19 and its party wall, which is pretty much right on the lot
20 line.

21 Another view of kind of the feel of this part of
22 Mass Avenue, fairly well-developed, with the CHA building,

1 the Henderson Carriage House, which is a national landmark,
2 and a taller building in the background there, which is
3 about eight stories.

4 We were particularly -- one of our goals was to
5 kind of be in a conversation with the Carriage House. It's
6 a beautiful building -- repetitive, large windows in sort of
7 a grid pattern, and that had an influence on our design.

8 And I think that the change going from eight
9 stories all the way through to a nine stepping down to six,
10 really an acknowledgment that we do -- that we are
11 transitioning into a residential neighborhood as we move
12 further away from Mass Avenue.

13 Another way of looking at our context here, this
14 is sort of a neighborhood map, indicating the volume and
15 height of the various buildings on this stretch of Mass
16 Avenue. There are tall -- this is an area where there are
17 taller buildings.

18 So looking at that from above, we get the sense
19 that this is a pretty well-developed part of the avenue.
20 And so, our idea is to really in the next slide kind of
21 primary design move of -- you know, occupying that corner of
22 creating a light-colored, white or light grey cube or prism

1 that kind of floats above the ground there, making way for
2 retail space underneath retail or other active uses that
3 help activate the avenue in accordance with a lot of the
4 city planning goals.

5 And then it transitions on both sides.

6 So our kind of overall design goal is obviously
7 creating high-quality affordable housing community,
8 responding to the site, making sure that our design enables
9 an active streetscape and pedestrian-scaled activities,
10 hiding vehicle parking and service areas away from Mass
11 Avenue, using materials that are durable and traditional,
12 but in a modern way, integrating plantings into the building
13 and the streetscape.

14 And then I think you'll see on the next slide
15 thinking about sustainability in a pretty advanced way, as
16 we're following the city's leadership in this area.

17 So in summary, this is -- the building is focused
18 on things that we think align with affordable housing. It's
19 a Passive House design, meaning that it uses very low
20 amounts of energy, keeping the utility costs down. It's
21 focused on resiliency.

22 And also, other things that we think are a good

1 fit with affordable housing such as that tend to occupant
2 well-being, such as the green roof, materials with fewer
3 toxins and chemicals and plenty of daylighting views in the
4 units, in the apartments.

5 Now I'll just walk you around. Looking at the
6 building from a few places, this is further up Mass Avenue
7 looking back towards Porter Square, seeing how that corner
8 changes.

9 Coming a little bit closer, noticing how the
10 building steps down in the back from the corner piece to the
11 six-story piece, which has an outdoor space, complete with
12 plantings that can be viewed from the ground floor, or from
13 the ground.

14 And just pausing a moment to compare the all
15 eight-story building, and the nine-story stepping down to
16 six that was first sort of brought out in mid-November and
17 shown at the November 24 community meeting.

18 Coming around, looking back up from Porter Square,
19 and then from Walden Street looking from the residential
20 neighborhood back to Massachusetts Avenue. I'm noticing how
21 the building steps down there with the planted roof.

22 And the next slide, again, is a comparison of what

1 that was before, as an all eight-story design, and its
2 modification, putting the height on Mass Avenue and bringing
3 the height down in the back.

4 A closer look at the street. The Massachusetts
5 Avenue streetscape includes a relocated bus shelter, as well
6 as potentially a public art piece behind it. The main
7 entrance is in the middle, an active, vibrant retail space
8 on the corner and the residential units above.

9 Coming around to Walden Street, this is a rendered
10 elevation of the building -- again, a lot of those elements
11 are in view here; the retail in the corner, resident amenity
12 room on the ground floor, and then the vehicle parking and
13 service in sort of a piece that recedes into the building
14 with the planter below.

15 Okay, you can go to the next one again.

16 Looking at the corner here, there's a few things
17 to note on the site plan, and I will save some of them for
18 Scott Thornton, who is our Traffic and Parking consultant to
19 talk about. But a few important things: we're focusing the
20 pedestrian entrance off of Mass Avenue, as well as the
21 retail entrance.

22 The vehicle entrance, again, is in the rear, and

1 we worked with the city's Traffic and Parking folks to
2 understand some of the dimensions requires for having a safe
3 vehicle entering and exit.

4 Those red lines indicate the geometry where a
5 driver can see folks on the sidewalk 20 feet away from the
6 garage entrance.

7 Perhaps the biggest move here, which doesn't look
8 big on this drawing, is that we're changing Walden Street.
9 We heard a lot from city planners, and also from neighbors
10 and residents that Walden Street has traffic problems. And
11 we learned that it's because the street is too narrow. And
12 it was formerly a two-lane street that was changed to a
13 three.

14 And so, on the next slide, you'll see what we're
15 proposing here is to go from three lanes of 1 ten-foot and 2
16 eight-foot four, to 3 proper ten-foot travel lanes.

17 By pulling the sidewalk back, creating an easement
18 in -- which gives use for the city sidewalk on the private
19 property, and then also pulling the ground floor of the
20 building back, so that we have around a seven-foot-two
21 sidewalk in the public, where the public can traverse. And
22 that's compared to a six-foot-five existing condition.

1 I'll walk you through the plans very briefly. The
2 basement is reserved for mechanical equipment, as well as
3 the 51 bicycle parking spaces that are accessed from an
4 elevator.

5 I've showed you the ground floor, so we'll jump up
6 to floors 2 through 6 so they stack, and here you get an
7 indication that the way we've laid the building out is to
8 have three-bedroom units on the corners, two-bedroom units
9 in the middle, and then those 2 one-beds looking out over
10 Massachusetts Avenue.

11 So again, a large amount of family-sized units,
12 which the next slide actually will -- oh, sorry. The next
13 one after this has a grid, but going up to the seventh floor
14 and the sixth-floor roof, this indicates the amenity space
15 that we've designed there, which has a wide border of
16 plantings, and then some sort of barrier pulled back from
17 the edge that keeps people from coming over to the edge.

18 This is an unprogrammed space as of now, but we
19 envision it meeting a wide variety of uses by the residents
20 who live in the building.

21 Again, the unit mix, 29 percent one-bedrooms and a
22 combined 71 percent are two and three bedrooms for families.

1 And then on the roof we have some mechanical
2 equipment, which is pulled towards the middle to minimize
3 its visibility. I'll note that it is shown and modeled in
4 all of our renderings. Space for solar, and then looking
5 down onto that low roof below.

6 We've prepared shadow studies here in the winter.
7 From the upper left 9:00 in the morning, shadows cast to the
8 west. In the middle of the day, 12:00 and 3:00, they sort
9 of come out onto Mass Avenue, really blending with the
10 existing shadow patterns, and then at the end of the day
11 start to move towards the east.

12 And summer, similar patterns just a little more
13 exaggerated because the day is longer, noting that they do
14 begin in the morning to the west and do cast some shadows on
15 some of the residential buildings for a short time, then
16 move back towards Mass Avenue, and then over to the east in
17 the afternoon.

18 And the spring and fall, similar shadow patterns.
19 Again, 9:00, 12:00, 3:00 and 6:00.

20 And in summary, in the next slide, Jason, you
21 know, I think that the way to summarize this is that the
22 shadows are layered in with the existing shadows in this

1 part of the avenue. The majority of them are cast onto Mass
2 Ave.

3 Not many of them are cast backwards to the south
4 into the residential neighborhood, with the exception being
5 that there are some early morning shadows cast to the -- on
6 the buildings across Walden Street, and then some late
7 afternoon shadows cast towards the CHA building.

8 And so, now I'll hand it over to Scott Thornton.

9 SCOTT THORNTON: Thank you, Jason. Mr. Chairman
10 and members of the Board, my name is Scott Thornton. I'm
11 with Vanasse & Associates. We prepared a Traffic and
12 Parking assessment for the project. That document is dated
13 November 9, 2020.

14 That assessment included a review of the available
15 on-street parking supply, an estimate of the project trip
16 generation, and a transportation demand management program
17 that's intended to mitigate the project impact on Traffic
18 and Parking.

19 As has been indicated previously and you're
20 familiar with the project -- 49 units, with a small amount
21 of neighborhood retail on the first floor -- three, total
22 parking spaces with 51 long-term sheltered, bike parking

1 spaces that are protected from the elements.

2 The site is an existing approximately 1900 square
3 foot fast food restaurant, was a KFC for a long time. And
4 this slide shows the two access points that presently exist
5 for the site. There's the one towards the back off of
6 Walden Street, and then there's the one in the front that
7 provides access to Mass Ave.

8 And there's a median -- it doesn't show in this
9 slide, but there's a median on Mass Ave that really
10 restricts the movements through that curb cut to right in,
11 right out, right turn out only. And the Mass Ave curb cut
12 has conflicts with a large amount of pedestrians, with
13 bicycle flow, the bike lane is out there, and the bus lane
14 or the bus stop is right in the vicinity of that curb cut.

15 So there's a number of issues associated with that
16 Mass Ave curb cut.

17 We go to the next slide, which you've seen
18 previously. This is the proposed ground-floor plan. And
19 you can see that the Mass Ave curb cut has gone away, and
20 the Walden Street curb cut is retained. And the building
21 features have been designed to accommodate site distance for
22 sitting vehicles.

1 You can see there's two short-term pickup and
2 drop-off spots in the rear of the site and three accessible
3 spaces are also provided. And as Jason was indicating, the
4 features of the site have been designed to maximize
5 visibility for people exiting the driveway with the step
6 back of the wall and some low-lying landscaping area to
7 preserve the lines of sight for vehicles exiting the
8 driveway.

9 As Jason mentioned, I think the critical point --
10 one of the critical points is that the applicant is
11 providing over three feet of property to accommodate the
12 widening of Walden Street to three 10-foot lanes. And this
13 provides better and safer operation for this approach. I'll
14 show you another slide that I think you've already seen as
15 well, but that documents the fact in a little more detail.

16 The applicant has also provided additional
17 property to widen the sidewalk from the existing six foot
18 five inches to seven foot two inches.

19 And these three measures, the closure of the Mass
20 Ave curb cut, the widening -- providing frontage to widen
21 Walden Street to three more standard lanes, and providing
22 initial frontage to widen the Walden Street sidewalk really

1 are significant improvements to vehicular operations and
2 ways to address pedestrian safety.

3 If you'll go to the next slide, you can see the
4 comparison between the existing and the proposed conditions.
5 Where the existing Walden Street cross section has one 10-
6 foot departure lane away from Mass Ave and 2 eight-foot-
7 four-inch approach lanes with a six-foot-five-inch sidewalk.

8 And it doesn't take much to turn this two-lane
9 approach into a one-lane approach, due to the narrow width
10 of the lanes. If you have larger trucks or even larger
11 vehicles that are -- that don't quite provide enough access
12 or enough space for another large vehicle to run up
13 alongside of that movement, that vehicle, that turns the
14 two-lane approach to a one-lane approach, and that just
15 contributes to the vehicle queuing that exists on Walden
16 Street.

17 Whereas the proposed condition provides a more
18 standard, 10-foot or two 10-foot approach layers, which are
19 better able to fit a variety of vehicles simultaneously.
20 And the proposed sidewalk would be -- again, seven-feet-two
21 inches, and anytime a sidewalk can be widened, it's a plus
22 for pedestrians and accessibility.

1 So the next slide, we start to get into the
2 parking study. And we conducted this study based on
3 guidance from the Traffic, Parking and Transportation
4 Department for the city.

5 We looked at the available parking spaces within a
6 quarter mile radius of the project, looked at the on-site
7 parking by quantity and type. And this study area was
8 divided into 27 separate zones. This particular slide shows
9 the site in relation to the study area.

10 We did parking counts on a typical Monday in
11 October to identify parking -- I'm sorry, a typical weekday
12 in October to identify parking demand.

13 The next slide shows the sort of summary of the
14 regulations -- the parking regulations in the area.

15 So if we can go to the next slide, Jason -- there
16 we go.

17 So while we inventoried all 928 spaces in the
18 study area, the only spaces that were counted during the
19 study were the 806 spaces that were comprised of RPP, or the
20 residential permit parking spaces, accessible spaces, and
21 spaces with no regulations.

22 And that totals approximately 806 spaces.

1 The next slide shows these zones, and in
2 particular there's five zones that are located within a two-
3 block radius of the site. Counts were conducted every two
4 hours from 10 a.m. to 10 p.m., and we identified a number of
5 vacant spaces in each of these zones.

6 The next slide shows the number of vacant spaces
7 available at the time periods observed. Now, this is within
8 the entire study area. But for the zones within the two
9 blocks of the site, there's a minimum of 50 to 51 parking
10 spaces available during all the time periods shown on this
11 chart.

12 CONSTANTINE ALEXANDER: This chart identifies --
13 excuse me, sir.

14 JASON FORNEY: Yes.

15 CONSTANTINE ALEXANDER: This chart identifies the
16 number of parking spaces, but does it show how many are
17 empty from various times of the day? I know that there's a
18 lot of -- not a lot -- there's parking spaces around the
19 site, but if you try to find a parking space there,
20 particularly on Walden Street, it ain't there. I know --

21 JASON FORNEY: Yeah, so --

22 CONSTANTINE ALEXANDER: -- because I used to live

1 in that general area. So I wonder --

2 JASON FORNEY: Right.

3 CONSTANTINE ALEXANDER: -- the numbers you propose
4 are a little bit exaggerated in terms of real life, as
5 opposed to theoretical?

6 JASON FORNEY: Sure. So these -- perhaps I wasn't
7 clear. This chart shows the number of vacant spaces that we
8 observed every two hours between 10a and 10 p.m. And again,
9 this is across the entire quarter mile study area, the area
10 within a quarter-mile radius of the site.

11 So we know the people are obviously going to want
12 to park closest to the site, so we also -- there's another -
13 - the study also looks specifically at the zones within a
14 two-block, within a two-block area of the -- two-block
15 distance of the site.

16 And in that area, we identified a minimum of 50-51
17 spaces during each of these time periods. In some cases, it
18 went up to 67; in some cases it went down to 51. But that
19 --

20 ANDREA HICKEY: Excuse me, this is Andrea Hickey.
21 Do you have a slide for that study within the two-block
22 radius of availability?

1 JASON FORNEY: It's actually in the -- through
2 you, Mr. Chair, it's actually in the parking memo. And, you
3 know, we were trying to keep the parking presentation
4 somewhat brief to go there.

5 ANDREA HICKEY: Yeah. I know parking is really
6 important to the neighborhood. So that's not a slide that
7 you're able to share now as part of your presentation?

8 JASON FORNEY: I don't believe we have that
9 loaded, no. But, again, it's in the parking memo. It
10 identifies a number of spaces that are available in the two-
11 block zone.

12 CONSTANTINE ALEXANDER: Following up on Andrea's
13 point, the -- a lot of the -- during the process of getting
14 to where we are tonight, there was those who were opposed or
15 have questions about this project focused on parking.

16 And so, I think a fulsome parking presentation was
17 called for, and not omitting slides that answer a very
18 relevant question that Andrea raised. I'm disappointed that
19 you don't have --

20 JASON KORB: Do you mind if I -- Mr. Chairman, if
21 you give me 30 seconds, I can probably pull it up if I stop
22 sharing my screen for one minute. Would that be okay?

1 CONSTANTINE ALEXANDER: I'm sorry, I didn't get
2 that. Please be?

3 JASON KORB: I could -- if you -- if I had 30
4 seconds, I could pull it up on my screen if I stopped
5 sharing for a minute. Would that be okay?

6 CONSTANTINE ALEXANDER: You've got 30 seconds --
7 not longer than that. This is --

8 ANDREA HICKEY: Yeah, I think Sisia would have to
9 allow him to share his screen, if --

10 JASON KORB: I was just sharing it.

11 ANDREA HICKEY: Okay, thank you.

12 SCOTT THORNTON: I think he's already sharing his
13 screen, so --

14 ANDREA HICKEY: Thank you.

15 SCOTT THORNTON: So I think the -- you know, and
16 if Jason can find that table, that'll identify what we're
17 looking at. Particularly, it should show that there's
18 between 52 and 54 spaces available at 10 p.m., when
19 residential parking is higher.

20 JASON KORB: Everybody can see my screen?

21 SCOTT THORNTON: Yup. Yup, that's the table right
22 there. So these highlighted -- these highlighted bars --

1 highlighted rows, show the zones, the specific zones, and
2 also the number of spaces.

3 And highlighted represent the zones that are
4 within the two-block distance of the site. So as I
5 mentioned, the totals vary between 50 and 67 spaces
6 available during each of these time periods.

7 ANDREA HICKEY: Excuse me, this is Andrea Hickey
8 again. So do we know again within this important two-block
9 radius which of these spaces are metered spaces and which
10 are resident spaces?

11 SCOTT THORNTON: These are a combination of
12 residential permit parking and spaces that had no
13 regulations on them.

14 ANDREA HICKEY: So metered spaces are not I
15 called?

16 SCOTT THORNTON: No. No, these are RPP spaces or
17 no regulation.

18 ANDREA HICKEY: Thank you.

19 SCOTT THORNTON: And in terms of the project
20 demands, you know, we -- the census data indicates that
21 about 32 percent of trips in this area are due to vehicle
22 trips, which likely indicates a lower auto use and ownership

1 percentage.

2 And in terms of trip generation, we also did a
3 trip generation analysis for the site, and we're expecting
4 about -- due to the mode split adjustments based on existing
5 census data, we're expecting about six morning or six
6 vehicle trips during the morning peak hour and nine vehicle
7 trips during the evening peak hour, and this is an
8 incremental increase in traffic levels of the area.

9 In terms of ways to mitigate that impact, the
10 applicant is proposing the TDM program, which has a number
11 of measures that are proven, and that are in the standard --
12 I guess I'd call it the standard toolbox of the city
13 community development and Traffic and Parking departments'
14 ways of addressing project impacts.

15 They include measures such as a Transportation
16 Coordinator to identify and put together packets of
17 information for new residents identifying what types of
18 alternative and sustainable transportation systems are
19 available in the area.

20 We're proposing a transit stream installation,
21 which provides up to date, real-time information for when
22 the next bus is coming by, when the next Red Line car is

1 coming by, when -- what available Ubers or what the closest
2 Uber and Lyft drivers may be to the site, and also, a
3 Bluebike station and dock availability for the Bluebike
4 stations in the area.

5 I just want to conclude by saying that the site
6 plan was reviewed by Community Development, by Traffic and
7 Parking, by DPW. The Traffic Department has reviewed our
8 parking study. They indicated that they -- they believe the
9 traffic impacts would be minimal, and particularly given the
10 site's previous use as a fast-food restaurant, which
11 generated much more traffic than this site, the proposed
12 site will.

13 They also indicated that they support the project.

14 So I'll turn it over to Jason, but I just think
15 that in general, you know, with the TDM program and the
16 alternative modes of transportation that are available. We
17 expect the project to have a very minimal effect on traffic
18 and parking in the area, and actually improve the level of
19 safety at the intersection along Walden Street.

20 Jason?

21 JASON KORB: Sure. I just want to close out by
22 pulling back a little bit more, giving ourselves a 30,000-

1 foot view of what we're trying to accomplish here, which is
2 to provide really high-quality affordable housing for
3 families that desperately need it right now.

4 And here are just some statistics: CHA has over
5 20,000 unique applicants on their waitlist right now. 7100
6 indicate they live in Cambridge or were a veteran. You can
7 see the mobile voucher waitlist numbers, which are just
8 astounding right now.

9 Homeowners' Rehab, the Finch, which I believe was
10 a permit project, they had 2261 applicants for 98
11 apartments. Port Landing, which is a project that Sean and
12 I completed back in 2016, was 1400 applicants for 20
13 apartments.

14 And the demand at Frost Terrace, we're actually in
15 the lease process now at Frost Terrace. Applications are
16 due back for a lottery which will be in February over the
17 next few weeks. We've only been marketing for two and a
18 half weeks. We've sent out over 500 applications.

19 We had 340 people register for our info sessions.
20 The demand is off the charts. We have to hire more people
21 to put applications in envelopes and field phone calls and
22 e-mails and people are saying we're not getting back to them

1 because we're totally overwhelmed with demand right now.
2 And some of the stories are just heartbreaking, they really
3 are.

4 And so, COVID has only made us so much worse. And
5 the Joint Center for Housing Study just came out with their
6 annual report that has all the data that backs all of this
7 up. People really need quality housing right now.

8 And if you want to talk about safety, you know,
9 people who live in overcrowded conditions with lead paint
10 that -- or their heat doesn't work, that's unsafe. That's
11 in my mind an unsafe condition for anybody. It's inhumane.
12 That's how a lot of people are living right now.

13 And this will be some of the most high-quality
14 housing in Cambridge. And that's of the utmost importance
15 to Sean, it's of the utmost importance to me. So I'd just
16 like to leave -- kind of close on that note. I'm thinking
17 about big picture what we're proposing here. Thank you for
18 your time, Mr. Chairman and the Board.

19 CONSTANTINE ALEXANDER: Does that conclude your
20 presentation, or your --

21 JASON KORB: It does.

22 CONSTANTINE ALEXANDER: Okay, fine. Thank you.

1 I'll open the matter up to questions by members of the
2 Board. Brendan, do you have any questions you wish to ask?

3 BRENDAN SULLIVAN: Brendan Sullivan. The one
4 question I would have for either Sean or Jason would be what
5 drove this thing up to nine stories? I mean, when you sat
6 down, you obviously have a blank piece of paper with that
7 lot, and then how does this thing grow? Obviously, the
8 need. There's no doubt that there was a need.

9 I'm sure that even going through all the
10 correspondence, there was nobody who was objecting to -- nor
11 should they -- to affordable housing. It's a very, very
12 worthwhile, very righteous thing to do for your fellow man.
13 I think we all support that.

14 But the impact keeps popping its ugly head. And
15 so, how did this thing get from a blank piece of paper to
16 nine stories. I mean, is it that we're going to build from
17 wall to wall, or and -- how did we get to that height? If
18 you can briefly -- I know this took many months, so I do not
19 need to resurrect all of it, but -- the minutia -- but if
20 you can just sort of tell us how did it get to the size of
21 this building?

22 JASON KORB: So let me try first, and maybe Jason

1 you can add to it. So I think -- so if we're on Mass Ave, a
2 major corridor, and we looked at the some of the
3 surrounding, taller buildings... we have six stories across
4 the street, we have eight stories down the block. There is
5 a nine-story building further down Mass Ave.

6 So part of it is we looked at the some of the
7 larger buildings in context. These buildings aren't LEED,
8 these buildings don't have the Passive House certification,
9 so we looked at that.

10 And that's kind of how we came up with the eight-
11 story building. When we looked at the -- part of it also
12 too is it's about maximizing the opportunity to be able to
13 provide family units. If we were doing a bunch of one-
14 bedrooms, we probably could do a smaller building and a
15 shorter building.

16 But we were looking at doing two and three-
17 bedrooms of quality size. They were the size and scope that
18 we needed to achieve. So that's kind of how we came up with
19 an eight-story building.

20 But it was an eight-story flat building, and we
21 didn't have -- frankly, we didn't acknowledge the
22 residential neighborhood behind. So in our early

1 conversation with our direct abutters, we had a conversation
2 and they were saying, "Look, the massing belongs on Mass Ave
3 because that's a major thoroughfare." And reasonable minds
4 can disagree whether eight or nine stories was appropriate.

5 But what we did hear loud and clear was on Walden
6 Street, we wanted to lower it down to six stories. And so,
7 we -- part of the key was to try to keep the unit count and
8 the number of family units in the.

9 So that's how we came up to nine stories, and then
10 lower down to six stories in the back. And six stories is
11 obviously not the three stories, but it does acknowledge the
12 fact that there's a lower residential neighborhood behind
13 us. I'm not sure if that answers that.

14 BRENDAN SULLIVAN: What were the guidelines under
15 the recently passed Affordable Housing Overlay ordinance --
16 what would --

17 JASON KORB: Yeah, so --

18 BRENDAN SULLIVAN: -- the guidelines be for that?

19 JASON KORB: So the Overlay would allow for a six-
20 story building. So 69 feet, with the idea that it is
21 ground-floor retail on the first floor. And, you know, the
22 Overlay has come up several times.

1 And we've always said to neighbors -- and I'm sure
2 the Board knows this as well -- the Overlay is one of
3 several tools to deliver affordable housing. 40B has always
4 been there.

5 But I think as the Board knows, that there are
6 legal challenges and other things that have stifled
7 affordable housing. So the City Council decided to have
8 another tool.

9 If you would notice that, we dropped it down to
10 six stories in the rear, and that six stories is the same
11 six stories that you would get with the Overlay. So in
12 terms of the building as its approaching the city parking
13 lot and the Walden Street neighborhood, that six stories
14 that we're proposing is the same six-story experience that
15 the neighborhood would achieve.

16 Now, some of the other benefits -- the widening of
17 Walden Street, the Passive House, the retail -- some of
18 these others are doing, those things are also tied to the
19 overall development. And so, --

20 BRENDAN SULLIVAN: Let me interject. Is that on
21 you guys, or is that in conjunction with the city a shared
22 cost, or?

1 JASON KORB: So that's the cost of this project.
2 We are doing this project. The city -- Traffic and Parking
3 suggested it. We researched it and we figured out that we
4 could make it work. So we are giving an easement to the
5 city by pushing our building back to increase the sidewalk
6 and we are taking the cost and the burden of this public
7 improvement that would only be done in this project.

8 BRENDAN SULLIVAN: I give you a gold star for
9 that. I go down Walden Street all the time, and that is a
10 disaster. That's a bottleneck right there. So I give you a
11 gold star for that.

12 But, you know, you had mentioned, or Jason had
13 mentioned, that Cambridge Housing Authority currently has
14 20,700 applicants, and that the Finch Apartments there were
15 2261 who applied for residency for only 98 apartments.
16 You're providing 48 units in a nine-story building.

17 So even if you were to -- I mean, you're never
18 going to satisfy the need for affordable housing, and we
19 should do whatever we can to provide it. But, you know,
20 even if you built 100 of your projects, that only gives you
21 4800 units. There were 20,000 applicants.

22 But, you know, the question is -- again, I'm not

1 trying to be a wise guy here, but what does 108-story
2 buildings look like? I mean, there has to be some urban
3 design element to this, and the effect on surrounding
4 neighbors.

5 And so, that's where I'm a little hesitant on your
6 proposal. You know, I look at -- and again, the other day
7 I'm up at the corner of Huron, and I want to editorialize a
8 little bit here -- the corner of Huron and Concord Avenue,
9 and I look and -- you know, where Sarah's is, and then you
10 look across the way where the Hi-Rise is, and then the other
11 way where there's the gas station, and I'm looking and I'm
12 seeing similar sized lots. What about a nine-story building
13 on either one of those corners? What about on two of the
14 corners?

15 And, you know, the corner of Pemberton, Rindge
16 Avenue and Mass Ave. That's a one-story retail block, and
17 what about a nine-story building there? And then we can
18 always point back to, "Well, you know, you approved it on
19 the corner of Walden and Mass."

20 So I'm not sure if that's the road -- and I'm
21 hesitant -- is that the road that we really need to go down
22 or will go down? Maybe we won't. So, you know, I keep

1 going back to the Affordable Housing Overlay Ordinance and
2 some of those guidelines. So anyhow, that's my comment and
3 I will listen to other members of the Board.

4 The other thing is that a tremendous amount of
5 comments have come in in the last couple of days, which I
6 have not had a chance to review. Your application is 409
7 pages, which I got through, and some other comments.

8 So, again, I value the people who took the time to
9 write in. I was not able to read it all, and I value that.
10 So I would be interested, other Board members, whether or
11 not they also are comfortable with reviewing all of the
12 material that was submitted.

13 CONSTANTINE ALEXANDER: Andrea? You might want to
14 respond to Brendan's question, or you've got other questions
15 of your own?

16 ANDREA HICKEY: Yes, please. So I do have to say
17 that with respect to the issues regarding nine stories and
18 sort of setting precedent, I concur with Mr. Sullivan that
19 it troubles me a bit. I do appreciate the step back in the
20 rear, more residential part of the parcel. But the massing
21 on Mass Ave is still pretty significant.

22 It's tough, of course, to weigh that against

1 providing affordable housing, which, without question, is
2 needed in Cambridge desperately. So I won't repeat what Mr.
3 Sullivan said, except for that comment.

4 With respect to Traffic and Parking, I very much
5 appreciate your parking study and the detail that you've
6 provided tonight, it's really helpful. I know you mentioned
7 that you have another affordable project, Port Landing. Are
8 you still involved with that project?

9 JASON KORB: We are.

10 ANDREA HICKEY: All right. So that unit -- that
11 project, you indicated, had 20 units. Are they all
12 affordable unit?

13 JASON KORB: They are.

14 ANDREA HICKEY: And how many parking spaces are
15 available for the occupants of those 20 units?

16 JASON KORB: So 14 are available. There are 16 in
17 the garage.

18 ANDREA HICKEY: Okay.

19 JASON KORB: We use one for management and
20 maintenance type stuff.

21 ANDREA HICKEY: All right. And do you have any
22 idea -- it's sort of a random question, but -- of those 20

1 units, how many of those units own a car?

2 JASON KORB: Good question. So we know that 14 of
3 the spaces are taken.

4 ANDREA HICKEY: Right.

5 JASON KORB: We did --

6 ANDREA HICKEY: But do you have a waiting list for
7 spaces?

8 JASON KORB: I don't believe we do.

9 ANDREA HICKEY: Okay.

10 JASON KORB: I have not heard of that. That being
11 said, the property manager did indicate to us when we
12 reopened that one or two residents actually bought cars
13 because now they have a garage, which I thought was very
14 interesting.

15 ANDREA HICKEY: Oh.

16 JASON KORB: So.

17 ANDREA HICKEY: All right.

18 JASON KORB: Yeah. So the reason for my question
19 is with 49 apartments proposed here, and really three spaces
20 because we can't count the drop-offs, I just wonder how many
21 of those 49 residents will have cars, and how that really
22 will impact the neighborhood? Can you speak to --

1 JASON KORB: Sure, so --

2 ANDREA HICKEY: I know you can't guess how many
3 will have cars, but just trying to extrapolate the real
4 situation at Port Landing, if that's at all similar?

5 JASON KORB: No, it's a great -- it's a really
6 great question, so -- and Scott can speak to this to. But
7 we anticipate about 50 percent of the units will have cars.
8 So we'll have about 25 cars, plus or minus.

9 ANDREA HICKEY: Okay.

10 JASON KORB: That will be the demand. So similar
11 to Port Landing.

12 ANDREA HICKEY: All right. So from your parking
13 study, if I understood it correctly, within that two-block
14 radius, there being sort of 50 spots available more or less
15 on an average, those spots would seem to be able to
16 accommodate what you anticipate for cars, do I understand
17 that correctly?

18 SCOTT THORNTON: Yeah.

19 JASON KORB: I'd like Scott to go on the record on
20 that one.

21 SCOTT THORNTON: Yeah, absolutely. I think that,
22 you know, if we're looking -- and there's a number of

1 studies and statistics, particularly in Cambridge and, you
2 know, some areas where there's -- where parking is tight and
3 there's a reduced auto ownership percentage, you know, if we
4 have 50 percent car ownership.

5 And that will have us somewhere around 25 spaces,
6 we think that that can be accommodated within the two-block
7 area. But absolutely within the quarter-mile radius, which
8 is still not that far of a walk.

9 Obviously, people want to park closer to their
10 residence; we found that there is sufficient space to
11 accommodate that demand.

12 ANDREA HICKEY: All right. Just looking at the
13 numbers again, comparing to Port Landing. So with 20 units
14 having 14 spaces, you really sort of covered 70 percent of
15 the units with parking. The number is here with 49 units
16 and three accessible spaces don't come anywhere near that.
17 What is the reasoning for not trying to reach that same
18 ratio that you did at Port Landing?

19 JASON KORB: Sure, so there is a lack of space.
20 So the basement -- first of all, in order to get cars down
21 to the basement, you would either have a ramp, which would
22 take up most of the basement space -- Port Landing was a

1 much larger site, and much more suited for a double loaded
2 car garage. So you would actually have to install a ramp
3 here, and Scott can talk more about that. It would have to
4 be an automated ramp.

5 The issue is that when half the basement is bike
6 parking, and all the mechanicals are going into the basement
7 as well, including the transformer, which we know has been
8 an issue in the community. We know that another development
9 didn't account for the transformer in their plans and ended
10 up in a very public location.

11 When we actually -- you heard a lot about this
12 when we did Frost Terrace when we have placed the
13 transformer in any assigned equipment over it at Frost
14 Terrace -- we've done the same thing here as well.

15 Jason, I don't know if you wanted to add anything
16 additional to that?

17 JASON KORB: I think you covered it well. The
18 tradeoffs that we would have to make would be to not have
19 active uses on Massachusetts Avenue, or we would have to go
20 up and displace units.

21 ANDREA HICKEY: How many units would that tradeoff
22 cost you, approximately? How many spaces could you get if

1 you sort of did a tradeoff?

2 JASON KORB: It's hard to say, but if I had to
3 guess, I would say it would take a whole floor of the
4 building, which is six units that would impact financial
5 feasibility.

6 A more likely approach, which we've talked to some
7 neighbors about, would be to add potentially some stackers.
8 This would eliminate the drop-off parking spaces. It would
9 add cost to the project, but the project is right teetering
10 on the edge of financial feasibility, as it is. I mean,
11 it's a very nicely designed building.

12 And so, that's not something we'd commit to today,
13 if the Board wanted us to look at that. We would have to go
14 back and review financial feasibility, which we have some
15 big concerns about, and I think we'd have to even understand
16 -- and Jason, maybe you -- Jason's done a little bit of
17 study on this too, that in terms of the numbers it wouldn't
18 be significant.

19 I think we'd be talking around eight stacking
20 parking spaces. And then you would lose the drop-off
21 parking spaces.

22 ANDREA HICKEY: Right. And I do understand sort

1 of the tradeoff between providing more desperately needed
2 housing versus something like parking. So I appreciate your
3 taking my questions. That's all I have.

4 JASON KORB: Thank you.

5 CONSTANTINE ALEXANDER: Thank you, Andrea. Laura,
6 do you have any questions you want to ask?

7 [Pause]

8 CONSTANTINE ALEXANDER: Laura?

9 LAURA WERNICK: I think -- no, I would just echo
10 Mr. Sullivan's concerns about setting that amount of height
11 on in North Cambridge. That's a big concern for me. But
12 that's really -- that's my major contraindication. Thank you.

13 CONSTANTINE ALEXANDER: Okay. Jim Monteverde?

14 JIM MONTEVERDE: Yeah, this is Jim Monteverde. I
15 concur with --

16 CONSTANTINE ALEXANDER: I think you're muted.

17 JIM MONTEVERDE: -- Brendan. I think I have two
18 concerns, primarily. I --

19 CONSTANTINE ALEXANDER: Jim, I think you're muted.

20 JIM MONTEVERDE: Oh, I'm sorry. I'm sorry, can
21 you hear me now?

22 CONSTANTINE ALEXANDER: Yes.

1 JIM MONTEVERDE: Yeah, sorry. I have two
2 concerns; the initial, the primary is the height. I agree
3 with Brendan, and just from going up and down the street, it
4 just -- there's just too much mass there -- unarticulated
5 mass. I mean, I look at the housing building adjacent to
6 it. To the south, there's a lot of articulation on the
7 façade to try and mitigate the bulk.

8 This one just puts it plainly on the corner, which
9 I appreciate the clarity of it, but it's -- there's just too
10 much and too high -- too high beyond the allowed in the
11 Overlay District.

12 I think that also relates to my secondary concern,
13 which is the urban context, and wanting to not rely -- and
14 assuming that people will not be vehicle bound and they'll
15 use another mode of transportation in town.

16 I think if it were not as tall, therefore not as
17 many units, then I might feel more comfortable with the
18 parking count. As it is, it's -- and I understood the
19 presentation about the parking at Alice's, but I don't see
20 from the floor plan.

21 And I appreciate that this is primarily family
22 housing, but I've seen most of the discussion I think for

1 the not having vehicles as really applying to the -- let's
2 say the young, urban professional who's getting around by
3 Uber or by bike, not a family, where that may in fact have a
4 vehicle or have use of a vehicle.

5 So my secondary concern is just the very limited
6 vehicle count, either on the site or at another site, so
7 some accommodation for parking, and primarily it's the
8 building height is just my concern.

9 CONSTANTINE ALEXANDER: Thank you.

10 JIM MONTEVERDE: Thank you.

11 CONSTANTINE ALEXANDER: And I have a few points to
12 make. Like everyone else who's spoken, I am concerned about
13 the height, the nine-foot height on Massachusetts Avenue and
14 the overall massing on that corner. It's not a big lot, and
15 I understand that.

16 But I'm wondering whether -- why we couldn't have
17 a smaller structure. It would mean less affordable housing
18 to be sure, but we're talking maybe if you went down to a
19 six-story building all around, yes, you'd lose maybe I don't
20 know, 15, 20 units, but you would have -- city overall --
21 the impact on the city would be beneficial. That's where
22 the rubber meets the road in this case, is you've got a very

1 aggressive building that you want to have the town, the city
2 approve.

3 And yes, we do need affordable housing, no
4 question about that, but we're not no question about that,
5 but we're not going to solve the affordable housing crisis
6 by having 49 units as opposed to 30 units. And we do have
7 to take into account other -- in my mind -- considerations
8 besides just affordable housing.

9 That said, I would point out and remind Board
10 members if they're not aware of it, that the petitioner did
11 meet with the city's Traffic, Parking and Transportation
12 body, and I have in my possession -- it's in the file -- a
13 memorandum from that body. And so, several -- it goes at
14 length into a lot of the issue that have been touched upon
15 already.

16 But the Traffic, Parking and Transportation body
17 says that they strongly support this project, and they
18 believe that the project's traffic impacts will be minimal.
19 That's their view. I'm not sure I agree with that, but
20 that's how it is.

21 That's all I would have to say at this point. I
22 think it's time to open this matter up to public testimony.

1 And I suspect it's going to be quite a bit of it.

2 I would ask fervently -- ask the people who are
3 planning to speak, if someone, if you said something in
4 writing before, no need to say it over again orally. We do
5 -- we have read most, if not all, of the files. And we get
6 the message.

7 Second, you're going to have three minutes to
8 speak. Sisia's going to cut off the mic after three
9 minutes. It's sort of a -- it's going to go dead. We do
10 this -- I'm doing this only because we have to finish this
11 case tonight, and a lot of other cases that are sitting in
12 the wings.

13 So with that, I'll open the matter up to public
14 testimony and here are the instructions. Any member of the
15 public who wish to speak should now click the icon at the
16 bottom of your Zoom screen that says, "Raise hand." If
17 you're calling in by phone, you can raise your hand by
18 pressing *9 and unmute or mute by pressing *6.

19 SISIA DAGLIAN: Okay, a couple things. Jason, can
20 you unshare your screen? Okay, that would be better.
21 Thanks. I'm going to -- we have 28 people right now raising
22 their hands. I'm going to bring people into -- as panelists

1 one by one, and then when you're done with your three
2 minutes, the next person will be brought forward as a
3 panelist.

4 [Pause]

5 SISIA DAGLIAN: Oh, I think I have to be a host.
6 Okay. Hang on a second.

7 CONSTANTINE ALEXANDER: Sisia has to step out to
8 get some information from the staff. So we're just going to
9 pause for hopefully a few minutes.

10 BRENDAN SULLIVAN: Oh, I suppose while I -- this
11 is Brendan Sullivan -- I suppose while I have the mic and
12 there's a little pause in the action: A little comment that
13 I would like to make to the developing team is, you know,
14 when you think of affordable housing, I look down Rindge
15 Avenue, which we approved, obviously, the redo of those
16 apartments.

17 And we actually turned the project sort of 180 to
18 put a bigger building in the back and then the smaller
19 building up at the street side pushed it back a little bit,
20 so I have a little bit better streetscape.

21 And the comments that we heard then, and we also
22 heard them not too long ago regarding a Cambridge Housing

1 Authority redo of the apartments -- it was Miller Park or
2 some one of them -- was that people who are in affordable
3 housing, you know, they like trees too, they like open
4 space, they like gardens. We were talking about affordable
5 housing with families.

6 And I know that you're saying that the recreation
7 space can be down the street at different parks and what
8 have you, but, you know, people want to live where they can
9 -- especially with children -- just outside their door,
10 outside their back door, outside their apartment door. And
11 they don't have to go down the street and walk around the
12 corner and what have you.

13 Parents want to be, and guardians want to be,
14 close to their children and their children want to be close
15 to the home. And this doesn't really address that to me.
16 You know, yes there is a green space in the back, to be
17 shared by 49 other residential units, but I don't know.

18 We're just very vertical with this project, and
19 some other amenities that a lot of us take for granted --
20 open space, trees, gardens, green space and so on and so
21 forth is absent. So that's my comment.

22 SISIA DAGLIAN: Okay, representative Decker?

1 REPRESENTATIVE MARJORIE DECKER: Thank you.

2 First, I'm just going to just say this out loud, and I hope
3 it doesn't get held against me, but Mr. Alexander, I'm
4 really stressing out about looking at you with your mask
5 down being so close to Brendan there.

6 And, you know, I'm learning about more people
7 who've gotten this, like, just going into grocery stores
8 with masks on, so just -- I say that.

9 That said, I strongly support this project. I
10 hope that you will have the time to send the letter that I
11 wrote, and I have hardly approached this Board in my 20
12 years as an elected official, hardly as a City Councilor,
13 which might surprise some people, and certainly not as a
14 state representative.

15 But as somebody who grew up in public housing, I
16 can tell you every single one of those 49 units matter. And
17 the idea that we can't solve the problem of affordable
18 housing, I think it's a very dismissive way of actually
19 walking away from the idea that we can actually run to
20 opportunities to create good, affordable housing whenever
21 possible. Those 49 units represent 49 families and
22 individuals whose lives will be absolutely transformed by

1 the opportunity to live in our community.

2 And I'm having a hard time wrapping my head around
3 we want people to use smart growth urban planning. It is on
4 a main street. It is near public transportation, it's on a
5 bus line, and it's actually near a train station to walk to.

6 There's a lot of buildings in that neighborhood,
7 and I lived three blocks from that on the corner of Walden
8 and Richdale for many years, and I don't live too far away
9 now on Raymond so that the traffic through there will still
10 impact my life on Raymond.

11 And those of you who pay attention to these issues
12 will know that nobody's entitled to a parking space on these
13 city streets -- that because you were here first and you
14 have a car, there are days on street cleaning that my
15 husband and I park -- yes, four blocks away from our house.
16 And it is the complexity and the tradeoffs of living in an
17 urban community.

18 This project is beautiful. Both of the earlier
19 projects this development group have done have made me weep.
20 The idea that I might have as a child been able to live in a
21 place where the materials and the design and the location
22 were as beautiful as they are, it is profound.

1 And so, in the same way we want urban planning, I
2 think they have done their best to respond to the needs of
3 the neighborhood for those who have been concerned about the
4 massing. The step back on -- that goes back towards --
5 sorry, I'm -- Walden Street I think is brilliant. They're
6 providing a lot of additional green space.

7 Let's be clear. This project is far more
8 aesthetically pleasing than a lot of developments that are
9 commercial -- both housing and commercial -- in that very
10 neighborhood that had been allowed to go up.

11 And so I think they've gone above and beyond in
12 responding to the needs to the best they can. And I think
13 to say to flip it over, whenever we have the opportunity to
14 provide affordable housing, if you understand who that
15 speaks to -- and I, as somebody who grew up in public
16 hearing here, and is so extraordinarily grateful to still
17 live here, and by the way who's given back a lot to this
18 community and will continue to do so, every unit is
19 invaluable.

20 So when we have the opportunity to run towards the
21 possibility of building units, we should be doing that. And
22 so, I really hope that you will embrace this project. The

1 design is beautiful.

2 And we either want to building parking spaces to
3 encourage people to have cars or we don't. And having
4 served in this community for over 20 years, I have whiplash
5 trying to figure out what is it that we want. We provide
6 parking spaces, then we're encouraging people to have cars.

7 We don't provide parking spaces, and then we're
8 worried about people taking public parking spots. We want
9 good urban growth, so we put a building right there that
10 meets every criterion of what good urban smart growth is,
11 and all of a sudden, it's too much.

12 It is not too much. I think it's beautiful. I
13 think the developers have a really good history in this city
14 of doing good work and providing affordable housing, and
15 I'll tell you as somebody who pre-pandemic and during the
16 pandemic -- right, 7:30 I have not been off a Zoom call,
17 like many of you, since 8:00 this morning -- so much of my
18 time is about trying to address the incredible needs.

19 We were the number 1 state in the country up until
20 a month ago for unemployment. We continue to be very high
21 up there. The budget that we just passed left
22 Massachusetts. We took half of our rainy-day fund to be

1 able to pass the FY21 budget. We only have half of that
2 left, and the budget that we're predicting for next year is
3 going to be worse.

4 One in eight Cambridge neighbors is feeling hungry
5 and experiencing food insecurity. This is going to get a
6 lot darker, even as the vaccines start to protect us from
7 the virus. The economic devastation will continue to be
8 experienced by a number of people at a time in which those
9 who are very wealthy seem to be still doing very well under
10 these pandemics (sic).

11 But those who are not are not doing well, and we
12 have an opportunity to continue living our values.

13 And finally, I would just say that for those who
14 are in this incredible privileged position of making this
15 decision, I have to believe that if you truly understand who
16 has the opportunity to live there, or who will be denied the
17 opportunity, that you would reframe what this project means
18 and what it -- and how to actually fight for it, as opposed
19 to pick away at it about why we shouldn't do it. Right?
20 Thinking about if you want it, then you could -- there's a
21 lot there to talk about why the tradeoffs are worth it.

22 And I want it because every day I'm exhausted

1 trying to think about how to meet the needs of people in
2 this community who are suffering exponentially with this
3 pandemic. And I want them to live in Cambridge, because
4 Cambridge is a great community that provides really good
5 opportunities, resources, and can be transformational for
6 people.

7 Having people -- if you can't live in Cambridge
8 because it's not affordable, guess what? You're actually
9 traveling two hours south or north of Cambridge to find an
10 affordable place. And I think that we're a pretty amazing
11 community that will only be amazing as long as we continue
12 to respond to those who want to live here but can't afford
13 to.

14 I don't see how we would be looking at ways to
15 walk away from this. I think that every unit will matter,
16 and I don't know that I have a whole lot more to say except
17 I hope that you do read my letter. For as many of you who
18 think you know my life, I don't tend to actually talk a lot
19 about my private journey from -- and why this project
20 matters to me, but it matters a lot.

21 And I would not be here as someone who's giving
22 back to this community a lot and quite frankly, as someone

1 who's now given back to the state in very important ways
2 through legislation. I've not only advocated for it, but
3 I've passed.

4 And that legislation has touched people who've
5 experienced domestic violence, people who are living in
6 poverty, people who are worried about having guns used
7 against their loved ones or used for suicide. I've passed
8 really big laws in this state that have changed lives and
9 will save lives.

10 And I would have never been able to do it without
11 the opportunity to live in an affordable housing unit in
12 Cambridge with the support and the choices that many people
13 in powerful, privileged positions like you have to do today.
14 You have an awesome opportunity and a privilege to save
15 lives.

16 And this is a good project. This is not a project
17 that we have to, like, hold our nose and vote for, because
18 we have enough of that. This is an amazingly beautiful,
19 well-developed, well-planned project by developers who've
20 proven themselves through their work, not just through their
21 words.

22 Those of you who are serving right now on this

1 Commission and who are in the chamber, I want to thank you
2 for your service. You have a thankless job pre-pandemic,
3 and the fact that I'm sitting here watching you and I have a
4 little bit of palpitations for you, I just thank you for
5 your service right now. And I hope that you will read the
6 letters that have come through. And I hope you will embrace
7 the incredible opportunity and privilege that you have
8 before you. Thank you.

9 SISIA DAGLIAN: Thank you. Councilor Carlone?

10 COUNCILLOR CARLONE: Thank you. I was expecting
11 to speak later, but I appreciate it. As some of you know,
12 I'm an architect/urban designer. I've done 500 units of
13 affordable housing. Only one building was a high rise, and
14 that was in Manhattan many years ago.

15 Almost all affordable housing is done up to six
16 stories. And the reason for that is the cost per square
17 foot is significantly less because once you go over 70 feet,
18 the code requires high rise construction. It's a big
19 percentage increase. I don't understand that, but I'll
20 leave it there.

21 From an Urban Design point of view, I was against
22 the Affordable Housing Overlay because I thought it should

1 focus on Mass Avenue and Broadway, not in the middle of
2 neighborhoods. This -- so this is a perfect site for that.
3 It's -- absolutely should be there. I don't think neighbors
4 are against that.

5 I was asked to participate in the other housing
6 that was mentioned on the other side of Porter Square by the
7 Development Team, and I worked with the neighbors, and I
8 think the resolution is a reasonable compromise.

9 In this case, we're putting the same number of
10 units -- actually a few more -- on a site that's about a
11 little more than a third of the other site size, if I
12 remember correctly.

13 Now, this is public money, and I'm all for
14 maximizing affordable housing. I think the city you should
15 be using its own land to help developers. I've pushing for
16 that. I'm the guy that's gotten more money for affordable
17 housing and am proposing a transfer fee to get even more.

18 But one of the key things I pushed for was
19 context. You want all housing -- whether it's on
20 Massachusetts Avenue or Walden Street -- to blend in. And
21 the more it sticks out, the more it's different. And I
22 think public money should balance the impact on adjoining

1 neighbors.

2 Now for instance, the Board has mentioned the AHO.
3 The AHO is about 70 feet in height on Massachusetts Avenue,
4 and then there would be a transaction in the back, which I
5 believe would be 45. The development team says it can be 60
6 -- maybe that's correct. But on abutting of the district, I
7 believe it should be 45. Sean's saying no. But
8 nevertheless, the maximum height is 70 feet.

9 I see no reason why it should be different.
10 Absolutely not. Let me just see if I -- 17 waivers,
11 including Design Review. The Board said, "How do you
12 mitigate this project?" Is this mitigation? A 102-foot
13 building? The building next to it is 60 feet. The building
14 across the street I believe is 68. Seems to me a 70-foot-
15 high building fits in perfectly, especially one that doesn't
16 really have any traditional architecture to it. This is a
17 shining example.

18 I believe that's all, except I think the
19 feasibility has a lot to do with the height, and I can't
20 imagine that a thirty-unit building 70 feet high would be
21 unfeasible. I don't understand that at all. And I think if
22 that's going to be something that the Board's considering,

1 you should see that. It should be analyzed and you should
2 see that, that it's unfeasible. I don't believe it.

3 Thank you for your time and putting in --

4 CONSTANTINE ALEXANDER: Thank you for your time.

5 COUNCILLOR CARLONE: -- speaking.

6 CONSTANTINE ALEXANDER: Thank you.

7 SISIA DAGLIAN: Pamela Winters?

8 [Pause]

9 SISIA DAGLIAN: Pamela, are you able to unmute
10 yourself?

11 PAMELA WINTERS: Yes, I just did. Can you hear
12 me?

13 SISIA DAGLIAN: Yes.

14 CONSTANTINE ALEXANDER: Now we can.

15 PAMELA WINTERS: Oh, good. Can you -- can
16 everybody hear me?

17 SISIA DAGLIAN: Yeah.

18 PAMELA WINTERS: Yes? Oh, good. Okay. Hi. My
19 name is Pamela Winters, and I live on Orchard Street, not
20 too far from where the proposed building is going to be
21 erected.

22 First of all, I just want to say that I object to

1 Representative Decker's comments. I don't think this
2 project is beautiful, and I know that a lot of her feelings
3 were reflective of her growing up in affordable housing. So
4 I just want to say that.

5 And I do agree with Councilor Carlone's comments,
6 and I think the project should be lower. You -- the
7 proponent is asking for 17 exemptions. I know that I have
8 read 40B, and I know that it is applicable for communities
9 that have 10 percent or less affordable housing.

10 We have almost 15 percent affordable housing.
11 We're never going to accommodate all of the affordability of
12 people who want to live in our community. It's just not
13 possible. We are now one of the ten top densest cities in
14 the entire United States for our population.

15 So meanwhile, Cambridge has 60 affordable housing
16 apartments, and I really -- in reading 40B, I went down to
17 part 4 number 2, and it talked about density and design --
18 the height, the massing details and the color and
19 relationship to the street. And all of those things are
20 coming before the BZA to be judged on this evening. So I
21 really want you to look at that very closely, I'm hoping
22 that you will.

1 And in terms of the parking, there's no reason why
2 they cannot have underground parking for 25 cars. Because
3 guaranteed there will be at least 25 cars that are going to
4 be -- people are going to want to go to work with, or to
5 use.

6 It is much higher in my estimation in the carriage
7 building across Mass Ave, and certainly the senior center
8 next door. So those are -- I know that you're pressed for
9 time this evening. I was on the Planning Board for 15
10 years, so I understand these things. And I'm just -- I'm
11 rather horrified by this building; I have to say. And I
12 think that I also speak for neighbors and other people that
13 I've spoken to about this.

14 So thank you very much for your time. I really
15 appreciate it, and I hope that you come to a reasonable
16 conclusion this evening. Thank you.

17 CONSTANTINE ALEXANDER: Thank you.

18 SISIA DAGLIAN: Thank you. Mitzi Fennel? Three
19 minutes.

20 MITZI FENNEL: Hi, thank you. I'm Mitzi Fennel.
21 I live at 37 Brighton Street. I'm the COO of a public
22 health organization, and I work in public housing. And I

1 support the construction of affordable housing at 2072 Mass
2 Ave. However, I believe it's possible to both provide this
3 much needed housing and not put a significant negative
4 impact on the neighborhood.

5 I'm very concerned about the need to provide
6 parking. I'm specifically speaking about the impact on the
7 residents on my street, Creighton Street, which is a logical
8 first street that the new building residents will go to
9 park.

10 I want to repeat that. If you look at the street
11 layout, it is obvious that the building's residents will
12 first seek to park on our street. The residents of
13 Creighton Street have submitted a letter.

14 I want to highlight some specific concerns related
15 to the parking census. Historically, evening parking has
16 been incredibly challenging on Creighton Street. And a
17 parking count I made for Creighton Street, there were five
18 nights in a two-week period with no spaces at 6:00 p.m.,
19 which is a critical time when residents are starting to
20 return home.

21 And by the way, the developer's census shows eight
22 spaces on the exact time and date that I counted only four.

1 But regardless whether it's eight or four, those spaces will
2 disappear with the addition of at least the 25 cars that the
3 developers assume would be added.

4 We are all clear on the positive human impact of
5 providing affordable housing. I would also like to put a
6 human face to the negative impact on existing residents. I
7 disagree with Representative Decker that having to park many
8 blocks from one's home is a tradeoff of living in an urban
9 area. I don't believe there has to be a tradeoff.

10 Imagine you're my 67-year-old husband with
11 arthritis in both hips, who has arrived home from an hour
12 plus commute, and must drive up and down the three adjacent
13 dead-end streets, and then if a space cannot be found, drive
14 around a half mile loop to get back home.

15 Or you're my neighbor with two young children
16 trying to hold their hands and juggle backpacks crossing
17 traffic after parking within a quarter mile, deemed
18 acceptable by the developer's parking garage census.

19 Or you're my 89-year-old normally very active
20 mother, who will not be able to go out in the evening to
21 events at her church because she's afraid she won't find a
22 parking space when she returns home.

1 These are real quality of life impacts. They'll
2 be multiplied by the number of families on our street and in
3 the neighborhood. I have great faith in the creativity and
4 resources of this city to address these challenges. If you,
5 the BZA, require parking be provided, it will be.

6 I would like to emphasize that this is not an
7 either/or situation. Instead, it should be a yes/and. And
8 thank you for your time.

9 CONSTANTINE ALEXANDER: Thank you.

10 SISIA DAGLIAN: Alright. David Sullivan?

11 DAVID SULLIVAN: Thank you. And thank you, Mr.
12 Chairman and members of the Board. My name is David
13 Sullivan. I live at 16 Notre Dame Avenue. I'm a former
14 member of the City Council, having served five terms. I am
15 a 30-year-homeowner in the North Cambridge neighborhood, and
16 I live less than half a mile from the project.

17 I strongly support this project. I believe, as I
18 have said to this Board many times before, that the most
19 important issue facing the city is affordable housing. I am
20 very conscious of the tradeoffs that several of you have
21 mentioned, and they are significant -- the issues of density
22 and height and necessary parking.

1 I'd like to call -- and there's no doubt that
2 those are real issues, and that they are issues in the
3 neighborhood, which I am a member of. I'm not an abutter,
4 but I live somewhat close -- but I I'd like to point of
5 access a couple things.

6 First of all, there are always tradeoffs.
7 Whenever we build more housing, there are going to be
8 tradeoffs. And, Mr. Chairman, as you eloquently pointed out
9 at the beginning of the hearing, the point of Chapter 40B is
10 to give some weight to affordable housing in terms of how to
11 make those tradeoffs.

12 It doesn't mean that the questions are easy, but
13 it does mean that there's supposed to be a sort of thumb on
14 the scale in favor of affordable housing.

15 Secondly, the experts, the city's experts on these
16 subjects have weighed in. The Traffic and Parking
17 Department has said that they agree with the developer's
18 recommendations about traffic and parking. The Planning
19 Board and the Community Development Department, which are
20 the city's experts on planning have weighed in in favor of
21 the project. It doesn't mean that -- you are the decision-
22 makers. Your board is the decision maker here. It doesn't

1 mean that you have to defer entirely to their
2 recommendations, but you should pay close attention to their
3 recommendations.

4 I understand the concerned about setting a
5 precedent. But I think the answer to that is you will have
6 a chance to look at every single project like this when it
7 comes down the pike. And if you disagree with the next one,
8 well, you can say no to the next one. Or you can impose
9 appropriate conditions on the next one.

10 So this doesn't tie your hands for all future
11 projects. It is important to consider how many people will
12 benefit from every last unit.

13 And it's true that we will not solve the
14 affordable housing project problem in Cambridge with this
15 one project. But it doesn't mean we shouldn't try. It
16 doesn't mean that we can simply throw up our hands and say,
17 "Oh, the problem is too big, let's not do anything about
18 it." we have to try every single time we have an
19 opportunity, and this is a really important opportunity, so
20 I hope you will say yes. Thank you.

21 CONSTANTINE ALEXANDER: Thank you.

22 SISIA DAGLIAN: Lisa Dreier?

1 [Pause]

2 Lisa?

3 LISA DREIER: Thank you. I just put my timer on.
4 Chairman Alexander and members of the Board, thank you for
5 the opportunity to comment. My name is Lisa Dreier. I'm a
6 native of Cambridge and a homeowner on Cogswell Avenue,
7 which is about one block from the proposed site of the
8 building.

9 I'm part of group called, "North Walden
10 Neighbors." We strongly support affordable housing in our
11 neighborhood, but have strong concerns about the design and
12 safety of this project. We have submitted into the record a
13 petition signed by over 260 nearby residents who share these
14 strong concerns.

15 Our fervent plea to the members of the Board this
16 evening is please do not waive Article 19. This project has
17 so many issues that have raised such a strong response from
18 the community that it really requires a project review,
19 including a traffic study that goes beyond the flawed and
20 incomplete parking only study that has already been
21 conducted, and actually looks at the potential safety
22 impacts on vehicle, bicycle and pedestrian traffic on this

1 highly congested neighborhood, adding 200 residents, many of
2 whom have small children, to this congested and dangerous
3 space.

4 A project review would also review the context issues
5 that have been raised this evening. The nine-story building
6 towering over this neighborhood is way out of context with
7 the current buildings in the area, and we would much prefer
8 a six-story height in alignment with the Affordable Housing
9 Overlay.

10 Overall, we are very concerned that this process
11 has been very rushed. The first community consultation on
12 this project was held only weeks ago in the middle of a
13 pandemic. We have an immediate abutter who was never
14 informed about this. We have a large apartment building one
15 block away on 35 Walden that had never heard about this
16 until last weekend. There's been a very rushed process with
17 incomplete community consultation.

18 But those who have heard about it react in shock
19 and horror when they heard that a nine-story monster
20 building is going up on our corner with this type of impact.

21 Once again, we welcome affordable housing in our
22 neighborhood. We see the need, but we do believe that it

1 should be an improved design that provides safety and fits
2 the context. We feel the developers are trying to railroad
3 this project through at too high of a speed, with incomplete
4 and inaccurate project documents provided to the Project
5 Board and to this Board, and that the entire process is
6 flawed.

7 So we request that you slow it down, allow for its
8 sufficient review, allow for sufficient consultation so that
9 we can work together to create an effective design to bring
10 this project into our neighborhood. Thank you.

11 CONSTANTINE ALEXANDER: Thank you.

12 SISIA DAGLIAN: Dana Schaefer?

13 DANA SCHAEFER: Hello. My name is Dana Schaefer.
14 I live on Cogswell Avenue as well, actually. And I do have
15 a lot of concerns about the traffic and safety. And I am
16 very disheartened that I heard that the Traffic and Safety
17 Board did approve this, because we've had a history of
18 talking with Patrick Baxter, who was our point person, about
19 safety issues on Cogswell Avenue a year ago. And we had
20 backups on Walden Street and cutting through Mead and
21 Cogswell documented for the past year.

22 And for them to say that there's no traffic and

1 safety issue is really, really upsetting to us, because
2 we've been talking to them for a while about that. So
3 that's probably my number 1 concern.

4 I also concur with the other Board members' issues
5 about the height and to scale down, and, you know, really
6 the big impact is everybody wants affordable housing, but to
7 put a square peg into this round hole doesn't seem to make
8 sense.

9 I mean, I think that it shouldn't be rushed, there
10 should be more of a nuanced approach to look at this and to
11 definitely hear the concerns of the neighborhood, which we
12 really feel like we haven't been heard, considering this has
13 been an issue for over a year.

14 So I would like to say that I think that the
15 waiver for Article 19 should not be passed by this Board.
16 Thank you very much for your time.

17 CONSTANTINE ALEXANDER: Thank you.

18 SISIA DAGLIAN: Anne Ferraro?

19 ANNE FERRARO: Hi. Can you hear me?

20 SISIA DAGLIAN: Yes.

21 ANNE FERRARO: Thank you for listening to me

22 today. Again, I live on Walden Street, and I agree with the

1 size is too much. I don't believe people who are developing
2 this project really understand the congestion and the impact
3 that traffic has during regular -- like, non-COVID times.

4 You know, half of the people cut through Walden
5 Street. It's one of the most traveled streets to get out of
6 the city; the people that are avoiding the parkway and
7 avoiding going other places that are just as congested.

8 And I've lived on Walden Street for 22 years now.
9 I've owned my home, and I just think it gets worse and worse
10 as things get developed. And there's a lot of people that
11 aren't around here right now, students and stuff that aren't
12 parking.

13 I just -- I ask that Article 19 not be waived, and
14 that they take their time. It's a very dangerous street.
15 There was a child killed at that corner of Mass Ave, who had
16 the right of way, was killed by a truck a few years back. I
17 don't believe that a nine-story building is in keeping with
18 the landscape, on Mass Ave in this area.

19 And I'm -- they mentioned Port Landing, which I am
20 familiar with. Somebody I know lives there, and it has an
21 underground parking garage.

22 And I would ask that they would try to develop

1 something more along those lines so that it would not impact
2 the parking. I have -- there's days when I can't even get
3 out of my driveway at rush time, and angry people that are
4 trying to avoid the Mass Ave light.

5 And also, the issue that they're taking away the
6 curbing on Mass Ave. So you've got people entering and
7 exiting -- 49 families entering and exiting in that right-
8 hand lane that is -- that has the first light.

9 SISIA DAGLIAN: Anne? I'm sorry, your three
10 minutes are up.

11 ANNE FERRARO: Okay, thank you.

12 CONSTANTINE ALEXANDER: Thank you.

13 SISIA DAGLIAN: Cathleen Higgins?

14 CATHLEEN HIGGINS: Hi. My name is Cathleen
15 Higgins, longtime renter in Cambridge, 345 Norfolk Street.
16 We're speaking in strong support of the project.

17 The context of that blending into the neighborhood
18 and the street is just one of our contexts that Dennis
19 Carlone refers to; there's also the context of being one of
20 20,000 people on a waiting list to get decent housing. And
21 also, the context of the ongoing crisis we are in due to the
22 lack of affordable housing in Cambridge and around the

1 country. Those are the significant contexts.

2 The fact that the Affordable Housing Overlay is
3 now in place with its incentivization of 100 percent
4 affordable development is a sign that there's broad support
5 in Cambridge for the type of building that Capstone
6 Community is seeking to build.

7 The passage of the AGO came as more elected
8 officials, policymakers and citizens have come to the
9 realization that residential segregation resulting from
10 racist zoning and federal housing policy needs to end. This
11 building is a step to correcting historical inequities that
12 have kept Cambridge unaffordable for so many.

13 I take issue with just the knee jerk reaction
14 against height. What is wrong with nine stories? There are
15 many wonderful communities -- multistory communities in
16 Cambridge. If we want to make significant dents in the
17 problem, we need density and we need height. Look across
18 the world.

19 If you really cared about the housing emergency,
20 you would embrace these types of buildings -- this type of
21 building to try to end the crisis.

22 Those who are opposed to this beautiful structure,

1 please see how lucky you are that you have the opportunity
2 to meet and welcome to your neighborhood 49 new families who
3 will bring their talents, livelihoods and interests to this
4 Porter Square community. Thank you.

5 CONSTANTINE ALEXANDER: Thank you.

6 SISIA DAGLIAN: Patrick Joyce?

7 PATRICK JOYCE: Hi there. Hi, my name is Patrick
8 Joyce and I live on Mass Ave, a couple of blocks north of
9 the site, and this is my first time speaking at a zoning
10 hearing, so thank you very much for the opportunity.

11 I'm asking you to support the project at 2072 Mass
12 Ave, and I have e-mailed my comments as well, so I'll be
13 very brief. My parents-in-law retired and moved to
14 Cambridge, and they were able to live here and prosper due
15 to city-run affordable housing program. I'd really like
16 Cambridge to not only continue to provide opportunities like
17 that to families, young and old, but to [2:14:00 audio
18 unclear]

19 [Pause]

20 SISIA DAGLIAN: Oops, oops, oops. Patrick?

21 [Pause]

22 PATRICK JOYCE: Hi.

1 SISIA DAGLIAN: Sorry, you got cut off.

2 PATRICK JOYCE: Something happened, I was
3 interrupted. Can you still hear me?

4 SISIA DAGLIAN: Yes, sorry. Yeah.

5 PATRICK JOYCE: Oh. So I'm not sure where I left
6 off.

7 SISIA DAGLIAN: You were talking about your
8 parents.

9 PATRICK JOYCE: So my parents-in-law were -- they
10 moved to Cambridge, were able to live here and prosper due
11 to a city-run affordable housing program, and I'd really
12 like Cambridge to not only continue to provide those kinds
13 of opportunities to families both young and old and to
14 expand them, and I'd like it to happen in my neighborhood.
15 Because I know people like that, I know how it changes
16 people's lives to have opportunities like that.

17 And so I want to echo both Marjorie Decker and
18 David Sullivan and particularly the previous speaker,
19 Cathleen Higgins who I just heard -- I don't know any of
20 these people.

21 But I understand their concerns about height and
22 mass and context which are questions of aesthetics and

1 appearance, and it's a building that has a relatively
2 thoughtful and attractive design compared to what's there
3 right now.

4 And I do hope that we can all keep in perspective
5 that these are questions of aesthetics, as opposed to the
6 much more urgent questions of affordable housing and
7 economic crisis, and of the good that we can do. And I do
8 hope that we'll can keep in mind sort of the relative
9 weighing in of those kinds of concerns. And so, that's why
10 it's an open project.

11 Thank you so much to the Board and to the other
12 speakers. Thanks.

13 SISIA DAGLIAN: Bill McAvinney?

14 BILL MCAVINNEY: Hi. This is Bill McAvinney.
15 Thank you, Chairman and members of the Board. I live at 12
16 Douglas Street, and I strongly support this project, and
17 certainly hope that you will approve the comprehensive
18 permit.

19 A couple of issues: I've now lived in Cambridge
20 for over 50 years, and I have lost an awful lot of my
21 neighbors due to a lack of affordable housing. This project
22 will help me just by making it possible for more Cambridge

1 residents to stay in Cambridge. That's one point.

2 The -- having to do with parking, I really
3 appreciate that these developers have used our -- or my --
4 public money wisely, our public money wisely by putting it
5 almost -- putting as much as possible into housing and not
6 into parking.

7 I actually believe that housing should be a human
8 right, and we should be providing housing to everyone. I do
9 not believe that having a place to park my car should be
10 something that the city provides me. That doesn't seem to
11 make sense to me.

12 And the last point is in terms of height, we need
13 to make choices about if we are going to have enough housing
14 in this city -- and I don't mean by creating extreme amounts
15 of housing, just to maintain it reasonably as it is to
16 accommodate its own growth, we are going to need to increase
17 height or just take open space. We've run out, pretty much,
18 of commercial or industrial space that we can use for
19 housing.

20 So the tradeoff here is do we put that height on
21 our main streets? That would be where I would suggest doing
22 it, not in the neighbors. Not -- definitely not on open

1 spaces. Thank you for your time.

2 CONSTANTINE ALEXANDER: Thank you.

3 SISIA DAGLIAN: Noah Maslan?

4 CONSTANTINE ALEXANDER: I'm going to ask the same
5 question. How many more?

6 SISIA DAGLIAN: 28.

7 CONSTANTINE ALEXANDER: 28? No, we can't go to
8 28.

9 NOAH MASLAN: Well -- hi, good evening Chair and
10 Board. And I think, you know, I'm just here to just say
11 that I strongly support this project. I live on Walden
12 Street a couple blocks down. I think it's a beautifully
13 designed building.

14 I think we need to take -- as a community, we --
15 Cambridge is at the forefront of all cities in the
16 Commonwealth in trying to deal with the affordable housing
17 crisis, and also, the climate change crisis.

18 So we allocate lots of money in the city to have
19 Net Zero buildings, Net Zero schools, but really the primary
20 contributor to climate change are emissions from cars and
21 single-occupancy vehicles.

22 And now here we have an opportunity to build a

1 bit of a taller building, which is totally within context in
2 the scale of Mass Ave, within walking distance of not only a
3 T station, but it is a transportation hub with the Commuter
4 Rail, the Red Line, and bus lines that go all over the
5 place. And so, folks are going to be able to live here
6 without owning cars. And it's going to help address the
7 climate change issue.

8 And then, and finally I just want to say that this
9 is going to improve the safety of Walden Street. I live
10 here with my family. We drive, we bike, we walk down this
11 intersection almost every single day, and by the developer
12 wisely giving part of the private land in order to widen
13 that street is a real -- is going to be a real significant
14 improvement.

15 And I think that none of the comments have really
16 addressed that tonight, and I think it's important that you
17 consider that.

18 Thank you, and appreciate the time.

19 SISIA DAGLIAN: Matthew Goldstein?

20 CONSTANTINE ALEXANDER: Excuse me, before you
21 begin, I want to repeat what I said before. We've got tons
22 of letters, memos, e-mails, what have you commenting on this

1 project. Most are in favor. We don't need to hear people
2 say, "I'm in favor" unless they're going to offer some new
3 reasons why we should -- this Board should approve what has
4 been presented that has not been presented before by the
5 previous speakers.

6 You don't make the case any stronger by dragging
7 this out. It's important we get to the end of the
8 discussion, but I do want to hear from people who have
9 things to say that have not been said before.

10 Go ahead?

11 SISIA DAGLIAN: Should we do one minute?

12 CONSTANTINE ALEXANDER: One minute?

13 SISIA DAGLIAN: To time it?

14 BRENDAN SULLIVAN: 30 people signed up?

15 SISIA DAGLIAN: 27 now.

16 BRENDAN SULLIVAN: Hm?

17 SISIA DAGLIAN: 27 now?

18 ANDREA HICKEY: Mr. Chair, if I could make a
19 seeing no one else in favor, declare that part of the
20 hearing closed -- this is Andrea Hickey -- perhaps as the
21 public sort of comes up one by one, we could ask whether
22 they've made a written submission? And if they have,

1 perhaps move to someone who has not?

2 CONSTANTINE ALEXANDER: That's a good suggestion.

3 BRENDAN SULLIVAN: Brendan Sullivan. To my other
4 fellow Board members, I just asked Sisia, and there are
5 possibly potentially 27 people who have signed up to speak
6 for three minutes. We're going to be here for another hour
7 and a half.

8 And as a reminder, we've 11 cases to hear after
9 this. So this is going to really kick in to tomorrow at the
10 current pace. So I just raise that issue so that you're
11 aware of it.

12 CONSTANTINE ALEXANDER: I think we would ask
13 anyone who wants to speak if they've commented to us already
14 in writing, and if they have, then we'll move on to the next
15 person who wants to speak. Maybe that will move it along.
16 But I would, again, make the suggestion urge everyone to
17 just not speak for the sake of speaking. We hear, we read,
18 and we'll make the best decision we can at the end of the
19 day. But we won't make a good decision if we're exhausted
20 from sitting here.

21 And as Brendan has said, we have 11 other cases --
22 not affordable housing cases. We have people sitting out

1 there waiting, and we have some tough cases coming up not
2 involving affordable housing.

3 So please, let your comments -- or better still
4 not make them -- if the comments that you want to make have
5 already been made by someone or by you in writing.

6 LAURA WERNICK: Mr. Chair?

7 CONSTANTINE ALEXANDER: Yes.

8 LAURA WERNICK: Can we limit people to one minute?

9 CONSTANTINE ALEXANDER: We can do that. I'm not
10 sure -- we'll try that. Okay. Starting now, the speakers
11 will have one minute to speak. And again, if they go over
12 the one minute, their mic will be cut off.

13 SISIA DAGLIAN: Okay, Matthew? Do you want to go
14 ahead?

15 MATT GOLDSTEIN: Yeah, hi. I'm Matt Goldstein at
16 52 Clarendon Ave. So I think part of the point of letting
17 the public speak in these kinds of hearings is to show,
18 like, support one way or the other. So I get that there are
19 a lot of people talking, but that doesn't seem right to me.

20 So I'll just say I've lived in North Cambridge for
21 close to 20 years. We've rented, we now live on 52
22 Clarendon Ave. I'm -- I support this beautiful project.

1 It's site appropriate, you know, it's going to add a lot to
2 what is sometimes a dreary walk along Mass Ave between
3 Porter and Arlington.

4 Our children attend the nearby Graham and Parks
5 Elementary School. So, like, pre-COVID we waited on Walden
6 often in that traffic. And yes, it's congested, and it's an
7 inconvenience, but we live in a city. So the rush hour
8 congestion is caused mostly by, like, regional commuters
9 trying to get across the tracks. So support the project.

10 Thank you.

11 CONSTANTINE ALEXANDER: Thank you.

12 SISIA DAGLIAN: Lee Farris?

13 LEE FARRIS: Good evening. Can you hear me?

14 SISIA DAGLIAN: Yeah.

15 LEE FARRIS: Great. I'm Lee Farris, 269 Norfolk
16 Street. I did write in. I will be within the one minute.
17 I'm speaking for the Cambridge Residents Alliance in overall
18 support of the affordable housing that's proposed here.

19 And the Residents Alliance is a citywide volunteer
20 organization with well over 1000 supporters. We especially
21 like that this is homes for lower-income residents, and that
22 most are family units, and that it's Passive House.

1 We have three requests and concerns. We think the
2 building would be much better if it provided two elevators
3 instead of only one. We would like the developers to
4 protect the residents of the CHA apartments next door during
5 construction; perhaps by paying to temporarily move
6 residents on that side of the building to other apartments
7 if they want to relocated.

8 And lastly, we ask that the developer pay for this
9 city to plant as many trees as will fit in the city-owned
10 parking lot, since no trees fit actually on its property.

11 But again, to repeat, we are strongly in support
12 of this proposal. We request that you ask the developers to
13 accept these suggestions. Thank you.

14 CONSTANTINE ALEXANDER: Thank you.

15 SISIA DAGLIAN: Itamar Tuner-Trauring?

16 ITAMAR TURNER-TRAURIG: Hi, my name is Itamar
17 Turner-Trauring. I'm speaking in support of this project to
18 add something new. One of the Board members referred to the
19 idea that parents need cars. We live about the same
20 distance from Porter Square as this building will be,
21 actually slightly farther. We don't own a car. It's fine.
22 Our neighbors upstairs do most of their transportation of

1 two young children without a car.

2 We know other people in the neighborhood who use
3 their car once a week, or don't have a car at all and they
4 have small children. It is perfectly feasible when you live
5 near a transportation hub, when you live within walking
6 distance of a supermarket and all the stores in the Porter
7 Square plaza to not own a car.

8 And one of the benefits of living in Cambridge as
9 a parent is that there are school buses, and so, you don't
10 even have to drive your kid to school.

11 So again, I support this project, and I do not
12 think that just because you're a parent you have to own a
13 car. I suspect that a lot -- it is perfectly -- given the
14 location it will actually be just fine for many families.

15 Thank you. Again, I support this project and I
16 hope you approve it.

17 SISIA DAGLIAN: Thank you. Ruth Riles?

18 RUTH RILES: Hello. Can you hear me?

19 [Pause]

20 RUTH RILES: Can you hear me?

21 ANDREA HICKEY: Yes.

22 RUTH RILES: All right. I did write in. I am

1 President of the Porter Square Neighbors Association, but as
2 I said in my letter, I'm not speaking for the whole
3 organization.

4 But I just wanted to add that I am disappointed
5 that the Board is not more -- at least in the comments I've
6 heard so far -- more forward-looking. I spent two years of
7 my life on the Envision Cambridge Advisory Board. We looked
8 at Cambridge Street and Mass Ave as places in the city,
9 focused on them to actually put taller buildings.

10 JASON KORB: -- on the list, can you? Sorry.

11 RUTH RILES: And we looked at the possibility of
12 having buildings there as tall as nine or 10 stories, and
13 would that be feasible? I think the building is beautiful,
14 and I think they've made an accommodation to the
15 neighborhood behind it.

16 [Pause]

17 JASON KORB: Hello?

18 CARL NAGY-KOERSHLIN: Hi. I'm not sure if my name
19 was called, I lost connection. This is Carl Nagy-Koershlin.
20 Can you hear me?

21 COLLECTIVE: Yes.

22 CARL NAGY-KOERSHLIN: Sisias, are you there?

1 JASON KORB: Looks like there's some issues going
2 on.

3 CARL NAGY-KOERSHLIN: Yeah. Shall I proceed?

4 JIM MONTEVERDE: Might as well, you have the
5 floor.

6 CARL NAGY-KOERSHLIN: Okay. Carl Nagy-Koershlin.
7 I'm the Executive Director of Just-A-Start, and thank you
8 for your time. I'll be very brief. In addition to being at
9 Just-A-Start, which, like Capstone is very committed to
10 developing high-quality affordable housing and has an
11 established track record in that regard, I'm also a former
12 resident of Creighton Street. And I understand the
13 inconvenience that people are speaking of when they're
14 looking to park their cars.

15 But with all due respect, there's something here
16 that's much more inconvenient that I see every day, which is
17 the inability for people to find decent places to live for
18 their families.

19 So I really do think the proper weight should be
20 given to the tremendous opportunity and life-changing impact
21 that a quality unit of housing in this neighborhood will
22 have on the lives of these individuals and families,

1 connecting them with economic opportunity, mass transit,
2 good schools, good services.

3 So every unit we lose will have a profound impact
4 on -- and curtailing the opportunity for the eventual
5 residents who can't be here to speak because we haven't
6 identified them. So I really encourage the Board to approve
7 the project which has been well thought through with a
8 tremendous benefit for the city. Thank you.

9 WILL MACARTHUR: Hello. My name is Will
10 MacArthur, and I'm a lifelong resident of North Cambridge.
11 This is my first time speaking before the Board, so thank
12 you for the opportunity. I submitted written comments, so
13 I'll keep it very brief. I mean, I just wanted to say that
14 I strongly support the proposed homes on this site, and I
15 think they'll be a great addition to the neighborhood.

16 To make just one additional point, I've heard a
17 lot tonight about the tradeoffs of this project, and I
18 definitely acknowledge those, but I also wanted to speak to
19 the tradeoffs that happen when we don't take advantage of
20 opportunities like this to add the affordable housing we
21 need to the city.

22 It's a tradeoff when many of my former classmates

1 from Cambridge public schools leave the city because we
2 can't afford to live here as young people.

3 It's a tradeoff when people who work in Cambridge
4 make two-hour commutes by car, and it's also a tradeoff that
5 more than 500 Cambridge residents were living without
6 housing even before the pandemic.

7 I hope that the Board considers these tradeoffs as
8 well as those identified by the neighborhood in these
9 deliberations and grants a comprehensive permit for the
10 proposal as written. Thanks very much for your time.

11 JACKSON MOORE-OTTO: Hello. It looks like I've
12 been unmuted. Am I supposed to speak now? This is Jackson
13 Moore-Otto.

14 JIM MONTEVERDE: Go right ahead.

15 JACKSON MOORE-OTTO: Okay. Thank you very much.
16 So my address is 9 Doane Street, and I would like to speak
17 and I would like to speak very briefly in support of this
18 project, which I think is an amazing project.

19 I've lived in Cambridge my whole life, that's
20 almost 21 years. I've been so grateful to live in a place
21 with such amazing education and economic opportunity. And
22 people need a place to live. And I think there are few

1 better places to live than Cambridge.

2 So I hope that as the Board weighs all the issues
3 that have been brought up, they will keep in mind that
4 denying any units created will have a negative impact on
5 potential residents, and conversely creating these units
6 will unlock economic opportunity and housing stability for
7 so many people. Thank you.

8 REVA STIEN: Am I being called on?

9 JIM MONTEVERDE: There you go. You're live.

10 Riva?

11 REVA STIEN: Thank you very much for this
12 opportunity to speak tonight. My name is Reva Stien. I've
13 lived in Cambridge as a renter for 25 years, and I would
14 like to stay here, but Cambridge is very, very unaffordable.
15 I fully support this project. I think, you know, housing is
16 a right that everybody should be entitled to. Having a
17 parking space is not a right.

18 But I would recommend thinking about Zip cars.
19 You know, if there's a way for the development to find a
20 couple of spots on the street, or through the City of
21 Cambridge or maybe giving up one of the handicapped spots
22 for a Zipcar that could be used by the development where

1 people wouldn't each have to own their own car, but would
2 have a car available to them.

3 I fully support this project. It's a catastrophe
4 to be homeless and not be able to find a home where you
5 would like to live. Thank you very much.

6 DANFORTH NICHOLAS: Hi, is it my turn?

7 JIM MONTEVERDE: Yes, sir.

8 DANFORTH NICHOLAS: Okay. My name is Danforth
9 Nicholas. I live on Richdale Avenue, right next to Walden
10 Street just a couple of blocks from the proposed site. I've
11 been a homeowner in the state for 15 years. I want to
12 express my strong support for this project exactly as it's
13 currently envisioned. This is a beautiful building; I want
14 to see it in my neighborhood. And I don't support reducing
15 the height or adding any additional parking.

16 The reason that I live in this neighborhood is
17 because I want to be able to live without a car. And I
18 think that this is a wonderfully car unfriendly
19 neighborhood, and I want to keep it that way.

20 So thank you very much for letting me speak, and
21 I'll let us keep going.

22 JIM MONTEVERDE: Thank you for your time.

1 SUSAN FRANKLE: Hi. This is Susan Frankle. Can
2 you hear me?

3 JIM MONTEVERDE: Yes, ma'am.

4 SUSAN FRANKLE: Thank you very much for the
5 opportunity to speak. My name is Susan Frankle. I live
6 about 300 feet from the proposed development on Houston
7 Park. With all due respect to this discussion, many of the
8 supporters are not in the immediate neighborhood -- not all,
9 but many. And I feel like the context of the safety of
10 intersection is really critical here.

11 And I'm going to add new content, because it's
12 from a set of conversations that I had with Joe Barr
13 yesterday from the -- Joe Barr in the Traffic Department
14 yesterday, and then again, this morning. And I'm guessing
15 Joe Barr's not going to speak today.

16 I really take exception to the Traffic
17 Department's recommendation in strong support of this
18 project. I spoke with Joe, and he told me after we
19 discussed the complexities of the site and I queried him, he
20 said that no one from the Traffic Department has been to the
21 site in almost a year. I find that staggering. No
22 observations on the site from the Traffic Department since

1 this proposal began circulating.

2 You should find this staggering too. Yet the
3 Department is confident that there will be no impact to
4 traffic. We've got a senior center next door with a
5 driveway; we've got an affordable housing unit of seniors
6 and disabled people that abuts this -- that's the Russell
7 Apartments.

8 And so I don't understand how the Department --
9 the Traffic Department -- can strongly support this project
10 when there was a parking study done, not a traffic study
11 done. How could they reach this conclusion?

12 So I strongly urge you do not waive Article 19.
13 This project needs more study. This building will likely
14 last 100 years. I hope it can be resized to be an
15 affordable housing project that is safe for the neighborhood
16 and safe for the future residents. Why wouldn't we pause
17 for a moment and be rigorous in the planning process? Thank
18 you so much for allowing me to speak.

19 JIM MONTEVERDE: Thank you. Jessica?

20 JESSICA SHEEHAN: Hi.

21 JIM MONTEVERDE: I think you're on.

22 JESSICA SHEEHAN: Thank you. Hi. My name is

1 Jessica Sheehan, and I live at 48 Fairmont Street. A quick
2 note about not wanting to have to hear from supporters: If
3 I knew this was going to go through without sacrificing any
4 homes, I would be happy to skip commenting. I have other
5 things that I could be doing with my time too.

6 I'm commenting on because I care about this very
7 much. With the power to make these decisions comes the
8 responsibility to listen to people, even if you find it
9 tiresome or repetitive.

10 With that aside, I strongly support this project.
11 It's a great place for it, and as you well know, these units
12 are desperately needed -- every single one of them. In
13 survey after survey, Cambridge residents cite affordable
14 housing as our number one priority, that's the mandate.
15 There's obviously a lot of support for this project, it's
16 clearly well-planned. Please approve it without sacrificing
17 any affordable homes. Thank you for your time.

18 JIM MONTEVERDE: Thank you.

19 REBEKAH BJORK: Hi. My name is Rebecca Bjork.
20 Can you hear me?

21 JIM MONTEVERDE: Yes. Please go ahead.

22 REBEKAH BJORK: And I live down on Concord Ave,

1 and I've already written in to express my extremely strong
2 support for this project, both based off the need for
3 affordable housing and also the need for Cambridge to walk
4 its talk when it comes to combatting climate change. So you
5 can see that in my e-mail.

6 I wanted to use my minute just to address some of
7 the comments about the impact on parking. I'm (sic) a
8 residential parking permit down on Concord Ave near Garden.
9 It's a very congested parking area, but I understand that my

10 I wanted to use my minute just to address some of
11 \$25 a year doesn't guarantee me a spot in front of my
12 building. I'm happy to walk a little bit of a distance,
13 because opt for basically free parking. And it bothers me
14 to hear other residents of Cambridge upset that other people
15 might also want to use the same public good that they have
16 access to.

17 So again, I'm very strongly in support of this,
18 and I definitely do not want to see parking added. That
19 will only increase the cost, and also, encourage people to
20 drive and continue to contribute to climate change in a way
21 that Cambridge should not be doing. Thank you.

22 JIM MONTEVERDE: Thank you. James?

1 JAMES ZALL: This is James Zall.

2 JIM MONTEVERDE: Yep.

3 JAMES ZALL: This is James Zall, 203 Pemberton
4 Street speaking in strong support of this project. City
5 planners across the country and policymakers here in
6 Cambridge have come to recognize that providing more parking
7 results in more cars and more traffic.

8 Our local policymakers have also recognized the
9 severe shortage of housing, and most especially affordable
10 housing. It has afflicted the city and the region.

11 Cambridge's zoning regulations and practices have
12 lagged behind its policies, as evidenced by this hearing
13 tonight, some of our City Councilors have reported receiving
14 calls almost every week from longtime residents, including
15 school families and seniors, who are being priced out of
16 their homes and cannot find another apartment they can
17 afford.

18 Our city government has repeatedly stated its
19 intention of addressing this crisis. They've taken some
20 steps in this direction, but have hardly made a dent.

21 I have great difficulty accepting the idea that
22 trouble getting out of one's driveway or having to park a

1 block or two away from one's home outweighs the needs of
2 other people to even have a home. I ask this Board to think
3 long and hard before they decide to prioritize cars over
4 people.

5 JIM MONTEVERDE: Wallis Stein (phonetic) are you
6 on? Dave (sic) Eisner?

7 DAN EISNER: Oh, hi. Can you hear me?

8 JIM MONTEVERDE: Like, you have the floor.

9 DAN EISNER: I'm sorry about that. So my name is
10 Dan Eisner. I live at 6 Bristol Street. When I attend
11 meetings like these, my reaction is typically something
12 like, "I'm glad we're getting more housing, but why is it so
13 short? It should be taller." But this project really is
14 pretty much perfect.

15 When I imagine how Mass Ave would ideally be
16 developed, I envision in my mind a series of eight- and
17 nine-story buildings. And then I say to myself, "do not get
18 your hopes up too much." So imagine my pleasant surprise
19 when I look at this project. It really is great. And I
20 hope this can serve as a springboard for more buildings of
21 similar height on Mass Ave.

22 Mass Ave is the type of street where nine-story

1 buildings belong. As a previous commenter said, we don't
2 want tall stories and tall buildings in one-story
3 neighborhoods. So this is exactly where we should be
4 focusing, and we really shouldn't worry about the context of
5 what is currently there. We need to grow and put housing
6 where it makes sense, which is on Mass Ave. Thank you.

7 JIM MONTEVERDE: Thank you.

8 ALAN SADUN: Hello, can you hear me?

9 JIM MONTEVERDE: Alan, yes, we can hear you.

10 ALAN SADUN: Thank you.

11 JIM MONTEVERDE: Go ahead.

12 ALAN SADUN: My name is Alan Sadun. I'm here
13 representing A Better Cambridge, an all-volunteer group that
14 advocates for more housing for all of Cambridge. We
15 wholeheartedly support the proposed project at 2072 Mass Ave
16 and urge you to approve it. My organization has already
17 sent you a letter, so I'll only highlight two points.

18 The first, there is a growing concern amongst
19 urban planners nationwide this most American cities,
20 including Cambridge, have overbuilt their car infrastructure
21 at the cost of decreased air quality, decreased walkability,
22 underutilized land and increased carbon emissions.

1 To correct these trends, ABC believes it is
2 important not to build any additional parking, unless her
3 clear and unmet demand for it. This project located so
4 close to transit does not create any such demand.

5 The second point: Without the stability that
6 affordable housing provides, Cambridge's rising rents leads
7 to waves of displacement, disrupting families and
8 communities, putting all that Cambridge has to offer out of
9 reach for those who need it most.

10 We shouldn't be asking how do we mitigate the
11 project, saying we can't solve the entire problem at once,
12 so why bother? We should be asking, "How do we maximize the
13 project?" We urge you to approve this project. Thank you.

14 JIM MONTEVERDE: Thank you. dan? Yeah, I think
15 you're on.

16 CONSTANZA EGGERS: Hello? I think it's me --

17 JIM MONTEVERDE: No, sorry.

18 CONSTANZA EGGERS: -- on.

19 JIM MONTEVERDE: Ah. You're --

20 CONSTANZA EGGERS: Constanza Eggers.

21 JIM MONTEVERDE: -- we can all hear you. Yep.

22 CONSTANZA EGGERS: Okay.

1 JIM MONTEVERDE: Go right ahead.

2 CONSTANZA EGGERS: Constanza Eggers, and I'm a
3 longtime resident of Porter Road, a few blocks away, where
4 there's also a 26-unit affordable housing building, which is
5 just lovely that we've lived with for many, many years and
6 it fits right in with the neighborhood.

7 I want to say that I strongly oppose the waiving
8 of Article 19 and the request to waive the Design Review.
9 And these are the reasons -- and I am aware, by the way that
10 this is a friendly 40B, not an affordable housing ordinance
11 project, or proposed project.

12 I wouldn't be here -- just like Marjorie -- I
13 wouldn't be here if it weren't for affordable housing. And
14 I had -- I made use of everything I could and then rent
15 control happened.

16 And we all know that that -- ever since then,
17 people have been losing housing, losing housing, losing
18 housing. And that's -- I totally support and I have worked,
19 like many of the people here, for over 20 years on this
20 issue.

21 And we've participated like, you know, Jason said
22 he spent some time -- you know, a lot of hours and whatever,

1 and a lot of -- you know, well we spent a lot of years, like
2 20 years, in meetings participating to make the most
3 democratic way of urban planning, not just build by --

4 [Pause]

5 JIM MONTEVERDE: Gone. Dan? Looks like you have
6 the floor. No? It's like Hollywood Squares watching my
7 screen just trying to figure out who's speaking next. No
8 one yet.

9 ANDREA HICKEY: Jim, is Sisia not on the meeting
10 anymore?

11 JIM MONTEVERDE: I'm -- I don't -- I see her name,
12 but I -- and I see that she's not muted, she's unmuted, but
13 she's not -- I don't hear her.

14 ANDREA HICKEY: And I don't see the Chairman
15 either. Does he --

16 JIM MONTEVERDE: I know. Nathaniel?

17 SUZANNE BLIER: I was called.

18 JIM MONTEVERDE: Nathaniel?

19 SUZANNE BLIER: This is Suzanne Blier, I was
20 called.

21 ANDREA HICKEY: One moment, Suzanne.

22 JIM MONTEVERDE: Hold on. Hold on one second.

1 ANDREA HICKEY: Hold on, Suzanne.

2 JIM MONTEVERDE: We have a couple people who seem
3 to be -- we can hear them at a time. Nathaniel, you're up.
4 We can see your face. Could you just go right ahead, please
5 --

6 NATHANIEL SMITH: Sure.

7 JIM MONTEVERDE: -- for the next minute?

8 NATHANIEL SMITH: Sure, yep. Thank you. My name
9 is Nathaniel Smith. I bought my house on King Street, a few
10 blocks south on Walden from this location about four years
11 ago. I want to thank the Board for letting me speak
12 tonight.

13 Before I bought this house, I lived in the
14 neighborhood as a renter for five years. I strongly support
15 this project as proposed. I take a little bit of issue with
16 the idea that only people outside the community support this
17 project. All of my friends who own homes in this
18 neighborhood, all under half a mile from the site are very
19 excited about it, as proposed.

20 I think it's a remarkable location for an
21 ambitious, affordable housing project. A site like this so
22 close to public transportation and services, and so near

1 such diverse communities as -- you know, the affluent
2 community in Avon Hill, does not become available very
3 often.

4 If the citizens of Cambridge are serious about
5 trying to provide more affordable housing, it has to embrace
6 a project like this on a scale as ambitious as this. If a
7 building like this cannot be built on Mass Ave at this
8 location, then where is appropriate? If not here, where?

9 There are other buildings of a similar scale in
10 both directions on Mass Ave. And this will be in keeping
11 with the style of Mass Ave as an urban artery. I think the
12 project approach to parking is entirely appropriate, and a
13 necessary approach for a city that claims to value
14 walkability and the goals of producing fewer cars on the
15 street.

16 It is entirely appropriate for people who live in
17 cities to park on the street if this results in more cars
18 parking in the neighborhood, thus making it less convenient
19 for people like myself to have one or cars. And good
20 riddance, I'll get rid of one or both of my cars. I
21 understand --

22 [Pause]

1 JIM MONTEVERDE: Suzanne, are you still --

2 SUZANNE BLIER: I am.

3 JIM MONTEVERDE: -- unmuted?

4 SUZANNE BLIER: I am not --

5 JIM MONTEVERDE: Go ahead, please.

6 SUZANNE BLIER: I am unmuted. Thank you, Mr.
7 Chair and members of the BZA. I'm going to give a
8 contradictory statement. I really like the aesthetics of
9 the design, I think it's handsome and really well done, and
10 I commend Jason Korb and others on this, and I have thanked
11 him.

12 At the same time, he was one of several developers
13 who can be credited with playing a key role in the
14 Affordable Housing Overlay Guidelines making their projects
15 financially viable.

16 And I feel it's really important that this be a
17 project that conforms in every respect with what those
18 guidelines convey from the vantage point of height and other
19 things. We don't have a city plan, we have Envision with
20 114 or so goals.

21 So this could be a very important model for
22 further affordable housing project that's right on a

1 corridor, but it's really important that they be a model for
2 everybody else.

3 And we've got the time, because there's some
4 14,000 vacant -- available apartments in the Cambridge area.
5 So let's get this right. People are moving away in part
6 because of gentrification -- condos, not because of this,
7 and I really urge you to ask them to confirm with the
8 Affordable Housing Overlay objectives and criteria. It is
9 now the law, and it's an overlay of the other areas. Thank
10 you.

11 JIM MONTEVERDE: Thank you. Ruth? Ruth?

12 RUTH RILES: I don't wish to speak.

13 JIM MONTEVERDE: Oh, Ruth. No, sorry. I just --
14 I saw your name.

15 YOUNG KIN: My name is Young Kin, and can you hear
16 me?

17 JIM MONTEVERDE: We can hear you, go right ahead,
18 please.

19 YOUNG KIM: Yes. My name is Young Kim. I live at
20 17 Norris Street. Thank you for this opportunity to speak.
21 We seem to continue to delay making a decision in this case.

22 We have heard a lot of -- I heard a lot of good

1 comments and thoughts from the members, and we really need
2 to give Sisia and Jerry (sic) time to work with the
3 community to formulate a compromised plan that will satisfy
4 the critical need for affordable housing, at the same time
5 meeting the needs of the community.

6 Sisia and Jerry made some attempt at trying to
7 listen to our community, but they have been very adamant
8 about the number 45 units. I don't know what that the magic
9 that number 45 is, but by lowering the back half to six,
10 they raise the front by nine to maintain the nine units.

11 Also, they did not follow all the protocols of
12 submit --

13 [Pause]

14 JIM MONTEVERDE: Sorry, that's the one-minute
15 timer. Somebody's playing gatekeeper. Annemarie? I
16 believe the floor is yours.

17 ANNEMARIE FLYNN: Thank you very much. I'm
18 assuming that you can hear me.

19 JIM MONTEVERDE: Yes, we can.

20 ANNEMARIE FLYNN: Yep, good. What I wish to speak
21 to is the character of the neighborhood. I married into the
22 family that owned this house at 341 Walden, which is a

1 little further down, but it's still the same neighborhood.
2 It was constructed back in the '20s by her grandfather, and
3 at the time it was considered affordable housing. You see,
4 black people couldn't buy a house anywhere in Cambridge, but
5 in this neighborhood they could.

6 It was a tree-lined street, with mostly two-family
7 homes, where you would own one part and rent the other. And
8 it was yards with trees and safe parking. We didn't keep
9 our house locked for a number of years. It was only maybe
10 15 years ago we started locking it.

11 This is a neighborhood where my kids could learn
12 to ride their bikes in the yard and learn to climb trees,
13 and they'd play kickball in the street when the cars weren't
14 coming. It's changed a lot since then.

15 JIM MONTEVERDE: Annemarie? Sorry to interrupt.
16 Annmarie, sorry to interrupt, but you're going to get cut
17 off after a minute. So could you please --

18 ANNEMARIE FLYNN: Okay, so please --

19 JIM MONTEVERDE: -- let us know if you're in favor
20 or against, or what your rationale is?

21 ANNEMARIE FLYNN: Strongly against it. I see the
22 problem is when these houses turn over, these greedy

1 developers come in and make these overpriced condos, and
2 that's why the affordable housing isn't here anymore. This
3 is supposed to be an affordable housing neighborhood, not an
4 overdeveloped hindrance to the community.

5 Please stop this development. Consider the
6 traffic, consider the influence it's going to have on my
7 kids. My grandson's growing up here. My daughter still
8 lives in the neighborhood. Please don't do this to us.
9 Thank you.

10 JIM MONTEVERDE: Thank you. Do you think that's 27
11 speakers? I haven't kept count. No.

12 SEYMOUR KELLER: Yes, hello. Is it my turn?

13 JIM MONTEVERDE: Seymour, yes, you're up.

14 SEYMOUR KELLER: Okay, I'm --

15 JIM MONTEVERDE: The floor is yours.

16 SEYMOUR KELLER: -- speaking on behalf of 269
17 people, who signed a petition, what has been submitted, so
18 it's in your file. We are concerned about the safety
19 primarily of this dangerous corner, and what the addition of
20 the nine-story building will do to that.

21 So what we request is impact study to analyze the
22 impact of this development, resize the building in

1 accordance with the old, and enforce the safety and space by
2 regulation. So those are 269 residents, the majority of
3 whom live in close proximity, and 20 of whom are in the Mass
4 Ave affordable housing senior center, which is four feet
5 away from the proposed project.

6 Please don't ignore us.

7 JIM MONTEVERDE: Thank you. Alexa?

8 ALEXA REMPIS: Hi, yes, good evening. My name --

9 JIM MONTEVERDE: You have the floor.

10 ALEXA REMPIS: Thank you. My name is Alexa
11 Rempis. I'd like to read the following statement written by
12 my partner, Aubra Berkowitz (phonetic).

13 "Dear Ms. Pacheco and Board of Zoning Appeals
14 members, I'm writing as a neighbor of 2072 Mass Ave in
15 support of Capstone's project. I live at 16 Walden Street,
16 two houses over from what is now Darul Kebab.

17 "Pre-pandemic, I was lucky enough to meet
18 different neighbors. I met along -- two long-term Cambridge
19 residents, who were voucher holders. Both needed to leave
20 the North Walden area because their rental units were for
21 sale, and they couldn't find neighboring units would fit
22 their vouchers' payment standards. I also met residents who

1 lamented that their children couldn't afford to return home
2 and rent near them after college.

3 "The Capstone project will help keep people from
4 our neighborhood in our neighborhood. The project will be
5 an asset to neighborhood stability. Most importantly, the
6 Capstone project will include Section 8 voucher units and
7 family-sized units."

8 JIM MONTEVERDE: Thank you. Margaret?

9 MARGARET RUETER: Hello, everybody. Hi. I'm
10 Margaret Reuter, and I am actually a resident at the Russell
11 Apartments next door, the senior housing and for disabled
12 and senior residents.

13 And I essentially speak for the other residents in
14 the building here. And this is a really tough conversation.
15 The developer in the city and everybody is really -- you
16 know, giving acknowledgment to people trying to work
17 together to solve an urgent crisis.

18 But I really want to point out to this Board and
19 to people listening to this call that we are a community
20 four feet away of approximately 56 residents who have
21 particular concerns. We're residents of the city.

22 And I've written a letter. We are going to be

1 most affected by this building, and I won't even speak to
2 the fact that we are now going to hear and see people out
3 windows a few feet away from us.

4 What I really am most concerned about is the
5 safety from on Mass Ave. I went out the front entrance
6 today. It took me 22 steps to reach the bus shelter. I
7 passed 2 handicap spaces at the front of our building until
8 I got to the bus shelter -- there is a bike lane -- and then
9 I walked 30 more steps passing what's going to be the
10 entrance -- the residential entrance to 27 --

11 JIM MONTEVERDE: Margaret?

12 MARGARET RUETER: Yep?

13 JIM MONTEVERDE: Margaret, sorry. We've got a
14 time limit of -- you're in a minute and a half now. You're
15 kind of at the limit. Can you --?

16 MARGARET RUETER: Oh, I will wrap up. All I'm
17 asking --

18 JIM MONTEVERDE: For or against?

19 MARGARET RUETER: Yeah, no, it's not that I'm
20 against. I'm asking a pause to study more of the
21 implications.

22 JIM MONTEVERDE: Okay.

1 MARGARET RUETER: I'm not sure the size is the
2 right amount.

3 JASON MARSHALL: Very good. Thank you. Michael?

4 [Pause]

5 Michael? I think we can all hear you.

6 MICHAEL BRANDON: Yeah, thank you.

7 JIM MONTEVERDE: If you want to speak, proceed,
8 please?

9 MICHAEL BRANDON: Yes. It's Michael Brandon. I
10 live at 27 Seven Pines Avenue in North Cambridge. I'm the
11 Clerk for the North Cambridge Stabilization Committee. I
12 have written briefly just to point out that -- ask that this
13 hearing be canceled, because it doesn't seem to meet the
14 requirements under Chapter 40B, the Project Eligibility
15 Letter which suddenly popped up today, and no way for the
16 public to have seen that.

17 The entire process has been just ridiculous. I
18 would ask that you take a look at the requirements under
19 40B. There's a handbook for Zoning Board members to review,
20 and I think you'll see some of the problems.

21 The back room planning that's occurred with
22 certain departments, not others, a real problem. These are

1 public funds, there's dimensions and so, "Oh, we're giving

2 --

3 [Pause]

4 JAMES WILLIAMSON: Are you calling on me?

5 JIM MONTEVERDE: James, hi. You can --

6 JAMES WILLIAMSON: Yeah, hi.

7 JIM MONTEVERDE: -- we can hear you now.

8 JAMES WILLIAMSON: So this is a really --

9 JIM MONTEVERDE: James, there's a one-minute
10 limit, please.

11 JAMES WILLIAMSON: -- process from the perspective
12 of the public, and I -- you know, hope that's duly noted.
13 First of all, a colleague -- a tenant/activist/colleague of
14 mine are working very hard to help somebody who grew up in
15 Cambridge, lived in Cambridge all of his life, but doesn't
16 get the Cambridge resident preference. Why? Because he's
17 living in a basement in Brighton.

18 So we should take a more careful look at all these
19 criteria to see, you know, what's really going on here.
20 This is a regional problem, and it demands regional
21 solutions.

22 And if you're talking about height, why are there

1 boutique hotels in Porter Square, four- and five-story
2 boutique hotels that should have been seven, eight, nine
3 stories but now, they were allowed to come in under
4 residential use. Whereas this is going to be a quarter mile
5 away.

6 For people who talk public transit, those are the
7 people who never take public transit. I take it every day -
8 - the 77 and the 83 -- past this site twice a day for the
9 last 13 years. I don't see any of those people ever taking
10 public transportation. They are going to cut the 77 bus, as
11 part of the service cuts. The Porter Square station is not
12 near this. It's --

13 [Pause]

14 JIM MONTEVERDE: Cyrus, can you -- are you
15 unmuted?

16 CYRUS DOCHOW: Yep, I'm here. Thank you.

17 JIM MONTEVERDE: Please. There's a one-minute
18 limit. If you could keep yourself to that, please?

19 CHRIS DOCHOW: Of course. I am a direct abutter,
20 so I would request just a little bit more time, if at all
21 possible.

22 JIM MONTEVERDE: You'll get cut off after a

1 minute, so I'd start speaking.

2 CHRIS DOCHOW: Okay. I live at 5 Walden across
3 the street. I submitted a letter to the Board.

4 JIM MONTEVERDE: Thank you.

5 CHRIS DOCHOW: Our main point here is that the
6 six-story stepdown in the back is too tall. I submitted
7 sections to the Board that described in some detail. I
8 would urge the Board to look at it very carefully.

9 It's a very modest proposal that I think would be
10 -- it would make a very positive change for everybody that
11 uses Walden Street. Six stories is just too high, it's more
12 than twice the height of the surrounding low-lying
13 buildings.

14 I would also just like to say that what we're
15 talking about is a very modest reduction, two or four units.
16 Far fewer than a building that would have to be redesigned
17 to meet the requirements of the Affordable Housing Overlay.

18 And I would just -- I would like to pause also to
19 note that with all due respect to Carl Nagy-Koechlin of
20 Just-A-Start, we have a unit that is owned by Just-A-Start
21 that has been vacant in our building for over a year. So
22 that's one unit right there that we could pick up if we have

1 to reduce the building by two units.

2 The Zoning Board has the authority to do this, and
3 I urge you to do this to improve the streetscape of Walden
4 so that it appropriately meets the surrounding, low-lying
5 buildings. Thank you very much.

6 JIM MONTEVERDE: Thank you. Ausra?

7 AUSRA KUBILIUS: Hi, thank you.

8 JIM MONTEVERDE: Please keep your response to a
9 minute, please?

10 AUSRA KUBILIUS: I'll try.

11 JIM MONTEVERDE: Thank you.

12 AUSRA KUBILIUS: I live a block away from this
13 proposed project, and I'm one of the signers of the 260
14 whatever petition. My main concern is simply safety --
15 safety because there's going to be about 75 kids in that
16 building who will be coming in and out. I request a safety
17 study more than anything. Not parking, not size, safety.
18 Thank you.

19 JIM MONTEVERDE: Thank you.

20 [Pause]

21 AUSRA KUBILIUS: What? Did I do a good job?

22 JIM MONTEVERDE: You did great, Ausra. You're

1 still on. You can mute yourself, please. All right, thank
2 you. We're waiting for -- I see two more names here, but
3 they're not unmuted.

4 [Pause]

5 Jonathan? You're -- we can't hear you. At least
6 I can't. Are you muted?

7 [Pause]

8 Jonathan, still can't hear you.

9 JONATHAN BEHRENS: Can you hear me?

10 JIM MONTEVERDE: There you go.

11 JONATHAN BEHRENS: Okay, awesome. Sorry about
12 that.

13 JIM MONTEVERDE: Jonathan, you're on. You've got
14 a minute, please.

15 JONATHAN BEHRENS: Jonathan Behrens, 115 Hampshire
16 Street.

17 JIM MONTEVERDE: Thank you. Just keep it to a
18 minute.

19 JONATHAN BEHRENS: I strongly support this
20 project. I believe that every unit matters. We've been
21 hearing from the usual group of opponents that are trying to
22 delay, disrupt and derail this project. Please don't let

1 them.

2 And finally, I wanted to respond to one claim
3 about the thousands and thousands of supposedly vacant
4 apartments. Given that a primary cause of apartment
5 vacancies is the former tenants actually being evicted
6 because they can't afford rent, if this number is remotely
7 close to accurate, that just proves that we need affordable
8 housing so much more. Thank you.

9 JIM MONTEVERDE: Thank you. Hello. Is someone
10 trying to speak? Ausra, you're still on. So I think you
11 should just mute yourself or hang up, please. Or just mute
12 yourself I guess, if you want to. Thank you.

13 I don't see anyone else who is ready to speak. A
14 couple of names seem to be in the wings.

15 [Pause]

16 Sisia, can you hear us at all, or can you speak to
17 us?

18 [Pause]

19 Brendan, are you there? I see your face. Can you
20 -- are you on?

21 [Pause]

22 I can't hear you if you're talking.

1 [Pause]

2 ANDREA HICKEY: Jim, it's Andrea Hickey. Gus
3 seems to have disappeared to. Gus --

4 JIM MONTEVERDE: Yeah.

5 ANDREA HICKEY: -- can you hear us?

6 JIM MONTEVERDE: And I can't hear Brendan.

7 ANDREA HICKEY: Yeah. I mean, I think we need to
8 know that Gus is able to participate.

9 JIM MONTEVERDE: And Sisia's not here. This is
10 like the -- yeah.

11 LAURA WERNICK: It's pretty clear that there's a
12 communications breakdown in the Committee Room, where Gus
13 and Brendan and Sisia are. I'm not able to hear any of the
14 three of them.

15 JIM MONTEVERDE: Right.

16 ANDREA HICKEY: Should we take a 10-minute recess,
17 try to connect with them by phone and then come back to the
18 group and the public and decide how to proceed?

19 LAURA WERNICK: Who's going to make the contact?
20 Andrea, do you want to try?

21 ANDREA HICKEY: I can try. I have to look at my
22 cell phone to see if I have phone numbers.

1 JIM MONTEVERDE: Yeah. I don't think I have their
2 numbers, otherwise I'd be happy to call.

3 JIM MONTEVERDE: Yep. Let's --

4 ANDREA HICKEY: All right. I'm going to step away
5 for a minute and see if I can do that. So why don't we
6 resume -- it's 9:00 now, maybe at 9:10?

7 LAURA WERNICK: Good.

8 JIM MONTEVERDE: That's fine.

9 ANDREA HICKEY: Okay, great.

10 [BREAK]

11 CONSTANTINE ALEXANDER: It's 9:10, should we --

12 JIM MONTEVERDE: Mr. Chair, you're back!

13 CONSTANTINE ALEXANDER: Everybody on? It's 9:10.

14 ANDREA HICKEY: Why don't we take a roll call of
15 the Board, Gus?

16 CONSTANTINE ALEXANDER: Now I'm going to do that.

17 BRENDAN SULLIVAN: Brendan Sullivan, present.

18 CONSTANTINE ALEXANDER: Laura?

19 ANDREA HICKEY: Andrea Hickey, present.

20 CONSTANTINE ALEXANDER: Jim?

21 JIM MONTEVERDE: Jim Monteverde, present.

22 CONSTANTINE ALEXANDER: And Laura?

1 LAURA WERNICK: Yeah.

2 CONSTANTINE ALEXANDER: You're present to. Okay.
3 So here we are. I'll try to start and summarize some of
4 what I've heard and where I think we may want to go.

5 ANDREA HICKEY: Gus, can I -- excuse me and just
6 to interrupt you for a second, and for the record: For the
7 last 15 minutes of the meeting + or -, we were not able to
8 see or hear you, but I understand you could see or hear us.
9 So I think it's important in the record for you just to
10 confirm that you were able to hear testimony during that
11 time.

12 CONSTANTINE ALEXANDER: Yes, I was. And I was
13 able to see as well. Not on my screen -- well, that's a
14 different issue. I can look on Brendan's screen and I can
15 see.

16 ANDREA HICKEY: Okay.

17 CONSTANTINE ALEXANDER: I don't know what the
18 problem is, but it's technical on our end -- our end being
19 the City Council's end.

20 ANDREA HICKEY: Right, well I just --

21 CONSTANTINE ALEXANDER: -- where I'm sitting.

22 ANDREA HICKEY: I just wanted to clarify for the

1 record that you were still able to hear and participate. We
2 just -- some of us just couldn't hear you.

3 CONSTANTINE ALEXANDER: Okay.

4 ANDREA HICKEY: Thank you.

5 CONSTANTINE ALEXANDER: Well, I was able to do
6 that. And --

7 ANDREA HICKEY: Thank you.

8 CONSTANTINE ALEXANDER: -- I will so confirm.

9 LAURA WERNICK: Thank you.

10 CONSTANTINE ALEXANDER: Okay, just I think to try
11 to summarize and to shape an approach, clearly -- and no
12 surprise -- the testimony was overwhelmingly in favor of the
13 affordable housing project.

14 I didn't hear a lot about -- from my point of
15 view, there was obviously discussion of parking and traffic
16 and concerns about the impact, but the city's Traffic
17 Department has said otherwise, and I didn't feel that's as
18 important as the issue of the size of the building, or the
19 front of the building that goes nine stories high as it
20 faces Massachusetts Avenue.

21 I would like to see, and propose the petitioner a
22 building -- that the height of the building on Mass Ave is

1 six feet -- six stories, I'm sorry, not six feet -- six
2 stories, and with a stepdown in the back, a portion is
3 stepped down and the rear of the building is now proposed.
4 That would reduce by my calculation and Brendan's
5 calculation the number of units in the building by maybe 15.
6 That's not a lot, but in the affordable housing area, every
7 unit is a lot.

8 But I think there are corresponding impacts on the
9 community, it's just not about affordable housing. And this
10 approach would not prohibit affordable housing in the area.
11 We still have a substantial number of houses, but at the
12 same time I think it protects -- or protects is the wrong
13 word -- it fosters a better streetscape for the area.

14 So that's where I would go. The petitioner may
15 not want to go that far. They may want us to hold firm, but
16 if we were to hold firm, the case would go to the courts.
17 And they want to hold the project up over roughly 15 housing
18 units, I don't know.

19 But I would return to the fact that all five of us
20 separately without consultation expressed concern about the
21 height of the building -- the nine-story height on
22 Massachusetts Avenue.

1 So that's where I would focus my comments.

2 BRENDAN SULLIVAN: Brendan Sullivan, the comments
3 by Councilor Carlone resonated with me. Those were somewhat
4 my thoughts, but I think he perfectly stated it. And the --
5 he could not see why it could not comply with the Affordable
6 Housing Overlay Ordinance, and which was well discussed in
7 counsel enacted.

8 And I think it should be complied with. I have
9 not seen any evidence that it can't be complied with. And
10 that's -- maybe it's sort of tending to what you're saying
11 also, but I have not seen any evidence to the contrary why
12 the Affordable Housing Overlay Ordinance cannot be complied
13 with at this site.

14 SEAN HOPE: Mr. Chair, when it's appropriate, I'd
15 like to respond to that point about the Affordable Housing
16 Overlay.

17 BRENDAN SULLIVAN: Yeah, if -- well, if we could --
18 - Sean, if you could hold off for a minute -- other members
19 of the Board, if you could sort of voice your thoughts and
20 opinions?

21 JIM MONTEVERDE: Hi, this is Jim Monteverde. Can
22 you hear me? This is Jim Monteverde.

1 CONSTANTINE ALEXANDER: Can't hear you.

2 ANDREA HICKEY: Jim, speak up a bit?

3 JIM MONTEVERDE: Oh, sorry. This is Jim
4 Monteverde. So I shared the Chair and Brendan's concern, as
5 I said earlier, about the height. I'm sure there's a
6 financial way, or a way to explain the finances that someone
7 other than I could go in and analyze and confirm that drives
8 you to the height that you're proposing. But I would
9 certainly not be in favor of it for just that reason.

10 While I'm wholly supportive of everything else
11 that you're doing, that piece alone I would object to.

12 CONSTANTINE ALEXANDER: I'm sorry. What piece
13 alone you would object to?

14 JIM MONTEVERDE: I would basically not be able to
15 support it on that basis.

16 CONSTANTINE ALEXANDER: Okay. I would -- you
17 know, I would remind everyone we heard very early in the
18 public comments, we heard from an individual who was an
19 architect, who also supported affordable housing, but didn't
20 see why he had to go over the front more than six feet, and
21 pointed out that the costs increase dramatically, once you
22 go over six feet.

1 JIM MONTEVERDE: Yeah, Mr. Chair I think I've --
2 you know, I've just -- in my professional life had the same
3 experience. I mean, I kind of -- I've been in the
4 discussions where we put a dollar value on what it means to
5 be a high-rise in the Commonwealth of Massachusetts. You
6 know, it's something I'm sure the design team knows the
7 answer to and could respond to. I don't think that by
8 itself pushes it one way or the other. It's really the
9 difference between the height that's by the Overlay District
10 allowed versus what's being requested.

11 So -- at least in my opinion.

12 CONSTANTINE ALEXANDER: Okay. Laura or Andrea,
13 either one?

14 ANDREA HICKEY: It's Andrea here. I just have a
15 very quick comment. I do agree with the Chair and Vice
16 Chair, I don't see or haven't understood a significant
17 reason why a project like this that's very much needed
18 cannot comply with the Overlay and height requirements. So
19 I'm eager to hear Attorney Hope address that in his
20 comments. I'll defer now to Laura.

21 LAURA WERNICK: Yeah. I think through the public
22 comment, I've actually shifted my position. And while I'm

1 not happy with the nine stories and would prefer to see and
2 eight- six-story-, I do thank that Mass Avenue can handle
3 the height. And so, I think I'm leaning the other
4 direction. But I would like to see if there are options to
5 lower it at least one floor, one level along Mass Avenue.

6 SEAN HOPE: Mr. --

7 CONSTANTINE ALEXANDER: Yes, I was going to ask
8 you if you wanted to speak now.

9 SEAN HOPE: Okay. I'll speak, and then I think
10 also Jason would like to talk about the high-rise piece as
11 well.

12 So first the Overlay -- and I respect the position
13 that the Board is in, that you're trying to figure out
14 balance affordable housing with impact on the neighborhood.
15 But I would say -- so most of those supporters you've heard
16 on the call tonight -- David Sullivan, Marjorie Decker and
17 others -- those were all supporters of the Overlay.

18 The Overlay was never designed to be a cap on
19 affordable housing.

20 Part of the -- the whole rationale for the Overlay
21 is when you use the common mechanism as in 40B, things like
22 appeals, things like neighborhood abutting, appealing

1 approved projects stalls projects. There are lots of
2 projects that never get off the ground because an abutter
3 can pay \$10,000, \$15,000 and stop a project in its tracks.

4 So the Overlay was meant to be another mechanism
5 that essentially there is some public process, there is a
6 Design Review, there's actually no permit that you can
7 appeal and you get a building permit. That means someone
8 could go, whether the site was close to transit or not and
9 put up a six-story building, have -- you have public
10 process, but there is no appealable permit. That is
11 supposed to be a mechanism that's supposed to allow for
12 that.

13 Everybody who supported the Overlay, now that it's
14 being used to now cap -- not by this Board, but frankly the
15 one City Councilor who voted against the Overlay several
16 times is now in front of the Board promoting the Overlay as
17 a way to limit affordable housing. That's not what it was
18 intended to do.

19 Affordable housing was the number 1 goal of the
20 City Council. There are letters in the files specifically
21 approving this project by the primary proponents of the
22 Overlay. So the idea the Overlay now should be shaping the

1 form of all affordable housing wasn't what it intended to
2 do, it was intended to be another tool.

3 So when you do a 40B, you inherently have to
4 compromise. So things like road improvements, we weren't
5 doing that necessarily for ourselves, we were recognizing.
6 We're going over what the Overlay allows. Negotiation with
7 our direct abutters: We sat with our direct abutters. They
8 talked about Walden Street in the back and we lowered it.

9 So if we didn't do the 40B route, then you can go
10 and you can design a building. This would be a lot more
11 stripped down. The quality of the units would be far
12 inferior. We wouldn't be able to do some of the public
13 benefits. Some of the energy efficiency goals wouldn't be
14 met.

15 So I just wanted to tell the Board, and please
16 hear this, that the Overlay was never designed to be capping
17 affordable housing. It was going to be a mechanism. And
18 because there's less public process, and because the
19 public's right to sue and appeal is limited, then therefore
20 that was allowing those projects to go forward.

21 So I would just say that for one the Overlay was
22 never meant to cap all affordable housing. And the idea

1 that that would be used as a limitation I feel like is not
2 what the Overlay was intended to do. And I think that's
3 supported by everybody who supported the Overlay, and it
4 took multiple years.

5 The second thing that I want to talk about is this
6 idea about affordable housing and trees. And I really
7 respect Mr. Sullivan saying that.

8 What I'd like to say in Porter Square is if you
9 have a million dollars, you go and buy a condo in a brick
10 building with no trees, no parking because you have the
11 option to live there, I find that when we were talking about
12 affordable housing, people say, "Affordable people want
13 trees too, but they don't have the option."

14 So we are providing an option. If you live in an
15 affordable unit, you want to live close to transit, you
16 don't want to have a car and you want to use a bus, we are
17 creating that option. So I don't think it's fair to say,
18 "Hey, because we don't have a front yard and a back yard --
19 " which most people in Cambridge don't have. Young families
20 who move to Cambridge are in a condo. They don't have those
21 things. So I think it's not fair to say we shouldn't use
22 affordable housing.

1 The last point I'd like to make is the Envision
2 Cambridge was multimillion-dollars, a 2019 process. They
3 looked at this stretch of Mass Ave as a corridor. They came
4 out with goals.

5 One of the three goals were to increase overall
6 housing production -- encourage affordable housing
7 production for low, moderate and middle-income. So this was
8 a recent study looking at the corridors.

9 And Ruth Riles made the point and she is right,
10 because I was on one of the committees -- eight and nine
11 stories were talked about potentially on certain parts of
12 Mass Ave.

13 So when we talk about context, we took the city's
14 recent study, Envision Cambridge -- multiple year study,
15 multimillion dollar study, if the Board can't find that nine
16 stories is not the perfect height. But I think the idea
17 that six stories should somehow be the test is not
18 consistent with the new planning study.

19 I would also say too when you look at the files,
20 and this is to Article 19, the Planning Board reviewed this
21 project. The Planning Board, who is the design arm of the
22 city, all of the Article 19 criteria, all of that, was in

1 front of the Planning Board. The Planning Board did not
2 write the Zoning Board and say the height was too big. The
3 Planning Board did not say that the scale was off.

4 Now, I would just say lastly, I think the Board
5 has the opportunity to look forward or backwards. Looking
6 forward, in 50 years when this building is built, I don't
7 believe that the idea of scale is going to be as relevant as
8 it is now. We recognize this is a dramatic jump, it's a
9 dramatic change.

10 But looking backwards, trying to say, "Well, we
11 have six stories here, so affordable housing should only be
12 this story: Part of looking backwards and not looking
13 forward is the status quo of our environment, the diversity.

14 When you build this type of building, it changes
15 the diversity of the neighborhood, and of the city of
16 Cambridge. So this is an opportunity to change that. If we
17 say, "Hey, let's limit it, because we want to keep the
18 building next door" we're not looking for the future. And
19 what we're doing is we're actually capping and we're keeping
20 the racial makeup, the economic makeup virtually the same.

21 And so what we're asking the Board is to be bold,
22 to be forward-looking, to actually look at what we want the

1 future to be, instead of maybe keeping it safe for what it
2 is now. So those are the points I want to make. Jason, do
3 you want to touch on the high-rise piece at all?

4 JASON KORB: I don't think I need to make any
5 additional comments, unless the Board has questions for me.
6 Financial cost for 760 CMR 56 I think ought to be considered
7 in a comprehensive permit unless a certain process just --
8 go -- undertaken. I think Sean, you've said everything I
9 would have to say, so.

10 CONSTANTINE ALEXANDER: I personally would agree
11 that the bringing in of the Overlay District is a little bit
12 of a red herring with this case. Yes, the Overlay District
13 may have affordable housing consequences, but as I
14 understand it, and as I analyze it, it's at a different
15 level in the community.

16 The affordable housing that's being proposed
17 tonight is, you know, basic affordable housing. These are
18 the people who need -- who need the financial help through
19 the mechanism for affordable housing under Section 40B, the
20 comprehensive permit process.

21 So I would take that off the table. But I still
22 think that there is a basis -- there's a reason why -- I

1 haven't heard that we can't do this project, it's uneconomic
2 if we go down to six stories. And so, therefore, why not go
3 to six stories, except the fact that the city will lose
4 roughly 13 affordable housing units.

5 But I think there's a balance here. And the city
6 I think will benefit by a six-story building at this
7 location. So I'm -- that's where I am at.

8 SEAN HOPE: Sorry, Mr. Chair, one more comment. I
9 just want to make it clear, some of the benefits, we are
10 paying for the full benefits of the road improvements. The
11 property is going to be Passive House. What's not clear to
12 me, and we need to go check this with our funders -- it's
13 not clear to me that we can just do a six-story building and
14 have all those other public benefit goals that we are doing
15 in this project.

16 So I think we're so focused on the height that
17 we're also maybe losing sight of all the other factors that
18 are permanent benefits to the public in perpetuity. So when
19 we reduce this building, we're not just lowering it, we're
20 likely going to be stripping the façade.

21 And remember, the Overlay will actually shrink the
22 building on two sides. It would be a setback on Walden

1 Street and a setback on CHA. So we're not just talking
2 about now a regular building, the quality and integrity of
3 the units if we follow the Overlay would be compromised.

4 And lastly, the Overlay requires no parking as
5 well. So the idea that there's somehow going to be a
6 beneficial impact if we have Overlay versus not is not the
7 case. Parking is still going to be zero, and that's part of
8 the Overlay.

9 And the other thing, as Councilor Carlone said, he
10 was wrong. Because it's a city parking lot, the Overlay
11 would allow a full six-story building, so there wouldn't be
12 no natural stepdown.

13 So I just want to not lose the fact as, "Oh, we
14 make it lower, it's better for the city." We also lose
15 things. And the ability to do some of these public benefits
16 are all part of the process.

17 Now, I'm not saying we can't do any of those
18 things, I'm just saying it's all a mix. And I think as we
19 lower the building, we put certain things in jeopardy
20 potentially. And I don't want that to be lost as we focus
21 only on the height.

22 CONSTANTINE ALEXANDER: Well, I would again -- I

1 think this issue comes down to economics. I think the fact
2 that you want the building as high as it is because of the
3 profit you'll make on it. I haven't heard that you wouldn't
4 make the profit it wouldn't be a profitable operation if you
5 reduced the height of the building. It would be less, but
6 it would be --

7 SEAN HOPE: Mr. Chair, with all due respect, this
8 is not about profit. This is not about profit. We don't do
9 this for profit, and this is not. We would fight for every
10 single affordable unit. If the Board thought that going
11 down to a lower -- a lower -- I'm just -- I'm trying to let
12 you know what the tradeoffs are. This is not about profit,
13 at all. And this is not.

14 If -- look, if we -- we met with the City
15 Departments, we would not come out with this building if
16 this was not something that was not approached. This was
17 not a Sean and Jason, "We want to build a tall building to
18 enrich our pockets or to have any kind of ego." This is
19 not. We think this is close to public transit.

20 And to Mr. Sullivan's point, if this was on
21 Pemberton Ave, or this was further down Mass Ave, not within
22 walking distance of transit, this is not a building we would

1 propose. Frankly, we are directly on a bus line. You can
2 walk to the grocery store.

3 So I don't believe this is setting a precedent,
4 because we wouldn't be proposing this building even three
5 blocks further down North Mass Ave. We are proposing this
6 building very similar to Frost Terrace because of its
7 proximity to several family and community-serving benefits.

8 JASON KORB: Let me just say one thing. I've
9 dedicated my entire life to building affordable housing,
10 okay? I came from privilege. I didn't have a dime of debt
11 from going to college or grad school, okay? My Dad passed
12 away when he was 69 years old and he didn't get to enjoy all
13 of the money he made as a lawyer, okay? There's more to
14 life than just money. And I own a market rate portfolio and
15 I have most of my money off of that. But I want to help
16 others. That's why I do this, okay?

17 It's not about -- look we can make an AHO deal
18 work, fine. You know what? My guarantees would be a lot
19 less, okay? Instead of having to sign millions and millions
20 and millions of dollars of guarantees on a high rise, I
21 won't have to do that as much.

22 But you know what? Creating these 14 or 18 more

1 affordable units is so much more important to me than that.
2 So instead of everybody thinking and going to greed and
3 going to avarice, I just -- I find that so offensive. I
4 have worked so hard in this business for 20 years of my
5 life, okay? And I'm doing it, and we're doing it because we
6 want to create some extra units of affordable housing for
7 people that really need it -- that really need it!

8 I'm sorry, but going to the greed argument, you
9 can ask anybody in the affordable housing business, whether
10 it's Carl Koershlin from Just-A-Start, anybody in the non-
11 profit world, anybody in the advocacy world from affordable
12 housing about my record. And it's because I love what I do
13 and I care about what I do. And I believe in what I do.
14 And I believe in helping families that didn't have the
15 opportunities that I've had.

16 CONSTANTINE ALEXANDER: Other members of the
17 Board, do you want to chime in, or do you have any views?

18 JIM MONTEVERDE: Yeah. This is Jim Monteverde
19 again. I didn't take what I -- the discussion I heard
20 before as making anyone suspect of greed or avarice or
21 anything else.

22 It was really just trying to understand the -- if

1 there was a -- if the pro forma, or there was a financial
2 basis for the need for the building to be nine stories tall,
3 when there seemed to be a good number of the Board members
4 who seemed to be uncomfortable with it -- myself included.

5 Sean, your point that there are tradeoffs --
6 understood. If you want to explain, either now or in a
7 subsequent discussion what your project would be if in fact
8 it was at the designated level -- I'm not going to say six
9 stories, I think the height that I read on your zoning
10 analysis said 85 feet, if I'm correct?

11 SEAN HOPE: For? So the --

12 JIM MONTEVERDE: I looked in one of your, one of
13 the -- I think that's the Overlay District height, is that
14 correct?

15 SEAN HOPE: So it would be seven stories and 69
16 feet.

17 JIM MONTEVERDE: Oh.

18 SEAN HOPE: It's going to be six stories and 69
19 feet is in the -- because the first floor for retail --

20 JIM MONTEVERDE: Oh, okay, okay. So just -- you
21 know, just show us that scheme. What is it? So what are
22 the tradeoffs? I mean, the quality of the façade, it's not

1 one that sways me. Because I read the description of what
2 it's going to be. If it's about quality inside the units,
3 just -- you know, explain it so there's a rationale and we
4 can --

5 JASON KORB: It's the loss of the apartments. It
6 comes down to the loss of -- you're losing --

7 JIM MONTEVERDE: I understand.

8 JASON KORB: -- you're losing about 14 apartments
9 is my understanding.

10 JIM MONTEVERDE: That part I understand. I heard the
11 discussion that went slightly beyond that to talk about if
12 in fact that was the case, not just 14 units but or the
13 quality or other accoutrements or benefits that the project
14 provides wouldn't be able to provided.

15 Again, I'm just trying to -- I'm willing to --
16 sorry, my concern with the height is if it meant that some
17 units had to go away, I'm perfectly aware of that and
18 willing to make that sacrifice, so as not to set a precedent
19 along Mass Ave for either affordable housing or any other
20 type of construction until the City Council decides that
21 they want to amend the zoning ordinance and make it an as-
22 of-right, or some other conditional use, or condition for

1 it.

2 JASON KORB: Huh.

3 JIM MONTEVERDE: So I'm still stuck on the height
4 and trying to get around it. I'm not talking about avarice,
5 not talking about greed, just strictly height and the
6 precedent it sets.

7 SEAN HOPE: So I would just like to talk about the
8 precedent. I think one of the canons of land use law is
9 that every lot is unique. You'd have to find another lot
10 within a quarter mile fronting on Mass Ave. Now look, the
11 cost of land near transit is exponentially higher. The
12 reason why people go further away, because it's cheaper.

13 The idea that we're going to get another site like
14 this within a quarter mile of this Porter Square T station,
15 I don't see -- everything else is overbuilt. You're not
16 going to get -- you're not going to get more of this. This
17 is part of the reason why we're trying to take advantage of
18 this opportunity.

19 Now look, I'm not saying if the Board said that
20 nine -- we started off with an eight-story building. That
21 was two more stories higher than the CHA. In direct abutter
22 conversations. We did the same thing at Frost Terrace, we

1 worked with our direct abutters and we tried to come up with
2 it. You had the direct abutter over here saying that they
3 supported the height on Mass Ave, but they wanted lower on
4 the back.

5 This is the direct abutter that's going to be
6 impacted by this. That's something -- if the Board was
7 going to take that into account, that's something we would
8 have to look at our funders and see if it was going to work.

9 But I think the idea that we're using this Overlay
10 as somehow the litmus test for what's appropriate, I just --
11 it wasn't intended to do that.

12 And frankly, that's all there by Mark McGovern --
13 four or five City Councilors who we were the proponents of
14 the Overlay supporting this project. And I just find it
15 that it's being used now to somehow limit is just -- I don't
16 think that's what it's intended to do. That's different
17 than the Board in its purview saying, "Hey, for us, nine
18 stories is too high." Or, "nine and six is too high, and
19 there might be a different height." And we're willing to
20 accept that.

21 But I feel like the six stories is being used as a
22 ceiling, a glass ceiling. I don't know where that's coming

1 from. And also, when you talk about zoning, 40B is part of
2 zoning. This is not outside of zoning. The Council doesn't
3 have to go and say, "nine story buildings are allowed
4 citywide as-of-right." I wouldn't even want that.

5 I do believe when you're going to go over the
6 Overlay, you have to compromise, you have to come to the
7 Board, you have to risk an appeal. These are all the things
8 that we're risking, and we understand that. And we are
9 willing to compromise.

10 What we're not necessarily willing to do is go
11 down to North Cambridge and other folks. We are dealing
12 with our direct abutters. We have met with the CHA; we have
13 met with our direct residential abutters several times.
14 And, I mean, the person is on here.

15 So, you know, we're trying to listen to the Board,
16 but I feel like what we're hearing from the Board is not
17 necessarily what we're hearing from our direct abutters, and
18 I would just hope that we could find a way to find a middle
19 ground.

20 But the Overlay to me is not the answer. There
21 are things in the Overlay that would be the same. Parking
22 would be the same, and I do believe if we adhere to the

1 Overlay, we would have a narrower building, we'd have
2 setbacks on both sides, and the quality of those two- and
3 three-bedroom units would be compromised.

4 CONSTANTINE ALEXANDER: You talk about trying to
5 find a middle ground, which is a good idea. I'm trying to
6 do the same, I think this Board is. But what would you see
7 as a middle ground? We've put out a middle ground about the
8 reducing the size of the -- the height of the structure as
9 it faces Mass Ave. What would you see as a compromise?

10 SEAN HOPE: Well, I think our design team feels
11 like if there's going to be height in massing, it should be
12 on Mass Ave, it should not be in the neighborhood. There
13 was a request by our direct abutters, and they are group at
14 5 Walden, to drop the portion on Walden Street a floor
15 lower, which would be losing two residential -- two of our
16 units, but it would mean that the residential portion on
17 Walden Street is 35 feet and the residential neighborhood
18 where we had four-story, that would be a bigger step to
19 that.

20 The only thing I would say is that we actually
21 would have to go and rent and talk to our lenders and look
22 at all the improvements that we're doing, and make sure that

1 it still pencils.

2 But to me, you know, when we did Frost Terrace and
3 we made a compromise, it was because our direct abutters and
4 I came up with what we thought might work. And I think here
5 it should be the same.

6 LAURA WERNICK: So you would not consider keeping
7 the six -- the Walden Street at six and dropping the Mass
8 Avenue to eight? That's not something that's reasonable in
9 your --

10 JASON KORB: During the pause, we actually ran
11 some back of the envelope. And so, the eight to six would
12 be a loss of four units. And the other problem is that
13 wouldn't appease our direct abutters.

14 LAURA WERNICK: No, no, I --

15 ANDREA HICKEY: Councilor, do you mean nine to
16 eight?

17 LAURA WERNICK: Nine to eight.

18 ANDREA HICKEY: You said eight to s --

19 LAURA WERNICK: Nine, eight on Mass Ave.

20 ANDREA HICKEY: Yeah.

21 LAURA WERNICK: Keep your six on Walden, just
22 drop.

1 JASON KORB: Yeah, you would lose four units.
2 Going from nine to five you lose two units. So going from
3 --

4 LAURA WERNICK: Okay.

5 JASON KORB: -- right?

6 LAURA WERNICK: You mean from six to five?

7 JASON KORB: Sorry. Staying at nine and going
8 down to five on the back you lose two units.

9 ANDREA HICKEY: All right, keep --

10 JASON KORB: Okay?

11 ANDREA HICKEY: If you keep --

12 JASON KORB: Dropping it to -- keeping it at six
13 and dropping to eight, you lose four units.

14 LAURA WERNICK: Yeah.

15 JASON KORB: Which completely, there's no
16 financial feasibility at that point.

17 LAURA WERNICK: Okay. Well, that's what we're
18 trying to figure out. That's the first time you've said --

19 JASON KORB: Yes.

20 LAURA WERNICK: -- that there's no --

21 JIM MONTEVERDE: That's kind of the answer.

22 LAURA WERNICK: -- financial feasibility with four

1 units.

2 JASON KORB: Yes.

3 LAURA WERNICK: But there is financial feasibility

4 --

5 JASON KORB: There is still -- I want to point of
6 access, we are right at the edge of financial feasibility --

7 LAURA WERNICK: Okay.

8 JASON KORB: -- as proposed. If the Board imposes
9 a further reduction as proposed by our abutters to go to
10 nine to five, you know, we would have to talk to our
11 funders. So we're not --

12 LAURA WERNICK: I personally don't see the
13 advantage of going to five. I think the Walden Street at
14 six is a very reasonable amount, and is appropriate massing.

15 ANDREA HICKEY: I agree with you, Laura. And I
16 think if the front, you know six to me no longer is a magic
17 number. I was very much persuaded by Councilor Hope's sort
18 of explanation on the Overlay. So I understand that. But I
19 think dropping a floor in the back and keeping the front at
20 nine doesn't really buy enough. So.

21 BRENDAN SULLIVAN: This is Brendan Sullivan. Does
22 it make sense for us, given so much discussion going on as I

1 opened my remarks... was that there was an awful lot of
2 correspondence that had come in in the last couple of days
3 and an awful lot from the Councilors today that I did not
4 get to review: does it -- I just feel this out -- that we
5 continue this matter for us to sit back?

6 Sean and Jason to take under consideration what
7 our comments are, and possibly come back with an
8 alternative? See if you can do it. You may come back and
9 say, you know, "We stick by our plan." You had mentioned
10 about going back to some of your lenders, if you were to
11 reduce the size of the building. And again, I think we're
12 focusing on Mass Ave.

13 And then it gives the Board members some time to
14 potentially review some of the documentation and also some
15 of the testimony tonight. I just throw it out --

16 CONSTANTINE ALEXANDER: That's fine.

17 BRENDAN SULLIVAN: -- that out as an example.

18 CONSTANTINE ALEXANDER: One of the only -- and I
19 agree with that. The issue we have, though, is our docket
20 is filled for the next month or two.

21 And if we wanted to come back and talk about
22 whatever we've agreed on, we'd have to put the project back

1 for a couple of months, and I don't think that's going to be
2 acceptable to the petitioner.

3 BRENDAN SULLIVAN: Brendan Sullivan. I would push
4 this up as quickly as possible, even if it does mean a
5 crowded schedule. As it is, we have 11 more to go tonight,
6 so we're going to be here for a long time. I think it's
7 important enough that potentially -- this is December 10 --
8 that does, that the holidays coming up the first --

9 CONSTANTINE ALEXANDER: The next hearing is going
10 to be probably the second week of January --

11 BRENDAN SULLIVAN: -- the first week in, second --
12 I'm sorry, the first --

13 CONSTANTINE ALEXANDER: I don't have the schedule.

14 BRENDAN SULLIVAN: -- first hearing --

15 SISIA DAGLIAN: January 14.

16 CONSTANTINE ALEXANDER: January 14 is the --

17 BRENDAN SULLIVAN: -- and January 14 --

18 CONSTANTINE ALEXANDER: -- next hearing.

19 BRENDAN SULLIVAN: -- I would propose January 14.

20 CONSTANTINE ALEXANDER: I'm not adverse to
21 continuing to January 14, and I'm not adverse to another
22 long night, because we'll have our regularly -- as tonight -

1 - our regular agenda plus this. But hopefully this
2 discussion on the fourteenth would not be nearly as long as
3 the presentation tonight, which is not a criticism of
4 anyone, it's just the facts.

5 But we've got everything aired out. Now everybody
6 takes a deep breath, think some more about it and come back
7 and we talk on the fourteenth.

8 SEAN HOPE: I think that would be appropriate and
9 --

10 CONSTANTINE ALEXANDER: I'm sorry? I'm sorry, I
11 didn't hear you, Sean.

12 SEAN HOPE: I said I think that it would be
13 appropriate and it would give us some time to digest what
14 we've heard from the Board, and possibly see what options
15 are available. So I -- we would appreciate that.

16 The one thing I was going to say, if the docket is
17 really full on the fourteenth, I have seen the Board call a
18 special meeting.

19 And I'm not trying to add more things to your
20 schedule on the holidays, but if we thought that maybe
21 separating from the fourteenth a date in January in that
22 same week so that we could not have the Board on a marathon,

1 that might be something you might want to consider.

2 CONSTANTINE ALEXANDER: Well, I'm not adverse to a
3 special meeting. But it's very unusual. We've always -- as
4 you know, Sean, being a former Board member we've always
5 resisted that. But --

6 SEAN HOPE: Understood.

7 CONSTANTINE ALEXANDER: If that's what people want
8 to do, it probably would be a week earlier, I would think.
9 I don't think a meeting between now and the end of the year
10 makes sense. The holidays -- there's just a lot going on.
11 But we could do it. I don't know what the availability of a
12 building is, the office.

13 LAURA WERNICK: We could do it New Year's Eve.

14 CONSTANTINE ALEXANDER: I'm sorry?

15 LAURA WERNICK: We could do it New Year's Eve?

16 ANDREA HICKEY: Laura, tell me how it was.

17 BRENDAN SULLIVAN: Brendan Sullivan, I would have
18 thought that tonight could have been a special permit
19 meeting unto itself. I think that if we came back on the
20 fourteenth and this was scheduled at 7:00, that provided we
21 got correspondence from Sean and Jason prior to -- with
22 their position and their bottom line, then I think we could

1 probably hear it, I would think within an hour. And I think
2 maybe we don't have to open it up to public comment.

3 CONSTANTINE ALEXANDER: I hope so. But I think,
4 you know, we've got to be -- the reality is we're going to
5 get a lot of people who want to speak, not the people who
6 are speaking right now, but citizens of the city, both pro
7 and con. And they're going to want to weigh in. And it'll
8 drag on.

9 "Drag on" is pejorative, I don't mean to be -- the
10 comments were good, but I think it will take a while to
11 thresh the comments out and reach a decision on the
12 fourteenth. But I'm willing to do it. If that's what the
13 sentiment is, let's do it.

14 LAURA WERNICK: Would there be a possibility of
15 doing a special meeting on the seventh? Thursday the
16 seventh?

17 CONSTANTINE ALEXANDER: I'm sorry, there was a
18 possibility of doing what, Laura?

19 LAURA WERNICK: A special meeting on Thursday, the
20 evening of Thursday the seventh? I don't know if this group
21 is available.

22 BRENDAN SULLIVAN: Well, if the chambers are

1 available on the seventh, which we're not sure of.

2 SISIA DAGLIAN: We could do it elsewhere.

3 BRENDAN SULLIVAN: We could?

4 SISIA DAGLIAN: Yeah. We could see if we could do
5 it at the other place.

6 BRENDAN SULLIVAN: Yeah, okay. Yeah, I mean, I
7 wouldn't -- that's fine by me. I'll do either.

8 CONSTANTINE ALEXANDER: We'll continue this case
9 until the fourteenth.

10 BRENDAN SULLIVAN: No, until the seventh.

11 CONSTANTINE ALEXANDER: I'm sorry, the seventh.

12 JIM MONTEVERDE: Seventh.

13 CONSTANTINE ALEXANDER: Right. The seventh.

14 BRENDAN SULLIVAN: At 7:00.

15 CONSTANTINE ALEXANDER: At 7:00 -- the usual time.
16 We can do it any time. We have no other cases that night.

17 CONSTANTINE ALEXANDER: Do you want to do it at
18 6:00?

19 JIM MONTEVERDE: 6:00.

20 CONSTANTINE ALEXANDER: 6:00's fine by me.

21 JIM MONTEVERDE: Yep.

22 SEAN HOPE: Great. Thank you.

1 JASON KORB: Thanks.

2 CONSTANTINE ALEXANDER: Is that unanimous? Sean
3 and Mr. Korb, you're --

4 SEAN HOPE: Sure, that's fine.

5 JASON KORB: Yes.

6 SEAN HOPE: Thank you.

7 JASON KORB: Thank you.

8 CONSTANTINE ALEXANDER: Okay. The Chair moves
9 that we continue this case -- certainly as a case heard --
10 until 7:00 p.m. on --

11 ANDREA HICKEY: 6:00 p.m. I thought --

12 JIM MONTEVERDE: 6:00 p.m. --

13 CONSTANTINE ALEXANDER: I'm sorry, 6:00 p.m., 6:00
14 p.m. -- on January --

15 COLLECTIVE: Seventh.

16 CONSTANTINE ALEXANDER: -- seventh, subject to the
17 following conditions:

18 One, that the petitioner sign a waiver of time for
19 decision -- Sean, you know all about that -- and that's --
20 you can get that from, we don't have it tonight, but from
21 the Inspectional Services Department in the next several
22 days.

1 Two, that a new posting sign be put up, and that
2 for the 14 days before the seventh, reflecting the new date
3 and the new time.

4 And that to the extent that at that meeting, you
5 want to propose changes to what we have in our files now in
6 terms of financial information, structural design of the
7 building, et cetera, that they must be in our files no later
8 than 5:00 p.m. on the Monday before January 7. Is that it?
9 All those in favor?

10 BRENDAN SULLIVAN: Brendan Sullivan, yes to the
11 continuance.

12 ANDREA HICKEY: Andrea Hickey, yes to the
13 continuance.

14 CONSTANTINE ALEXANDER: Laura?

15 LAURA WERNICK: Laura Wernick, yes to the
16 continuance.

17 JIM MONTEVERDE: And Jim Monteverde, yes to the
18 continuance.

19 CONSTANTINE ALEXANDER: And of course I also vote
20 yes to the continuance.

21 [All vote YES]

22 So the case is continued until that date, January

1 7.

2 JIM MONTEVERDE: Tenth.

3 CONSTANTINE ALEXANDER: Tenth, I'm sorry.

4 Seventh? Yeah, I thought it was --

5 JIM MONTEVERDE: Seven at 6:00 p.m. Seven.

6 CONSTANTINE ALEXANDER: Seven.

7 SEAN HOPE: Yes.

8 JIM MONTEVERDE: Yep. 6:00 p.m., January 7.

9 CONSTANTINE ALEXANDER: Yeah, okay.

10 SEAN HOPE: Thank you.

11 COLLECTIVE: Thank you.

12 CONSTANTINE ALEXANDER: We'll move back on to our regular
13 agenda. Okay.

Subject: Writing in support of BZA-017326-2020

Hello,

I'm writing to voice my support for case #BZA-017326-2020 to support affordable housing. I live a couple blocks down from the proposed site, and would be delighted to have this building in my neighborhood. With housing so expensive in this area, it's important to me that everyone has somewhere they can afford to live, and this building will provide units toward that goal. I'm also glad to see that there are units for families with children and that this site will help families with kids remain in their community. Further, the designs look beautiful, and the designers took care to ensure that it is harmonious with the streetscape and human-scale. It certainly seems like it will be nicer to walk by than the empty parking lot currently on half of the site. I was also very excited to read about the environmental considerations--like the passive house standards, green roof, and solar panels--and how efficient this building will be. I'm always proud to live in a such a forward thinking city where we have buildings like this. In summary, I support BZA-017326-2020.

Thank you for your time,
Hanna

(7:29 p.m.)

Sitting Members: Constantine Alexander, Brendan Sullivan,
Jim Monteverde, Laura Wernick, and Jason
Marshall

CONSTANTINE ALEXANDER: The Chair will now call
Case Number 017326 -- 2020, 2072 Massachusetts Avenue.

Anyone here wishing to be heard on this matter?

SEAN HOPE: Yes, good evening Madam Chair and
members of the Board.

CONSTANTINE ALEXANDER: Good evening, Mr. Hope.

SEAN HOPE: Yes, good evening. On behalf of CC
HRE Mass Ave Tenant LLC we thank you for having us tonight.
In advance of this hearing, we submitted a continuance
request into the file. We also submitted an explanation for
the reason for the continuance.

CONSTANTINE ALEXANDER: Yes.

SEAN HOPE: Namely, there were renderings that did
not accurately depict an important part of our submission.
Due to the strong public interest and the fact that this
really is a -- there's public funds, we thought it was
appropriate to request the continuance, so that we could

1 share the appropriate corrected renderings with the
2 community.

3 Also, there are certain city departments that it
4 would be appropriate, namely the Planning Board, to go and
5 to present and to allow feedback, that might also end up
6 with the Board, as well as to make sure that this process is
7 not rushed at all.

8 We looked at the BZA agenda. We also looked at
9 the Planning Board's agenda. And so, we're requesting a
10 date in early March that would be appropriate for the Board,
11 and we believe that would give us enough time not only to
12 address the community, but also to follow up with any city
13 departments that may have comments on the proposal that
14 we're presenting.

15 CONSTANTINE ALEXANDER: Okay. Thank you. What
16 I'm going to do, given the fact that this is a very --
17 there's a lot notoriety to this case, I want to read into
18 the record and for the benefit of those on the phone or on
19 Zoom, your letter requesting -- explaining why you need or
20 want the continuance, so everyone is on the same page. I
21 don't want any mystery here.

22 So with that, I'm going to -- the letter we have

1 received from Mr. Hope, and which he's referred to, and he
2 has highlighted very accurately, is as follows:

3 "We are writing to request a continuance for the
4 above referenced BZA case. On January 5, 2021, we held a
5 Zoom community meeting to present the 8 six-story
6 alternative proposal that we submitted to the BZA on January
7 24, 2021.

8 "At the community meeting, at least one
9 participant challenged the depiction of the abutting Russell
10 Apartments as being out of scale in our architects'
11 renderings.

12 "After the meeting, our architect, Jason Forney
13 from Bruner Cott Associates, reexamined his renderings and
14 discovered that the Russell Apartments height was in fact
15 incorrect in several of the drawings."

16 [And then you have a, "Please see the attached
17 memo from Mr. Forney that provides more information."]

18 "We have worked to ensure that the 2072 Mass Ave
19 permitting process has been robust and transparent with the
20 community. We believe that this error requires us to
21 distribute the corrected plans and renderings to the
22 community and city staff for us to schedule another

1 community meeting to solicit additional feedback prior to
2 presenting any further plans to the BZA.

3 "It is of utmost importance to us that the plans
4 we present to the community, city staff and the BZA are
5 accurate to the best of our ability. Therefore, we believe
6 this continuance is paramount to ensuring the permitting
7 process's integrity is not diminished. We look forward to
8 presenting our corrected plans to the BZA in the near
9 future."

10 The only thing I would comment on that letter,
11 there's no mention here of the Planning Board. But I think
12 you said you're planning to go back to the Planning Board
13 with the new plans, am I correct?

14 SEAN HOPE: That's correct.

15 CONSTANTINE ALEXANDER: Good. I think that's
16 important, because I would like to hear -- I think this
17 Board would like to hear from the Planning Board with regard
18 to the current plans, which are now in process.

19 So, I think it's time for a motion. We have --
20 before I make the motion, what date do we have in March,
21 early March?

22 SISIA DAGLIAN: Well, March 4 is --

1 CONSTANTINE ALEXANDER: It's supposed to be a day
2 that --

3 SISIA DAGLIAN: Right.

4 CONSTANTINE ALEXANDER: -- no other case is going
5 to be heard.

6 SISIA DAGLIAN: March 4 and 18 are the two dates
7 in March, the two Thursdays in march where there are not
8 other BZA cases.

9 CONSTANTINE ALEXANDER: So if we did it at the
10 seventh of -- I mean, seven plus --

11 SISIA DAGLIAN: Plus four.

12 CONSTANTINE ALEXANDER: -- plus four, the eleventh
13 of March?

14 SISIA DAGLIAN: That's another -- that's a BZA
15 date.

16 CONSTANTINE ALEXANDER: That is another? Oh, I'm
17 sorry, I got it wrong. I got it backwards.

18 SISIA DAGLIAN: Granted, there's probably nothing
19 scheduled for that yet.

20 CONSTANTINE ALEXANDER: Right. I want to do it on
21 a date we'd ordinarily have it. Would March 4 work for you,
22 Mr. Hope?

1 SEAN HOPE: I'm looking at my calendar and my
2 other team members. Yeah. Both will take that date.

3 CONSTANTINE ALEXANDER: So that's okay with you,
4 March 4?

5 SEAN HOPE: Yes.

6 CONSTANTINE ALEXANDER: And let me check with
7 other Board members, because we need the same -- as you
8 know, the same five members for that to hear the case on
9 that date. Brendan, will you be available March 4?

10 BRENDAN SULLIVAN: I'm not going anywhere,
11 unfortunately. Yes. I will be available.

12 CONSTANTINE ALEXANDER: I'm sorry

13 BRENDAN SULLIVAN: I will be available, yes.

14 CONSTANTINE ALEXANDER: Oh, good, you'll be
15 available. Keep going around. Jim?

16 JIM MONTEVERDE: Jim Monteverde, I will be
17 available.

18 CONSTANTINE ALEXANDER: Okay, Laura?

19 LAURA WERNICK: [Laura Wernick], I will be
20 available.

21 CONSTANTINE ALEXANDER: I'm sorry?

22 LAURA WERNICK: I will be, yes.

1 CONSTANTINE ALEXANDER: Good, thank you, I'm
2 sorry. And Andrea?

3 ANDREA HICKEY: Yes, I'm available, thank you.

4 CONSTANTINE ALEXANDER: And I'm available on the
5 fourth as well. So we will continue this case -- I'll make
6 a formal motion in the procedures that Mr. Hope knows better
7 than I, actually -- to continue this case until March 4.

8 So, the Chair moves that this case be continued as
9 a case heard, until 6:00 p.m. on March 4, subject to the
10 following conditions:

11 One, that the petitioner sign a waiver of time for
12 decision, and he's already done that the in connection with
13 the case we're hearing tonight.

14 Second, that a new posting sign with the new date,
15 March 4, same time, 6:00 p.m. be posted and maintained for
16 the 14 days prior to the March 4 hearing, as required by our
17 zoning ordinance.

18 And lastly, to the extent there are new or changed
19 plans specifications, details and the like, as the
20 petitioner has done in the past, those must be in our files
21 no later than 5:00 p.m. on the Monday before March 4. And I
22 would advise those members of the community who are on this

1 call tonight or have learned about it, that you have --
2 that's when any new changes will be available. And so, you
3 should go to the city's website and inspect them, should you
4 wish to.

5 So, with that, all in favor? Brendan?

6 BRENDAN SULLIVAN: Brendan Sullivan, yes to the
7 continuance.

8 JIM MONTEVERDE: Jim Monteverde, yes to the
9 continuance.

10 CONSTANTINE ALEXANDER: Laura?

11 LAURA WERNICK: Laura Wernick, yes to the
12 continuance.

13 CONSTANTINE ALEXANDER: And Andrea?

14 ANDREA HICKEY: Andrea Hickey, yes to the
15 continuance.

16 CONSTANTINE ALEXANDER: And the Chair votes yes as
17 well.

18 [All vote YES]

19 CONSTANTINE ALEXANDER: So this case will be
20 continued until March 4 at 6:00 p.m.

21 BRENDAN SULLIVAN: Can I just ask one question?

22 CONSTANTINE ALEXANDER: Go ahead.

1 BRENDAN SULLIVAN: [Brendan Sullivan] Sean, you
2 guys also have a website that the general public can follow
3 along, is that correct? Other -- in addition to the City
4 website?

5 SEAN HOPE: Yes.

6 BRENDAN SULLIVAN: For any submissions? Okay.

7 SEAN HOPE: And just to --

8 BRENDAN SULLIVAN: Because your submits to us may
9 very well come in on that Monday night, but it may be
10 advisable for the citizens that they could follow along, I
11 guess whatever -- I know that you have continuing dialogue
12 and much more concurrent than the city one has. So any
13 advice to the general citizenry that they could follow along
14 on your website?

15 SEAN HOPE: Yes, and just to make the comment,
16 we've made a practice of trying to post things when they're
17 ready on the website, regardless of when they're due to the
18 city. And again, for the public benefit we'll try to do
19 that as well.

20 CONSTANTINE ALEXANDER: Thank you, Mr. Hope. So,
21 this case is continued, so the case is over for tonight,
22 anyway.

1 SEAN HOPE: Thank you.

2 CONSTANTINE ALEXANDER: Thank you, Mr. Hope.

3 SHIPPEN PAGE: Okay.

4 CONSTANTINE ALEXANDER: Okay, before we finally
5 adjourn, we should go back to --

6 SISIA DAGLIAN: Yeah, I have to switch --

7 CONSTANTINE ALEXANDER: -- our case with Mr. Page.

2 (7:40 p.m.)

3 Sitting Members: Constantine Alexander, Brendan Sullivan,
4 Jim Monteverde, Laura Wernick, and Andrea
5 Hickey

6 SHIPPEN PAGE: I'm here, Mr. Chairman.

7 CONSTANTINE ALEXANDER: Oh, you're here. Good,
8 thank you. Do you -- are you ready, or do you need --

9 SHIPPEN PAGE: No, we're ready, Mr. Chairman. I
10 think my clients are eager to put this matter to a vote of
11 the Board, and hope that we've satisfied or at least
12 addressed the concerns of the Board, and we certainly heard
13 the concerns of the neighbors.

14 CONSTANTINE ALEXANDER: I'm sorry, I had trouble
15 understanding what you were saying. You're not on the
16 screen this time, and so, the sound's a little bit blurred.

17 SHIPPEN PAGE: Yeah, no, I went off --

18 CONSTANTINE ALEXANDER: Could you -- I'm sorry?

19 SHIPPEN PAGE: I went off the screen. I couldn't
20 -- I'm blank now, for some reason. But in any event, my
21 clients are eager to have the Board vote on this matter.

22 CONSTANTINE ALEXANDER: So you want to vote

1 tonight?

2 SISIA DAGLIAN: Then I'm going to check it out --

3 CONSTANTINE ALEXANDER: Is that right? We seem to
4 have lost you. Yes.

5 SHIPPEN PAGE: Correct.

6 SISIA DAGLIAN: Now you're on mute. Shippen,
7 you're on mute.

8 SHIPPEN PAGE: Sorry. Thank you. Whoever's
9 helping me technologically, thank you.

10 CONSTANTINE ALEXANDER: Oh, finally you're back on
11 the screen.

12 SHIPPEN PAGE: Yeah, it's good to be back. The --
13 my clients would like to go for a vote, and they have --
14 they hope they've addressed your concerns, and they've
15 certainly heard the neighbors, and they'd like to see how
16 the Board has received their application.

17 CONSTANTINE ALEXANDER: Okay, and you -- of course
18 they appreciate that if the vote doesn't go with them?
19 You'll have -- relief is denied, and of course there's
20 appeal rights, and I'm going to take a long time to get the
21 case resolved, if it gets to the courts.

22 SHIPPEN PAGE: Exactly, so -- and then if they --

1 if the Board should deny them, they would be prepared to
2 alter their thing, but they'd like to get this --

3 CONSTANTINE ALEXANDER: Got it.

4 SHIPPEN PAGE: -- they'd love to have this
5 approved, and, but they could go to the city without
6 prejudice if they just conformed with the zoning ordinance.
7 So --

8 CONSTANTINE ALEXANDER: Okay, that's fine.

9 SHIPPEN PAGE: -- this is what they'd like to do.

10 CONSTANTINE ALEXANDER: We -- did you have any
11 comments you wanted to make with regard to the neighbor's
12 comments that presented, or to give you a chance to deal
13 with this?

14 SHIPPEN PAGE: Yes. That's helpful.

15 SHAHID AZIM: If I may?

16 SHIPPEN PAGE: I would like to speak to that. I
17 would like to speak to Mr. Morgan's comments. I didn't mean
18 to imply that there's been no work done on that house. My
19 understanding was there hasn't been any additional exterior
20 additions to the house in my understanding. He could
21 clarify that for me, but that was my understanding. I don't
22 have the imminent knowledge that he does.

1 I certainly understand the tree issues, and that's
2 something we're going to have to address.

3 SHAHID AZIM: Mm-hm.

4 SHIPPEN PAGE: I wasn't aware that I was supposed
5 to provide him with a detailed rodent control plan, because
6 this plan hasn't been approved, and I'm not going to go to
7 the lengths to do that, although clearly that's a legitimate
8 concern.

9 I don't believe that the addition is going to
10 create any more traffic from this area, and so, I certainly
11 was a resident of this area when that child was killed at
12 the corner of Fresh Pond Parkway and Alewife and Huron
13 Avenue -- a disaster.

14 But I don't see how that's relevant to a
15 construction of a single-family house with the existing
16 occupants.

17 With respect to how can somebody -- the family has
18 raised five children, four children, three children, how can
19 this -- this family has two in-laws who come for extended
20 periods of time, both of these couples have worked from home
21 as many of them do, and I think those work environments are
22 going to change indefinitely in the future, and they'd like

1 to they'd like to be prepared for that, and I think that's
2 it. Anything else that I've missed?

3 SHAHID AZIM: If I may, I can say a few words.

4 SHIPPEN PAGE: Please?

5 CONSTANTINE ALEXANDER: Go right ahead. Now, now.
6 Not before, but now we can do it.

7 SHIPPEN PAGE: So firstly, thank you. I want to
8 thank the committee for being so patient with us, and
9 certainly the neighborhood and the neighbors. And we
10 certainly do appreciate the neighborhood sort of barbecues
11 and the hangouts. And we'll continue to do that. However,
12 I think there's a few things that I would like to highlight,
13 as I conclude.

14 Certainly Alison and people who are -- actually,
15 like the Committee, I was surprised at the number of people
16 who are neighbors tonight certainly exceeded what I had
17 coming in to this call. But we did reach out to Alison by
18 e-mail with the updated plans. So a little bit of
19 correction there.

20 We have reached out to Bob, Margaret, who we've
21 been very close with; Hormoz (phonetic) and Lahey who are on
22 the other side, and they gave sort of a good letter of

1 reference for us.

2 And in -- I mean, the reason why we bought the
3 property was actually because of these beautiful mature
4 trees that were on the property; one of the reasons. And
5 so, to suggest that we would take this decision lightly I
6 think is not really appropriate.

7 However, I would say that we've heard the
8 neighbors very carefully and diligently. We -- you know,
9 from our standpoint, all we would say is that, you know,
10 this has been very thoughtfully planned for. We hoped that
11 the Committee gives us a fair shot, and we're -- you know,
12 we're in this for the long haul, in the neighborhood and as
13 well as the city.

14 So all I would say is, like, we are okay to have
15 an opinion, but we're not okay to have alternate facts as
16 far as, you know, what has been done and what hasn't been
17 done to date in terms of reaching out to people and trying
18 to be flexible. So I'll leave it at that.

19 CONSTANTINE ALEXANDER: Thank you. I will now
20 close public testimony discussion by members of the Board,
21 or do you want to go right to a vote? We've had a lot of --
22 spent a lot of time on this.

1 BRENDAN SULLIVAN: This is Brendan Sullivan to
2 fellow Board Member Andrea. We --

3 SHAHID AZIM: Do you want to say --

4 BRENDAN SULLIVAN: -- I'm sort of interested in
5 your thoughts on the Bellalta.

6 ANDREA HICKEY: I listened very carefully to
7 Attorney Page address the two sort of specific questions I
8 had, and notwithstanding Mr. [was it] Williamson?'s
9 educating us that there may be something in the works, I
10 think we can only sort of vote on what we have before us.

11 So my questions have been answered to my
12 satisfaction by Attorney Page, and I'm personally prepared
13 to make a decision based on the Bellalta case,
14 notwithstanding the fact that we've not had sufficient
15 guidance from the city otherwise.

16 CONSTANTINE ALEXANDER: Do I take it that you're
17 planning to vote in favor of granting the relief? Because
18 --

19 ANDREA HICKEY: I am.

20 BRENDAN SULLIVAN: [Brendan Sullivan --] for the
21 stenographer, "Bellalta" is B-e-l-l-a-l-t-a, for the record.
22 Bellalta versus the Board of Appeal of Brookline, and it

1 says that -- and I'm reading from the ordinance request for
2 the referral from the City Council last Monday night --
3 specifically the SJC held that if an alteration or addition
4 to a lawful, preexisting, nonconforming single or two-family
5 includes as an existing dimensional nonconforming, but does
6 not create any new dimensional nonconformities. Obviously,
7 you are.

8 The city is asking to amend -- and again, that's a
9 slippery slope, and we're not going to basically go down
10 that road. It's a question of which two of the three which
11 are triggering a variance that they would change, or
12 possibly all three.

13 I guess, Andrea what I'm reading into, if I read
14 between the lines, and your thought is the key phrase is
15 that the relief that's being requested to an alteration or
16 addition to a lawful, preexisting, nonconforming single or
17 two-family dwelling, will not be more -- will not be
18 substantially more detrimental than the existing,
19 preexisting, nonconforming structure.

20 ANDREA HICKEY: Correct.

21 BRENDAN SULLIVAN: Okay. All right.

22 CONSTANTINE ALEXANDER: How do you wish to vote?

1 BRENDAN SULLIVAN: I would agree with Andrea on
2 that that that is actually the governing standards.

3 CONSTANTINE ALEXANDER: You would vote in favor of
4 granting?

5 BRENDAN SULLIVAN: I would. I would vote in favor
6 of granting the special permit.

7 CONSTANTINE ALEXANDER: Jim?

8 JIM MONTEVERDE: In terms of commentary, you know,
9 I appreciate what the proponent's done in terms of pulling
10 the building in to the property lines on the two sides. I
11 think that was the part of the discussion last time, so
12 thank you for that.

13 You know, I feel like they're at the two-yard
14 line, and the only thing that's my stumbling block is really
15 the additional FAR, because it seems like such a small
16 amount that could easily be accommodated in a reduction --
17 you know, not using the attic, not using something that you
18 could pick up that 100-some odd square feet.

19 And I would be much more comfortable in supporting
20 it if it could be within the FAR and not exceed it. So --

21 CONSTANTINE ALEXANDER: As the case is before us
22 tonight, you're prepared to vote against it?

1 JIM MONTEVERDE: Correct.

2 CONSTANTINE ALEXANDER: -- unless Mr. Page --
3 okay, unless Mr. Page wants to offer something different.

4 JIM MONTEVERDE: Right.

5 CONSTANTINE ALEXANDER: So your vote is a no?

6 JIM MONTEVERDE: Correct. Okay, Laura?

7 LAURA WERNICK: Well, I would actually just take
8 the flip side of what Jim just said, in that I don't think
9 the 100 square feet is going to make any difference to the
10 neighbors. If there is actually 100 square feet removed, it
11 will not change the massing significantly, so it -- the
12 neighbors will not have -- I don't think there will be any
13 noticeable change.

14 And given that, and Mr. Page's commentary, I would
15 vote in favor of this plan.

16 CONSTANTINE ALEXANDER: Thank you. And there's --
17 my vote yes. I am prepared to vote, and will, vote in favor
18 of granting the relief that's being sought. But I would
19 again remind the petitioner that the case may not be over
20 tonight, and depending on the city's lawyers and the
21 building inspector decide.

22 But on the case with regard to the special permit

1 that's requested, special permits, as I may have said
2 earlier, are not a difficult standard to meet, and I believe
3 the petitioner does meet the standards, which I'm going to
4 go through in a second when I make my motion.

5 So I will vote in favor. And that would make four
6 votes out of five, but I need to frame -- I should have done
7 this before -- a formal motion. And I'm not going to
8 resolicit after I make that motion, because you've indicated
9 -- all -- everybody's indicated how they want to vote on it.

10 So, the Chair moves that we make the following
11 findings: That the requirements of the ordinance cannot be
12 met, the ordinance as now written, without the zoning relief
13 that's being requested.

14 That traffic generated or patterns of access or
15 egress resulting from what is being proposed will not cause
16 congestion, hazard, or substantial change in established
17 neighborhood character. In this regard, I think it's quite
18 clear that what is being proposed will not cause congestion
19 or hazard.

20 There has been testimony from the neighbors that
21 there will be a substantial change in established
22 neighborhood character -- that's the words of the ordinance,

1 not the words that they expressed.

2 I for one do not believe that there will be a
3 substantial change in established neighborhood character. I
4 think what is at the heart of this are design issues. I
5 think the neighbors do not like the design of what is being
6 proposed, and find it inconsistent with the neighbor.
7 Whether that's true or not is irrelevant from a zoning point
8 of view; we're not an architectural review Board, we're a
9 zoning Board.

10 That the continued operation of or development of
11 adjacent uses, as permitted by the ordinance, will not be
12 adversely affected by the nature of the proposed use. And
13 again, I don't see any adverse effect, should we grant the
14 relief tonight.

15 No nuisance or hazard will be created to the
16 detriment of the health, safety and/or welfare of the
17 occupant of the proposed use -- and I hope that's true -- or
18 the citizens of the city.

19 And that generally, what is being proposed will
20 not impair the integrity of the district or adjoining
21 district, or otherwise derogate from the intent and purpose
22 of this ordinance.

1 So on the basis of these findings, the Chair moves
2 that we grant the special permit requested on the condition
3 that the work proceed in accordance with plans submitted --
4 prepared by Sam Kachmar [K-a-c-h-m-a-r] Associates dated, or
5 the cover page at least is dated 01/07/2021, and that cover
6 page has been initialed by the Chair.

7 And as I said, we have four votes in favor, one
8 vote against, and the special permit is granted. Case over.

9 SHIPPEN PAGE: Thank you very much, members of the
10 Board. I appreciate it.

11 CONSTANTINE ALEXANDER: Thank you.

12 ANDREA HICKEY: Thank you, Councillor.

13 COLLECTIVE: Thank you.

14 ANDREA HICKEY: I'm waiting for an official bye-
15 bye.

16 JIM MONTEVERDE: Exactly. We're all hanging here,
17 Mr. Chair.

18 ANDREA HICKEY: Gus, give us a wave.

19 JIM MONTEVERDE: I think the bell rang. I think
20 we're all set to go. All right. Goodnight, all.

21 ANDREA HICKEY: Stay safe, everyone.

22 JIM MONTEVERDE: Bye-bye.

Subject: 2072 Mass Ave

Board of Zoning Appeal,,

I simply want to put my voice forward as strongly supporting the proposed development at 2072 Mass Ave.

This corner is perfect for such a project, being directly on Mass Ave, close to transportation, and being in the company of other substantial structures.

My neighbors are consistent in their ability to find fault in affordable project design and scope. Please don't sacrifice the good in search of the perfect.

I am especially glad to see a continuation of the commercial zone along Massachusetts Avenue. A continuous commercial stretch will improve foot traffic and encourage a more vital neighborhood.

I will make every attempt to attend the meeting virtually

Thank you,

J Matthew Schofield

Re: Comprehensive Permit Application for 2072 Mass Ave Apartments – Continuance Request
2072 Massachusetts Avenue, Cambridge, MA 02140
(BZA Case No. 017326-2020)

Dear Board of Zoning Appeal Members:

We are writing to request a continuance for the above referenced BZA Case scheduled for March 4, 2021. Due to circumstances beyond our control, we do not believe that we will be able to present the revised 2072 Mass Ave plans to the community or to the Planning Board prior to the scheduled March 4, 2021 BZA hearing. Granting the requested continuance will allow for sufficient notice and opportunities for the community and Planning Board to review and comment.

We look forward to formally requesting a continuance at the March 4 hearing.

Sincerely,

Jason Korb

December 28.2020

To the Members of the Board of Zoning Appeal

I oppose the proposed development at 2072 Mass Ave. My name is Ann Ferraro and I have lived at 35 Walden St for 22 years now and in the neighborhood for 60 years total. The traffic impacts the neighborhood tremendously during peak travel hours, especially the right lane at Walden and Mass Ave. and the side street, Mead St. Many people fly down Mead to avoid the light where traffic is constantly backed up, and in doing so create a danger to the people living on Mead. My building is on the corner of Mead and Walden, so I am all too familiar with the difficulties of trying to leave my home both on foot and in my car. My driveway is off Mead, and if I am not going in the direction of Mass Ave, I cannot get out onto Walden. Even though there is a clearance at the top of mead people come down and block traffic going towards Walden without any consideration for someone who is already $\frac{3}{4}$ of the way down the street and most are angry and hostile. The city tried to correct the situation with traffic calming curbing, but it only enhanced the urgency of the commuters and the anger of the people trying to 'be first'. Some days it takes a good while to get out of my driveway. Other days I nearly get run over walking my granddaughter to school or clipped when crossing with my dog, or nearly hit when entering my vehicle on Mead. It's horrible

The other issue having me in opposition is the proposed two-way entrance/exit at the Walden St light. This is a nightmare to begin with, but can you imagine Ubers, food deliveries and drop offs who normally just wait in the street tying up traffic, not to mention if they are coming in at out at that same point.? The right lane will never move. I am recalling when that site was a KFC restaurant, at peak 5 o'clock traffic; and people trying to pick up dinner and blocking the right lane trying to gain entrance to the KFC parking lot. it was nearly impossible for traffic to move, and so more people would barrel down Mead, angrily. At least, they had the exit on Mass Ave. I understand the concern about cars exiting there next to the senior center and a bus stop, but it has always been done that way, with caution, of course. I believe it's a scare tactic by the developers to help rule out the consideration of a parking area for the tenants. Perhaps that could be an entrance only and the Walden side could be an exit only. These developers put up a building known as Port Landing and there is underground parking for cars and bikes. The first level is split so the mechanics needed in place have room. (one of the arguments by the developers was that if they put parking underground, there would be no room for the buildings mechanics.) Currently they have a proposed space for 50 bicycles and nothing else. They can design a parking area with a ramp, they have done it. I strongly oppose no parking. Walden street has been changing with developers buying the one family homes and turning them into apartments /rentals for students and young professionals. Most of them own cars, but don't use them often and they take up dead space, often selfishly more than one space, because of the gaps they leave that are useless. You cannot afford to house that many families without parking. Please do not approve this.

And the obvious opposition is with the height of the building. Please do not allow them to go above 6 levels which is the tallest building in area, except for the building at Cogswell and Mass Ave, which the developers sited in their proposal. In contrast, this building is set back from the street, with an enormous parking area behind the building, and a street hardly traveled in comparison to Walden. It even has a no entrance peak hour restriction for peak commuting hours.

Please consider the awful traffic conditions of the people living on and off that end of Walden St, and do not approve something that will make it many times worse.

Thank you for your time in considering my opinion

Sincerely

Ann Ferraro o

Subject: Strongly in favor of lots of housing at 2072 Mass Ave

To the Cambridge Zoning Board of Appeals:

We are longtime North Cambridge residents and homeowners, and we are writing to express our strong support for the proposed 100% affordable housing development at 2072 Mass Ave. In our view, this lot is a great place for a big apartment building, we are thrilled that it would be affordable, and we think that more people in the neighborhood will make the neighborhood more lively and more safe. We think the "concerns" some of our neighbors claim to have about excessive density and traffic are overblown and frankly ridiculous.

As neighbors who will be directly impacted by this development, we love it! If we can't build lots of affordable housing on the city's main street, a few blocks from the subway, then where can we build it?!

Thanks,
Eric and Nadia Colburn

Subject: Support for Building On Corner of Walden and Mass Ave
Attachments: Zoning Letter Walden Corner.docx

Dear Board of Zoning Appeals,

I would like to submit my support for the proposed affordable housing building on the corner of Walden and Mass avenue. I support efforts to increase affordable housing in Cambridge, and as such, support conditionally a building up to 9 stories at the Walden/Mass ave site so long as the units would be permanently affordable, and the architectural design and construction of the building are high quality.

The attached letter outlines my support.

Thank you,

Brooksany Coe

February 25, 2021

To the City of Cambridge Board of Zoning Appeal:

I recently received a petition from North Walden Neighbors requesting support for their efforts to block a proposed development on 2072 Massachusetts Avenue. I would like to do the opposite and submit conditional support for the project.

I believe Cambridge needs MORE affordable housing options located close to T stops. The only way we are going to be able to address this issue is to increase density, and building heights will NEED to go higher than we currently allow. I have lived either on Walden Street or a few house down from Walden Street for 31 years and think the corner of Walden and Mass Ave is a good spot for more affordable units. Therefore, I support the height of the proposed building.

My support is "conditional" because I would like the Zoning Board to insure high quality design and construction at the proposed site, and also, allowance for bike garages. Walden and Sherman Street have become insanely backed up in recent years with commuter traffic. We do not need more cars on Walden Street. I am of the opinion that providing a 9 story building on the corner of Walden and Mass Ave may help people to move closer to public transportation, and reduce the amount of people commuting. While this project might only be a drop in the bucket, if it is well designed, planned, and truly affordable, I would encourage the Board of Zoning Appeals to waive zoning requirements that limit the number of stories allowed for the project.

Sincerely,

Brooksany Coe

TO: THE CAMBRIDGE BOARD OF ZONING APPEAL
RE: 2072 MASS. AVE.
DATE; MARCH 4, 2021

Chairman Alexander and members of the Board:

Please **DENY** this petitioner's expected request for another continuance and **REJECT** the comprehensive permit application because

1. the proper Chapter 40B procedures and the BZA rules have not been followed,
2. the applicants have not timely submitted corrected renderings or been transparent about why another postponement is needed, and
3. both of the grandiose project designs proposed are wildly inconsistent with "Local Needs" as set forth in the Cambridge Zoning Ordinance and other provisions of the Municipal Code.

Public resources and your time and effort as unpaid volunteers should not be wasted further on this misguided effort by for-profit developers to overbuild a constrained site at a dangerous location. Any comprehensive permit issued with such disregard for due process, the abutters, and public safety will surely be challenged in court and overturned. Please pull the plug on this fiasco without further delay.

Sincerely,

Michael Brandon

Subject: Conditions for Continuing 2072 Mass Ave Comprehensive Permit Case

Dear Assistant Commissioner Sisia,

Through you, I would like to ask the members of the Board of Zoning Appeal to grant the continuance of tonight's hearing with the following 4 conditions:

- 1) respond fully to BZA's requests. If their recommended option is the initial 9/6 plan then they should submit financial justification for the 9-story height.
- 2) give the community at least two weeks to review any changes to the previously submitted material before holding any community meetings to discuss the changes
- 3) require CC HRE to submit supplemental material to their Project Eligibility application after incorporating public comments with full access to the public comments, both positive and negative, on their website.
- 4) require CC HRE to submit supplemental material to you after they incorporate any conditions they may receive from the MA Dept of Housing & Community Development (MHCD) before scheduling a continued hearing with appropriate public notice period.

Thank you for your consideration,
Respectfully yours,
Young Kim

Board of Zoning Appeal
City of Cambridge
831 Massachusetts Avenue
Cambridge, MA 02139

Re: Comprehensive Permit Application for 2072 Mass Ave Apartments
2072 Massachusetts Avenue, Cambridge, MA

Dear Board of Zoning Appeal Members:

Pursuant to 760 CMR 56.04, we are submitting revised materials for the 2072 Mass Ave Comprehensive Permit Application. While the design has changed, the unit mix has not. The project continues to include 71% two (2) and three (3) bedroom apartment homes for families as indicated in the following table.

1BR	2BR	3BR	Total
14	21	14	49
29%	42%	29%	71% Family

The project's design changes are enumerated below and incorporate significant feedback from the site's direct abutters, the neighborhood and the City of Cambridge's urban design, traffic, and community development staff.

1. Increased height of the "floating cube" along Mass Ave. from eight (8) stories to nine (9) stories to concentrate the building's height fronting along Mass Ave.;
2. Lowered height of rear residential volume from eight (8) stories to six (6) stories to step down the building facing the residential neighborhood; and,
3. Added active landscaped terrace on the 6th floor roof for resident use (~1,850 SF).

As indicated above, the most significant change is in the building's massing. After discussions and further review with the City of Cambridge's urban design staff and abutters on Walden Street, the design was modified to increase the height along Mass Ave. by one (1) story (from 8 to 9 stories) and to decrease the height of the rear residential anchor by two (2) stories (from 8 to 6 stories). This results in the building stepping down to the neighborhood and rising up at the major urban street.

A landscaped terrace is now included at the residential anchor's sixth floor roof, which will support a flexible outdoor space that may safely accommodate raised gardens, native plantings, and unique programming opportunities for residents. These changes are shown throughout the architectural drawings, but best seen in the rendering sheets A-305 to A-310, elevation sheets A-300 to A-304 and plan sheets A-107 to A-110.

The widening of Walden Street, which was included in the original BZA application, requires the proposal to provide an easement to the City of Cambridge over a portion of the 2072 Mass Ave land to be utilized as a public sidewalk. The metes and bounds of the easement cannot be finalized until the building is constructed. Therefore, if this application is approved, we respectfully request the following condition be added to any BZA Decision:

Prior to the issuance of the Project's final certificate of occupancy, the Applicant shall record a pedestrian easement along Walden Street from the Applicant and Owner in favor of the City of Cambridge, the location of which is generally as indicated on C-101 Proposed Easement Plan dated November 10, 2020 by Nitsch Engineering. The easement shall be approved by the Department of Public Works staff, which approval shall not be unreasonably withheld, conditioned or delayed, and shall not require additional approvals by this Board.

The following plans and materials dated December 3, 2020 (unless otherwise noted) reflecting these changes are included herein. These plans and materials replace (or supplement where applicable) the plans and materials submitted on November 10, 2020.

1. Plans

Cover Page, G-100, G-101, EC (10/5/20), C-100 (11/9/20), C-101 (11/9/20), A-100, A-101, A-102, A-107, A-108, A-109, A-110, A-300, A-301, A-302, A-303, A-304, A-305, A-306, A-307, A-308, A-309, A-310, A-400, A-401, A-402

2. Dimensional Information dated November 24, 2020

3. List of Requested Exemptions/Waivers from the Applicable City of Cambridge Ordinances and Regulations

4. Shadow Studies

5. Recorded Notice of Ground Lease dated November 9, 2020 (recorded November 16, 2020)

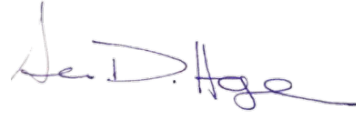

The community process has been robust and responsive to neighborhood feedback and concerns. The development team has met with the following direct abutters multiple times: the Cambridge Housing Authority (2050 Mass Ave/Russell Apartments), The Davis Companies (2067 Mass Ave/Henderson Carriage), and the 5 Walden Street Condominium. There have also been two large virtual community meetings, two virtual meetings with the Porter Square Neighbors Association, an upcoming meeting with the North Cambridge Stabilization Committee, a virtual meeting with neighbors on Creighton Street, and multiple email and phone communications with neighborhood residents. The project also has an active website (www.2072massaveapts.com) that includes all current materials, FAQ's and a comment forum for residents to comment on the project. A copy of the website FAQ's and comment forum are included herein for your reference. Finally, the development team has engaged with the residents of 2050 Mass Ave (Russell Apartments) by working with CHA management to place presentation boards (the original proposal and then later the revised proposal) in the lobby. Recognizing that many Russell residents are elderly, COVID-19 is a major concern, and do not have internet access, the development team placed in the lobby comment cards and copies of a memo with color renderings attached so that residents could view the proposal in the safety of their apartment home.

We believe the changes outlined in these supplemental materials are extremely positive and respond to feedback from various stakeholders. We look forward to presenting these plans to you at our December 10th hearing. Please contact Sean Hope at (617) 953-8369 if you have any comments.

Sincerely,

Jason Korb

Loading Bays		0	N/A	N/A
Allowable Uses		N/A	Multi Family Residential, Retail, Restaurant, Office, Institutional and Lab	Residential / Ground floor commercial / restaurant (f) and other uses as described on the Waiver List

- (a) Lot is located on a corner. Project team assumed two front and side yards with no rear yard.
- (b) Accessible parking requirement rounded up under UFAS (required for Section 504) to three (3) spaces.
- (c) Commercial Parking is waived under Article 6.36 based on actual quantity required being below four (4) required spots.
- (d) Garage and bicycle parking exempt from calculation.
- (e) Project team pursuing public contribution approach for short-term bicycle parking per Article 6.104.2 (b).
- (f) Along with other future possible uses as described on the Waiver List.
- (g) ~1,013 SF of the total lot area is in Residence B, with the remainder in BA-2.
- (h) Total GFA has increased due to the addition of roof terrace area (1,856 sf) and the net sf addition of the ninth floor on Mass Ave. (1,500 sf).
- (j) 9 stories reference front volume along Mass Ave and front end of Walden St, 6 stories reference rear volume towards rear of lot along Walden St facing neighborhood.
- (k) Building is sited to align with building next door which is right on the sidewalk.
- (l) Along Walden Street for the length of the proposed building at the ground floor, Owners are granting City of Cambridge an easement.
- (m) Roof terrace at 6th floor roof will contain combination of occupiable area and permeable open space.

EXCEPTIONS/WAIVERS FROM THE APPLICABLE
CITY OF CAMBRIDGE ORDINANCES AND REGULATIONS
for CC HRE 2072 MASS AVE TENANT LLC
(Updated as of December 3, 2020)**

CAMBRIDGE ZONING ORDINANCE – CHAPTER 17 OF MUNICIPAL CODE

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
1.	§ 4.30 Table of Use Regulations and §4.31(g)	Multifamily dwelling is Prohibited in Residence B Zoning District.	The Applicant seeks zoning relief to allow the proposed Multifamily Development.
2.	§ 4.21 Special Classification Rules (Accessory Uses)	Allowed accessory uses include, inter alia, off-street parking, customary home occupations and certain service establishments and eating establishments for residents of multi-family dwellings.	To the extent that the proposed building amenity uses are not enumerated in Section 4.21, the Applicant seeks zoning relief to allow the proposed amenity uses for the building occupants.
3.	§ 4.37(B) (2) Light Industry, Wholesale Business and Storage	Table of Uses in article 4.30 prohibits Catering Commercial kitchen as known as wholesale food products, including bakery, confectionery and dairy products	The Applicant seeks zoning relief to allow a Catering or Commercial Kitchen in the area shown on the plans as Retail.
4.	§ 5.11 Development Standards – General Regulations	No building or structure shall be built nor shall any existing building or structure be enlarged which does not conform to the regulations as to maximum ratio of floor area and lot areas, minimum lot sizes, minimum lot area for each dwelling unit or equivalent, minimum lot width, minimum dimensions of front, side and rear yards and maximum height of structures.	The Applicant seeks zoning relief to allow the proposed Multifamily Development as shown on the Plans. Specific requests are set forth below. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
5.	§ 5.22.1 and § 5.22.3; §5.31 and Table 5-1 - Table of Dimensional Requirements – Residential Districts	Private open space shall be provided and shall be a percentage of the lot area as set forth in Section 5.31. An area designated as private open space must have both a width and a length of at least 15', except for balconies, and may not have a slope greater than 10%. With the exception of balcony areas, private open space shall be accessible to all occupants of a building; not less than ½ of the required private open space shall be provided at ground level or within 10' of the level of the lowest floor used for residential purposes. In the Residence B Zoning District, at least 50% of the required Private open space shall meet all of the requirements of Section 5.22.1. At least 50% of the required Private open space shall meet the definition of Permeable Open Space and shall not be subject to the dimensional limitations of Section 5.22.1 as applied to Private open space.	The Applicant seeks zoning relief to allow the proposed Multifamily Development as shown on the Plans. The proposed private open space has a width and length of less than 15', as shown on the Plans. All private open space is located at ground level. At least 50% of the provided private open space will be Permeable Open Space (as shown on the Plans); however, as described above, the proposed Multifamily Development does not meet the required private open space requirement. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
6.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Maximum Ratio of Floor Area to Lot Area = 1.0 for Non-residential Uses and 1.75 for Residential Uses.</p> <p>Residence B Maximum Ratio of Floor Area to Lot Area is .50.</p> <p>For those portions of any lot exceeding 5,000 sf, the applicable Maximum Ratio of Floor Area to Lot Area shall be 0.35 for all permitted residential uses.</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The existing Ratio of Floor Area to Lot Area is approximately 0.22 and the proposed Ratio of Floor Area to Lot Area is approximately 7.13.
7.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Minimum Lot Area for Each Dwelling Unit = 600 sf. Per dwelling unit.</p> <p>Residence B Minimum Lot Area for Each Dwelling Unit = 2,500 per dwelling unit.</p> <p>For those portions of any lot exceeding 5,000 sf, the applicable Minimum Lot Area for Each Dwelling Unit shall be 4,000 sf.</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The proposed 49 dwelling units cannot comply with the Minimum Lot Area for Each Dwelling Unit requirement.
8.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Minimum Front Yard = 5'</p> <p>Residence B Minimum Front Yard = 15'</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The smallest existing front yard setback is approximately 0'; the smallest proposed front yard setback will be approximately 0'.
9.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Minimum Side Yard = 10' on both side yards.</p> <p>Residence B Minimum Side Yard = 7'6" (sum of 20).</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The smallest existing side yard setback is approximately 42.4'; the smallest proposed side yard setback will be approximately 0'.
10.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Maximum Height = 45'</p> <p>Residence B Maximum Height = 35'</p>	Due to the need for a building height of approximately 102'9 stories on Mass Ave and 69.6'6 stories on Walden and considering the adjustments that may occur during development of the plans and drawings from design development to full construction drawings, the Applicant seeks a waiver of the height requirement not less than 68' and not greater than 102'.
11.	§6.36.1 – Schedule of Parking and Loading Requirements	<p>In Business A-2 District, there is a one parking space per dwelling requirement.</p> <p>In Residence B district, multifamily dwellings are not allowed; therefore, Section 6.36.1(g) states that there is no applicable requirement for off-street parking for multifamily dwellings in the Residence B district.</p>	<p>Although there is no technical requirement for off-street parking in the Residence B district for a multifamily use, the Applicant seeks a waiver to allow the proposed Multifamily Dwelling with three (3) proposed accessible off-street parking spaces and two (2) drop off spaces as shown on the Plans.</p> <p>A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.</p>

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
12.	§6.42 – Design and Maintenance of Off-Street Parking Facilities – Dimensions for Off-Street Parking Spaces	Dimensions for off street parking spaces. Aisle Width of 22’ required.	To waive the requirement for a dimensional variance and to allow the proposed Multifamily Development as shown on the Plans. The proposed dimension of parking spaces shall be less than minimum required aisle width will be less than the required 22’.
13.	§6.43.4(c) – Design and Maintenance of Off-Street Parking Facilities – Driveways	Grade and design of driveway shall provide a clear view to the driver of any car exiting from the facility, or traffic on the street and of pedestrians.	Due to constraints of the driveway location and building, the clear view from the proposed driveway to Massachusetts Avenue when looking south may be compromised. The Applicant requests a waiver from the requirement for a variance and to allow the proposed Multifamily Development as shown on the Plans.
14.	Article 19 – Project Review	Establishes traffic and urban design standards for development projects exceeding 20,000 gross square feet that are likely to have a significant impact on abutting properties and the surrounding urban environment. Requirements include a Special Permit from the Planning Board including Traffic Impact Review (including a Traffic Impact Study), Urban Design Review, Tree Study, Sewer Service Infrastructure Review, Water Service Infrastructure Review, Noise Mitigation Review, Citywide Advisory Development Consultation and specific building and site plan elements.	To waive all of the applicable Article 19 requirements for a Planning Board Special Permit and other requirements and to allow the proposed Multifamily Development that exceeds 20,000 gross square feet. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
15.	§20.100 Massachusetts Avenue Overlay District	Contains specific requirements for projects located within the Massachusetts Avenue Overlay District, including use regulations, dimensional requirements, and design standards. Projects are also required to comply with the Large Project Review process.	To waive all of the applicable requirements of Section 20.100 without the need for a Planning Board Special Permit and to allow the proposed Multifamily Dwelling without a Special Permit from the Planning Board. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

MUNICIPAL CODE

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers and Notes</u>
1.	Chapter 12.04.020 - Street Numbers	The City Council shall assign numbers to houses.	To waive the requirements of this provision of the Municipal Code so that no separate approval is required from the City Council. To allow the Board of Zoning Appeals to delegate the task of assigning house number(s) for the proposed Multifamily Development to the Building Department, to be completed prior to issuance of Certificates of Occupancy. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
2.	Chapter 12.12.010 - Curb Cut	The City Council shall approve the Curb Cut modification to support the proposed multifamily development as shown on the plans.	To waive the requirements of this provision of the Municipal Code so that no separate approval is required from the Superintendent of Streets and/or the City Council for the modification to the curb cut on Walden Street as shown on the Plans. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

EXHIBIT C
NOTICE OF LEASE

Pursuant to Massachusetts General Laws, Chapter 183, Section 4, as amended, notice is hereby given of a ground lease (the "Lease") as follows:

Deed Reference: Book 70850, Page 295

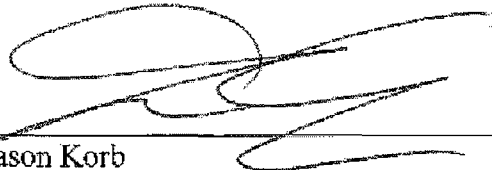

EFFECTIVE DATE:	November 9, 2020
LANDLORD:	CC HRE 2072 Mass Ave LLC, a Massachusetts limited liability company
TENANT:	CC HRE 2072 Mass Ave Tenant LLC, a Massachusetts limited liability company
DATE OF EXECUTION OF LEASE:	November 9, 2020
DESCRIPTION OF PREMISES:	The parcel of land located in Cambridge, Massachusetts, more particularly described in Exhibit A attached hereto.
COMMENCEMENT DATE OF ORIGINAL TERM:	November 9, 2020
TERM:	99 years expiring on November 9, 2119

Signed, sealed and delivered as of November 9, 2020.

LANDLORD:

CC HRE 2072 Mass Ave LLC, a Massachusetts limited liability company

By: Capstone 2072 Mass Ave LLC, its managing member

By: 
Name: Jason Korb
Title: Managing Member

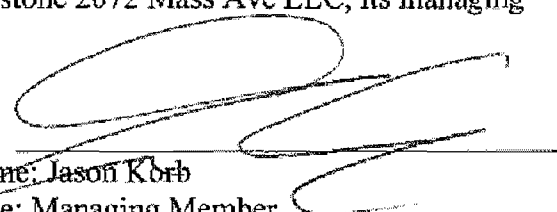

By: HRE 2072 Mass Ave LLC, its managing member

EXHIBIT A TO NOTICE OF LEASE
Description of the Premises

2072 Massachusetts Avenue, Cambridge, Massachusetts

A certain parcel of land with the buildings thereon situated in said Cambridge on the Southeasterly corner of Massachusetts Avenue and Walden Street, and more particularly bounded and described as follows:

- NORTHWESTERLY: By said Walden Street, one hundred and fifteen and $\frac{27}{100}$ (115.27) feet more or less;
- SOUTHWESTERLY: By land of Ferguson, seventy-five and $\frac{22}{100}$ (75.22) feet more or less;
- SOUTHEASTERLY: By land of Daniel O'Connell, one hundred and thirteen and $\frac{10}{100}$ (113.10) feet more or less;
- NORTHEASTERLY: By said Massachusetts Avenue, seventy-five and $\frac{46}{100}$ (75.46) feet more or less in two lines.

Containing eight thousand five hundred and fifteen (8515) square feet of land more or less.

2072 Mass Ave

Capstone Communities and Hope Real Estate Enterprises

Sean D. Hope, a third generation Cantabrigian, is the founder and principal of Hope Real Estate Enterprises LLC in Central

Square, Cambridge. Sean has leveraged his experience as a Land Use attorney and former member of the Cambridge Zoning Board in partnership with Capstone Communities LLC to develop Port Landing, a 20 apartment 100% affordable housing development at 131 Harvard Street in The Port and Frost Terrace, a 100% affordable development at 1791 Massachusetts Avenue in Porter Square (currently under construction).

Sean is deeply committed to improving the quality of life for Cambridge residents through his work with the Margaret Fuller Neighborhood house, Cambridge Children and Family Services (CFCS), and the Cambridge Historical Society.

Jason Korb is the principal of **Capstone Communities LLC** where he has developed market rate, mixed income, and 100% affordable housing. Since founding Capstone in October 2010, Jason has successfully completed a total of \$60,000,000 in development transactions in Cambridge, Somerville, Arlington, Newton and Brockton Massachusetts. Prior to forming Capstone, Jason was the Vice President of Acquisitions at Beacon Communities LLC, a developer, owner, and manager of over 10,000 apartment homes.

Jason is a Director of the Citizens Housing and Planning Association and was formerly a Director of Caritas Communities and the Vice-Chair of Preservation Massachusetts.

Capstone and Hope purchased the 2072 Mass Ave site in 2018 for \$3.6 million utilizing loan proceeds from the Cambridge Affordable Housing Trust.

General Information

What is the proposed mix of apartments?

The development proposal includes 49 apartments, including 14 one-bedrooms, 21 two-bedrooms, and 14 three-bedrooms. The apartments will be on floors 2-9. With over 71% two- and three-bedroom apartments, 2072 Mass Ave will provide desperately needed affordable housing to families.

Floors 2-6

Floors 7-8

Floor 9

What will be located on the first floor and basement?

The building’s first floor will include retail and residential entrances fronting Massachusetts Avenue. The residential entrance will include a large lobby, a management office, and resident amenity space. The corner of Mass Ave and Walden Street will include approximately 1,000sf of retail space that will be programmed for a community-oriented retailer at modest rents. A vehicular entrance off Walden Street will provide access to three (3) handicap accessible parking spaces and two (2) short-term drop off/pick up parking spaces.

Ground

Floor Plan

The building's basement includes bicycle storage and mechanical rooms.

Basement Plan

What is the building's height and number of stories? Will someone be able to see the rooftop mechanical equipment?

The height to the top of the building's parapet facing Mass Ave is approximately 102' and the rear six (6) story portion is approximately 69.5'. The rooftop mechanical equipment will not be visible from the public way.

Since the building is oriented to families, where will kids be able to play?

The building includes a large indoor amenity space on the first floor that will be programmed for children. In addition, the sixth-floor roof will support a flexible outdoor space that may safely accommodate an open children's play area. There are also public playgrounds and parks in the area, including the play yard at St. James Church one block from the site, which will be available to the public during specific hours.

There is significant vacant retail space on Mass Ave, is retail the only way the ground floor can be activated?

The site is in the Massachusetts Avenue Overlay District (MAOD) which requires ground floor retail/active uses to help activate the streetscape and support the other small businesses along the Porter Square and north Mass Ave corridor. The size and layout of the proposed retail space at 2072 Mass Ave is intended to be consistent with the standards for ground floor retail spaces and will allow for flexibility to accommodate a range of allowed uses.

Additionally, the project's Comprehensive Permit Waiver List

requests flexibility so that the retail space, if unsuccessful, may also be used for building amenity and or function space.

What are the plans for Darul Kabab, the current restaurant?

The development team has been working with Darul Kabab through COVID-19 and it is anticipated that it will be allowed to remain as a tenant until its lease expiration at the end of 2021.

Affordable Housing

What is the demand for affordable housing in Cambridge?

There has been overwhelming demand for affordable housing in Cambridge for many decades and COVID-19 has resulted in an even sharper increase in the need for affordable housing. As of September 28, 2020, the Cambridge Housing Authority has 20,703 unique applicants across all of CHA's waiting lists (32 total). 7,102 (34%) of applicants indicate they live or work in Cambridge or are a veteran. Per the CHA's mobile voucher waitlist only (12,081 applicants on waitlist) there are 5,657 applicants for one-bedrooms, 4,086 applicants for two-bedrooms, and 2,352 applicants for 3

bedrooms or larger. Of applicants that qualify for a local preference (applicants that live and/or work in Cambridge), there are 2,464 applicants for one-bedrooms, 1,325 applicants for two-bedrooms, and 732 applicants for 3-bedrooms or larger.

Homeowner's Rehab recently leased up The Finch and had 2,261 applicants for 98 affordable apartments. Capstone and Hope's Port Landing had 1,386 applicants for 20 affordable apartment units. The property management team at Frost Terrace, Capstone and Hope's newest development leasing up in Porter Square, estimates that the project will have 4,000 – 5,000 applicants for 40 apartments.

What is considered affordable housing in the context of 2072 Mass Ave?

Affordable housing typically includes apartments that limit household income to at or below 30%, 50% and 60% of the area median income (AMI). For 2020, the adjusted gross income limits in Cambridge for a family of four range from \$38,370 to \$76,740. For 2020, three-bedroom monthly rents (including all utilities) would range from \$997 to \$1,995, and two-bedroom monthly rents would range from \$864 to \$1,728. HUD annually updates these rents and incomes.

If someone has very little income but significant assets, could they qualify to live at 2072 Mass Ave?

No. For purposes of qualifying residents to live in the building, income is imputed from assets in addition to being

calculated in more standard ways, such as from W2s, 1099s, etc.

How long will the apartments be restricted as affordable housing?

The apartments at 2072 Mass Ave will be affordable in perpetuity.

How would I apply for an apartment home at 2072 Mass Ave?

If the project is approved, approximately six months prior to the project being completed, the property management team will distribute applications for a public lottery for the apartment homes at 2072 Mass Ave. There will be a 60-day application period during which time applications for the lottery are accepted. If you are looking for an affordable apartment home now, the development team's Frost Terrace Apartments, also in Porter Square, is currently accepting applications. Visit www.FrostTerApts.com for more information.

Do Cambridge residents or household members who work in Cambridge have priority for any of the apartments?

Subject to state and City approval, 70% of the affordable homes would be set-aside for current Cambridge residents and those who work in Cambridge. The City of Cambridge requires the maximum amount of local preference which is capped at 70% by state and federal funders.

Why are all of the apartments rental and not ownership?

A significant portion of the development's funding sources include the Low-Income Housing Tax Credit, a federal subsidy that requires the development to be rental housing.

Sustainability

What does it mean that the development will be Passive House (PHIUS+) certified?

Pursuant to [phius.org](https://www.phius.org):^[1] Passive building comprises a set of design principles used to attain a quantifiable and rigorous level of energy efficiency within a specific quantifiable comfort level. "Optimize your gains and losses" based on climate summarizes the approach. To that end, a passive building is designed and built in accordance with these five building-science principles:

- Employs continuous insulation throughout its entire envelope without any thermal bridging.
- The building envelope is extremely airtight, preventing infiltration of outside air and loss of conditioned air.
- Employs high-performance windows (double or triple-paned windows depending on climate and building type) and doors - solar gain is managed to exploit the sun's

energy for heating purposes in the heating season and to minimize overheating during the cooling season.

- Uses some form of balanced heat- and moisture-recovery ventilation.
- Uses a minimal space conditioning system.

Passive building principles can be applied to all building typologies – from single-family homes to multifamily apartment buildings, offices, and skyscrapers.

Passive design strategy carefully models and balances a comprehensive set of factors including heat emissions from appliances and occupants to keep the building at comfortable and consistent indoor temperatures throughout the heating and cooling seasons. As a result, passive buildings offer tremendous long-term benefits in addition to energy efficiency:

- Superinsulation and airtight construction provide unmatched comfort even in extreme weather conditions.
- Continuous mechanical ventilation of fresh filtered air provides superb indoor air quality.
- A comprehensive systems approach to modeling, design, and construction produces extremely resilient buildings.
- Passive building principles offer the best path to Net Zero and Net Positive buildings by minimizing the load that renewables are required to provide.

Visit phius.org for more information on Passive House.

In addition to PHIUS+, what other sustainability measures will the building incorporate?

The proposal includes significant and broad sustainability measures. The building will include a rooftop solar array, a green roof on the ninth-floor roof, EV charging stations, EnergyStar appliances, LED lighting throughout, building materials with fewer toxins and chemicals than traditional materials, solar shades at the rear façade, large fenestration for natural light, and raised gardens and native trees and shrubs on the sixth floor's roof that will be accessible to residents.

TABLE OF
CONTENTS**

Exterior Design

How was the proposed height and density determined?

The development team based the proposed density and Floor to Area Ratio (FAR) on adjacent and nearby properties and its proximity to Mass Ave and Porter Square. The nearby properties include the adjacent six (6) story, 40' Russell

Apartments; the five story, 68' Henderson Carriage House directly across Mass Ave; and the eight (8) story, 71' building located at 2130 Mass Ave. It also noted the nine (9) story, 85' Northview Condominiums building located at 2353 Massachusetts Avenue. The development's architects designed the building in the context of the property fronting onto Mass Ave (the busiest street in Cambridge) and is 0.3 miles from Porter Square, which offers numerous amenities within a short walking distance to the building's future residents.

Where does the building cast its shadow?

The proposed building primarily casts its shadows to the north and northeast across Massachusetts Avenue throughout the year, having minimal impact on the residential neighborhood located behind the proposed site along Walden Street. Please refer to the supplementary shadow studies package for more details.

How was the building's design developed?

The development's design balances a complex set of contextual priorities, which have arisen from analysis, community meetings, and various meetings with the City of Cambridge Urban Planning, Community Development and Traffic and Parking teams. The design goals are:

Create a high-quality affordable housing apartment community for families in Cambridge

The design reflects its context, a strong corner on Cambridge's main street. The building massing is slender,

allowing for light and air for all apartment homes. The site is linked to amenities and services in this walkable neighborhood and the unit interiors are simple, but elegant.

Create significant transparency: Activate the streetscape

A primary design goal is to maintain transparency at street level to facilitate visual connections and to activate the streetscape. The first floor along Mass Ave will be wrapped with transparent storefront glazing and will include both the retail and residential entryway. The residential entryway will be pushed back to create a more pedestrian-scaled experience for residents. The storefront turns the corner onto Walden St and continues along with transparency into the retail and resident amenity spaces. An entrance limited to parking and a services area is hidden on the rear part of the site.

Shaping: Building Form

The building consists of two interconnected volumes – a nine (9) story volume on Massachusetts Avenue and a six (6) story volume at the rear. Along Massachusetts Avenue and West along Walden Street, the nine-story suspended aluminum clad volume is clad in light colored anodized aluminum / zinc vertical panels with a staggered pattern, creating a light and airy volume that floats above one story of recessed storefront glazing. The mass of the building has a strong corner presence that is visible from the street intersection and a grid of openings accentuates the volume, incorporating large windows which provide natural daylight into the interior units, as well as vertical infill composite panels that

resemble wood, bringing warmth and texture. The building steps down to a six (6) story residential anchor towards the rear of the site in response to the transition between the denser urban corridor along Massachusetts Avenue to the residential neighborhood lining Walden St. On the roof of the sixth floor, a landscaped roof terrace will provide amenity space for the enjoyment of residents, while also providing opportunities for green plantings that liven the building's appearance from the surrounding context.

Human Scale: Material Palette

The residential anchor consists of a materials palette that relates to the surrounding residential buildings. The brick plinth / base is located on the ground floor, most prominently at the residential entry which is recessed along Mass Ave, adjacent to the retail space and bus shelter. The crafted long brick at street levels enlivens the pedestrian experience and allows for interactions as the wall angles back and forth. This culminates in a gradient of increasingly frequent openings that also serve as visibility into the parking area, as well as creating ventilation. Above the parking entry, the brick is oriented vertically as a contemporary response to the traditional lintel approach, while highlighting the playfulness of the material.

Brick pattern material precedents

Above the brick plinth, painted clapboard comprises the main field of the body. Proportionately sized and spaced windows bordered by a trim are located along all orientations of the residential anchor. On the south elevations, each window has an infill panel below, clad in a lighter colored shingle panel to provide an accent from the main field, as well as to give the perception of the same proportions compared to windows on the north and west facades. In addition, solar shades are proposed on the South façade that not only livens the rhythm of the façade, but also serves a functional purpose of providing shade to reduce the building’s overall energy consumption. The top of the residential anchor is defined by a cornice band of half-round shingles.

Suspended cube and residential anchor material precedents

There is a mature existing tree on the property line between 2050 and 2072 Mass Ave. Will the development team attempt to save this tree?

The 12” diameter at breast height (DBH) Littleleaf linden

has been reviewed by the development team's master arborist, Daniel Cathcart, who believes the tree can be retained. Mr. Cathcart drafted a tree protection plan that will be incorporated into the development's construction plans.

Electrical transformers in new developments in Porter Square have been placed in conspicuous locations and have reduced visible green space and are unattractive. What steps are the development team taking to conceal the building's transformer?

Pursuant to discussions with Eversource, the electrical transformer has been allocated sufficient space in an enclosed vault under the parking area so that it will not be visible nor will it impede any of the building's amenities.

The development team was aware of this issue at Frost Terrace and located that project's transformer below the front yard and fully out of view.

Since the rooftop amenity space will be accessible to the residents, how will you ensure safety for all?

Safety from the distinct dangers presented by a recreational space on a rooftop is paramount for residents, operational staff, and pedestrians on the street. All current best-practices will be employed to create pleasing, yet effective barriers, for users of all ages and abilities, that meet or exceed building codes.

BACK TO FAQ TABLE OF CONTENTS

Interior Design

Will the apartments be duplexes, flats, etc.?

All of the apartments will be flats.

How will the interior of the apartments and common areas be finished?

The apartments and common areas will be modern with contemporary fixtures. Below are photographs from the development team's Port Landing development at 131 Harvard Street that was completed in 2016 and renderings from the development team's Frost Terrace development at 1791 Mass Ave that will be completed in spring 2021. The finishes at 2072 Mass Ave will be similar in quality and appearance but will also express the proposal's unique character.

Port Landing

Frost Terrace (renderings)

Will the apartments be accessible to individuals with mobility and sensory difficulties?

All of the apartments will be designed in accordance with the Massachusetts Architectural Access Board 521 CMR 5.00 Group 1 standards that require accessible routes throughout an apartment and include features that can be modified without structural change to meet the specific functional needs of an occupant with a disability. In addition, three (3) apartments will be fully accessible Group 2B units for individuals with mobility disabilities and one (1) apartment will be designed for individuals with sensory disabilities.

Will an elevator be provided?

One elevator will be provided.

What amenities will be in the building?

There will be an onsite management office that will be staffed part-time. In addition, there will be a resident community room where management will organize programming for families, seniors and children. The rear, sixth floor roof will support a flexible outdoor space that may safely accommodate an open children's play area, raised gardens, native trees and shrubs, and unique programming opportunities for residents. There will be enclosed bicycle parking in the basement.

Ownership and Management

How are residents selected? Do current Cambridge residents have any priority?

Current Cambridge residents and certain others will have priority to apply to 70% of the apartments.

Resident screening will follow all federal and state fair housing laws in addition to the requirements specified by the Cambridge Community Development Department and the Massachusetts Department of Housing and Community Development.

Prior to construction completion, there will be a random public lottery that will determine the order in which future residents will be screened. The development team's Frost Terrace apartment community is currently accepting applications for its lottery, visit www.FrostTerApts.com for more information.

Who will manage the community once it opens and for how long will you own the building?

Capstone and Hope will be hiring a professional property management company that specializes in multi-family affordable housing. Capstone and Hope opened the 100% affordable [Port Landing](#) apartment community in The Port (Cambridge) in 2016. Port Landing is currently managed by Trinity Management Company, a highly respected

management company that currently manages over 6,000 market rate and affordable apartments and over 538,500 square feet of commercial space. Trinity Management is also managing the lease-up and management for Frost Terrace. Under the various affordable housing subsidy programs, Capstone and Hope are required to own 2072 Mass Ave for a period of no less than 10-15 years after the development is completed. This long-term ownership requirement ensures that Capstone and Hope have a vested interest in constructing a high quality and sustainable apartment community.

**BACK TO FAQ
TABLE OF
CONTENTS**

Parking and Transportation

The proposal includes only 3 onsite parking spaces and 2 short-term drop off spaces, will residents have cars and where will they park?

The development's parking consultant, VAI, estimates that the building's residents will have approximately 25 vehicles. VAI surveyed the surrounding streets within ¼ mile of the site and determined that there are a total of 928 parking spaces. At the peak demand time of 12pm, there were 281

available parking spaces. [Click here to review the parking study.](#)

What will the developer do to reduce residents' dependence on cars?

Management will employ traffic demand measures (TDM) that include 1) designating an on-site employee as the site's Transportation Coordinator to oversee marketing and promoting of transportation options at the site, 2) providing new residents transportation information packets with information on getting around Cambridge sustainably, 3) installing real-time transit display screen in the lobby to make it simpler for residents, visitors, and employees to access real-time transit and BLUEbikes availability information in the area. The screens will also post other useful information on single occupancy modes of travel, such as carpool/vanpool to supermarkets, etc., 4) subsidizing 100 percent of the cost of a MBTA T pass for employees (building property managers/maintenance staff) or \$240 annual reimbursement for bike maintenance for employees who choose to commute by bike, 5) organizing orientation sessions with residents to teach biking rules, safe biking measures, basic maintenance and repairs and help identify bike routes to various locations, 6) Bicycle racks and a bicycle "Fix-it" station will be provided on-site, 7) annually, upon initial move-in and lease renewal, residents will be offered the choice of: 1. annual BLUEbikes membership (including one-time discounted helmet through bluebikes), 2. \$90 credit for ride share service, 3. 1-month adult MBTA Monthly LinkPass, and/or 4. 3-month Student or Senior

Monthly LinkPass. This will be provided PER RESIDENT (not per household) on an annual basis.

The above strategies will encourage non-auto travel by the residents.

Will bicycle parking be provided?

Covered and accessible bike parking will be provided in the building's basement. 48 long-term and three (3) tandem bicycle parking spaces will be provided in a separate bicycle room, which is fully compliant with the City's zoning code.

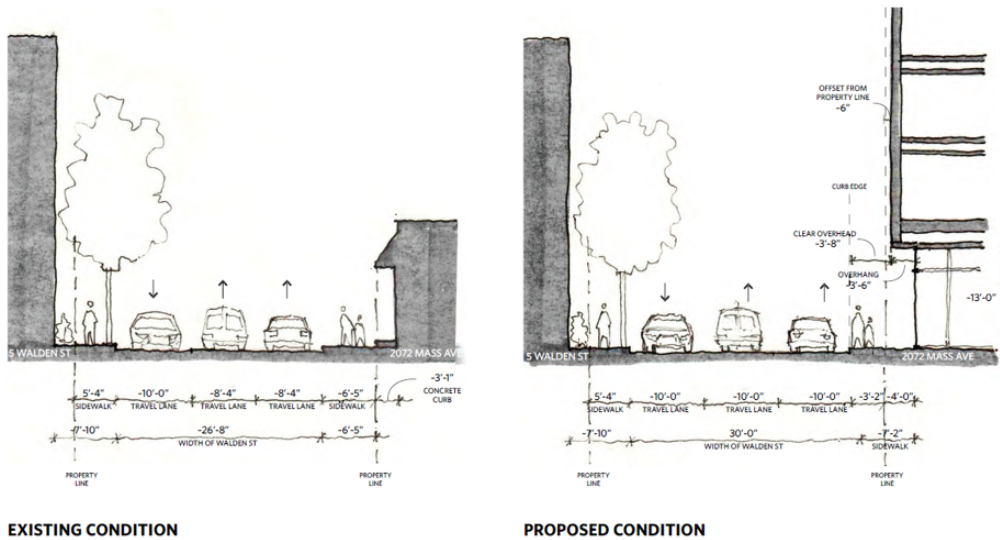

The intersection at Mass Ave and Walden Street is congested and difficult to navigate. What will the proposal do to improve the intersection?

The portion of Walden Street adjacent to the 2072 Mass Ave is unusually narrow for a three-lane street. Currently Walden Street is ~26'-8", with a ~10'-0" travel lane outbound from Massachusetts Avenue and two ~8'-4" travel lanes inbound. This constriction slows traffic moving through the intersection, makes turns difficult, and does not align with best practices and guidelines.

The proposed design includes the widening of Walden Street from ~26'-8" to 30'-0". This is achieved by locating the exterior walls of the ground floor ~4'-0" inside the property line and then granting an easement to the City for a sidewalk in that area, resulting in three (3) 10'-0" travel lanes and making a more spacious street condition. The proposed design also improves the sidewalk by widening it from its current ~6'-5" width to be ~7'-2" wide, both measurements

are inclusive of the curb. The proposed upper floors of the new building overhang the sidewalk by ~3'-6" with an overhead clearance of ~13'-0".

The opportunity to widen Walden Street and significantly relieve its congestion is only possible because the development team is providing a portion of the 2072 Mass Ave land (via an easement) to the public way.

The building will add additional vehicles to the currently constrained adjacent roadways, will this further exacerbate traffic?

The site is currently occupied by a fast-casual restaurant with curb cuts on Mass Ave and Walden Street. The restaurant generates more vehicle trips than the proposal, so the net impact to the roadways is reduced vehicle trips.

How will the short-term drop-off parking spaces be monitored so that residents do not stay for longer than the designated period?

The drop-off spaces will properly function only if they are constantly monitored. The development team is exploring the installation of devices that will alert management and a local towing company if a vehicle stays longer than permitted. The garage has been designed so that a tow truck can access the parking area and tow a vehicle.

Why are no street trees included in the proposal?

The development team had hoped to add as many street trees as feasible; unfortunately, several electrical duct banks under the Mass Ave and Walden Street sidewalks prevent the planting of any street trees at these locations.

**BACK TO FAQ
TABLE OF
CONTENTS**

Permitting and Next Steps

What mechanism is being proposed to permit 2072 Mass Ave?

2072 Mass Ave is being proposed to be permitted through a Comprehensive Permit under MGL Chapter 40B. A Comprehensive Permit application permits an applicant to request all local permits through the Board of Zoning Appeal, including a request for any waivers from the underlying zoning.

The Affordable Housing Overlay (AHO) was recently enacted, why is 2072 Mass Ave not permitting the project under the AHO?

The AHO is one of a number of tools to permit an affordable housing development in the City of Cambridge. The AHO would require setbacks and a lower height than currently proposed at 2072 Mass Ave. The development team believes that setbacks are not appropriate along Mass Ave (most of the adjacent buildings have no setbacks) and believes the proposed nine (9) stories along Mass Ave is appropriate and warranted at this location.

What steps have the development team taken to solicit feedback from the elderly residents at the adjacent Russell Apartments located at 2050 Mass Ave?

The development team has twice met with the Cambridge Housing Authority (CHA), the owner and property manager of the Leonard J. Russell Apartments, to present the proposal and recent modifications and solicit feedback. The development team, in conjunction with CHA property management, have displayed renderings and other project information in the Russell lobby along with comment cards for residents to provide feedback. A Russell resident is also a formal liaison and is providing feedback to the development team on behalf of the Russell residents.

How has the development team solicited comments and feedback from the community?

By the time the proposal is presented to the Planning Board on December 1, the development team will have presented and solicited feedback at two (2) large virtual community meetings, two (2) Porter Square Neighbors Association virtual meetings, and many private virtual and phone meetings with direct abutters. In addition, the development team has responded to comments posted on this website and emails it has received from abutters.

What changes to the proposal have resulted from the community process?

The current plans reflect significant feedback from abutters, the neighborhood, and the City. These changes include but are not limited to:

- Allocating of a portion of the 2072 land to the public way in the form of an easement so that each Walden Street vehicular travel lane can be widened to 10' and so that the sidewalk adjacent to 2072 Mass Ave along Walden Street can also be widened;
- Relocating the residential entrance from Walden Street to Mass Ave so that package delivery, ride shares, and pedestrian traffic will be oriented to busier Mass Ave;
- Setting back the first floor of the building along Walden Street;
- Angling the wall adjacent to the driveway along Walden Street back toward the building to provide additional pedestrian safety;

- Adding street level landscaping planters at the garage entrance;
- Reducing the height of the rear residential anchor from eight (8) stories to six (6) stories so that the building steps down to the residential community (the front floating cube increases to 9 stories along Mass Ave); and,
- Adding a flexible outdoor space on the sixth-floor roof that may safely accommodate an open children's play area, raised gardens, native trees and shrubs, and unique programming opportunities for residents.

When are public hearings scheduled for this proposal?

The Planning Board is scheduled to hear the proposal on December 1, 2020 and the Board of Zoning Appeal is slated to hear the proposal on December 10, 2020. Visit <https://www.2072massaveapts.com/updates> for details on these hearings.

If 2072 Mass Ave is approved by the Board of Zoning Appeal, when is the earliest construction could start?

If the proposal is approved by the Board of Zoning Appeal, the earliest the project could start would be in spring/summer 2022. The development would need to apply for and receive additional City and state financing resources before commencing construction. This process takes a minimum of 6-9 months but could take significantly longer.

This is a terrible idea ! This corner is congested to begin with but a giant building blocking your vision without any parking ? You got to be kidding . First it's taller than any other building , how did you get zoning from a one story building to 9?????? Also, you say it's affordable units , but so did the project at upland and the project at porter rd . They are now hotels . It's not noticeable right now , because of covid, but normally it's impossible to navigate that neighborhood during rush hour traffic - it takes me 15 minutes to get out of my driveway some days . You are doubling down on the inconvenience of the residents , and it's just horrible .

Ted Hoff 3 days ago · 0 Likes

My family and I have lived in the Porter Square neighborhood for over 33 years. My wife and I love this neighborhood and Cambridge overall. Our two sons, now adults, grew up here and love this area as well and would like to live here. We know first hand in our family how the housing shortage in Cambridge is preventing all kinds of people from living in this area. We are all so fortunate to have the T stop in Porter Square. Many people can live and work without having to own a car or drive all that frequently. The Porter Square Shopping Center is also a wonderful resource and permits us all to buy almost anything we need without driving far or even driving at all. All of this provides context for why I so enthusiastically support the proposed housing project at 2072 Mass Ave. For years in fact I have thought that this corner would make a great site for an affordable housing project, primarily because of its proximity to Porter Square. I am not a developer so I just kept my thoughts to my wife and myself. But I am delighted that such an impressive project is now being proposed. The project will bring additional vibrancy to our whole area, including for all the terrific local businesses and restaurants we enjoy. I will enable many people to be able to live here, and it seems designed in a way to minimize the environmental impact of the new housing. Thank you.

Jason Korb 3 days ago · 0 Likes

Thank you Ted for your support of the project and for articulating so well all of the positive aspects you see in our proposal. We greatly appreciate your feedback and thoughtful comments.

Hi! This seems like a great project and I look forward to welcoming high-density transit-focused affordable housing to the neighborhood. One question: I am not seeing in-building or in-unit laundry facilities in any of the design materials,

which are often a huge boon to residents. Are you planning to provide that, or is there a nearby laundromat facility?

Jason Korb 3 days ago · 0 Likes

Hi Grace - thank you for supporting the project! Great question - each apartment will have its own washer and dryer hook-up and will be provided with a full size washer and dryer.

Nancy Phillips A week ago · 0 Likes

I wholly support this project, despite its height, because of the critical importance of adding as many affordable units as possible to Cambridge's overwhelmingly UNaffordable housing stock. I do need to mention, though, that the design of the 3-bedroom units is sub-par: far too much circulation space -- which is essentially wasted space -- and much too cramped common space: a combined kitchen-dining-living area. Surely the architects can make these units more liveable!

Jason Korb A week ago · 0 Likes

Nancy,
Thank you for your comments and your support. Regarding the unit layouts, we 1,000% agree with you. We plan to relook at each unit layout and reconfigure where necessary. The units as currently laid out are initial layouts, but as you astutely point out, the 3 beds especially need more work to incorporate the changes you suggest. Since unit layouts are not directly considered in the zoning process. we have focused on

other aspects of the project, but internally have already discussed how we can improve all of the layouts, recognizing the 3 beds need the most work.

We'll make sure to provide updated unit plans as they evolve.

Best,
Jason

James Zall 2 weeks ago · 0 Likes

I've just reread all of the comments posted here so far. Of the 21 people who shared their views of the proposed housing, 15 declared themselves in favor of the project (71%). The most frequently given reasons were the design of the building (10 people), the housing shortage (6) and environmental benefits (5). For the 6 opposed (29%), the most frequent issues were size/density (7 people), traffic (5) and parking (4). (These numbers reflect the fact that most people, not surprisingly, gave more than one reason for their opinion).

I also notice that a slight majority of the opponents declared themselves in favor of affordable housing, some specifically in connection with this proposal and others in a more general way. This indicates that 90% of the people concerned enough to post their thoughts here seem to recognize the harmful effects that the ongoing, worsening housing shortage is having on our city and its residents, on our economy and our environment.

As we're approaching the inauguration of a new, less-divisive administration in Washington, I would like to take the opinion sample here as a local sign of hope. Unlike most new housing developments in Cambridge, this one aims to provide housing for people in the lowest 30% of the overall income distribution. Unlike some of the alternative suggestions that have surfaced in public meetings about this proposal -- like closing Walden St. to traffic at the overpass, thus reducing traffic for the North Walden area but increasing it in surrounding neighborhoods while making it harder for residents to get around the city, or calling for housing to be

housing plan seems to have substantial community support. Can we yet manage to focus on what unites us and not on what divides us?

Young Kim 2 weeks ago · 0 Likes

Hi James,

Thank you for such an excellent, deep dive analysis of the public comments. However, one key factor is missing from your analysis which unfortunately you could not have come up as a community commenter - the residential makeup of proponents and opponents into immediate abutters; residents of North Cambridge (say within 1/2 mile of 2072 Mass Ave); Cantabrigians outside North Cambridge and non-residents.

I agree with you 100% on focusing on what unites us and I think I am not too far off the mark when I say that should be reasonable development that respects the rights of the immediate abutters and that preserves the character of Cambridge we will be proud to leave as our legacy to our children and future generations to come.

Jenny Tamarkin 2 weeks ago · 0 Likes

James: thank you for your feedback and for taking the time to read through all of the comments - we are happy to hear that 71% of the commenters support our proposed development! It makes it much easier to digest when you break it down the way you did, thank you, and we definitely understand that those who oppose our proposed development do not necessarily oppose affordable housing in general. We look forward to hearing additional comments and feedback from the neighborhood as this project advances and hopefully at the end of the day we can find a way to stand in unison as advocates for safe, quality, affordable housing. - Jenny

**Daniel Smith** 4 weeks ago · 0 Likes

Jenny,
Thank you for your response.
I can tell you categorically that the parking difficulties now are less severe than under normal non-Covid conditions, notwithstanding what Traffic and Parking may guess the situation is. (It seems Cambridge Traffic and Parking examiners work 9:00 to 5:00 and give diminished attention to parking concerns outside those hours.) The parking problem in our neighborhood is not during the day, but during the evening and weekends when residents return from work and local businesses (e.g.; yoga studio, gyms), are open. Many of these businesses are barely operating now. Many residents have headed for the hills during the pandemic, leaving the streets comparatively empty. Furthermore, the 26 unit apartment building 70-80 Porter Road is currently undergoing renovation (as affordable housing). This building has no dedicated parking. Because it is now vacant during construction there are currently no residents from there vying for parking spaces. All of these things will come to an end. People will return along with their automobiles and the parking situation will revert to a scarce situation not reflected by the recent parking study.

**Jenny Tamarkin** 2 weeks ago · 0 Likes

Hi Daniel,
I apologize for the delay in my response. We hear your concern and we appreciate your feedback, we definitely understand that our new development will impact street parking in both the covid and post-covid worlds. However, we maintain our position that this is an appropriate location to build dense housing within close proximity to transit and other services. Our proposal aligns with the City of Cambridge's goal to provide environmentally friendly housing that will allow residents to be less dependent on their cars. We believe that the addition of 25 cars parking in the neighborhood is a reasonable tradeoff to allow 49 families access to high quality housing in a city that has seen an extreme increase in the cost of living over time.

THANK YOU,
Jenny

Young Kim A month ago · 0 Likes

I have asked Jason to save a large, mature tree on the northwest corner of Russell Apt that overhangs onto 2072 Mass Ave lot if at all possible as even one mature tree is a valuable urban asset. He responded by locating that tree on their property survey and has engaged an expert to generate a preservation plan. I want to thank Jason for listening to my concern and taking these steps to preserve that tree. I look forward to continue to work together to bring about a reasonable 100% affordable housing development that will integrate into the residential neighborhood harmoniously.

Jason Korb 4 weeks ago · 0 Likes

Thank you Young for your comments and for pointing out the tree to us. As you mentioned, we hired a master arborist to develop a tree preservation plan for this tree.

Daniel Smith A month ago · 0 Likes

While I support the aspirations of this project, I have concerns about the density and parking impact. No parking or traffic study done during this time of Covid can arcuately reflect the typical conditions that are normal for this area. It just can't - these are not normal times. Current conditions do not reflect the usual reality on the streets in this neighborhood.

Though you may shun anecdotal information, I can tell you, observationally, that under normal circumstances parking is frustrating and challenging, especially in the evening when residents return home after work. Parking is not bad today,

usual the difficult parking situation will return too. An additional 25 or so cars, by the developers' own estimate, will compete for the same scarce parking spaces (along with St. James Place and Frost Terrace – all new to Porter Square). For a development project to be successful it must address all issues, not some issues. The parking demand will inevitably have a negative impact on the surrounding neighborhood and residents unless addressed in the design of the building. No validity can be ascribed to a traffic and parking study conducted under the current pandemic conditions. In my opinion, the current project design raises problems of density and parking in particular.
Daniel Smith - Regent Street

Jenny Tamarkin A month ago · 0 Likes

Daniel,

Thank you for your comment. We are aware that the current COVID-19 health pandemic is impacting the data and had spoken to the Cambridge Traffic and Parking department to express these concerns before commencing the study. They felt, and we agree, that imperfect data is better than no data at all. COVID could be impacting parking availability in a different direction than you suggest - for example, many people are working from home so their cars are parked on the street, rather than driving to work every day, so there would be less parking available during the day time and into the evening because people are not community in or out of the neighborhood for work. This is why we felt it was important to engage a professional firm who specializes in this type of data and research. If there were an end in sight to the current health pandemic, we may have been able to wait a few months before commencing the parking study, but unfortunately that is not the case. COVID-19 cases are on the rise again and the demand for affordable housing continues to grow.

I would like to point out that the estimated addition of 25 cars was from the parking and traffic report created

data. However, we do understand that there are a few new developments in the neighborhood that will increase parking demand and that the Walden Street and Mass Ave intersection can be a huge headache and safety hazard even during COVID times, so we are exploring a few different measures that should help to combat the congestion on Walden Street and the surrounding neighborhood which we hope to reveal to the community in the next few weeks.

We understand that our development is going to have an impact on the neighborhood, but we hope that the benefits of providing affordable housing, ethnic and socio-economic diversity and families will outweigh the impact on available street parking.

Thanks,
Jenny

Young Kim A month ago · 0 Likes

I would like to offer a comparison of the proposed 2072 Mass Ave 100% Affordable Housing development (Development) with four existing/under construction 100% affordable housing developments (AHD) within ½ mile of Porter Square:

1. Frost Terrace at 1791 Mass Ave/1 & 2 Frost Terrace under construction
 - a. CC HRE 1791 Mass Ave LLC C/O Capstone Communities LLC
 - b. 40 units with 3 accessible parking
 - c. Multi -stories with 5-story being the tallest.
 - d. The Floor Area Ratio (FAR; gross floor area/lot size) = 2.3.
2. Russell Apt next to 2072 Mass Ave, affordable housing for the elderly
 - a. Cambridge Housing Authority (CHA)
 - b. 51 units with 10 parking spaces one of which is accessible; garden in the rear
 - c. 6-story building
 - d. FAR = 2.9.
3. 78 Porter Road
 - a. Cambridge Affordable Housing Corp, a subsidiary of CHA and currently undergoing renovations.

vouchers after construction is complete. No parking but is set back from property boundaries.

c. 4-story building

d. FAR = 3.3.

4. 1713-15 Mass Ave

a. CHA

b. 16 units; 8 parking spaces one of which is accessible parking; a large backyard;

c. 3-story building

d. FAR = 0.5.

The total number of units in these AHDs is 133 with average FAR of 2.1. In comparison, the Development will be an 8-story building with 49 units; 3 accessible parking and 2 drop off spaces; no setback and no ground level greenspace; and the densest with FAR of 6.7. The proposed number of units is 36.8% increase from the existing number of units and FAR is 315% of the average FAR. Looking at another way, the Development's lot size of 8515 sq. ft. is only 4.7% larger than 78 Porter Road. But the proposal calls for an 8-story building, twice as tall, and twice the FAR occupying the entire lot.

Many people have commented that the Development is a vast improvement over the existing drab commercial buildings in that neighborhood. But the Development is all residential except for the ground level retail so it should be compared to the residential units in the neighborhood and it should provide the quality of life amenities of a residential development. At the very least, it should be set back from the property boundaries and should have ground level greenspace.

Finally, the impact of the Project should be assessed in context of the St. James Church development which is nearing completion (Planning Board's Special Permit PB-241) that will add another 46 dwelling units just 0.1 mile from 2072 Mass Ave. Together these two projects will add 95 dwelling units creating tremendous new demand on City's resources and potentially worsen the traffic and parking problems in the Porter Square area.

I know Capstone Communities/Hope Real Estate Enterprises, proponents of AHDs and residential property owners in this

...ing... , including my son, have... the... of... that constitutes a reasonable development but I hope we can all work together to come up with a compromise plan for 2072 Mass Ave that will fit more harmoniously in the neighborhood as a warm, safe and welcoming home to the residents especially the children.

Cyrus Dochow A month ago · 0 Likes

I live across Walden Street in the three-story apartment building. I appreciate the ambitions of the project but do not support the project in its current form. The scale of the building as it meets Walden street and the traffic congestion as a result of the location of the vehicular entry are major concerns.

The building has strong connections to Mass Ave: scale, access to mass transit, and ground floor program. The sustainability goals—Passive House and the reduction of parking—are ambitious and set the standard for future development (affordable or otherwise). The contribution to affordable housing and the Mass Ave streetscape are significant. These are all good things.

The consequence of the strong connection to Mass Ave is that the building poorly relates to Walden, I have two main concerns:

Scale. The change from 8 stories to the existing 2-3 story buildings along Walden is too abrupt. The setback of the “residential anchor” extending down Walden and the change in materials insufficiently transitions to the vastly smaller scale of the neighboring buildings. A reduction in height along the Walden anchor—perhaps offset by taller massing on Mass Ave—would be an improvement.

Traffic. As many of my neighbors have noted, the Walden-Mass Ave intersection is dangerous and over capacity. The location of the vehicular entrance on Walden will stress this situation beyond repair. Per the intent of the design, the dedicated pickup and drop off spaces will experience high turnover—getting in and out will be next to impossible at many hours of the day. A right turn will always compete with cars waiting at (or speeding to) the light, a left turn will be at

RISK OF COLLIDING WITH THE AGGRESSIVE TURNS FROM MASS AVE (provided one can pass through the two lanes of traffic first). The consequences for pedestrians and bicycles are similarly dangerous. The development team isn't responsible for correcting the existing traffic problems but should make every effort to lighten the impact.

I urge the design team to re-evaluate the ground floor plan circulation and consider using the existing curb cut along Mass Ave—it is offered modest protection by the traffic signal and would still provide adequate ground floor retail space (evidenced by the existing restaurant). The orientation of traffic toward Mass Ave would be consistent with the scale of the building.

Jason Korb A month ago · 0 Likes

Thank you Cyrus for your thoughtful feedback. We greatly respect your opinions and the time you put into your comments as well as our previous meeting. We will convey your comments regarding the scale and the relationship to Walden to our architects to see if they have any further ideas. We do note that the City parking lot provides a large buffer between our property and our side of Walden Street (we also acknowledge you are across the street, not on our side). In addition, most of the shadow cast by our building does not cast onto the residential neighborhood but rather onto Mass Ave and to the south. That being said, we understand your concerns and will continue to consider them.

With regard to traffic, we are working on a number of mitigation measures that we hope to publicly reveal in the next 1-2 weeks that we believe will address many of your concerns. Pursuant to your feedback and our previous discussions, we are also working to reorient the pedestrian entrance onto Mass Ave instead of Walden Street.

We would be glad to have another Zoom meeting with you and your neighbors at 5 Walden to continue discussing these issues and to present you with revised plans. Thank you again for engaging with us in

**Matt Goldstein** A month ago · 0 Likes

I live in the neighborhood, pass through this intersection 2-3 times a day (my kids are at Graham and Parks). We're excited about this neat looking project to bring more good looking ,affordable housing to Cambridge! Also really interested in the proposed wood construction. Please let us know how we can help keep this project moving forward!

**Jason Korb** A month ago · 0 Likes

Thank you Matt for your support, we will continue to keep you in the loop as the public process proceeds.

**Seymour Kellerman** A month ago · 0 Likes

Thanks for your comment, Michael. I also live nearby, on Cogswell, and have experienced the same congestion and backup that you have. At times it was hard to drive my car out of the driveway. I wanted to add a note about the meeting held this February regarding this problem.

Responding to complaints from our neighbors, two members of the Cambridge Community Development Department convened a meeting to discuss these concerns. The CDD people were surprised at the size of the turnout - at least 40 people by my count. They proposed a solution: allow only a right turn at the corner of Cogswell and Mass Ave. That is a good idea for Mead St. and Cogswell Ave, but it would not improve matters on the cornet of Walden and Mass Ave. Construction of an eight-story building at that corner would not help either.

**Michael Kennedy** 2 months ago · 0 Likes

Hi,
I'm more than a little dubious. Let me share a few reasons. First, the positive comments seem overly enthusiastic. I've only read a few so far and they sound the same-- hyperbolically positive (as if paid for or written by one person with people's names attached) in order to support the project.

Second, I live a stone's throw from this--and I notice not one of these overly enthusiastic commenters lives in this neighborhood though somewhat nearby--, and while I am not against affordable housing this really isn't affordable housing; it is something else, unfortunately: a rental property to make money for someone/group's investment portfolio or private bank account. Why rent to people who are low-middle income when it does not help them get ahead? If this project were truly interested in helping the neighborhood, the era (green buildings and alternative transportation), and low-middle income Cantabridgians, it would help low-middle income residents realize home ownership, not rentals...'into perpetuity' as this slick piece of advertising states. Apparently, someone or group of investors stand to make and continue to make a pretty penny off the backs of renters who are 'being offered a deal.' And what's to keep it from becoming a big hotel of Air-B-&Ber's? The drop off and pick up spaces (carport) is more like a hotel drop off than an apartment building.

If this were to go forward, maybe about half the size at best? Where's the green space? This building would take up the entire footprint of the lot; it would expand beyond the footprint of the commercial space that it would replace. Does Cambridge Zoning Board allow for this? Seems that it takes advantage of the spirit of any subsidy to encourage low income affordable housing.

Next, because I live nearby and have been watching this once great little residential neighborhood (we are not Brooklyn) erode through overdevelopment and traffic overflow, I know that this extremely congested corner (and dangerous) cannot stand this size project: 49 apartments will bring owners with cars regardless of the projects design to be 'commuter

encouraging. And, more pedestrians means more potential accidents at the corners of Walden-Mass-Cogswell-Mead, which has become a big drag race, daily, in the mornings and afternoons when the traffic backs up over the bridge on Walden street and cars go careening through Mead to Cogswell to Mass Ave in order to try to beat the light at

Walden and Mass Ave to avoid traffic and get across Mass Ave from Cogswell to Russell and into Davis.

And , I did see one woman's comment on here, Susan, and agree with her comments whole-heartedly.

(I will check back to see that my comment remains: the rules state that all germane comments will be post and remain live. I consider this comment in the community 'community feedback' section absolutely germane as I live in this community and in the shadow of this project and would like to hear, primarily, from others who live here and what they believe and feel about this development.)

Thank you for reading, everyone.

Sean Hope A month ago · 0 Likes

Hi Michael,

Thank you for your comments. While this forum is designed for questions, answers and feedback about our proposed redevelopment many of your statements/questions appear to be misleading (intentional or not) and could be easily be answered/disputed by reading the material provided for on the <https://www.2072massaveapts.com/about> website. That said, I will respond to some of what I believe are actual questions and not the editorial comments although I would gladly discuss offline the reasons why my partner and I have dedicated years of our lives, taken substantial risk and feel so rewarded by this important work.

Now to your questions. First, as you can see, we require that all of the commentors to the website provide real names and anyone could easily fact check who wrote

the comment. It is unfair and contrary to a fruitful neighborhood discussion to disparage the motives and opinions of other commentors that express feelings different than your own. This type of rhetoric has dominated our national discourse and resulting in alternative facts and often unnecessary finger pointing.

We are choosing to be transparent and honest about the work we do and hope that in return our motives wouldn't be unfairly called into question.

Secondly, your comment "Why rent to people who are low-middle income when it does not help them get ahead" to me highlights how deep the equity and income gap has become in Cambridge that the day to day struggles of the working poor and middle-income families in our city are just missed. Historically, for many working families in Cambridge, multi-family rental housing was often the primary housing option for low and middle-income families and immigrants like my grandparents who emigrated from the Caribbean to Cambridge in the 1950's. From living in rental housing as a tenant in Cambridge my grandparents were able to save enough money and with the assistance of the G.I. Bill purchase a multi-family dwelling. As an owner they were able to provide housing for other immigrant families for over 30 years while living in one of the units and raising a family. My mother and her two brothers were the first in our family to even graduate high school. Due to the schools, close community in the Port and faith-based institutions in Cambridge all three went on to earn graduate degrees and changed the trajectory of our family. This is just one example of how "rental" housing has helped my family get ahead and prosper but there are countless others I could share with you. It should also be no surprise that the number of children in the Cambridge school system has dropped dramatically since the end of rent control in 1997 as well as the number non-white Cambridge residents. Further, if by "get ahead" you mean that our renters will likely never experience the exponential appreciation of real estate values that you and many other property owners in Cambridge now benefit from having purchased homes in 90's, then you are likely correct. Our residence won't likely have the 1st world privilege

of resting on a Million dollar asset and the economic mobility to move where the jobs are most prevalent but living in this great location will allow our residents immediate access to many of the vital services for families at the Porter Shopping Center (grocery store,

hardware, pharmacy), well-funded schools and religious institutions all within walking distance.

Additionally, the website clearly states that our proposed building is required by statute to remain affordable in perpetuity which means no big hotel or air-b&ber's. The City of Cambridge and State will have invested significant funds into this redevelopment so if ever the affordable covenants were breached there would be numerous mechanisms to correct any improper use. Jason and I will provide personal guarantees to the construction and permanent lenders some of which last 15 years.

Lastly, we are fully aware of the existing hazardous conditions on Walden Street and have committed to working with the neighborhood and Cambridge Traffic & Parking to improve Walden street for pedestrians, cyclist, automobiles and our future residents. We have hired a traffic consultant and a host of engineers to determine what improvements are possible. We recently mentioned at the Porter Square Neighborhood Association (PSNA) meeting a few possibilities we are researching that will potentially involve rethinking the ground floor plan, increasing the width of Walden Street and other traffic calming measures.

I respectfully ask for your continued patience as we incorporate neighborhood feedback into the design and present alternatives that will improve the building for our residents and the Walden Street and Mass Ave intersection.

“If you want to touch the past, touch a rock. If you want to touch the present, touch a flower. If you want to touch the future, touch a life.” – Author Unknown

Susan Frankie 2 months ago · 0 Likes

What is the maximum capacity of the building?

Jason Korb A month ago · 0 Likes

Hi Susan - your question is answered pursuant to 105 CMR 410.400: Minimum standards of fitness for human habitation (State Sanitary Code, chapter II) which applies to housing of all types, affordable and market rate, and states: (A) "[E]very dwelling unit shall contain at least 150 square feet of floor space for its first occupant, and at least 100 square feet of floor space for each additional occupant..." and (B) "In a dwelling unit, every room occupied for sleeping purposes by one occupant shall contain at least 70 square feet of floor space; every room occupied for sleeping purposes by more than one occupant shall contain at least 50 square feet of floor space for each occupant."

Therefore, for the 2072 Mass Ave proposal the MAXIMUM number of potential occupants would be 217. All of the occupants would also need to be related to each other or be a caregiver for one of the other occupants. We have never seen a building occupied to the maximum number of occupants. A better determination of the projected occupancy is from HUD, which estimates that in affordable housing there are an average of 1.5 individuals in a 1 bed, 3 individuals in a 2 bed, and 4.5 individuals in a 3 bed. This would result in an expected occupancy of 147 individuals. This is also more consistent with what we observe in other similar developments.

Thank you for posting the Parking and Traffic Assessment report by Vanasse & Associates (V&A).

... but it has several flaws and it didn't go far enough. I am not a parking or traffic expert by any means but offering my comments as a retired system engineer and a long-time resident of North Cambridge ½ mile north of 2072 Mass Ave.

The most glaring flaw is that the effects of COVID-19 on parking and traffic were not factored in. I live on Norris Street and the normal, pre-COVID-19, morning rush hour traffic heading into Porter Square and beyond regularly backed up to Norris Street making it very difficult to exit the street to get onto Mass Ave in either direction. The reverse was true in the evening on the northbound side heading towards Alewife Brook Parkway compounded by two traffic lights separated only by a block at Cameron Ave and Cedar Street intersections. And there were hardly any parking spaces available on Norris Street after 6 PM. But since COVID-19 shut-down began, there have been plenty of parking spaces available and I hardly have to wait to make the turn onto Mass Ave, just enough time to come to full stop and observe the oncoming traffic.

The second flaw is that the study was not done from the point of view of residents in the neighborhood nor did it consider the effect of the business establishments in the area. It is impressive that V&A surveyed parking availability within a quarter-mile, 1320 feet, radius. That is almost 4 football-field lengths, including the end zones! Can you imagine yourself circling around to find a parking space and then trudging home in a pouring rain or blinding snowstorm that far? Mr. Korb stated that the proposed project was planned with family in mind. Can you imagine dragging your child even half that distance with groceries? When you purchased your house, I am sure your expectation was to be able to park on your block if you didn't have a driveway.

The meter and unrestricted parking spaces around the project will be taken up by the customers of the existing businesses as well as the proposed 1040 square feet on-site ground floor retail during the business hours. The stay-at-home parents or caregivers of children/elderly, let alone the customers of the proposed retail space, will have a hard time finding parking spaces during these hours.

Another example of this flaw is that the study was conducted for just one weekday, namely Tues, ignoring the bustling social activities around that neighborhood on weekends starting from Fri evening.

The traffic study didn't go far enough in only considering the estimated trip generated by the project. The study should have considered the road configuration at that intersection and the impact of the project on the traffic flow. Walden Street at the intersection is a 3-lane road; one westbound lane and two eastbound lanes with one for right turn only and the other left turn only. The solid lane marking separating the turning lanes starts well west of the property; and the two turn arrows start just about even with the curb cut into the current Darul Kabab. It is not hard to imagine the gridlock a delivery truck could cause when it attempts to turn into the property after turning into Walden Street during the rush hour from Mass Ave. It will immediately get stuck trying to cut across two lanes of eastbound traffic waiting to turn left or right onto Mass Ave.

The study should also have counted the current traffic volume at the intersection and counted the number and duration of cars waiting to make turns either onto Mass Ave from Walden Street or vice versa during the peak commuting hours. This could have been done easily by using strategically placed traffic counters. These counts should then have been extrapolated into normal, pre-COVID estimates to be used in assessing the impact of the new vehicle traffic. Furthermore, the study should have addressed the issue of bicycle traffic and pedestrian foot traffic at this very busy intersection for people trying to get to Porter Square T station or to their destinations. Finally, the study should have assessed the social issue I mentioned above. When we return to "normal" after COVID-19, I envision a vibrant neighborhood with area restaurants and other businesses running at full capacity creating a heavy congestion at this intersection during peak social gathering times.

Jason Korb 2 months ago · 0 Likes

Young - thank you for your comments, our response is as follows:

Paragraph 1 - your comments are anecdotal and perceptual and do not provide data pre-Covid, if you have actual data to present regarding pre-COVID traffic and parking counts please provide those. Our proposal will add 25 cars to on-street parking. The parking study indicates at the peak time (8pm) there are 316 on-street parking spaces available within 1/4 mile of the site. After the 25 cars associated with the proposal park on the street there will still be 291 available remaining on-street parking spaces.

Paragraph 2 - walking 1/4 mile to your home is not unreasonable in the City. This is approximately a 5 minute walk, people do this across all cities all the time, including Cambridge. The proposal includes 2 short-term drop off spaces to allow residents to drop off groceries or other packages prior to parking their car. In addition, the study provides data on a street by street level, so you can extrapolate any distances you would like. We also disagree regarding your expectation that you should be able to park on the street where your home is located. It is a public street paid for by the entire City's taxpayers and to the best of our knowledge no guarantee has ever been provided to anyone regarding parking expectations. Homeowners without parking consciously chose to purchase that home without parking without any guarantees whatsoever regarding availability of on-street parking in front of their home. On-street parking spaces are for the benefit of all Cambridge residents with a parking permit, not just those who reside adjacent to those spaces.

Paragraph 3 - the peak parking demand is at 8pm when most of the retail stores are closed, residential is a perfect shared use with commercial metered parking spaces. The Urban Land Institute and others have done multiple data-driven studies indicating this fact.

Paragraph 4 - weekdays are by far busier than weekends when people travel, businesses are closed, etc. so it is not best practices to survey weekend activity.

Paragraph 5 - we are working on potential solutions to make Walden Street safer overall and address

proposed, and the following comments follow.

Paragraph 6 - the parking study indicates that the building will generate a TOTAL of 98 vehicle trips on an average weekday, 6 of which will occur during morning peak hour and 9 of which will occur during evening peak hour. Considering the current high volume of traffic on Walden Street and Mass Ave, this is an immaterial impact. In addition, the existing restaurant on the site generates multiple vehicle trips per day as is.

Lastly, part of creating a "vibrant neighborhood" is providing housing opportunities for residents of all incomes, including lower income residents, which this proposal accomplishes.

Taylor Pratt 2 months ago · 0 Likes

I live about a quarter mile from this address, and increased density of affordable housing is sorely needed in our neighborhood. I'm very excited and heartened by the scope of this proposal and amount of housing it intends to add. Taking into consideration some of the other surrounding (and much less visually appealing) buildings, I simply don't understand the comments here that want to cap this building at 3 stories. I very much hope the project goes forward as-is and does not decrease the number of units.

Jason Korb 2 months ago · 0 Likes

Thank you Taylor for your support of the project.

Sarah Klein 2 months ago · 0 Likes

I live around the corner on Russell St. and I'm very excited to see this proposal. I'm very happy to see this focus on affordable housing, particularly for families and during this very difficult time for many, financially. Visually, it will be an improvement relative to some of the surrounding buildings.

Jason Korb 2 months ago · 0 Likes

Thank you Sarah for your support of the project and for your thoughtful comments.

Susan Frankle 2 months ago · 0 Likes

Can you please give as much information as possible on the finances of this venture? Who will profit from it now and over time, how much is taxpayer money, and how is the rest of it getting funded? Why are these rental units vs. home ownership. If this information is already on the website could you point me to it? I think posting it here in the comments section for all who are commenting would be helpful. As much transparency as you can give would be appreciated and I'll post anything I find out with the City as well. Thank you.

Jason Korb 2 months ago · 0 Likes

Susan,
Current and projected funding for the project includes the following:

- The Cambridge Affordable Housing Trust (CAHT) provided a \$3.8M loan in 2018 for the site's acquisition and early predevelopment costs (additional CAHT funding will be requested after zoning);
- Net income from the restaurant;
- Funding from the Commonwealth of Massachusetts Department of Housing and Community Development ("DHCD") will be requested in the form of 9% low income housing tax credits, state low income housing tax credits and subordinate debt;

- Construction and permanent financing most likely from a local or regional bank;
- Project based Section 8 financing either from the Cambridge Housing Authority or DHCD for 8 apartments;
- We are also proposing to defer a material portion of our eligible developer fee and contributing that as a funding source;
- Sean and Jason will provide personal guarantees to the construction and permanent lender and low income housing tax credit investor. Some of these guarantees continue for 15 years.

The development team receives a developer fee in accordance with the guidelines set forth by DHCD. You can find the developer fee calculation in DHCD's 2020-2021 Qualified Allocation Plan on pages 61-62.

<https://www.mass.gov/doc/2020-2021-qap-low-income-housing-tax-credit-qualified-allocation-plan-qap/download>

Non-profit and for-profit developers receive the same fee. At the completion of construction an independent audit and cost certification is completed by licensed CPA's and submitted to DHCD and the City for their review. Annual independent audits are also completed.

These projects typically generate little ongoing cash flow once the building is in operation. The development team receives a modest annual asset management fee to asset manage the property's operations, but only receives this fee to the extent there is available cash flow to pay it after all expenses and debt service is paid. If there is material ongoing cash flow that cash flow is split 50/50 between the development team and the City/State.

In addition to the development team managing the entire development process (acquisition, design, permitting, financing, construction, lease-up) over the course of many years, the development team is responsible ongoing operations and are personally liable for ensuring the development is properly maintained and occupied by qualified households for 15 years. Any failure to do so results in the "recapture" or

CLAWBACK OF THE TAX CREDITS, WHICH RESULTS IN THE TAX credit investor calling Jason and Sean's guarantees.

From start to finish these projects take +/-5-6 years minimum. Until the financing closing, the development team receives almost no compensation. The financing closing typically does not occur for at least 3-4 years from when the development team first starts working on a project.

Please advise if you have further questions.

Young 2 months ago · 0 Likes

Great question re finances. To my offline follow up question after the Community Meeting Mr. Korb informed me they plan to file a comprehensive permit zoning application to the BZA. Now that the 100% AHO Amendment has passed the final vote at the Monday's City Council meeting, it would be great if the answer to Susan's question include an explanation of funding difference between comprehensive permit project vs 100% AHO Amendment project.
Thank you

Jason Korb 2 months ago · 0 Likes

The financing and the zoning are separate issues. As we discussed on the community presentation, the AHO would cap the height at 6 stories. We believe that from an urban design perspective this site can support 8 stories due to its location on Mass Ave, near services, transit, etc. I would like to remind everyone that a 6 story building has 14 fewer apartments for low and very low income households and would result in 35 apartments instead of 49 apartments. Considering the incredibly high demand for affordable housing right now in Cambridge, reducing the proposal to 6 stories would frankly be a lost opportunity to house these individuals and families who so desperately need quality housing, now more than

ever.

Young Kim 2 months ago · 0

Likes

Thank you for pointing out that financing and the zoning are separate issues. I realize I should have asked what is the difference between zoning (permitting) difference between comprehensive permit project vs 100% AHO Amendment project. Will the decisions of Planning Board or the Zoning Board be binding or advisory only?
Thank you

Jason Korb

2 months ago · 0 Likes

Hi Young. The Planning Board will review the plans in an advisory capacity with a focus on the design and provide a recommendation to the Zoning Board. The Zoning Board hearing will follow the Planning Board hearing and the Zoning Board be responsible for providing the project's comprehensive permit approval, which is in its sole discretion. Both the Planning Board and Zoning Board hearings will be public with public comment. Thanks.

Susan Frankle 2 months ago · 0 Likes

Seymour thank you for posting this well articulated and well

neighbors (more and more each day that I speak with) who live in the immediate neighborhood. Your suggestion of 3 floors, 20 units is much more in line with what is size appropriate for the neighborhood. Adding some green space which is sorely needed in our area would be a good idea too.

Your question if this is family appropriate is also a great question. There is nowhere for children to play and it's a very dangerous intersection for adults, much less children.

Thank you for speaking up in the interest of our small residential neighborhood.

Sean Hope 2 months ago · 0 Likes

Hi Susan,

Thank you for comments and I look forward to our offline conversation later this week. I did want to direct you to the response that I sent to your neighbor Seymour Kellerman in the comment section. Many of your issues were similar and I believe my responses covers your concerns as well.

Seymour Kellerman 2 months ago · 0 Likes

On Sept. 29, Capstone Communities presented their proposal for an affordable housing project at the corner of Massachusetts Ave and Walden Street. This was the first time i heard about this project.

In the small space adjacent to the Cambridge Senior Center, Capstone plans to construct a 49-unit, 8-floor building. No parking.

The building will impact our neighborhood negatively, crowding further an already densely-populated area. The parking needs of the 150 residents of the proposed building will crowd nearby streets such as ours.

The corner at Walden and Mass Ave is a traffic flow problem.

February of this year, responding to numerous complaints about traffic congestion on Walden St., Mead St., and Cogswell Ave, the Cambridge Community Development Department hosted a well-attended neighborhood meeting. The CDD officials acknowledged the pedestrian safety and traffic flow problems, and they proposed a solution.

An 8-story apartment building on a small space at this busy corner is not a solution. Both during construction and after project completion, traffic flow will be significantly impeded. We cannot imagine that safety will be improved. Is this an appropriate location for family living?

i support affordable housing. However, we oppose the construction of a building this size in such a small and busy area. At the very least, cut the size to 20 units and 3 floors. Or build 4-6 affordable townhouses. Or move the Victory Gardens from Pemberton Street here and build the housing there.

Sean Hope 2 months ago · 0 Likes

Seymour, thank you for comments and for taking the time to express your views. We have heard similar feedback about the existing congestion issues near the corner of Massachusetts Avenue and Walden Street. Please know that we are taking this condition seriously and will continue to work with Cambridge Traffic and Parking and our consultant to try and implement measures to improve this condition both for our future residents and the neighborhood as a whole. In my experience often public infrastructure improvements occur when there are new projects being proposed and this is no different just because this is 100% affordable. We respectfully request your patience as work with our traffic engineer and other consultants to explore and propose solutions that may improve the pedestrian, cyclist and vehicle circulation on Walden Street.

That said, I think we all can agree that no one development can fix a decades old urban congestion traffic issue and hopefully we can similarly agree that it's unfair to place the burden for "solutions" for Walden

we have an obligation to be thoughtful about all the issues surrounding the development and evaluate the inevitable trade-offs keeping front of mind the health and safety of the abutting neighborhood and our future residents.

As a life-long Cambridge resident, I have sadly watched the disappearance of children from our communities especially middle/lower income children and families of color. Housing affordability and equity has become a crisis throughout the commonwealth and environmentally responsible projects such as this that are located close to transit, with the adjacent family services (Porter Square Shopping mall) are a uniquely rare opportunity. Your question about the appropriateness of family living on this site seemingly fails to appreciate the large numbers of families that are in desperate need of high-quality family sized affordable housing. Additionally, the benefits to our residents, especially school age children, will be much more than simply housing. The access to Cambridge's schools, churches, community centers and neighborhoods can alter the trajectory of an entire family and have generational impact. I have personally experienced this and would gladly share stories with you offline. This building has the potential to be occupied by a multitude of families in my lifetime and I believe that working through challenges of where children will play and how best to navigate a challenging existing traffic corner is worth the hard work that it will take to make this development great. As for the appropriate height(s), reasonable minds can disagree although for context the abutting building on Massachusetts Avenue and across the street are both 6 stories with an 8 story building further down Massachusetts Avenue. We do understand that what we are proposing is a substantial change from the existing condition and look forward to continuing the dialogue as we work to improve this project in the weeks to come.

Jeanine Pearson 2 months ago · 0 Likes

I live on Cogswell Ave (1 block away) and I'm very excited to see this proposal. I fully support the design as-is. It's an aesthetic improvement over the existing building on the lot and visually I think it will make our neighborhood more appealing. I'm not concerned about the height as there are many other buildings of a similar size nearby. Cambridge desperately needs more affordable housing (as evidenced by the demand laid out in the presentation). I'm much happier to see new affordable housing than luxury housing in our area.

I also like the focus on sustainability in the design with the Passive House certification. Similarly, I think the location is great because of its access to public transit which helps to reduce the total number of cars on the road. W.r.t parking, I'm interested to see the study, as I live one block away and I never have trouble finding parking even on street sweeping days.

Jason Korb 2 months ago · 0 Likes

Thank you Jeanine for your support of the project! We'll circulate the parking study as soon as we receive it.

Noah Sawyer 2 months ago · 0 Likes

I like the project design, and appreciate how it relates to the neighboring building towards Porter Sq. It creates a nice continuity along the block.

I'm interested in the retail dimensions and what kind of tenants might make sense for the space. Please focus on street visibility, good signage, and room for front of the house/back of the house operations. This opens up the space for more kinds of small businesses.

Jason Korb 2 months ago · 0 Likes

Thanks Noah for your feedback. We are still working on the retail component, recognizing that retail is

moment in time too. The details you point out about retail are much appreciated. We are not retail developers so suggestions such as these are very welcome. We will look into all of these ideas.

Jefferson Smith 2 months ago · 0 Likes

As a Cambridge resident, and the Executive Director of the non-profit Massachusetts Housing Coalition (MHC), I'd like to offer my full support, as well as the full support of our coalition for this project. I believe that Capstone and Hope Real Estate have set the standard for housing not just in Cambridge, but in Massachusetts, and that every resident in our city can and should stand behind this project.

Our coalition is the voice of the grassroots pro-housing movement in the Commonwealth. Instead of building barriers by using zoning regulations to stop homes from being built, MHC believes that we should encourage building homes for every income level, for every family, and in every neighborhood in Massachusetts.

It's been said many times that we are in a housing crisis. Our organization is responding directly to this crisis by advocating for brand new homes just like the ones being proposed at here. Our mission is to reduce the harmful influence of restrictive zoning regulations that have slowed production and increased housing inequality and insecurity. MHC recognizes that we must do better for our residents and for the people that need housing regulations to work for them, not against them.

As far as parking for this project, the next generation of tenants and homeowners have little use for single occupancy vehicles and therefore little need for parking spaces. Our environment is also desperately in search of relief from single occupancy vehicles - we should be helping in any way that we can to make residents LESS dependent on cars. When you allow more parking, more pavement, or any other way to squeeze in more cars, you only succeed in increasing traffic. More parking spaces equal more cars. As a result of these well-known and well-documented facts we should be doing

just what 2072 Mass Ave is proposing — reduce parking spaces. Parking requirements are a costly and outmoded infrastructure requirement. We can make affordable housing more affordable by lowering costs for great projects like this and helping our environment, too.

Honestly, a very sincere thank you to Sean Hope, Jason Korb, and the Capstone Communities team for their vision and persistence in making this project a reality and prioritizing affordable housing for our community. There is no doubt that our organization and many others like it will be holding this as a model for future 100% affordable development and encouraging more like it throughout the state. Thank you again and congratulations on a very important project for our community!

Jason Korb 2 months ago · 0 Likes

Thank you Jefferson for your thoughtful comments.

Lee Farris 2 months ago · 0 Likes

I like that 71% of the units in the building 2 and 3 bedroom apts., which are much needed so families can stay in Cambridge, and that 8 apts. will be for very low income people, which is rare.

Jason Korb 2 months ago · 0 Likes

Thank you Lee, creating family and deeply affordable housing is of utmost importance to our development team and the City Council.

Larry Field 2 months ago · 0 Likes

This project checks critical boxes for me: 1) 100% permanently affordable, 2) in a suitable location for density,

rail and steps from bus, 3) Passive House, so cutting edge on climate, and 4) elegant design.

Even though the preliminary plan is suggesting the kind of use the City usually wants on the street level, I think the development team and the City should look at alternatives. We all know that retail was hard even before COVID and its

future is more uncertain now. Vacancies don't help the owner or neighborhood.

I live on the other side of Porter Square (Mt Vernon), 2 blocks from the Frost Terrace project. Jason and Sean listened to community input and improved the design/lessened impact on abutters, while keeping the original vision. The traffic and parking study done for that project was very useful in assessing the neighborhood impact and I look forward to seeing the findings for 2072 Mass Ave.

Jason Korb 2 months ago · 0 Likes

Thank you Larry for your feedback and support.

Young Kim 2 months ago · 0 Likes

Although this is a very well thought out design for much needed affordable housing, it is far too out of scale with no setbacks from the property boundaries and no ground level greenspace at all. The rooftop greenspace is a great concept but unless the tenants have access to it, it will be of little benefit to them. The proposed 8 story height (reaching almost 100 ft to the roof of the mechanical room) is even taller than what would be allowed by the 100% Affordable Housing Overlay Amendment if it is ordained.

The property is at a very busy intersection of Walden Street and Mass Ave. The design is based on residents' using bicycles and public transit for transportation with no car ownership as only 3 accessible parking spaces and 2 drop-off spaces are planned. The reality is that you can't mandate car-ownership and will create a tremendous parking issue in the neighborhood. Furthermore, cyclists will face very dangerous entry/exit competing with cars especially during rush hours.

Jason Korb 2 months ago · 0 Likes

Thank you for your feedback Young and all your thoughtful questions offline. With regard to your assertion that the project is out of scale with the neighborhood and setbacks, I would encourage you to compare it with the setbacks on both sides of Mass Ave near the site. I believe every other building has no setbacks along the Avenue, so this proposal is in line with those. The side of the building facing Walden Street is setback and the building above overhangs that setback.

Your comment regarding the 100' height is misleading. While the mechanical equipment may reach that high, almost none of it is visible from Walden or Mass Ave in any direction. The renderings posted on our website have the mechanical equipment built into them - you just can't see them because they are not visible from the ground level. This is very different than a 100' building where you can see all the way up 100'. This is an 89' building.

Regarding your other points, please see my responses to Susan and others. Our conversations with the Traffic department and our transportation engineer will continue to focus on bicyclist safety as well as vehicular and pedestrian safety. We appreciate that bicyclist safety is of paramount concern.

As I mentioned at the community presentation, I believe we can all agree that there are tradeoffs to everything in life. We plan to further address the traffic issues and will ensure that the intersection meets all safety standards for bicycle, pedestrian and vehicular traffic. Assuming those safety issues will be addressed to the satisfaction of the City's Traffic and Parking

Department (they must, otherwise the development cannot be approved), the debate then becomes one of: (1) slightly fewer on-street parking spaces for the neighborhood's existing residents, and (2) height. We believe the height is appropriate in this location and do not believe it is out of scale with being on the Mass Ave

corridor. Until we have our parking study we cannot assess the on-street parking situation. Some neighbors have said it is not an issue, others have indicated it is an issue. Only the actual independent data can inform our decision making process.

As you know, you can reach out to us anytime. We genuinely want to work with you and your neighbors to make this proposal as beneficial as possible to the neighborhood and to our building's future residents.

Young Kim 2 months ago · 0 Likes

Your architects should be commended for their innovative, elegant and forward-looking design of the building such as hiding the rooftop mechanicals in a room setback so that "almost none of it is visible from Walden or Mass Ave in any direction" and "The side of the building facing Walden Street is setback and the building above overhangs that setback." These are really excellent design features and I would like to request that you go one step further by staggering the top 2 floors (perhaps breaking up the building into 7-story southern half and 8-story northern half) and even set back the top two floors so that the added height of the building would blend in more harmoniously with the surrounding buildings as the Cambridge Housing Authority's Leonard J. Russell Apartments next door shown in the RENDERING Mass Ave | View Towards Walden St. Intersection in your presentation package.

Young Kim 2 months ago · 0 Likes

I fully agree with you that other buildings do not have setbacks along Mass Ave. However, most of the buildings have setbacks on the rear; with parking and/or green space, however modest they may be. Also, I believe we need to compare your plans against other residential buildings, not

commercial buildings, in evaluating your plans. What I love about, and what I am trying to preserve, is the suburban-like residential neighborhoods in this vibrant urban city with so much amenities and so close to a major metropolitan city that Boston is. Almost everywhere you look in Cambridge, residential houses are set back from their property lines with nice greenspace of trees, plants, and lawn. Just walk north along Mass Ave and take a look at 2130 and 2192 Mass Ave. 2130 Mass Ave is an 8-story building like your proposed building but it is set back from Mass Ave and Cogswell Ave and has a large backyard as well. 2192 Mass Ave is a 4-story building and is well set back on all sides with greenspace all around. It would be great if your architects could superimpose your proposed building on the 3D satellite view of Existing Site (page 17 of the presentation package) to contrast the difference. One might argue that the need of affordable housing is more urgent than niceties such as the building set back away from the property line.

I grew up in Manhattan in a 16-story high (if my memory serves me right) corner building with no private space except for the service area around it. One of the development goals as stated in your 2072 Mass Ave Community Presentation is to "(c)reate a High-quality Affordable Housing apartment community with a large percentage of homes for families". This will mean there will be many children and I hate to see them growing up in a building with no outdoor private space. They should be able to come home from school to a nurturing, inviting family neighborhood and not just to a jungle of commercial buildings along Mass Ave.

.....

planters but you have told me offline that the roof will not be accessible to the residents. So, these greeneries will be of no benefit to the children. The presentation also included an excellent Neighborhood Map - Quarter and Half Mile highlighting the greenspace near the site.

However, according to googlemaps, the three nearest recreational area are Rev. Thomas J. Williams Park (0.6 miles walk along Mass Ave), Gerard Bergin Park/Pemberton tennis courts/basketball courts (0.4 miles walk via Mass Ave & Pemberton St) and Raymond Park (0.4 miles walk via Walden St); all along very busy streets and none within a quarter mile of walking distance. Children need and deserve recreational areas closer to home. Providing them with an indoor play area/gym along with atrium/plant walls (as in the Harvard Holyoke Student Center) would do them a world of good.

Jason Korb 2 months ago · 0

Likes

Hi Young - the play yard at St. James Church will be open to our residents as well as the public from 8am to dusk every day of the week with few exceptions. As you probably know, it is one block from 2072 Mass Ave. at 1991 Mass Ave.

Susan Frankle 2 months ago · 0 Likes

Hi, I'm wondering if you can encourage people who are commenting on this website to mention if they live in the immediate neighborhood that will be impacted by this project (Mead, Cogswell, Walden near Mass Ave). Not a half mile away, not in other parts of Cambridge, but in the direct path of this project and who have experienced the day to day challenges of our neighborhood. Our small residential neighborhood has suffered through congestion and

dangerous traffic conditions for bikers, pedestrians, and cars to the point where we had an overfilled community meeting with the city because of concerns. These conditions will likely return once we are on the other side of the pandemic. The size and scope of this project (49 apartments, roughly 150 people, and likely 25-30 cars) where the building fills almost the entire footprint, is out of zoning, and offers no parking only furthers the crowded conditions and dangerous traffic / road situation. Why wouldn't you consider proposing affordable housing that meets current Cambridge zoning requirements?

Jason Korb 2 months ago · 0 Likes

Thank you Susan for your feedback, we certainly respect your opinion and sympathize with the challenges residents endure as the City grows and evolves. We appreciate your suggestion requesting commenters to indicate if they live in the immediate area and have made that change to the website.

I think James did a good job of explaining some of the reasons why the proposal is not meeting current zoning.

We are continuing to work on the parking and traffic issues and have meetings scheduled with the City's transportation department and our traffic engineer. We are taking those concerns very seriously.

With regard to the proposed density, we respectfully disagree with your assertion that this site is not appropriate for height and density. The demand for affordable housing in Cambridge is overwhelming. As indicated in our presentation, there are over 7,000 unique households on the waitlist who either work or live in Cambridge or are a veteran that need affordable housing. We and others (including most of the urban planning community) believe that in order to meet that demand, sites such as 2072 Mass Ave, being located on Cambridge's busiest street (Mass Ave is four lanes in front of the site as you know), its adjacency to public transit (Red Line and bus), and its proximity to services such as healthcare, education, retail (including a larger

our proposal.

All of that being said, we respect your opposition to the project and are committed to working with you and your neighbors - regardless of whether you support or oppose the project - to design the project in a way that

minimizes adverse impacts to the neighborhood and maximizes benefits to the community.

James Zall 2 months ago · 0 Likes

Also, given Cambridge's high land costs, limiting the number of units to what zoning allows makes the housing no longer affordable to many if not most in Cambridge.

James Zall 2 months ago · 0 Likes

The reason that affordable housing proposals usually do not meet current Cambridge zoning requirements is that those zoning requirements have been designed to prevent affordable housing in particular, and to limit housing in general. About 65% of Cambridge housing does not meet current zoning requirements. That includes many buildings that seem perfectly fine to most Cambridge residents. My home is included in that 65%; odds are that yours or your neighbors' homes are too.

claire silvers 2 months ago · 0 Likes

This seems to be a very well thought through project and there is no doubt that this kind of housing is sorely needed. (Anyone who doubts that should spend 5 minutes looking at available rentals within a mile's radius.) We live a block away on Mead St, and have been pondering the fate of this parcel for years. First choice would have been what used to be called a vest-pocket park, esp. so the senior housing residents would have an outdoor place within reach that

might require getting in a van. That is no doubt unrealistic. Then we are concerned about the fate of the restaurant's staff. But if the space is to be devoted to housing, this project is far & away better than the "luxury" overpriced block blot that we had assumed would materialize. The 1st floor treatment set-back makes it more appealing and our 1st impression of the design is that it is distinctive without being jarring, and the apts are well-laid out. Interesting materials. You will get many complaints about adding to parking. That doesn't worry us. The drop-off spots are essential--but the only thing we wonder about is the difficulty of making left turn off south-bound Walden into those spots. As you know, that intersection can become crazed at times, & even during calmer periods complex dynamics can develop when someone tries to left-turn into the restaurant parking lot. Don't know what the solution would be.

Jason Korb 2 months ago · 0 Likes

Thank you Claire for your thoughtful feedback and support as a neighbor of the project. We agree regarding the left turn into our building, as well as a left turn out of our building could also snarl traffic on Walden. We are working with the City's transportation department and our traffic engineer to see if we can prevent and/or limit these movements. We will definitely keep you in the loop as to our progress.

Deb Gallagher 2 months ago · 0 Likes

I live on Cogswell and support the project, as we do need a lot more affordable housing in Cambridge. I'm a little worried about parking, as Cogswell may be the closest street parking that the residents will be able to find. But the need for the housing, I think, is the predominant factor.

Jason Korb 2 months ago · 0 Likes

Thank you Deb for your support of the project. We will be receiving our parking study this week and will post it

here when we receive it. If the parking study shows a significant lack of on-street parking near the site we will look at other possible options for off-street parking.

Michael Salib 2 months ago · 0 Likes

This project looks absolutely amazing! We desperately need more housing, and the building looks beautiful. I think it will fit in very well with that area. I live about a half mile away in North Cambridge and it is so wonderful to see projects like this coming online; I only wish we could get more and that the city would allow an extra floor or two. I hope that permitting and construction go smoothly so we can welcome our new neighbors!

Jason Korb 2 months ago · 0 Likes

Thanks Michael, we look forward to working with you and your neighbors!

James Zall 2 months ago · 0 Likes

I'm glad to see such a well-designed building and well-planned project coming to our neighborhood. With many stores and amenities within walking and biking distance and so close to subway and buses, this is an ideal location for the kind of affordable housing that is in short supply and so badly needed in Cambridge right now.

Thanks for your detailed presentation earlier this week. I hope you'll continue to keep the neighborhood informed as the project progresses.

Jason Korb 2 months ago · 0 Likes

Thanks James! We'll continue to keep the community in

the loop throughout the entire process:

Christopher Schmidt 2 months ago · 0

This project is super exciting! I really enjoy how this project connects to the context on Mass Ave: while it's slightly taller than some of the surrounding buildings, it flows well in the overall street, and doesn't "overpower" any of the nearby buildings.

The first floor amenity and retail space should provide a good frontage on Mass Ave, and I appreciate the thought that's gone into pulling back from the sidewalk on the corners of the lot to create more walking space -- I know that intersection can be narrow right now.

The location's strong access to transit -- both Davis and Porter, as well as the bus access -- make it a really good candidate for lowered parking; it's so important we move away from the induced demand of creating parking, for climate and other reasons.

I'm also really excited to see that the team is considering mass timber construction! I'd love to know more details about what we can do to support that, since I believe this is also an important climate mitigation element and will require additional state or city rules before it can be done, so I hope you'll share more on that as well.

I'm sure that there are some elements of this project that will raise concerns in the community, but I am super excited by the possibilities here and really look forward to it moving forward.

Jason Korb 2 months ago · 0 Likes

THANK YOU CHRS FOR YOUR FEEDBACK AND SUPPORT FOR THE project!

Eric Herot 2 months ago · 0 Likes

This project is very exciting and I would love to see it move forward. Zero parking projects are the future of Cambridge and I hope to see more projects like this go forward in the future. I strongly support this project as-is.

Jason Korb 2 months ago · 0 Likes

Thanks Eric!

Tom Chase 2 months ago · 0 Likes

Thank you Capstone, HRE, and Bruner/Cott for bringing this extremely well thought-out, beautiful, and deserving proposed project to the neighborhood. As a resident of the Porter Square area for six years, the last three of those on nearby Pemberton Street, I'm thrilled to see this level of design brought to the dual challenges of affordability and sustainability. We live in a fairly large city right next to an even bigger city. Providing extremely energy efficient housing close to transit, jobs, schools, and services is a big step towards making Cambridge an even more welcoming place, and towards addressing the local and global crises brought on by climate change. Well done. - Tom Chase

Jason Korb 2 months ago · 0 Likes

Thanks Tom, we are looking forward to working with you and the entire NEI team on implementing the Passive House design goals and many other sustainable and energy efficient measures!

(6:02 p.m.)

Sitting Members: Constantine Alexander, Brendan Sullivan,
Andrea A. Hickey, Jim Monteverde, and
Laura Wernick

The one case we're going to hear tonight, the one
I'm going to call is Case Number #017326 -- 2072
Massachusetts Avenue. Anyone here wishing to be heard on
this matter?

SEAN HOPE: Yeah, Thank you, Mr. Chair. For the
record, Attorney Sean Hope on behalf of CCHRE 2072 Mass Ave
Tenant LLC. As the Chair had mentioned, we are here to
request a continuance. We have a date proposed. We also
submitted a letter in the file.

Just to recap for the Board, we had a hearing in
early January, and prior to that we realized that there was
a mistake in the drawings that we felt was substantial and
needed to be corrected.

Also at that previous hearing, there was some
instruction by the Board to look at various options. One
instruction was to look at an as-of-right option to see if
that was feasible, in terms of cost and practicability, as

1 well as overall looking at alternative options.

2 We took that to heart. We first started off
3 making sure that we corrected the mistake in the existing
4 drawings. What we seemed to find out, though, is that it
5 wasn't just the height. We have shadow studies; we have
6 lots of other things that were impacted by this inaccuracy.
7 And so, one we wanted to make 100 percent sure that we were
8 able to scrub the drawings to do that.

9 Additionally, when we exercised (sic) the cost,
10 there are other alternative options that came up that we
11 were reviewing. We also started meeting of CDD to start
12 reviewing those options to make sure they were feasible.

13 In that time, it become pretty clear that we were
14 not able to finish our review, get feedback from CDD, have a
15 community meeting and get to the Planning Board without the
16 process feeling rushed.

17 In our conversations with the community, they were
18 also asking that there was at least two weeks in between --
19 you know, community meeting and the Planning Board meeting.

20 So all of those factors together, we quickly
21 realized that was we were not going to be able to get to the
22 Board and do everything and give it the time it deserved

1 without rushing on such an important project.

2 So we have been continuing working. We do plan to
3 post some revised plans for our website next week. We have
4 been in touch with CDD Staff to get to the Planning Board.
5 So this is all in motion. But again, we were not going to
6 be able to make this timeline.

7 So we respectfully ask that we can continue this
8 case, so that we can complete the necessary work to be ready
9 to be in front of you. And we are looking -- we're
10 requesting a date -- so we're looking at the second week in
11 may as the earliest that we would be prepared to meet.

12 CONSTANTINE ALEXANDER: I'm sorry, the second -- I
13 didn't catch that.

14 SEAN HOPE: The second week in May. So that would
15 be --

16 CONSTANTINE ALEXANDER: May, okay, thank you.

17 SEAN HOPE: May 10 is that Monday. We recognize -
18 - one, this is a special meeting. All the Zoning Board
19 members need to be available. So really any time after
20 that, we would be prepared to meet at your schedule.

21 CONSTANTINE ALEXANDER: Sisia, what do we have?

22 SISIA DAGLIAN: Well, we already have a regular

1 meeting on the thirteenth. So the following week --

2 CONSTANTINE ALEXANDER: We're going to have a
3 separate meeting --

4 SISIA DAGLIAN: -- yeah. It would be May 20 is
5 really the only --

6 CONSTANTINE ALEXANDER: The twentieth --

7 SISIA DAGLIAN: -- date in May after the second
8 week.

9 CONSTANTINE ALEXANDER: Okay.

10 SISIA DAGLIAN: That would be a Thursday, May 20.

11 CONSTANTINE ALEXANDER: May 20 work for you, Sean?

12 SEAN HOPE: It does.

13 SISIA DAGLIAN: How about the rest of the Board?

14 CONSTANTINE ALEXANDER: And this will be at 6:00
15 p.m. on May 20?

16 SISIA DAGLIAN: Correct.

17 CONSTANTINE ALEXANDER: All right. Everybody
18 agree?

19 ANDREA HICKEY: Do we --

20 CONSTANTINE ALEXANDER: I'm sorry --

21 ANDREA HICKEY: -- anticipate that meeting being a
22 Zoom meeting? I might be out of state that day, but could

1 attend by Zoom.

2 SISIA DAGLIAN: We're assuming so at this point,
3 yes.

4 CONSTANTINE ALEXANDER: What was the rest -- pick
5 another date, Andrea. You shouldn't have to make life
6 difficult for yourself.

7 ANDREA HICKEY: No, it's not difficult. The
8 likelihood of my traveling is probably very slim. But as
9 long as the meeting will be Zoom, I'm happy to go with that
10 date.

11 SISIA DAGLIAN: We're assuming so at this point.

12 ANDREA HICKEY: Ok.

13 SISIA DAGLIAN: And that's fine with me.

14 CONSTANTINE ALEXANDER: Laura, is May 20 okay with
15 you?

16 LAURA WERNICK: I think so, yes.

17 JIM MONTEVERDE: And [Jim Monteverde], it works
18 for me.

19 CONSTANTINE ALEXANDER: And Brendan?

20 BRENDAN SULLIVAN: Brendan yes. Still not going
21 anywhere.

22 CONSTANTINE ALEXANDER: Okay. We're looking at

1 6:00 p.m. on May 20. It will be the only case, presumably,
2 on our agenda for that evening.

3 I'm now going to open the matter up to public
4 testimony. Any members of the public who wish to speak
5 should now click the icon at the bottom of your Zoom screen
6 that says, "Raise hand." If you're calling in by phone, you
7 can raise your hand by pressing *9 and unmute or mute by
8 pressing *6.

9 Now, before I ask the Staff to unmute speakers one
10 at a time, first of all if you are going to speak, you
11 should begin by saying your name and address, and the Staff
12 will confirm that we can hear you.

13 But more to the point, the only subject I'm going
14 to entertain comments on tonight -- there are two -- one,
15 that should we continue to May 20? And two, should the time
16 be 6:00 p.m. on that date?

17 So with that, anyone wishes to speak? I've given
18 the instructions.

19 SISIA DAGLIAN: Young Kim.

20 CONSTANTINE ALEXANDER: Mr. Kim?

21 SISIA DAGLIAN: I think he needs a minute to
22 unmute.

1 YOUNG KIM: Thank you. This is Young Kim, 17
2 Norris Street in Cambridge. What I'd like to ask is that
3 for the continuance of this hearing, I'd like to ask if --

4 CONSTANTINE ALEXANDER: Excuse me, sir, I'm having
5 trouble understanding you. Can you just speak --

6 YOUNG KIM: Yes, I'd like to request the BZA to
7 give CC HRE certain conditions. Because they have not so
8 far -- they have not followed the guidelines of the state
9 handbook and the comprehensive permit process.

10 So first of all, I'd like -- they'd like -- I want
11 the CC HRE to fully answer your request of the original
12 continuance, and that if they prefer the option is still the
13 nineteenth option, then they should fully give us financial
14 reasons why they're still fishing for the ninth.

15 And also, the next condition is --

16 CONSTANTINE ALEXANDER: Sir, I would suggest if
17 you think there are conditions we should impose, and we
18 often do -- and I can't conceive of us not agreeing if we do
19 approve this comprehensive permit that there will not be
20 conditions -- I suggest you put your suggested conditions in
21 writing, get it to this Board by the 5:00 p.m. on the Monday
22 before the requiring of the petitioners, and we'll take them

1 up --

2 YOUNG KIM: Yeah.

3 CONSTANTINE ALEXANDER: -- at the meeting on May
4 20.

5 YOUNG KIM: My -- what I'm trying to suggest is
6 that you put this condition on the continuing this hearing.
7 Because so far, they have not followed the CDD guidelines.

8 CONSTANTINE ALEXANDER: I'm sorry, sir. It's me.
9 I'm having trouble understanding what you're saying. We
10 will -- anybody can suggest conditions, or why they think we
11 should approve, why we should not approve. And those
12 conditions will be discussed presumably on May 20.

13 And we may impose conditions that are suggested,
14 we may not. And then we'll take our final vote. So I'm
15 sorry --

16 YOUNG KIM: Yeah.

17 CONSTANTINE ALEXANDER: If you have -- if you want
18 us to consider, put it in writing, get it to us before 5:00
19 p.m. on the Monday before May 20.

20 YOUNG KIM: I'm very sorry, but I guess I'm not
21 making my case clear. I would like to suggest conditions
22 for continuing this case, not conditions for --

1 CONSTANTINE ALEXANDER: No, I'm sorry, sir. I
2 will not -- I don't -- I will not -- thank you for your
3 comments. I will not entertain that. The condition -- May
4 20 is the date. You have conditions as to the relief that's
5 being sought, that's fine, given the process I described
6 already.

7 But we're not putting conditions tonight on
8 whether to continue the case, or how to continue the case.
9 But thank you very much. Anyone else, Sisia?

10 SISIA DAGLIAN: Just give it a minute, no.
11 Michael Brandon?

12 CONSTANTINE ALEXANDER: Mr. Brandon?

13 MICHAEL BRANDON: Thank you, Mr. Chairman. It's
14 Michael Brandon, 27 Seven Pines Avenue. I'm the Clerk for
15 the North Cambridge Stabilization Committee. I've late
16 today sent an e-mail to the Board. I don't know if you
17 received it.

18 CONSTANTINE ALEXANDER: I saw your letter. Thank
19 you very much.

20 MICHAEL BRANDON: Thank you.

21 CONSTANTINE ALEXANDER: I've already described
22 what we're going to talk about tonight, and it's simply

1 whether to continue this case, and if so to what date and
2 time. Anything else, Mr. Brandon, is not -- I'm going to
3 rule out of order.

4 MICHAEL BRANDON: I understand that and made that
5 very clear, Mr. Chairman. And I appreciate it. On the
6 issue of the requested continuance, I would ask the Board
7 deny another continuance. There's already been at least one
8 that I recall.

9 The purpose for that was supposedly to correct the
10 improper drawings, mistaken drawings that the architect had
11 presented. They've had many weeks to correct those.

12 At the last meeting of the Affordable Housing
13 Trust, it was suggested by the Staff that the actual reason
14 a continuance was going to be sought tonight was that the
15 developers who also developed the Frost Terrace project were
16 very busy because of the demand and the many applications
17 that were submitted. And they were focused on that project,
18 rather than this one.

19 I think it's very unfair to the public and the
20 many hundreds of neighbors who have objected to this project
21 as it's currently been presented to have to keep dragging
22 this out. And I don't know if perhaps the rationale is

1 partly that people burn out and stop coming to these
2 meetings, and voicing their concerns and objections.

3 So I would just ask that you say no. You've had
4 plenty of time to submit the revised drawings. Now they're
5 saying they need additional shadow studies. Their architect
6 could do that very quickly by just, you know, putting in
7 some new numbers.

8 CONSTANTINE ALEXANDER: Mr. Brandon, as you well
9 know as an avid follower of our proceedings over the years
10 that we routinely grant conditions -- a continuance. If
11 someone is abusing the process, we will not confer the
12 continuance.

13 I don't -- I personally -- other members of the
14 Board may feel differently -- I don't see this to be the
15 case. This is a complex project. There is a number of pros
16 and cons. And the petitioner has only continued it once.
17 This will be the second continuance. And that's not out of
18 the -- we have many times continued cases more than once for
19 good reason. And I think there are good reasons, as I've
20 just identified.

21 So thank you for your comments. But we're going
22 to move on.

1 MICHAEL BRANDON: Mr. Chairman, just the other
2 last point I would make, and it's certainly up to you and
3 the other members of the Board, but --

4 CONSTANTINE ALEXANDER: I'm going to ask the
5 members of the Board if they want to take a vote. If
6 members of the Board don't want to continue, they'll vote
7 no.

8 MICHAEL BRANDON: Can I just give you my view?
9 May I make my final point?

10 CONSTANTINE ALEXANDER: If it's relating to the
11 two subjects I've identified, yes. If not --

12 MICHAEL BRANDON: Please. Another --

13 CONSTANTINE ALEXANDER: -- you're not, I'm going
14 to rule you out of order.

15 MICHAEL BRANDON: Okay. Well, you can't -- the
16 other point is the reason to not continue this is that it's
17 not properly before the Board because the 40B process has
18 not been followed, and the Board's own rules: This
19 shouldn't be before you, because the site approval letter
20 from the state was not timely submitted to the Board. In
21 fact, you've never received -- as near as I can determine --
22 you've never been notified by the state funding agency that

1 a site approval letter has been issued.

2 So I mean you can continue the process, and if
3 that's what the Board wants, I agree there should be a full
4 hearing. But first, they should properly submit the project
5 and what project -- now they got two on the table.

6 CONSTANTINE ALEXANDER: Thank you, Mr. Brandon.

7 MICHAEL BRANDON: Follow the process!

8 CONSTANTINE ALEXANDER: Anyone else wish to speak?

9 BRENDAN SULLIVAN: All right. This is Brendan
10 Sullivan.

11 MICHAEL BRANDON: Thank you.

12 CONSTANTINE ALEXANDER: Anyone else wish to speak

13 --

14 BRENDAN SULLIVAN: If that is the case, and that
15 they have not submitted, this is even more reason why it
16 should be continued, so that that can be submitted in our
17 file. Regarding your first point about what was discussed
18 at the Affordable Housing Trust, which is just conjecture
19 about their being inundated with trying to get Frost Terrace
20 underway, I would think that that is a valid reason also.

21 That is a worthwhile endeavor on their part, and I
22 think that in order to do this project justice, that the

1 developer -- the petitioner -- needs to be I think ready to
2 present their case in a lucid and a complete fashion. So
3 both the points that you make I think are valid reasons to
4 continue this matter.

5 CONSTANTINE ALEXANDER: Thank you, Mr. Sullivan.

6 Anyone else wish to speak?

7 SISIA DAGLIAN: I don't see any other hands.

8 CONSTANTINE ALEXANDER: So we have no one else?
9 So I think I'm going to make a motion now to continue the
10 case until 6:00 p.m. on May 20, subject to the usual
11 conditions that we impose when we continue a case, and which
12 I will of course recite in a second.

13 So the Chair moves that we continue this case as a
14 case heard until 6:00 p.m. on May 20 subject to the
15 following conditions:

16 First, that the petitioner sign a waiver of notice
17 for decision, and the petitioner has already done has that
18 in connection with the first continuance. So that condition
19 is satisfied.

20 Second, that the new or modified posting sign must
21 be maintained for the 14 days prior to May 20. Failure to
22 do that will mean we will not hear that case on May 20, and

1 could subject the petitioner to having his -- its petition
2 dismissed.

3 And lastly -- and this is very important -- to the
4 extent that there are going to be new or modified plans,
5 drawings, specifications or other data relevant to our
6 decision -- shadow studies for example -- all of those or
7 each of those must be in our file no later than 5:00 p.m. on
8 the Monday before May 20.

9 How do we vote? Brendan?

10 BRENDAN SULLIVAN: Brendan Sullivan yes to the
11 continuance.

12 CONSTANTINE ALEXANDER: Jim? Monteverde.

13 JASON MARSHALL: Jim Monteverde yes to the
14 continuance.

15 CONSTANTINE ALEXANDER: Andrea?

16 ANDREA HICKEY: Andrea Hickey yes to the
17 continuance.

18 CONSTANTINE ALEXANDER: Laura?

19 LAURA WERNICK: Laura Wernick yes to the
20 continuance.

21 CONSTANTINE ALEXANDER: And the Chair votes yes as
22 well.

1

Cc: SUSAN E FRANKLE
Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal

I am writing to you and asking for your help with the proposed development for [2072 Mass Ave](#). As I expressed in the note that I sent to the board on Jan. 5th, I do not believe that the currently proposed building is appropriate for the neighborhood.

The developers recently presented their revised plans. It was my understanding that they were going to address the concerns that have been voiced thus far by the community. For that reason, it was extremely disappointing to see that almost nothing has been changed. The bottom line is that just 1 apartment was removed. People in the neighborhood have expressed their upset about the density, the height of the building, concerns about light, the lack of green space, the lack of parking, and the safety of the Walden Street & Mass Ave intersection.

How many apartments have been added in the Fresh Pond / Alewife area of Cambridge since the massive development of that area began? The Fresh Pond/ Alewife area appears to have exactly what the city says is important. That is, it has easy access to transportation and to shopping. Still with all that has been built in that area of the city, Capstone Communitates wants to cram a 9-story building into a neighborhood where it will be out of scale with the homes around it. How does the removal of one apartment equate to a notable compromise with the people who currently live near to 2072 Mass Ave.? With all of the opportunity to place housing in Alewife, why has it not been possible to remove a floor or two from this proposed building? How does this building address the need for green space? How does this revised plan address the problem of traffic? And while it would be wonderful to see a society where there is little need for cars, we do not live in that society today. Therefore, the people who will be moving into the building will be coming with their cars. Where are they going to be parked? If the city wants to reduce cars, then it needs to come up with a plan where fewer parking stickers are

issued. Until then, it is likely that 48 units are going to come with 48 cars. It will pit neighbor against neighbor.

It appears that Capstone Communities has determined that 48 units is their magic number to make the project work for them financially but I do not think that their needs should be the driving force for this project. I am looking for my neighborhood and my community to live in harmony. I don't think that anyone is objecting to Affordable Housing but we need the Zoning Board to help us with bringing about a building that fits with the people who already call this area home. If Capstone Communities needs 48 units to make the project work for them financially, then possibly Capstone Communities is not the developer for this project.

Please do not allow the project to move forward in its current form. There has been so much discord in the world over the past number of years. I hate to see a project moving forward that is likely pit neighbor against neighbor. Many people have voiced their concerns. Certainly, there must be room for an Affordable Housing development that takes into consideration the people who call this neighborhood their home. Please help us to ensure that 2072 fosters harmony and not division.

Sincerely,
Steve McCabe

Subject: 2072 Mass Ave CASE NO. BZA-017326-2020

To Members of the Board of Zoning Appeal

As a resident of 1 Russell, I would like to voice my opposition to the development at 2072 Mass Ave. as it is currently proposed. I consider the building to be out of scale with the neighborhood both with its proposed height and density. Furthermore, adding 49 new households where no parking will be made available is completely inconsiderate to those of us who have lived in the neighborhood for years.

I don't think that anyone is questioning the need for affordable housing. Nonetheless, I also don't think that the need justifies the impact that this project will have on the people who live just a few blocks from 2072 Mass Ave. Compromise is a key ingredient for neighbors to live together peacefully and happily. In almost every response that is presented on the 2072 website, however, I primarily

see justifications being made for the height, the density, the lack of green space, and the lack of parking.

- On the topic of parking, Jason Korb expressed that residents should be willing to park a quarter of a mile from their home. Does he park his car a quarter mile away from his home? I doubt it. We will end up with 25-40 cars crammed into an already congested neighborhood. The proposed building is using the basement level for bikes but not for cars. Many city folks keep their bikes in their apartments. Why can't the basement area be used to keep some of the added vehicles off of our streets?
- Why is there no street level green space being proposed? From Porter Sq. down towards Arlington, there are very few trees and the ones that we have are tiny; at best. This proposal does not take any opportunity to address this problem.
- Before COVID, the intersection of Mass Ave and Walden was always overwhelmed with traffic during rush hour. During COVID, the traffic has been quieter but life and the traffic that is associated with that life is going to return. While there may be a restaurant on the site today, it has nearly no customers. With this proposal, we will be going from a site that has almost no patronage to one where 49 households will be trying to safely use a drop-off /pick-up point?

We should be looking at a proposal that blends in with the current scale and flavor of the area that immediately surrounds 2072 Mass Ave. Please stop discounting the objections that have been expressed. This is an opportunity for a solution that solves a problem but the solution should not be creating new problems in the process.

Steve McCabe

December 5, 2020

Dear Members of the Board of Zoning Appeal,

I am writing to support the proposal of Capstone Communities LLC for a 100% affordable housing development at 2072 Massachusetts Avenue. I have lived in North Cambridge since 1987, and I have watched in amazement the huge increase in the cost of housing, both rental and homeownership in our neighborhood. The addition of 49 units of permanently affordable, family-sized apartments will constitute an important step forward in the City's effort to enable low- and moderate- income families to continue to live in Cambridge.

The site is conveniently located close to public transportation. There is regular bus service along Massachusetts Avenue. The Porter Square T station and the adjacent commuter rail stop are no more than a quarter mile from the site. Residents will be able to easily walk to grocery stores, pharmacies, etc., and will be able to access Porter Square's broad variety of retail and commercial entities without reliance on cars.

As such, the site is a "main corridor" site. Main corridor sites are sites at locations close enough to public transit to significantly decrease car use. Main corridor sites like 2072 Mass can accommodate buildings with additional height, and, in my opinion, should be allowed to do so, especially when the height will enable construction of much-needed housing for low- and moderate- income residents.

Because of its location on Massachusetts Avenue it will provide the kind of walkable and convenient urban site that enables the families who live there to provide their children with the best of urban living in an environment that does not overwhelm the occupants. This is not a proposal for a 300 ft high-rise building; nor is it a proposal for a location right beside an expressway with no way to cross the street. The City has done a lot of work on the pattern of traffic signals at that corner to develop a safe, albeit busy, intersection. The plans for the building show an attractive building that will fit well into the overall built environment on that part of Massachusetts Avenue.

For the above reasons, and most importantly, for the addition of much-needed affordable housing for low- and moderate-income families, I urge the Board of Zoning Appeals to act favorably on this proposal. Thank you for your consideration.

Sincerely,

Margaret Drury

Subject: Letter in support of 2072 Massachusetts Avenue

Dear Board of Zoning Appeal:

I am writing in support of the proposed project at 2072 Massachusetts Avenue, brought forward by Capstone Communities and Hope Real Estate Enterprises in conjunction with Bruner/Cott Architects. I live in the Agassiz Neighborhood, so I view this project as impacting my broader neighborhood.

There are many aspects that recommend this project's approval by the BZA. Let me take a few paragraphs to outline a some of the ones that I see:

From a planner's perspective, Massachusetts Avenue near Porter Square still needs work.

Massachusetts Avenue from Walden Street to Roseland Street needs continued planning attention. The arrival of the Red Line in Porter Square in the 1980s created the possibility for transit-oriented development, increased density, an improved street wall and heightened retail, but actual changes to the avenue have lagged decades behind. Only now, following one of the hottest real estate markets in memory, are we seeing the creation of new housing units — at Beech Street and at Roseland and now the possibility of additional units at Walden. From an urban design perspective, this is a good thing. With regard to the proposed building at Walden, a taller building at that corner (Walden and Mass Ave) fills in a design gap along the avenue and creates a needed visual marker for the beginning of Porter Square. The proposed project at 2072 Mass Ave serves that function well and it does so with design sense, thankfully forgoing red brick in favor of a new material that introduces a new visual cue to Porter.

The team behind the proposed project at 2072 Mass Avenue is the right team.

I mentioned the new housing going up at Roseland — that project is in construction, with attractive design and good contextual layout. It is being developed by this exact same team, working along with the city to create more affordable units on Mass Ave. The HRE/Capstone track record is exemplary and their ability to work with the neighborhood and deliver on their commitments is well established. You couldn't ask for a better, more committed group of people shepherding this process.

The need for affordable housing hasn't diminished in the past decade — it has only increased. With Covid, that need continues to expand.

I won't go through Chapter and Verse of the affordable housing story — the BZA is too familiar with the regional pressures on the housing market and the specific pressures that Cambridge is facing. I will only note that opportunities to create new affordable units in the city is rare and to be able to create them near a transit node is rarer. This site provides both — the opportunity for a significant number of new affordable units in close proximity to a T stop. Additionally, the development team's commitment and ability to deliver is second to none.

In each of their previous projects, they have fostered a good working relationship with all the parties involved to make a better project in the end. This project will be no different, I'm certain.

Finally, I'll close with a list of particulars — the Capstone-HRE-Bruner/Cott list of “Community Process Design Improvements.”

This list shows the team's engagement with the local community, their willingness to on-board feedback and comment, and shows their significant [and in my view, very relevant] design improvements to improve their project — such as setting back the building's ground floor along Mass Ave and stepping the building down as it recedes back into the neighborhood. This active dialog will continue as the project moves forward. Of that I'm certain. Here is their list:

- Relocated residential entrance from Walden St. to Mass Ave.
- Widened Walden St to provide three 10' wide driving lanes
- Setback building on ground floor and increased sidewalk width along Walden Street
- Tapered wall at garage entrance to provide additional vehicular/pedestrian visibility
- Added sidewalk planter at garage entrance
- Increased height along Mass Ave from 8 stories to 9 stories
- Lowered height from 8 stories to 6 stories towards residential neighborhood
- Added upper level terrace resident amenity space (~1,850 SF)
- Developed tree protection plan with master arborist
- Updated traffic and parking study
- Updated Transportation Demand Management (TDM) measures

I hope the Board of Zoning Appeal will look favorably on this project and help the creation of much-needed new housing in the city of Cambridge.

Sincerely,

Sam Seidel

Subject: Capstone 2072 Mass Ave Comprehensive Permit application

Members of the Board of Zoning Appeal:

On Sept. 29, 2020, Capstone Communities LLC presented a proposal for a mixed-use housing project at the corner of Massachusetts Ave and Walden Street. This was the first time I heard of this project. Were there any negotiations with CDD before public disclosure?

I ask you, members, to visit the Russell Apartments and Senior Center, a few feet away from the proposed tower site, and speak to the affordable housing residents (one is 101 years of age). They will tell you in detail how the project will diminish the quality of their lives. Do you support decent affordable housing for the elderly and disabled?

I ask you to visit this corner and visualize 49 dwelling units crammed into the 8 residential floors with no adjacent open space and with significant traffic hazards on two sides of the building during much of the day. Is that a model for community zoning?

I ask you to reject the rash decision of the Planning Board on Dec. 1 to approve the Capstone comprehensive permit application.

I ask you to take part in amending the current plan by requesting a decrease in its size and density and by adding open space for the building's residents in order to improve health, safety and quality of life for the residents, while reducing the project's impact on the neighborhood. Isn't that kind of oversight the responsibility of BZA?

I ask you to demand a Traffic Impact Study to analyze the impact of the proposed development on the Mass. Ave./Walden St. intersection as well as the surrounding streets (taking into account pre-pandemic conditions).

Respectfully,
Seymour Kellerman

Subject: BZA-017326-2020

To Members of the Board of Zoning Appeals:

I am writing to urge the board to grant the request for zoning variances in order for the proposed residential building on **2072 Mass. Ave.** to move forward. **(BZA-017326-2020)**

I live @ 175 Richdale Ave. between Walden and Raymond Streets and support this project. I do not own a car and routinely bike through the corner of Walden St. and Mass. Ave. as well as take the bus directly in front of 2071 Mass. Ave. I do not feel that this location would be unsafe for children if families were to live on that corner as some people had said.

I also am a social worker who consults with a number of social service agencies in Cambridge. Lack of affordable housing for families, including many of those who are at risk, is a crisis in our city and I feel that the city should do everything possible to provide more units. Although homeless families are more hidden than the individuals that many of us see in many neighborhoods in Cambridge, the need is there.

I have had a chance to review the project design and I feel very positive about the specifics - the ground floor design that would improve the sidewalk visibility and the focus on being environmentally responsible which will be a prototype for other cities considering similar projects.

I urge you to support this housing project. The variances requested are not significant enough to prevent this critical housing from being built.

Please feel free to contact me if you have any questions.

Subject: for the Board of Zoning Appeals

I am a resident of 113 Richdale Avenue. This note is to express my support for the building proposed by Capstone Communities for the lot at the corner of Walden and Massachusetts Avenue where the Indian restaurant is, on the site of the former KFC. I understand the issues raised by some of my neighbors about congestion at that corner, parking, and the height of the proposed building. I trust that the transportation and parking people will do due research on the first two issues. While the height of the building is somewhat out of scale with the surrounding buildings, I believe that the building may need that height to accommodate enough units to make the whole project feasible. The value to the area of economic diversity outweighs, for me, the aesthetic issue of the proposed building's height.

Subject: Comment on BZA-017326-2020

To the BZA:

I am a Cambridge resident writing in support of the affordable housing development at 2072 Mass Ave (BZA-017326-2020). Cambridge needs more affordable housing built near public transit, which this development offers, and it is also designed to the passive house energy standard, which will contribute to the city's climate goals as well as reduce energy bills for the residents. I urge you to support this development, which will contribute to a more just and sustainable city.

Thank you,

Marian Swain

BZA Case # 017326-2020

To The Members of the Cambridge Zoning Board of Appeal,

My name is Margaret Rueter. I live at the Leonard J Russell Senior and Disabled building at 2050 Mass Ave. I have communicated with many of my neighbors. I speak for a group of residents that are afraid to give voice for they are tenants of the city of Cambridge.

Our building is just 3 feet from the planned new affordable housing project to be located next door at 2072 Mass Ave. Indeed the new building as planned is not just tight next to us, adding 150-200 more people at a very unsafe corner just feet from us, but also does include adding a proposed additional anchor building as a part of the design. The anchor building, as proposed, is to run along Walden Street and is to be a six-story windowed facade to run across the entirety of our open space and just three feet away from us . The building will tower over and cast shadows along our sunny residential landscaped terrace where gardening has been encouraged. The new neighboring windows and rooftop play space will change the environment from a restful, restorative and quiet area to one of an experience of shared sound and space, with a much more active population. This has seismic implications to this Russell Apartments population which includes some of the city's oldest, most needy and vulnerable citizens. We are people who were vacated for two years due to construction and who have only JUST moved back (spring 2019, during the pandemic) into a completely renovated building which also houses the North Cambridge Senior Center.

The city of Cambridge is experiencing an urgent housing crisis. Cambridge as always, is at the forefront - working to solve this crisis. Further, it is my belief that all of us as citizens give a little something to help the community meet the goal of additional affordable housing. However, the building as

proposed is asking those of us next door to sacrifice our health, safety, and quiet environment.

This is too big a demand on us, if this city really cares to protect their very own most vulnerable tenants. I ask you to imagine it is your grandparent with Alzheimers, your sister with PTSD, your brother with debilitating clinical depression, or maybe your adult child disabled by breathing issues living here at Russell - for this is who we are. Now imagine, the loss of our outdoor enjoyment, neighbors just feet away, seeing into our windows, and then the worst – constant noise, completely appropriate to a family housing environment, and all of this of course after several years of intolerable construction noise. Perhaps many of us will need to move again. Essentially, we are being asked to sacrifice our own mental and physical health by this design. Is this really what we want to do, and is it really what the City wants to do?

Beyond the very real implications to a vulnerable population there are separate but severe safety concerns at the building site's corner. The intersection of Walden and Mass Ave is fraught with issues. Others will speak to them, but there is one area going to be made far worse because of the proposed Massachusetts Avenue entrance. Seniors at both Russell and the North Cambridge Senior Center park behind our building. There is an entrance through an arch between sections of the building. It is already unsafe and dangerous to approach Russell for those of us who use this lot. As one comes through the Mass Ave light or makes the right turn at Walden to approach Russell there is danger. One must IMMEDIATELY have quick reaction times to watch traffic speeding behind us just after the light. We must signal right, hug the right lane while watching for pedestrians, bikes, runners, delivery vehicles, and the bus and The Ride used by our population. All of this happens within feet of the intersection. The addition of an entrance at Mass Ave will bring additional Ubers, delivery vehicles, and drop off and pick ups pulling up at the new front residential entrance just after this corner. Again, I ask you to consider your parents and grandparents trying to navigate this short shared distance to

our building. A death will occur. It is only a matter of when and how many. How many are we willing to accept?

We are all very grateful tenants. We are grateful to both the city of Cambridge and to the Cambridge Housing Authority for their compassionate and steady care.

What I ask, for all of us here at Russell, is that you complete a proper and thorough review of this project before any approval. I also ask that you consider the context of location and ask for a design review. The developer has delivered a beautiful architectural design. However, at this location and given the intersection so near to our senior and disabled community, and the North Cambridge Senior Center, I would further ask for a “reimagining” of design. The building could be shorter, cast less shadow on our only place of outdoor recreation. It could have a population of tenants more commensurate with the lower density we need for safety. It could be set back from the property line – especially from our own walls.

Please don't sacrifice us in the name of Affordable Housing. Let's work together in the best, generous and humane spirit of Cambridge.

Sincerely,

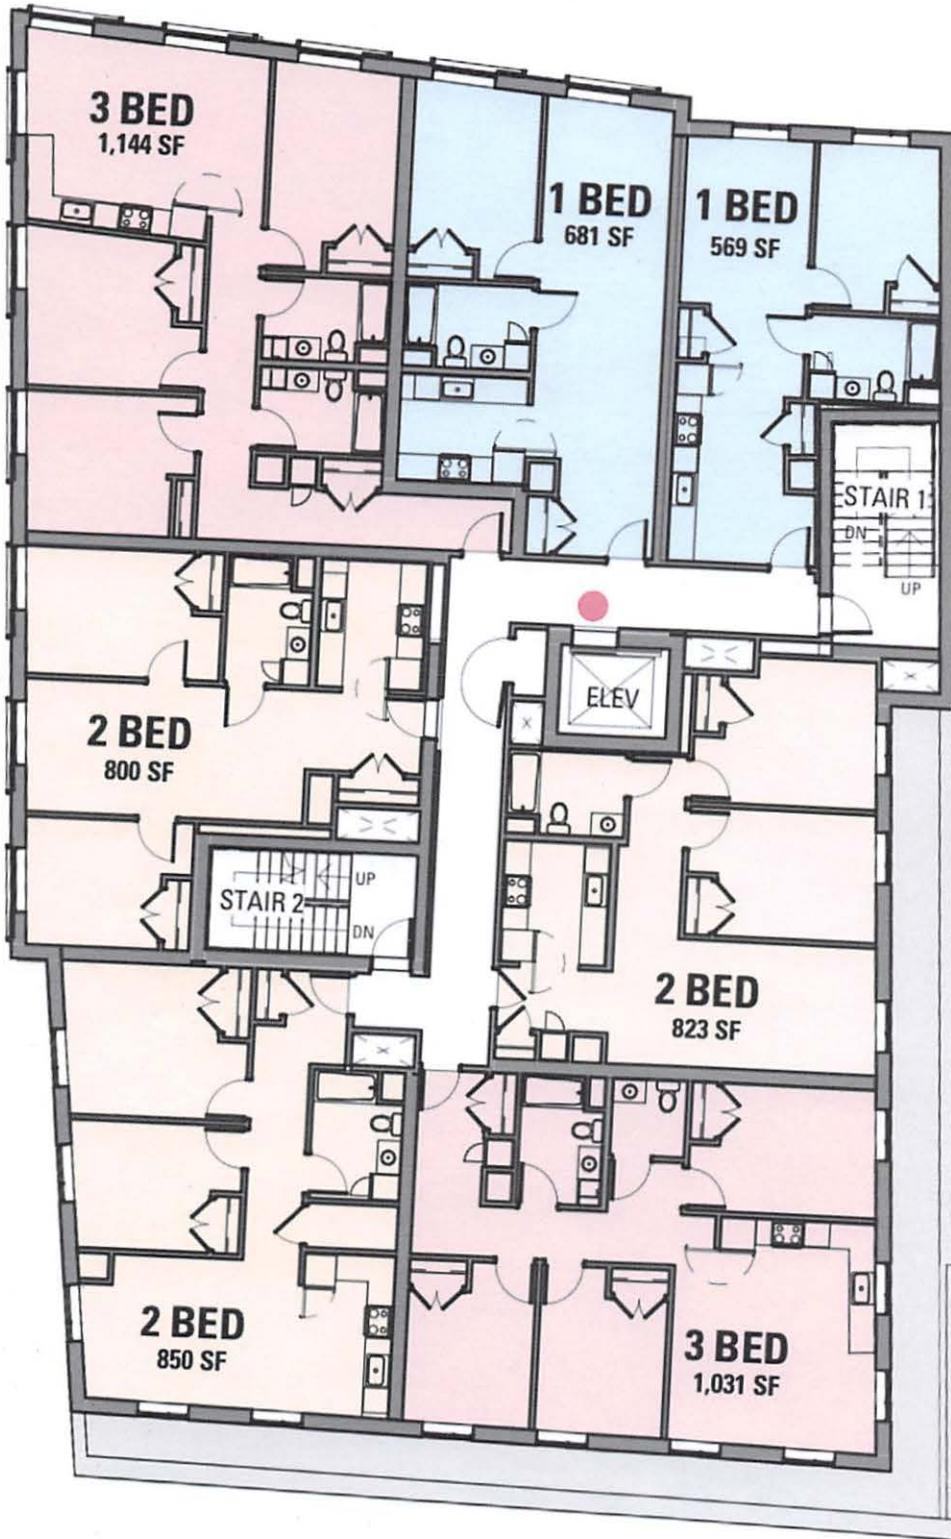

Margaret B Rueter

Re: Comprehensive Permit Application for 2072 Mass Ave Apartments
2072 Massachusetts Avenue, Cambridge, MA

Dear Board of Zoning Appeal Members:

Attached hereto are revised sheets A-101 and A-102 dated April 14, 2021, **Revised April 28, 2021**. The A-101 and A-102 sheets included in the application dated April 14, 2021 and submitted to the Board on April 16, 2021 contained a misalignment between the square footages and the text. This scrivener's error has now been corrected with the revised sheets A-101 and A-102 included herewith.

We look forward to presenting these plans to you at our May 20th hearing. Please contact Sean Hope at (617) 953-8369 if you have any comments.

Sincerely,

Jason Korb

Re: Comprehensive Permit Application for 2072 Mass Ave Apartments
2072 Massachusetts Avenue, Cambridge, MA

Dear Board of Zoning Appeal Members:

We are pleased to submit revised materials for the 2072 Mass Ave Comprehensive Permit Application. As you are aware, there was an error in the previously submitted plans which depicted the adjacent Russell Apartments, located at 2050 Mass Ave, as approximately 70' tall. The 2050 Mass Ave building is approximately 59' tall and all renderings, plans and materials herein have been updated to reflect the corrected height.

In addition, we utilized the past few weeks to explore a new 9-5 story plan that incorporates feedback from a direct abutter. The plans included herein depict nine (9) stories on Mass Ave and five (5) stories on Walden Street. This new proposal steps down to five stories (instead of previously six stories) where it abuts the rear residential neighborhood, provides for height along the Mass Ave corridor, and maintains a high number of overall affordable family apartments. In the context of this new proposal, we are hereby rescinding the previous 8-6 and 9-6 proposals and only request your consideration for this new 9-5 proposal. Below is the revised apartment mix.

<u>1BR</u>	<u>2BR</u>	<u>3BR</u>	<u>Total</u>
16	20	12	48
33%	42%	25%	67% Family

The project's design changes are as follows:

1. Lowered height of rear residential volume from six (6) stories to five (5) stories to step down the portion of the building facing the residential neighborhood;
2. Lowered height of parapet from 42" to 24" on 9 story portion of the building;
3. Removed four windows from the building's east façade facing the Russell Apartments to provide greater privacy to Russell residents; and,
4. Reduced the size of the 5th floor roof terrace and maturity of landscaping to lessen the structural impact while still providing residents with outdoor space.

Additionally, we released the updated plan package on March 12, 2021 on the project's website at www.2072massaveapts.com (that are the same as the plans included herein), and hosted a community meeting on March 30, 2021 to answer questions about the proposal. A recording of the full community meeting along with the presentation and other materials are also posted on the project's website.

The following plans and materials dated April 14, 2021 (unless otherwise noted) reflecting these changes are included herein. These plans and materials replace (or supplement where applicable) the plans and materials submitted on December 3, 2020.

1. Plans

Cover Page, G-100, G-101, EC (10/5/20), C-100, C-101, A-100, A-101, A-102, A-106, A-107, A-108, A-300, A-301, A-302, A-303, A-304, A-305, A-306, A-307, A-308, A-309, A-310, A-400, A-401, A-402

- (a) Lot is located on a corner. Project team assumed two front and side yards with no rear yard.
- (b) Accessible parking requirement rounded up under UFAS (required for Section 504) to three (3) spaces.
- (c) Commercial Parking is waived under Article 6.36 based on actual quantity required being below four (4) required spots.
- (d) Garage and bicycle parking exempt from calculation.
- (e) Project team pursuing public contribution approach for short-term bicycle parking per Article 6.104.2 (b).
- (f) Along with other future possible uses as described on the Waiver List.
- (g) ~1,013 SF of the total lot area is in Residence B, with the remainder in BA-2.
- (h) Total GFA includes the addition of roof area (2,015 sf) on the 5th floor roof at the south end of the building
- (i) 9 stories reference front volume along Mass Ave and front end of Walden St, 6 stories reference rear volume towards rear of lot along Walden St facing neighborhood.
- (k) Building is sited to align with building next door which is right on the sidewalk.
- (l) Along Walden Street for the length of the proposed building at the ground floor, Owners are granting City of Cambridge an easement.
- (m) ~1% of total area at 5th floor roof will contain combination of occupiable area and unoccupiable/maintenance area.

(Updated as of April 14, 2021)**

CAMBRIDGE ZONING ORDINANCE – CHAPTER 17 OF MUNICIPAL CODE

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
1.	§ 4.30 Table of Use Regulations and §4.31(g)	Multifamily dwelling is Prohibited in Residence B Zoning District.	The Applicant seeks zoning relief to allow the proposed Multifamily Development.
2.	§ 4.21 Special Classification Rules (Accessory Uses)	Allowed accessory uses include, inter alia, off-street parking, customary home occupations and certain service establishments and eating establishments for residents of multi-family dwellings.	To the extent that the proposed building amenity uses are not enumerated in Section 4.21, the Applicant seeks zoning relief to allow the proposed amenity uses for the building occupants.
4.	§ 5.11 Development Standards – General Regulations	No building or structure shall be built nor shall any existing building or structure be enlarged which does not conform to the regulations as to maximum ratio of floor area and lot areas, minimum lot sizes, minimum lot area for each dwelling unit or equivalent, minimum lot width, minimum dimensions of front, side and rear yards and maximum height of structures.	The Applicant seeks zoning relief to allow the proposed Multifamily Development as shown on the Plans. Specific requests are set forth below. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
5.	§ 5.22.1 and § 5.22.3; §5.31 and Table 5-1 - Table of Dimensional Requirements – Residential Districts	Private open space shall be provided and shall be a percentage of the lot area as set forth in Section 5.31. An area designated as private open space must have both a width and a length of at least 15’, except for balconies, and may not have a slope greater than 10%. With the exception of balcony areas, private open space shall be accessible to all occupants of a building; not less than ½ of the required private open space shall be provided at ground level or within 10’ of the level of the lowest floor used for residential purposes. In the Residence B Zoning District, at least 50% of the required Private open space shall meet all of the requirements of Section 5.22.1. At least 50% of the required Private open space shall meet the definition of Permeable Open Space and shall not be subject to the dimensional limitations of Section 5.22.1 as applied to Private open space.	The Applicant seeks zoning relief to allow the proposed Multifamily Development as shown on the Plans. The proposed private open space has a width and length of less than 15’, as shown on the Plans. All private open space is located at ground level. At least 50% of the provided private open space will be Permeable Open Space (as shown on the Plans); however, as described above, the proposed Multifamily Development does not meet the required private open space requirement. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
6.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	Business A-2 Maximum Ratio of Floor Area to Lot Area = 1.0 for Non-residential Uses and 1.75 for Residential Uses. Residence B Maximum Ratio of Floor Area to Lot Area is .50. For those portions of any lot exceeding 5,000 sf, the applicable Maximum Ratio of Floor Area to Lot Area shall be 0.35 for all permitted residential uses.	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The existing Ratio of Floor Area to Lot Area is approximately 0.22 and the proposed Ratio of Floor Area to Lot Area is approximately 6.68.
7.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	Business A-2 Minimum Lot Area for Each Dwelling Unit = 600 sf. Per dwelling unit. Residence B Minimum Lot Area for Each Dwelling Unit = 2,500 per dwelling unit. For those portions of any lot exceeding 5,000 sf, the applicable Minimum Lot Area for Each Dwelling Unit shall be 4,000 sf.	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The proposed 48 dwelling units cannot comply with the Minimum Lot Area for Each Dwelling Unit requirement.
8.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	Business A-2 Minimum Front Yard = 5' Residence B Minimum Front Yard = 15'	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The smallest existing front yard setback is approximately 0'; the smallest proposed front yard setback will be approximately 0'.
9.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	Business A-2 Minimum Side Yard = 10' on both side yards. Residence B Minimum Side Yard = 7'6" (sum of 20).	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The smallest existing side yard setback is approximately 42.4'; the smallest proposed side yard setback will be approximately 0'.
10.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	Business A-2 Maximum Height = 45' Residence B Maximum Height = 35'	Due to the need for a building height of approximately 102'9 stories on Mass Ave and 60'5 stories on Walden and considering the adjustments that may occur during development of the plans and drawings from design development to full construction drawings, the Applicant seeks a waiver of the height requirement not less than 60' and not greater than 102'.
11.	§6.36.1 – Schedule of Parking and Loading Requirements	In Business A-2 District, there is a one parking space per dwelling requirement. In Residence B district, multifamily dwellings are not allowed; therefore, Section 6.36.1(g) states that there is no applicable requirement for off-street parking for multifamily dwellings in the Residence B district.	Although there is no technical requirement for off-street parking in the Residence B district for a multifamily use, the Applicant seeks a waiver to allow the proposed Multifamily Dwelling with three (3) proposed accessible off-street parking spaces and two (2) drop off spaces as shown on the Plans. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
12.	§6.42 – Design and Maintenance of Off-Street Parking Facilities – Dimensions for Off-Street Parking Spaces	Dimensions for off street parking spaces. Aisle Width of 22’ required.	To waive the requirement for a dimensional variance and to allow the proposed Multifamily Development as shown on the Plans. The proposed dimension of parking spaces shall be less than minimum required aisle width will be less than the required 22’.
13.	§6.43.4(c) – Design and Maintenance of Off-Street Parking Facilities – Driveways	Grade and design of driveway shall provide a clear view to the driver of any car exiting from the facility, or traffic on the street and of pedestrians.	Due to constraints of the driveway location and building, the clear view from the proposed driveway to Massachusetts Avenue when looking south may be compromised. The Applicant requests a waiver from the requirement for a variance and to allow the proposed Multifamily Development as shown on the Plans.
14.	Article 19 – Project Review	Establishes traffic and urban design standards for development projects exceeding 20,000 gross square feet that are likely to have a significant impact on abutting properties and the surrounding urban environment. Requirements include a Special Permit from the Planning Board including Traffic Impact Review (including a Traffic Impact Study), Urban Design Review, Tree Study, Sewer Service Infrastructure Review, Water Service Infrastructure Review, Noise Mitigation Review, Citywide Advisory Development Consultation and specific building and site plan elements.	To waive all of the applicable Article 19 requirements for a Planning Board Special Permit and other requirements and to allow the proposed Multifamily Development that exceeds 20,000 gross square feet. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
15.	§20.100 Massachusetts Avenue Overlay District	Contains specific requirements for projects located within the Massachusetts Avenue Overlay District, including use regulations, dimensional requirements, and design standards. Projects are also required to comply with the Large Project Review process.	To waive all of the applicable requirements of Section 20.100 without the need for a Planning Board Special Permit and to allow the proposed Multifamily Dwelling without a Special Permit from the Planning Board. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

MUNICIPAL CODE

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers and Notes</u>
1.	Chapter 12.04.020 - Street Numbers	The City Council shall assign numbers to houses.	To waive the requirements of this provision of the Municipal Code so that no separate approval is required from the City Council. To allow the Board of Zoning Appeals to delegate the task of assigning house number(s) for the proposed Multifamily Development to the Building Department, to be completed prior to issuance of Certificates of Occupancy. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
2.	Chapter 12.12.010 - Curb Cut	The City Council shall approve the Curb Cut modification to support the proposed multifamily development as shown on the plans.	To waive the requirements of this provision of the Municipal Code so that no separate approval is required from the Superintendent of Streets and/or the City Council for the modification to the curb cut on Walden Street as shown on the Plans. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

To: Pacheco, Maria
Subject: CASE NO. BZA-017326-2020

Hello,

I am writing in support of BZA-017326-2020.

I think it's a lovely-looking building that will provide much-needed subsidized housing mere steps from the red line, right on a major bus corridor. I know the area well; I live down the block, abutting the still-under-development Frost Terrace.

Although construction is always a little disruptive (perhaps more so right now, as so many of us are almost always at home), that is a much easier cost to bear than the huge rents we ask working families to bear every single day.

I would like to add that I think the parking planned for the building is entirely adequate, if not even excessive. The 42-unit apartment building I live in has 0 dedicated spots, and it works just fine. Additionally, our planet is warming by the day because of human emissions, causing destruction across the country and globe. Anything we can do to reduce emissions, including reducing parking and including solar, is a step in the right direction.

Please approve the permit,
Kelsey Harris
8 Newport Road

Subject: What did the Planning Board vote to recommend favorably to BZA on 12/1?

Dear Assistant City Manager Farooq and Commissioner Singanayagam,

I would like to call your attention to the Dec. 1 Planning Board (PB) hearing of the Board of Zoning Appeal (BZA) Comprehensive Case 2072 Mass Ave Project (2072 case). I would also like to beg your pardon for a rather lengthy email and ask your patience in reading it in its entirety. Then you will understand the subject line.

I should have known but I was surprised to find out that the PB hearings are now scheduled weekly which seems to be very aggressive given that the members are volunteers with full time jobs and families. I don't know how they could possibly read through all the material associated with complex agenda items such as the two cases on Dec. 1.

The 2072 CP case will have a profound impact not only on the Porter Square neighborhood but throughout the City as it sets very dangerous precedence going **well beyond even the limits of the recently ordained 100% Affordable Housing Amendment**. It was heard as a BZA Case and I would like to point out two major flaws in this hearing. To the PB's credit, I must thank them for allowing public comments albeit at a reduced time limit of 2 minutes. The public comment lasted about an hour but the debate and decision took less than half that.

In the past, it was my understanding that the public comments and developer's material have to be in by close of business the Thursday before the hearing. However, because the City offices were closed for Thanksgiving holiday, the comments were due by close of business on Wed (which PB couldn't have seen anyways since the offices were closed) with additional comments accepted on Monday through noon on the day of the hearing. Getting this submittal schedule was very difficult and I am sure the Board members didn't have adequate time to review all the comments we submitted. I want to thank the staff for their tireless work in assembling all the comments we sent in and getting them to the PB members.

In particular, I submitted a slide presentation package on behalf of the North Walden Neighbors to voice the **concerns for/by the senior and disabled residents of Russell Apt** and to make a case why the 2072 Mass Ave project **does not fit in that neighborhood**. We were very disappointed that we could not even make a request to pool our time to present the case more cohesively because we could not raise our hands.

But the most alarming flaw was that the Comprehensive Permit - 2072 Massachusetts Avenue - [Materials](#) in the Planning Board's Meeting table (<https://www.cambridgema.gov/CDD/zoninganddevelopment/planningboard/planningboardmeetings>) was a link to Comprehensive Permit Application received by the City Clerk on Nov 12 which stated: DIMENSIONAL INFORMATION Project Address; 2072 Massachusetts Avenue Building Height(s) (Ft) - REQUESTED CONDITIONS 8 Stories/ appx 89'·8". There was no updated material available and the new design of 9 stories/102 ft. facing Mass Ave and 6 stories facing Walden neighborhood was presented to the PB and the staff only at the hearing. This would mean that all the [CDD, TP+T, DPW Staff Memos](#) were based on the old design. The hearing should have been called off since the developer team did not submit the most up to date material in time. Once again, we could not raise point of order as we could not raise our hands.

One of the PB members said that the height of the building is not much taller than other buildings near the proposed site including the Henderson Carriage House. Perhaps he was referring to the 8 story original design. The only other building taller than 100 ft. that I am aware of near 2072 Mass Ave is 2373 Mass Ave which is 0.5 mile north of 2072 Mass Ave. Please see the attached height map as an excel spreadsheet with graphical representation of heights of various buildings we have used for comparison

In view of the failure of CC HRE to submit the revised application to the City Clerk to be distributed to the PB and BZA, there is a serious question as well as legal implications as to what the Planning Board had voted unanimously (with one absentee) to recommend favorably to the BZA. Therefore, I beg you to reschedule the Dec. 10 BZA hearing of this case and direct the applicant, CC HRE, to submit revised documents in accordance with established data submittal guidelines, not presenting them at the hearing. Furthermore, PB should rehear this case after all the City had the time to review the revised documents and resubmit their updated memos and the public and PB members had adequate time to review the material.

Going one step further, a project that exceeds the threshold of Article 19 Project Review Special Permit by the PB by more than factor of 2.5 (57391 sq. ft, living space waiver requested for 20,000 sq. ft. threshold) should NOT be granted a waiver even for a "friendly 40B". If this waiver is granted for this project, I shudder to think where this will lead to.

Thank you very much for your attention to this matter and looking forward to your response

Respectfully yours,

Young Kim

Subject: CASE NO. BZA-017326-2020 - 2072 Mass. Ave. Proposed Development
Attachments: 2072 Mass Ave Objectives v3.pdf

To the Cambridge Board of Zoning Appeals:

We, the undersigned, all Cambridge residents who live in close proximity to the intersection of Mass. Ave. and Walden Street, are writing to you in regard to the Proposed Development of 2072 Mass. Ave. CASE NO. BZA-017326-2020. The signatories to this letter represent a broad coalition of the North Walden Neighbors leadership team, neighbors from Creighton Street, and the Russell Apartments. We are long-term neighborhood residents, homeowners, and affordable housing residents.

We welcome affordable housing in our community.

We are supportive of the 2072 Mass. Ave. site being developed for affordable housing and applaud the mission of developers who build affordable housing units in Cambridge. There is an urgent need in Cambridge for affordable housing and we are committed to helping the City further this mission.

But the project is fundamentally flawed.

SIZE: We have significant concerns about the height, density, and footprint of the proposed building, particularly in light of the small lot size (8,514 square feet), the lack of setback, the community context, and the dangerous, congested intersection that is the corner on which this site is located. The building is dramatically out of scale given the lot size and context of the neighboring structures.

TRAFFIC: We have experienced, especially pre-pandemic, safety issues that exist for pedestrians, bicyclists, and vehicles at this corner and in the surrounding streets. The City is well aware of these issues, having hosted a community meeting in February 2020 to listen to neighborhood concerns during which the City voiced a commitment to solve these issues. Additionally, there is a plan by Capstone to widen Walden leading into the corner. However, there is no scientific evidence that traffic and safety will be improved due to the extra width. There has been no objective, comprehensive study of the actual traffic measures to accommodate this project.

VULNERABLE ABUTTERS: Finally, and importantly, the proposed building directly abuts Russell Apartments, an affordable housing community of vulnerable residents including seniors and people with disabilities; and also houses the North Cambridge Senior Center. Having this vulnerable population next door creates additional challenges that must be considered to protect the health and well-being of these residents. The City has not incorporated appropriate measures to safeguard one of the area's most precious, valued, and respected City institutions.

We believe these important issues have not been adequately addressed to date, and the community consultation around this project has been incomplete and rushed (many nearby residents are only

now finding out about the proposed development). As a result, community members have strong concerns and opposition to certain aspects of the project plans which the Board of Zoning Appeals (BZA) will consider in its December 10 meeting.

We request that the BZA require a Project Review, as required by Zoning Ordinance Article 19, to allow sufficient analysis, consultation and co-design of the project plans to benefit both new residents and the existing neighborhood.

Every great urban project requires careful planning and coordination.

The attached Objectives Document outlines our specific requests. These objectives, once acted upon, will help mitigate the safety issues related to the location and size of the proposed development.

We urge the BZA to require adequate review of this project. We look forward to working cooperatively with the City of Cambridge and Capstone Communities to ensure that the development is a true win-win for the new residents who will live there, as well as the larger community.

Respectfully yours,

Objectives: 2072 Mass Ave Proposed Development

**Representing Consensus of North Walden Neighbors Leadership and Representatives from
Creighton Street and Russell Apartments**

1. TRAFFIC / PARKING

Require full compliance with Article 19 of Zoning Ordinance, specifically:

- **Project Review Special Permit (19.20): Traffic Impact Review and Urban Design Review**

- **Citywide Urban Design Objectives (19.30)**
responsive to the existing or anticipated pattern of development
pedestrian and bicycle-friendly, with a positive relationship to its surroundings
mitigate adverse environmental impacts of a development upon its neighbors
enhance the urban aspects of Cambridge as it has developed historically.
Enhancement and expansion of open space amenities in the city

- **Development Consultation Procedures (19.40) to provide**
“the opportunity for City staff and the general public (1) to review and comment on
development proposals prior to the formulation of final plans and before the issuance of a
building permit and (2) to determine compliance with the zoning requirements” and conduct
Large Project Review

Provide at least 0.5 offsite and/or onsite parking spaces per unit

- **Mitigate the significant impact on streets in the immediate area**
- **Provide specifics as to location to be determined by the above requested Traffic Impact Review**

2. SIZE OF BUILDING

Reduce building size

- **Reduce Mass Ave-facing height to 6 stories in accordance with the Affordable Housing Overlay provisions for building height and with input from the Project Review conducted under Article 19**
- **Reduce the Walden side of the building to 3 stories to reduce impacts on Russell Apartments and 5 Walden as well as other adjoining neighbors**

Reduce building footprint to allow setbacks and provide green space

- **Setbacks per zoning ordinance: 10' on Walden St and to City parking lot**
- **Developer provides detailed professional landscape plan before construction**
- **Green space to protect Russell Apartment residents and North Cambridge Senior Center visitors**

Change composition of units to serve neediest families

- Increase the percentage of units for the lowest income families from 16% to 25%

3. CONSTRUCTION MITIGATION

Develop a construction mitigation plan with abutters to include:

- On-site rep with cell phone who can respond immediately to resident concerns
- Community liaison and regular communication
- Community review of construction staging and construction schedule
- Provide parking for project workers
- Noise abatement
- Provide air conditioners and air filters for Russell Apartment residents and payment for extra electricity, to shield residents from construction dust and fumes
- No work on weekends
- Compensation plan for any and all damage to surrounding structures
- Compensation for residents who will be moved
- Sound-proofing windows and other sound-proofing mitigation measures as needed for abutting properties
- Third-party safety supervisor
- Conformity to demolition and construction regulations
- No smoking on site
- Plan for rats and rodent control
- Clean site at end of work day

4. COMMUNITY AMENITIES

Provide additional safety measures and neighborhood enhancements to include:

- Traffic calming on Walden St., Mead St., and Cogswell Ave.
- Street improvements for Walden, Cogswell, Sycamore, Cypress, and King: repaving, sidewalk maintenance, trees
- Green median and trees on Mass Ave from Regent to Rindge
- Crosswalk and traffic box at the end of Cogswell and Mass Ave
- Added services for elderly in Russell Apartments and Senior Center
- Improvements to permit parking lot on Walden Street, such as repaving with arable top, gardening plots at borders, stacked wall of solar panels, bike rack, and electric power charging stations

Re: 2072 Massachusetts Avenue Comprehensive Permit

Dear Members of the Planning Board,

This letter is written on behalf of Creighton Street residents regarding the proposed development at 2072 Massachusetts Avenue. Creighton Street is located one block southeast of the development site.

First, to be clear, we are unanimous in our strong support of affordable housing on the proposed site. We are heartened that it is 100% affordable, appreciate many aspects of the design, and believe in the good will of the developers. Our concerns are strictly a question of scale and the resulting impact to residents of the area. We appreciate that some zoning restrictions may on occasion need to be relaxed in the interest of providing housing access, and also appreciate the need for due diligence in making intelligent choices and exceptions. These building decisions are not reversible.

This communication is focused on parking issues. Other issues, addressed in concert with the North Walden Neighbors group, also have the support of many Creighton residents.

Our objective with this letter is to see provision made for resident vehicle parking. We understand that zoning specifies a 1.0 space per unit requirement for new construction, but we accept the developers' estimates of the number of resident vehicles, which would limit the need to .5 space per unit. We believe that a parking solution can be found without jeopardizing the project.

Below is our reasoning regarding the parking issues.

We understand that Article 19 of the Zoning Ordinance was not strictly followed, and we believe that the parking study commissioned by Capstone was insufficient in the following areas:

- It was limited to a census count of available spaces on a single day during the pandemic, which does not reflect an average situation, or post-pandemic realities.
- It did not take into account unique geographical considerations of the adjacent dead-end streets: Creighton Street, Regent Street, and Porter Road (see details below).
- The study's count differs from that taken by a resident on the same date and time (October 20 at 6:00 p.m.); the study showed 8 spaces while the resident counted only 4.
- The resident conducted a count showing 5 out of 10 mornings with no spaces available (reflecting the lack of overnight capacity).

Other relevant issues:

Creighton Street (along with Regent Street and Porter Road) challenges:

- It is a single block long, only one lane, and is bounded by the commuter rail tracks; if parking can't be found, one can't just continue to the next street, but rather has to either back out or turn around to exit Creighton.

- It is used for commercial parking by those visiting stores and restaurants on Mass Ave.
- It has traffic issues with those looking for parking or reversing direction on Mass Ave, then traveling the length of the street and turning around in driveways or at the end of the street.

Creighton Street is a logical first place for residents of the new construction to seek parking:

- It is the next street closest to the building and the easiest to access coming from Walden or Massachusetts Ave.
- Residents will likely prefer not to cross the busy Walden/Massachusetts Avenue intersection.
- Creighton Street will fill up every day, with spillover filling up Regent Street and Porter Road.
- Regardless of whether the developers count is correct, all available spaces would be filled by the, possibly underestimated, 25 building residents with cars.

Capacity:

- Historically, Creighton Street has had very few to no spaces in the evenings. Currently, two 3-family homes have been vacant while undergoing renovations, so there has been less of a challenge.
- Prior to these homes being vacant, residents had difficulty parking upon return from work or going out in the evening, on street cleaning days, and when accumulated snow reduced the number of spaces.

Being able to park is a quality of life issue:

- Creighton Street has a high number of senior residents and families with young children; parking blocks away from home is not reasonable.
- If no parking is available on Creighton and the next 2 streets, residents will have to drive at least ½ mile in a circle to get back to the neighborhood, due to the layout of dead-end streets.
- Many residents commute to job locations that are not accessible by public transportation and senior residents with mobility issues rely on cars.

The developers have researched onsite parking stackers and have determined that they can accommodate 11 cars onsite at 2072 Mass Ave; they are also willing to lease off-site parking spaces.

We believe that we can work together to make this project an outstanding success, that much needed housing can be provided without impacting the quality of life for those on Creighton Street and in the neighborhood.

Sincerely,

Ailish Keating

To: Pacheco, Maria
Subject: dangerous project--action needed

Dear Maria Pacheco, Board of Zoning Appeals:

Please help avoid more deaths and accidents at the notoriously dangerous intersection of Mass Ave and Walden St in North Cambridge.

As you know, an affordable housing high-rise--to house many children--has been proposed for 2072 Mass Ave at this corner. **And no Traffic Impact Study has been done.** Without any evidence, the developers claim their widening of Walden St will solve the problem.

Please help ensure that the Zoning Board of Appeals, meeting on Dec. 10, honors Article 19 and requires a full Traffic Impact Review and Study.

Also, the proposed looming project abuts (only 4 feet away) the Russell affordable housing apartments for seniors/disabled and the North Cambridge Senior Center. The safety (and access to sunshine) of us seniors must be taken into account. Again, please enforce all provisions of Article 19.

Many, many, many Cambridge neighbors and commuters are concerned about this issue.

Thank you, A.M. Kubilius (close neighbor at 21 Cogswell Ave)

PS: Our North Cambridge Neighbor group's petition for action from the BZA/city government has already been signed by over 200--and counting.

Re: 2072 Massachusetts Avenue Comprehensive Permit—CASE NO. BZA-017326-2020

Dear Members of the Zoning Board,

I write to you on behalf of the 5 Walden Street Condominium Association to raise concerns about the height of the proposed development at 2072 Massachusetts Avenue as it meets the residential buildings of Walden Street. We are direct abutters to the development site, located immediately across Walden Street. Although we support the many positive impacts of the project, we strongly urge the Zoning Board to require that the development team reduce the height of the building along the Walden portion from the proposed six-stories by at least one-story as a condition of approval.

The proposed six-story portion along Walden abruptly meets the surrounding low-lying residential buildings and narrow public way, negatively impacting the transition from Mass Ave to Walden, both at ground level and from a distance. We refer to the following:

- The existing adjacent buildings along Walden (5 and 14 Walden) are three and two stories (approximately 32 and 25 feet tall respectively). The six-story (~70 ft) portion is greater than double the height of the neighboring residential buildings (figs. 1 & 2)
- The width of the Walden public way is 40 feet, less than half the width of Mass Ave (98 feet). The narrow width will further contribute to the perception of excess height along Walden (figs. 1 & 2).
- From a distance (corner of Mead and Walden), the six-story portion exceeds the top of the tree canopy, contributing to the perception of excessive bulk and reinforcing the insufficient transition from Mass Ave to Walden.

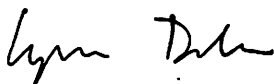

To date there has been little attention given to the urban design of the six-story portion of the building. The CDD memo dated November 25, 2020 places due emphasis on the positive urban design impact of the development on Mass Ave, but offers few details on how the building addresses the adjoining Walden context. Similarly focused, the discussion of the Planning Board at last week's public hearing failed to scrutinize the proposal's dimensional relationships to Walden and the scale of the surrounding two and three-story buildings.

The negative impacts of the six-story portion of the proposal can be remedied with modest changes to the height. A reduction of one floor (~11 ft) would result in two fewer units; a reduction of two floors (~22 ft) would result in four fewer units. Reducing the six-story portion by one or two floors would not require a wholesale redesign of the project, nor would it require the dramatic reductions to the overall unit count associated with a building designed in accordance with the Affordable Housing Overlay. This more substantial step-down from Mass Ave would have a positive and permanent impact for all who visit and use Walden on a daily basis (including the future residents of the proposed development).

We support the many positive aspects of the project: the major contribution to affordable housing stock, widening of Walden to accommodate three lanes of traffic, the two foot easement along Walden, sustainability goals, and the major contributions to the Mass Ave streetscape. We are grateful for the professionalism with which the development team has engaged our group and look forward to continue working with them toward a project that addresses the scale of the Walden neighborhood.

We urge the Zoning Board to employ their expertise to evaluate the project as it meets Walden and to exercise their authority to compel the development team to reduce the height of the six-story portion to address the low-lying residential scale of the immediate surroundings. This pragmatic revision would improve the urban design of the project and restore faith in the public review process.

Sincerely,

Cyrus Dochow

Subject: BZA Case No. 017326-2020 - 2072 Mass Avenue Permit

December 7, 2020

Zoning Board of Appeal
Inspectional Services - Zoning
831 Massachusetts Avenue
Cambridge, MA 02139

To the Members of the Zoning Board:

I am writing to reiterate my support for the letter written by architect and trustee Cyrus Dochow on behalf of the 5 Walden Street Condominium Association in regards to the 2072 Massachusetts Avenue project. Although his suggested proposal of altering the Walden Street height would diminish the intended number of affordable units from 49 to 47 or 45 units in a time of dire need, I compel you to give it full your attention.

While this proposal does not satisfy the needs of all, it is intended, on balance, as a compromise in the interests of the common good. Importantly too, it would foster a more positive relationship between the CDD, the developers and the members of our neighborhood, and in turn, all citizens of Cambridge.

I encourage the Zoning Board to give this proposal serious scrutiny and hope you will see it for what it is - a practical and elegant solution to a complex problem in urban planning and design.

Sincerely,

Marie Stroud

Subject: To the City of Cambridge and its Agencies

Dear all,

I'm a very long term resident - we moved here when I was 12 in 1953. I have lived in many of Cambridge's neighborhoods but for the last 30-plus years have lived at 6 Cypress Street, a cul-de-sac off Walden Street between Mass. Ave and the railroad bridge. My son and daughter grew up here, and felt the neighborliness and safety of the block.

I love it here. I love my neighbors, I love the community, I love walking in our diverse streets and taking in minute changes as the seasons go by - even in Covid-19 time, it is a place of peace and comfort.

That comfort is about to be seriously damaged, and for the rest of my life here. The project to build a 9-story building on the corner of Mass. Ave and Walden is a dramatic slap in the face to the neighborhood. We all want affordable housing - and are very hurt when promoters of the project choose to call us NIMBYs or elitists or even, a few times, racists. We want it, and we want it here but we want it in context.

My concerns are many and you will have heard them from other neighbors too. I am worried about the density and height of the building, concerned that the building is planned to go right to the edge of the plot without set-backs. I just took a walk around the neighborhood as I do every day, and at sunset came to the top of the railroad bridge and saw the sun hit the Henderson Carriage Building on Mass. Ave, illuminating brightly the red brick against the darkening sky. Wow. And I realized, if that building goes up, it will block that view.

A view is not the most important thing in the world but it stands for an imposition, a dangerous one too in this case as the traffic on Walden, now a speeding thoroughfare from West Cambridge to Mass Ave - except at rush hour when it stalls back to Huron - is dangerous and has been investigated and found to be so by the City. The corner at Mass Ave will, I hear, be given some "relief" in the form of a few feet more to make the lanes larger - but only for the length of the proposed building - not going farther back which of course is impossible.

I am also seriously concerned for the residents of Russell Apartments, adjoining the proposed building with only three-four feet between them. The residents recently returned after about two years of absence while their building was remodeled and now, many will be forced to leave again or suffer noise and dust and worse. And when it is done, lose the little sunlight they have in their small patio and garden in the rear, the only place of outdoor recreation for many in the building.

I understand that the project is requesting up to 18 waivers of building code and other "exemptions" to regulations usually required. One is a Project Review which I would strongly recommend, before the whole project advances. In a recent Planning Board meeting, I and my attending neighbors felt unheard as we requested this and other measures to make the building and the neighborhood fit - and safe. There is much more to say, but above all, please consider closer coordination with those who will experience a great impact from the building's construction, its neighbors.

I look forward to hearing from, and to working with, you. Thank you for your consideration.

Sincerely,

Merry White

Subject: Support for 2072 Mass Ave

Dear Ms. Pacheco,

I'm a Cambridge resident (I live at 120 Rindge Ave) and I'm writing to voice my support for the nearby 49-unit affordable housing project at 2072 Mass Ave. I have lived in Cambridge and Somerville for many years, and though I have off-street parking options now, I have never found myself unable to find parking. Instead, I find myself dismayed that my neighborhood is so economically unfriendly. Projects like this will make my community much stronger.

Thanks so much,
-Rosemary Mosco

Subject: Comments on the 2072 Mass. Ave. Project: CASE NO. BZA-017326-2020

December 7, 2020

Re: 2072 Mass. Ave. - CASE NO. BZA-017326-2020

Dear BZA Members:

If you haven't already, please be sure to listen to the comments of Dennis Carlone, which come near the end of the public comment portion of the video of the Planning Board review of this BZA Case. (Approx. -50 mins.)

[See: <https://cambridgema.iqm2.com/Citizens/SplitView.aspx?Mode=Video&MeetingID=2768&Format=Agenda>]

These comments were very good, I thought, and summarize well a body of good argument for a far more reasonable approach to permitting an appropriately scaled affordable housing project at 2072 Mass. Ave.

The zoning and planning documents for this part of Cambridge call for a building of significantly more modest height and scale. The desire to support affordable housing is real, and shared by neighbors, but should not "trump" all other important considerations at this location, which also, incidentally, will seriously affect the people who currently live in the affordable housing right next door at the Russell Apartments.

A building of 4 or 5 storeys in the rear, and an ample 6 or 7 storeys in the front along Mass. Ave. would be a significant and handsome building which would be future-looking in scale, fit better in this context and location, and be welcomed happily by neighbors and the neighborhood and community.

The applicant will still receive many advantages, e.g., Russell Apts. actually have 9 parking spaces for a similar number of units. (What will happen to their small, pleasant, rear patio?)

We can do significant affordable housing here we can feel good about without having to play, "Beggars their neighbors."

Thanks for being reasonable and just, to all.

Sincerely, James Williamson

Cambridge, MA 02139

Re: Comprehensive Permit Application for 2072 Mass Ave Apartments
2072 Massachusetts Avenue, Cambridge, MA

Dear Board of Zoning Appeal Members:

We are pleased to submit revised materials for the 2072 Mass Ave Comprehensive Permit Application. As you are aware, there was an error in the previously submitted plans which depicted the adjacent Russell Apartments, located at 2050 Mass Ave, as approximately 70' tall. The 2050 Mass Ave building is approximately 59' tall and all renderings, plans and materials herein have been updated to reflect the corrected height.

In addition, we utilized the past few weeks to explore a new 9-5 story plan that incorporates feedback from a direct abutter. The plans included herein depict nine (9) stories on Mass Ave and five (5) stories on Walden Street. This new proposal steps down to five stories (instead of previously six stories) where it abuts the rear residential neighborhood, provides for height along the Mass Ave corridor, and maintains a high number of overall affordable family apartments. In the context of this new proposal, we are hereby rescinding the previous 8-6 and 9-6 proposals and only request your consideration for this new 9-5 proposal. Below is the revised apartment mix.

1BR	2BR	3BR	Total
16	20	12	48
33%	42%	25%	67% Family

The project's design changes are as follows:

1. Lowered height of rear residential volume from six (6) stories to five (5) stories to step down the portion of the building facing the residential neighborhood;
2. Lowered height of parapet from 42" to 24" on 9 story portion of the building;
3. Removed four windows from the building's east façade facing the Russell Apartments to provide greater privacy to Russell residents; and,
4. Reduced the size of the 5th floor roof terrace and maturity of landscaping to lessen the structural impact while still providing residents with outdoor space.

Additionally, we released the updated plan package on March 12, 2021 on the project's website at www.2072massaveapts.com (that are the same as the plans included herein), and hosted a community meeting on March 30, 2021 to answer questions about the proposal. A recording of the full community meeting along with the presentation and other materials are also posted on the project's website.

The following plans and materials dated April 14, 2021 (unless otherwise noted) reflecting these changes are included herein. These plans and materials replace (or supplement where applicable) the plans and materials submitted on December 3, 2020.

1. Plans

Cover Page, G-100, G-101, EC (10/5/20), C-100, C-101, A-100, A-101, A-102, A-106, A-107, A-108, A-300, A-301, A-302, A-303, A-304, A-305, A-306, A-307, A-308, A-309, A-310, A-400, A-401, A-402

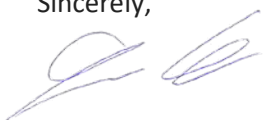

2. Dimensional Information dated April 14, 2021

3. List of Requested Exemptions/Waivers from the Applicable City of Cambridge Ordinances and Regulations

4. Shadow Studies

We look forward to presenting these plans to you at our May 20th hearing. Please contact Sean Hope at (617) 953-8369 if you have any comments.

Sincerely,

Jason Korb

- (a) Lot is located on a corner. Project team assumed two front and side yards with no rear yard.
- (b) Accessible parking requirement rounded up under UFAS (required for Section 504) to three (3) spaces.
- (c) Commercial Parking is waived under Article 6.36 based on actual quantity required being below four (4) required spots.
- (d) Garage and bicycle parking exempt from calculation.
- (e) Project team pursuing public contribution approach for short-term bicycle parking per Article 6.104.2 (b).
- (f) Along with other future possible uses as described on the Waiver List.
- (g) ~1,013 SF of the total lot area is in Residence B, with the remainder in BA-2.
- (h) Total GFA includes the addition of roof area (2,015 sf) on the 5th floor roof at the south end of the building
- (i) 9 stories reference front volume along Mass Ave and front end of Walden St, 6 stories reference rear volume towards rear of lot along Walden St facing neighborhood.
- (j) Building is sited to align with building next door which is right on the sidewalk.
- (l) Along Walden Street for the length of the proposed building at the ground floor, Owners are granting City of Cambridge an easement.
- (m) Not of record at 5th floor roof will contain combination of occupiable area and unoccupiable/maintenance area.

**LIST OF REQUESTED EXEMPTIONS/
EXCEPTIONS/WAIVERS FROM THE APPLICABLE
CITY OF CAMBRIDGE ORDINANCES AND REGULATIONS
for CC HRE 2072 MASS AVE TENANT LLC
9:5 Story Option
(Updated as of April 14, 2021)**

CAMBRIDGE ZONING ORDINANCE – CHAPTER 17 OF MUNICIPAL CODE

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
1.	§ 4.30 Table of Use Regulations and §4.31(g)	Multifamily dwelling is Prohibited in Residence B Zoning District.	The Applicant seeks zoning relief to allow the proposed Multifamily Development.
2.	§ 4.21 Special Classification Rules (Accessory Uses)	Allowed accessory uses include, inter alia, off-street parking, customary home occupations and certain service establishments and eating establishments for residents of multi-family dwellings.	To the extent that the proposed building amenity uses are not enumerated in Section 4.21, the Applicant seeks zoning relief to allow the proposed amenity uses for the building occupants.
4.	§ 5.11 Development Standards – General Regulations	No building or structure shall be built nor shall any existing building or structure be enlarged which does not conform to the regulations as to maximum ratio of floor area and lot areas, minimum lot sizes, minimum lot area for each dwelling unit or equivalent, minimum lot width, minimum dimensions of front, side and rear yards and maximum height of structures.	The Applicant seeks zoning relief to allow the proposed Multifamily Development as shown on the Plans. Specific requests are set forth below. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
5.	§ 5.22.1 and § 5.22.3; §5.31 and Table 5-1 - Table of Dimensional Requirements – Residential Districts	Private open space shall be provided and shall be a percentage of the lot area as set forth in Section 5.31. An area designated as private open space must have both a width and a length of at least 15', except for balconies, and may not have a slope greater than 10%. With the exception of balcony areas, private open space shall be accessible to all occupants of a building; not less than ½ of the required private open space shall be provided at ground level or within 10' of the level of the lowest floor used for residential purposes. In the Residence B Zoning District, at least 50% of the required Private open space shall meet all of the requirements of Section 5.22.1. At least 50% of the required Private open space shall meet the definition of Permeable Open Space and shall not be subject to the dimensional limitations of Section 5.22.1 as applied to Private open space.	The Applicant seeks zoning relief to allow the proposed Multifamily Development as shown on the Plans. The proposed private open space has a width and length of less than 15', as shown on the Plans. All private open space is located at ground level. At least 50% of the provided private open space will be Permeable Open Space (as shown on the Plans); however, as described above, the proposed Multifamily Development does not meet the required private open space requirement. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
6.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Maximum Ratio of Floor Area to Lot Area = 1.0 for Non-residential Uses and 1.75 for Residential Uses.</p> <p>Residence B Maximum Ratio of Floor Area to Lot Area is .50.</p> <p>For those portions of any lot exceeding 5,000 sf, the applicable Maximum Ratio of Floor Area to Lot Area shall be 0.35 for all permitted residential uses.</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The existing Ratio of Floor Area to Lot Area is approximately 0.22 and the proposed Ratio of Floor Area to Lot Area is approximately 6.68.
7.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Minimum Lot Area for Each Dwelling Unit = 600 sf. Per dwelling unit.</p> <p>Residence B Minimum Lot Area for Each Dwelling Unit = 2,500 per dwelling unit.</p> <p>For those portions of any lot exceeding 5,000 sf, the applicable Minimum Lot Area for Each Dwelling Unit shall be 4,000 sf.</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The proposed 48 dwelling units cannot comply with the Minimum Lot Area for Each Dwelling Unit requirement.
8.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Minimum Front Yard = 5'</p> <p>Residence B Minimum Front Yard = 15'</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The smallest existing front yard setback is approximately 0'; the smallest proposed front yard setback will be approximately 0'.
9.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Minimum Side Yard = 10' on both side yards.</p> <p>Residence B Minimum Side Yard = 7'6" (sum of 20).</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The smallest existing side yard setback is approximately 42.4'; the smallest proposed side yard setback will be approximately 0'.
10.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Maximum Height = 45'</p> <p>Residence B Maximum Height = 35'</p>	Due to the need for a building height of approximately 102'9 stories on Mass Ave and 60'5 stories on Walden and considering the adjustments that may occur during development of the plans and drawings from design development to full construction drawings, the Applicant seeks a waiver of the height requirement not less than 60' and not greater than 102'.
11.	§6.36.1 – Schedule of Parking and Loading Requirements	<p>In Business A-2 District, there is a one parking space per dwelling requirement.</p> <p>In Residence B district, multifamily dwellings are not allowed; therefore, Section 6.36.1(g) states that there is no applicable requirement for off-street parking for multifamily dwellings in the Residence B district.</p>	<p>Although there is no technical requirement for off-street parking in the Residence B district for a multifamily use, the Applicant seeks a waiver to allow the proposed Multifamily Dwelling with three (3) proposed accessible off-street parking spaces and two (2) drop off spaces as shown on the Plans.</p> <p>A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.</p>

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
12.	§6.42 – Design and Maintenance of Off-Street Parking Facilities – Dimensions for Off-Street Parking Spaces	Dimensions for off street parking spaces. Aisle Width of 22’ required.	To waive the requirement for a dimensional variance and to allow the proposed Multifamily Development as shown on the Plans. The proposed dimension of parking spaces shall be less than minimum required aisle width will be less than the required 22’.
13.	§6.43.4(c) – Design and Maintenance of Off-Street Parking Facilities – Driveways	Grade and design of driveway shall provide a clear view to the driver of any car exiting from the facility, or traffic on the street and of pedestrians.	Due to constraints of the driveway location and building, the clear view from the proposed driveway to Massachusetts Avenue when looking south may be compromised. The Applicant requests a waiver from the requirement for a variance and to allow the proposed Multifamily Development as shown on the Plans.
14.	Article 19 – Project Review	Establishes traffic and urban design standards for development projects exceeding 20,000 gross square feet that are likely to have a significant impact on abutting properties and the surrounding urban environment. Requirements include a Special Permit from the Planning Board including Traffic Impact Review (including a Traffic Impact Study), Urban Design Review, Tree Study, Sewer Service Infrastructure Review, Water Service Infrastructure Review, Noise Mitigation Review, Citywide Advisory Development Consultation and specific building and site plan elements.	To waive all of the applicable Article 19 requirements for a Planning Board Special Permit and other requirements and to allow the proposed Multifamily Development that exceeds 20,000 gross square feet. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
15.	§20.100 Massachusetts Avenue Overlay District	Contains specific requirements for projects located within the Massachusetts Avenue Overlay District, including use regulations, dimensional requirements, and design standards. Projects are also required to comply with the Large Project Review process.	To waive all of the applicable requirements of Section 20.100 without the need for a Planning Board Special Permit and to allow the proposed Multifamily Dwelling without a Special Permit from the Planning Board. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

MUNICIPAL CODE

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers and Notes</u>
1.	Chapter 12.04.020 - Street Numbers	The City Council shall assign numbers to houses.	To waive the requirements of this provision of the Municipal Code so that no separate approval is required from the City Council. To allow the Board of Zoning Appeals to delegate the task of assigning house number(s) for the proposed Multifamily Development to the Building Department, to be completed prior to issuance of Certificates of Occupancy. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
2.	Chapter 12.12.010 - Curb Cut	The City Council shall approve the Curb Cut modification to support the proposed multifamily development as shown on the plans.	To waive the requirements of this provision of the Municipal Code so that no separate approval is required from the Superintendent of Streets and/or the City Council for the modification to the curb cut on Walden Street as shown on the Plans. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

Subject: 2072 Mass. Ave. – CASE NO. BZA-017326-2020
Attachments: email to Commissioner Rajit et al.pdf; 2072 Mass Ave AHD Submit.pdf

Dear Chairman Alexander and Members of Board of Zoning Appeal:

I am a long time resident of North Cambridge and I am writing in opposition to Case No. BZA-017326-2020 2072 Mass Ave. Comprehensive Permit application by CC HRE 2072 MASS AVE TENANT LLC (CC HRE). I submit to you the attached presentation package to present our case on behalf of North Walden Neighbors, a neighborhood group with more than 220 people, many in close proximity to the proposed site, who have signed on with concerns (petition was submitted to you via separate email).

I am also attaching the email I sent to Assistant City Manager Farooq and Commissioner Singanayagam asking them to reschedule the Dec. 10 BZA hearing of this case and direct the applicant, CC HRE, to submit revised documents to the Planning Board (PB) in accordance with established data submittal guidelines. I requested that PB should rehear this case after all the City had the time to review the revised documents and resubmit their updated memos and the public and PB members had adequate time to review the matter. Finally, I urged that a project that exceeds the threshold of **Article 19 Project Review Special Permit** by the PB by more than factor of 2.5 (57391 sq. ft, living space waiver requested for the 20,000 sq. ft. threshold) **should NOT be granted a waiver** even for a "friendly 40B". If this waiver is granted for this project, I shudder to think where this will lead to. I discussed this email with Commissioner Singanayagam today, 12/7/2020, and he assured me that he will make sure the Board will receive a copy of it.

I would like to request that you **do not accept the PB's favorable recommendation** because the CC HRE plans that were presented at the 12/1/2020 PB hearing was not what they had submitted for the hearing; rather, it was a modified version for which they had not provided any supplemental data before the hearing. So, the plan on record for that hearing was the original 8 story building whereas the case before you is the amended version of 9 story facing Mass Ave with 6 story facing Walden neighborhood. What guarantee does anyone have, including yourselves, that there aren't any new changes since the PB hearing? If you let the PB recommendation stand, you will be setting a dangerous precedence of allowing developers to present conflicting, undocumented changes to their application material to PB and BZA hearings and other agencies per requirements of 40b Comprehensive Permit regulations. Clearly, the developer is rushing this process and creating confusion for everyone involved and may lead to lasting unforeseen/unintended consequences to the community.

I would also like to ask you to consider a fundamental question of **the motive behind this application**. If it is purely to **provide critically needed affordable housing**, which I do not deny, then why wouldn't CC HRE work with the community and City to design a building that will meet that demand at the same time satisfy the needs of the community around 2072 Mass Ave? Why is 49 the magic number of units? Certainly, this project alone will not solve the need, so why is CC HRE so adamant about the number of units? Too, the city of Cambridge has already met a 10% threshold for affordable housing, so the 40b Comprehensive Permitting policy is not to be automatically granted without careful consideration. When CC HRE agreed to lower the western section of the building to 6 stories at the request from some of the neighboring property owners, they compensated that by raising the eastern section to 9 stories in order to keep the number of the units the same.

There must be a reason to keep the number of units to 49. Is that driven by their financial viability and if so is that worth sacrificing the needs of the community that includes the senior and disabled residents of Cambridge Housing Authority's Russell Apartments? Why must the residents of this neighborhood have to bear the brunt of this proposed 100% affordable housing development for the sake of developer's financial viability when Frost Terrace, the same CC HRE is building only ½ mile south of this site, is so much less dense with plenty of open space, and only 5 stories high that blends far better into the surrounding neighborhood rather than sticking out like a sore thumb? And when there are already 133 affordable housing units with 128,091 square feet of living space with average Floor Area Ratio (FAR) of 2.14 within ½ mile of Porter Square along or just off of Mass Ave. The proposed 2072 project will add 49 more units, a 36.8% increase, at a FAR of 6.74, more than triple the FAR of existing AHUs.

I implore you to continue this case until CC HRE works out a compromise plan with the community that will satisfy our valid concerns, and send this application back to the PB for a full Project Review in accordance with Article 19 in conjunction with any and all related parking and traffic issues as described in the Zoning Ordinance.

Thank you for your kind attention,

Respectfully
Young Kim

Dear Assistant City Manager Farooq and Commissioner Singanayagam,

I would like to call your attention to the Dec. 1 Planning Board (PB) hearing of the Board of Zoning Appeal (BZA) Comprehensive Case 2072 Mass Ave Project (2072 case). I would also like to beg your pardon for a rather lengthy email and ask your patience in reading it in its entirety. Then you will understand the subject line.

I should have known but I was surprised to find out that the PB hearings are now scheduled weekly which seems to be very aggressive given that the members are volunteers with full time jobs and families. I don't know how they could possibly read through all the material associated with complex agenda items such as the two cases on Dec. 1.

The 2072 CP case will have a profound impact not only on the Porter Square neighborhood but throughout the City as it sets very dangerous precedence going well beyond even the limits of the recently ordained 100% Affordable Housing Amendment. It was heard as a BZA Case and I would like to point out two major flaws in this hearing. To the PB's credit, I must thank them for allowing public comments albeit at a reduced time limit of 2 minutes. The public comment lasted about an hour but the debate and decision took less than half that.

In the past, it was my understanding that the public comments and developer's material have to be in by close of business the Thursday before the hearing. However, because the City offices were closed for Thanksgiving holiday, the comments were due by close of business on Wed (which PB couldn't have seen anyways since the offices were closed) with additional comments accepted on Monday through noon on the day of the hearing. Getting this submittal schedule was very difficult and I am sure the Board members didn't have adequate time to review all the comments we submitted. I want to thank the staff for their tireless work in assembling all the comments we sent in and getting them to the PB members.

In particular, I submitted a slide presentation package on behalf of the North Walden Neighbors to voice the concerns for/by the senior and disabled residents of Russell Apt and to make a case why the 2072 Mass Ave project does not fit in that neighborhood. We were very disappointed that we could not even make a request to pool our time to present the case more cohesively because we could not raise our hands.

But the most alarming flaw was that the Comprehensive Permit - 2072 Massachusetts Avenue - [Materials](#) in the Planning Board's Meeting table (<https://www.cambridgema.gov/CDD/zoninganddevelopment/planningboard/planningboardmeetings>) was a link to Comprehensive Permit Application received by the City Clerk on Nov 12 which stated: DIMENSIONAL INFORMATION Project Address; 2072 Massachusetts Avenue Building Height(s) (Ft) - REQUESTED CONDITIONS 8 Stories/ appx 89'-8". There was no updated material available and the new design of 9 stories/102 ft. facing Mass Ave and 6 stories facing Walden neighborhood was presented to the PB and the staff only at the hearing. This would mean that all the [CDD](#), [TP+T](#), [DPW Staff Memos](#) were based on the old design. The hearing should have been called off since the developer team did not submit the most up to date material in time. Once again, we could not raise point of order as we could not raise our hands.

<https://mail.google.com/mail/u/0?ik=26c2602198&view=pt&search=all&permmsgid=msg-a%3Ar-7590175528614077799&siml=msg-a%3Ar-7590175528614077799>

1/2

12/7/2020

Gmail - What did the Planning Board vote to recommend favorably to BZA on 12/1?

One of the PB members said that the height of the building is not much taller than other buildings near the proposed site including the Henderson Carriage House. Perhaps he was referring to the 8 story original design. The only other building taller than 100 ft. that I am aware of near 2072 Mass Ave is 2373 Mass Ave which is 0.5 mile north of 2072 Mass Ave. Please see the attached height map as an excel spreadsheet with graphical representation of heights of various buildings we have used for comparison

In view of the failure of CC HRE to submit the revised application to the City Clerk to be distributed to the PB and BZA, there is a serious question as well as legal implications as to what the Planning Board had voted unanimously (with one absentee) to recommend favorably to the BZA. Therefore, I beg you to reschedule the Dec. 10 BZA hearing of this case and direct the applicant, CC HRE, to submit revised documents in accordance with established data submittal guidelines, not presenting them at the hearing. Furthermore, PB should rehear this case after all the City had the time to review the revised documents and resubmit their updated memos and the public and PB members had adequate time to review the material.

Going one step further, a project that exceeds the threshold of Article 19 Project Review Special Permit by the PB by more than factor of 2.5 (57391 sq. ft. living space waiver requested for 20,000 sq. ft. threshold) should NOT be granted a waiver even for a "friendly 40B". If this waiver is granted for this project, I shudder to think where this will lead to.

Thank you very much for your attention to this matter and looking forward to your response

Respectfully yours,

Young Kim

Proposed 2072 Mass Ave Development

By many metrics including height, density, and footprint, this building is not suited to be on a small lot next to dangerous, congested intersection

- 102 Feet high – jarring drop to one story building next block
- ~150-200 occupants
- No set back from dangerous intersection
- No Green Area Open Space
- Infringes on quality of life for seniors and disabled residents at Russell Apartments

ELEVATIONS North | View from Mass Ave

Brainerd Callahan Architects HRE

Walden St.
depiction not
to scale; will
be narrower

Purpose

- Illustrate that proposed project is too high and dense in this neighborhood and that the parking study performed by Vanasse & Associates on behalf of Capstone Communities HRE is insufficient in that it did not measure the proposed development's traffic and safety-related impact on the surrounding neighborhood in non-COVID-19 conditions
- Request Board of Zoning Appeal to require:
 - **Full Project Review** by the Planning Board (including Traffic Impact Review and Urban Design Review)
 - Requested Comprehensive permit is for "friendly 40b" project
 - Proposed plan of 57,391 sq. ft. of living space far exceeds Project Review threshold of 20,000
 - Requires more stringent review for its impact for now and for future.
 - Applicant to provide necessary documents required for the Project Review in accordance with Article 19
 - Context Study by the Applicant
 - Reduction in the size / height of the proposed development to **6 stories facing Mass Ave and 3 stories facing Walden Street** to be more in line with other 100% affordable housing developments (AHDs) in Porter Square neighborhood
 - 10 foot setback along Walden Street

Require CC HRE to Guarantee in Writing guarantee during construction and/or in perpetuity or

- Construction mitigation plan for noise, traffic and parking associated with the construction; comfort and safety of the residents in Russell Apt during construction
- Privacy/Noise mitigation plans for privacy and noise issues posed by the windows looking into the open space and western windows of Russell Apartment
- Master Arborist/Landscape plan for the active landscaped terrace on the 6th floor roof with deep enough soil to support mature trees

Concerns from Russell Apartments' Seniors and Disabled Residents

Many residents express they feel vulnerable to voice their concerns

- Residents have just moved back to their building after 2-year rehab. Construction will mean some people may have to move again. **Density of proposed 2072 Mass Ave building next door will impose additional hardship** to elderly residents including one who is 101 years old.
- Drilling so close for the deep foundation required for a 9-story building will cause **vibration to be felt by the residents** and may even damage their interior.
- Russell Apartments is not air conditioned. **Residents are concerned they will not be able to open windows during construction due to noise and dust.**
- **Daily noise** from the densely-populated building next door is a pervasive concern for residents, who currently enjoy peace and quiet.
- Russell Apartments and the Senior Center has an entry to their parking on Mass Ave and turning into it is often treacherous, with fast moving traffic, a bike lane and cyclists, a sidewalk and pedestrians, a bus stop, and drop off / pick up for 2050 Mass Ave. An additional 150+ residents at 2072 site exacerbates these issues.
 - Congestion (pedestrians, cyclists) and traffic (drop off, pick up, deliveries) near the entrances and driveway will increase greatly due to the close proximity to 2072 Mass Ave residential entrance.
 - There is concern for safety for those who use mobility scooters and for senior pedestrians with reduced situational awareness.

Russell Apartment Resident Outdoor Amenity

Russell Apartments' outdoor space would be impacted by the proposed design

Gardening Containers

Mature Littleleaf linden although to be protected during construction as outlined in CC HRE's Tree Protection Plan; tree will receive far less sunlight due to building footprint

Concern for being dwarfed by new building;

Now threatened

- Fenced in patio area will have shadow causing loss of sunlight due to shadow cast by proposed 2072 Mass
 - Enjoyment of fresh air in the sun will be diminished
 - Residents' ability to grow vegetables and flowers will be diminished
- Loss of privacy with people looking down from the southern windows and the 7th floor roof terrace of proposed 2072 Mass Ave

78 Porter Road Affordable Housing

A nearby affordable housing complex with the same lot size as 2072 Mass Ave, but half the density

- 2nd building in from Mass Ave on Porter Road
- Currently undergoing renovation
- **Same size lot as 2072 Mass Ave but half the density**
- No green space but set back from property line

Frost Terrace Affordable Housing

Other nearby affordable housing complexes offer designs more appropriate to the neighborhood context

- Same development team
- Less dense with 2.5 times the lot size (22000 sq. ft.) as 2072 Mass Ave, only about half the living space (49,772 sq. ft) and 1/3 the FAR (2.26)
- Considerable green area open space with trees

2130 Mass Ave

This building, often used as a comparable, is significantly mitigated by building setback, large parking area, and greenspace; on a 40,000+ square foot lot

8-story building at 2130 Mass Ave
Extensive garden and play areas
beyond the tenant parking area

- At Corner of Mass Ave & Cogswell Ave
- 8 Stories
- 33 Office-Condo/Condo units
- Off-street parking with underground garage
- Lot Size 11,999 Sq. feet
- Living Sq. Feet 40,958
- FAR = 3.4

East Bound Traffic on Walden Street (Even during Pandemic)

The Walden Street / Mass Ave intersection had chronic, significant traffic congestion pre-Covid-19

View from the corner of Mass Ave and Walden St.

View from Sycamore Street

Photos taken at 3 PM, Friday Nov 20, 2020

- Traffic Assessment conducted by Vanasse & Associates is flawed in not considering the normal pre-COVID conditions at Mass Ave and Walden St intersection
- Traffic will return to pre-COVID levels, where daily traffic backups went past Raymond Park (1/2 mile away)
- Neighborhood residents met with City of Cambridge Traffic department (more than 50 people in attendance) in Feb 2020 to discuss safety concerns due to the untenable traffic issues at this intersection
- Public records search revealed no available pre-COVID-19 traffic studies done by the City of Cambridge

2072 Mass Ave Proposed Development Not Suited For the Location

The current proposed building is not appropriately scaled for the North Walden neighborhood and will pose safety issues due to the dangerous traffic conditions at the Mass Ave / Walden intersection

- Vehicles turning onto Walden Street from Mass Ave will have difficulty crossing eastbound traffic on Walden Street to enter 2072 Mass Ave development causing gridlock
- Drop off / pick up parking entrance and exit location on Walden Street will likely exacerbate traffic issues
- Pick up / drop off / deliveries will also happen on Mass Ave, causing dangerous traffic concerns
- Senior Center driveway entrance, Russell parking driveway, bus stop, pick up / drop off and 2072 Mass Ave residential entrance all within a few feet of one another

Conclusion

- The proposed project is too high and too dense for this neighborhood and the traffic analysis performed by Vanasse & Associates on behalf of Capstone Communities HRE needs to be augmented with a full traffic impact study.
- We are requesting the Board of Zoning Appeals require the following:
 - No waiver granted for Article 19. Planning Board to Conduct **Project Review per Article 19**– including Traffic Impact Review and Urban Design Review)
 - Context Study by the Development Team
 - Reduction in the scale and height of the proposed development to **6 stories facing Mass Ave and 3 stories facing Walden Street** to be more in line with other 100% affordable housing developments (AHD) in Porter Square neighborhood

Appendix: Additional Comparisons

1713-1715 Mass Ave

- At Corner of Mass Ave & Garfield Street
- Less dense with 1.7 the lot size but 13% living space
- Abundance of open space

RE: 2072 Massachusetts Avenue, Cambridge, MA- Site Approval Letter

Dear Messrs. Korb and Hope:

I am pleased to inform you that your application for project eligibility determination for the proposed 2072 Mass Ave Apartments project located in Cambridge, Massachusetts, has been approved under the Low Income Housing Tax Credit (LIHTC) program. The property is located at 2072 Massachusetts Avenue in Cambridge, Massachusetts. This approval indicates that the proposed plan is for 49 units, all of which are affordable (100%) at no more than 60% of area median income. The proposed development will consist of 14 one-bedroom units, 21 two-bedroom units, and 14 three-bedroom and the rental structure as described in the application is generally consistent with the standards for affordable housing to be included in the community's Chapter 40B affordable housing stock. This approval does not constitute a guarantee that LIHTC funds will be allocated to the 2072 Mass Ave Apartments project. It does create a presumption of fundability under 760 CMR 56.04, and permits CC HRE 2072 Mass Ave Tenant LLC (the "Applicant") to apply to the Cambridge Zoning Board of Appeals for a comprehensive permit. The sponsor should note that a One Stop submission for funding for this project must conform to all Department of Housing and Community Development (DHCD) program limits and requirements in effect at the time of submission.

As part of the review process, DHCD has made the following findings:

1. The proposed project appears generally eligible under the requirements of the Low Income Housing Tax Credit program.
2. DHCD has performed an on-site inspection of the proposed 2072 Mass Ave Apartments project and has determined that the proposed site is an appropriate location for the project. The development will place housing for within walking distance of Porter Square, providing options for shopping and the MBTA red line and commuter rail.
3. The proposed housing design is appropriate for the site. The corner lot will be redeveloped with a single residential building with ground floor retail space. The building height will step down from front to back. The developer will be pursuing passive house certification and will include a green roof and a rooftop solar array in the project.

4. The proposed project appears financially feasible in the context of the Cambridge housing market. It will offer housing to 100% households earning up to 60% of the area median income. It will also offer eight units affordable to households earning up to 30% of AMI.
5. The initial proforma for the project appears financially feasible and consistent with the requirements for cost examination and limitations on profits on the basis of estimated development and operating costs. Please note again that a One Stop submission for funding for this project must conform to all DHCD program limits and requirements in effect at the time of submission.
6. The Low-Income Housing Tax Credit Program Guidelines state that the allowable acquisition value of a site with a comprehensive permit must be equal to or less than the value under pre-existing zoning, plus reasonable carrying costs.
7. The ownership entity will be limited dividend limited liability company or limited partnership, controlled by an affiliate of the Applicant, CC HRE 2072 Mass Ave Tenant LLC and meets the general eligibility standards of the Low Income Housing Tax Credit program.
8. The Applicant is the designated developer of the site.

The Department understands that the developer and the city are working closely together on this project. We anticipate that all issues will be thoroughly reviewed by the appropriate city boards and resolved to the satisfaction of all parties and the project sponsor.

The proposed 2072 Mass Ave Apartments project will have to comply with all state and local codes not specifically exempted by a comprehensive permit. In applying for a comprehensive permit, the project sponsor should identify all aspects of the proposal that will not comply with local requirements.

If a comprehensive permit is granted, construction of this project may not commence without DHCD's issuance of Final Approval pursuant to 760 CMR 56.04 (7) and an award of LIHTC funds. This project eligibility determination letter is not transferable to any other project sponsor or housing program without the express written consent of DHCD.

This letter shall expire two years from this date or on December 10, 2022, unless a comprehensive permit has been issued.

We congratulate you on your efforts to work with the city of Cambridge to increase its supply of affordable housing.

Sincerely,

Catherine Racer
Director

Subject: Creating affordable housing on Mass Ave- in support

To the Board of Zoning Appeal,

As a homeowner and parent in Cambridge, I would like to add my voice to those who support the affordable housing project at 2072 Mass Ave (CASE NO. BZA-017326-2020).

These are exactly the housing options we need to have if we are to hold onto one of the aspects that make Cambridge great- the chance for all types of families to enjoy the high quality education, transit and community benefits I get to enjoy.

These are at least 49 more potential people to befriend, to have as parents in our classrooms, and for my children to have playdates with. Guaranteeing options like these is what keeps me in Cambridge.

Please make sure this voice is heard on the 10th.

Best,
Rachel Grashow

Cambridge Affordable Housing Trust

December 1, 2020

Mr. Constantine Alexander
Chairman, Board of Zoning Appeal
c/o City of Cambridge Inspectional Services Division
831 Massachusetts Avenue
Cambridge, MA 02139

RE: 2072 Massachusetts Avenue - Comprehensive Permit Application

Dear Mr. Alexander and Members of the Board:

On behalf of the Cambridge Affordable Housing Trust, we are writing to share our strong support for Capstone Communities LLC and Hope Real Estate Enterprises LLC's application for a Comprehensive Permit for their proposed redevelopment of 2072 Massachusetts Ave.

Capstone/Hope's thoughtful design will result in a development which will transform an underutilized site into 49 units of vibrant family housing. The Trust has already financed the acquisition of this site and is looking forward to reviewing requests for additional funding at an upcoming Trust meeting as the project proceeds towards development.

The acquisition and redevelopment of this site represents a unique and important opportunity to create a substantial number of affordable family-sized apartments. As you know, the need for affordable housing is as great as ever, as market rents in Cambridge continue to far outpace what low and moderate-income families can afford. Unfortunately, we anticipate that the need for affordable housing will only intensify as an increasing number of residents experience job and housing insecurity due to the COVID-19 and the resulting economic fallout. Capstone/Hope's plan to create almost 50 new affordable rental units, including 21 two-bedroom and 14 three-bedroom apartments, will go a long way toward helping to address this need.

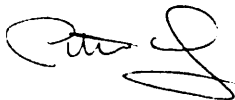

The site is ideally located for housing, in close proximity to the many amenities of Porter Square, including the MBTA and Commuter Rail Station, shopping center, and many restaurants and retail along Mass. Ave, and with Davis Square only a few blocks further away.

In addition to providing new affordable housing, the proposal to redevelop 2072 Massachusetts Avenue also includes a plan to widen Walden Street, as well as the sidewalk in front of the new building, improvements which will greatly benefit the broader community.

Affordable housing development opportunities such as this are rare, given the challenges of finding sites and assembling feasible development plans. We support the decision to pursue a comprehensive permit in order to obtain the relief needed for the proposed design and are hopeful that this project will be able to move forward quickly so that families can benefit from this badly needed housing.

We appreciate the Board's longstanding support of affordable housing and thank you for your consideration of this important project.

Sincerely,

Peter Daly

Subject: dangerous project--action needed

Dear Sisia Daglian, Zoning Division of Institutional Services Department:

Please help avoid more deaths and accidents at the notoriously dangerous intersection of Mass Ave and Walden St in North Cambridge.

As you know, an affordable housing high-rise--to house many children--has been proposed for 2072 Mass Ave at this corner. **And no Traffic Impact Study has been done.** Without any evidence, the developers claim their widening of Walden St will solve the problem.

Please help ensure that the Zoning Board of Appeals, planning to meet on Dec. 10, honors Article 19 and requires a full Traffic Impact Review and Study.

Also, the proposed looming project abuts (only 4 feet away) the Russell affordable housing apartments for seniors/disabled and the North Cambridge Senior Center. The safety (and unhindered access to sunshine) of seniors must be taken into account. Again, please enforce all provisions of Article 19.

Many, many, many Cambridge neighbors and commuters are concerned about this issue.

Thank you, A.M. Kubilius (close neighbor at 21 Cogswell Ave)

PS: Our North Walden Neighbors group's petition for action from the BZA/city government has already been signed by over 220--and counting.

ReplyForward

CITY OF CAMBRIDGE, MASSACHUSETTS

PLANNING BOARD

CITY HALL ANNEX, 344 BROADWAY, CAMBRIDGE, MA 02139

December 8, 2020

To: The Board of Zoning Appeal

From: The Planning Board

RE: BZA-017326-2020 2072 Mass Avenue

The Planning Board reviewed this application for a comprehensive permit at its meeting on December 1, 2020. The Board heard a summary of the project by the applicant, received written and oral testimony from the public, and received written materials from the Community Development Department (CDD), Traffic, Parking & Transportation Department (TP&T), and Department of Public Works (DPW).

Planning Board members were supportive of the proposed project and recommended sending a favorable recommendation to the Board of Zoning Appeal (BZA) to grant the requested relief by a vote of 5-0.

Generally, Planning Board members were encouraged by the provision of affordable housing units, particularly family-sized units, in a development with convenient access to nearby transit. Board members commented that the proposed building is well-designed and will be an improvement over the current one-story commercial building and associated surface parking, which does not contribute positively to the intersection. Board members noted that the height of the proposed building is greater than the immediately surrounding buildings, but also noted that there are examples of buildings of this height elsewhere on northern Massachusetts Avenue. Board members also expressed the view that the additional density is not a concern in this location, and that the acute need for affordable housing justifies an exceptional approach in order to make developments feasible and serve the community to the greatest extent possible.

December 8th, 2020

Re: 2072 Mass Ave (BZA-017326-2020) – Letter of Support

Dear Members of the Board of Zoning Appeal,

A Better Cambridge (“ABC”) wholeheartedly supports the proposed 100% affordable housing development at 2072 Massachusetts Avenue near Porter Square in Cambridge; we hope that the BZA will agree and approve this valuable project.

Like many other communities in the Boston metro area, Cambridge has become increasingly unaffordable for low- and middle-income individuals and families alike over the prior two decades. As both rents and sale prices continue to escalate, we see more and more people forced to leave a community they have called home. **There are over 20,000 unique names on Cambridge Housing Authority waiting lists; there is a massive need for affordable housing in Cambridge.** As a housing advocacy nonprofit, ABC is working with elected officials, community members, and local developers to offset displacement in this tight housing market.

The proposed development at 2072 Massachusetts Avenue is part of this collective effort to build more affordable housing in the City. Brought forward by Capstone Communities LLC (Sean Hope and Jason Korb), this 49-unit rental project sits on an underutilized lot within 0.25 miles from the Porter Square T station. Not only will the new construction add important new units to Cambridge’s housing inventory in this high-cost Porter Square neighborhood, but the site is also located close to several essential community and retail services, as well as green spaces and parks. We’re excited that this family housing would provide so many residents with a close connection to neighborhood parks, schools, and other community spaces.

Although Cambridge very recently passed an Affordable Housing Overlay that will enable denser development of 100% affordable housing going forward, Capstone’s pursuit of additional density at this very transit-oriented location is reasonable - we’re excited about the design and use of this corner lot to provide much-needed housing. **The 2072 Mass Ave development will provide residents with ready access to grocery stores, pharmacies, and other essential services without reliance on an automobile.** Since the initial proposal in October, Capstone has also been very receptive of community feedback on project design. They reduced the first floor area to allow for the widening of the Walden St. sidewalk, as well as a step-down in building height towards their Walden St. neighbors.

A Better Cambridge, an all-volunteer run non-profit advocating for more housing for all in Cambridge, has been active in local housing discussions since its founding in 2012. With 100+ members and a 1000+ network, ABC has been and continues to be a constructive voice in local debates. **We consistently urge the creation of more housing for all as a crucial strategy for ensuring we have sufficient housing stock to meet the urgent and ever-increasing need.**

ABC is supportive of the following components of the 2072 Mass Ave project:

- The creation of 49 units of rental housing, which will be 100% affordable in perpetuity.
- The majority of the units are family-sized (21 two-bedroom units and 13 three bed-room units), responding to the neighborhood and City's priorities for more family housing.
- The building will be Passive House-certified, setting a high bar for sustainable construction. This approach will increase resident comfort and reduce the development's carbon footprint for the long-term.
- The project will manage all stormwater retention on site, meeting local requirements for minimal environmental impact.
- The project includes three handicapped parking spaces, ensuring accessibility and meeting all relevant MAAB code requirements.

Public discussion about the 2072 Mass Ave development has recently become focused on the question of parking. Vehicle ownership in Cambridge has been declining in recent years, and there is a growing consensus amongst urban planners nationwide that most American cities, including Cambridge, have overbuilt their car infrastructure at the cost of decreased air quality, decreased walkability, underutilized land, and increased carbon emissions. To correct these trends, ABC believes it is important not to build excess parking unless there is clear and needed demand for it. In the vicinity of 2072 Mass Ave, a major urban corridor with frequent bus service, there are two subway stations, as well as ample available on-street residential parking. **ABC strongly believes that the three additional parking spaces provided by the project are more than enough.**

Not only does A Better Cambridge strongly support the 2072 Massachusetts Avenue development, but we also believe it meets many of the City and State's funding priorities for affordable housing in high-cost municipalities. We hope that the BZA will support the next steps in its development.

Sincerely,
A Better Cambridge (ABC) Leadership

Subject: Board of Zoning Appeal BZA-017326-2020

Hello board members,

I write in support of the 100% affordable housing being built at 2072 Massachusetts Ave. We are in the midst of a housing crisis and the more units we can build, the better. I'm in support of a waiver for height and parking requirements. This spot is on the busy Mass Ave. corridor and a close walking distance to both Porter and Davis T stops. Many bus stops are closer, along with restaurants and Star Market. As long as our city and state continue to support the services and businesses in the area, the walkability makes this one of the most desirable spots to live in Cambridge and the whole country. We have such a large waiting list for affordable housing, surely a significant majority of the units can be made up of new residents that want to take advantage of this walkability and don't need a car.

Re: Comprehensive Permit Application for 2072 Mass Ave Apartments
2072 Massachusetts Avenue, Cambridge, MA

Dear Board of Zoning Appeal Members:

CC HRE 2072 Mass Ave Tenant LLC (“Applicant”), an affiliate of Capstone Communities LLC (www.capstonecommunities.com) (“Capstone”) and Hope Real Estate Enterprises LLC (“Hope”), propose to construct an affordable housing community located at 2072 Massachusetts Avenue in Cambridge’s Porter Square and North Cambridge (the “Site”). The resulting residential community will consist of 49 affordable rental apartment homes with a variety of unit sizes – 14 one-bedroom, 21 two-bedroom, and 14 three-bedroom apartments – that will be affordable to individuals and families earning a range of incomes – from 30% to 60% of the area median income (the “Project”). Capstone is a Newton-based developer of mixed income, affordable, and historic apartment communities, and Hope is a Cambridge-based real estate development company with significant zoning consultation and permitting expertise. Capstone and Hope are currently developing Frost Terrace, a 40-apartment 100% affordable housing community located a few blocks south at 1785-1791 Massachusetts Avenue which is anticipated to open in spring 2021. Previously, Hope and Capstone developed Port Landing, a 20-apartment, 100% affordable housing community in The Port/Kendall Square neighborhood in 2016.

Development Proposal

Existing Site Conditions

Located with frontage on Massachusetts Avenue to the northeast and Walden Street to the northwest, the Site is comprised of one lot with approximately 8,515 square feet. Currently, the Site is occupied by an 1,860 sf, one-story building leased to Darul Kabab restaurant. The building is widely known to have housed Kentucky Fried Chicken for many years.

The immediate context along Massachusetts Avenue includes a mix of commercial, residential, and institutional buildings directly fronting the Avenue. The current one-story building and surface parking lot on the Site were constructed in 1971, having replaced a ca. 1890 four-story Odd Fellows Building which occupied most of the parcel. Though the Massachusetts Avenue corridor maintained a small-scale residential character throughout much of the 19th century, by the early 20th century the blocks north of Porter Square were dominated by multi-story commercial, civic, and religious buildings directly fronting the

Avenue. Massachusetts Avenue remains a densely developed artery lined with multi-story commercial, residential, and institutional buildings.

I.O.O.F. Building formerly located at 2072 Massachusetts Avenue, depicted during the 1968 fire which led to its demolition (*Cambridge Chronicle*).

Proposal Summary

The Project will include forty-nine (49) 100% affordable rental housing apartments. The affordability will be in perpetuity. Approximately 71% (35 apartments) will be two and three bedrooms for families. Specifically, the proposal includes 14 one-bedroom apartments, 21 two-bedroom apartments, and 14 three-bedroom apartments. Units average in size from 625 sf (one-bedroom apartments) to 824 sf (two-bedroom apartments) to 1,087 sf (three-bedroom apartments). The high proportion of two- and three-bedroom apartments will provide safe and accommodating housing to families.

Additionally, the Project will include three handicapped accessible parking spaces and two short-term drop-off/pick-up spaces in a covered garage area at the rear of the Site, along with 51 long term bike parking spaces located on the lower level of the building (48 regular and 3 tandem). Electric vehicle charging stations will be provided for the three accessible spaces and power outlets will be provided in the bike room for electric bicycles and repairs. The Project will also include retail space on Massachusetts Avenue and a resident amenity space within the first floor. The retail space is slated for a community use. The Project's operating budget also includes a part-time resident services coordinator who will plan events for families and others in the building and will assist with creating community building and educational activities.

Current Condition

Proposed Condition

The new eight-story building will be constructed to Passive House US (PHIUS) standards and will target PHIUS Certification, and will include a green roof, rooftop solar along with a stormwater management system. The resilient, environmentally friendly materials used to construct the contemporary building façade will ensure long-term sustainability for the Project while adding dimension and rhythm to the Avenue. See **Section 9 Green Building Report** for more information.

Neighborhood

Situated to the northwest (less than 0.3 miles from the center) of Porter Square, the Project will complement an already vibrant mixed-use area of institutional, residential, office, restaurant and retail uses. Located in the North Cambridge neighborhood and adjacent to Neighborhood Nine, the Project’s density and scale aligns with other buildings on Massachusetts Avenue. Directly to the Site’s southeast and fronting on Massachusetts Avenue is the six-story affordable age restricted Russell House Apartments that is owned and operated by the Cambridge Housing Authority. Russell House Apartments is approximately 60’ and contains 52 apartments. The five-story, 68’ historic Henderson Carriage Building is located across Massachusetts Avenue from the Site. 2130 Massachusetts Avenue, an eight-story, 71’ building is located one block to the northwest of the Site. Directly across Walden Street from the Site is a single-story retail building and the three and a half story 5 Walden Street condominiums. Spanning the entire rear of the Site is a municipal parking lot that provides an almost 50’ wide buffer from the mostly three-story multifamily residential neighborhood to the west. The owners of the Henderson Carriage Building and Russell House Apartments support the Project.

The below Neighborhood Buildings – Height Map details the surrounding building heights.

Area Amenities

This Site is well-served by public transit. The Porter Square MBTA Redline and Commuter Rail stations are less than 0.3 miles from the Site and the Davis Square MBTA Redline is located 0.5 miles from the Site. In addition, the #77 and #83 MBTA bus routes are at the Site, the nearest BLUEbikes station is located directly across the street, and the nearest Zipcar space is less than 200 feet away. These various rapid transit options provide access to jobs, services, and amenities throughout Cambridge, Boston, and the suburbs.

Additionally, the Site is located within walking distance to the Porter Square Shopping Center, which provides several key family-friendly amenities including a grocery store, pharmacy, hardware store and various other community-serving businesses. In the context of Cambridge's extreme shortage of affordable family housing, the Project will provide forty-nine (49) households with access to a desirable, transit oriented, and thriving neighborhood. According to Walkscore.com, the Site's Walk Score is 97, which is considered a Walker's Paradise.

The Site is also within walking distance to a number of public elementary schools and daycare centers including the Rindge Avenue Upper School (0.2 miles or 6-minute walk), Wild Rose Montessori School (0.3 miles or 7-minute walk) and Benjamin Banneker Public Charter School (0.4 miles or an 8-minute walk). Below is a partial list of amenities within 0.5 miles of the Site. The play yard at St. James Church will be open to the Project's residents as well as the general public from 8am to dusk every day of the week with few exceptions. St. James Church, at 1991 Massachusetts Avenue, is one block from the Project.

Building Program and Site Design

The Project's design balances a complex set of contextual priorities for the Site which have arisen from analysis, community meetings, and various meetings with the City of Cambridge Urban Planning, Community Development and Traffic and Parking teams. The design goals are:

Create a high-quality affordable housing apartment community for families in Cambridge

The design reflects its context, a strong corner on Cambridge's main street. The building massing is slender, allowing for light and air for all apartment homes. The site is linked to amenities and services in this walkable neighborhood and the unit interiors are simple, but elegant.

Create significant transparency: Activate the streetscape

A primary design goal is to maintain transparency at street level to facilitate visual connections and to activate the streetscape. The first floor along Mass Ave will be wrapped with transparent storefront glazing and will include both the retail and residential entryway. The residential entryway will be pushed back to create a more pedestrian-scaled experience for residents. The storefront turns the corner onto Walden St and continues along with transparency into the retail and resident amenity spaces. An entrance to limited parking and services area is hidden on the rear part of the site.

Shaping: Building Form

The building consists of two interconnected 8-story volumes. Along Massachusetts Avenue and West along Walden Street, a seven-story suspended aluminum clad cube sits above one story of recessed with storefront glazing. The suspended cube of the floors is clad in light colored anodized aluminum / zinc vertical panels with a staggered pattern, creating a light and airy volume that floats above the street, minimizing the Project's perceived mass, and also has a strong corner presence that is visible from the street intersection. A grid of openings accentuates the suspended cube, incorporating large windows which provide natural daylight into the interior units, as well as vertical infill composite panels that resemble wood, bringing warmth and texture. Each window and infill panel pair are framed with a metal projection that provides a rhythm to the façade.

Human Scale: Material Palette

The residential anchor consists of a materials palette that relates to the surrounding residential buildings. The brick plinth / base is located on the ground floor, most prominently at the residential entry which is recessed along Mass Ave, adjacent to the retail space and bus shelter. The crafted long brick at street levels enlivens the pedestrian experience and allows for interactions as the wall angles back and forth. This culminates in a gradient of increasingly frequent openings that also serve as visibility into the parking area, as well as creating ventilation. Above the parking entry, the brick is oriented vertically as a contemporary response to the traditional lintel approach, while highlighting the playfulness of the material.

Brick pattern material precedents

Above the brick plinth, painted clapboard comprises the main field of the body. Proportionately sized and spaced windows bordered by a trim are located along all orientations of the residential anchor. On the south elevations, each window has an infill panel below, clad in a lighter colored shingle panel to provide an accent from the main field, as well as to give the perception of the same proportions compared to windows on the north and west facades. In addition, solar shades are proposed on the South façade that not only livens the rhythm of the façade, but also serves a functional purpose of providing shade to reduce the building’s overall energy consumption. The top of the residential anchor is defined by a cornice band of half-round shingles.

Suspended cube and residential anchor material precedents

Streetscape and Greenery

Except as indicated below, while there is no open space or landscaping on the Site, several street trees are located on the opposite side of Walden Street. Due to the existing electrical duct banks below the sidewalks adjacent to the Site on Massachusetts Avenue and Walden Street, it is not possible to plant street trees in these locations. Planters and fences supporting the growth of vertical green are located on the Project’s

southwest facade, and at the openings to the parking and service areas. An intensive green roof is also visible along Walden Street above the parking entrance, with a variety of non-invasive plant species.

There is a 12" DBH *Tilia cordata*, Littleleaf linden located on the Site's south property line. This tree is mostly located on the 2050 Massachusetts Avenue property. Daniel E. Cathcart, an ISA Board Certified Master Arborist, developed a Tree Protection Plan (included herein) that will be followed by the development team prior to, during, and after construction. See **Section 10** for the **Tree Protection Plan**.

Accessibility

The Project is designed to comply with the requirements of 521 CMR, Massachusetts Architectural Access Board (MAAB), the Fair Housing Act, the Americans with Disabilities Act (ADA), as well as the Uniform Federal Accessibility Standards (UFAS). 3 apartments (1 of each bedroom type) in the Project will be Group 2 units for individuals with mobility difficulties (521 CMR 9.4), with the rest being Group 1 units (521 CMR 9.3). In addition, 1 apartment will be a Group 1 unit that also provides sleeping accommodations for persons who are deaf or hard of hearing (521 CMR 9.7).

Sustainability

The Project will incorporate sustainable and resilient design strategies that reflect a commitment to environmental stewardship that aligns with affordable housing with a strong focus on lowering utility costs, carbon and greenhouse gases reduction and creating healthy environments. The Project is targeting Passive House certification to the standards set by the Passive House Institute US (PHIUS) for their PHIUS+ Core rating system, as well as certifying through the EPA Indoor air PLUS program. The PHIUS+ CORE rating system includes stringent and verified building performance metrics as well as professional testing of the building envelope and air sealing at two stages during building construction. EPA Indoor air PLUS certification includes verification of indoor air quality (IAQ) quality control measures including but not limited to: moisture control, HVAC venting and sealing, and use of low VOC materials in construction. In addition, the design team is also planning to conduct a systems commissioning process in addition to the envelope. The above will result in a highly efficient building that lowers utility costs, protects occupant health through excellent indoor air quality, as well as contributes to the overall reduction in carbon and greenhouse gases emissions. Specifications for a simple, durable materials palette will emphasize the choice of healthier building materials and reinforce the Passive House approach, these measures also act as quality-of-life improvements for the residents, and will be integrated with the management of the property.

In terms of addressing resiliency concerns such as extreme weather events and future climate change, the project team evaluated the flood risk based on current maps and future projections for the site and surrounding area. In addition, various protection, adaptation, and backup strategies have been incorporated. Additional details can be found in **Section 9 Green Building Report**.

Affordable Housing

Due to its unit mix and income set asides, the Project's 49 apartment homes will attract a variety of households. 41 units will be set aside for households that earn at or below 60% of AMI, currently a household income ranging from \$53,760 – \$82,920, depending on household size. Eight (8) units will be Section 8 PBV units set aside for households that earn at or below 30% of AMI, currently there is no minimum household income, and a maximum income of \$30,720 – \$41,460, depending on household size. Including all utilities and for the 60% AMI apartments, monthly one-bedroom rents are estimated to be \$1,440, monthly two-bedroom rents are estimated to be \$1,728, and monthly three-bedroom rents are

estimated to be \$1,995. When accounting for utilities, these rents are approximately 40% of the neighborhood's market rate rents, which are deeply unaffordable to households in this income range.

The proposed income mix provides housing that is affordable to families and individuals earning a range of incomes. The immediate market area shows strong demand for this unit mix as effective vacancy rates are 0%. The demand for affordable units is even more significant than that for market rate apartments. At Port Landing, which was opened in 2016, 1,386 applicants applied for its 20 apartments prior to the lottery. Data obtained from The Finch, an affordable apartment community owned by Homeowner's Rehab which completed its lease-up in 2020, showed that 2,261 individuals or families applied for 98 apartment homes. There are currently 20,703 unique applicants on the Cambridge Housing Authority waitlists.

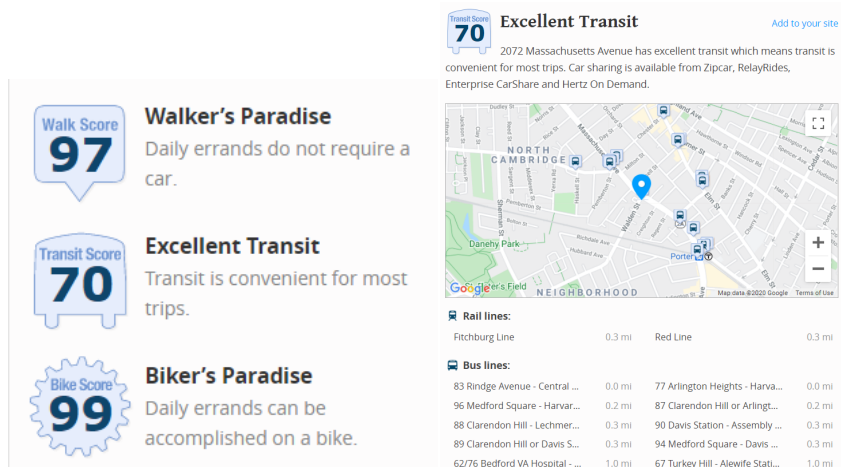

To the extent permitted by Department of Housing and Community Development, 70% of the apartments will give preference to current Cambridge residents, municipal and school department employees, and employees of local businesses.

Transportation and Parking

The site plan proposes three (3) covered, on-site accessible parking spaces that will be dedicated to residents and guests with disability plates or placards. In addition, there will be two (2) short-term COVERED drop-off and pick-up spaces to aid in reducing congestion along Walden Street.

As previously indicated, the Site is a short walk from numerous forms of transit options including the Porter Square Station less than 0.3 miles from the Project that includes the MBTA subway Red Line, Fitchburg/South Acton Commuter Rail Line, four Bus Lines (Bus Route #77, 96, 83 and 87) and several car sharing locations. The Parking and Traffic Assessment by Vanasse & Associates, Inc. (VAI) included in **Section 6** suggests approximately half of the building's households, or ~25 households, will have cars. Those residents with or without cars will benefit from Transportation Demand Management (TDM) that will include covering the cost of MBTA passes for property management staff, subsidizing MBTA passes for residents, BLUEbikes memberships, or ride sharing memberships, as further detailed in the VAI report. In addition, the installation of public transportation and ride share timing screens at a centralized location will provide residents with information for easy access to transit. Ownership and building management will provide information at move-in to all residents on all public transportation options within a short distance of the Site.

Below is a map from Walkscore.com highlighting the Site's adjacent transit options:

VAI determined the Project’s projected parking demand and quantified the availability of on-street parking within a quarter (0.25) mile from the Site entirely within the City of Cambridge boundaries during peak parking demand hours. In summary, at the time of its study on Tuesday, October 20, 2020, VAI determined that the peak hour demand was at 12:00pm at which time a total of 281 on-street parking spaces were available within a quarter (0.25) mile of the Site. VAI concludes its report by stating: “In summary, a detailed parking survey was completed in the area of the Project and based upon this data it can be concluded that there is more than sufficient availability of on-street parking to accommodate the Project. The Project proponent is committed to implementing a Travel Demand Management plan which promotes alternatives modes of transportation and will minimize the Project’s impact on available on-street parking and traffic in the area.”

VAI Parking Study, October 20, 2020, Figure 4

It is expected that many of the Project’s residents will utilize alternative modes of transportation other than automobiles. Based upon the U.S. Census and 2018 American Community Survey data for Census Tract 3547, the tract in which the Project is located, the mode split characteristics of the Project are estimated as follows: 32 percent automobile trips; 43 percent transit; 10 percent walk; six (6) percent bicycle, and nine (9) percent other trips. Pursuant to VAI’s report, the Project is expected to generate approximately 98 vehicle trips on an average weekday (49 entering/49 exiting), with approximately six (6) vehicle trips (2 entering/4 exiting) expected during the weekday morning peak-hour. During the weekday evening peak hour, the Project is expected to generate approximately 9 new vehicle trips (5 entering/4 exiting).

The Project’s proximity to several alternative transit options and community serving amenities (schools, pharmacy, grocery store) within walking distance will produce a thriving walkable residential community. The Project’s design is consistent with smart growth principles and the Cambridge City Council’s goal to reduce reliance on vehicle usage while promoting alternative forms of transportation.

Walden Street Widening

Through discussions with Cambridge Community Development, Traffic and Parking, Department of Public Works, and community outreach, the development team identified that the portion of Walden Street adjacent to the Site is unusually narrow for a three lane street. Currently Walden Street is ~26’-8”, with a ~10’-0” travel lane outbound from Massachusetts Avenue and two ~8’-4” travel lanes inbound. This constriction slows traffic moving through the intersection, makes turns difficult, and does not align with best practices and guidelines.

The proposed design includes the widening of Walden Street from ~26'-8" to 30'-0". This is achieved by locating the exterior walls of the ground floor ~4'-0" inside the property line and then granting an easement to the City for a sidewalk in that area, resulting in three (3) 10'-0" travel lanes and making a more spacious street condition. The proposed design also improves the sidewalk by widening it from its current ~6'-5" width to be ~7'-2" wide, both measurements are inclusive of the curb. The proposed upper floors of the new building overhang the sidewalk by ~3'-6" with an overhead clearance of ~13'-0".

Regarding the constructability of widening Walden Street, the development team approximately located electrical duct banks in the Walden Street sidewalk. Based on visual inspections of the manholes and a utility Ground Penetrating Radar (GPR) report by GPRS, it seems unlikely that the location of these duct banks will conflict with the proposed construction associated with the widening of Walden Street. Conversations with Eversource on the exact elevation of the duct banks are ongoing. The GPR report is included in **Section 8**.

Evidence of Need for Affordable Housing:

The City of Cambridge historically was the home of immigrants and low and middle-income earners that were vital to Cambridge's glassworks and furniture factories from the 1920's through the 1970's. However, since rent control ended in 1994, Cambridge has experienced an exponential increase in land value, resulting in a disproportionate impact on the availability of affordable housing options for low and middle-income individuals and families. HUD defines "cost burdened" households as those who pay more than 30% of their income for housing.¹ According to the U.S. Census Bureau, 43% of renters in Cambridge are paying 30% or more of their household income on rent and are therefore considered cost burdened.²

Lower and middle income families in Cambridge find it exceptionally difficult to secure family friendly housing throughout the City. In the last six (6) months, accordingly to MLS, the median sale price for a single family home in Cambridge was \$1,733,500 and the average condominium sale price was \$812,500. Based on an informal October 2020 survey of larger apartment communities in the immediate market area, two-bedroom apartment rents are \$3,600 and three-bedroom apartment rents are \$4,500.³ In order to afford these rents and not be cost burdened, a household would need to earn at least \$152,000 – \$190,000 annually. Over 60% of Cambridge households make less than \$150,000, making these units unaffordable to a majority of current Cambridge residents.⁴

The City's housing stock is also older and many units contain lead based paint hazards, which further constrain families from locating safe, quality housing for their children. In fact, 71.4% of Cambridge's housing inventory was constructed prior to 1980.⁵ Upon completion, all of 2072 Massachusetts Avenue's apartments will be new.

Once completed, the Project will provide urgently needed affordable housing in an area where a significant number of families and individuals are unable to afford quality housing. Additionally, the high number of three-bedroom apartments (29%) will specifically be occupied by families.

Financing

If 2072 Massachusetts Avenue's Site Comprehensive Permit application is approved, the development team anticipates applying for an array of local, state and federal subsidies as well as private investments. The development team will apply to the Massachusetts Department of Housing and Community Development (DHCD) for an allocation of state and federal low-income housing tax credits as well as additional subsidies.

In 2018 the Cambridge Affordable Housing Trust provided a \$3.8 million loan to finance the Site acquisition and certain predevelopment expenses. If the Project receives its permitting, the development team anticipates applying for additional City funding and for eight (8) Cambridge Housing Authority Section 8 Project Based Vouchers.

Site Control, Permitting and Community Process

Site Control

Capstone and Hope have created separate entities that own/will own the Site/Project and that will develop the Project. CC HRE 2072 Mass Ave LLC, an affiliate of Capstone and Hope, purchased the 2072 Mass Ave land and building using loan proceeds from the Cambridge Affordable Housing Trust in April 2018.

On November 9, 2020, CC HRE 2072 Mass Ave LLC entered into a 99-year ground lease with CC HRE 2072 Mass Ave Tenant LLC for the 2072 Massachusetts Avenue land. See the attached organizational chart that outlines the entity structure once the Project receives all its financing. This ground lease structure is typical of affordable housing developments in Cambridge due to the complicated financing structure required by local and state financing agencies.

Permitting

CC HRE 2072 Mass Ave Tenant LLC is a Limited Dividend Organization under M.G.L. c.40B, §§ 20 through 23. Pursuant to 760 CMR 56, CC HRE 2072 Mass Ave Tenant LLC is applying to the Department of Housing and Community Development, as the Subsidizing Agency, for Project Eligibility under the following subsidy programs: Affordable Housing Trust Fund, DHCD Housing Stabilization Fund (HSF), HUD HOME Program (Rental Production), State Low Income Housing Tax Credit Program, and the Federal Low Income Housing Tax Credit Program (LIHTC). An affordable housing restriction will be recorded against the land and buildings with a term in perpetuity and the Project will comply with the Affirmative Fair Housing Marketing and Resident Selection Plan as required by 760 CMR 56.

According to the Zoning Map, the majority of the Site has a base zoning of Business A-2 and a small portion (13'+/-) at the rear of the parcel is in the Residence B base zoning district. Both districts allow for residential uses as of right although the Business A-2 district also allows for a range of commercial/retail and multi-family residential uses whereas the Residence B district is a one- and two-family district only. The Site also is in the Massachusetts Avenue Overlay District and North Massachusetts Overlay Sub- district (the "Massachusetts Avenue Overlay").

The development team is proposing to obtain all of 2072 Massachusetts Avenue's local approvals through an MGL Chapter 40B Comprehensive Permit from the Cambridge Board of Zoning Appeal (BZA). Since the City of Cambridge has met its obligations under MGL Chapter 40B, the development team is requesting that the BZA accept this Comprehensive Permit application. Pursuant to 760 CMR 56.05(7), please refer to

Section 5 for a detailed list of requested Waivers from Local Requirements and Regulations. **Section 4** is the Dimensional Form.

Community Process

The development team has worked extensively with the City of Cambridge, including the Community Development Department (Zoning, Housing, Sustainability, Urban Design, Pedestrian and Bicycle), Fire Department, Traffic and Parking, Department of Public Works, and Historical Commission.

In addition, the development team has engaged the community through individual abutter Zoom meetings and a large Zoom community meeting on September 29, 2020 that was attended by 82 people. The Project was also presented to the Porter Square Neighbors Association (PSNA) on October 15, 2020 and is schedule to reappear at the PSNA on November 19, 2020. Understanding that many residents of the adjacent Russell House Apartments do not have access to computers and/or the internet, and in conjunction with the building's management, the development team displayed large renderings of the Project and comment cards in the building's lobby so that Russell House residents would have an opportunity to provide input.

Community outreach and various City department input resulted in the following changes to the proposal: (1) setting back further the first floor facing Walden Street, (2) relocating the main pedestrian entrance from Walden Street to Massachusetts Avenue, (3) widening Walden Street and the sidewalk adjacent to the Project, (4) programming the retail space to accommodate varied and community uses, and (4) developing partnerships with community stakeholders to access additional amenities for the Project's residents. An additional community meeting via Zoom is scheduled for November 16, 2020 to share design updates and elaborate on changes that were made to incorporate community feedback. The development team has maintained a website, www.2072massaveapts.com, that provides updated and detailed information on the proposal. The website includes copies of plans, FAQs (forthcoming), news and events, information on the development team, and contact information for the community to provide feedback and ask questions.

Development Team

The following development team has been formed to include industry experts ensuring a seamless and successful completion:

- **Developers:**
 - *Capstone Communities LLC* (www.capstonecommunities.com), is a Newton, Massachusetts based real estate development firm experienced in structuring complex financing involving multiple federal and state subsidies. Jason Korb is the principal of Capstone Communities LLC where he has developed market rate, mixed income, and 100% affordable housing. Since founding Capstone in October 2010, Jason has successfully completed a total of \$60,000,000 of development transactions in Cambridge, Somerville, Arlington, Newton and Brockton Massachusetts. These include converting Brockton's first brick shoe factory into 25 mixed-income apartments, co-developing 20 100% affordable family apartments on a vacant lot in Cambridge's Port neighborhood. Additionally, Capstone and Hope are currently developing Frost Terrace, a 40 apartment, 100% affordable community in Porter Square which is estimated to be complete in Spring of 2021.

Prior to forming Capstone, Jason was the Vice President of Acquisitions at Beacon Communities LLC, a developer, owner, and manager of over 9,000 apartment homes in the Northeast. At Beacon, Jason was responsible for sourcing new acquisitions and overseeing

mixed income, affordable and market rate development and financing opportunities. In his seven years at Beacon, Jason was responsible for developing over 600 apartment homes totaling over \$100M. Prior to joining Beacon in 2004, Jason was a Housing Project Manager at the Fenway Community Development Corporation in Boston. Jason is a former Director of Caritas Communities and a former Vice-Chair of Preservation Massachusetts. Jason received an MS from the Massachusetts Institute of Technology's Center for Real Estate and a BA from the University of Michigan, Ann Arbor. Jason's MIT thesis, *The Low Income Housing Tax Credit: HERA, ARRA, and Beyond* has been cited by Harvard University's Joint Center for Housing Studies and the US Senate Budget Committee.

- *Hope Real Estate Enterprises LLC*, is led by Cambridge based attorney and Real Estate Developer Sean D. Hope who specializes in Zoning and municipal permitting/consulting. Sean was co-developer with Jason Korb of Port Landing - a 100% affordable housing development located in The Port/Kendall Square that opened at the end of 2016 providing 20 units of family friendly housing to the Port neighborhood where Sean's family first moved to from the island of Barbados. Additionally, Hope has partnered with Capstone again to develop Frost Terrace, a 40 apartment, 100% affordable community in Porter Square which is estimated to be complete in Spring of 2021. Sean has also represented developers and property owner on numerous construction projects in Cambridge including new construction, historic preservation and adaptive reuse projects. Prior to entering into private practice in 2008 Sean was an associate member of the Cambridge Board of Zoning Appeal voting on several keys applications including Print Shop Condominiums, an affordable home ownership project developed by CASCAP in 2007. Sean also serves as in-house counsel for Pentecostal Tabernacle in Cambridge and is former member of the Cambridge Historic Society.
- **Preconstruction Cost Estimator:** *Callahan Construction Managers* (www.callahan-inc.com): Established in 1954, Callahan Construction Managers is a full-service construction company experienced with a variety of building types and construction methods in Massachusetts and the Northeast. Callahan specializes in a wide range of preconstruction and construction management services, and including projects in multi-family residential, senior housing, hospitality, retail, corporate office, life sciences, educational, and other markets. Most recently, Callahan began the historic renovation, addition, and new construction project at Squirrelwood Apartments, an affordable housing community owned by Just-A-Start Corporation in Cambridge, MA. The Squirrelwood Apartments contain 88 units and the new construction building will be built to Passive House Standards.
- **Architect:** *Bruner/Cott Architects (Bruner/Cott)* (www.brunercott.com): Bruner/Cott is a mid-sized, full service architecture and planning firm, located in Boston, Massachusetts. Founded 45 years ago, Bruner/Cott is dedicated to enhancing the quality of life, economic vigor, and sense of community through thoughtful, sustainable design. As pioneers in transformative reuse, Bruner/Cott strives to recognize the character and value of an existing structure and understand that sustainable design extends beyond the boundaries of a single building. Whether new construction, transformative reuse, historic preservation, or a large-scale planning project, Bruner/Cott makes buildings that communicate with their surroundings, transforming place by creating architecture of enduring value.

Bruner/Cott is committed to its mission of achieving design excellence through collaboration, creativity, and critical thinking, crafting thoughtful design solutions that fulfill their clients'

aspirations, and enhancing the human experience while respecting the natural environment. The firm's work has been consistently recognized for design, winning awards for renovation, adaptive reuse, and new construction. In the Cambridge/Boston area, Bruner/Cott is working on Frost Terrace (currently under construction), and completed the Lunder Arts Center at Lesley University in Porter Square and The Viridian at 1282 Boylston Street.

- **Legal (General and Zoning):** *Nixon Peabody LLP* (www.nixonpeabody.com): Nixon Peabody is a full-service law firm with more than 600 lawyers nationwide and internationally. Our clients range from developers (for-profit and nonprofit), financing institutions and governmental entities to *Fortune* 100 companies. Nationally recognized in real estate, the firm handles highly complex development and financing transactions involving every class of assets, and has been at the forefront of financing, developing and preserving affordable housing for more than 45 years. In fact, with approximately 25 attorneys and paralegals possessing significant experience working with federal, state and local governmental agencies, NP has one of the largest affordable housing legal teams in the country.

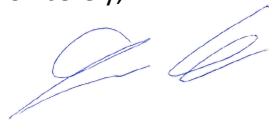

The NP team also handles land use, zoning and permitting for a range of development projects, and is regularly brought into transactions to review site plans and perform zoning analyses. Through this work, the team has developed a comprehensive understanding of the local zoning and permitting processes and the multiple administrative steps that developers face during the course of development, which can include navigating the zoning approval process, obtaining Comprehensive Permit approvals, or establishing zoning overlay district areas and zoning map amendments.

Conclusion

The Project will bring high-quality housing to the Porter Square/North Cambridge neighborhood that will be affordable to a diverse array of low- and moderate-income households. With immediate proximity to rapid transit and essential community services, the Project can provide critically needed housing in an attractive, sustainable development. Designed to provide contemporary amenities with a focus on transit-oriented development and sustainability, the Project will be high-quality family housing in the heart of one of Cambridge's most vibrant neighborhoods.

We look forward to presenting this exciting Project to the Board at your earliest convenience.

Sincerely,

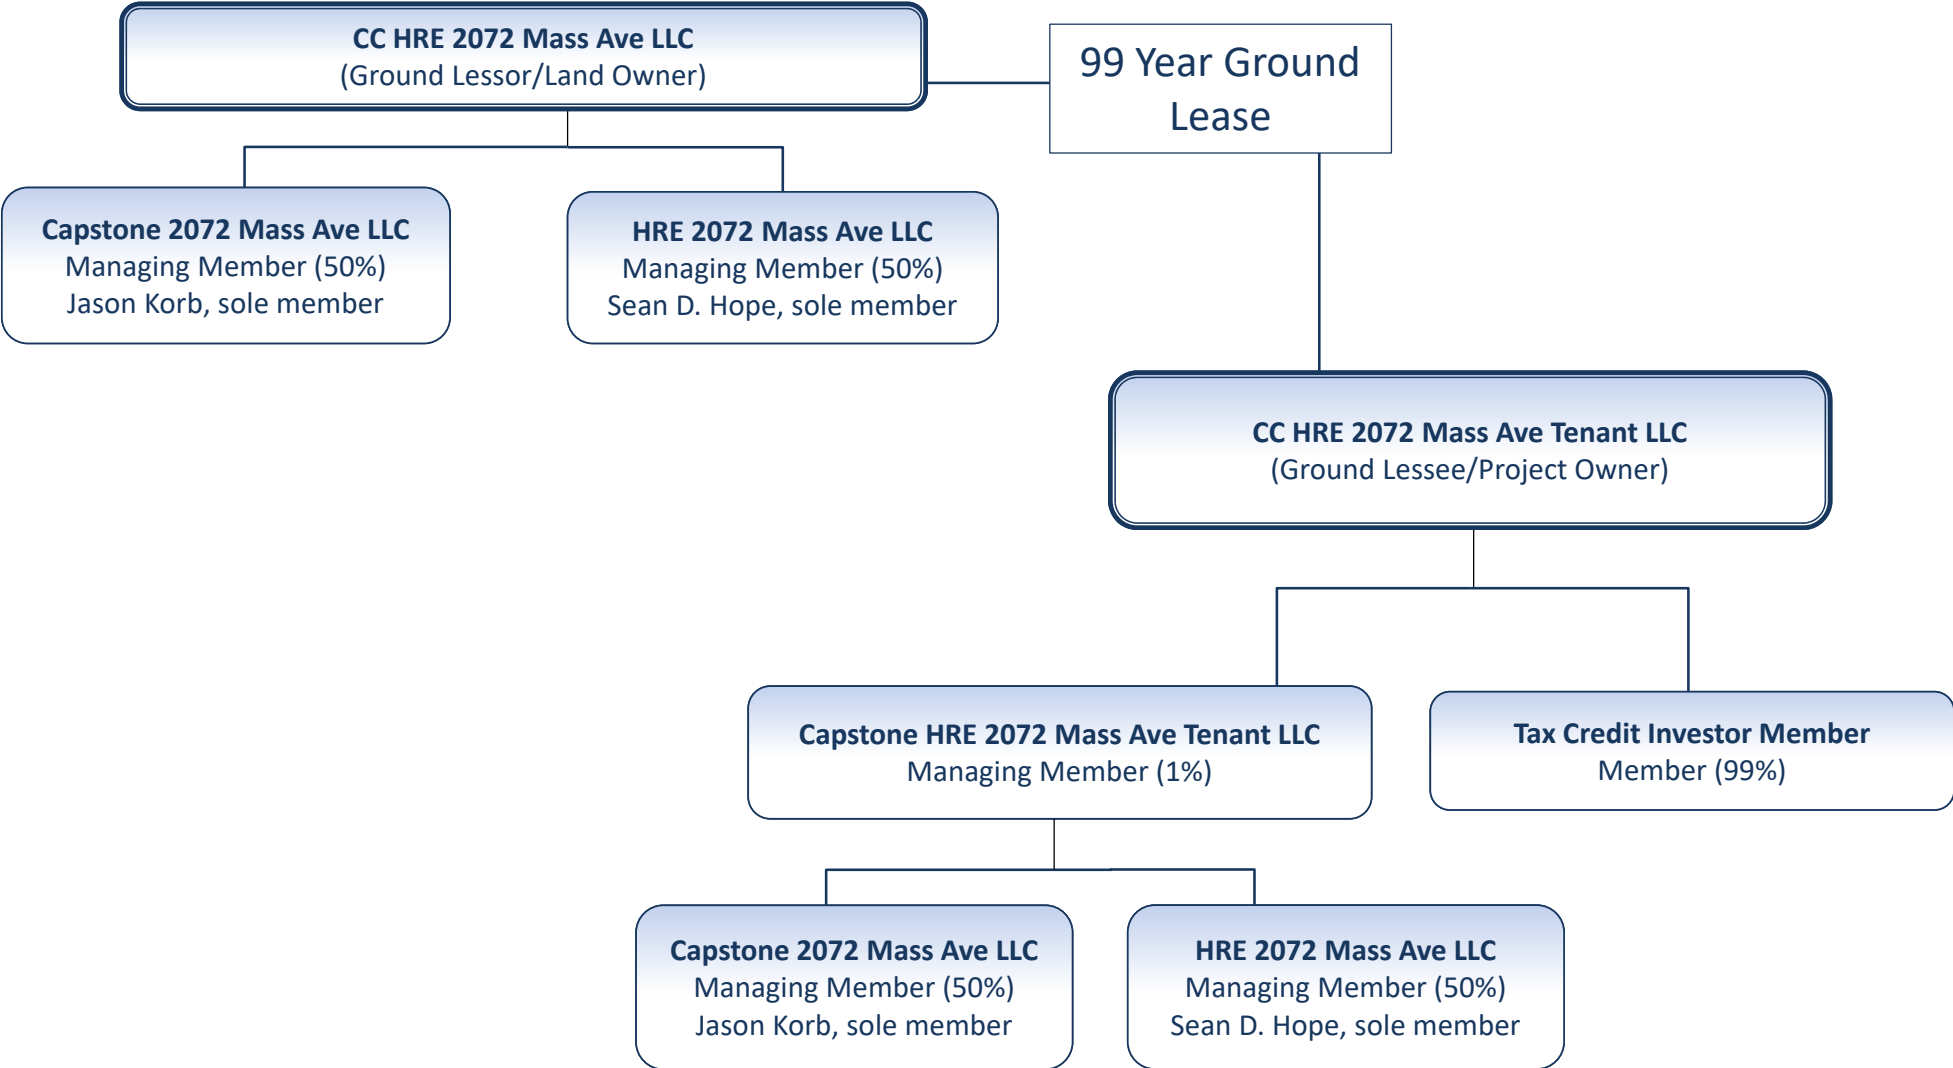

Jason Korb

SECTION 5
REQUESTED WAIVERS FROM LOCAL REQUIREMENTS
AND REGULATIONS

**LIST OF REQUESTED EXEMPTIONS/
EXCEPTIONS/WAIVERS FROM THE APPLICABLE
CITY OF CAMBRIDGE ORDINANCES AND REGULATIONS
for CC HRE 2072 MASS AVE TENANT LLC
(Updated as of November 10, 2020)**

CAMBRIDGE ZONING ORDINANCE – CHAPTER 17 OF MUNICIPAL CODE

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
1.	§ 4.30 Table of Use Regulations and §4.31(g)	Multifamily dwelling is Prohibited in Residence B Zoning District.	The Applicant seeks zoning relief to allow the proposed Multifamily Development.
2.	§ 4.21 Special Classification Rules (Accessory Uses)	Allowed accessory uses include, inter alia, off-street parking, customary home occupations and certain service establishments and eating establishments for residents of multi-family dwellings.	To the extent that the proposed building amenity uses are not enumerated in Section 4.21, the Applicant seeks zoning relief to allow the proposed amenity uses for the building occupants.
3.	§ 4.37(B) (2) Light Industry, Wholesale Business and Storage	Table of Uses in article 4.30 prohibits Catering Commercial kitchen as known as wholesale food products, including bakery, confectionery and dairy products	The Applicant seeks zoning relief to allow a Catering or Commercial Kitchen in the area shown on the plans as Retail.
4.	§ 5.11 Development Standards – General Regulations	No building or structure shall be built nor shall any existing building or structure be enlarged which does not conform to the regulations as to maximum ratio of floor area and lot areas, minimum lot sizes, minimum lot area for each dwelling unit or equivalent, minimum lot width, minimum dimensions of front, side and rear yards and maximum height of structures.	The Applicant seeks zoning relief to allow the proposed Multifamily Development as shown on the Plans. Specific requests are set forth below. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
5.	§ 5.22.1 and § 5.22.3; §5.31 and Table 5-1 - Table of Dimensional Requirements – Residential Districts	Private open space shall be provided and shall be a percentage of the lot area as set forth in Section 5.31. An area designated as private open space must have both a width and a length of at least 15', except for balconies, and may not have a slope greater than 10%. With the exception of balcony areas, private open space shall be accessible to all occupants of a building; not less than ½ of the required private open space shall be provided at ground level or within 10' of the level of the lowest floor used for residential purposes. In the Residence B Zoning District, at least 50% of the required Private open space shall meet all of the requirements of Section 5.22.1. At least 50% of the required Private open space shall meet the definition of Permeable Open Space and shall not be subject to the dimensional limitations of Section 5.22.1 as applied to Private open space.	The Applicant seeks zoning relief to allow the proposed Multifamily Development as shown on the Plans. The proposed private open space has a width and length of less than 15', as shown on the Plans. All private open space is located at ground level. At least 50% of the provided private open space will be Permeable Open Space (as shown on the Plans); however, as described above, the proposed Multifamily Development does not meet the required private open space requirement. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
6.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Maximum Ratio of Floor Area to Lot Area = 1.0 for Non-residential Uses and 1.75 for Residential Uses.</p> <p>Residence B Maximum Ratio of Floor Area to Lot Area is .50.</p> <p>For those portions of any lot exceeding 5,000 sf, the applicable Maximum Ratio of Floor Area to Lot Area shall be 0.35 for all permitted residential uses.</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The existing Ratio of Floor Area to Lot Area is approximately 0.22 and the proposed Ratio of Floor Area to Lot Area is approximately 6.74.
7.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Minimum Lot Area for Each Dwelling Unit = 600 sf. Per dwelling unit.</p> <p>Residence B Minimum Lot Area for Each Dwelling Unit = 2,500 per dwelling unit.</p> <p>For those portions of any lot exceeding 5,000 sf, the applicable Minimum Lot Area for Each Dwelling Unit shall be 4,000 sf.</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The proposed 49 dwelling units cannot comply with the Minimum Lot Area for Each Dwelling Unit requirement.
8.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Minimum Front Yard = 5'</p> <p>Residence B Minimum Front Yard = 15'</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The smallest existing front yard setback is approximately 0'; the smallest proposed front yard setback will be approximately 0'.
9.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Minimum Side Yard = 10' on both side yards.</p> <p>Residence B Minimum Side Yard = 7'6" (sum of 20).</p>	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The smallest existing side yard setback is approximately 42.4'; the smallest proposed side yard setback will be approximately 0'.
10.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	<p>Business A-2 Maximum Height = 45'</p> <p>Residence B Maximum Height = 35'</p>	Due to the need for a building height of approximately 89' and considering the adjustments that may occur during development of the plans and drawings from design development to full construction drawings, the Applicant seeks a waiver of the height requirement not less than 89' and not greater than 95'.
11.	§6.36.1 – Schedule of Parking and Loading Requirements	<p>In Business A-2 District, there is a one parking space per dwelling requirement.</p> <p>In Residence B district, multifamily dwellings are not allowed; therefore, Section 6.36.1(g) states that there is no applicable requirement for off-street parking for multifamily dwellings in the Residence B district.</p>	<p>Although there is no technical requirement for off-street parking in the Residence B district for a multifamily use, the Applicant seeks a waiver to allow the proposed Multifamily Dwelling with three (3) proposed accessible off-street parking spaces and two (2) drop off spaces as shown on the Plans.</p> <p>A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.</p>

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
12.	§6.42 – Design and Maintenance of Off-Street Parking Facilities – Dimensions for Off-Street Parking Spaces	Dimensions for off street parking spaces. Aisle Width of 22’ required.	To waive the requirement for a dimensional variance and to allow the proposed Multifamily Development as shown on the Plans. The proposed dimension of parking spaces shall be less than minimum required aisle width will be less than the required 22’.
13.	§6.43.4(c) – Design and Maintenance of Off-Street Parking Facilities – Driveways	Grade and design of driveway shall provide a clear view to the driver of any car exiting from the facility, or traffic on the street and of pedestrians.	Due to constraints of the driveway location and building, the clear view from the proposed driveway to Massachusetts Avenue when looking south may be compromised. The Applicant requests a waiver from the requirement for a variance and to allow the proposed Multifamily Development as shown on the Plans.
14.	Article 19 – Project Review	Establishes traffic and urban design standards for development projects exceeding 20,000 gross square feet that are likely to have a significant impact on abutting properties and the surrounding urban environment. Requirements include a Special Permit from the Planning Board including Traffic Impact Review (including a Traffic Impact Study), Urban Design Review, Tree Study, Sewer Service Infrastructure Review, Water Service Infrastructure Review, Noise Mitigation Review, Citywide Advisory Development Consultation and specific building and site plan elements.	To waive all of the applicable Article 19 requirements for a Planning Board Special Permit and other requirements and to allow the proposed Multifamily Development that exceeds 20,000 gross square feet. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
15.	§20.100 Massachusetts Avenue Overlay District	Contains specific requirements for projects located within the Massachusetts Avenue Overlay District, including use regulations, dimensional requirements, and design standards. Projects are also required to comply with the Large Project Review process.	To waive all of the applicable requirements of Section 20.100 without the need for a Planning Board Special Permit and to allow the proposed Multifamily Dwelling without a Special Permit from the Planning Board. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

MUNICIPAL CODE

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers and Notes</u>
1.	Chapter 12.04.020 - Street Numbers	The City Council shall assign numbers to houses.	To waive the requirements of this provision of the Municipal Code so that no separate approval is required from the City Council. To allow the Board of Zoning Appeals to delegate the task of assigning house number(s) for the proposed Multifamily Development to the Building Department, to be completed prior to issuance of Certificates of Occupancy. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
2.	Chapter 12.12.010 – Street Excavations	No excavation in a public way or disturbance of any sidewalk without a license from the Superintendent of Streets or approval from the City Council.	To waive the requirements of this provision of the Municipal Code so that no separate approval is required from the Superintendent of Streets and/or the City Council. To allow the Board of Zoning Appeals to allow any necessary excavation or disturbance of any public way or sidewalk needed for the construction and operation of the Multifamily Development, as shown on the Plans. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

RE: 8716

SUBJECT: Parking and Traffic Assessment - Proposed Residential Development
2072 Massachusetts Avenue, Cambridge, Massachusetts

Vanasse & Associates, Inc. (VAI) has completed a Parking and Traffic Assessment of a proposed 49-unit 100% affordable residential development with 1,040 square feet (sf) or ground floor retail to be located at 2072 Massachusetts Avenue in Cambridge, Massachusetts (Project). This is a revised study of the October 13, 2020 memorandum. The entire study was redone due to some Somerville streets being included in the October study area. Two short-term drop-off/pick-up spaces and three handicap spaces are proposed on-site. Contained within this memorandum is a parking supply and demand analysis within a quarter mile radius of site, estimated trip generation by mode split and a recommended a Travel Demand Management plan (TDM) for the proposed project.

PARKING SUPPLY AND DEMAND ANALYSIS

A comprehensive field inventory of the existing parking supply within approximately a quarter-mile radius of the Project was conducted in September 2020. While residents want to park as close as possible to their residence, the study area radius established by the city is a relatively short walk (5 minutes). Figure 1 depicts the study area. The field inventory consisted of on-street parking by quantity and type (handicapped, permit only and regulations). The study area was subdivided into twenty-seven (27) parking zones in order to identify parking trends occurring within the study area. Figure 2 identifies the parking regulations and number of parking spaces (928) in the area. Figure 3 depicts the residential permit parking spaces, handicap spaces, and spaces with no regulations which total 806 of the 928 spaces.

In order to determine the availability of parking spaces, a parking demand survey was conducted during a typical weekday (Tuesday October 20, 2020). The parking observations were conducted every 2 hours from 10:00 AM to 10:00 PM. Table 1 and Figure 4 summarize the parking demand observations for the available resident parking.

TOTAL	928	282	281	318	341	303	302	313

^aHighlighted rows include zones within two block of the site.

As shown in Table 1 and Figure 4 the peak demand occurs at 12:00 PM when 281 spaces were vacant. The Project has proposed only 2 short-term drop-off/pick-up spaces and 3 handicap spaces on-site and all other parking will be on-street. By not providing parking, the Project impact will be minimized as auto ownership will be discouraged. An auto ownership of 0.50 vehicles per unit equates to 25 vehicles. Zoning requires one space per unit. U.S. Census and 2018 American Community Survey data for Census Tract 3547, the tract in which the Project is located, indicates that 32 percent of trips are automobile trips. This suggests that the affordable residential unit ownership may be lower than the 50 percent. The 50 percent auto ownership is conservative. Residents of the site will want to park as close to the site as possible. Focusing on Zones 15, 16, 17, 22, 23, and 27 which are all 2 blocks from the site, there is a minimum of 50 spaces available during the peak parking demand at 12:00 PM. At 10:00 PM there are 54 spaces available in close proximity to the site. Based upon the parking analysis, there is more than adequate on-street parking to accommodate the Project.

PROPOSED SITE TRIP GENERATION

Traffic volumes expected to be generated by the Project were determined by using the ITE *Trip Generation*¹ manual and utilized Land Use Code (LUC 221), Multifamily Housing (Mid-Rise) and LUC 820, Shopping Center. It should be noted that the project is proposing affordable housing units which have lower vehicle trip rates than market rate units therefore the actual trip increases due to the development will be less than what is estimated by LUC 221. In addition, it is expected that a significant portion of the residents of the Project will utilize alternative modes of transportation other than automobiles. Based upon the U.S. Census and 2018 American Community Survey data for Census Tract 3547, the tract in which the Project is located, the mode split characteristics of the Project are estimated as follows: 32 percent automobile trips; 43 percent transit; 10 percent walk; 6 percent bicycle, and 9 percent other trips.

The Project trip generation by mode is summarized in Table 2.

As can be seen in Table 2, the Project is expected to generate approximately 98 vehicle trips on an average weekday (49 entering/49 exiting), with approximately 6 vehicle trips (2 entering/4 exiting) expected during the weekday morning peak-hour. During the weekday evening peak hour, the Project is expected to generate approximately 9 new vehicle trips (5 entering/4 exiting).

^gBicycle trips are 6 percent of total person trips, Census Tract 3547.

^hOther trips are 6 percent of total person trips, Census Tract 3547. Includes work from home.

TRANSPORTATION DEMAND MANAGEMENT (TDM)

Reducing the amount of traffic generated by the Project is an important component of the development plan. The goal of the TDM plan is to reduce the use of Single Occupant Vehicles by encouraging car/vanpooling, bicycle commuting, the use of public transportation and pedestrian travel. The following measures will be implemented as a part of the proposed project management team in an effort to reduce the number of vehicle trips generated:

- Designate an on-site employee as the site's Transportation Coordinator to oversee marketing and promoting of transportation options at the site.
- Provide new residents transportation information packets with information on getting around Cambridge sustainably.
- Install a real-time transit display screen in the lobby to make it simpler for residents, visitors, and employees to access real-time transit and Bluebikes availability information in the area. The screens will also post other useful information on single occupancy modes of travel, such as carpool/vanpool to supermarkets, etc.
- Subsidize 100 percent of the cost of a MBTA T pass for employees (building property managers/maintenance staff) or \$240 annual reimbursement for bike maintenance for employees who choose to commute by bike.
- Organize orientation sessions with residents to teach biking rules, safe biking measures, basic maintenance and repairs and help identify bike routes to various locations.
- Bicycle racks and a bicycle "Fix-it" station will be provided on-site.
- Annually, upon initial move-in and lease renewal, residents will be offered the choice of: (1) annual Bluebikes membership (including one-time discounted helmet through bluebikes), (2) \$90 credit for ride share service; (3) 1-month adult MBTA Monthly LinkPass, and/or (4) 3-month Student or Senior Monthly LinkPass. This will be provided PER RESIDENT (not per household) on an annual basis.

The above strategies will encourage non-auto travel by the residents.

SUMMARY

In summary, a detailed parking survey was completed in the area of the Project and based upon this data it can be concluded that there is more than sufficient availability of on-street parking to accommodate the Project. The Project proponent is committed to implementing a Travel Demand Management plan which promotes alternatives modes of transportation and will minimize the Project's impact on available on-street parking and traffic in the area.

SECTION 7
CIVIL ENGINEER'S NARRATIVE

2072 Massachusetts Avenue – Nitsch Project #14047
Infrastructure Narrative

Sanitary Sewer

The existing site is currently comprised of a restaurant with associated access, parking, and utilities.

A breakdown of the site’s existing sanitary sewer flow rates are as follows:

Existing Sanitary Sewer Flows (per 310 CMR 15.203)

Use	Unit Sewer Flow Rate (gpd)	Size	Existing Sewer Flow Rate (gpd)
Restaurant	35 (per seat)	37 seats	1,295
Total			1,295

The project proposes to redevelop the site into an eight-story building containing affordable housing units with ground floor retail. The sanitary sewage from the proposed building will be collected in new onsite sewer infrastructure and discharge into the existing 8-inch sewer main in Walden Street.

A breakdown of the site’s proposed sanitary sewer design flow rates are as follows:

Proposed Sanitary Sewer Flows (per 310 CMR 15.203)

Use	Unit Sewer Flow Rate (gpd)	Size	Proposed Sewer Flow Rate (gpd)
Residential Occupancy	110 (per bedroom)	98 bedrooms	10,780
Retail	50 (per 1000 sf)	4,380 square feet	219
Total			10,999

Stormwater/Drainage

The proposed drainage system is designed in compliance with MassDEP’s Stormwater Management Standards, as well as the City of Cambridge’s design requirements. These requirements include the use of NOAA Atlas 14 precipitation frequency estimates and the 2030 City of Cambridge storms in stormwater modeling, as well as phosphorus removal.

The majority of the stormwater runoff from the site will be collected and directed to an onsite stormwater detention/infiltration system located underneath the proposed parking garage. The system has been designed to meet the City’s attenuation and treatment requirements. The stormwater detention/infiltration system will overflow to the City’s combined sewer main in Walden Street.

Peak Runoff Rates

The Project proposes to collect the entire roof area (a majority of the site), including 1,170 square feet of green roof and direct it to an infiltration system. The proposed stormwater system is able to achieve the reduction of the peak flow rate for the proposed 25-year storm event to the existing 2-year storm event using 2030 Cambridge storm events. The project will also reduce the peak flow rates of all analyzed storm events to meet the MassDEP Stormwater Standards.

Peak Rates of Runoff (cfs) for the Total Site

Storm Event	Existing (Total, DP1)	Proposed
2-Year	0.62*	0.31
10-Year	1.05	0.49
25-Year	1.36	0.61*
100-Year	1.91	1.88

*Indicates comparison for 25-to-2 Requirement for City of Cambridge

Water Quality

The proposed infiltration system will provide 80% TSS removal rate as required by the MassDEP Stormwater Standards, as well as 65% Total Phosphorus removal as required by the City of Cambridge.

PHOSPHORUS REMOVAL CALCULATIONS						
<u>Land Conversion</u>						
	Existing			Proposed		
	Area ac	Export Rate lbs/acre/yr	Phosphorus Load lbs P/yr	Area ac	Export Rate lbs/acre/yr	Phosphorus Load lbs P/yr

Remaining reduction required after land-use change						0.06
*Export rate using average value from compiled research data						
<u>Structural Stormwater Strategies</u>						
	Surface Type	Treated Area (ac)	P Load Rate (lbs/ac/yr)	Starting P Load (lbs/yr)	P Removal (%)	P Removed (lbs/yr)
Infiltration	Roof	0.111	1.1	0.122	86%	0.105
	Pavement	0.000	1.78	0.000		0.00
	Landscape	0.000	0.27	0.000		0.000
				0.12		0.11
Total Phosphorus Removed						0.25

Groundwater Recharge

The annual recharge from the post-development site will approximate the annual recharge from pre-development conditions using the guidelines provided in the MassDEP Stormwater Management Handbook. The guidelines are based on soil type and the Project Site is an HSG C type soil.

Impervious Area in HSG C = 8,510 square feet
Rv (Recharge Volume) = 8,510 x 0.25 in. / (12 inches/ft)
= 177 cubic feet

Proposed Recharge Volumes

Infiltration BMP	Recharge Volume (cf)
Subsurface Infiltration System	666

A minimum two feet of separation has been maintained between the bottom of the infiltration system and seasonal high groundwater.

Conclusions

The project has been designed to meet, and in some cases, exceed, the MassDEP Stormwater Standards as well as the City of Cambridge's stormwater requirements.

Domestic Water and Fire Protection Service

The Project's water demand estimate for domestic services is based on the Project's estimated sewage generation, described above. A conservative factor of 1.1 (10%) is applied to the estimated average daily wastewater flows calculated with 310 CMR 15.203 values to account for consumption, system losses and other usages to estimate an average daily water demand. The Project's estimated domestic water demand is 12,099 gallons per day. The project proposes to install new domestic and fire protection services that connect to the City water main in Walden Street in accordance with the Cambridge Water Department regulations and requirements. All water service connections will be fully coordinated with the City Water Department.

A hydrant flow test was recently completed to determine pressure in the existing water main. Based on the results, it is anticipated that a water pressure booster pump will be required for the domestic water system, and a fire pump will be required to provide the required pressure for the building's sprinkler system. The fire protection system design will be coordinated with the City Fire Chief.

SECTION 8
WALDEN STREET UTILITIES REPORT

Summary of Underground Utility Locating

Prepared For: Capstone Communities

Prepared By:
Sean Parker
Sean.Parker@gprsinc.com
Project Manager -Boston
617-372-6695

Capstone Communities

Attn: Jenny Tamarkin

Site: 2072 Massachusetts Ave

Cambridge, MA

We appreciate the opportunity to provide this report for our work completed on November 2, 2020.

PURPOSE

The purpose of the project was to search for underground utilities within the project boundaries provided by the client. The scope of work consisted of 1 sidewalk and 2 electrical manholes/vaults. The client was concerned with the depth of the primary electrical lines running up and down the sidewalk adjacent to the building.

EQUIPMENT

- **Underground Scanning GPR Antenna.** The antenna with frequencies ranging from 250 MHz-450 MHz is mounted in a stroller frame which rolls over the surface. The surface needs to be reasonably smooth and unobstructed in order to obtain readable scans. Obstructions such as curbs, landscaping, and vegetation will limit the feasibility of GPR. The data is displayed on a screen and marked in the field in real time. The total depth achieved can be as much as 8' or more with this antenna but can vary widely depending on the types of materials being scanned through. Some soil types such as clay may limit maximum depths to 3' or less. As depth increases, targets must be larger in order to be detected and non-metallic targets can be especially difficult to locate. Depths provided should always be treated as estimates as their accuracy can be affected by multiple factors. For more information, please visit: [Link](#)
- **Electromagnetic Pipe Locator.** The EM locator can passively detect the electromagnetic fields from live AC power or from radio signals travelling along some conductive utilities. It can also be used in conjunction with a transmitter to connect directly to accessible, metallic pipes or tracer wires. A current is sent through the pipe or tracer wire at a specific frequency and the resulting EM field can then be detected by the receiver. A utility's ability to be located depends on a variety of factors including access to the utility, conductivity, grounding, interference from other fields, and many others. Depths provided should always be treated as estimates as their accuracy can be affected by multiple factors. For more information, please visit: [Link](#)
- **GPS.** This handheld GPS unit offers accuracy down to 4 inches; however, the accuracy will depend on the satellite environment and obstructions and should not be considered to be survey-grade. Features can be collected as points, lines, or areas and then exported into Google Earth or overlaid on a CAD drawing. For more information, please visit: [Link](#)

PROCESS

The process typically begins with using the EM pipe locator to locate pipes or utilities throughout the scan area. First, the transmitter is used to connect to and trace any visible risers, tracer wires, or accessible, conductive utilities provided that there is an exposed, metallic surface. The areas are then swept with the receiver to detect live power or radio frequency signals. Locations and depths are painted or flagged on the surface. Depths cannot always be provided depending on the location method and can be prone to error.

Initial GPR scans were then collected in order to evaluate the data and calibrate the equipment. Based on these findings, a scanning strategy is formed, typically consisting of scanning the entire area in a grid with 5x5' scan spacing in order to locate any potential utilities that were not found with the pipe locator. The GPR data is viewed in real time and anomalies in the data are located and marked on the surface along with their depths using spray paint, pin flags, etc.

LIMITATIONS

Please keep in mind that there are limitations to any subsurface investigation. The equipment may not achieve maximum effectiveness due to soil conditions, above ground obstructions, reinforced concrete, and a variety of other factors. No subsurface investigation or equipment can provide a complete image of what lies below. Our results should always be used in conjunction with as many methods as possible including consulting existing plans and drawings, exploratory excavation or potholing, visual inspection of above-ground features, and utilization of services such as One Call/811. Depths are dependent on the dielectric of the materials being scanned so depth accuracy can vary throughout a site. Relevant scan examples were saved and will be provided in this report.

FINDINGS

The subsurface conditions at the time of the scanning allowed for maximum GPR depth penetration of 4-5 feet in most areas. Multiple utilities were able to be located such as gas, water, unknown, signal controls and possible secondary lines feeding street lamps using either the GPR or EM pipe locator. Some utilities were not able to be located such as the sanitary line. GPR data did not allow for depth information and exploring manholes located on Walden St did not show any laterals, estimated depth entering the sanitary main would be 7-9 feet.

The primary electrical line was estimated at 3.5-4.5 feet for most of the investigation, one manhole it was measured at 2.5-3 feet from the surface, and after passing through the service utilities it measured 5 feet at the manhole on the corner of Walden and Mass Ave. GPR depths in the middle sections estimated at lines at 3.5-4.5 feet.

The following pages will provide further explanation of the findings.

Terms and Conditions

GPRS does not provide land survey or civil engineering data collection or documentation. This is provided as a reference map of the field markings and is not survey-grade.

LEGEND

	ELECTRIC		SANITARY
	WATER		STORM
	COMM		UNKNOWN
	GAS		

2072 Massachusetts Ave
Cambridge, MA

Prepared by:

Secondary electrical line to the building exits at 1.5-2 feet and enters the building under the concrete ramp area.

Primary electrical line exits this manhole at 2.5-3 feet from the surface and travels up the sidewalk at a depth of 3.5-4.5 feet.

Water service 4.5-5.5 feet from the surface, valve located on the sidewalk, gas line 3-3.5 deep, valve located on the sidewalk. Electrical line 4-4.5 in this section.

Manhole located on the corner of Walden and Mass Ave, enters the vault at 5-5.5 feet with multiple lines running to adjacent handholes and vaults 2-3 feet from the surface and 1-2 feet.

Possible signal control or site lighting located 1-2 feet from the surface, extending in both directions down Mass Ave.

Electrical handhole located on the bottom right, potential signal or site lighting controls – electrical was being feed from a black transformer located on the sidewalk.

CLOSING

GPRS, Inc. has been in business since 2001, specializing in underground storage tank location, concrete scanning, utility locating, and shallow void detection for projects throughout the United States. I encourage you to visit our website (www.gprsinc.com) and contact any of the numerous references listed.

GPRS appreciates the opportunity to offer our services, and we look forward to continuing to work with you on future projects. Please feel free to contact us for additional information or with any questions you may have regarding this report.

Thank you,

Sean Parker
Project Manager — Boston

Direct: 617-372-6695

COMPREHENSIVE PERMIT APPLICATION

2072 MASS AVE APARTMENTS
2072 MASSACHUSETTS AVENUE, CAMBRIDGE, 02140

SECTION 9
GREEN BUILDING REPORT

2072 Mass Ave. Passive House Net Zero Narrative

2072 Massachusetts Avenue Passive House
2072 Mass Ave., Cambridge MA, 02140
September 10, 2020

Submitted To:
Community Development Department, City of Cambridge
344 Broadway, Cambridge MA, 02138

PROJECT PROFILE

DEVELOPMENT CHARACTERISTICS

Lot Area (sq.ft.):	~8,515 SF
Existing Land Use(s) and Gross Floor Area (sq.ft.), by Use:	BA-2 / Business A02, ~1,860 GSF
Proposed Land Use(s) and Gross Floor Area (sq.ft.), by Use:	Residential Use, ~65,710 GSF (w/Basement), ~57,400 GSF (no basement)
Proposed Building Height(s) (ft. and stories):	~89'-0", 8 Stories
Proposed Dwelling Units:	49 affordable
Proposed Open Space (sq.ft.):	0
Proposed Parking Spaces:	3 handicapped
Proposed Bicycle Parking Spaces (Long-Term and Short-Term):	51 long-term (48 Long-Term & 3 Tandem), 5 short-term

GREEN BUILDING RATING SYSTEM

The Rating System Selected for this project is as follows:

Passive House Institute US (PHIUS)			
Rating System & Version:	PHIUS+ Core	Seeking Certification?	YES

PROPOSED PROJECT DESIGN CHARACTERISTICS

BUILDING ENVELOPE

Roof	Roof Trusses w/ ~R-32 c.i. (~6" XPS Insulation)
Foundation	Concrete Foundation w/ ~R-30 c.i. (6" Low GWP Closed-cell Spray Foam Insulation @ R-5/in)
Exterior Walls	6" metal stud wall w/ ~R-18 c.i. (3" Polyisocyanurate or XPS), exterior rainscreen system

Windows	PHIUS approved window assemblies, thermally broken storefront system
Window to Wall Ratio	~30%
Other Components	Project team is considering sun shades on the south facade

ENVELOPE PERFORMANCE

	Proposed		Baseline	
	Area (sf)	U-value	Area (sf)	U-Value
Window	~7,250 SF	U-0.17 (SHGC – 0.32)	~7,250 SF	U-0.38 (fixed), U-0.45 (operable), 0.38 (SHGC - South, East, West), 0.51 (SHGC - North)
Wall	~32,865 SF	~U-0.05	~32,865 SF	U-0.064
Roof	~7,500 SF	~U-0.031 c.i.	~7,500 SF	U-0.032

ENVELOPE COMMISSIONING PROCESS

The project team has planned to test and verify the envelope air barrier and air infiltration rates using bi-directional blower door testing both at construction midpoint and again after construction completion. Two (2) inspections will be performed after framing and air-sealing are complete but before insulation is installed, in order to identify any potential areas of thermal bridging and/or air infiltration. These inspections will be documented with site photos. Once installed, the air barrier will be tested with a bi-directional whole building blower door test conducted to PHIUS+ CORE standards. At the end of construction, the whole building blower door test will be repeated to confirm air-tightness, and 13 units will be blower door tested for air infiltration rates per RESNET sampling protocols. In addition, a two hour inspection using a thermal imaging camera will be conducted to show compliance with thermal bridging and air sealing protocols.

BUILDING MECHANICAL SYSTEMS

SYSTEM DESCRIPTIONS

System	System Description
Space Heating:	Central VRF (11.2 EER, 23.4 IEER, 3.30 COP at 47F, 24.7 SCHE)
Space Cooling:	Central VRF (11.2 EER, 23.4 IEER, 3.30 COP at 47F, 24.7 SCHE)
Heat Rejection:	See above systems
Pumps & Auxiliary:	See above systems
Ventilation:	Central rooftop energy recovery ventilator with 75% heat recovery efficiency wheel and DX coil for heating/dehumidification
Domestic Hot Water:	Central gas-fired boiler plant potentially located at a penthouse level mechanical room to allow for future conversion to an all-electric DHW system
Interior Lighting:	LED
Exterior Lighting:	LED
Other Equipment:	TBD

SYSTEMS COMMISSIONING PROCESS

The project will retain a licensed commissioning agent (CxA) who will develop a detailed commissioning plan based on the building specifications and systems. The CxA will develop a functional performance test sheet for each system to be commissioned, and will commission the following systems: Mechanical systems and equipment including Energy Recovery Ventilation (ERV) systems, common space exhaust fans, the central VRF heating and cooling system and all apartment fan coils, and all direct digital controls. For lighting systems, all common space lighting control systems including occupancy sensors will be commissioned and sampled at the appropriate rate. For plumbing systems, the domestic hot water heating system including hot water heaters, storage tanks, circulating pumps, thermostatic mixing valves, and controls will be sampled at the appropriate rate.

ANTICIPATED ENERGY LOADS AND GREENHOUSE GAS EMISSIONS

Assumptions

The project will pursue Passive House certification and utilize WUFI energy modeling to demonstrate energy loads and energy use. The anticipated baseline building (ASHRAE 90.1-2013) energy use is indicated in the table below. Building heating and cooling loads, hot water heating load, lighting in units and common spaces, appliance and plug loads as well as miscellaneous system loads were included in this preliminary energy model.

	Proposed	Baseline
Site EUI (kBtu/yr./sq.ft.)	20	43.9
Source EUI (kBtu/yr./sq.ft.)	48	124.8

Annual Projected Greenhouse Gas (GHG) Emissions:

The annual expected Co2 emissions for the building based on the preliminary WUFI energy model are as follows:

Utility	Co2 emissions in metric tons/yr.
Electricity	69.45
Natural Gas	14.98

Annual Projected Energy Consumption:

The annual expected energy consumption for the project is presented in the tables on the following pages. These tables were generated as part of the preliminary WUFI modeling exercise for the project.

ANNUAL HEAT DEMAND

Transmission losses :	551,675 kBtu/yr
Ventilation losses:	164,937 kBtu/yr
Total heat losses:	716,611 kBtu/yr
Solar heat gains:	168,519 kBtu/yr
Internal heat gains:	399,611 kBtu/yr
Total heat gains:	568,130 kBtu/yr
Utilization factor:	86.2 %
Useful heat gains:	489,669 kBtu/yr
Annual heat demand:	226,943 kBtu/yr
Specific annual heat demand:	3,805.2 Btu/ft ² /yr

ANNUAL COOLING DEMAND

Solar heat gains:	297,293 kBtu/yr
Internal heat gains:	656,805 kBtu/yr
Total heat gains:	954,098 kBtu/yr
Transmission losses :	836,470 kBtu/yr
Ventilation losses:	828,133 kBtu/yr
Total heat losses:	1,664,603 kBtu/yr
Utilization factor:	46.8 %
Useful heat losses:	779,693 kBtu/yr
Cooling demand - sensible:	174,405 kBtu/yr
Cooling demand - latent:	25,356 kBtu/yr
Annual cooling demand:	199,760 kBtu/yr
Specific annual cooling demand:	3.3 kBtu/ft ² /yr

SPECIFIC HEAT/COOLING DEMAND MONTHLY

Month	Heating [kBtu/ft²]	Cooling [kBtu/ft²]
January	1.3	0
February	0.8	0
March	0.5	0
April	0.1	0
May	0	0.1
June	0	0.5
July	0	1.4
August	0	1.1
September	0	0.3
October	0	0
November	0.4	0
December	0.8	0

HEATING LOAD

	First climate	Second climate
Transmission heat losses:	178,137.7 Btu/hr	126,703.6 Btu/hr
Ventilation heat losses:	76,794.1 Btu/hr	54,621.2 Btu/hr
Total heat loss:	254,931.8 Btu/hr	181,324.7 Btu/hr
Solar heat gain:	20,522.7 Btu/hr	11,605.6 Btu/hr
Internal heat gain:	30,252.3 Btu/hr	30,252.3 Btu/hr
Total heat gains heating:	50,775 Btu/hr	41,857.9 Btu/hr
Heating load:	204,156.8 Btu/hr	139,466.8 Btu/hr
Relevant heating load:	204,156.8 Btu/hr	
Specific heating load:	3.4 Btu/hr ft ²	

COOLING LOAD

Solar heat gain:	56,811.3 Btu/hr
Internal heat gain:	74,985.1 Btu/hr
Total heat gains cooling:	131,796.4 Btu/hr
Transmission heat losses:	-18,131 Btu/hr
Ventilation heat losses:	-6,751.1 Btu/hr
Total heat loss:	-24,882.1 Btu/hr
Cooling load - sensible:	156,678.6 Btu/hr
Cooling load - latent:	0 Btu/hr
Relevant cooling load:	156,678.6 Btu/hr
Specific maximum cooling load:	2.6 Btu/hr ft ²

ELECTRICITY DEMAND - AUXILIARY ELECTRICITY

Type	Quantity	Indoor	Norm demand	Electric demand [kWh/yr]	Source energy [kBtu/yr]
Ventilation winter	1	no	1 W/ctm	14719.2	140613.4

DHW AND DISTRIBUTION

DHW consumption per person per day: **6.6 gal/Person/day**
Average cold water temperature supply: **52.8 °F**

Useful heat DHW: **249,984.9 kBtu/yr**
Specific useful heat DHW: **4,191.6 Btu/ft²yr**

Total heat losses of the DHW system: **32,418 kBtu/yr**
Specific losses of the DHW system: **543.6 Btu/ft²yr**

Performance ratio DHW distribution system and storage: **1.1**
Utilization ratio DHW distribution system and storage: **0.9**
Total heat demand of DHW system: **282,402.9 kBtu/yr**
Total specific heat demand of DHW system: **4,735.1 Btu/ft²yr**

Total heat losses of the hydronic heating distribution: **0 kBtu/yr**
Specific losses of the hydronic heating distribution: **0 Btu/ft²yr**
Performance ratio of heat distribution: **100 %**

BUILDING ENERGY PERFORMANCE MEASURES

Overview

Land Uses	The project is a mixed-use affordable housing transit-oriented development that is close to the Porter Square MBTA station. It also promotes walking and bicycling. Efficient use of limited building footprint includes approximately 525 square feet of amenity space, approximately 1040 square feet of neighborhood retail, and pedestrian scaled streetscapes.
Building Orientation/Massing	The proposed project is an eight (8) story tower with residential access to the building on Walden St, and retail space opening onto Mass. Ave.
Envelope Systems	High performance glazing and building envelope reduces the heating/cooling equipment sizes and low air infiltration rates improve indoor air quality and thermal comfort to the occupants.
Mech Systems	High efficiency mechanical systems include energy recovery ventilation, efficient air source heat pump technology, MERV 13 filtration, LED lighting, and low-flow plumbing fixtures.
Renewable Energy Systems	Preliminary WUFI energy models show that the project may meet the PHIUS site energy requirements without the inclusion of Solar PV. The project team will continue to track this item.
District Wide Energy Systems	N/A
Other	The project team has included 3 accessible parking spaces at the ground level and 2 temporary parking spaces to serve as a drop-off/pick-up area. The project has also focused on minimizing auto use, and has included 51 long term bike parking spaces (48 racks and 3 spaces for tandem or utility bikes).

INTEGRATIVE DESIGN PROCESS

The development team will present to the community on potential designs, design features, and the inclusion of affordable units as part of their early stage process. As part of the integrative design process, the developer, architect, mechanical engineer, and environmental consultant team have conducted a Green Charrette early on in the Schematic Design process and developed consensus on building systems and design that is consistent with PHIUS Passive House requirements.

SOLAR READY ROOF ASSESSMENT

To meet the very high level of performance required by the Passive House PHIUS+ CORE standard, results from preliminary energy models run by the project team indicated that this building likely does not require a PV array on the roof to meet the source energy goals. The project team is currently exploring placement of a mechanical room on the roof to enable a conversion to an all-electric DHW system in the future. This will limit available roof space for solar PV, but the building will be solar ready to allow for the potential addition of PV in the future. While this 49 unit building will be as energy efficient as possible, maximizing the potential to be a carbon neutral building in the future would likely involve purchasing renewable energy credits to offset the emissions from grid purchased power.

GREEN BUILDING INCENTIVE PROGRAM ASSISTANCE

Below is a description of programs applicable to this project that support improved energy performance or reduced greenhouse gas emissions, and which of those programs have been contacted and may be pursued.

The project plans to offset the costs of an energy efficient building envelope and electric heating and cooling system cost by utilizing all available rebate programs. The project is enrolled in the MassSave Passive House incentive program, and expects to use the Passive House Feasibility incentives from this program to offset the costs of energy modeling to meet Passive House standards. The project team plans to fully certify the building in order to be eligible for the full incentive package offered by MassSave. In addition, should the building systems qualify for the DOER Alternative Energy Certificate (AEC) incentive program, the project team will register for that incentive package as well.

NET ZERO SCENARIO TRANSITION

Below is a description of the technical framework by which the project can be transitioned to net zero greenhouse gas emissions in the future, acknowledging that such a transition might not be economically feasible at first construction. This description explains the future condition and the process of transitioning from the proposed design to the future condition.

	Net Zero Condition	Transition Process
Building Envelope	The building envelope will be built to PHIUS Passive House standards, making it an ideal structure to achieve Net Zero. The envelope will be well insulated and have a low level of air infiltration which will be tested and verified at construction.	This system will be a zero (site) emissions system at installation.
HVAC Systems	The heating system will be all-electric, with a highly efficient central VRF system installed at construction. In addition, central rooftop energy recovery ventilation will be used to capture energy from the ventilation system.	This system will have a zero (site) emissions system at installation.
Domestic Hot Water	A central gas-fired boiler plant will be included at construction. The project team is investigating the potential of locating these systems in a penthouse level mechanical room to allow for future conversion to an all-electric DHW system.	At the end of the system lifetime, the project team expects the all-electric DHW system technology to have advanced sufficiently to allow for conversion of this system to all-electric. The project team is investigating locating the DHW system on the roof specifically to allow for future conversion.
Lighting	The project will use LED lighting throughout at construction. The building energy model for this project, completed using WUFI modeling software for use in Passive House projects, does factor in and measure Lighting Power Density as a calculation in overall building energy	The building and management team will include updated technology as it is available and will update systems at the end of service life of the lighting systems.

	consumption. Fixtures have been modeled and will be specified in project documents to meet or exceed the energy requirement of the WUFI model.	
Renewable Energy Systems	The building will be Solar Ready at construction.	In order to become fully carbon neutral, this project will likely have to purchase renewable energy credits given the building footprint and limited roof area.
Other Strategies	The project is actively considering and modeling the use of window shading to reduce building energy consumption during summer months, while also allowing solar thermal gains during winter months.	

RESILIENCY

The project team has considered various resiliency strategies to reduce the project's and the residents' overall vulnerability. These resilience strategies are identified and summarized below in five sections.

EXISTING SITE ASSESSMENT

The project team has evaluated the flood risk based on current maps and future projections for the site and surrounding area. While the site is not located in a FEMA flood zone, and is not projected to be exposed to flood risk in forward looking models through the year 2070, the project team is actively considering resilience and risk mitigation strategies.

The project is at an average site elevation of ~35.95 ft-CCB, which translates to ~25.11 NGVD (ft-CCB is at 10.84 below NGVD). Based on the 2010 FEMA / FIRM Map, the site is located in Zone X Area of Minimal Flood Hazard, and is determined to be outside the 0.2% annual chance floodplain boundary (500-year flood scenario). Since the project is outside of the FEMA flood zones, FEMA has not determined a base flood elevation for this project site. The image below shows the project's location on the FEMA flood map.

Based on the City of Cambridge FloodViewer v2.1, the site is outside the boundary of both the 2070 – 10 and 100 Year flood elevations. The below diagram indicates the extents of 2070 – 100 Year Precipitation nearby further down Walden St, and across Massachusetts Avenue. Although the project is not projected to be impacted by flooding, the project team has considered how to mitigate impacts from extreme events, and has outlined a number of resilience strategies and actions below.

Address: 12 Walden St

Ground Elevation Min:	35.70 ft-CCB
Ground Elevation Max:	38.90 ft-CCB
2070- 100 Year- SLR/SS	N/A
2070- 100 Year - Precip	N/A
2070- 10 Year - SLR/SS	N/A
2070- 10 Year - Precip	N/A
2030- 100 Year - Precip	N/A
2030- 10 Year - Precip	N/A
Present Day - 100 Year	N/A
Present Day - 10 Year	N/A
FEMA 500 Year	N/A
FEMA 100 Year	N/A

Selected Map-Lot: 200-22
Selected Address: 12 Walden St

PROTECTION STRATEGIES

The project will use strategies to reduce the building's vulnerability to extreme weather. The basement area will be waterproofed, as the building is outside of future projected flood risk zones. Flood resistant materials will be used in the basement, with concrete being the main material used. Sealants will be applied as needed and any cracks and penetrations will be sealed. Drywall use will be minimized in the basement, and any drywall used in the basement will be moisture, mold and mildew resistant purple board.

The transformer room will be waterproofed as needed based on its location in the building. Equipment located in the basement that must be on the floor will be located on 6" or 12" concrete pads as appropriate. Electrical outlets will be located 3'-0" above basement floor level. To prevent water intrusion, backwater valves will be installed as appropriate. In order to remove any water that does enter the basement, a sump pump will be installed and connected to emergency power. The project team will also work with the owner to develop an O&M manual which will include steps to take during flooding events.

ADAPTATION STRATEGIES

The project team is exploring the following strategies to improve the facility's ability to adapt to changing climate conditions. These strategies include both building elements and mechanical systems.

Building adaptation strategies include, but are not limited to, the following: Passive House level building envelope with operable windows to help with "passive survivability" – keeping the building habitable during extended power outages in any season. Reduced urban heat island effect enabled by the use of light colored and vegetated roofs. Window sunshades installed on the southwest façade to reduce solar heat gain during the summer, and interior window treatments (blinds) to reduce heat gain while allowing in light as needed.

Building mechanical system adaptation strategies include, but are not limited to, the following: Decentralized VRF heat pump mechanical system for both heating and cooling locates mechanical equipment on roof and in units instead of an area that can be potentially damaged by flooding. Other mechanical equipment, including air handlers, energy recovery ventilators, and emergency generator, are located on the roof and away from flood risk. All residential living areas are elevated, all are located on the second floor or above. The project team is also actively considering the inclusion of a stormwater capture system, including infiltration tanks.

BACKUP STRATEGIES

The project team is exploring how to provide for critical needs if the building loses power or other services. The project team plans to include an emergency generator located on roof and appropriate emergency lighting for evacuation and “sheltering-in-place”. Storage space will be available to provide access to water storage containers and access to potable water in the event of a power outage.

COMMUNITY RESILIENCE STRATEGIES

The project team is exploring how to encourage behavior which enhances resilience through cooperation. To enable this, the building’s amenity room encourages community building among residents. The planned amenity room includes communications resiliency measures e.g. phone charging, emergency refrigeration, and access to potable water as mentioned above. The project team will also evaluate the creation of an emergency operations manual for residents.

Summary

I was retained by CC HRE 2072 MASS AVE LLC for perform an evaluation of a Tilia cordata (Littleleaf linden) on the property line between 2050 and 2072 Massachusetts Avenue, Cambridge, MA. The focus of the evaluation was to assess the health and condition of the tree and, if preservation is an option, develop a Tree Protection Plan.

It is my opinion that the tree can be preserved and the specifications for the Tree Protection Plan are included in this report.

Introduction

On October 20, 2020 Jason Korb, of CC HRE 2072 MASS AVE LLC, contacted my office inquiring to retain consulting arborists in regard to a redevelopment project in Cambridge, MA. Mr. Korb informed me that there was a tree on the property line between the property he was redeveloping at 2072 Mass Ave. and the abutter at 2050 Mass Ave. He expressed a desire to preserve the tree and requested specification for a Tree Protection Plan.

I agreed to assist on the project. A site visit was scheduled for October 23, 2020 at 10:00 am.

Background & History

CC HRE 2072 MASS AVE LLC has acquired 2072 Mass Avenue, Cambridge, MA an ~8,500 sq ft property on the corners of Mass Ave and Walden Street. CC HRE 2072 MASS AVE LLC plans to renovate the property. There is one mature tree on the property line between 2072 and 2050 Mass Ave, a 12" diameter at breast height (DBH) Littleleaf linden. CC HRE 2072 MASS AVE LLC's goal is to preserve this tree.

A Tree Protection plan will be implemented to maximize the likelihood of the Littleleaf linden surviving the construction.

Assignment

The scope of the assignment is to assist CC HRE 2072 MASS AVE LLC in creating a Tree Protection Plan for the Littleleaf linden. This plan will have recommendations and specifications to provide the tree with the best chance of surviving the construction project.

The plan is included in this report.

Limits of Assignment

The recommendations and conclusions provided in this report are based on visual observations only. No examinations of the tree's interiors were taken nor were soil or plant tissue taken and submitted for laboratory testing unless otherwise stated.

Purpose and Use of Report

This report is intended to provide CC HRE 2072 MASS AVE LLC with as much information regarding the tree at 2072 Mass Ave. It will outline the tree protection plan, tree management plan and provide recommendations and specifications for care of the tree in all phases of the site development.

This report is the property of CC HRE 2072 MASS AVE LLC and can be used and shared as they see fit.

Observations

On October 23, 2020 at approximately 10:00 am I visited the site and inspected the Littleleaf linden. At this visit I observed the tree and its surrounding and took measurements and photographs. I also examined the construction plans for the site to determine impact in regard to the tree.

I identified the tree as a 12" DBH *Tilia cordata*, Littleleaf linden. It is located on the west property line of 2070 Mass Ave that abuts 2050 Mass Ave. It is growing in a strip of land approximately 10' x 55' running in roughly a north-south orientation.

Planting Strip

The Littleleaf linden appears to be in good health and has established itself well in this area.

Due to the fact that the roots zone is confined by a retaining wall to the west and the paved parking area to the east, the majority, if not all, of the viable roots of the tree are located in the planting strip. As such, if this area is to be protected and proper steps taken, the root system should remain viable and sustain the tree through construction.

I also reviewed the attached Support of Excavation (SOE), (See page XXX). The proposed soldier piles and lagging, denoted by the red-dashed line on the plans, will allow for the following tree protection plan to be implemented.

Discussion

Tree Projection Zone

A Tree Preservation Plan has several components, all focusing on giving the tree the best chance for surviving the construction project. The majority of the components involve protection the Critical Root Zone (CRZ). The CRZ is the minimum area beneath the canopy of a tree which must be left undisturbed in order to preserve a sufficient root mass to give a tree a reasonable chance of survival. The CRZ should be defined, at a minimum, of the tree's dripline, the area represented by the outer canopy of the tree. This is crucial because the absorbing roots, the roots that take in water and nutrients, must be undisturbed or the tree will suffer stress and may decline and even die. The Tree Protection Plan includes the establishment of a Tree Protection Zone (TPZ), ideally, the TPZ must include the CRZ. The larger the TPZ the better as the root zone of a tree could extend as much as two or three times the width of the canopy. This is an area that is enclosed by a semi-permanent fence with appropriate signage. Within the CRZ, trenching, pavement, soil compaction, mechanical injury, storing of materials and spoils and any change in grade should be avoided.

Ideal Tree Protection Zone

In this case the CRZ has been encroached upon by the pavement and retaining wall and the tree has adjusted its root growth accordingly by concentrating its root into the planting strip. As a result of the trees natural compensation to its environment a modified TPZ should be made to include as much of the planting strip as possible.

Proposed TPZ

Soil Compaction

All protected trees in the construction zone are subject to soil compaction from heavy vehicles, and any heavy debris placed in the Critical Root Zone (CRZ). Soil compaction occurs when the pore space

between soil particles is greatly reduced. This causes the reduction of oxygen available to the roots and can lead to decline in trees. Use of equipment, grading, digging, and heavily used walking paths can cause soil compaction in a construction area. Use protective fencing, mulching within the protective fencing, and limiting the amount of access routes will minimize soil compaction.

As the root system of trees is far more extensive than just the dripline, in this case in the entire planting strip, all equipment and materials should be kept out of the TPZ.

Mechanical Injury

There will be heavy equipment and vehicles used near the trees that are to be protected. Wounds to the tree's branches and trunk, caused by mechanical damage, may reduce tree stability by decreasing the wood strength, the internal movement of water and nutrients, and the ability to compartmentalize against decay. Enclosing the Critical Root Zone with protective fencing will prevent damage from construction equipment.

Change in Grade

Lowering or rising of the grade within the root zone can damage or kill a tree. The normal exchange of moisture and gases within the root zone is disrupted with the change in grade. The original grade should be maintained as far out from the trunk as possible. As little as four inches of soil placed over the root system can kill some species of trees. The change in grade can have either immediate or long-term adverse effects on the tree. If grade change is required use of retaining walls or soil cuts can improve the tree's tolerance to the grade change.

Excavation & Trenching

This project will require excavation for foundations. Excavation & trenching within the CRZ can damage the root system of a tree. Practicality requires the need to encroach on the CRZ, but care should be taken to excavate as little of the area adjacent to the tree as possible.

Irrigation

Irrigation should be provided within the CRZ as needed. A deep watering of the trees should take place before construction begins. During construction, the soil in the CRZ should be watered regularly and deeply so water penetrates the root area at least six to eight inches deep. A watering schedule will vary with climatic conditions, but a rule of thumb is 1" of water weekly during construction.

Soil Treatment

I am prescribing a non-nitrogen fertilizer that is high in phosphorus and potassium (0-20-20 fertilizer analysis) to promote root development. I recommend a fertilization in the spring. Applying the fertilizer in the early spring will prepare the trees for a flush of root development. Root development is most critical for the trees to prepare themselves for construction impact. The healthier and abundant the root system the more water and nutrients the tree can take in which is the best defense against stress.

The fertilizer shall be applied in a water solution, injected directly into the CRZ, in this case the entire TPZ, by means of an application needle under pressure. Injections should be made about every foot in a grid-like pattern.

Plant Healthcare

At this stage there does not appear to any major pest concerns on the trees. This will be monitored regularly (monthly) to see if conditions change. If there is a need to address insect, mite or disease pest a proper course of action will be prescribed at that time.

All plant healthcare treatments shall be performed by a certified arborist who is also a licensed pesticide applicator and supervised by an ISA Board Certified Master Arborist.

Conclusion

Based on my education, training and experience it is my opinion that taking this proactive approach to tree preservation will provide the Littleleaf linden at 2070 Mass Ave the best chance of surviving the construction. Setting up tree protection zones around the trees to retain, managing the flow and access of heavy equipment, performing required tree work prior to commencing construction and regular monitoring of the work site to ensure all practices are adhered to should make for a successful worksite.

Recommendations

Pre-Construction

Prior to construction the Tree Protection Zone should be established. A six-foot chain-link fence (or suitable alternative, i.e. snow fence), with signage designating a Tree Protection Zone, Keep Out, should be erected around all the protected tree and encompass the modified Critical Root Zone as explained above. Once installed this fence should not be moved nor the CRZ disturbed for the duration of the construction project.

The access way for heavy equipment should be established, as well as where equipment and materials will be stored. This should be as far away as possible from all protected trees and their root systems. No equipment or material may be stored on the root systems of the protected trees.

Construction

During the construction Phase of the project monitoring of the site is crucial. An ISA Board Certified Master Arborist should inspect the site monthly. The purpose of those visits is to ensure that the Tree Preservation Plan is being adhered to, adequate watering is taking place, trenching and excavations are following plan, inspect the trees for pest issues and make observations regarding any changes to the trees on the site.

Post-Construction

Monitoring after the construction is completed is very important to the long-term health of the trees. For a period of one growing season (starting the April following construction completion through that September) monthly monitoring will continue as during the construction period.

Glossary of Terms

Absorbing Roots	Fine, fibrous roots that take up water and minerals; most of them are within the top 12 inches of soil
Branch Union	The structural union of a lateral branch to the tree stem.
Caliper	Is measured approximately 6-12" from the root collar. Caliper is an American Nursery Standard measurement. Synonym for trunk diameter used to measure the size of nursery stock; by convention, measured 6" above the ground.
Canopy	The part of the crown composed of leaves and small twigs.
Certified Arborist	A professional arborist possessing current certification issued by the Massachusetts Arborists Association (MAA) and/or the International Society of Arboriculture (ISA)
Clinometer	A device used to measure the height of an object
Co-dominant	equal in size and relative importance usually associated with either the trunk/stems or scaffold limbs/ branches in the crown.
Critical Root Zone (CRZ)	The minimum area beneath the canopy of a tree which must be left undisturbed in order to preserve a sufficient root mass to give a tree a reasonable chance of survival. The CRZ is represented by a concentric circle centering on the tree's trunk and extending outward towards the tree's drip-line. The minimum area of the CRZ shall be dependent on the required minimum radius of the CRZ; the required CRZ shall be determined by multiplying a tree's DBH (in inches) by eighteen (18) inches, with the resulting product constituting the minimum radius of the CRZ.
Compost	Organic matter that has been intentionally subjected to decay processes and is more or less decomposed.
Crown	The upper part of a tree, measured from the lowest branch, including all the branches and foliage
DBH	Stands for Diameter Breast Height. The diameter of a tree measured at 4.5 feet above the ground.
Drip-line	Perimeter of the area under a tree including the branches and leaves
Establishment	The process of a tree becoming acclimated to a new environment, usually correlating the new root development that can sustain normal biological functions of the tree

Monitoring	A holistic approach to plant healthcare that includes inspecting plants for cultural problems, proper soil moisture and nutrient content and insect and disease issues-treating as necessary
Parity	The time, usually in years, that it takes for a replacement tree to provide similar attributes and benefits of a removed tree
Pruning	Systematic removal of branches of a plant usually a woody perennial
Restoration/Maintenance Program	A plan of maintenance and monitoring of trees to maximize survival or recovery rate of damaged or newly planted trees
Root Collar	Area at the base of the tree where the roots and the stem merge
Soil Compaction	Compression of the soil resulting in a reduction of the total air or pore space
Specimen Tree	A tree of high perceived value attributed to location, size, aesthetics, form or function
Stress	Any change in environment conditions that produce a less than ideal plant response
Transplant Shock	The stress a tree undergoes as a result of planting in a new location
Tree Protection Plan	Report to identify and protect trees indicated to remain. Procedures shall include protective measures to be used for both above and below grade.
Tree Protection Zone	An area usually defined by the drip-line of a tree. To protect a tree, no construction should ever occur within this area.

Assumptions and Limited Conditions

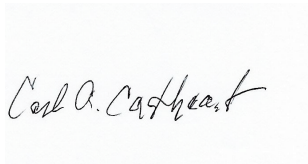

1. It is assumed that any property is not in violation of any applicable codes, ordinances, statutes or other governmental regulations.
2. Care has been taken to obtain all information from reliable sources. All data has been verified insofar as possible; however, the consultant can neither guarantee nor be responsible for the accuracy of information provided by others.
3. The consultant shall not be required to give testimony or to attend court by reason of this report unless subsequent contractual arrangements are made, including payment of an additional fee for such services as described in the fee schedule and contract of engagement.
4. Unless required by law, otherwise, possession of this report or a copy thereof does not imply right of publication or use for any purpose by any other than the person to whom it is addressed, without the prior expressed written or verbal consent of the consultant.
5. Unless required by law, neither all nor any part of the contents of this report, nor copy thereof, shall be conveyed by anyone, including the client, to the public through advertising, public relations, news, sales or other media, without the prior expressed written or verbal consent of the consultant-particularly as to value conclusions, identity of the consultant, or any reference to any professional society or institute or to any initialed designation conferred upon the consultant as stated in his qualifications.
6. This report expressed herein represent the opinion of the consultant, and the consultant's fee is in no way contingent upon the reporting of a specified value, a stipulated result, the occurrence of a subsequent event, nor upon any finding to be reported.
7. Sketches, drawings, and photographs in this report, being intended as visual aids, are not necessarily to scale and should not be construed as engineering or architectural reports or surveys unless expressed otherwise. The reproduction of any information generated by architects, engineers, or other consultants on any sketches, drawings, or photographs is for the express purpose of coordination and ease of reference only. Inclusion of said information on any drawings or other documents does not constitute a representation by *Plant Healthcare Consultants* as to the sufficiency or accuracy of said information.
8. Unless expressed otherwise: 1) information contained in this report covers only those items that were examined and reflects the condition of those items at the time of inspection; and 2) the inspection is limited to visual examination of accessible items without dissection, excavation, probing, or coring unless otherwise specified. There is no warranty or guarantee, expressed or implied, that problems or deficiencies of the plants or property in question may not arise in the future.
9. Loss or alteration of any part of this report invalidates the entire report.

Certification of Performance

Plant Healthcare Consultants certify that:

1. We have personally inspected the tree and property referred to in this report and have stated our findings accurately.
2. We have no current or prospective interest in the trees or the property that is the subject of this report and have no personal interest or bias with respect to the parties involved.
3. The analysis, opinions and conclusions stated herein are our own and are based on current scientific procedures and facts.
4. Our analysis, opinions and conclusions were developed and this report has been prepared according to commonly accepted arboricultural practices.
5. No one provided significant professional assistance to us, except as indicated within the report.
6. Our compensation is not contingent upon the reporting of a predetermined conclusion that favors the cause of the client or any other party or upon the results of the assessment, the attainment of stipulated results, or the occurrence of any subsequent events.

We further certify that Plant Healthcare Consultants is a member in good standing of the Massachusetts Arborist Association, American Society of Consulting Arborists, the International Society of Arboriculture and Massachusetts Tree Wardens and Foresters Association. We have been involved in the field of Arboriculture for over 60 years

QUITCLAIM DEED

2072 Mass Ave LLC, a Massachusetts limited liability company whose address is 33 Church Street, Cambridge, Massachusetts ("Grantor")

for consideration paid of Three Million Six Hundred Thousand and 00/100 Dollars (\$3,600,000.00),

grants to CC HRE 2072 Mass Ave LLC, a Massachusetts limited liability company whose address is c/o Capstone Communities LLC, 1155 Walnut Street #31, Newton Highlands, Massachusetts ("Grantee"),

WITH QUITCLAIM COVENANTS

A certain parcel of land situated in Cambridge, Middlesex County, Massachusetts, bounded and described as follows:

A certain parcel of land with the buildings thereon situated in said Cambridge on the Southeasterly corner of Massachusetts Avenue and Walden Street, and more particularly bounded and described as follows:

- NORTHWESTERLY: By said Walden Street, one hundred and fifteen and 27/100 (115.27) feet more or less;
- SOUTHWESTERLY: By land of Ferguson, seventy-five and 22/100 (75.22) feet more or less;
- SOUTHEASTERLY: By land of Daniel O'Connell, one hundred and thirteen and 10/100 (113.10) feet more or less;
- NORTHEASTERLY: By said Massachusetts Avenue, seventy-five and 46/100 (75.46) feet more or less in two lines.

Containing eight thousand five hundred and fifteen (8,515) square feet of land more or less.

Grantor is not taxed as a business corporation, but rather as a partnership, and therefore is not subject to the provisions of M.G.L. c. 62C.

Property address: 2072 Massachusetts Avenue, Cambridge, MA

The within conveyance is made subject to rights of existing tenants, and easements, rights, reservations and restrictions of record, if any, insofar as the same are in force, applicable, and survive the sale described herein, however not intending to revive any of the same hereby.

For title see deed in Book 70018, Page 247.

Members of the Board of Zoning Appeals

I am writing to express support for the affordable housing development proposed to be built at 2072 Massachusetts Avenue. Cambridge is in desperate need of more affordable housing and I am very impressed with the proposed building for 2072 Massachusetts Ave. North Cambridge is a logical part of the city in which to increase density in order to meet our growing demand for housing, especially for affordable housing. I am pleased to see this proposal moving forward in North Cambridge and specifically in this location between Porter and Davis Square. This particular location is particularly appealing for those opting to live car-free or car-minimum use lifestyle since its between 2 subway stops near multiple bus lines and also within walking distance of both the stores at Porter square and Pemberton farms and other stores along Mass ave. It is also within easy biking distance of the plazas at the Fresh Pond Rotary.

In addition to being 100% affordable housing I am pleased that the proposed building includes a range of apartment sizes from studios through 3 bedrooms so that individuals and families of varying sizes will all be represented in the new community. I was also pleased to see that 70% of the units will be reserved for those already living or working in Cambridge. I think a city is most vibrant and equitable when those who work in the city, in particular in retail, restaurant and other jobs that create a vibrant city, can afford to live in the city.

I am also excited by the environmentally friendly green roof, solar panels and other sustainability features of the design. Additionally the inclusion of bike parking, along with proximity to public transit, and electric vehicle charge will allow people to limit their contribution to climate change by opting to bike, walk and take the T for more trips and enable residents to opt for an electric car if they choose to own a car. Additionally taller buildings, which allow for more density in a given footprint, are a powerful way to lower the per person contribution to climate change through more efficient energy use.

Thank you
Rebekah Bjork

RE: Support for 2072 Massachusetts Avenue Case Number BZA-017326-2020

Dear Members of the Board of Zoning Appeal,

We are writing to express our strong support for the 49-unit 100% affordable housing apartment building proposed at 2072 Massachusetts Avenue. At a time when housing prices are out of reach for most families and many of our neighbors are unemployed and living with the increased threat of eviction, it is essential that Cambridge approve the 2072 Mass Ave project and others like it.

We are long-time residents of Cambridge (one of us grew up on Lakeview Ave). We chose to make Cambridge our home and raise our kids here (currently Graham and Parks and VLUS) because of the rich socioeconomic and ethnic diversity of this city. Building projects like 2072 are key to preserving this diversity. We live directly across the street from the Daniel Burns apartments, a 200 unit complex for seniors and know that many of our neighbors in these units (some of whom grew up in the neighborhood) would not be able to live in Cambridge if it weren't for this kind of affordable housing.

Residents opposed to this project point to congested traffic through the intersection as one reason the project should not go forward. In non-Covid times, we traverse the Walden Street/Mass Avenue intersection 2-3 daily. We experience this intersection as both drivers and pedestrians and are delighted the Developer is going to improve safety here for the entire community. Rush hour congestion in this area occurs because it is one of the few ways for regional commuters to traverse the train tracks (Mass Ave and Sherman St have the exact same issue). We would sometimes wait 10 minutes or more to make the left onto Mass Ave from Walden. A bit of traffic is part of life in a vibrant city! As residents, we should be far more concerned about making good on our commitment to giving low income families an opportunity to live in the city and attend its excellent schools.

We hope you will support this beautiful, site-appropriate project that will enhance our streets and provide much needed housing to our residents.

Sincerely,

Miranda Pearce and Matt Goldstein

Cc: Singanayagam, Ranjit; O'Grady, Sean; Daglian, Sisia; Richard Clarey
Subject: URGENT: 2072 Mass. Ave. Apts (Case. No. 17326)

Chairman Alexander and Members of the BZA:

Without delay, please **CANCEL** the announced public hearing on this comprehensive permit application, which was scheduled for December 10 in violation of MGL Chapter 40B and its related regulations.

The City of Cambridge has failed to comply with the procedures and processes detailed in the Massachusetts Housing Partnership's [Chapter 40B Handbook](#) and has been proceeding in flagrant violation of the statute.

The permit application was hurriedly submitted in chunks while the project was undergoing major design changes and it is deficient on its face. Among other shortcomings, no Project Eligibility Letter from a state funding agency was included pursuant to 760 CMR 56.05(2)(g). The applicants thus have no legal standing to appear before the Board of Zoning Appeal seeking a comprehensive permit at this time.

If the hearing is not canceled in advance, the Board seemingly will have no choice but to summarily reject the application after opening the proceeding on Thursday. No one will benefit from that outcome or if this matter winds up in the courts, as seems inevitable if the City and its developer continue to cut corners and pursue an unreasonable timeline that stymies the due process and equal protection under the law that Cambridge citizens are constitutionally guaranteed.

Please **STOP** the unjustified rush to judgment and protect the public interest by canceling Thursday's proceeding as soon as you can.

Sincerely,

Michael Brandon

Re: 2072 Mass Ave Affordable Housing Development (ZBA 017326-2020)

Dear Mr. Alexander and Members of the Board of Zoning Appeal:

Please support the comprehensive permit application of Capstone Communities for a 100% affordable housing building at 2072 Massachusetts Avenue. I live about a half a mile from the corner of Walden and Mass. Ave — I get my medical care directly across Mass Ave from that corner.

I support this housing for several reasons:

*Housing affordable for low and moderate income people and families is in very short supply. Particularly, during this time of crisis, we see how close to homelessness many people are. 49 new homes is meaningful.

*This housing will be permanently affordable — in contrast to some earlier generations of affordable housing whose uses expired — an ultimately harmful way of producing affordable housing.

*For future tenants, the location affords a bus stop right in front, a subway line pretty close, and food and other shopping opportunities within walking distance — ideal for at least some carless persons or families.

*Capstone communities has had a history of success in creating 100% affordable housing in Cambridge, most recently at Frost Terrace, on which the BZA also had to act.

I know that you, the members of the BZA, have to take into account many technical aspects of the proposal as well as the question of whether the controversy it has generated has any merits.

I want to speak to my experience as a community member and a former public official in Cambridge with regard to controversy around affordable housing. — In my experience, there is virtually always controversy around the creation of new affordable housing, especially of any size, but not only large buildings.

The aforementioned Frost Terrace and the CHA housing at Garfield street come to mind because they are each about the same 1/2 mile distant from my house as 2072. You are familiar with Frost Terrace. You may not be familiar with the controversy around the original Garfield/Mass Ave CHA construction.

In the mid to late 1980s, the Garfield/Mass Ave site was transferred to the City by the MBTA. The CHA proposed building affordable housing on the site. The need for such housing was great then, too. There was strong opposition from the neighborhood for at least a couple of years. — maybe more. I will not go through the arguments, but basically the neighbors fought for a park. As you know from the housing there now, the proposal was for low—rise buildings.

Within the first month after I became Mayor, in 1990, Vice-Mayor Kenneth Reeves and I went to have a meeting with neighbors. We told them that this site would be affordable housing. Period. That ended the controversy and the housing was built. So, since the early 1990s, many low income families have been successfully housed in a convenient location.

Thank you for your consideration of my concerns. I hope 2072 Mass ave. proposal is approved by the BZA.

Sincerely yours,

Alice Wolf

RE: Support for 2072 Massachusetts Avenue Case Number BZA-017326-2020

Dear Members of the Board of Zoning Appeal,

We are writing to express our strong support for the 49-unit 100% affordable housing apartment building proposed at 2072 Massachusetts Avenue. We live at 194 Walden Street with our children, just a few blocks down from the proposed building. This project will improve the corner of Walden Street and Mass Ave, address the housing shortage, and help fight climate change.

This affordable housing is critically needed considering that thousands of families routinely apply for any newly built affordable housing in our city. Additionally, by increasing residential units with access to strong bus service and the Porter Square T Station, a resident of 2072 Massachusetts Avenue will not need a car to commute around Cambridge and/or to adjacent cities—what better way to combat climate change than to reduce the number of single-occupant vehicles on the road?

Not only will this building provide 49 homes for families near public transit at reduced rents, but it will improve the safety of the intersection. It is no secret that the corner of Walden and Massachusetts Avenue is difficult to navigate due to the narrow width. The project proposes to provide several feet of their private land for public sidewalk in order to widen the two narrow lanes on Walden by over three feet and widening the sidewalk by approximately one foot. We experience this intersection as cyclists, drivers, and pedestrians almost every day and we are delighted the Developer is going to improve safety here for the entire community.

The Developer has worked diligently to address issues raised by some concerned neighbors and has a strong track record in Cambridge building great buildings that enhance our streets and provide much needed housing to our residents. Cambridge is a city striving to fight climate change and provide more housing on so many fronts. What better way than to approve well-designed building close to excellent transit that will enhance the built environment?

Please support this effort.

Sincerely,
Noah Maslan & Jocelyn Kasper, Owners/Residents of 194 Walden Street

Pacheco, Maria

Subject: CASE NO. BZA-017326-2020 - 2072 Mass Ave Comprehensive Permit Application
Attachments: 2072 Mass Ave Safety Petition Signed.pdf

To: Cambridge Board of Zoning Appeal
From: North Walden Neighbors
Date: December 7, 2020
Re: Petition regarding Capstone Communities application for Comprehensive Permit

To date, 228 Cambridge residents have signed the attached petition. Many of the signers live in close proximity to the intersection of Mass Ave and Walden St. Signatures keep coming in.

Please see the petition for our recommendations with regard to the Comprehensive Permit application by Capstone Communities.

Respectfully,
Seymour Kellerman for North Walden Neighbors

PETITION TO IMPROVE SAFETY AND REDUCE DENSITY OF 2072 MASS. AVE. PROPOSED DEVELOPMENT

To the City of Cambridge Board of Zoning Appeals:

We, the undersigned, Cambridge residents many of whom live in close proximity to the intersection of Mass. Ave. and Walden St., have grave concerns regarding the proposed 100% affordable housing development at **2072 Mass. Ave.**

The building (9 stories facing Mass. Ave. and 6 stories facing the Walden neighborhood) has 49 units for up to 200 residents, a storefront, 3 restricted onsite parking spaces and 2 drop off spaces. The Floor Area Ratio (FAR) of the proposed development is 6.7, too dense for this neighborhood. By comparison, it is 315% higher than the average FAR of 2.1 for the other 4 affordable housing developments within a ½ mile radius of Porter Square.

The proposed development sits on a small 8,514 square foot lot, located on a dangerous, congested corner that poses safety issues for pedestrians, bicyclists, and drivers. There is a history of accidents at the intersection and even a tragic death of a young girl on a bicycle. The current proposal would likely exacerbate these long-standing problems as the building takes up the entire lot, without any setback or ground greenspace.

The developer's application to the City asks to waive 18 separate zoning and other regulations, many of which if waived would make the intersection even more dangerous. The developer's request is well beyond the recently passed Affordable Housing Overlay's maximums that were discussed over a two-year period.

As neighbors who will be directly impacted by this proposed development, we are asking the City of Cambridge to:

- Conduct a Traffic Impact Study to analyze the impact of the proposed development on the Mass. Ave./Walden St. intersection as well as the surrounding streets (using pre-pandemic conditions);
- Instruct the developers to resize the building in accordance with the Mass. Ave. Overlay and with the Affordable Housing Overlay guidelines on building size;
- Enforce the safety- and space-related zoning regulations.

To: Pacheco, Maria
Subject: Case No BZA-017326-2020, 2070 Massachusetts Avenue

To the Zoning Board of Appeals:

I write to support the proposed affordable housing project at 2072 Massachusetts Avenue because Cambridge needs more affordable housing, larger projects are the only way to move the needle in a meaningful way, and properties like this belong on major commercial streets.

I have lived in Cambridge for 49 years, eight of them in the Porter Square area, and know the area and location quite well. It is highly suitable, with buildings of similar height in the immediate vicinity, including a six-story elderly property next door, and very convenient to buses. It will be affordable in perpetuity. Cambridge needs more affordable properties like this, and the ZBA should approve it.

David A. Smith
21 Francis Avenue

Re: 2072 Mass Avenue, BZA-017326-2020

Dear Secretary,

We appreciate the opportunity to comment on the affordable housing project proposed for 2072 Mass. Ave. LivableStreets fully endorses this project. LivableStreets is a 15-year old non-profit advocating for innovative and equitable transportation solutions that create safe, affordable, and convenient options for everyone in Metro Boston. Our Great Neighborhoods program, which recently shifted over to us from the Smart Growth Alliance, fosters and supports local grassroots groups, and provides a digital platform for a statewide network of activists who recognize the importance of amplifying home affordability and racial justice across Massachusetts. In addition to commenting on transportation projects, we regularly provide testimony on development projects in the greater Boston region with an emphasis on the land-use and transportation connections.

Like so many municipalities in our region, Cambridge is in desperate need of more affordable housing. The housing crisis prevents teachers, nurses, and so many other essential workers from living in the communities they serve. When it is possible to build near public transit, as this project does, we support zoning relief to increase the number of units possible. This proposed 100% affordable housing project proposed for the corner of Mass. Ave and Walden Street, a site along an active urban corridor and a 5-minute walk from Porter Square is exactly the type of location to increase density and reduce parking requirements. Unlike most market-rate developments, the developers for 2072 Mass. Ave. include 70% family-friendly (2BR and 3BR units.) The height of the building could be reduced if the units were all studio and 1BR, but this is precisely the opposite of what is needed and what is reflected in city policy. We commend the project for the limited parking included in the proposal-- again, the tradeoff permits additional units which means more affordable housing. Through the Affordable Housing Overlay, Cambridge residents have spoken and they demand more affordable housing.

In this letter, we would like to highlight several transportation-related issues. We have been made aware that opponents to the project point to three assumptions we would like to address.

1. **Safety.** The Mass. Ave/ Walden Street intersection is not unsafe, and adding more residents will in no way make it less so. In fact, the more people walking and bicycling, the safer the urban environment will be for everyone. The very tight dimensions for cars, such as the small turning radii at the corners and the narrow travel lanes on Walden Street, result in slower vehicular movements and therefore reduce

risk of injury. When infrastructure around drivers forces them to go slowly, they are to more quickly react to people walking and bicycling and avoid collisions. In addition, the changes to the signal timing at the intersection implemented several years ago provide exclusive turning movements (i.e., a specific turn arrow) thereby reducing the possibility of conflicts. We believe that those claiming that the intersection is “unsafe” are actually conflating that concern with “traffic congestion”. Yes, there is congestion during peak time, but congestion does not lead to a degradation of safety, rather the opposite. Congestion results in slower-moving vehicles. The plan includes the widening of the Walden Street sidewalk which will contribute to a better environment for walking.

2. **Congestion.** The project will not lead to an increase in traffic congestion. The project is right on the Mass. Ave. transit corridor and a 5-minute walk to the Porter Square MBTA station. This, in combination with limited parking, will induce residents to take trips by public transit, bicycling, and walking and not by vehicle. In addition, the vast majority of traffic during peak hours is generated not by local residents but by regional commuters who have limited options for crossing the commuter rail tracks, Walden Street being one of them. Any increase in trips by residents of this development will be negligible. Conducting a regional traffic study will not provide any additional insight than we already have today. We are fully aware that the only way to reduce congestion is to reduce regional reliance on single-occupancy vehicle trips, not avoid constructing desperately needed affordable housing near public transit. Vehicle trip generation by residents of this development will be far lower than what occurs now with the property’s current use as a fast-food restaurant. In a rare gesture for such a small project, the developer has agreed to provide an easement to the city allowing the traffic lanes on Walden Street to be widened to 10’ each-- this will be advantageous to drivers by potentially reducing congestion somewhat because it will reduce conflicts that sometimes limit the throughput traffic turning right from Walden onto Mass. Ave., but best not to consider this a “safety” measure.
3. **Parking.** The project will not have a significant enough impact on local on-street residential parking to warrant concern. Projects like this need to take into consideration the longer-term trajectory. The trends are that vehicle ownership in Cambridge has been declining since the early 2000s, as evidenced by the declining number of parking permits requested by residents over time. There are several contributing factors: robust car-sharing programs lead to households shedding one of their two cars, an exponential shift in reliance on bicycling public transit, and a cultural shift to eschewing car ownership. Clearly, not everyone lives or wants to live, in a zero-car household, but the number of cars per household is expected to continue to decline over time. Charging more for residential parking permits (and providing relief to individuals based on income if needed) will do more to reduce the pressure on limited on-street residential parking than not building affordable housing. The developers have a Demand Management proposal which will further incentivize a reduction in car ownership.

We would also like to commend the developers for several aspects of the project. Instead of a consistent height throughout, the building will have 9-stories along Mass Ave down to 6-stories along Walden Street to better respect the neighborhood fabric. Their innovative design techniques to make such a proposal tenable financially should be commended and hopefully will be used by other developers. The project includes 1000 square feet of ground-floor retail space along with a very thoughtful leasing approach to ensure a small-business community-supported uses. The building is designed to Passive House standards and includes both green roofs accessible by residents and solar panels. Finally, Capstone Communities and Hope Real Estate Enterprises have dedicated the past decade to affordable housing and are passionate about their work and commitment to the community.

If we can provide any additional details regarding these comments, please do not hesitate to reach out to us. We enthusiastically support this project and all the work the developer has done to address concerns posed to them from neighbors. We look forward to celebrating with the 49 families who will soon have access to affordable housing and be able to enjoy the benefits of living in Cambridge. They will live alongside those who can afford market-rate housing and also those who are lucky enough to have purchased their property decades ago.

Sincerely,

Anabelle Rondon, Great Neighborhoods Network Director

To: Pacheco, Maria
Subject: Thursday BZA hearing on 2072 Massachusetts Avenue project; writing, as neighbor, to endorse the plans

Hello:

I write to you as a neighbor of the proposed 2072 MA Avenue project. I live on Buena Vista Park and therefore often walk to MA Ave via Walden Street, so I am very familiar with this location. I want to highlight a few responses to what I've heard from those expressing concerns, either in public meetings or on Next Door posts, about this project's plans.

1. I have no concern about the height of this building. If, in this space and with this height, the city is able to house more people in affordable units, then I believe that the "extra" height, which makes this project feasible for the affordable housing developers, ought to be allowed to happen. We live in a **CITY**, after all, and I much prefer buildings going up to address such pressing needs rather than experiencing urban sprawl with scattered "units," as other cities do. Given the height of the senior center next door (and other buildings across the street), I don't feel that this building, as planned, is out of "character" in this neighborhood. I also feel its design has a light feeling that will actually improve the look and feeling of this location in Cambridge; it will be a vast improvement on the paved fast food restaurants that have been in this space for decades.

2. I also do not feel that the project's lack of numerous designated parking spaces should be seen as a drawback either. Plenty of surveys are telling us that many in younger generations do NOT want to own a car; they much prefer living near public transportation and within walking distance of stores at which they can purchase their daily goods at reasonable prices. Porter Square enables this lifestyle, which is increasingly preferred by many. And with a parking sticker from the city, there are parking spaces available on nearby streets, such as mine (Buena Vista Park).

3. I commend Capstone Communities for including in their design the "green roof" area they show on the back side of the building and for preserving the trees on the property. These steps are an important indicator to me that these developers understand – and are responding to – our pressing climate crisis needs. (The green roof fits well with the development's lack of emphasis on cars as the primary means of transportation.) Study after study tells us that adaptation to climate change – and mitigation of its consequences – needs to be built into any new structures being built in our city today. And in this project, I feel these concerns are well addressed.

In short, I strongly support this project going forward, and I encourage the BZA to act favorably in its review.

If you have any questions about my comments, please don't hesitate to be in touch,

Melissa

Board of Zoning Appeal
City of Cambridge
831 Massachusetts Avenue
Cambridge, MA 02139

Re: Comprehensive Permit Application for 2072 Mass Ave Apartments – Alternative Option
2072 Massachusetts Avenue, Cambridge, MA
(BZA Case No. 017326-2020)

Dear Board of Zoning Appeal Members:

Pursuant to your feedback at the December 10, 2020 Comprehensive Permit hearing for 2072 Massachusetts Avenue (“December Hearing”), we have enclosed an alternative development proposal that reduces the proposed building’s height along Massachusetts Avenue from nine (9) stories to eight (8) stories (the “8/6 Plan”). While we are providing the 8/6 Plan as a feasible option at your request, we continue to advocate that the previous 9 story/6 story proposal presented at the December Hearing (the “9/6 Plan”) is a better overall plan as it includes a higher percentage of family apartments and the resident roof deck.

The 8/6 Plan included herein includes the following changes from the 9/6 Plan:

- An overall reduction of 2 apartments, from 49 to 47 total apartments;
- A reduction in the overall percentage of family apartments pursuant to the following table:

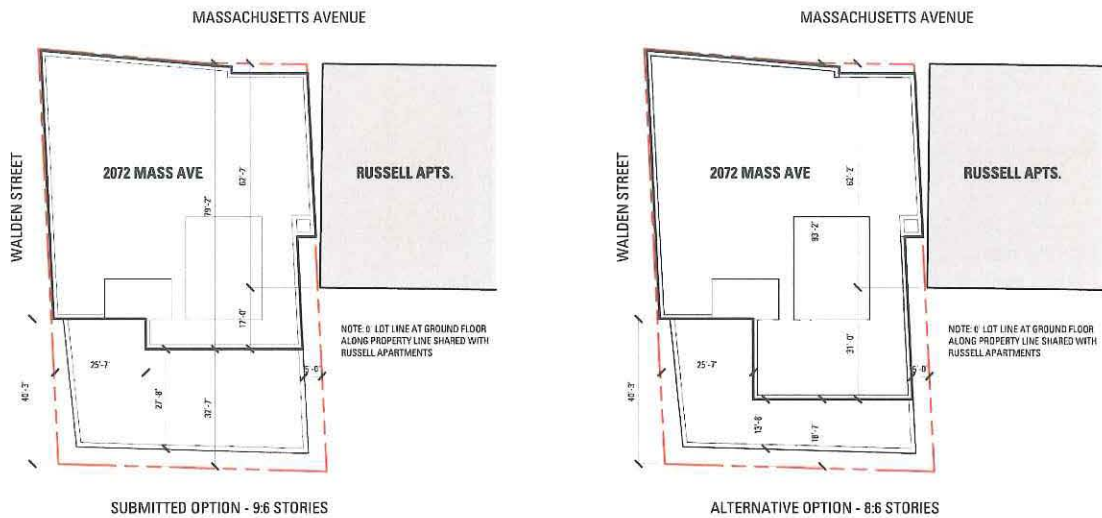

<u>1BR</u>	<u>2BR</u>	<u>3BR</u>	<u>Total</u>
16 (14)	19 (21)	12 (14)	47 (49)
34% (29%)	40% (42%)	26% (29%)	66% Family (71% Family)

**numbers in parenthesis “()” reflect the 9/6 Plan*

- A reduction from nine (9) stories to eight (8) stories along Massachusetts Avenue;
- Elimination of the roof deck due to the 8/6 Plan’s smaller roof area and financial feasibility; and,

- To maintain minimum family unit requirements, the form of the 8 story Mass Ave building has been extended along the property line between Russell Apartments and 2072 Mass Ave at the 7th and 8th floors as indicated in the rooftop plans below. The front setback along Massachusetts Avenue and the side setback along Russell Apartments remains the same in both plan options.

The widening of Walden Street, which was included in the 9/6 Plan, is also included in this 8/6 Plan.

The following plans and materials are included herein that reflect the 8/6 Plan. The 9/6 Plan has not changed from the submission dated December 3, 2020.

- Plans dated January 4, 2021** (unless otherwise noted)
Cover Page, G-100, G-101, EC (10/5/20), C-100 (11/10/20), C-101 (11/10/20), A-100, A-101, A-102, A-107, A-109, A-110, A-300, A-301, A-302, A-303, A-304, A-305, A-306, A-307, A-308, A-309, A-310, A-400, A-401, A-402
- Dimensional Information dated January 4, 2021**
- List of Requested Exemptions/Waivers from the Applicable City of Cambridge Ordinances and Regulations dated January 4, 2021**
- Shadow Studies dated January 4, 2021**

We look forward to presenting these plans to you at our January 7, 2021 hearing. Please contact Sean Hope at (617) 953-8369 if you have any comments.

CAMBRIDGE ZONING ORDINANCE – CHAPTER 17 OF MUNICIPAL CODE

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
1.	§ 4.30 Table of Use Regulations and §4.31(g)	Multifamily dwelling is Prohibited in Residence B Zoning District.	The Applicant seeks zoning relief to allow the proposed Multifamily Development.
2.	§ 4.21 Special Classification Rules (Accessory Uses)	Allowed accessory uses include, inter alia, off-street parking, customary home occupations and certain service establishments and eating establishments for residents of multi-family dwellings.	To the extent that the proposed building amenity uses are not enumerated in Section 4.21, the Applicant seeks zoning relief to allow the proposed amenity uses for the building occupants.
4.	§ 5.11 Development Standards – General Regulations	No building or structure shall be built nor shall any existing building or structure be enlarged which does not conform to the regulations as to maximum ratio of floor area and lot areas, minimum lot sizes, minimum lot area for each dwelling unit or equivalent, minimum lot width, minimum dimensions of front, side and rear yards and maximum height of structures.	The Applicant seeks zoning relief to allow the proposed Multifamily Development as shown on the Plans. Specific requests are set forth below. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
5.	§ 5.22.1 and § 5.22.3; §5.31 and Table 5-1 - Table of Dimensional Requirements – Residential Districts	Private open space shall be provided and shall be a percentage of the lot area as set forth in Section 5.31. An area designated as private open space must have both a width and a length of at least 15’, except for balconies, and may not have a slope greater than 10%. With the exception of balcony areas, private open space shall be accessible to all occupants of a building; not less than ½ of the required private open space shall be provided at ground level or within 10’ of the level of the lowest floor used for residential purposes. In the Residence B Zoning District, at least 50% of the required Private open space shall meet all of the requirements of Section 5.22.1. At least 50% of the required Private open space shall meet the definition of Permeable Open Space and shall not be subject to the dimensional limitations of Section 5.22.1 as applied to Private open space.	The Applicant seeks zoning relief to allow the proposed Multifamily Development as shown on the Plans. The proposed private open space has a width and length of less than 15’, as shown on the Plans. All private open space is located at ground level. At least 50% of the provided private open space will be Permeable Open Space (as shown on the Plans); however, as described above, the proposed Multifamily Development does not meet the required private open space requirement. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
6.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	Business A-2 Maximum Ratio of Floor Area to Lot Area = 1.0 for Non-residential Uses and 1.75 for Residential Uses. Residence B Maximum Ratio of Floor Area to Lot Area is .50. For those portions of any lot exceeding 5,000 sf, the applicable Maximum Ratio of Floor Area to Lot Area shall be 0.35 for all permitted residential uses.	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The existing Ratio of Floor Area to Lot Area is approximately 0.22 and the proposed Ratio of Floor Area to Lot Area is approximately 6.41.
7.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	Business A-2 Minimum Lot Area for Each Dwelling Unit = 600 sf. Per dwelling unit. Residence B Minimum Lot Area for Each Dwelling Unit = 2,500 per dwelling unit. For those portions of any lot exceeding 5,000 sf, the applicable Minimum Lot Area for Each Dwelling Unit shall be 4,000 sf.	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The proposed 47 dwelling units cannot comply with the Minimum Lot Area for Each Dwelling Unit requirement.
8.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	Business A-2 Minimum Front Yard = 5' Residence B Minimum Front Yard = 15'	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The smallest existing front yard setback is approximately 0'; the smallest proposed front yard setback will be approximately 0'.
9.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	Business A-2 Minimum Side Yard = 10' on both side yards. Residence B Minimum Side Yard = 7'6" (sum of 20).	To waive the requirement for dimensional variances and to allow the proposed Multifamily Development as shown on the Plans. The smallest existing side yard setback is approximately 42.4'; the smallest proposed side yard setback will be approximately 0'.
10.	§ 5.31 and Table 5-1 - Table of Dimensional Requirements – Residence B and Business A-2 District	Business A-2 Maximum Height = 45' Residence B Maximum Height = 35'	Due to the need for a building height of approximately 92'8 stories on Mass Ave and approximately 70'6 stories on Walden and considering the adjustments that may occur during development of the plans and drawings from design development to full construction drawings, the Applicant seeks a waiver of the height requirement of approximately 70' for the Walden Street façade and approximately 92' for the Mass. Ave. façade.

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers</u>
11.	§6.36.1 – Schedule of Parking and Loading Requirements	<p>In Business A-2 District, there is a one parking space per dwelling requirement.</p> <p>In Residence B district, multifamily dwellings are not allowed; therefore, Section 6.36.1(g) states that there is no applicable requirement for off-street parking for multifamily dwellings in the Residence B district.</p>	<p>Although there is no technical requirement for off-street parking in the Residence B district for a multifamily use, the Applicant seeks a waiver to allow the proposed Multifamily Dwelling with three (3) proposed accessible off-street parking spaces and two (2) drop off spaces as shown on the Plans.</p> <p>A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.</p>
12.	§6.42 – Design and Maintenance of Off-Street Parking Facilities – Dimensions for Off-Street Parking Spaces	Dimensions for off street parking spaces. Aisle Width of 22' required.	To waive the requirement for a dimensional variance and to allow the proposed Multifamily Development as shown on the Plans. The proposed dimension of parking spaces shall be less than minimum required aisle width will be less than the required 22'.
13.	§6.43.4(c) – Design and Maintenance of Off-Street Parking Facilities – Driveways	Grade and design of driveway shall provide a clear view to the driver of any car exiting from the facility, or traffic on the street and of pedestrians.	Due to constraints of the driveway location and building, the clear view from the proposed driveway to Massachusetts Avenue when looking south may be compromised. The Applicant requests a waiver from the requirement for a variance and to allow the proposed Multifamily Development as shown on the Plans.
14.	Article 19 – Project Review	Establishes traffic and urban design standards for development projects exceeding 20,000 gross square feet that are likely to have a significant impact on abutting properties and the surrounding urban environment. Requirements include a Special Permit from the Planning Board including Traffic Impact Review (including a Traffic Impact Study), Urban Design Review, Tree Study, Sewer Service Infrastructure Review, Water Service Infrastructure Review, Noise Mitigation Review, Citywide Advisory Development Consultation and specific building and site plan elements.	<p>To waive all of the applicable Article 19 requirements for a Planning Board Special Permit and other requirements and to allow the proposed Multifamily Development that exceeds 20,000 gross square feet.</p> <p>A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.</p>
15.	§20.100 Massachusetts Avenue Overlay District	Contains specific requirements for projects located within the Massachusetts Avenue Overlay District, including use regulations, dimensional requirements, and design standards. Projects are also required to comply with the Large Project Review process.	<p>To waive all of the applicable requirements of Section 20.100 without the need for a Planning Board Special Permit and to allow the proposed Multifamily Dwelling without a Special Permit from the Planning Board.</p> <p>A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.</p>

MUNICIPAL CODE

	<u>Section</u>	<u>Provision</u>	<u>Requested Exemption/Exception/Waivers and Notes</u>
1.	Chapter 12.04.020 - Street Numbers	The City Council shall assign numbers to houses.	To waive the requirements of this provision of the Municipal Code so that no separate approval is required from the City Council. To allow the Board of Zoning Appeals to delegate the task of assigning house number(s) for the proposed Multifamily Development to the Building Department, to be completed prior to issuance of Certificates of Occupancy. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.
2.	Chapter 12.12.010 - Curb Cut	The City Council shall approve the Curb Cut modification to support the proposed multifamily development as shown on the plans.	To waive the requirements of this provision of the Municipal Code so that no separate approval is required from the Superintendent of Streets and/or the City Council for the modification to the curb cut on Walden Street as shown on the Plans. A Comprehensive Permit may provide all local permits and approvals per M.G.L. c. 40B.

Mr. Constantine Alexander
Board of Zoning Appeal
Inspectional Services
831 Massachusetts Avenue
Cambridge, MA 02139

Re: Comprehensive Permit Application
2072 Massachusetts Avenue, Cambridge, MA

Dear Mr. Alexander and Members of the Board:

On behalf of the Cambridge Housing Authority, I am writing to express my strong support of CC HRE 2072 Mass Ave Tenant LLC's Comprehensive Permit application for the proposed redevelopment of 2072 Massachusetts Avenue. As you may know, the CHA owns the Leonard J. Russell Apartments at 2050 Massachusetts Avenue, which is immediately adjacent to 2072 Massachusetts Avenue. The addition of 49 high-quality, 100% affordable apartment homes at 2072 Mass Ave that will provide its residents with access to public transportation and various community services and amenities is more dire now than ever. The densely populated makeup of the neighborhood makes this an ideal location for this proposed building.

As a direct abutter of the proposed development and with over 20,000 unique applicants across the CHA's waitlists, we have made it our mission to provide safe and high-quality affordable housing to individuals and families in Cambridge. The proposed redevelopment of 2072 Mass Ave will offer many families and individuals the opportunity to have a safe, new, affordable home.

Unfortunately, with the pandemic raging, it has been impossible to get a clear read on this project from our residents at Russell Apartments. To date, we have heard from a very small group of residents indicating they are not happy with the thought of any construction occurring at this neighboring site. They rightly cite the noise and the dust that will be created by construction activities, but this would be true no matter what is built on the site. I also understand they have mentioned increased vehicle congestion and density as concerns, and these were our concerns as well, but Capstone Communities has addressed those concerns with changes to the project that help mitigate these issues. The improvements now proposed to Walden Street coupled with the elimination of the curb cut on Mass Ave and the limited onsite parking will improve traffic flow and reduce the congested feel on Walden Street. As to density, yes, this new community will add about 147 new residents, just a small addition to an

urban census tract that already contains about 2,922 people, including the 52 residents at Russell Apartments all in the third most expensive housing market in the country.

Finally, our track record with Capstone Communities on other projects in Cambridge has been exceptional. We have found them to be responsive not only to their neighbors during construction but also to CHA voucher participants that call a Capstone project "home". Capstone Communities has already used feedback from meetings with the Cambridge Housing Authority and other neighbors to make significant changes to their design, specifically with respect to the busy intersection of Walden and Massachusetts Avenue. While I know that living next door to an active construction site will present challenges for our residents, I am 100% confident that this developer will do whatever is necessary to mitigate those challenges and for that reason, the Cambridge Housing Authority urges you to give this application your strongest consideration and support, and we thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'MJ Johnston', with a stylized flourish at the end.

Michael J. Johnston

Subject: Support for housing construction at 2072 Mass Ave

To the Board of Zoning Appeal,

I am writing in support of the proposed multi-family affordable housing construction at 2072 Mass Ave (CASE NO. BZA-017326-2020) that the Board of Zoning Appeal is considering at their hearing tomorrow (December 10, 2020).

Housing prices and rents are ridiculous in the city of Cambridge, and I am writing in support of the city zoning housing for individuals and families without the means to buy/rent on the open market. This is the ethical thing to do.

Thank you,

Laurie LaPorte

Subject: Writing in support of the 2072 Mass Ave affordable housing development

Dear Cambridge Board of Zoning Appeals members:

I am writing in support of the 2072 Mass Ave affordable housing development proposal. The city needs more affordable housing and I am especially excited that the proposed development is using a sustainable design in many aspects including transportation. I support that this valuable site is not being used to store private vehicles, but instead will provide housing. As a future neighbor (I live on Rindge Ave), I would like to see more bike and transit infrastructure, increased safety and comfort for people walking and biking, and less deference to private motor vehicles as a primary mode of transportation.

The project is in an ideal location for sustainable mobility. The project includes 3 accessible spaces and 2 short-term spaces, which matches the availability of sustainable transit in that location. In addition, the developer agreed to all of the Transportation Demand Management recommendations from the city, meaning that they will be adding additional incentives to encourage mobility uses that don't include a car.

1. **Proximity to high-quality transit (subway, frequent bus, commuter rail).** The location is only a 5-minute walk to Porter Square, which is serviced not only by the Redline but also the commuter rail, greatly increasing the range of mobility for commutes and recreation. The location is also directly on Mass Ave which has frequent bus service. Davis Square, with even *more* bus lines, is only a 10 minute walk away. As a city trying to address our affordable housing issue, I can't imagine a more perfect location to build in terms of mobility.
2. **Many stores/restaurants/places of interest in walking distance.** The Walk Score is a measure from 0-100 of how easy it is to do daily errands without a car. [2072 Mass Ave has a near-perfect Walk Score of 97](#). Even one of the more cumbersome errands, getting many bags of groceries, is not difficult since Porter has a grocery store, something that cannot be said of other transit stops in Cambridge. Bergin Park and Rindge Field are only 10 minutes away by foot, and Danehy is only an additional 5 minutes away.
3. **Access to bike facilities.** Porter Square was recently updated with separated bike lanes. Portions of Mass Ave also have separated bike lanes and the rest have demarcated lanes, though unprotected. 2072 Mass Ave is a 7-minute ride from the Alewife Linear Park (community path).
4. **Minimal impacts on traffic.** Cambridge's [Traffic, Parking + Transportation department writes](#), "The Project's traffic impacts will be minimal, especially considering that the previous use of the site was a fast food restaurant use which generates more vehicle trips than the proposed Project." In a rare gesture for such a small project, the developer has agreed to an easement to widen the traffic lanes on Walden Street to 10' each.

Thank you for your attention,
Ruthann Rudel

Subject: I Support 2072 Mass Ave Project

Dear Board of Zoning Appeals,

I support the affordable housing project at 2072 Mass Ave as proposed. Affordable housing located near transit is exactly what Cambridge needs, and especially this neighborhood. As a resident living on Walden Street, I appreciate its thoughtful design. Based on the developer's parking study I do not believe there will be significant negative traffic impacts.

Please vote to approve this project.

Kind regards,
Mark Boswell

Subject: Please Reschedule 2072 Mass Ave Comprehensive Permit hearing on 12/10/2020

Dear Commissioner Singanayagam and Dear Assistant City Manager Farooq,

I am following up on my email dated Dec 3, 2020 with the subject line *What did the Planning Board vote to recommend favorably to BZA on 12/1?*

Capstone Communities LLC and Hope Real Estate Enterprises LLC's (CC HRE, applicant) material for the 2072 Mass Ave Comprehensive Permit hearing is confusing and clearly demonstrates their rush to get the application through the Board of Zoning Appeal's (BZA's) hearing as they have done for the Planning Board (PB) hearing. This should raise many questions and concerns. The material is in four sections as outlined below (all page numbers refer to 2072massavebza0173262020.pdf posted online). On the other hand, the project material for the PB hearing was all located in one place <https://www.cambridgema.gov/-/media/Files/inspectionalservicesdepartment/bzadocuments/2072massavebza0173262020documents.pdf>.

1. Front part of the application same as submitted to PB hearing:
 - a. Comprehensive Permit Application stamped of Nov 12 2:47 PM by the City Clerk (pgs. 1-4)
 - b. Comprehensive Permit Application 2072 Mass Ave Apartments Section 1 Cover Letter and Narrative (pgs. 5-20)
2. The supplemental material for this application starting with a cover letter on pgs. 23-73
3. 2072 Mass Ave Frequently Asked Questions and Comments from project's website (<https://www.2072massaveapts.com/>) on pgs. 74-146
4. Comprehensive Permit Application on pgs. 219-368

The cover letter in pg. 2 states "see sections 3-16 for a complete description of the proposed project and the following Items" a- j. but they are not included here. Furthermore item (a), Site Development Plans are nowhere to be found in the application packet except in the cover letter.

The major change to the original plan was changing 8 stories to 9 stories facing Mass Ave and 6 stories facing Walden neighborhood. Yet, there are 3 Dimensional Information Tables on pages 4, 53, and 244 with the Building Height(s) (Ft) listed as 8 Stories/ ~89'-8" on pages 4 and 244 and 9 Stories ~102'/6 Stories ~69'-6" on page 53. In fact, the description of the case still says the "proposal includes an eight (8) story building".

The applicant included FAQ and Comments from the project website yet did not include 2072 Mass Ave Planning Board Presentation (12.01.20). Why are the FAQ's more important than the PB presentation and are there any inconsistencies between PB presentation and the material submitted to BZA?

How are the board members supposed to piece together the full project material from these disjointed and conflicting material and figure out what changed from the original application or from the PB Presentation? This is the question I raised in my Dec. 3 email and I am writing again to ask you if this meets the BZA document submittal requirements.

The PB's decision memo (pg. 379) recommending "sending a favorable recommendation to the Board of Zoning Appeal (BZA) to grant the requested relief" also has two serious deficiencies. First, the memo stated that Board members "also noted that there are examples of buildings of this height (the height of the proposed building) elsewhere on northern Massachusetts Avenue." But if you look at my presentation (pgs. 200-201),

you will see there is only one such building, 2353 Mass Ave 0.4 mile north of the proposed site. Before BZA accepts PB's recommendation, I urge you to conduct a survey, either by the City or CC HRE, of the height of all buildings along Mass Ave north and south of 2072 Mass Ave to determine how many buildings are of comparable height. I am sure the survey will show 5 or 6-story building will be more appropriate at the site.

The second deficiency is that the memo does not address a serious reservation a PB member brought up about parking. If the memo is to state positive reasons for a favorable recommendation, then it should also note the negative ones which PB decided were not sufficient enough to outweigh the positive ones. In fact, the suggested comment to acknowledge in the decision memo that there continues to be residents and at least one board member who have expressed concerns over parking overflow in the neighborhood was rejected without a vote after one board member's comment opposing it. Chairwoman Connolly concluded the hearing noting that the many attendees for PB hearing will certainly bring up traffic and Parking to BZA and PB will let BZA determine whether or if they want to address that with the applicant. This, in my humble opinion, should have been conveyed to BZA.

I beg you to postpone the hearing of this case until

- a) the project material is posted in a cohesive manner with changed in supplemental material clearly identified from the original material (for ex pages x,y,z are replaced by a, b, c or replace entire sections X,Y,Z by A, B, C)
- b) Project Review Special Permit from the PB is approved or a compromise plan worked out with the community in lieu of Project Review SP.

Thank you for your attention and consideration to this matter,
Respectfully yours,
Young Kim

From: Sam Shoap <sam.shoap@masshousingcoalition.org>
Sent: Wednesday, December 9, 2020 2:35 PM
To: Planning Board Comment
Subject: 2072 Mass Ave project (ZBA 017326-2020)

To whom it may concern,

I write to you today on behalf of the Massachusetts Housing Coalition to declare our support for Capstone Communities LLC and Hope Real Estate Enterprises LLC development of a multi-family 100% affordable housing community at 2072 Mass Ave., with 49 residential rental units, as well as ground floor commercial and building amenity space.

The Massachusetts Housing Coalition (MHC) is a non-profit organization founded by Massachusetts residents, tenants, homeowners, and property owners. MHC is focused on protecting and increasing access to affordable and workforce housing options in Massachusetts by promoting economic and systemic equity, racial and social justice, and by advocating for sustainable and smart growth housing, along with transportation infrastructure that supports residents and vulnerable populations.

MHC is supportive of this project for many reasons, but the most pertinent reason is also the most simplistic - our region *desperately* needs more affordable housing. While the issues of housing shortages, affordability, and accessibility have been discussed for decades, with potential solution after potential solution proposed, a simple, straightforward solution is right in front of us; If we want more affordable housing, we need to build more affordable housing.

An article published this past summer in the Boston Globe¹ sought to highlight the massive shortage of affordable housing in the Boston area, saying "Amid a housing crunch and a rental market upended by COVID-19, lengthy queues for affordable housing continue in Boston, with one organization that owns 500 residential units in Allston and Brighton seeing its waitlist top an eye-popping 17,000."

It continued, "There are other wait lists. The Boston Housing Authority, which provides affordable housing to more than 58,000 residents in and around the city, said it had more than 49,000 applicants for its affordable housing programs as of July 6.

Albert Caldarelli, the executive director of the East Boston Community Development Corporation, said recently that between 4,000 and 5,000 people are now in the queue for the agency's affordable housing.

Leslie Reid, the chief executive of Madison Park Development Corporation, which has 790 residential units in Lower Roxbury, the vast majority of which are subsidized housing, said there are currently about 7,300 on its waitlist."

With such profound, widespread need, restricting or denying the development of more affordable housing - especially units designed for full families - would be incredibly disappointing and unnecessary.

Additionally, the effects of this development go far beyond waiting list numbers.

These units will bring more families and long-term renters to the area, increasing consistent economic activity regardless of whether school is in session.

It is also worth considering the potential societal benefits related to this development. Cambridge is predominantly white (67% of the population)², but, according to the National Low Income Housing Coalition³, "Black, Native American, and Hispanic households are more likely than white households to be extremely low-income renters - with incomes at or below the poverty level or 30% of their area median income - for whom there is a dire shortage of affordable and available homes; nationally there are just 37 rental homes for every 100 extremely low-income renter households. Twenty percent of black households, 18% of American Indian or Alaska Native (AIAN) households, and 16% of Hispanic households are extremely low-income renters." It is therefore worth pointing out the likelihood that this will increase the diversity of Cambridge. A paper put out by the Urban Institute⁴ elaborates on "the substantial body of evidence that residential segregation undermines the well-being of individuals, communities, and American society as a whole. Although we know much less about the potential benefits of neighborhood diversity than about the costs of segregation, considerable

research finds that both whites and minorities gain from diverse communities.” This is a real chance to make tangible progress in Cambridge’s pursuit of social and racial justice.

We hope that you will consider the importance of this project to so many families in need, as well as the societal benefits it would entail, in voting to approve this proposal.

Thank you, Sam Shoap Outreach Director Massachusetts Housing Coalition

Cc: Jennifer Tamarkin
Subject: Zoning Board of Appeal--support for 2072 Mass Ave project

Greetings,

I am writing to express my heartfelt support for the proposed affordable housing development at 2072 Mass Ave. I believe our community is facing a housing affordability crisis, and allowing these much-needed homes to be built would help families in our community who need it most. Since this site is on the busy Mass Ave. corridor, replaces an unsightly parking lot, and is very close to transit (and many other services, including grocery stores and child care centers), it appears to be an ideal location to allow much-needed density.

I am a homeowner who lives around the corner from this site and I walk by it daily. I do not think any hypothetical concerns about access to on-street parking or increased traffic justify slowing down or downscaling the project. In terms of respecting the immediate neighbors' desires, the developers have already reduced the scale of their original plan to add an attractive rear roof-deck that will create a 'step down' to nearby homes. It would be a sad and shortsighted loss to see the project downscaled further or delayed.

I hope you support this project, and bring more desperately-needed homes to my neighborhood.

Sincerely,

Annie

Subject: Letter of Support for 2072 Mass Ave. Affordable Housing Development

Re: 2072 Mass Ave (BZA-017326-2020) - Letter of Support

Dear BZA Members -

As a long-time Cambridge resident, I strongly support the proposed 100% affordable housing development at 2072 Massachusetts Ave. near Porter Square. Today, more affordable housing is our city's #1 need. This project helps meet that urgent need. So, I urge the BZA to approve this most important project.

1. **100% affordable housing units.** Market-rate projects in Cambridge are required to include 20% affordable units, but this project has every single unit one of the 49 units as affordable. In addition, 30% are family-friendly 3-BR apartments and 40% are 2-BR units. If we want housing for families, we need to provide them with places to live. The 2019 Envision Cambridge comprehensive plan identifies Mass Ave as a Major Mixed-Use Corridor, and noted that it contains underutilized sites which could be opportunities for redevelopment into more dense mixed-use development.
- 2.
3. **Dense mixed-use development.** “The current site, a 1-story, single-tenant commercial building with a large accompanying parking lot, represents a past pattern of automobile-oriented planning principles. Recent planning and zoning efforts point to a different kind of land use and development pattern in which commercial corridors provide opportunities for more dense mixed-use development that allows for safe and convenient multi-modal access to transit, jobs, and proximate community resources,” writes the [Cambridge Community Development staff](#).
4. **Close to transit.** The project is directly on the Mass Ave transit corridor, and is just a 5 minute walk to the Porter Square T station and commuter rail station. 2072 Mass Ave does not include on-site parking beyond 3 accessible spaces and 2 short-term parking spaces, but the concerns about traffic and parking are unfounded. Cambridge’s [Traffic, Parking + Transportation department writes](#), “The Project’s traffic impacts will be minimal, especially considering that the previous use of the site was a fast food restaurant use which generates more vehicle trips than the proposed Project,” and the developer has agreed to all of the Transportation Demand Management recommendations from the City.
5. **Step-down urban design, ground-floor retail, and green design.** Instead of a uniform height, the building will have 9 stories along Mass Ave and then step down to 6 stories along Walden Street to better respect the existing scale of the adjoining neighborhood . It includes 1,000 square feet of ground-floor retail space. The building is also designed to [Passive House](#) standards and includes both solar panels and green roofs accessible to its residents.
5. **Developers' excellent reputation.** Capstone Communities and Hope Real Estate Enterprises have dedicated the past decade to affordable housing and are passionate about their work and commitment to community.
- 6.

Again, I urge the BZA to approve this critical affordable housing development.

Respectfully submitted,

Lawrence Bluestone

Subject: We support the affordable housing project at Mass Ave and Walden St

Hi,

We are writing to the Cambridge Board of Zoning Appeal to express our full support for the 100% affordable housing project that is proposed for the corner of Mass Ave and Walden Street. Cambridge is in desperate need of more affordable housing. The project is not too large for the neighborhood - only a few stories taller than nearby buildings, and well located close to the Porter Square mass transit hub.

Please approve moving forward with this project expeditiously.

Randy and Rosanne Stern
12 Kenwood St.

Subject: Support for 2072 Mass Ave (BZA-017326-2020)

Dear Members of the Board of Zoning Appeal,

As a Cambridge resident and imminent Porter Square resident (moving at the end of the month), I strongly support the proposed 100% affordable housing development at 2072 Massachusetts Avenue in Cambridge. I urge the BZA to approve this important project.

- 1. Ideal location for sustainable mobility.** The project includes 3 accessible spaces and 2 short-term spaces, which matches the availability of sustainable transit in that location. In addition, the developer agreed to all of the Transportation Demand Management recommendations from the city, meaning that they will be adding additional incentives to encourage mobility uses that don't include a car.
 - 1. Proximity to high-quality transit (subway, frequent bus, commuter rail).** The location is only a 5-minute walk to Porter Square, which is serviced not only by the Redline but also the commuter rail, greatly increasing the range of mobility for commutes and recreation. The location is also directly on Mass Ave which has frequent bus service. Davis Square, with even *more* bus lines, is only a 10 minute walk away. As a city trying to address our affordable housing issue, I can't imagine a more perfect location to build in terms of mobility.
 - 2. Many stores/restaurants/places of interest in walking distance.** The Walk Score is a measure from 0-100 of how easy it is to do daily errands without a car. [2072 Mass Ave has a near-perfect Walk Score of 97](#). Even one of the more cumbersome errands, getting many bags of groceries, is not difficult since Porter has a grocery store, something that cannot be said of other transit stops in Cambridge. Bergin Park and Rindge Field are only 10 minutes away by foot, and Danehy is only an additional 5 minutes away.
 - 3. Access to bike facilities.** Porter Square was recently updated with separated bike lanes. Portions of Mass Ave also have separated bike lanes and the rest have demarcated lanes, though unprotected. 2072 Mass Ave is a 7-minute ride from the Alewife Linear Park (community path).
 - 4. Minimal impacts on traffic.** Cambridge's [Traffic, Parking + Transportation department writes](#), "The Project's traffic impacts will be minimal, especially considering that the previous use of the site was a fast food restaurant use which generates more vehicle trips than the proposed Project." In a rare gesture for such a small project, the developer has agreed to an easement to widen the traffic lanes on Walden Street to 10' each.
- 2. 100% affordable housing units.** Instead of only 9 out of 49 units as required by the 20% stipulation, all of the 49 units will be affordable. A higher portion are family-friendly 3-BR and 2-BR, as opposed to many 1-BR to maximize profit. The 2019 Envision Cambridge comprehensive plan identifies Mass Ave as a Major Mixed-Use Corridor, and noted that it contains underutilized sites which could be opportunities for redevelopment into more dense mixed-use development. Porter Square is a hotspot of retail locations and is a good candidate for more residential.
- 3. Step-down urban design, ground-floor retail, and green design.** Instead of a consistent height, the building will have 9 stories along Mass Ave down to 6 stories along Walden Street to better respect the neighborhood fabric. It includes 1000 square feet of ground-floor retail space. The building is designed to Passive House standards and includes both solar panels and green roofs accessible by residents.
- 4. Dense, mixed-use development.** "The current site, a 1-story, single-tenant commercial building with a large accompanying surface parking area, represents a past pattern of automobile-centric urban planning and development principles. Recent planning and zoning efforts point to a different kind of land use and

development pattern in which commercial corridors provide opportunities for more dense mixed-use development that allows for safe and convenient multi-modal access to transit, jobs, and proximate community resources," writes the [Cambridge Community Development staff](#).

CITY OF CAMBRIDGE

TRAFFIC, PARKING, + TRANSPORTATION

MEMORANDUM

To: Cambridge Planning Board and Cambridge Board of Zoning Appeal (BZA)
From: Joseph E. Barr, Director
Date: November 20, 2026
Subject: 2072 Massachusetts Avenue Comprehensive Permit Application

The Cambridge Traffic, Parking, and Transportation Department (TP+T) has been working with Sean Hope and Jason Korb on the proposed affordable housing project at 2072 Massachusetts Avenue submitted for CC HRE 2072 Mass Ave Tenant LLC, an affiliate of Capstone Communities LLC and Hope Real Estate Enterprise LLC).

The Project proposes to construct 49 affordable housing rental apartments and first floor retail space for community use at the corner of Massachusetts Avenue and Walden Street. The site is currently occupied by a 1,860 sf Darul Kabab restaurant and was known as the Kentucky Fried Chicken site for many years. The Project proposes three accessible on-site parking spaces, two on-site short-term drop-off/pick-up parking spaces, and 51 long-term bicycle parking spaces located on the lower floor of the building (48 regular and 3 tandem bike spaces) accessible from an elevator.

Mr. Hope and Mr. Korb has been working very cooperatively with TP+T on the Project. TP+T has reviewed the Comprehensive Permit Application and would like to provide the Cambridge Planning Board and Board of Zoning Appeal (BZA) the following comments on the Project:

- TP+T strongly supports this Project. We are particular very supportive of the plan to accommodate three ten-foot wide travel lanes on Walden Street, which we have worked closely on with this developer. This will make the Massachusetts Avenue/Walden Street intersection more functional and safer for traffic moving through the intersection. We believe the change will make the intersection operate more efficiently and more safely by reducing vehicle queuing, it will better fit large vehicles and trucks, and it will create a more comfortable condition for bicyclists.
- At the approach to Massachusetts Avenue, Walden Street is currently 26'8" wide curb to curb, which is substandard for a three-lane intersection approach with a northbound left-turn lane and right-turn lane, and one southbound receiving lane. Typically, TP+T supports narrowing streets for traffic calming measures, not widening streets. However, in this case we believe the modification will help make the intersection dimensions "just right". If intersection lanes are too narrow (which is the current condition), then the intersection will not function well, causing safety issues and traffic impacts (e.g., unnecessary queuing of vehicles because they cannot fit in narrow lanes or do not line-up efficiently at the red light). The condition

causes delay when the light turns green in order for vehicles to proceed through the intersection. TP+T believes that the proposed plan will be beneficial, and it is the right time to make the adjustment as part of the 2072 Massachusetts Avenue site being redeveloped.

- Along with the adjustment to Walden Street, the Walden Street sidewalk adjacent to the Project will also be widened (from approximately 6.5 feet to 7.2 feet). This will be accomplished by setting back the first floor of the building from the property line to maintain an acceptable sidewalk width. Furthermore, in order to maintain the number and size of the affordable housing units, which is a key goal for the City, there will be a slight overhang of the building above the sidewalk, but the Applicant will provide a sidewalk easement. The site plan was carefully developed and reviewed by City Departments, including the Community Development Department, TP+T, and DPW. TP+T and the other departments believe that the plan is well balanced and is an approach that we support. The final details or adjustments will be reviewed by the City as part of the Building Permit process, including any underground utilities.
- TP+T believes that the Project's traffic impacts will be minimal, especially considering that the previous use of the site was a fast food restaurant use which generates more vehicle trips than the proposed Project.
- TP+T believes that the proposed location for the curb cut on Walden Street is the preferred location for various reasons. It allows vehicles to enter or exit the site to either direction on Walden Street or Massachusetts Avenue by using the Massachusetts Ave./Walden Street traffic signal. A curb cut on Massachusetts Avenue would only allow a right turn in or out (providing fewer options) and it would create a conflict with a bus stop and any existing or future bicycle or bus facilities on Massachusetts Avenue. Massachusetts Avenue currently carries the highest volumes of people walking and bicycling in the city, and conflicts with turning vehicles and people on foot and bicycles present safety problems. Eliminating this conflict provides a significant safety benefit. Even though the site has an existing curb cut on both Walden Street and Massachusetts Avenue, eliminating the curb cut on Massachusetts Avenue and consolidating to one curb cut off Walden Street is TP+T's strongly preferred design. Furthermore, TP+T does not believe that three accessible parking spaces and two drop-off/pick-up spaces will cause a significant impact or safety concern. As part of the Building Permit process, TP+T will work with the Applicant and DPW to make sure that the curb cut and parking spaces are properly designed.
- The Comprehensive Permit included a Parking and Traffic Assessment by Vanasse & Associates Inc. which TP+T believes was acceptable for this Project, although we have not formally reviewed or approved that assessment. The Project is located near public transportation including the Porter Square MBTA Red Line Station (located a 5 to 10 minute walk from the site) and the MBTA Bus Routes #77 and #83, including a bus shelter in front of the site (which will need to be temporarily relocated during construction of the Project). There is also a Bluebikes Station located directly across the street and carshare spaces nearby. Given the availability of the various nearby transportation services, and the findings of the Parking and Traffic Assessment, TP+T believes that the Project will not have a substantial traffic or parking impact. Data from other affordable housing projects in Cambridge have shown low

- automobile ownership in affordable housing buildings compared to other uses, such as office, research and development projects or market rate housing projects.
- To mitigate the Project's traffic and parking impacts, the Project proposes a package of Transportation Demand Management (TDM) measures including the following items:
 - Designate an on-site employee as the site's Transportation Coordinator to oversee marketing and promoting of transportation options at the site.
 - Provide new residents transportation information packets with information on getting around Cambridge sustainably.
 - Install a real-time transit display screen in the lobby to make it simpler for residents, visitors and employees to access real-time transit and Bluebikes availability information in the area. The screens will also post other useful information such as carpool/vanpools to supermarkets, etc.
 - Subsidize 100% of the cost of an MBTA T pass for employees (building property management/maintenance staff) or \$240 annual reimbursement for bike maintenance for employees who choose to commute by bike.
 - Organize orientation sessions with residents to teach biking rules, safe biking measures, basic maintenance and repairs and help identify bike routes to various locations.
 - Provide a bicycle repair station on-site.
 - Annually, upon initial move-in and lease renewal, residents will be offered the choice of: (1) annual Bluebikes membership (including one-time discount helmet through Bluebikes), (2) \$90 credit for ride share services, (3) 1-month adult MBTA Monthly LinkPass, and/or (4) 3-month Student or Senior Monthly LinkPass. This will be provided per resident (not per household) on an annual basis.
 - TP+T expects that when repaving the sidewalks as part of the Project construction, the Applicant and their construction contractors, in coordination and as approved by the City, will remove the curb extension at the northwest corner of the Massachusetts Ave./Walden Street intersection. That curb extension is not needed at the signalized intersection and its removal will provide the City with more flexibility for that intersection in the future for bus or bicycle facility designs. TP+T and DPW will work with the Applicant on this item.
 - Finally, overall TP+T supports the Project and the Applicant's application for a Comprehensive Permit.

Re: Comprehensive Permit Application
2072 Massachusetts Avenue, Cambridge, MA

Dear Mr. Alexander and Members of the Board:

I am writing on behalf of The Davis Companies to express our strong support for CC HRE 2072 Mass Ave Tenant LLC's Comprehensive Permit application for the proposed redevelopment of 2072 Massachusetts Avenue in Cambridge. As the owner and operator of the Henderson Carriage Building, a 95,000sf office and retail building located at 2067 Massachusetts Avenue directly across the street from the 2072 Massachusetts Avenue proposed development, we were thrilled to hear about the developer's plans to transform the site into much-needed affordable housing.

Along with retail and office space, The Davis Companies also specializes in residential construction, development and management and is all too familiar with the housing crisis affecting the Boston metro area and how it particularly affects low- and moderate-income individuals and families. We commend the developers for proposing a 100% affordable housing development that will serve those earning between 30% and 60% of the Area Median Income, while also providing potential ground-floor retail which will help to activate and enhance Massachusetts Avenue.

The Porter Square and North Cambridge neighborhoods are very dense, diverse, and well-served by transit and public accommodations, making this location extremely suitable for a building of this size. The Davis Companies strongly supports the developer's plans for 2072 Massachusetts Avenue and we kindly request that you give this application your consideration and approval. Thank you for your attention to this matter.

Sincerely,

Stephen Davis
Managing Director

Dear Board of Zoning Appeals,

I'm Grace Nauman and live at 44 Cherry St. in Somerville, near Porter Square and a short walk from where the proposed 2072 Mass Ave. Development is being planned. I just wanted to reach out to you and say that I fully support the 2072 development going forward as planned. I think the high density affordable housing near transit will be a huge boon for the neighborhood, and that developments like that will be critical for keeping the Camberville area sustainable, both economically and environmentally.

Thanks you so much for your time and attention,

Grace Nauman

Dear members of the Board of Zoning Appeals:

We, the undersigned members of the Cambridge City Council, would like to express our strong support for the Capstone Communities LLC and Hope Real Estate Enterprises LLC Comprehensive Permit Application (Case number: 017326) being proposed at 2072 Massachusetts Avenue.

Not a day goes by when we do not have conversations with those struggling to find affordable housing in Cambridge. Many are life-long Cambridge residents, who have children in our public schools, who work in our city and have their families here, yet they are faced with having to move from the only city they have ever known because of rising rents. As you know, this project will create 49, 100% affordable units, 71% of which will be two- and three-bedroom, family sized apartments. This project will change lives for hundreds, for decades to come.

So often when a development is proposed we focus on height, density, parking, and traffic. All important, however, we rarely stop and talk about the people who will have the opportunity to live in these buildings. And because these people are not yet living in these units, they have no voice in the call for their creation, requiring us to be their voices. People like Ellen, who is a 35-year-old, single mother, who has been on the Cambridge Housing Authority waiting list for 6 years. Ellen grew up in Cambridge. Her daughter attends Cambridge Rindge and Latin. She is being forced to leave her current apartment and doesn't know where she and her daughter are going to live. Or people like, James, who graduated from Cambridge Rindge and Latin, is a veteran who has been struggling with homelessness for a decade, but even with a voucher, can't find an apartment he can afford in the city he grew up in. These are real people who could benefit from this building.

As if the 49 affordable units were not enough, this building will be built with the highest environmental standards. Just this week, at City Council, we forwarded to the Ordinance Committee a citizens' petition filed by Mother's Out Front of Cambridge, to require green roofs to be built on new construction projects. This project will have a green roof, setting an example for future projects that balance both affordability and environmental protections. This building will be built with Passive House standards. Add the buildings proximity to the Porter Square T station, it being on numerous bus lines, and you have a building that will be one of the most environmentally friendly, transit-oriented buildings in our city.

We would also like to acknowledge Capstone and Hope Legal's work with the city and with the community. In total, they have met with city departments and officials 15 times and with community groups and community members an additional 20 times. But they didn't just meet. They listened and they acted. They redesigned their building to incorporate many of the desires of both the city and the community. From concentrating the building's height along Mass Ave and lowering the height facing the neighborhood, to relocating the main residential entrance to Walden Street to divert pedestrian traffic, drop offs and pick-ups, and package deliveries to Mass Ave., to widening Walden Street to provide three 10' wide driving lanes that will help relieve significant existing traffic constriction at the busy intersection with Mass Ave. These are just a few of the adjustments made by Capstone at the request of the city and community.

This is a building we should be celebrating. If we cannot rally behind a 100% affordable, family friendly, environmentally sound, transit-oriented development on a main thoroughfare, then what project we can get behind?

We thank you for your time and your service to our community. We respectfully ask that you approve this comprehensive permit to advance this project and help create life-changing housing to those who want nothing more than to live in our wonderful city and all it has to offer.

**City Councillor Marc McGovern
Vice-Mayor, Alanna Mallon
City Councillor Denise Simmons
Mayor Sumbul Siddiqui**

RE: Support for 2072 Massachusetts Avenue Case Number BZA-017326-2020

Dear Members of the Board of Zoning Appeal,

We are writing to express our strong support for the apartment building proposed at 2072 Massachusetts Avenue. We are a family of four that own and live in an apartment on Raymond Street, just off Walden Street.

The proposed building on the corner of Walden and Mass Ave will increase the number of affordable housing units in Cambridge, which is very much needed. In addition, the project will improve the corner of Walden Street and Mass Ave.

We hope that you consider the Appeal for the apartment building proposed at 2072 Massachusetts Avenue favorably.

Sincerely,
Sonja Kenny and Erik Spek

Subject: BZA-017326-2020

To whom it may concern,

I am writing to voice my support for the proposed affordable housing project at 2072 Mass. Ave. I have looked over the plans, and I applaud the design and choice of location. I am thrilled to see a transit-oriented building that focuses on people instead of cars. Porter square is an ideal location for this to be a success. While this building is tall, I think it will fit right in on Mass Ave, and the green roof on the back side facing Walden will look really great. All in all I think it will look better than what is there at present. The widened intersection and sidewalk will improve the safety of the area. I appreciate that there will be a mix of different unit types that will provide comfortable homes for individuals, couples, and families. And of course, the fact that it is 100% affordable in perpetuity is wonderful. In short, this is EXACTLY the type of development that Cambridge needs, and I hope there will be more of it in the future.

I know that some neighbors are drumming up opposition to the project on social media based on unfounded (and easily disproved) claims and false information. Most who have voiced their opposition seem to be ignorant of key facts about the project, and are proposing alternatives or suggesting changes without looking into their actual viability. If there are legitimate safety concerns, I have yet to hear them. I trust that the City of Cambridge and Capstone will take care to make sure that this project is carried out in a way that is safe and responsible without letting naysayers block the effort or reduce the number of affordable units in order to fit with some people's idea of aesthetic ideals. I think the building looks great as planned, and I look forward to seeing it completed!

Thank you for your time.

Sincerely,

Shenandoah Paun

Subject: Re: 2072 Mass Ave (BZA-017326-2020) – Letter of Support

Re: 2072 Mass Ave (BZA-017326-2020) - Letter of Support

Dear Members of the Board of Zoning Appeal,

As a Cambridge resident, I strongly support the proposed 100% affordable housing development at 2072 Massachusetts Avenue near Porter Square in Cambridge; I hope that the BZA will agree and approve this important project.

1. **100% affordable housing units.** Market-rate projects in Cambridge are required to include 20% affordable units, but this project has every single unit one of the 49 units as affordable. In addition, 30% are family-friendly 3-BR apartments and 40% are 2-BR units. Other developers would have focused on 1-BR units to maximize profitability and minimize space. If we want housing for families, we need to provide them with space to live! The 2019 Envision Cambridge comprehensive plan identifies Mass Ave as a Major Mixed-Use Corridor, and noted that it contains underutilized sites which could be opportunities for redevelopment into more dense mixed-use development.
2. **Dense, mixed-use development.** “The current site, a 1-story, single-tenant commercial building with a large accompanying surface parking area, represents a past pattern of automobile-centric urban planning and development principles. Recent planning and zoning efforts point to a different kind of land use and development pattern in which commercial corridors provide opportunities for more dense mixed-use development that allows for safe and convenient multi-modal access to transit, jobs, and proximate community resources,” writes the [Cambridge Community Development staff](#).
3. **Close to transit.** The project is right on the Mass Ave transit corridor and a 5 minute walk to the Porter Square T station. The project does not include on-site parking beyond 3 accessible spaces and 2 short-term parking spaces, but the concerns about traffic and parking are unfounded. Cambridge’s [Traffic, Parking + Transportation department writes](#), “The Project’s traffic impacts will be minimal, especially considering that the previous use of the site was a fast food restaurant use which generates more vehicle trips than the proposed Project,” and the developer has agreed to all of the Transportation Demand Management recommendations from the city. In a rare gesture for such a small project, the developer has agreed to an easement to widen the traffic lanes on Walden Street to 10’ each.
4. **Step-down urban design, ground-floor retail, and green design.** Instead of a consistent height, the building will have 9 stories along Mass Ave down to 6 stories along Walden Street to better respect the neighborhood fabric. It includes 1000 square feet of ground-floor retail space. The building is designed to [Passive House](#) standards and includes both solar panels and green roofs accessible by residents.
5. **Developer reputation.** Capstone Communities and Hope Real Estate Enterprises have dedicated the past decade to affordable housing and are passionate about their work and commitment to community. Sean Hope was born in Cambridge and is raising his family here, and Jason Korb’s dad grew up in Cambridge. The Department of Housing and Community

Development audits the developers' finances for the project to ensure a fair overhead and fee is charged.

Subject: Public comment on 2072 Mass Ave

Dear Board Members:

We support the application to build 49 affordable residential units and ground floor retail/amenity space at 2072 Mass Ave. We live in Porter Square. We frequently walk in the immediate vicinity of this proposed development and use Walden Street and Mass Ave when we drive. (ZBA 017326-2020)

Boards, of course, apply legal standards when they review an application. As residents, we are using a different standard: will this project make our area and our city better? We think yes.

Throughout the development of the East Cambridge and Alewife areas over the last 8 years, many have advocated for 100% affordable projects rather than market rate developments with inclusionary units. Throughout the Affordable Housing Overlay debate, many said it was more appropriate to have denser 100% affordable development along major corridors like Mass Ave and near subway stations. The 2072 Mass Ave proposal obviously would bring 49 affordable units within a few blocks of a subway/commuter rail station and is on one of the major corridors highlighted for more density in the Envision Cambridge report.

The proposed development would be a very positive transformation of the site. First, going from an auto-centric to transit-oriented use is what we want in Porter Square. Second, this is a corner lot that should help mark the northern edge of Porter Square. A significant structure (if well-designed) would match the Henderson Carriage building across the street and provide that strong edge. Third, this is an elegantly-designed building. It has a visual lightness in the cube that is on Mass Ave and interesting, changing facades along both frontages. The step-back on Walden Street works well. In short, we'd like what this proposal does for Porter Square even if it did not bring 49 affordable units.

The affordable units are particularly welcome because the unit mix will include more two and three bedroom units than other recent developments (with a couple of exceptions). This is important, as you know, because of the relative scarcity of family-sized units here and in the region.

Most of the arguments against this project are ones that this board sees with every project: traffic, parking, too big. But it is fair to ask about the height on Mass Ave and the limited parking.

We're not bothered by the extra floors in relation to 2050 Mass Ave or the Henderson Carriage building across the street. To our eyes, the additional massing works, particularly because of the strong design. Having those additional floors helps more households and makes it more likely that the project will receive state funding. The DHCD rental round is intensely competitive and Cambridge's high development costs are a burden on every application from our city. Spreading the cost amongst more units makes a difference.

There will be more cars using resident parking because of this project. The question is what effect that will have on the ability to park in the neighborhood. We've lived in a Cambridge neighborhood that has truly tight parking and had to circle for a space several times a week. That is not the area around 2072 Mass Ave. I know many never believe traffic/parking studies, but this parking study seems to match the reality, i.e., that the area can absorb additional cars on both sides of Massachusetts Avenue. And one of the ironies of parking debates is that if the developers had provided on-site parking, opponents would say that tenants would not lease the spaces and instead would park on the street. (Not that on-site parking is feasible on the site, as the cost would be prohibitive and it probably would require cutting the number of units.)

We urge you to approve the 2072 Mass Ave proposal.

Thank you,

Larry Field & Cheryl Suchors

Subject: Please approve the Comprehensive Permit for 2072 Mass Ave (Case No. BZA-017326-2020)

Dear BZA members,

It is much more important to me to have a roof over my head than to have a place to park a car. I suspect I'm not alone in that priority. That is the essence of the decision we as a city have to make about this project, and I hope you and our city as a whole will follow those priorities.

This project will provide affordable housing that we are in dire need of, with a minimal adverse impact on our environment. To my eye it will also be a significant improvement to the visual appeal of this corner. I ask you to approve these plans for 2072 Mass. Ave. without adding any additional parking requirements and without reducing the amount of housing.

Sincerely,
Bill McAvinney

Subject: Support (with more operable windows, small balconies/decks, better bike parking) for 2072 Mass Ave

Dear Cambridge Board of Zoning Appeals members:

I am a neighbor who has lived on the other side of Mass Ave for almost 35+ years and travel past this corner daily -- by foot, bike, bus, kick scooter, and occasionally by car. I am writing with qualified support of the 2072 Mass Ave affordable housing development proposal. The city needs more affordable housing and am excited to see the proposed development using many aspects of sustainable design, including transportation.

I would like to the Zoning Board to ask for the following changes:

More and better bike storage (easier access, accessible without elevator, and greater numbers of bike parking spots): It seems ironic for a sustainable project to require an elevator to use a bike. Imagine a family of 5 going out for a quick ride to school. How many elevator trips would that require?! While bike parking at grade would be ideal for all, regular two-wheeled bicycles could be wheeled directly out of the basement, on a ramp-sided, straight-run staircase. And there must be room for larger and cargo bikes. Even residents with no children (I just got one at age 63) should be able to park/store a cargo bike, which will not fit in elevators. These bicycles cannot be stored in the basement without a gentle ramp, and are key to truly sustainable mobility living.

The amount of bike storage shown, while better than many projects, is inadequate for a bike-friendly project that aims to encourage car-free mobility. Keep in mind that a typical family of 5 should be able to store more than 1 bicycle and often, *at least*, five. This plan does not accommodate enough bike parking for the number of residents, and that will limit these residents' ability to travel in reasonable car-free ways.

Individual units' access to the outdoors for people and plants: For these units and the building as a whole to feel livable and nurturing, especially with such a relatively small shared roof deck and no ground floor greenspace, people need private exterior space to enjoy fresh air and small outdoor plants. If it is absolutely not possible to provide such exterior space, there should be tall (door-like or other creative approaches) openings so that the residents would be able to "bring the outside in" to at least some extent, though this is a much less adequate way to give some outdoor space to the units.

More operable windows: In order to minimize the use of even "green" air conditioning, these units should be able to make use of natural ventilation. While the windows shown in the elevations might be able to be partially opened, they seem to have a large area that is not operable, and the ventilation they provide does not seem adequate, livable, or sustainable.

Thank you for your attention,

To: Pacheco, Maria
Subject: BZA-017326-2020

Hello,

My name is Michael Hoff and I am writing in to voice my support for the 2072 Mass Ave project. As a lifelong resident of Porter Square, I think the project proposal is just what the area needs. No parking is the right trend for 2020, despite what anyone may say. If we are to be serious about addressing affordable housing and environmental impact in our city, adding 49 affordable units that also serve to encourage the use of public transportation and walkable neighborhoods is a tremendous step in both of these directions.

Also, if we want to support racial justice with actions and not just words, we need to step up with affordable housing so that many long time minority residents can stay in Cambridge. This project would help that effort.

Sincerely,
Michael Hoff

Subject: Public comment for Board of Zoning Appeal case #BZA-017326-2020

Hi, we live at 2130 Mass. Ave. in North Cambridge. This is our first time giving public comment at a zoning hearing, so thank you for the opportunity. We're asking you to support the affordable housing community development proposed at 2072 Mass. Ave., case #BZA-017326-2020.

My (Rajee's) parents had never owned a home of their own until they retired and moved to Cambridge, when they bought a home that was subsidized under the city's affordable housing program.

We would like Cambridge to continue to provide opportunities like that to families, and we would very much like it to happen in our neighborhood, as well as others around the city. We believe it's important for us to do what we can to address the housing crisis for low-income families, in as many ways as possible.

There may be residents who feel the proposed building should be reduced in size or built to include more parking. We believe Cambridge needs to do more, not less, for families in need. And that includes families who do **not** need cars, in a place as transit-rich and with as many opportunities as here in Cambridge. Parking spots add to the cost of homes, which only makes it more difficult for families with few financial resources if they don't need a car.

We also support the proposal because it helps Cambridge promote a future with less traffic and less pollution. And appreciate the easement it would grant the city to widen Walden St at Mass Ave, which is sorely needed.

Patrick and Rajee Joyce
2130 Massachusetts Ave., #7C

Subject: 2072 Mass Ave project public comment (ZBA 017326-202)

Hi,

I'm writing in support of the project on 2072 Mass Ave.

I live in Porter Square, so this is in my general neighborhood, and I live two blocks from the developers' other project (Frost Court), which is going quite nicely.

In general, the city needs more affordable housing, and this project will provide it.

Lack of parking should not be a reason to stop it; it's on major bus routes, near the subway, and the city will hopefully be adding protected bike lanes on Mass Ave now that that Cycling Ordinance has been updated with a 7-year timeline (the report on Mass Ave is due back by May.)

I've seen opponents talk about this being a dangerous intersection, which makes no sense: that is the city's responsibility (though I got the impression the developers were trying to take steps to help).

While I'm sure some tweaks could be made to improve it, this is a great improvement over what's there now, just one restaurant for all that vertical space. And the senior center has no windows on the side facing 2072, so it's possible to build quite close to the senior center without blocking their light or windows.

Please allow this building to go through.

Regards,

--

Subject: Comments for Board members, proposed building at 2072 Mass. Ave., BZA 017326-2020

Dear Ms. Pacheco,

Enclosed are comments for the Board members, regarding the proposed project noted above. Kindly forward to them. Thank you for your assistance in this matter.

Very truly yours,
Ashley G. Pittman
47 Cogswell Ave. #19
Cambridge, MA 02140

Dear Members of the Board of Zoning Appeals:

Please use your authority to rein in the 2072 Mass. Ave. affordable housing project (Case No. BZA 017326-2020) for two reasons: it's too large as currently proposed, and no proper traffic studies have been performed.

The City has an opportunity for a win/win/win situation here: it can increase its affordable housing supply AND improve an awful intersection AND hopefully discourage aggressive driving in a congested neighborhood.

The developers for this housing project appear to be well regarded; however, we believe the project needs some thoughtful re-sizing and other conditions ordered by or negotiated with this Board.

First, the building is far too large as currently proposed, size-wise and density-wise.

It is nice looking, but it is disproportionately large, both for the site in particular and for the neighborhood in general.

The front portion (Mass. Ave. side, 9 stories) will loom over the adjacent senior housing building at 2060 Mass. Ave. by 42 feet.

It will surpass the Henderson Carriage Building at 2067 Mass. Ave. by about 34 feet.

We believe that its Walden Street section (6 stories) will tower over the Walden Street area buildings (which are mostly one, two, and three stories high) by about 30-33 feet.

Please order the proponents to scale their building back to a size more in keeping with the immediate surroundings, perhaps 70' on the Mass. Ave. side and 45' on the Walden St. side.

Some of the 49 units may need to be eliminated due to the reduction in size.

Further, during the 12/1/20 Planning Board meeting, the proponents claimed that there are other tall buildings "nearby."

We believe that statement is misleading at best.

If proponents meant the Cornerstone Park Condos at 2130 Mass. Ave., that structure is admittedly tall at eight stories with 32 units; however, it does observe setbacks and more importantly, it boasts a huge lot (1.3 acres), much of which (a third?) is maintained as a yard & garden.

Contrast that with 2072's site: nine stories in front; six stories on the side; a total of 49 units plus retail; located on a site that's only two-tenths (0.2) of an acre. This is like comparing chalk and cheese.

If proponents meant the Northview condos way down at 2353 Mass. Ave., that structure is NOT "nearby"; claiming that it strains credulity. Enough said.

Second, please arrange for proper traffic studies to be performed for the intersection of Walden St. and Mass. Ave. and two other problem intersections nearby: Cogswell Ave. & Mass. Ave., and Mead St. & Walden St.

It is wonderful that the proponents of 2072 agree to widening two of the turn lanes on Walden Street from 8.5' to 10', but will that single adjustment be sufficient to meaningfully improve traffic flow in the neighborhood?

Pre-Covid shutdown, the TP&P Department had been holding public meetings to discuss traffic difficulties and delays at that intersection and the other two listed above.

Pre-pandemic, afternoon traffic regularly backed up from the Walden/Mass. Ave. intersection beyond Raymond Park towards Sherman Street, and beside Raymond Park towards Linnean Street.

Many drivers became impatient and aggressive, most likely from frustration at the loss of momentum and time spent inching down the road. Sometimes they would try to shoot through an intersection, endangering pedestrians.

Quite often, just below the Walden St./ MBTA bridge (heading towards Mass. Ave.), some drivers would pull into the oncoming traffic lane in order to turn left onto Mead Street. Very dangerous! (Some folks are still doing this.)

Some drivers also engaged in "stunt driving" in order to turn left from Cogswell Ave. onto Mass. Ave. towards Arlington. Again, very dangerous for other drivers and pedestrians alike!

There were several ideas put forward by the attendees at the February 5th meeting: among them re-timing the Walden St. traffic light; installing a "right turn only" sign at Cogswell and Mass. Ave.; and restricting parking on a portion of Walden Street during late afternoon, a la restrictions on parts of Memorial Drive; however, to date none of these measures have been implemented. Hopefully some traffic studies were already underway at that point; if so, please use them as you evaluate this project; if not, then please insist that they be performed, but take into account that traffic at the moment is much lighter than normal due to the pandemic.

In short, having a clean slate at the corner of 2072 Mass. Ave. presents a rare opportunity to remedy the situations outlined above. Please capitalize now, while we have this chance! Thank you for your attention to these concerns.

Very truly yours,
Ashley G. Pittman and Monique C. Fischer

Subject: 2072 Mass Ave

Hello, I am writing to express my support for the project proposed at 2072 Massachusetts Avenue. I am a nearby North Cambridge resident on Fairfield Street, a five minute walk to the site.

It is recognized that Cambridge needs more affordable housing. I am not sure how we begin to fill the considerable gap of need without building more densely wherever possible. This site--along a major thoroughfare with multiple buildings of its scale-- would allow more low and moderate income households to enjoy the many neighborhood amenities I am fortunate to enjoy everyday including access to the T, shopping, etc.

I do not find the height out of character...a large seven story building is only a block away.

The attractive building going up at Frost Terrace is a strong indication of the ability of this development team. They have also shown a high ability to work with the neighborhood. They have proposed a sensitive plan within the constraints and challenges of this corner site and I very much hope it will be approved. Thank you, Jennifer

RE: 2072 Massachusetts Avenue, Case No. BZA-017326-2020 -
Comprehensive Permit Application review

Pursuant to the provisions of G.L. c. 40B, we have reviewed the application of CC HRE 2072 Mass Ave Tenant LLC's (the "Applicant") to the Board of Zoning Appeal ("BZA") for a Comprehensive Permit pursuant to G.L. c.40B (the "Application") for the construction of an affordable housing development at 2072 Massachusetts Avenue (the "Property"). The Application requests a waiver of Section 4.37(B)(2) of the Cambridge Zoning Ordinance (the "Zoning Ordinance"), which regulates light industrial, wholesale business and storage uses, and specifically regulates "[m]anufacturing, processing, assembly and packaging [of] ... [f]ood products, including bakery, confectionary and dairy products." The Applicant states that it "seeks [this] zoning relief to allow a Catering or Commercial Kitchen in the area shown on the plans as Retail." For the reasons set forth below, please be advised that the Board lacks authority to grant the requested waiver.

The Applicant is seeking to construct an affordable housing development that will consist of 49 affordable rental units, a resident amenity space within the first floor, and a retail space within the first floor along Massachusetts Avenue. The majority of the Property is located within the Business A-2 zoning district, with a portion of the Property located in the Residence B zoning district. The plans presented as part of the Application show the retail area of the development located within the Business A-2 zoning district.

Pursuant to Zoning Ordinance Section 4.37(B)(2), the "[m]anufacturing, processing, assembly and packaging [of] ... [f]ood products, including bakery,

confectionary and dairy products” is prohibited in the Business A-2 zoning district (as well as the Residence B zoning district). Accordingly, the Applicant is seeking a waiver of Section 4.37(B)(2) in order to allow a catering or commercial kitchen in the retail space in the development.

The Supreme Judicial Court (the “SJC”) has held that there can be a commercial component of a development authorized pursuant to a comprehensive permit, and the comprehensive permit can waive dimensional requirements for the commercial component. Jepson v. Zoning Board of Appeals of Ipswich, 450 Mass. 81, 93-95 (2007). The SJC stated that “[e]xtending [dimensional] flexibility to allow an incidental commercial component under the umbrella of the comprehensive permit provides additional incentives, including economic, to developers to establish affordable housing, and serves to further the development of affordable housing.” However, the SJC limited this holding to instances where the commercial use is an allowed use in the applicable zoning district. “Nothing in G.L. c.40B, §§20-23, expressly prohibits the inclusion of incidental commercial uses **(when such uses are permitted on the proposed property by zoning ordinance or bylaw)** to complement an affordable housing development.” Id. at 95 (emphasis added).

Accordingly, while the Board can waive dimensional requirements for the proposed retail use, the Board cannot allow the use if it is not an allowed use in the zoning district. The retail portion of the development is proposed to be located within the Business A-2 zoning district, and the proposed retail use is a catering or commercial kitchen pursuant to Zoning Ordinance Section 4.37(B)(2). That use is not allowed in the Business A-2 zoning district. The Board cannot waive the requirement of Zoning Ordinance Section 4.37(B)(2) and cannot allow a catering or commercial kitchen as part of the development, unless the Applicant obtains a variance for that use. An application for a variance was not included as part of the requested relief and therefore, in order to obtain this relief, the Applicant would have to submit a new application seeking a variance.

Subject: Case Number: BZA-017326-2020

Hello,

My name is Jalen Bernard, I am a resident of Cambridge and graduate of CRLS. I am writing in support of the 2072 Mass Ave project. The city is in desperate need of 49 affordable units. There is a major housing crisis in Cambridge. Affordable living opportunities need to expand. Finding ways to retain cambridge residents with all of the gentrification that is underway is crucial to keeping socioeconomic diversity in Cambridge. This project would help that effort. No parking would allow for Cambridge to continue its efforts in reducing the city's carbon footprint by forcing residents to find other modes of transportation, other than a car.

Nothing should get in the way of creating more affordable living opportunities for cambridge residents.

Regards,
Jalen

Subject: Procedure for tonight's hearing on 2072 Mass Ave Comprehensive Permit

Dear Assistant Commissioner Daglian,

I submitted a letter to BZA requesting that the Planning Board's (PB's) favorable recommendation for the case be declared invalid because the plans CC HRE presented at the 12/1/2020 PB hearing was not what they had submitted for review. I also sent a letter to Commissioner Ranjit asking him to postpone the hearing of 2072 Mass Ave comprehensive permit case because of issues with application material and its supplemental material along with deficiencies in the PB decision memo. Mr. Michael Brandon also sent in a letter requesting the hearing to be cancelled because the comprehensive permit application lacked Project Eligibility Letter from a state funding agency in violation of 760 CMR 56.05(2)(g).

In view of all these communications, I would like to revisit what we talked over the phone. I see two ways how the hearing could proceed

1. The Board decides that the above letters have merits and continues the case with conditions
- or
2. The Board decides to continue with the case
 - a. The applicants present their case
 - b. Board may ask the public for comments

I apologize for having to ask you again, when and how could we ask for continuance because of the above objections?

I am still mulling over how I would approach the Board with my comments. One option is still to use 3-4 slides from the PowerPoint file I sent you earlier. I will let you know before noon.

Thank you for your attention

Young

Re: BZA-017326-2020, 2072 Massachusetts Avenue

The Cambridge Historical Commission is in receipt of a Comprehensive Permit application for the above referenced property, which is proposed for redevelopment as a new multi-family affordable housing building with 49 residential rental units.

The existing building on this site is a former fast-food restaurant constructed in 1971 that has no historic or architectural significance. Historical Commission staff will sign off on the demolition permit application at the appropriate time. No public hearing will be necessary.

I also find that this project will have "no adverse effect" on the adjacent Henderson Carriage Building, which is listed on the National Register of Historic Places, or on any other designated historic resource in the vicinity.

Subject: Comments on tonight's meeting...unable to access meeting on the internet

Due to my limited computer capability I am not able to join the meeting tonight and have the following comments:

I support the proposal and the extreme need we have in Cambridge and Mass for affordable housing.

Concern for an 8 story building on a major wide avenue needs to consider the neighboring 6 story elderly housing, the 8 story building one block to the west and 5 story old Henderson Carriage building with high flr to ceiling heights.

Traffic circulation can be mitigated with curb bumpouts and other traffic planning

The site is within 2 blocks of a major multi modal subway, commuter rail, and bus terminal and more than appropriate for those that don't need or can afford cars.

I SUPPORT AND HOPE THE BZA WILL APPROVE THIS NEEDED HOUSING DEVELOPMENT.

Thank you,
Ron Axelrod, 26 Shepard St. a 53 year Resident of Cambridge.

Board of Zoning Appeal
831 Mass Avenue, Cambridge, MA

Re: 2072 Massachusetts Avenue (Comprehensive Permit)

Dear Board Members,

Please accept my strong support for Capstone Communities LLC and Hope Real Estate Enterprises LLC ("CC HRE") 2072 Mass Ave Tenant LLC 's application for its proposed redevelopment at 2072 Mass Ave (corner of Mass Ave. and Walden St.)

The forty nine (49) unit, 100% affordable residential community will be located in close proximity to one of Cambridge's major transit hubs, Porter Square, providing several family serving amenities including a grocery store, pharmacy and public schools all within a 5 minute walk from the Site. The proposed development will transform an underutilized urban site currently occupied by a one-story restaurant (Dural Kabob) building, asphalt paving, parking spaces and two curb cuts. The proposed redevelopment will activate the site into a thriving community; a majority of the apartments will be family sized units.

I have been a strong proponent of the production of high quality, affordable family housing units dispersed equitably throughout the city. Despite our best efforts, Cambridge has continued to experience a severe shortage of affordable housing units. It is my understanding that over 70% of the units will contain two and three bedrooms, which will be specifically designed to attract families. Additionally, I support the project's forward leaning approach to managing project costs by providing three accessible and two drop-off parking spaces thereby leveraging the adjacency to the multiple modes of public transit including the Red Line Transit Station, Commuter Rail Fitchburg/South Action Line, four MBTA bus lines (Bus Route #77, 96, 83 and 87) and several car and bike sharing locations all within walking distance.

I am very satisfied with the proponent's bold and innovative plan and I strongly support the Comprehensive Permit application and respectfully request the Board's approval.

Sincerely,

A handwritten signature in black ink, appearing to read "Timothy J. Toomey, Jr.", written in a cursive style.

Subject: 2072 Mass Ave (BZA-017326-2020) – Letter of Support

Re: 2072 Mass Ave (BZA-017326-2020) - Letter of Support

Dear Members of the Board of Zoning Appeal,

My family has lived on Henry Street in Cambridgeport for nearly half a century. We have watched as this once wonderfully multi-income, multi-ethnic, and multi-generational neighborhood got hollowed out into an up-scale destination, a process set in motion when the dubious repeal of rent control allowed market forces to dictate the nature of our community. So, it is for good reason that I strongly support the proposed 100% affordable housing development at 2072 Massachusetts Avenue near Porter Square in Cambridge -- it is a small but important move in the right direction. I hope that the BZA will agree and approve this important project.

1. **100% affordable housing units.** Market-rate projects in Cambridge are required to include 20% affordable units, but this project has every single unit one of the 49 units as affordable. In addition, 30% are family-friendly 3-BR apartments and 40% are 2-BR units. Other developers would have focused on 1-BR units to maximize profitability and minimize space. If we want housing for families, we need to provide them with space to live! The 2019 Envision Cambridge comprehensive plan identifies Mass Ave as a Major Mixed-Use Corridor, and noted that it contains underutilized sites which could be opportunities for redevelopment into more dense mixed-use development.
2. **Dense, mixed-use development.** “The current site, a 1-story, single-tenant commercial building with a large accompanying surface parking area, represents a past pattern of automobile-centric urban planning and development principles. Recent planning and zoning efforts point to a different kind of land use and development pattern in which commercial corridors provide opportunities for more dense mixed-use development that allows for safe and convenient multi-modal access to transit, jobs, and proximate community resources,” writes the [Cambridge Community Development staff](#).
3. **Close to transit.** The project is right on the Mass Ave transit corridor and a 5 minute walk to the Porter Square T station. The project does not include on-site parking beyond 3 accessible spaces and 2 short-term parking spaces, but the concerns about traffic and parking are unfounded. Cambridge’s [Traffic, Parking + Transportation department writes](#), “The Project’s traffic impacts will be minimal, especially considering that the previous use of the site was a fast food restaurant use which generates more vehicle trips than the proposed Project,” and the developer has agreed to all of the Transportation Demand Management recommendations from the city. In a rare gesture for such a small project, the developer has agreed to an easement to widen the traffic lanes on Walden Street to 10’ each.
4. **Step-down urban design, ground-floor retail, and green design.** Instead of a consistent height, the building will have 9 stories along Mass Ave down to 6 stories along Walden Street to better respect the neighborhood fabric. It includes 1000 square feet of ground-floor retail space. The building is designed to [Passive House](#) standards and includes both solar panels and green roofs accessible by residents.

5. Developer reputation. Capstone Communities and Hope Real Estate Enterprises have dedicated the past decade to affordable housing and are passionate about their work and commitment to community. Sean Hope was born in Cambridge and is raising his family here, and Jason Korb's dad grew up in Cambridge. The Department of Housing and Community Development audits the developers' finances for the project to ensure a fair overhead and fee is charged.

Pacheco, Maria

From: Luis Mejias <lmejias@gmail.com>
Sent: Thursday, December 10, 2020 10:31 AM
To: Pacheco, Maria
Subject: 2072 Mass. Ave

Dear members of the Board of Zoning Appeal:

Please find my comments of support for the proposed project, as designed and with no further changes, below. Thank you.

My name is Luis Mejias and I live in Wellington Harrington. My mother, who requires the use of a wheelchair, lives at 5 Temple Street, a CHA resident. I am writing on behalf of myself and 49 families currently waiting for an affordable place to call home.

I applaud this project. This is exactly the type of project that should move through the approval process expeditiously. The project is 100% affordable, near significant mass transit, and includes little parking, so its impact on traffic will be minimal by discouraging car ownership.

I want to directly address the parking concerns since this seems to be a primary point of contention. I am a transportation and city planner, with many years of experience, and want to emphasize that having very little on-site parking is good. Further, I'm very familiar with 5 Temple, also near the Red Line, and often see few cars parked in the parking spaces on the ground floor. I wish those spaces were homes for people, not imaginary cars. If you make it hard to park cars, demand to own and use cars is reduced. The solution to parking is to price it correctly, not provide lots of free parking. Let's raise the price of residential permits, not make it easier and more convenient to have them and then complain about traffic and parking.

The same argument can be said for the proposed widening of Walden Street to accommodate three full travel lanes. If we're serious about tackling climate change, we should discourage car use for everyone, not try to relieve congestion by providing more space for cars. The fact that some are arguing for more parking and the City is pushing to widen roads is completely incongruous with the argument that people in this particular project should not have cars.

I implore the BZA and those reviewing this project later to reject any attempt to reduce the size or scope of this project. We need every single affordable home we can get. 49 homes are great. It would be even better with double that number. That being said, if the project is forced to be made smaller, that means fewer homes for those most vulnerable. Fewer homes mean the odds of the 20,000+ on wait lists winning the lottery (itself a travesty, as having a home should not require winning the lottery) are that much greater. Every home that is lost due to downsizing, is forever lost. We won't get it back.

Here we have a project that can house 49 families. Let's make sure 49 families get housed.

Thank you!

Pacheco, Maria

Subject: Letter of Support for 2072 Mass Ave (BZA-017326-2020)

Dear Members of the Board of Zoning Appeals,

I write to you in support of BZA Case No. 017326, to build 100% affordable housing using the passive house standard at 2072 Massachusetts Avenue. In addition to using this stringent environmental standard to minimize energy consumption and the resulting climate change emissions, the development's location near a major transit hub and extremely limited parking (3 disabled parking spaces and 2 pickup/dropoff spaces) are the model we should be following for housing construction in Cambridge.

The developers are negotiating in good faith with the neighbors to arrive at a development that maximizes the affordable housing that can be constructed on the site without excessively impacting the neighborhood. To ensure traffic safety, it would seem advisable to require a full traffic impact report.

It's notable that the developers could build fewer units as of right under the newly adopted Affordable Housing Overlay, but are instead pursuing a larger development under 40B. While this is riskier for them, it will hopefully result in a greater number of affordable units to help combat the affordable housing crisis in Cambridge.

These are exactly the kinds of projects we should be considering along major corridors like Massachusetts Avenue and in close proximity to mass transit. Thanks for your consideration.

Sincerely,

Quinton Y. Zondervan

Re:2072 Mass. Avenue, BZA-017326-2020
mpacheco@cambridgema.gov

Dear Board of Zoning Appeals,

I am writing to register my full support for the 2072 Mass. Ave. affordable housing project at the corner of Walden Street. I have lived for six years in a rented apartment nearby, at 1775 Mass. Ave. in the Newport Road condominiums. We are desperately in need of affordable housing in Cambridge, especially housing that will accommodate families with children, like mine. Given that the project is on a major thoroughfare, surrounded by businesses, so near to Porter Square, it makes sense to increase the height of the building in order to provide additional apartments. As we are all aware, the cost of housing is very high in Cambridge and surrounding areas, and there is a lack of available rental units. I am pleased to see that the 2072 proposal includes so many two- and three-bedroom apartments.

When new construction is proposed, traffic and parking increases are often raised as objections. I think that the proposed development will be attractive to families like mine who do not own a car. I know of many local families who walk, bike and take public transit everywhere; for many of us a car is not necessary in the Cambridge-Boston area, especially in the Porter neighborhood. For example, the two buildings that make up the Newport Road condominiums have 83 units and are about the same distance from Porter Square as the proposed development at 2072 Mass Ave. Most of the units do not have access to underground parking, and, like myself, many of my neighbors do not own a car. I regularly use Zipcar for errands, and occasionally have access to a borrowed car, and I have never had a problem finding parking within a block or two of my building.

In closing, I want to point out that one of the chief joys of living in Cambridge is living alongside families with a range of incomes and a variety of life experiences. The availability of affordable housing is absolutely essential to maintaining a diverse and welcoming city and a dynamic urban environment.

Sincerely,

Karen Leiter
1775 Mass. Ave., #2
Cambridge

Dear Members of the Board of Zoning Appeal and City planners,

Re: CASE NO. BZA-017326-2020, Dec 10 6:00 P.M.

As President of the Porter Square Neighbors Association (PSNA), I have watched this project with interest. I have also worked to make sure everyone in the area could attend at least one of the many public meetings held by Capstone Communities. PSNA has had the developers come to visit twice, and the NCSC had a meeting on 2072 Mass Ave as well. I have attended them all and the Planning Board Meeting.

I have followed the discussions on Next Door and posted there to be sure everyone knew when the meetings were happening, and where to find the plans/reports and upcoming hearing dates online. I have forwarded all of this information to at least three neighborhood email lists and to the PSNA listserv consistently. I have followed the North Walden group's formation, discussions, and petition. I have read all the reports and have walked and driven through the intersection to gather my own information to think about the proposed building and new residents.

Until now, I have not expressed my own opinion, which is not held by all PSNA members or by some who engage in the discussions on our e-mail list. I intend to do that now.

At first, I found the height at this challenging intersection to be daunting. I acknowledge the concerns of the residents of the first block or two of Walden from that intersection are valid. Yet as I think about the City's housing needs and indeed the vision of a future Cambridge (acknowledged by Envision Cambridge and common sense), I am required to think bigger than that.

Even the prior zoning for Mass Ave allowed for taller buildings than exist there now. There are buildings near that site nearly as tall as the proposed housing development. And, as some of my colleagues have said, "If not there, then where will we build taller buildings?" Two T stations are within an easy walk, buses go by frequently. There are Blue Bikes nearby, and I think the developers should put a zip car on the site, to allow for use by multiple drivers, for short trips for groceries, and so on. I know they have a long list of options they plan to offer tenants to discourage car ownership.

The site is near many neighborhood stores, affordable restaurants, and the Porter Square Shopping Center, all of which offer strong incentives for tenants to stay in the neighborhood and keep their cars (if they have one) parked, or possibly give up a car.

There is, of course, the very real concern about more cars parking on local streets and in the City lot behind the building, which would take some of the spaces the current residents enjoy now. I feel that the number of cars that residents of any new project will introduce is often exaggerated in online discussions. I think most folks will not feel they need a car or want to use the car they may have given the alternatives available and the necessity of finding another space when they return. Still, some will need to use a car to go to jobs not easily accessed by public transit or walking. Or they may actually use their cars for their work. Still others will need to pick up kids from school and other activities or to take food to and check in on parents, like the rest of us. In the end, I believe that the parking issues will work themselves out.

It is very clear to me that the City wants to invest in affordable family housing. It will not invest in parking on the site nor will it allow the curb cut on Mass Ave, no matter how many people want to see that option on a plan.

The City will, no doubt, put a dedicated bike lane in front of the building (on Mass Ave) eventually (probably by the time the building opens), which will alleviate some of the bicycling safety issues raised. That, plus the ability of residents to enter, with bikes, from Mass Ave, will keep many bicyclists from needing to go onto Walden at all. Also, the opportunity to widen Walden Street itself and the adjacent sidewalk at Mass Ave with a strip of the lot offers a benefit to all who pass through the intersection.

I have been particularly saddened to see the Russell Apartments representative captured by so much of the negativity from the North Walden group. It is quite possible that the residents of the proposed apartments could be very helpful to their elderly neighbors. They could help Russell residents with groceries, may well want to befriend them, provide company or community, should a resident desire such. How such a relationship could be built is worth some consideration, and construction of that part of this project could begin well before the building itself. The fearfulness may be expected; it does not need to be encouraged.

Finally, I think the changes to the proposal made in response to community input have made the project better. I also think the building is beautiful, as are the Lesley A&D building and the quite different, Frost Terrace affordable housing development further down Mass Ave. I like the roof garden, the solar panels and the green roof. Indeed, there is a lot about the proposed building to like.

The new residents of the proposed apartments may indeed be pinching themselves when they move in, and all of us should reach out to make them welcome them in to our community. I know I will be there invite them to PSNA meetings!

Thank you,

Ruth Ryals

To Whom it May Concern,

I am writing to offer my support of the project proposed at 2072 Mass Ave. by the proponents. It is no secret that Cambridge and the region need more affordable housing but that is not why I support this project. I support this project because from an urban planning and housing strategy for Cambridge development along the Mass Ave corridor is not just needed, its smart design. Where else should a project like this be developed? Cambridge has long abdicated its duty to create a holistic plan for the City. However we have engaged in multiple studies from Envision to K2C2 and beyond. Every single study not only cites housing as a priority but suggests corridors like Mass Ave, Cambridge St, and Broadway as desirable "soft sites" for future housing development. The argument that this project is out of scale with the neighborhood is not something I would entertain much as who can honestly state that 1 to 3 story buildings are appropriate for transit nodes in an urban environment like this? I think it is also worth nothing that under the recently passed Affordable Housing Overlay (of which I am not a fan) this project would be entirely by right though at 7 stories. I applaud Sean Hope and Jason Korb as some of the most ethical developers in Cambridge and enthusiastically support this project. Please approve and let start taking these corridors seriously as we push Cambridge into 21st century urban design and planning.

Regards,

Patrick W. Barrett III, ESQ

Subject: 2072 Mass Ave Affordable Housing Development (BZA 017326-2020)

Mr. Constantine Alexander, Chairman
Cambridge Board of Zoning Appeal
831 Massachusetts Avenue
Cambridge, MA 02139

December 10, 2020

Re: 2072 Mass Ave Affordable Housing Development (BZA 017326-2020)

Dear Mr. Alexander:

I am a strong supporter of the Capstone Communities LLC and Hope Real Estate Enterprises LLC ("CC HRE") Comprehensive Permit application for its proposed 100% affordable housing apartment homes at 2072 Mass Avenue. I could not be more thankful that the building site will become available to 49 families in need of affordable housing.

There are so many strengths to this project; the first being the developers, and in particular Sean Hope. Sean has deep ties to Cambridge; the son of a neighborhood activist mother, he knows this community, loves this community, and has a lifetime commitment and record of caring for the needs of many families who will benefit from these units. Both developers have a successful record of having already developed two 100% affordable housing sites.

The size of this site will allow 49 families to comfortably live and work in our community. A number of family sized units will be available - ranging from 14 one-bedrooms, 21 two-bedrooms, and 14 three-bedroom apartments – and affordable to individuals and families earning a range of incomes – 30% and 60% of the area median income. The site is extremely well-served by public transit, including the Porter Square MBTA Redline and Commuter Rail stations a short walk away. The convenience of public transportation with the bulk of the height of this building on Mass Ave is also consistent with urban smart growth principles. The public improvements to Walden Street of widening the roadway and sidewalk will be a dramatic and permanent improvement to the Walden Street neighborhood, thereby providing a safer pedestrian and vehicle experience at the currently congested corner of Mass Ave and Walden Street.

Additionally, I commend the developers' willingness to incorporate feedback by shifting the taller heights toward Mass Ave and lowering the rear of the building, creating a step down into the residential neighborhood along Walden Street. This lowering of the rear portion of the building also activates the roof of the lowered portion for planting and a shared outdoor space which will be a wonderful amenity for the building occupants.

I write to you regarding the strengths of this project and who it will serve to ask that you please keep centered in your hearts and mind who is at stake in your deliberations. We are always making decisions on whose needs we can meet, who will be inconvenienced and assessing the strengths and harm of our choices at all

levels of governments but nowhere as clearly as you do serving on the BZA. The design concept and scale of the project are strong. I support this project with all 49 units. I believe the developers have worked hard to respond to the hopes and likes of the immediate surrounding neighbors. I also believe that the possible inconvenience some might fear is outweighed by the overall benefits. I have known the diverse needs of the kind of families that will benefit from these life-changing, live-saving, generationally transforming opportunities.

Many of you know my story, even if you don't know me personally. I stand here today as a State Representative who has, over eight years, proudly passed important legislation that will save lives and strengthen community resiliency. I served as City Councillor for 14 years and am proud of my service to our community in helping to systemically reimagine how we approach and support the issues of domestic violence and sexual assault. I am very proud of the multi-year work I led on how we deliver services to our early educators in Cambridge, expanding our capacity to provide mental support to children and families, and include providers that were excluded from state services. I love that I played an important role in rethinking how we deliver programming to our youth centers and spearheaded the creation of the youth subcommittee on the Kids Council, in which the first group of students included a young CRLS student whose family immigrated to the US and lived in public housing. She now proudly serves as our Mayor.

My point is not so much about me, but to remind you that for EVERY unit of affordable housing, a family's life will forever be changed, transforming generations and in some cases saving lives. Without stable housing in a well resourced community like Cambridge, many children and families will never be able to fully experience their total potential and unleash their gifts and talents that will benefit entire communities. Even the loss of two units is a decision to exclude two families from the opportunity to benefit and contribute to our community.

I can recall when my family and I were living in a two bedroom in Woodrow Wilson Court--my younger brother and I shared a bedroom. It was fine until it wasn't. Until we became self-actualized individuals who developmentally needed our space and were confined in a home that was already strapped by the pressure of poverty, a mom who routinely worked double shifts, and a father who was silently suffering from his years of war time combat. We were lucky to secure the golden ticket: a section 8 voucher. We visited two potential homes and were denied both; one did not meet code and the other was less than \$50.00 above the voucher limit. For a brief moment, I was able to dream about what it would be like to live in a beautiful home with my own room. If you have been around long enough - then you can appreciate the CHA housing stock in the 1980's greatly suffered the indignity of decades of neglect from the Federal and State government no renovations or upkeep. The living conditions would never meet code today. I would be happy to sometimes share more about how the humiliation of poor living conditions, linoleum floors peeling, asbestos tiles duck taped, rusted dirty appliances that we could not have changed, have on the emotional and physical well-being of children and adults. For every family denied the opportunity to live in Cambridge, these are certainly the conditions they will continue to face outside of our city.

Finally, I will remind you that you have heard from me only a few times at the most since I left the City Council. Even as a city councillor there will be some of you who remember I did not often communicate to the board. I firmly believed then and now your job was to assess these projects independently of the opinions of elected officials. It would then be my job as a city councillor to assess your conclusion to be sure it met the needs of our community priorities and standards. I respect that protocol seems to have shifted and it is far more common for you to hear from local elected officials. I still have tried to honor what I believe is your role in these deliberations. This opportunity is too important and since I will not have a chance to comment, assess and vote on the municipal level, I could not miss the opportunity to weigh in and be a voice for the 49 families

watching and waiting to see their fate unfold in your hands. This project meets the high standards of design, quality, ample community input, smart growth and the overwhelming value to add more affordable housing over market rate when possible.

For all these reasons I urge you to give this Comprehensive Permit application your strongest consideration and I thank you for your attention to this matter.

Sincerely,

Representative Marjorie C. Decker

Subject: Case BZA-017326-2020: Support Affordable Housing

Dear Board of Zoning Appeal members,

I support the affordable housing project at 2072 Mass Ave near Porter Square (Case number #BZA-017326-2020). I have lived in the Porter Square area for four years and have always wanted to see larger, denser housing near the T station in the square. The project will be close enough to the Porter T and along several major bus routes that any claims that the development will negatively affect parking and traffic in the neighborhood are baseless, rooted in irrational fear of change and willfully ignorant of the need for affordable housing in Cambridge.

I would like to remind the Board that many of the local buildings were actually originally built quite tall compared to their "neighborhood context", but were downsized during the Great Depression to avoid property taxes and then down-zoned as a product of racist redlining policies in the mid-20th century. If the Board cares at all about housing justice, they should approve this project as soon as possible.

Thank you,

Jae Storozum
16 Whittier St.

Subject: 2072 Mass Ave project (ZBA 017326-2020)

Constantine Alexander
Zoning Board Chairman
831 Mass Ave
Cambridge, MA 02139

To whom it may concern,

I write to you today on behalf of the Massachusetts Housing Coalition to declare our support for Capstone Communities LLC and Hope Real Estate Enterprises LLC development of a multi-family 100% affordable housing community at 2072 Mass Ave. (ZBA 017326-2020), with 49 residential rental units, as well as ground floor commercial and building amenity space.

The Massachusetts Housing Coalition (MHC) is a non-profit organization founded by Massachusetts residents, tenants, homeowners, and property owners. MHC is focused on protecting and increasing access to affordable and workforce housing options in Massachusetts by promoting economic and systemic equity, racial and social justice, and by advocating for sustainable and smart growth housing, along with transportation infrastructure that supports residents and vulnerable populations.

MHC is supportive of this project for many reasons, but the most pertinent reason is also the most simplistic - our region *desperately* needs more affordable housing. While the issues of housing shortages, affordability, and accessibility have been discussed for decades, with potential solution after potential solution proposed, a simple, straightforward solution is right in front of us; if we want more affordable housing, we need to build more affordable housing.

An article published this past summer in the Boston Globe¹ sought to highlight the massive shortage of affordable housing in the Boston area, saying "Amid a housing crunch and a rental market upended by COVID-19, lengthy queues for affordable housing continue in Boston, with one organization that owns 500 residential units in Allston and Brighton seeing its waitlist top an eye-popping 17,000."

It continued, "There are other wait lists. The Boston Housing Authority, which provides affordable housing to more than 58,000 residents in and around the city, said it had more than 49,000 applicants for its affordable housing programs as of July 6.

Albert Caldarelli, the executive director of the East Boston Community Development Corporation, said recently that between 4,000 and 5,000 people are now in the queue for the agency's affordable housing.

Leslie Reid, the chief executive of Madison Park Development Corporation, which has 790 residential units in Lower Roxbury, the vast majority of which are subsidized housing, said there are currently about 7,300 on its waitlist."

With such profound, widespread need, restricting or denying the development of more affordable housing - especially units designed for full families - would be incredibly disappointing and unnecessary.

Additionally, the effects of this development go far beyond waiting list numbers.

These units will bring more families and long-term renters to the area, increasing consistent economic activity regardless of whether school is in session.

It is also worth considering the potential societal benefits related to this development. Cambridge is predominantly white (67% of the population)², but, according to the National Low Income Housing Coalition³, "Black, Native American, and

Hispanic households are more likely than white households to be extremely low-income renters - with incomes at or below the poverty level or 30% of their area median income – for whom there is a dire shortage of affordable and available homes; nationally there are just 37 rental homes for every 100 extremely low-income renter households. Twenty percent of black households, 18% of American Indian or Alaska Native (AIAN) households, and 16% of Hispanic households are extremely low-income renters.” It is therefore worth pointing out the likelihood that this will increase the diversity of Cambridge. A paper put out by the Urban Institute⁴ elaborates on “the substantial body of evidence that residential segregation undermines the well-being of individuals, communities, and American society as a whole. Although we know much less about the potential benefits of neighborhood diversity than about the costs of segregation, considerable research finds that both whites and minorities gain from diverse communities.” This is a real chance to make tangible progress in Cambridge’s pursuit of social and racial justice.

We hope that you will consider the importance of this project to so many families in need, as well as the societal benefits it would entail, in voting to approve this proposal.

Thank you, Sam Shoap Outreach Director Massachusetts Housing Coalition

Ranjit,

Based on my discussions with Susan Frankle (who was also speaking on behalf of the North Walden Neighbors group), she asked me to let you know that there have been ongoing concerns expressed by residents in this local neighborhood about the traffic congestion and cut-through traffic in this vicinity, particularly on Mead Street and Cogswell Avenue. As I've noted in my previous communications, we do not believe that the construction of the proposed projects at 2072 Massachusetts Avenue will lead to any significant changes (positive or negative) to that situation. However, I wanted to make sure that you are aware that these concerns have been expressed to us, and that we have been working with local residents to address the cut-through traffic and safety issues, in case that information is of interest to the BZA.

Thanks, and let me know if you have any questions.

To: Pacheco, Maria
Subject: Support for 2072 Mass Ave. Zoning Relief from 16 Walden #2R

Dear Ms. Pacheco and Board of Zoning Appeals Members,

I'm writing as a neighbor of 2072 Mass Ave in support of Capstone's project. I live at 16 Walden Street, one house over from what is now Darul Kabob. I can understand my neighbors' concerns, particularly those from residents of the Russell Apartments and worries re: congestion and traffic. However, the project will have far greater benefits to our rapidly gentrifying neighborhood than drawbacks. The team at Capstone has also worked hard to listen to neighborhood concerns and accommodate them in the version you're seeing tonight.

Pre-pandemic, I was lucky enough to meet different neighbors, whether while hanging out on their stoops, passing by, or playing with their kids. I met two longtime Cambridge residents who were voucher holders. Both needed to leave the North Walden area because their rental units were for sale and they couldn't find neighboring units which fit their vouchers' payment standards. I also met longtime residents who lamented that their children couldn't afford to return home and rent near them after college. The Capstone project will help keep people from our neighborhood in our neighborhood. The project will be an asset to neighborhood stability.

Most importantly, the Capstone project will include Section 8 voucher units and family-sized units. Our lowest income residents face the largest barriers to securing decent and affordable housing: credit checks, prejudice, security deposits and simply being unable to afford market rents, even when employed full-time. As do our city's families. And yet, federal funding for programs like Section 8 continues to decrease annually, putting our poorest residents--who often choose between homelessness and doubling (or tripling) up during a pandemic--in an increasingly unsafe and difficult situation. Waitlists for housing serving residents making at or below 50% the Area Median Income (AMI) often reach over a decade. Cambridge families--including those making 60% of the AMI, this project's other targeted income--also face huge barriers to remaining in our city without overcrowding. We need to jump at the opportunity to house these folks now, in housing which is safe and they can afford. The project provides a rare opportunity to add units for Cambridge residents with the most urgent housing needs.

Sure, I have my worries. Will my old condo collapse during pile driving? (Answer: very probably no, but if there are any issues Capstone says they will document them and resolve them). Will my girlfriend have to circle the block a few times to find a parking space? (Possibly, but no biggie). Will the proposed rooftop patio be loud at night? (I turn into the Grinch after 9pm, so the jury's out on that but it's a city and I have earplugs and a sound machine). The opportunity to build high quality affordable housing Cambridge residents can afford (in the best neighborhood in Cambridge) outweighs any of these concerns by a mile.

Thanks for reading my comments, and thanks to Capstone.

Best,
Abra Berkowitz

To: Pacheco, Maria
Subject: 2071 Mass Ave Project

To the Members of the Cambridge Board of Zoning Appeals,

I am writing to urge you to require the 2071 Mass Ave project to confirm with the AHO (and other City) guidelines.

As I'm sure you will remember, the AFO guidelines were the subject of heated debate, due consideration, and revision in an effort to balance the various interests involved, *including those of developers*. Available to all in the original form years ago, they now stand as law and are designed to ensure that AFO projects are economically viable.

Given this, as well as the fact that the 2071 project is receiving significant public support, it is unnecessary, inappropriate, and a dangerous precedent to waive the AFO height restrictions for this project, which is proposed to be some 30 feet higher than otherwise permitted. The fact that the project is presented under a special permit application allows but does not justify a departure from the AHO guidelines.

As a citizen who was involved in discussions about the AFO, I am deeply troubled by the possibility that this legislation will be effectively ignored. *If a developer can get around the AFO guidelines by filing for a Special Permit, what was the point of the AFO?*

I am also aware of the fact that there are now some 14,000 (!) vacant rental units in Cambridge, with prices decreasing rapidly. There is an opportunity to serve the needs of low-income resident while requiring the developer to redesign that project to conform to the AFO and to conduct a traffic study that takes account of the hazards at the particular location and expectations for life after COVID.

I appreciate your thoughtful consideration of this matter.

Elisabeth Werby
7 Wright St. #1

Dear members of the BZA,

As a lifelong resident of North Cambridge, I am writing to express my strong support for the proposed development at 2072 Mass Ave (CASE NO. BZA-017326-2020). I have commuted from North Cambridge to CRLS and to jobs around Cambridge and Boston on foot, by bicycle, and via the 77 bus and the Red Line, and I know from personal experience that transit-oriented living in North Cambridge affords great opportunities to benefit from and contribute to the city as a whole. I am particularly excited that this project proposes 49 affordable units. As a young person in Cambridge, I know that private market rents have made it nearly impossible for many of my classmates and peers to start their professional lives in the city where they grew up. Just as importantly, these units will provide valuable housing options for families using mobile vouchers, as illegal source-of-income discrimination and the competitive market for two-bedroom and three-bedroom units in Cambridge often makes it very difficult for families to use these vouchers before they expire. Neighbors who have expressed opposition to this project are right that North Cambridge is a great place to live, and this only deepens the city's obligation to provide additional affordable homes here when projects like 2072 Mass Ave are proposed. As such, I strongly encourage the BZA to grant a comprehensive permit in this case, and further encourage you to maintain the proposed density and unit mix.

Thank you for your time and consideration, and best wishes,

Will MacArthur

Hello -

I'm writing in support of the 2072 Mass Ave affordable housing development.

It may need some tweaks to be closer to the AHO guidelines, but I can understand starting out with an ambitious design in order to wind up with the most possible affordable housing.

Please keep this project moving forward. Cambridge desperately needs more affordable housing; that means increased density, which is most acceptable on major streets like Mass Ave.

Thanks,

MEMORANDUM

To: Cambridge Board of Zoning Appeal

From: Joseph E. Barr, Director

Date: December 10, 2020

Subject: 2072 Massachusetts Avenue Comprehensive Permit Application –
Supplemental Information

The Cambridge Traffic, Parking, and Transportation Department (TP+T) has reviewed the transportation-related materials that have been submitted to the Board of Zoning Appeal by CC HRE 2072 Mass Ave Tenant LLC, in relation to the Comprehensive Permit Application for the proposed 49-unit affordable housing development at 2072 Massachusetts Avenue. This memorandum provides information that is supplemental to the communication that we submitted to both the Planning Board and the Board of Zoning Appeal, dated November 20, 2020.

Based on our review of the materials (including the “Parking and Traffic Assessment” prepared by Vanasse & Associates, Inc. dated November 9, 2020), the information submitted to date is sufficient to provide us with an understanding of this project, including the transportation-related impacts. As a result, we support the applicant’s request for a waiver of the Article 19 requirement to perform a Traffic Impact Study (TIS). Completing a TIS is unlikely to provide us with any meaningful additional insight into the project and the resulting impacts, particularly given the minimal trip generation estimates included in the Parking and Traffic Assessment. TP+T’s support for this waiver is conditional on their agreement to implement the mitigation measures described in our November 20, 2020 memorandum, including both physical infrastructure and ongoing transportation demand management measures.

Subject: 2072 Mass. Ave. project

I am writing on behalf of Just-A-Start Corporation (JAS) to convey our support for Capstone Communities development proposal for 2072 Massachusetts Avenue. JAS was founded in 1968 to address the needs of and create opportunities for low- and moderate-income people in Cambridge. We have accomplished this through a variety of programs and initiatives, none of which has been more important than our work to develop affordable housing. As effective as we have been at doing so, the lack of affordable housing in Cambridge requires the efforts of many, including both nonprofit and private developers working in partnership with the City.

Capstone Communities, and its principals Jason Korb and Sean Hope, are among the developers that have been effective in this effort. They have developed well designed and well managed affordable developments in the city, and their proposal for 2072 Mass. Ave. will be another such project. It will contribute 49 much-needed affordable apartments to the city. Like the residents of JAS's developments and other affordable projects in Cambridge, the tenants of 2072 Mass. Ave. will have access to the services and economic opportunity that Cambridge has to offer, giving them - adults and children - access to bright futures.

We're fortunate in Cambridge to have reputable developers, including Capstone, who have and will work with the City to advance our shared affordable housing goals. This project will move us in that direction. I urge you to support Capstones application.

Thank you.

Carl Nagy-Koechlin

Dear Ms. Pacheco--

I'm sorry for the very late submission of this letter, which will have to be short. (My building has been having a big problem with internet access for the last week, and my email obligations are now huge!)

I wanted to say that I have been part of two or three extended public discussions of close and more distant neighbors to the proposed building at 2072 Massachusetts Avenue, and I continue to be strongly in favor of, in fact quite excited about, the proposed building.

We hold ourselves to standards that are too low when we congratulate ourselves on being a leader in affordable housing here in Cambridge. The city has changed for the worse in almost every way since the banning of rent control became law in the mid-90s and prices and rents doubled, even tripled, in a few short years. Far too many families have had to leave the city they and their parents grew up in. Diversity has diminished, as has the city's liveliness and fellow feeling. And people are struggling, suffering, especially children and young people. I live and work part of the time in Paris, which has also seen rising rents and housing prices and a sort for-the-tourists gentrification, but it has not left people homeless or forced so many to leave their city.

This building is a model of environmental sensitivity. It will encourage use of public transportation and walking, given that only the handicapped will have cars (which is a large part of what gives Parisians significantly greater longevity, across classes). It is in line with the kinds of building that we must have to remain sustainable and to house our fellow citizens, and we know more or coming: the population grows, cities grow, this building is a humane response to those facts of life, and to the biggest fact of life of all, however we may strive to turn away from it: the increasing rate of carbon and methane-related warming and ills associated with it.

I'm happy about the building, and hope to see more like it, in Cambridge and surrounding towns, and soon. I live a few blocks away and do all my shopping and much of my social and even political life on Mass Ave between Linnaean Street and Cameron St.

Thanks for listening,
Mary Baine Campbell

Subject: 2072 Massachusetts Avenue

I would like to convey my distress that a project so far in excess of the physical parameters of its base zoning of a district and even greatly in excess of the recently adopted AHO be allowed to proceed as planned.

The information provided by the City describes an older proposal of 8 stories, the current proposal is for 9 stories on the corner of Mass Ave and Walden, stepping down to 6 stories on the 'south' property line.

I strongly object to such great height and density being allowed at all; there is no precedent for this building in North Cambridge.

There has been very little community process.

Sincerely,
Jean Hermann
