SUPPORTING STATEMENT FOR A SPECIAL PERMIT

Please describe in complete detail how you meet each of the following criteria referring to the property and proposed changes or uses which are requested in your application. Attach sheets with additional information for special permits which have additional criteria, e.g.; fast food permits, comprehensive permits, etc., which must be met.

Granting the Special Permit requested for 25 Lancaster St , Cambridge, MA (location) would not be a detriment to the public interest because:

A) Requirements of the Ordinance can or will be met for the following reasons:

The nominal change in building height per the proposed exterior below grade stair and window wells, the new and enlarged openings within the rear setback , and the right side window well with walls 6" above grade within the front yard setback will cause no detriment whatsoever to the use and enjoyment of abutting properties.

B) Traffic generated or patterns of access or egress would not cause congestion hazard, or substantial change in established neighborhood character for the following reasons:

The proposed work is modest, entirely invisible from the street except for the right side window well, and will therefore have no impact on the existing traffic patterns, will cause no change in the scale or character of the existing neighborhood. While the grade is being lowered and technically creating a taller building relative to the average grade, the roof line will remain unchanged. The new and enlarged rear transom windows are at grade and face a fence and dense landscaping, and will therefore create no loss of privacy for the rear abutters.

C) The continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would not be adversely affected by the nature of the proposed use for the following reasons:

The proposed work supports the use of the basement for habitable space which is consistent with the residential use of the structure and consistent with the use of the abutting and nearby properties.

D) Nuisance or hazard would not be created to the detriment of the health, safety, and/or welfare of the occupant of the proposed use or the citizens of the City for the following reasons:

The proposed work will create no loss of privacy, will cause no light or noise pollution, will cast no shadows or reduce on street parking.

E) For other reasons, the proposed use would not impair the integrity of the district or adjoining district or otherwise derogate from the intent or purpose of this ordinance for the following reasons:

The proposed work will not adversely affect the scale and character of the neighborhood, will have no adverse effects on the abutting properties and is consistent with the residential use of the neighborhood. There is no decrease in usable open space, there is no increase in FAR, and the street views of the house will remain unchanged.

The Avon Hill Neighborhood Conservation District (NCD) Commission hereby certifies, pursuant to Title 2, Chapter 2.78, Article III, Section 2.78.140-270 of the Code of the City of Cambridge and the City Council order establishing the Commission, that the alterations described below are not incongruous to the historic aspects or architectural character of the building or district:

Alter fenestration at right side basement level and add window well.

The Commission found that the proposed alterations were well thought out and do not negatively impact the historic character of the neighborhood.

Work is to be carried out as indicated in plans by GCD Architects, Cambridge MA, titled "Project: Basement Conversion, 25 Lancaster Street" dated May 30, 2024.

The plans referenced above are incorporated into this certificate, which is binding on the applicant.

This certificate is granted upon the condition that the work authorized is commenced within six months after the date of issuance. If the work authorized by this certificate is not commenced within six months after the date of issuance, or if such work is suspended in significant part for a period of one year after the time the work is commenced, this certificate shall expire and be of no further effect; provided that, for cause, one or more extensions not exceeding ninety days each may be allowed in writing by the Chair.

Case Number: **AH-855**

Date of Certificate: **June 24, 2024**
