

CITY OF CAMBRIDGE

BOARD OF ZONING APPEAL

831 Massachusetts Avenue, Cambridge MA 02139

617-349-6100

BZA Application Form

BZA Number: 232270

General Information

2023 JUL 19 PM 3:15
OFFICE OF THE CITY CLERK
CAMBRIDGE, MASSACHUSETTS

The undersigned hereby petitions the Board of Zoning Appeal for the following:

Special Permit: _____

Variance: X

Appeal: _____

PETITIONER: John Baker & Azilah Iskandar

PETITIONER'S ADDRESS: 25 Normandy Terrace, Cambridge, MA 02138

LOCATION OF PROPERTY: 25 Normandy Terrace Ext., Cambridge, MA

TYPE OF OCCUPANCY: 2 Family

ZONING DISTRICT: Residence B Zone

REASON FOR PETITION:

DESCRIPTION OF PETITIONER'S PROPOSAL:

1) Covered front porch, which services both 23 & 25 Normandy Terrace is beyond setback by 4 ft. 2) Uncovered back porch for 23 Normandy Terrace is beyond setback by 6 ft. 3) Uncovered back porch for 25 Normandy Terrace is beyond setback by 6 ft.

Illegal Deck Construction at 25 Normandy Terrace, Ext., Cambridge, MA

SECTIONS OF ZONING ORDINANCE CITED:

Article: 5.000 Section: 5.31 (Table of Dimensional Requirements).
Article: 10.000 Section: 10.30 (Variance).

Date: 7/13/23

BZA Application Form**SUPPORTING STATEMENT FOR A VARIANCE****EACH OF THE FOLLOWING REQUIREMENTS FOR A VARIANCE MUST BE ESTABLISHED AND SET FORTH IN COMPLETE DETAIL BY THE APPLICANT IN ACCORDANCE WITH MGL 40A, SECTION 10.****A) A literal enforcement of the provisions of this Ordinance would involve a substantial hardship, financial or otherwise, to the petitioner or appellant for the following reasons:**

From a financial standpoint, removal of the porches will require a minimum expenditure of \$50,000. This large sum represents a significant burden, one not easily absorbed. In addition, this expense would essentially be used to devalue the property, as the removal of these structures would decrease its overall utility and aesthetic appeal.

The hardship extends beyond financial. The porches have already been constructed, a process that was both long and strenuous for us and our neighbors. The removal process would likely be equally disruptive, if not more so, due to the need to deconstruct and safely remove materials. This additional period of disruption would further strain relations in our close-knit community, which is already recovering from the initial construction phase.

Moreover, the removal process would drastically and detrimentally impact the daily lives of the 2 families comprising five people residing in units 23 and 25. The front porch is heavily utilized as it is the main point of entry and exit for both units. Without the front and back porches, even temporarily, there would be no safe way of entering the premises for unit 23 in particular and both units as a whole, given the height of the entrances from ground level. Families in both units 23 and 25 utilize the back porches daily for meals, gardening and relaxation. Removal of the front and back porches would adversely impact the quality of life for all residents.

We believe these reasons combined demonstrate a substantial hardship that extends beyond financial implications, but significantly impacts community relations and daily life.

B) The hardship is owing to the following circumstances relating to the soil conditions, shape or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located for the following reasons:

The hardship we are facing arises from unique circumstances related to the land's soil conditions, shape and topography, as well as external factors related to the surrounding state woodland and property line ambiguities.

Our properties, units 23 and 25 Normandy Terrace, sit adjacent to state woodlands at the back. There is a separate buffer of 10 feet between our property line and these woodlands, providing a natural partition that ensures no families residing behind our property are disrupted. The back porches, which extend over the setback lines, are designed to provide an outdoor living space with views overlooking these beautiful state woodlands. The unique topography and proximity to the state woodlands are special circumstances affecting our properties that generally do not affect other properties in our zoning district.

In regard to the front porches, the unusual narrowness of the front property line posed a significant design challenge. To accommodate this and ensure an accessible and functional design, an integrated porch with a single walkway was built rather than two separate walkways, leading to the shared porch extending over the setback line.

Further compounding the situation, there were ambiguities concerning the setback property line during the construction phase. We own the property extending to the middle of the road, yet the site survey measured from the sidewalk, which is not part of our property, as it is private property.

If the setback is measured from the middle of the road, as we believe it should be, the front porch is well within the appropriate setback. However, as per the measurements taken by the site surveyor from the sidewalk, it overextends the setback by 4 feet. This inconsistency contributes to the hardship and reflects a unique circumstance not generally encountered by other properties within our zoning district.

Overall, the combination of our land's peculiar topography, the proximity to the state woodland, the shape of our lots, and the ambiguity about the property line measurements form the basis of our hardship and underpin our request for a variance.

C) **DESIRABLE RELIEF MAY BE GRANTED WITHOUT EITHER:**

- 1) Desirable relief may be granted without substantial detriment to the public good for the following reasons:
 1. **No Impact on Neighbors:** The porches in the back overlook state woodlands, and there is a separate buffer of 10 feet between our property line and these woodlands. This buffer ensures that there are no neighboring families behind our property that would be disrupted by the porches. Moreover, our front porch, although shared, does not encroach on any neighboring properties.
 2. **Consistent Aesthetic:** The design of the porches is in harmony with the character of the neighborhood, thus maintaining a consistent aesthetic. Removing these structures could negatively impact the overall visual appeal and character of the locality.
 3. **No Obstruction of Views or Light:** The construction does not obstruct any views or natural light to neighboring properties. The porches, though they extend over the setback lines, are not imposing structures that would have an adverse effect on the neighbors' access to light or enjoyment of their views.
 4. **Prevention of Disruption:** Removal of the porches would result in substantial disruption to the neighborhood due to the demolition and removal process. This would not only be a noise nuisance but could also temporarily affect road access, particularly if heavy machinery or dumpsters are required. Additionally, further demolition and construction would adversely impact the air quality in our neighborhood.
 5. **Resolving Ambiguities:** As per our understanding, the front porch is well within the appropriate setback when measured from the middle of the road, which we consider our property line. Hence, granting the variance may also help in resolving property line ambiguities for future reference and set a precedent for similar situations.

In light of these factors, the requested variance can be granted without causing a substantial detriment to the public good.

- 2) Desirable relief may be granted without nullifying or substantially derogating from the intent or purpose of this Ordinance for the following reasons:
 1. **No Impact on Neighbors:** The porches in the back overlook state woodlands, and there is a separate buffer of 10 feet between our property line and these woodlands. This buffer ensures that there are no neighboring families behind our property that would be disrupted by the porches. Moreover, our front porch, although shared, does not encroach on any neighboring properties.
 2. **Consistent Aesthetic:** The design of the porches is in harmony with the character of the neighborhood, thus maintaining a consistent aesthetic. Removing these structures could negatively impact the overall visual appeal and character of the locality.
 3. **No Obstruction of Views or Light:** The construction does not obstruct any views or natural light to neighboring properties. The porches, though they extend over the setback lines, are not imposing

structures that would have an adverse effect on the neighbors' access to light or enjoyment of their views.

4. **Prevention of Disruption:** Removal of the porches would result in substantial disruption to the neighborhood due to the demolition and removal process. This would not only be a noise nuisance but could also temporarily affect road access, particularly if heavy machinery or dumpsters are required. Additionally, further demolition and construction would adversely impact the air quality in our neighborhood.
5. **Resolving Ambiguities:** As per our understanding, the front porch is well within the appropriate setback when measured from the middle of the road, which we consider our property line. Hence, granting the variance may also help in resolving property line ambiguities for future reference and set a precedent for similar situations.

In light of these factors, the requested variance can be granted without causing a substantial detriment to the public good.

***If you have any questions as to whether you can establish all of the applicable legal requirements, you should consult with an attorney.**

ALL BRANCH CIRCUITS SUPPLYING 15 AND 20 AMPERE OUTLETS ARE TO BE PROTECTED BY AN ARC-FAULT CIRCUIT INTERRUPTER IN ACCORDANCE WITH THE 2017 NEC

ALL 125-VOLT, 15-20 AMPERE RECEPTS INSTALLED IN AREAS SPECIFIED BY 210.52 SHALL BE LISTED TAMPER-RESISTANT TYPE.

50# LIGHT BOXES REQUIRED

- NOTES:
1. INSULATED STAPLES ARE REQUIRED TO SUPPORT ALL WIRING
 2. 1288 SQ. FT. PER FLOOR (SMOKE DETECTORS REQUIRED EVERY 1,200 SQ. FT.)
 3. SMOKE DETECTOR TYPE: PHOTOELECTRIC
 4. SMOKE DETECTOR MUST BE INTERCONNECTED BETWEEN FLOORS.

THIS FOUNDATION PLAN IS FOR DIMENSIONS ONLY. FOUNDATION WALLS, FOOTINGS, COLUMNS, PIERS, AND SLAB TO BE DESIGNED BY OTHERS TO MEET STATE AND/OR LOCAL CODES USING EXISTING SOIL ANALYSIS. MANUFACTURER ASSUMES NO RESPONSIBILITY FOR ERRORS IN THE CONSTRUCTION OF THE FOUNDATION. ANY AND ALL DIMENSIONS SHOWN ON THIS DRAWING ARE TO BE CHECKED AGAINST THE FOUNDATION PLAN ("BUILDER COPY") BEFORE ORDERING FOUNDATION CONSTRUCTION. THE BUILDER/DEALER MUST CONTACT MANUFACTURER WITH ANY DISCREPANCIES PRIOR TO THE START OF CONSTRUCTION.
 MANUFACTURER WILL NOT ASSUME ANY RESPONSIBILITY IF BUILDER/DEALER/OWNER EXCEEDS MAXIMUM SPACING OF SUPPORTS AS SHOWN ON THIS DRAWING.
 WINDOW CENTER LINE LOCATIONS FOR RAISED RANCH AND/OR SPLIT-LEVEL MODELS TO BE OBTAINED FROM "BUILDER COPY" DRAWINGS.

THE BUILDERS MAY BE REQUIRED TO DESIGN THE FOUNDATION TO THE LOADS LISTED. INSPECTED AND APPROVED BY THE LOCAL BUILDING INSPECTOR.

THE FOUNDATION IS A COMMON AREA THE CEILING AND CLOSE OFF WALLS WILL REQUIRE ONE HOUR FIRE SEPARATION ON-SITE BY BUILDER INSPECTED AND APPROVED BY THE LOCAL BUILDING INSPECTOR.

THIS BUILDING HAS BEEN
 ENGINEERED AND APPROVED
 UNDER THE SUPERVISION OF

PLUMBING NOTES:

1. ALL PLUMBING CONSTRUCTION AND MATERIAL BELOW THE MODULAR FLOOR AND BETWEEN FLOORS IS THE RESPONSIBILITY OF THE BUILDER/CONTRACTOR AND IS TO BE DONE IN ACCORDANCE W/STATE AND LOCAL CODES.
2. CONCEALED PIPING IN UNHEATED AREAS, INCLUDING OUTSIDE WALLS, SHALL BE PROTECTED AGAINST FREEZING IN PLANT. PIPING SHALL BE KEPT OUT OF UNHEATED AREAS WHERE POSSIBLE.
3. ALL WASTE AND VENT LINES IN MODULES ARE ABS OR PVC PIPE. ALL SUPPLY LINES IN MODULES ARE COPPER, PEX, OR CPVC.
4. PITCH ON HORIZONTAL WASTE LINES IS $\frac{1}{8}$ " PER FOOT FOR GREATER THAN 3" DIAMETER PIPE, $\frac{1}{4}$ " PER FOOT FOR 3" DIAMETER PIPE OR LESS.
5. WASTE LINES: INSTALL WYE WITH CLEANOUT PRIOR TO EXITING WALL FOR CONNECTION TO DISPOSAL SYSTEM. 4" MINIMUM WASTE LINE TO SEPTIC (BY BUILDER IN FIELD).
6. WASHER SHALL HAVE MINIMUM 2" TRAP.
7. REMOVABLE TRAPS UNDER ALL SINKS TO PROVIDE CLEANOUT ACCESS.
8. GARBAGE DISPOSAL MUST HAVE SEPARATE TRAP. DISHWASHER CANNOT DISCHARGE INTO GARBAGE DISPOSAL.
9. KITCHEN SINK SHALL HAVE 2" DRAIN WHEN A GARBAGE DISPOSAL OR DISHWASHER ARE CONNECTED.
10. HORIZONTAL TO HORIZONTAL AND VERTICAL TO HORIZONTAL DRAIN CHANGES IN DIRECTION SHALL BE 45° WYES, LONG SWEEP 90° ELBOWS, LONG SEEP TYS, 6TH, 8TH, OR 16TH BENDS, APPROVED COMBINATIONS OF THESE OR EQUIVALENT LONG SWEEP FITTINGS. SHORT SWEEPS ARE PERMITTED IN SINGLE BRANCH HORIZONTAL TO VERTICAL CHANGES IN DIRECTION ON 3" PIPE AND LARGER.
11. ALL HORIZONTAL VENT BRANCH PIPING SHALL BE LOCATED A MINIMUM OF 6" ABOVE THE FLOOD LEVEL OF THE HIGHEST FIXTURE IN THAT BRANCH.
12. PVC-DWV PIPE SUPPORTS: AT BRANCHES, CHANGES IN DIRECTION, AND AT THE BASE, EACH FLOOR AND MID STORY (VERTICAL) MAXIMUM EVERY 4'-0" AT THE END OF BRANCHES, AND CHANGE OF DIRECTIONS OR ELEVATION,
13. PIPE PENETRATING FIRE RATED ASSEMBLIES INCLUDING FLOOR/CEILING SHALL BE FIRE STOPPED WHERE REQUIRED BY ALL CODES WITH MATERIAL EQUIVALENT TO CONSTRUCTION THROUGH WHICH IT PENETRATES AND BE SUITABLE TO PIPE MATERIAL, OR USE METAL PIPE FROM A MINIMUM OF ABOVE THE FIRE RATED ASSEMBLY AND DOWN.
14. FIRE STOPPING SHALL BE PROVIDED AND VERIFIED BEFORE IT IS COVERED OR CONCEALED IN THE CONSTRUCTION PROCESS.
15. ANY STRUCTURAL MEMBER SUBJECT TO HOLE DRILLING, CUTTING, OR NOTHCING SHALL BE LEFT IN A SAFE STRUCTURAL CONDITION BY BEING REINFORCED, REPAIRED, OR REPLACED IN ACCORDANCE WITH THE STRUCTURAL REQUIREMENTS OF THE CODE.
16. FIELD INSTALLED (ON-SITE) PIPING SHALL BE APPROVED BY THE LOCAL BUILDING CODE ENFORCEMENT OFFICER. PIPING SHALL BE FIELD TESTED FOR LEAKS.
17. BATH TUBS, INCLUDING GARDEN TUBS, HYDRO-MASSAGE, AND HOT TUBS SHALL HAVE A 1 $\frac{1}{2}$ " MIN OVERFLOW.
18. JOINTS AROUND PLUMBING FIXTURES SHALL BE MADE WATERPROOF AT FLOORS, WALLS, & COUNTERTOPS.
19. EACH FIXTURE SHALL BE INDIVIDUALLY DIRECT OR WET VENTED.
20. EACH DWELLING UNIT SHALL HAVE ONE MAIN 3" STACK FROM BUILDING DRAIN.
21. ALL VENTS THROUGH ROOF TO BE 3" MIN DIAMETER AND SHALL TERMINATE 18"-24" ABOVE THE ROOF.
22. BASEMENT MODELS SHALL BE PROVIDED IN FACTORY WITH A 2" VENT TO BASEMENT STUBBED BELOW THE FIRST FLOOR, THEN CAPPED AND LABELED. BASEMENT VENT MAY BE DELETED WHEN CLOTHES WASHER IS ON THE FIRST OR SECOND FLOOR.

23. ALL TRAP ARMS MUST BE SUPPORTED WITH $\frac{3}{4}$ " MINIMUM BEARING.(MA ONLY)
24. ALL PLASTIC PIPE MUST BE SUPPORTED AT INTERVALS IN ACCORDANCE WITH APPLICABLE PLUMBING CODES.
25. TRAPS SHALL BE PLACED AS CLOSE AS POSSIBLE TO FIXTURE OUTLET. MAXIMUM VERTICAL DROP FROM FIXTURE OUTLET TO TRAP WEIR IS 24".
26. INACCESSIBLE TRAPS SHALL NOT HAVE UNIONS, CLEANOUTS OR SLIPJOINTS. ACCESSIBLE TRAPS SHALL BE REMOVABLE WITH UNION IN TRAP SEAL OR HAVE CLEANOUT OPENING SIZED THE SAME AS THE TRAP.
27. MAXIMUM DISTANCE OF FIXTURE TRAP WEIR TO VENT SHALL BE IN ACCORDANCE WITH ALL APPLICABLE PLUMBING CODES.
28. PLASTIC PIPING SHALL BE PROTECTED WITH $\frac{1}{8}$ " STEEL PLATE WHEN PIPE PASSES THROUGH WOOD MEMBERS LESS THAN 1 $\frac{1}{4}$ " FROM EDGE OF MEMBER.
29. FIRST FLOOR FIXTURES SHALL CONNECT INTO HORIZONTAL BUILDING DRAIN MORE THAN 10 PIPE DIAMETERS DOWNSTREAM OF STACK BASE AND NOT CONNECT INTO SECOND FLOOR DRAIN STACK.
30. POTABLE WATER SYSTEM SHALL BE DISINFECTED ON SITE BY BUILDER IN ACCORDANCE WITH APPLICABLE STATE PLUMBING CODES.
31. ISLAND FIXTURE VENTING SHALL NOT BE PERMITTED FOR FIXTURES OTHER THAN SINKS AND LAVATURES. (SEE ISLAND DETAILS).
32. ANTI-SIPHONING DEVICE, VACUUM BREAKERS, AND AIR GAPS: FOR WATER DISTRICTUION SYSTEMS "PROTECTION OF POTABLE WATER SUPPLY".
 - 32.1. WATER HEATER LOCATED AT OR ON LIVING SPACE LEVEL MUST HAVE AN ANTI-SIPHONING DEVICE INSTALLED.
 - 32.2. CLOTHES WASHER MUST HAVE AN ANTI-SIPHONING DEVICE INSTALLED (IF NOT BUILT INTO THE APPLIANCE).
33. WATER HAMMER ARRESTORS SHALL BE INSTALLED WHERE QUICK CLOSING VALVES ARE UTILIZED. (I.E. WASHING MACHINES AND DISHWASHERS).
34. PIPE INSTALLED DOWNSTREAM OF THE POINT OF POINT OF DELIVERY SHALL NOT EXTEND THROUGH ANY TOWNHOUSE UNIT OTHER THAN THE UNIT SERVED BY SUCH PIPING.

Compliance: Passes using UA trade-off

Compliance: **1.9% Better Than Code** Maximum UA: **359** Your UA: **352**

The % Better or Worse Than Code Index reflects how close to compliance the house is based on code trade-off rules. It DOES NOT provide an estimate of energy use or cost relative to a minimum-code home.

Envelope Assemblies

Compliance Statement: The proposed building design described here is consistent with the building plans, specifications, and other calculations submitted with the permit application. The proposed building has been designed to meet the 2015 IECC requirements in REScheck Version 4.6.4 and to comply with the mandatory requirements listed in the REScheck Inspection Checklist.

REScheck Software Version 4.6.4 Inspection Checklist

Energy Code: 2015 IECC

Requirements: 0.0% were addressed directly in the REScheck software

Text in the "Comments/Assumptions" column is provided by the user in the REScheck Requirements screen. For each requirement, the user certifies that a code requirement will be met and how that is documented, or that an exception is being claimed. Where compliance is itemized in a separate table, a reference to that table is provided.

Section # & Req.ID	Pre-Inspection/Plan Review	Plans Verified Value	Field Verified Value	Complies?	Comments/Assumptions
103.1, 103.2 [PR1] ¹ 	Construction drawings and documentation demonstrate energy code compliance for the building envelope. Thermal envelope represented on construction documents.			<input type="checkbox"/> Complies <input type="checkbox"/> Does Not <input type="checkbox"/> Not Observable <input type="checkbox"/> Not Applicable	
103.1, 103.2, 403.7 [PR3] ¹ 	Construction drawings and documentation demonstrate energy code compliance for lighting and mechanical systems. Systems serving multiple dwelling units must demonstrate compliance with the IECC Commercial Provisions.			<input type="checkbox"/> Complies <input type="checkbox"/> Does Not <input type="checkbox"/> Not Observable <input type="checkbox"/> Not Applicable	
302.1, 403.7 [PR2] ² 	Heating and cooling equipment is sized per ACCA Manual S based on loads calculated per ACCA Manual J or other methods approved by the code official.	Heating: Btu/hr _____ Cooling: Btu/hr _____	Heating: Btu/hr _____ Cooling: Btu/hr _____	<input type="checkbox"/> Complies <input type="checkbox"/> Does Not <input type="checkbox"/> Not Observable <input type="checkbox"/> Not Applicable

2 (7:11 p.m.)

3 Sitting Members: Jim Monteverde, Steven Ng, Carol Agate,
4 Virginia Keesler, and Daniel Fernando
5 Hidalgo

6 JIM MONTEVERDE: Next case is -- are we too early?
7 Okay. I'll talk slower if I need to. Next case is 232270
8 -- 25 Normandy Terrace Extension. Is there anyone -- the
9 proponent like to speak on this matter?

10 [Pause]

11 No one's there? Shall we just move on? Oh, is
12 there?

13 STEPHEN NATOLA: Yeah, I think --

14 JIM MONTEVERDE: I'm sorry. I'm sorry. We have a
15 letter in the file from Patrick W. Barrett III, dated
16 September 13, and it requests a continuance for the above
17 case. They have just been retained by the owners and among
18 items would like time to correct the application, et cetera,
19 et cetera, et cetera. And they need a continuance.

20 So the next continuance date was November 9, was
21 it not?

22 STEPHEN NATOLA: Checking out October 12.

1 JIM MONTEVERDE: Oh. Say that date again?

2 STEPHEN NATOLA: October 12.

3 JIM MONTEVERDE: October 12. So let me make a
4 motion to continue. Let me make a motion then to continue
5 this matter to October 12, 2023 on the condition that the
6 petitioner change the posting sign to reflect the new date
7 of October 12, 2023 and the new time at 6:00 p.m.

8 Also, in furtherance that the petitioner sign a
9 waiver to the statutory requirement -- which I think they've
10 already done. Yes, they did that today. So that's all
11 done. They asked us that they sign. Yep, they've signed
12 it. they've returned it.

13 Also, that if there are any new submittals,
14 changes to the drawings, that those be on file by 5:00 p.m.
15 on the Monday prior to the October 12, 2023 hearings.

16 Also, if there are any changes to the dimensional
17 form and potentially any supporting statements, they also be
18 changed and submitted along with the new documents.

19 On the motion, then, to continue this matter,
20 Steven?

21 STEVEN NG: In favor.

22 JIM MONTEVERDE: Carol?

1 CAROL AGATE: In favor.

2 JIM MONTEVERDE: Thank you. Dan?

3 DANIEL HIDALGO: In favor.

4 JIM MONTEVERDE: Virginia?

5 VIRGINIA KEESLER: In favor.

6 JIM MONTEVERDE: Thank you. And Jim Monteverde in
7 favor.

8 [All vote YES]

9 JIM MONTEVERDE: That's five in favor. The
10 continuance is granted. Thank you.

Subject: 25 Normandy Terrace (BZA-232270) Request for Continuance

Maria,

We are requesting a continuance for the above referenced case. I have just been retained by the owners and among other items we would like time to:

- Correct the application to reflect the correct hardship thresholds
- Refine the scope of the Variance now that ISD seems to be in agreement that the back two decks are compliant
- Gather the proper elevation information to confirm that the front deck is in fact in violation or through our work determine if any violation truly exists.

The continuance, if granted, will allow time for me to get my bearings on the case and facilitate a much smoother process for all involved.

Respectfully,

Patrick W. Barrett III, Esq.
