

## Mass Ave Partial Construction Working Group Site Walk #3

The Mass Ave Partial Construction Project was initiated in response to the City's Cycling Safety Ordinance. The project will design and implement improvements to Massachusetts Avenue between Waterhouse Street and Alewife Brook Parkway, including separated bicycle facilities, pedestrian and transit improvements, and accommodation for curbside access. Improvements will be accomplished using a combination of quick-build techniques and limited construction such as removal and/or reconfiguration of the roadway median.

Visit [cambridgema.gov/massavepartialconstruction](http://cambridgema.gov/massavepartialconstruction) for more complete information about the Project, and for Project updates.

The City and Working Group have participated in two site walks along Mass Ave between Waterhouse Street and Day Street, and will be having a third site walk to observe travel behavior and consider design challenges in the northern segment of the Mass Ave project area:

- The site walk will be between Day Street and Alewife Brook Parkway, an approximately .7 mile segment

All Working Group meetings are open to the public, although time for general public comment will be limited. The Project will also be holding general public meetings and other public events during the planning and design phase. We encourage interested members of the public to join the Project contact list at [cambridgema.gov/massavepartialconstruction](http://cambridgema.gov/massavepartialconstruction) in order to learn about these events.

### Working Group Site Walk #3: Day Street to Alewife Brook Parkway

**Thursday, October 12, 2023**

**5:00 PM – 7:00 PM**

**Meeting Location: Intersection of Day Street and Mass Ave**
