

meet at

Cambridge City Hall

795 Massachusetts Ave
(near the benches at Mass Ave)

 Approx. 1 mile long walk.

What is Central Square Rezoning?

The Community Development Department (CDD) is leading a community process to update zoning for Central Square. Zoning is the set of rules that control the allowed shape, density, and use of the property. Guided by community goals identified in prior planning efforts, the recommendations will focus on:

- Increasing housing and affordability
- Supporting our diverse retail, cultural, and non-profit community
- Creating public spaces to build community

About Cambridge Historic Commission:

The Cambridge Historical Commission (CHC) is the city's historic preservation agency. It seeks to preserve the integrity and diversity of Cambridge's built environment and to disseminate information about its history. The CHC:

- Protects designated properties throughout the city
- Preserves the integrity of Cambridge's many significant buildings
- Honors local projects with Preservation Awards
- Advises private and commercial owners, institutions, and public agencies on historic preservation issues
- Participates in reviews of state and federal projects that impact historic resources
