

2022 MA Commercial & Industrial Energy Efficiency Offerings & Incentives

The Massachusetts Program Administrators (PAs) offer their business customers a wide array of financial incentives⁽¹⁾ to offset the cost of purchasing energy efficiency equipment in order to lower energy usage and operating costs. Incentives are available for a wide variety of eligible equipment and project types.

Your PA representatives can provide complete details and provide recommendations tailored to your business. Visit www.MassSave.com for more information.

For more information and to apply for incentives, visit:

Introduction

The Program Administrators (PAs) offer business customers in Massachusetts a wide array of financial incentives to offset the cost of purchasing energy efficient equipment in order to lower energy usage and operating costs and increase profitability and productivity. Incentives are available for a variety of eligible equipment and project types.

Eligibility

Incentives are available for Massachusetts commercial, industrial, municipal, educational and institutional customers who are making qualifying energy efficiency upgrades and retrofits to their equipment and buildings. Additional eligibility requirements may apply, depending on your project.

Simple Steps to Savings

Applying for incentives involves the following:

1. Identify an Opportunity

- Either on your own, or with the assistance of your PA(s) or a contractor of your choice, identify the qualifying energy savings opportunity. Consider a no-cost facility assessment as a starting point.

2. Submit Application

- Complete an official Application providing details about your company, your building, and the project along with necessary documentation (equipment cut sheets, engineering calculations or savings documentation, invoices, W-9, etc.)
- A pre-inspection may be required to determine eligibility. If so, a representative will contact you to schedule an appointment.
- Purchase and install the new qualifying equipment.

3. Receive your Incentive

- Once the equipment has been installed and all supporting information has been received and reviewed, you will be issued your incentive payment.
- A post-inspection may be required prior to issuance of any incentive payments.

4. Repeat the Process

- Once you start saving, consider re-investing those savings in the next opportunity.

With You all The Way

Your Program Administrator(s) will work with you to see your project through. We can guide you through the entire process of identifying energy saving opportunities, assessing the economics, and working through the administrative process to apply for and receive incentives.

Contact Us

Contact us to learn more about the incentives and services available and how they can help you build energy efficiency into your business by visiting www.MassSave.com.

Compressed Air

Air Compressors

15 to 24 HP	\$200 per HP
25 to 49 HP	\$150 per HP
50 to 75 HP	\$100 per HP

Other Compressed Air

Compressed Air Storage	\$2.75 Per Gallon
Engineered Air Nozzle	\$20 per Nozzle
Low Pressure Drop Filter	\$0.80 per SCFM
Refrigerated Air Dryer	\$5.25 per CFM Cycling & VSD Dryers
Zero-loss Condensate Drain	\$125 per Drain

HVAC Controls**Thermostats**

Programmable	Up to \$25 each
Wi-Fi Enabled	Up to \$125 each

Other

Aftermarket Reset Control, Installed on Forced Hot Water Boilers	\$225 each
Steam Trap	\$50 per Trap
Hotel Occupancy Sensor on Heat Pump or PTAC w/Electric Heat	\$75 per Sensor

Lighting Systems & Sensors

Lighting Systems – Retrofit

Description	Product Code	Min Watts Saved	Incentive Per Fixture
Re-Lamp & Re-Ballast Replacements			
T8 LED 2', 3', 4' or 8' (UL Type A,B, AB replacement)	81AT8	10	\$8
T5 LED 4' (UL Type A,B, AB replacement)	81AT5	10	\$16
T8 LED U-Bend (UL Type A replacement ONLY)	81ATU	10	\$16
LED Two-foot and Four-foot Linear Retrofit Tube Kit and Driver	81D	10	\$10
LED Four-foot Linear Retrofit Tube Kit and Driver	81	20	\$8
A-Line, 40/60W Equivalent	81A60	10	\$4
A-Line, 75/100W Equivalent	81A75	10	\$5
PAR16 or MR16 (pin or GU10 base type)	81A16	10	\$6
PAR20/R20	81A20	10	\$8
PAR30 or BR30 or R30	81A30	10	\$10
PAR38 or BR40 or R40	81A38	10	\$12
G23 and 2G11 Base	81G23	10	\$10
G24 Base	81G24	10	\$12
Decoratives (Globe, Candle, B-Shapes)	81AD	10	\$8
LED Mogul Screw-Base (E39) Replacement for HID Lamp	81M	100	\$50
LED Mogul Screw-Base (E39) Replacement for HID Lamp - High Output	81MH	200	\$70
Interior Fixtures			
LED Down Light Fixture – Hard Wired, Screwbase or GU-24 base (250-3,500 lumens)	80A	20	\$20
LED Down Light Kits/Fixtures – Hard Wired, Screw-base or GU-24 base (>3,500-7,000 lumens)	80B	40	\$50
LED Down Light Kits/Fixtures – Hard Wired, Screw-base or GU-24 (>7,000 Lumens)	80C	60	\$100
LED Display Case: Retail, Cooler, Freezer Case or Refrigerated Shelving Fixtures	82A	20	\$40
LED Low Bay: Mid Output (5,000-10,000 lumens)	86A	75	\$100
LED High Bay: High Output (>10,000-30,000 Lumens)	86B	100	\$150
LED High Bay: Very High Output (>30,000 Lumens)	86C	150	\$200
LED Indoor Troffer and Indoor Retrofit Kit - 1X4, 2X2, and 2X4	88A	23	\$50
LED Indoor Troffer - 1X4, 2X2, and 2X4	88B	23	\$60
LED Linear Ambient - Direct/Indirect Fixture	89	23	\$40
LED Interior Directional - Wall Wash/Wall Grazing Fixture	91	23	\$40
Exterior Fixtures			
Low Output (250-5,000 lumens)	85A	75	\$100

Mid Output (>5,000-10,000 lumens)	85B	100	\$150
High Output (>10,000-30,000 Lumens)	85C	150	\$200
Very High Output (>30,000 Lumens)	85D	200	\$250

Lighting Sensors & Controls – Retrofit

Sensor / Control Description	Product Code	Incentive Per Control	Minimum Controlled Wattage
Remote Mounted Occupancy Sensor	61	\$30	40
Daylight Dimming System and/or Occupancy Controlled Dimming System	62	\$15 per Fixture	20 per Fixture
Interior Integral Fixture Mounted Dual Sensor	63	\$30 per Fixture	20 per Fixture
Integral Fixture Mounted Dual Sensors and Network-capable Controls	63A	\$40 per Fixture	50
Wall Mounted Occupancy Sensor	64	\$20	20
Photocell Sensors (24/7 exterior systems)	65	\$25	50
Outdoor Integral Fixture Mounted Programmable Controller	65A	\$50 per Fixture	100
Integral Occupancy Sensor for High Bay Fixtures	68	\$25 per Fixture	50 per Fixture

Water Heating

Miscellaneous Water Heating

Faucet Aerator	\$8
Low-flow Showerhead	\$20
Pre-Rinse Spray Valve	\$25

Variable Speed Drives

Variable Speed Drives - New Construction

Eligible Types and Horsepower Ratings		Per Unit Incentives by Horsepower	
Type	Available HP Range	HP Size	Incentive
Boiler Draft Fan	Less than 25	1 to 3	\$1,000
Boiler Feed Water Pump	Less than 15	5 to 7.5	\$1,400
Chilled Water Pump	Less than 7.5	10	\$1,800
Condensed Water Pump	Less than 15	15	\$2,200
Cooling Tower Fan	Less than 7.5	20	\$2,600
Hot Water Circulation Pump	Less than 15	25	\$3,200
Make-up Air Fan	Less than 7.5	30	\$3,800
Process Cooling Pump	Less than 50	40	\$4,600
Process Exhaust and Make-up Fan	Less than 7.5	50	\$5,400
Water Source Heat Pump Circulation Pump	Less than 5		

Variable Speed Drives - Retrofit

Eligible Types	Per Unit Incentives by Horsepower			
	Types	HP Size	Drive Only	Motor & Drive
Boiler Draft Fan		1 to 3	\$1,000	\$1,250
Boiler Feed Water Pump		5 to 7.5	\$1,400	\$1,750
Building Exhaust Fan		10	\$1,800	\$2,250
Cooling Tower Fan		15	\$2,200	\$2,750
Chilled and Condensed Water Distribution Pump		20	\$2,600	\$3,300
Hot Water Circulation Pump		25	\$3,200	\$4,050
HVAC Return Air Fan		30	\$3,800	\$4,800
HVAC Supply Air Fan		40	\$4,600	\$5,850
Make-up Air Fan		50	\$5,400	\$6,750
Process Cooling Pump		60	\$6,400	\$8,250
Process Exhaust and Make-up Fan		75	\$7,500	\$9,450
Water Source Heat Pump Circulation Pump		100 to 150	\$8,500	\$10,950

Electronically Commutated Motors (ECMs)

ECMs for Fan Powered Boxes & Fan Coils or HVAC Supply Fans only

\$100

Equipment & Systems Performance Optimization

Low Cost Tuning Measures			
End Use	Measure	Incentive	Notes and Definitions
Compressed Air	Reduce Supply Side Compressed Air Pressure	\$0.85 per HP	Minimum of 2 PSIG Reduction; HP is defined as the total HP of the compressed air plant excluding backup units which only cycle on during failure mode
	Repair Compressed Air Leaks	\$50 per CFM reduced through leak repair	If CFM is not available, number of leaks and system pressure must be provided
HVAC	Optimize Economizer Control	\$175 per DX packaged or split system economizer \$600 per water- or air-cooled chiller system economizer	
	Reset Condenser Water Temperature	\$600 each	\$800 If all three-cooling system reset measures are undertaken collectively
	Reset Chilled Water Temperature	\$100 each	
	Reset Discharge Air Temperature	\$50 each	
	Reset Boiler Water Temperature	\$300 per reset controller	
	Adjust Pump Schedules	\$14 per HP per hour* of reduced run time	* Average # of daily hours reduced over the course of the year for each pump
	Adjust System Schedules	\$30 per fan HP per hour* of reduced run time \$25 per kW electric heat per hour* of reduced run time	* Average # of daily hours reduced over the course of the year for each fan
Refrigeration	Tune Anti-Sweat Controls	\$400 per low temperature circuit \$800 per medium temperature circuit	It is typical to have 4-5 doors per circuit
	Clean Condenser Coils	\$150 per condenser coil	Must utilize EPA approved coil cleaning solution
	Cycle Evaporator Fans	\$35 per fan	Not for standalone (self-contained) coolers or freezers
	Reduce Defrost	\$100 per Hour* increase of interval between defrost cycles	* Average # of daily hours of increased cycle interval, over the course of the year
	Optimize Floating Head Pressure	\$40 per condenser fan HP	
	Lower Condensing Pressure	\$35 per condenser fan HP	
	Optimize Condenser Fans	Tier 1 *: \$20 per HP of an capacity Tier 2 *: \$50 per HP of fan capacity	Tier 1: the section of any of the optimization strategies available on the drop-down list for this measure, which constitutes an improvement to the site's existing control strategy. Tier 2: assumes improvement to the optimal control strategy which includes VFDs w/ synchronized speed on all fans, assumes this is an improvement to the site's existing control strategy.
	Optimize Evaporator Fans	Tier 1 *: \$50 per HP of fan capacity Tier 2 *: \$75 per HP of fan capacity	
Steam	Steam Trap Repair	\$50 per trap repaired	Only available for Mechanical Traps
	Reduce Steam Boiler Pressure	\$100 per PSIG reduction in boiler steam pressure	

Targeted Systems Tuning

Tuning Investigation Funding	Base Incentive	Performance Bonus Incentive
Up to \$12,000 for Pre-Approved Projects	\$0.17 per kWh saved \$1.20 per Therm saved	Where savings relative to total consumption: Greater than 2.75% Electric - \$0.03 per kWh adder Greater than 1.50% Gas - \$0.20 per Therm adder

Whole Building & Process Tuning

Tuning Investigation Funding	Base Incentive	Performance Bonus Incentive
Up to \$30,000 Pre-Approved Projects	\$0.17 per kWh saved \$1.20 per Therm saved	Where savings relative to total consumption: Greater than 2.75% Electric - \$0.03 per kWh adder Greater than 1.50% Gas - \$0.20 per Therm adder

Monitoring Based Commissioning

Performance Based Incentive Amount

\$0.12 Per kWh Saved

\$1.20 per Therm Saved

Technical Assistance

Engineering Services

Support for engineering identification and quantification of savings opportunities

Project Specific

Custom Projects

Energy Efficient equipment not listed above may be eligible for custom incentives. Projects eligible for custom incentives typically require additional energy analysis in the project design process. Your Program Administrator can provide complete details.

Project Specific

Additional Opportunities

In addition to the opportunities listed previously in this document, there are many other resources available that can help your business save energy and money.

- For general information about what the Massachusetts Program Administrators (PAs) have to offer you and your business, please visit the Mass Save website at www.MassSave.com/en/saving/business-rebates/
- The Program Administrators have also developed relationships with equipment distributors throughout the state to make available a wide array of energy efficient equipment options at a reduced cost to you. Specific information about available products, eligibility requirements, and participating distributors is available at the following:

Food Service	https://www.masssave.com/en/saving/business-rebates/food-service-equipment/instant-rebates/
HVAC	https://www.masssave.com/en/saving/business-rebates/upstream-electric-hvac-program/
Lighting	https://www.masssave.com/en/learn/partners/upstream-lighting/
Water Heating	https://www.masssave.com/en/saving/business-rebates/commercial-water-heaters/

NOTE: *The incentives listed throughout this document cannot be combined with any other incentive offers, including those listed immediately above.*

For More Information

Your PA representatives can provide complete details and recommendations tailored to your business. Contact your Program Administrator(s) for more information.
