

We, the following residents of 808-812 Memorial Drive, live in a mixed income expiring use building in Cambridge. We were able to preserve our homes as affordable housing with the support of City funding. It is highly likely that none of us would still be living here if not for this funding. We need to preserve the affordable housing that currently exists in Cambridge and build more to keep Cambridge accessible to those of all income levels. We therefore ask the Community Preservation Act Committee to maintain the 80% allocation of funding for affordable housing

We live at Inman Sq Apartments located at 1221 Cambridge St. We live in an expiring use building and we were in great danger of losing our homes. Through the use of affordable housing funding from the Community Preservation Act, we were able to have our homes preserved. We believe that there is a great need for affordable housing in Cambridge and urge you to allocate 80% of CPA funds for affordable housing. Through this allocation, the City can help ensure that other residents across the City will not lose their homes to expiring use.
