Attendance:

1. City and CPSD metrics for increasing or relieving safety restrictions:
  - local and regional sewage data would provide unbiased samples for setting thresholds (eg relative to main MA data set biased by repeat testing at schools and universities)
  - update on sewage sampling for Cambridge
  - update on setting of metrics
2. Can free testing be encouraged and offered for non-Cambridge residents who work in Cambridge, especially those in frontline service positions and restaurants?
3. Should school playgrounds be open or closed to the public during school hours?
4. Update on recommendation for antigen-testing company?
